RANDALL COUNTY NEWS

VOLUME NUMBER XXVIII. CANYON, RANDALL COUNTY, TEXAS, THURSDAY, JUNE 19, 1924. NUMBER 12

$65,000 DEPOT FOR CANYON

TEXAS PRESS COMES TO CANYON 5:00 TODAY

COLLEGE FACULTY AND STUDENTS TO GIVE ROUSING WELCOME TO NEWSPAPER EDITORS AND THEIR FAMILIES

PLATE LUNCHEON WILL BE SERVED BY 250 OF THE YOUNG WOMEN OF COLLEGE AT 7:00 O'CLOCK—THE BAND, REDMEN, GYMNASIUM CLASS, WILL GIVE ENTERTAINMENT.

The Texas Press Association will visit the College for three hours or more this evening. A short drive will be made over the city as the party reaches Canyon. At seven o'clock a plate luncheon will be served by 250 young women of the College, after which a short program will be given.

After spending an enjoyable afternoon at the Devil's Kitchen the members of the Texas Press Association will be brought to Canyon in one hundred automobiles at 5:00 o'clock this afternoon. A short drive will be made over the city to show the visitors THE BEST PAVED TOWN IN THE SOUTHWEST FOR ITS SIZE. The drive will go in front of the high school building, which according to the State Superintendent has the highest per capita attendance of any high school in Texas.

Reaching the College building, the swimming pool will be ready for those wishing to take a plunge.

Dean L. G. Allen will head a reception committee at the east entrance and Associate Dean R. P. Jarrett will head another reception committee at the west entrance. Members of the faculty will direct parties through the building.

At seven o'clock the guests will be directed to the front of the main building where President J. A. Hill will speak a few words of welcome. Sam M. Braswell, president of the Texas Press Association, will respond.

The Redmen will then take charge of the guests and direct them to the campus.

The plate lunch will be served by 250 young women of the College.

The College Band will play during the luncheon.

The guests will be directed by the Redmen to the auditorium where a 20 minutes program of music, reading and stunts by the girls' gymn class will be given.

Following the program, the guests will return to Amarillo where the Association meeting closes on Friday afternoon.

Dr. C. E. Donnell invited forty-five Canyon people out to his farm west of the city Thursday afternoon to a big fish fry. An abundant of fish were caught for this occasion.

DEMOCRATIC EXECUTIVE COMMITTEE FIRST SESSION

ASSESSMENTS MADE FOR PLACES ON PRIMARY TICKET.

Small Number of County Candidates This Year Makes Increase Necessary for Two Primaries.

The first meeting of the County Democratic Executive Committee was held Monday, with County Chairman A. N. Henson, presiding, and C. D. Lester, acting as secretary.

Places on the primary ballots were selected by lot for all candidates who had made application. Assessments were made for places on the ballots as follows:

Candidates for County Judge, County Sheriff, County Clerk, and Assessor, $25.00 each; County Treasurer, County Attorney, Justice of the Peace and Constable, $5.00 each; County Commissioners, $15.00 each; Hide and Animal Inspector, $10.00; All state and district officers, $1.00 each.

This is the highest assessment ever made in Randall county for primary elections owing to the fact that there are fewer candidates this year.

Under the laws, county and precinct officers must be assessed a sufficient amount otpay the expenses of two primaries. In Randall county this year there is only one possibility of a second primary, that being in precinct number one, where there are three candidates for commissioner. All of the other faces will be settled in the July primary, yet the local candidates must be assessed to pay the expenses of the August primary.

The following were appointed by the executive committee to hold the primary elections in the various precincts:

No. 1—A. M. Smith.
No. 2—Jeff Hileman.
No. 3—D. S. Hill.
No. 4—E. N. Zachery.
No. 5—H. R. Riggs.
No. 6—Tom Lair.
No. 7—J. S. Pope.
No. 8—Henry Beckman.

All primary election assessments must be paid to A. N. Henson on or before June 23.

A. N. Henson and C. D. Lester were appointed to arrange the ballots on the second Monday in July.

TO REPLANT COTTON.

Jim Johnson said Saturday that he was going to replant his late cotton as it was badly damaged by the hot weather and little moisture of the last week.

He states that the early cotton crop is in fine shape.

CHURCH OF CHRIST STARTS WORK ON CHURCH BUILDING

STUCCO HOUSE TO BE ERECTED EAST OF PRESENT HOUSE.

Work Will be Started by Church of Christ on New Building Within the Next Few Days.

After a delay of some time, work is to be started on a new building for the Church of Christ within the coming week.

It was planned last fall to build a basement for the church this year, but the officials have decided upon another plan, which will be put into execution at once.

Lots were bought of J. T. Service just across the street east of the present church location. A stucco house 30x40 feet will be erected and used as a church for the present. As soon as the congregation feels able to erect the kind of church building it needs, this stucco building will be transformed into a parsonage or sold for a residence and a brick church building erected on the lots now occupied by the present building.

Farmers Start Binders Wheat Field—Combines Ready in a Few Days

Geo. F. L. Bishop, W. G. Rose, W. Deeke, Henry F. Miller, S. S. Williams and several ohter farmers have their binders busy cutting the wheat crop.

Mr. Bishop was probably first in this section to start cutting wheat. He stated Monday that there were a few green spots in the wheat field, but on the whole the grain was sufficiently ripe to bind. He believed that the grain would mature in the shock just as well as standing in the field, and he might suffer damage by wind or hail if he allowed the wheat to stand longer.

Farmers all over the country have reported the past week that they believe the whaet crop will be the best in years in spite of the small acreage. From every indication the quality of the wheat will be very fine.

Farmers with combine are watching their fields, and some will start today or tomorrow. It was thought last week that the grain would not do for the combine within two weeks, but the hot weather rushed up harvest at least a week or ten days.

Ten of the eleven legislatures meeting this year have passed more than 4,000 new state laws.

CANYON PEOPLE ASKED TO MEET NEWSPAPER PEOPLE AT THE COLLEGE AT 7:30 O'CLOCK THIS EVE

The Texas Press Association will be guests of Canyon and the College this evening from 5:00 to 8:30. A program is prepared to entertain the guests during that time.

President Hill invites the citizens of Canyon to drive to the College campus at 7:30 o'clock and meet the guests. It is impossible to take care of others than the guests for the luncheon. Most everyone in Canyon knows some newspaper man or woman who will be here tonight. Go out and look up these friends and welcome them to Canyon.

SPEAKS FRIDAY

LYNCH DAVIDSON.

Lynch Davidson of Houston will speak to the voters of Randall county Friday afternoon of this week at 2:00 o'clock in the interest of his candidacy for governor of Texas.

Mr. Davidson has been a member of the House of Representatives, of the Senate and was Lieutenant Governor.

He is a successful business man, and advocates more business in government and less government in business.

Earl Greenfield Was Drowned Monday in Creek of the Palo Duro

Earl Greenfield was drown Monday at the Walter Cobb ranch 22 miles southeast of this city Monday morning while bathing with his two brothers Harry and Gordon.

The three went to the Cobb ranch to look at some cattle and decided to take a swim in the pool in the Ceta canyon. They were on a log in the water, when it turned, striking Earl on the head, and evidently rendering him unconscious. His brothers state he came to the surface twice, but they were unable to rescue him. The pool had to be drained before the body could be recovered.

Earl Greenfield was 22 years of age and lived six miles west of Happy. He is survived by his wife, a bride of six months, by his parents and five brothers.

Funeral arrangements are awaiting the arrival of a brother from Wyoming.

WORK COTTON CROP.

Old cotton farmers urge the farmers to keep working their cotton crop during this hot, dry weather.

Most of the experienced cotton farmers believe that the early cotton will not be hurt by the hot weather if the farmers will keep the land clean and continuously work the ground lightly.

Many farmers have reported the past few days that the late cotton is badly hurt, especially those crops just coming through the ground when the hot weather hits.

BANKERS VISIT HERE.

Ed H. Winton, cashier, and H. C. Burke Jr., of the Continental National Bank, Fort Worth, were in the city Friday. They had attended the Bankers Convention in Amarillo and were making a tour of the Panhandle, getting acquainted with conditions. Mr. Winton and R. I. Graves of the First National Bank have been friends for several years.

These gentlemen were highly pleased with conditions they found in Canyon and the condition of the two local banks.

CONSTRUCTION ON NEW $65,000.00 DEPOT WILL BE STARTED BY THE SANTA FE RAILROAD WITHIN COMING MONTH

ONE OF FINEST STATIONS ON SANTA FE SYSTEM GIVEN CANYON—NEW DEPOT TO BE 52x200 FEET, STEEL AND CONCRETE CONSTRUCTION—BRICK AND STUCCO FINISH.

Canyon's dream of fifteen or more years is to be realized in the announcement Tuesday from the general offices in Amarillo of the final arrangements having been completed for a new $65,000.00 depot for this city. Plans are practically ready for the contractors. It is planned to have the building completed by the first of January.

The new depot is to be located in the middle of the street just east of the old depot. It will be 52x200 feet, one story, combination passenger, freight, express and baggage. The building will be of steel and concrete construction, with stucco and brick finish and a tile roof. It will be heated with steam.

The depot is said to be equalled only by the Amarillo depot on this division.

Must Carry Election!

(An Editorial.)

The election next Wednesday to close the street east of the depot for a site for the new depot must be carried by all means.

The building of the new $65,000.00 depot in this city depends, of course, upon the willingness of Canyon to meet this request of the Santa Fe, and the request is very small in comparison to the great gift being made by this railroad to our city.

For fifteen years the people of Canyon have been asking for a depot commensurate with the improvements being made by our city. When the Santa Fe officials were in position to meet our request, they did the thing we had been expecting by planning the best building for Canyon of any in this division, Amarillo alone excepted.

The closing of this street meets the approval of all citizens affected. They realize it would be unwise to reject this $65,000.00 depot for a little inconvenience it might cause a few people, and it is extremely doubtful whether any of our citizens will be inconvenienced by the erection of this beautiful structure in this street.

Canyon must show its appreciation of this new depot by a very large vote in the election next Wdenesday.

Thirty-Five Years Ago First Officers of Randall County Elected

Thirty-five years ago Randall county was going through a hot campaign for organization of the county and the election of the first officers.

The first officers filed their bonds and oaths of office on July 27th, 1889. The other day C. N. Harrison found these papers in the clerk's office. All manuscripts were in long hand, the typewriter being unknown in those days. The papers are in good state of preservation.

The following were the first officers of the county, whose bonds are on file:

W. F. Heller, county clerk; J. T. Atkinson, assessor; Alexander George, treasurer; Sam Wise, sheriff; Commissioners, W. C. Baird, No. 1, C. H. Harlin, No. 2, Walter Roper, No. 3, M. V. King, No. 4; J. W. Turner, justice of the peace, precinct No. 1.

PLATEAU SINGERS MAY RETURN TO CANYON IN 1925

THREE THOUSAND PEOPLE ATTEND ANNUAL CONVENTION.

Hot Weather Cuts Crowd Somewhat, But Large Numbers Here for Every Session.

Canyon has a chance, Chamber of Commerce officials are advised, of obtaining the 1925 Plateau Singing Convention, the 1924 session of which closed here Sunday afternoon after two successful days. Should the citizenship desire the return gathering, it will be necessary to form a large committee to take the matter in charge for immediate action, it is announced.

More than 3,000 persons attended the barbecue at Hale's Park Sunday noon, and fully 5,000 were present for at least a part of the program in the auditorium of West Texas State Teach-

Each candidate for governor who has spoken in Canyon takes ten minutes in telling why he should be governor, and devotes the remainder of his time in telling why Lynch Davidson should not be governor. That is peculiar, to think that eight candidates should center their fire upon one man of their number. It sounds as though they were certain that this one man was certain to be elected unless heaven and earth is moved to prevent his election. The fact that Lynch Davidson is the most sucessful business man in the lot; the fact that he was a successful member of the house and a successful member of the senate; the fact that he was an outstanding character while he was lieutenant governor; the fact that he did the most notable work of any of this number of the state of Texas when he made a paving proposition of the bankrupt state railroad; all of these stories of success, and the fact that he is a success in his own business—these facts are too much for the politicians. It is a crime in the eyes of the politicans to be a success while in public office.

The Texas Press Association meets in Canyon today. Canyon will get the once over by many publicity men and women, many of whom have never before visited Northwest Texas. We trust that the boys and the girls of the press from down state will see the best we have to offer and shut their eyes and minds to the things they don't like. There are really more good things in the Panhandle than there are bad, but some of our down state brothers have too long looked only for the bad, and overlooked the bad features that we possess.

Lest we forget, the Honorable Will C. Edwards, publisher of the Denton Record-Chronicle, is a candidate for lieutenant governor. The Honorable stuff is added for politican reasons. Among his friends he is just Big Bill—a great big loveable country chap who is a slam up good newspaper man, a man with an enviable reputation while a member of the legislature, and incidentally, our next Lieutenant Governor. We are strong for Bill, and no voter can go wrong in supporting him in the primary.

Congress allowed a reduction of 25 percent on the income tax bills, but those who paid their income tax in full before the fifteenth of March will now have to wait until Congress makes some provision to repay this money. Those who pay on installments, are allowed to deduct the amount from future payments. Those of us who did not have an income tax to pay are no better off, but still have an epual chance to cuss the government.

The supreme court has upheld the textbook contracts and the state will not have the pleasure of buying a million or a million and a half dollars worth of textbooks—which we do not need. County depositories over the state are said by those who profess to have investigated and know the facts, to be well filled with unused books. The "free" textbook act of Texas, lacks a lot of being "free" for the tax payers.

J. W. Reid goes into the primary in July without an opponent, and will represent the new 31st district in the legislature next January. Senator Reid is making as strenuous a campaign as though the woods were full of candidates. When Reid gets to Austin, his fellow senators will find in him a hard working, capable man, with a wonderful insight into the needs of the state and a willingness to give every section of the state a fair and square deal.

La Follette threatens to muddy the water for Uncle Cal and General Hell and Maria. La Follette would have to carry only three or four states in order to safely land the Democratic nominee in the White House, or in any event, throug the final election into Congress where the Democrats hold a balance of power which would almost insure Democratic victory.

The Plainview News has had its helm for thriteen years Editor J. M. Adams, one of the best newspaper men in Texas. We beat Editor Adams to the Plains by ten months, as we close our fourteenth year in Canyon on the 29th of next month. J. M. Smith of Pampa and L. D. Shaw of Higgins were both here when we came. Down the Denver, the Hasketts at Childress and Harry Koch at Quanah have been at their jobs as far back as the memory of man does run.

Tyler is a candidate for the meeting of the Texas Press Association in 1925. Henry Edwards, enterprising editor of the Troup Banner, came out with a twenty-page edition last week in the Tyler. If Tyler is as good a place as Henry Edwards says it is—and Henry is supposed to be as truthful as any country newspaper man—then we are highly impressed with the possibilities of meeting in Tyler next year.

The News favors the increase of pay for our legislators, but at the same time the number should be decreased very materially. The House could easily be reduced by half. Representative Lee Satterwhite believes that the senate should be increased in size. But if the right kind of men are elected, thirty-one are better than fifty.

The proposed constitutional amendment to allow pensions to retired teachers will not carry if brought to the people next year. If the teachers were pensioned, then class after class would attempt the same thing until there would be nothing left to pay the pensions.

The democratic show starts on the 24th. If the McAdoo forces are able to break the long standing two-thirds rule of the party, the convention will be short, as McAdoo has a bear majority of the delegates pledged. If the two-thirds rule continues, then the battle of ballots is liable to be long and furious.

Jim Ferguson is out of it. The supreme court has finally answered the question of legality of his impeachment which bars him from forever holding public office in Texas. If you are interested in the rubber stamp variety of government, vote for Mrs. Jim, as Jim promises to run things under his wife's signature.

Lamesa had a million dollar fire last week, which is thought to have been set by a cigarette being carelessly thrown into a pile of lumber. The cigarette thrown around promiscously is responsible for many fire losses, and is one of the main causes for its bandishment in big industries.

It would be a fine state of affairs if Mrs. Jim Ferguson was elected governor and really decided to use the woman prerogative in running affairs. Jim would be in the middle of a bad fix.

The President was no more successful in handling his party in convention than he was in handling the republican members in Congress. He was determined upon the nomination of Senator Burton of Ohio as his running mate, but Burton never had a look in.

Chautauquas are having a rocky time in this section. Town after town has quit the chautauqua after being fed third rate stuff at first rate plus prices. Business men are tired of putting up the difference for the chautauqua companies to put in their pockets.

This is the day of demand for cheaper articles, but the fellow about to sit in the electric chair is not concerned about the price of electricity or the costs of funerals.

Now that the elephant has performed, the second ring of the big show is demanding the attention of the public, and a real show it will be when the donkey starts in New York next week.

How in the world do they expect us to Keep Cool with Hell and Maria around?

Canyon has one of the best city water plants in Northwest Texas.

The elephant is staking his reputation on Cal and Hell and Maria.

USED CARS FOR EUROPE. A TEXT FOR FORD. WHAT IS A CAREER? THE JUDGE'S COCKTAIL.

When the automobile arrived, old-fashioned carriages, Victorias, broughams, etc., became worthless here, and a market was found for them in South America where they did not give up horses and carriages so easily.

Lately the American problem has been "how to get rid of second-hand automobiles." Europe, it seems, will help solve that problem.

A company, formed to ship second-hand cars to Europe, sends over bargains by the shipload. Money is not as plentiful there as it is here. The "used car," at a whittled down price, is attractive.

Unloading of used cars abroad will be a good thing for Europe, which needs economy, and a good thing for the United States, where millions need "a bigger or better car."

The Senate Agricultural Committee, 11 to 5, voted against Ford's Muscle Shoals offer and took up Senator Norris's bill.

Senators that refused Ford's offer are hurting farmers and hurting themselves. But that doesn't console Ford, who must now find his consolation in the 146th Psalm. Verse 3 is especially recommended:

"Put not your trust in princes, nor in the son of man, in whom there is no help."

The unreliable son of man in this case seems to be Mr. Coolidge.

Chlorine gas that wiped out battalions in the great war, will be used on a bigger scale of destruction against germs of influenza, pneumonia, and other diseases. That's a better war.

Exclusive clubs in New York decide to suspend their visitors' list during the Democratic convention. This is presumably to oblige members that occasionally dream political dreams, on their own account, but would not like to push the thing so far as to "invite those political chaps to one's own club, don't you know." We really have an American aristocracy, a poor thing, but our own.

The Methodists, with "going forward" for their keynote, vote 5 to 1 in their general conference to lift the ban on dances and theatres. The old rule was no amusement "except those which can be used in the name of the Lord Jesus." Now amusement and religion can be kept separate, as education and religion are separate in public schools.

Charles H. Mayo, great surgeon, says cancer will be conquered "within a few years." Already seventy to eighty per cent of cancers can be cured "if taken in time." Remember that over-eating is one of the principal causes of cancer. Keep your system light, clear, clean, full of energy, and it will deal with the diseases that attack it.

Overloaded, it is helpless.

Miss Gildersleeve, dean of Barnard College, tells the girls that marriage is not ENOUGH for women now. Each girl must have a career, as well as a husband.

What IS a career? Beethoven's job was music. Michel Angelo's was art. Did not their mothers have a career, when they created them? Or must they also paint pictures and write music? Is not the creator as great as the thing created?

Mothers are the creators, men are only the product, depending for their fame on what their mothers give them.

It would horrify you to read about a female gorilla capturing a young girl, skinning her, to use the skin as sandals. That never happened. But European ladies are having sandals made of the "soft and pliable" skin of monkeys, guaranteed not to "squeak." In a gorilla that would shock us. It's all right for a lady.

Rebecca West, an intelligent young English writer, back in London, tells of a judge in the Middle West "who danced the tango with passion rarely exhibited in public places. And afterward gave me a wonderful cocktail made of a brand of white fire out of a silver flask the size of the Ascot Cup."

At his invitation she sat on the bench with him next day and saw him fine a colored lady, seventy-five years old, $50 for carrying a pint bottle of moonshine whiskey. She presents that as a sample of our "respect for law."

THE PASSING DAY

By Will H. Mayes, Department of Journalism, University of Texas.

This is certainly a "jazz" age through which the world is passing. Jazz music is merely the reflection of the average state of mind of the people. Most people who keep right up with the times are jazzing their way thru life almost as madly as the Marathon dancers of a year or two ago danced until they fell to the floor. But like that craze ,the jazz craze will soon pass and many think they see evidence of its passing now. It is noticeable that at all public functions, except perhaps the dance, the people are demanding a better class of music than pleased them a few years ago.

Bobbed hair bandits are becoming so common in the cities that the average man is beginning to regard himself as hlepless in the presence of any female with short hair, for he never knows when a gun will be flashed from beneath the blouse with a demand for "your money or your life." It is axiomatic that when women become depraved they sink lower in depravity and become more reckless than men. Burglary and robbery, as well as loss of self-respect, may be expected to follow smoking, drinking and profanity on the part of women, as surely as night follows the day. Not all women who smoke, drink and curse will becomes bandits, but enough will do so to bring women from the pedestal which they have always occupied.

It is very hard to watch the political game at close range without becoming disgusted, unless one has lost his sense of disgust. At times one is made to wonder if there is a vestige of political honesty left among the people, even a shadow of political decency. Politics is on a huge jazz along with everything else, but the day of reckoning is surely coming and the world will swing back to normalcy. Those who are most optimistic are hoping that the day may not be too long delayed.

Possibly it may have been worth it, but the average citizen is left to wonder just what benefit he received from the shooting of about a half million dollars worth of ammunition at Fort Sill the other day for the entertainment of army men, members of the National Editorial Association and other visitors. Just why such extravagant "maneuvers" should be given in times of peace is somewhat of a puzzle to the citizen who does not make a study of war. Perhaps it impressed the rest of the world with our resources in war and with our extravagance in peace.

Occasionally politics or political fear results in some relief to the helpess taxpayers. The student of governmental affairs knows full well that there would have been no hope for a reduction in income taxes but for the fear of both the great political parties that defeat would follow inaction in tax matters. Fortunately both parties became scared at the same time at the same thing and tax reductions followed. However, most of the readers of this column are not affected much one way or the other by income taxes, and they have been little concerned by income tax discussions.

Yoakum, down in the "Turkey Trot" section of the State, is boasting of a young turkey with four legs and sixteen claws, probably a creation due to too much trotting. But it would be more interesting to hear of a breed of turkeys with four breasts. Having made that bright (?) suggestion, I will follow it with the statement that the turkey and chicken business has lately proven to be one of the most important vocations in Texas and is annually bringing more clear money to those who seriously devote their time to it. Not many years ago, only women children and invalids gave their time to raising poultry. Turkey trots and poultry shows, aided by the regularity of the cash returns, have given us greater respect for the business.

A Detroit wife has brought suit against her husband for divorce because he stays around home and sleeps too much, and it appears that she has just cause for complaint. Many wives have obtained divorces because their husbands stayed away from home too much and slept too little, but as between the two kinds the perpetual hanger-around and sleeper is the worst nuisance. Laziness is among the worst and most inexcusable faults. No self-respecting woman wants to associate constantly with a regular loafer.

Pepsinated Calomel Is Better than the Old-Time Sickening Kind

It is gentle, imported English Calomel, combined with Pepsin and other helpful ingredients. It is mild but certain, causing no harshness or unpleasantness and will absolutely relieve indigestion, billiousness, bad colds, constipation and sick headaches. And best of all it does it at once—quickly and pleasantly. Take one small tablet at bed-time and you will get up hungry and feeling fine. Recommended by

ADMINISTRATION BUILDING OF WEST TEXAS STATE TEACHERS COLLEGE—THE BEST SCHOOL HOUSE OWNED BYTHE STATE.

COLLEGE HAS MADE PHENOMENAL PROGRESS AND IS NOW CROWDED

The West Texas State Teachers College Canyon, is the only State owned Class "A," senior college in the vast Panhandle-Plains area.

It first opened its doors in 1910, with a faculty of sixteen members, seven of whom are still serving its students. To this small original faculty others have been added until now the faculty numbers seventy men and women of wide experience and training.

President R. B. Cousins, under whose wise direction the institution began its work, remained at its head until 1918, when he resigned to enter another field of endeavor. J. A. Hill, his successor, is still president of the college and is one of the best known school men in the Southwest.

The first year the college had a total enrolment of 230 students; in the school year, 1922-'23 there were 2542 students from 134 counties of Texas, and six other states and one foreign country. The year 1923-24 promises to swell this number by several hundred.

The strong character is developed by adversity—so has been the West Texas State Teachers College. During its first years the whole territory which it sought to serve was drought smitten. Then on the morning of March 25, 1914, the cry of fire resounded through its halls and by noon the "Old Building" was reduced to a pile of stone and ashes. Only its courageous faculty and loyal student body remained, but for two years the school struggled along in "The Shacks" and continued to grow in numbers despite its heavy handicap.

1916 saw its present main building, the finest school house in the State of Texas, completed. Since that time there has been added to the plant Cousins Hall and Randall Hall, two dormitories for girls, a power and heating plant and several smaller buildings for temporary use.

At present the buildings are all crowded, the growth of the student body being so great that it has been impossible for the building program to keep pace with it. It is hoped that during the next year an educational building, a home demonstration cottage, and an addition to the power plant which will house the manual training department will be built. This will greatly relieve the congestion until a new library and other needed buildings can be added.

This school has furnished close to eight thousand teachers for the schools of Texas to say nothing of the great number of students who have received their college training within its walls but have applied it in other directions than teaching.

It has furnished music, and lectures and instructive and enjoyable entertainment for communities which could not well afford expensive lyceum courses.

It has helped communities to develop sentiment in favor of better schools and then to plan their buildings. It has furnished speakers for Sunday Schools and Churches.

Through its extension work more than five hundred women, members of clubs have been helped to study systematically during the past year.

Its circle of service is ever-widening. The president and his faculty will never be satisfied with the West Texas State Teachers College until it reaches the home of every boy and girl in the Panhandle region of Texas, making life richer, broader and more worth while for every citizen of its territory.

W. T. S. T. C. athletic teams are known as the Buffaloes; the Buffalo is the college mascot. The football team, playing under a very stiff schedule largely away from home, defeated nine out of the fourteen teams played, among them were such teams as Simmons College and the University of New Mexico, in the last season.

The Basketball team was unofficially champions of the T. I. A. A. Buffalo tennis, baseball, and track squads were very successful and lowered several conference records.

In literary activities the College won half of the Intercollegiate debates and took first place in the editorial and the news story contest of the Texas Intercollegiate Press Association. The College newspaper in competition with dozens of college and university publications was ranked with the upper half dozen.

The Agriculture students won many honors, among them the loving cup in dairy cattle judging at the A. & M. competitive try-outs.

The College is the meeting place of many conventions every year and on the other hand furnishes speakers and other assistance to organizations and meetings in all parts of this region.

The Buffalo Band is the best on the North Plains and was official band for the Amarillo delegation at the Brownwood Chamber of Commerce Convention.

Buy, Build, and Live in Canyon.

Child-birth

HOW thousands of women, by the simple method of an eminent physician, have avoided unnecessary miseries through many months and up to the moment Baby has arrived, is fully explained in the remarkable book, "Motherhood and the Baby." Tells also what to do before and after baby comes, probable date of birth, baby rules, etc., and about "Mother's Friend," used by three generations of mothers, and sold in all drug stores everywhere. "Mother's Friend" is applied externally, is safe, free from narcotics, permits easier natural readjustment of muscles and nerves during expectancy and child-birth. Start using it today. Mrs. E. E. Kerger, Slayton, Minn., says: "It pulled me through." Send for book today, to Bradfield Regulator Co., BA-76, Atlanta, Ga. "Mother's Friend" is sold at all good drug stores—everywhere.

WRIGLEY'S

after every meal

Cleanses mouth and teeth and aids digestion.

Relieves that over-eaten feeling and acid mouth.

Its l-a-s-t-i-n-g flavor satisfies the craving for sweets.

Wrigley's is double value in the benefit and pleasure it provides.

Sealed in its Purity Package.

To cure costiveness the medicine must be more than a purgative; it must contain tonic, alterative and cathartic properties.

Tutt's Pills

possess these qualities, and speedily restore to the bowels their natural function.

Box Car Club House for 40-8 Society Will be Put to Use at Once

Duplicate keys to the new box car club room of the local voiture, Society of 40-8, arrived Tuesday and are being distributed to members upon payment of their pro rata assessment of $2 to pay for the materials used. The labor was all supplied by members and the completed building has been insured for $300.

Rain and storm proof, the structure is being fitted up with chairs and game tables and will be electrically lighted. It is to be located at Eighth Avenue and Fifteenth Street on a lot leased from Charles Stratton and will be removed from the wheels while in place. While being taken to Brownwood for the Department Legion Convention and during parades, of course, it will be remounted on the wheels.

While not large enough for a meeting place, the new club room is expected to provide for all the needs of a member with a spare hour or two on his hands. It is painted a French grey and has four doors on each side and a window in each end, in addition to being surmounted by a cupola after the manner of the real "40 Hommes" article seen in France.

A house warming will be held in the near future.

Umbarger Notes

An entertainment was given at the F. V. Friemel home Sunday evening.

John Bedenk and A. Beckman made a business trip to Amarillo Monday.

The oats and wheat are badly in need of rain. The rowcrop is not coming up as it should on account of dryness.

Joe Friemel and family spent Sunday at the F. V. Friemel home.

A dance was given at the Henry Beckman home Tuesday evening.

B. Hess made a business trip to Amarillo Monday.

O. J. Podzemney made a business trip to Canyon Monday.

PANHANDLE BANKERS MAY ESTABLISH LOAN FUND HERE

At the meeting of the Panhandle Bankers Association last week the delegates expressed themselves as willing to give fifteen hundred dollars of a surplus fund to establish a student loan fund here. The matter is now in the hands of a committee which has not yet announced its decision.

President J. A. Hill has explained what use would be made of such a fund and he told of the success of the other loan funds which have been freely distributed without the loss of a single dollar.

The German Government discourages radio to a great extent. Listeners-in must have a license for which they pay six dollars a year. Sets can serve but one wave length and it is forbidden to tune in on foreign broadcasting stations. No one may build his own and no one under twenty-one may have a set.

The painting "Blue Boy," by Gainsborough, is now in the possession of Mr. H. E. Huntington, of San Marino, California. The picture is said to have originated as a result of a dispute with Sir Joshua Reynolds as to the value of making blue the predominant color of a portrait.

As indication that they are not merely "immigrant, itinerant laborers, a nonassimilable unsocial lot," Japanese in the United States may establish the "First Japanese University of America," which is to be co-educational and located in San Francisco.

Natives of Central Africa in Kenya Colony clear farms by means of the hatchet and fire. This has destroyed much forest land as the farmer only uses his cleared patch twice before moving on to another forest. Forest officers are training the natives in the conservation of timber.

J. L. SMITH, Prop.

Poem by Uncle John

If we take the gineral average of the people as they come; they're voluble on some things, while on others they are dumb. . . . And, you're forced to this conclusion—if you'll only take the pains,—that they're more inclined to money than an overplus of brains. . . .

I wouldn't do injestice to the chick or child of man, who pins his faith to dollars and replevins all he can—but we can't dismiss the question from the feller that reflecks, how brains compares with dollars in acquirin' men's respecks!

Sometimes the man with millions creates an awful stir,—while the baggy-kneed philosopher is one we're sorriest for. . . . The fat-head with the fortune that's been handed down to him, may write a fust-rate poem,—but his chance is mighty slim!

Deeds Filed This Week Transferring Randall County Land

The following deeds as furnished the News by the Randall County Abstract Company, have been recorded in the County Clerk's office.

E. C. Dodson to First National Bank Canyon, lot 10 and west half lot 11, block 28, Canyon City. Consideration $4,000.

G. R. Hickerson to G. T. Whaley, north half lots 1, 2, 3, block 1, Ballard addition. Consideration $8,000.

Geo. H. Gottfried, et al to M. W. Dooley, lots 11, 12, 13, 14, 16, block 69, Canyon City. Consideration $425.

The United States Department of Commerce is about to issue a "glossary of business English for Americans advertising in England."

REGENT'S

512 POLK STREET AMARILLO, TEXAS

Depot Celebration Will be Held Tuesday Evening at Wragge's Park

Celebrating the acquisition of the new $65,000 Santa Fe depot, members of the Chamber of Commerce and other citizens will unite in a banquet to be held Tuesday night at Wragge's Park at 8:00 o'clock, with Mayor Claude N. Harrison as guest of honor.

The affair will be in recognition of Mayor Harrison's unflagging effotrs to obtain the new structure, and will consist of a course dinner under the trees at sundown. The menu will include braised beef, Saratoga potatoes, sweet pickles, iced tea, fruit slices, and orange sherbet.

Those who wish to swim preceding the banquet should come early, it is announced.

Short talks will be made by the mayor and by J. A. Hill, president of the college, preceding a short business session of the Chamber membership. Accomplishments of the year, in a civic and industrial way, will be reviewed, and prospects for the coming year will be discussed.

It had been intended to have the officials of the Santa Fe Railway at Amarillo present, but this feature was deferred owing to the absence of several who will be in Chicago. It will probably be about the time of the corner-stone laying before all can attend a celebration in their honor here, it is announced.

One of the principal subjects of discussion at the banquet Tuesday night will be the coming election to close Tenth Street, so that the depot can have the most prominent location possible, it is announced.

J. W. Reid Leaves Today for National Democratic Convention N.Y.

Senator J. W. Reid leaves today for New York where he will attend the Democratic National Convention as a delegate from Texas.

Senator Reid was elected alternate from the 18th district at the state convention, but has received the proxy of Marshall Hicks and will take his place in the convention.

Senator Reid is speaking before the Woman's Missionary Convention of the Baptist church in Amarillo this morning before starting to New York.

PATSY BRITAIN BETTER.

Patsy Britain underwent another operation in Amarillo Monday afternoon for mastoiditis. This was the second operation within a period of ten days. He was in serious condition following the first operation, but is said to be improving nicely since Monday.

RANDALL A NEW COUNTY.

R. E. Baird of this city has the distinction of holding the longest residence in Randall county. He came here on March 29, 1883, and there was just one house in what is now Randayy and Deaf Smith counties. That house is the old T-Anchor ranch house one mile north of Canyon, which is now the J. L. Prichard home.

GREAT TELEPHONE INCREASE.

According to the figures of the Southwestern Bell Telephone Company Canyon stood second in the state in per capita telephone increase. Canyon was excelled only by Dallas.

ALL SAINTS' EPISCOPAL CHURCH

First Sunday after Trinity. Service and sermon, 8 p. m., preceded by Young People's meeting at 7:30 for singing, etc. All are welcome.

Rev. E. H. J. Andrews, Pastor.

TEACHERS INSTITUTE

A thousand teachers from twenty-six Northwest Texas counties gather here the first week of September each year to attend the Consolidated Teachers Institute held at the West Texas State Teachers College. Prof. R. P. Jarrett is conductor of this Institute. The program is the greatest held by any Institute in Texas.

ALFALFA FINE CROP

Randall county has much land adapted to raising alfalfa. There is always a great demand for alfalfa hay.

Mine fields have been discovered in the Eastern Baltic off Finland. They are of Russian origin, dating from the World War.

Happy Happenings

Mrs. W. O. Newberry of Dallas is visiting with her parents here, Mr. and Mrs. C. L. Grounds.

Everett Dison and Tillman Carter returned Saturday from Lubbock where they attended the Northwest Texas Epworth League Conference.

Rev. O. W. Carter of Stamford is visiting this week with his parents, Rev. and Mrs. H. W. Carter.

Mrs. Martha Lemmons and daughter, Mary Elizabeth, spent the week end in Amarillo.

Mrs. C. L. Grounds returned to her Edythe Bandy of Canyon visited in the Ed Markham home here Sunday.

Mrs. C. L. Grounds returnde to her home here Saturday from Tulia where she underwent an operation last week. She is improving at this writing.

Miss Gladys Bandy and Mrs. Ural Barnard were happily married here Saturday morning at the home of Mr. and Mrs. Tom Bandy. Rev. H. W. Carter officiating. Miss Bandy is well known here and loved by all who know her. Mr. Barnard is a promising young farmer, having lived around here for several years. The bridal couple went to Amarillo Saturday and spent the day. They will make their home for the present west of town.

Mr. and Mrs. A. L. Harrison and children of Stratford visited here the past week end.

Frances Stephenson underwent an operation Thursday in Amarillo having her tonsils removed. She is improving at this writing.

Wayside Items

Unusually hot winds for this time of year prevails. Vegetation drying up fast.

Wheat is ripening fast, soon be ready for harvest. Continued dry weather will cut the yield shorter. Winter oats are tolerably good. Spring oats not so much.

Singing school conducted by Charley Burgess closed Friday night. Considerable interest was manifested by those attending and we trust will be of benefit to the community in general.

Members of the singing school sold ice cream and cake Friday night, the proceeds to pay for song books. $12.65 was realized. Some talk of continuing the school during August.

Mr. and Mrs. Hobson Burrows with Mrs. Ada Hamblen left Friday for different points in Texas. Mr. and Mrs. Hobson may go to Alabama before their return.

Roy Smith with his mother, Mrs. Fairy, made a trip to Floydada Saturday, returning Sunday.

Rev. D. H. Bryanoff of Happy delivered a most excellent discourse Sunday afternoon at Wayside. Text, "Marvel not I say unto you, ye must be born again." He left an appointment for the first Sunday at 3:30 in the afternoon. Everyone be on time.

Mr. and Mrs. W. I. Lane and Joyce went to Canyon Monday. Mr. Lane went on to Amarillo. All returning the same day.

H. H. Gillham and wife attended the Plateau Singing convention Saturday at Canyon, returning Sunday with his children, John and Louise.

Kelly McGehee and Miss Birdie Lou Lane made a trip to Canyon Sunday afternoon, Mrs. L. J. and Miss Ruby Lee McGehee returning with them the same night.

Little Russell Graham, 18 months old babe of Mrs. D. J. Graham of Happy is spending a few days with his aunt, Mrs. Fannie Franklin.

W. C. McGehee, J. E. and Mrs. L. J. McGehee have recently purchased a new J. I. Case Combine and will have it brought out and ready for harvest. We hear of a number investing in same make of machine.

HOGS DO WELL HERE

The hogs of Randall county are largely responsible for the good bank accounts of the county. Hogs do exceptionally well on the native feeds. There has been a great demand for Panhandle hogs on the markets of the country.

FIRST TRAINING SCHOOL

The West Texas State Teachers College was the first College in the State to see the need of a training school in a teacher training institution. It was started in this school, but is practically the only Teachers College in the state without a separate building, which is greatly needed.

FISHING ABUNDANT

The Palo Duro and Tierra Blanca creeks have a never failing flow of water the year around. The creeks are stocked with plenty of bass, croppie, perch, buffalo and cat fish. Fishing is a great sport in Randall county.

GAINED 500 POPULATION

Canyon has grown at least 500 in population during the past year. This fact has been fully established by the growth of telephones installed, and the increased number of electric light and city water users.

TH' OLE GROUCH

Campbell Notes

The singing class met and sang at Rev. Dowell's Sunday night.

Mr. Dixon of Hereford spent Saturday with A. M. Dowell.

STUDENTS WANT TO WORK

As the College has set a five day schedule during the summer, there are a number of students both boys and girls, who are wanting to do work on Monday. Anyone wanting a girl to clean house or wash; or a boy to hoe weeds, or any other kind of work on Mondays are requested to call L. S. Baker. If the students are willing to do work like that in order that they might attend school all summer, let us help them when we can.

All W. O. W. members and former members are requested to be at the meeting Monday night, June 23 for an important meeting.

LOCAL NEWS

President and Mrs. J. A. Hill received Monday night from 8:30 to 10:30 in honor of Mr. and Mrs. Travis Shaw, who were married last Wednesday in Austin, and who reached Canyon Friday afternoon. Four hundred guests were present for this occasion. During the receiving hours music was furnished by Prof. Wallace R. Clark, Miss Corinne Hamill and Miss Hazel Allen. Refreshments were served by the hostess, assistd by Misses Elizabeth Shaw, Annadel Guenther and Louise Shanklin.

Call 28 or 238 for Holcomb's. tf

Miss Edith Harrison returned Monday from a two weeks visit at Lubbock and Coleman.

Mrs. D. A. Park has been quite ill for two weeks at her home in Amarillo.

Kathleen Jennings will teach in the the grammar school in Tulia.

Louis Hill, star short stop on this last season's Buffalo team, has gone to Midland, Texas, where he will play ball for that team.

Lillian Donnell will teach the fifth grade at Post City next term.

Miss Lucille Loyd, Baptist Student Secretary, has gone to Baylor College, Belton, Texas, to attend the summer conference of Baptist student workers. She will have charge of a number of classes and exercises during the conference. She will return to Canyon when the conference is concluded.

Opal Dutton has accepted a position in the primary grades of the McLean schools.

Announcement has been received here of the marriage of Edith V. Adkins to Roy Martin Stine at the home of the bride's parents in Hamlin, Texas, June 5th. Miss Adkins received her permanent certificate from this institution in the spring of 1923, and was principal of the Hamlin High School this year. She attended Simmons College before coming to the West Texas State Teachers College. The groom is a prosperous young business man formerly of Vernon.

SHOWER FOR BRIDE ELECT

Miss Marie Fronabarger gave a linen shower in honor of Miss Lizzie Kate Smith, last Friday at the J. W. Shanklin home. After the gifts were arranged a short program followed:

Piano Solo.....Hazel Allen
Song .....Ada Clark
Toast to bride.....Mattie Swayne

The guest of honor is to be married to J. L. Teal on June 30. Miss Smith is the daughter of Mrs. T. M. Smith of Canyon and is a sister to Mrs. Tommie Montfort. She has been teaching English in the San Marcos Teachers College for the past two years. She received her degree with the class of '21 here. The bride-to-be will be remembered as enthusiastic and energetic leader in all College affairs during her student career. She was one of the founders of the Elapheian Literary Society, and had an active part in the publication of Le Mirage. She was a member of the Y. W. C. A., the English Club and other organizations, besides being popular in College social life.

The groom is a young banker of Lamesa, where the couple will make their future home.

A GOOD INVESTMENT

The citizens of Canyon gave the State of Texas $100,100.00 for the location of the West Texas State Teachers College in this city. It has been an excellent investment, so far as the town is concerned.

COLLEGE BUILDING LARGE

The administration building is the largest and best constructed school building owned by the state of Texas, and is one of the best in the Southwest. It would cost more than half a million dollars today.

SEVEN MILES OF SEWERAGE

Canyon has seven miles of sewerage. In addition the town is blessed with the best natural drainage of any town on the plains. Canyon is a clean town on account of its excellent disposal advantages and sewer system.

LARGE FACULTY INCREASE

The first faculty of the West Texas State Teachers College when the College opened in 1910 numbered fifteen people. The faculty is now composed of seventy teachers, five student assist- attended the Singing Convention.

FIRST DORMITORY IN STATE

Cousins Hall was the first dormitory to be built at a Teachers College in Texas. Randall Hall, privately owned for several years is now owned by the State. The two Halls will house 200 young women.

DOWD-FOSTER

Miss Erma Dowd and Mark Foster were united in marriage Sunday, June 15th, at Dimmitt, Mr. W. R. Woodburn officiating. Miss Dowd is the daughter of J. C. Dowd and was a graduate of the high school here this past year. Mr. Foster is the son of R. W. Foster. Both the young people are well known here and their many friends wish them a long and prosperous life.

Work on New Catholic Church To Start Within Coming Two Weeks

Priests of the Catholic Church were here Monday from Amarillo completing arrangements for the new Catholic church which was announced two weeks ago. It is likely that bids for the construction of the new church will be opened within the coming two weeks.

Prof. F. P. Guenther states that the size of the church has not been determined but will be sufficiently large to care for the church's needs in Canyon for the present. It will likely be at least 30x60 feet.

A citizen of Massachusetts is donating the money to build this church, as the importance of the church in Canyon has been brought to his attention. He has signified that only a part of his donation will be made at this time, and more money will follow for an addition to the church just as soon as he ascertains the needs of a larger church here.

FIRST LEGION HALL BUILT

The American Legion Hall in Canyon was the first building of its kind in the Southwest. It is a large, commodious building, just a block from the public square, and serves as a meeting place for ex-service men of the World War.

LAND IS CHEAP

Less than 25 per cent of the tillable land of the Panhandle is under cultivation. Randall county probably has the cheapest land to offer the farmer in this great section. More farmers are wanted in this great country.

COLLEGE PUBLICATIONS

The West Texas State Teachers College publishes a weekly newspaper, The Prairie; the annual publication, Le Mirage; the Buffalo Handbook; and numerous quarterly bulletins.

LOW TAX RATE IN CANYON

Canyon has a tax rate of 65 cents on the hundred dollar valuation. The property is taken on a valuation of 60 per cent. There is not a town in Texas with so much public improvements, and yet so low a tax rate.

BUFFALO THE MASCOT

The Buffalo is the mascot of the West Texas State Teachers College. The College owns two real live buffaloes which were bought from the Goodnight ranch last year.

GOOD ELECTRIC SERVICE

Canyon has as good electric service as any town in the state, and much better than the average town of its size. The power is on 24-hours of the day. The three units at the power plant insures continuous service.

FOUR MILES OF PAVING

Canyon has four miles of brick paving. It is the best paved town in Texas for its size, and the best in the southwest according to per capita. All of this with very low taxes.

A BEAUTY SPOT IN THE PALO DU RO CANYONS NEAR THE CITY OF CANYON, TEXAS

STATE PARK NEAR CANYON BEING SUGGESTED BY PEOPLE OF PLAINS

"A man has no more right to destroy beauty than to steal cash" is becoming the motto of all those good citizens who would have this land of ours as beautiful for coming generations as it is today.

In fulfilling the spirit of this motto the state of Pennsylvania has planted and set aside one million acres of land which within a few years will be beautiful forest land; that state will continue to develop its forests for the people until it has an area of five million acres, or one fifth its entire area, set aside for forests and parks for its people. Pennsylvania; "Penn's Woods" waited until her people were suffering for out-of-door contacts before systematically planning places for their recreation.

Texas, still in her infancy, so far as populaiton is concerned, is beginning a movement, which if carefully fostered by her citizens, will result in a chain of parks which will be available forever to all the people of the State.

One of the Park sites which the State Parks Board is seriously considering, and which is of the greatest interest to the people of this section and especially of this school, is the Palo Duro Canyon.

Right at our doors lies this wonderful beauty spot of the Plains country, as yet unspoiled, but already inaccessible except at a few points.

The Palo Duro Canyon is a great gulch, which seems to have been placed here that the eyes of the plains people might have relief from the boundless stretch of prairie. Hundreds of feet deep, abounding in rock cliffs, little springs, interesting formations and lovely landscapes, it offers a shelter for bird and animal life. Within its confines are lovely cedar, cottonwood, and ash trees, flowers of hundreds of varieties, and a few specimens of interesting animal life.

Every year the trees are cut, every year the flowers are despoiled and the animals have almost all been destroyed by trappers and gunners.

This region is one in which growths are slow. The flowers will probably never be replaced if once destroyed; the trees will grow again in fifty or a hundred years if given a chance.

It is this enchanting spot which should belong to the people of this and all other parts of Texas as their summer play-ground; it is this marvelous region of great distances, wonderful coloring and magic dawns and sunsets that will belong to the people of Texas and of the southwest if they are far-sighted enough to help preserve it.

The State Parks Board will visit the Canyon in July or August; the forward-looking citizens of Canyon and Randall County are looking for ways and means whereby a part of the Palo Duro Canyon can become State property, to be improved, protected and properly administered for the benefit of its people. If the students of this college and the citizens of this county and town get behind the movement for a Palo Duro Canyon Park, nothing can keep it from becoming an established fact. The time to act decisively is at hand for "A man has no more right to destroy beauty than to steal cash." No man can afford to be a party to the robbery of the next generation.—Contributed.

Palo Duro Canyon One of Great Beauty Spots of Entire Southwest

No catalog of attractions in Texas' "Great Outdoors" could be complete without mention of the Palo Duro Canyon, one of the greatest natural wonders in America, and the tourist who goes far afield for scientific delights without first visiting the Palo Duro, which has its head near here, is committing a grave oversight.

Nearly 100 miles long, from 500 to 1,500 feet deep, and from three to nine miles wide, the rugged grandeur of this work of prehistoric waters is a thing to compel awe and admiration. Its painted rocks, castellated cliffs and purple distances are as picturesque as anything in the great West. Even the wheeling eagles overhead lend enchantment to the whole.

The jagged walls of this Cyclopean cleft in the rolling prairie offer a veritable wonderland of geological surprises. Virgin minerals, from the humble silicates to the rare metallic groups, have been exposed in reckless prodigality by the hand of nature. A lifetime could be spent with profit studying the open book of underground wealth here laid open.

A new and strange country, as different, as enthralling, as anything envisioned by Poe or Wells, is that found on the floor of the canyon, watered by countless springs, protected by towering walls and rank with the vegetation of a climate many degrees to the South.

Combining the delights of sightseeing with the thrills of mountain climbing, no more satisfying vacation ground could be found anywhere than in this great gorge, mystic fountain head of old Red River.

Roaring cataracts, bubbling streams, rocky caves, unscalable precipices, tumbling slopes—all are here combined in a spectacular procession of kaleidoscopic scenes. The well-known Garden of the Gods can hardly rival the wonderful "Devil's Kitchen." "Balanced Rock" is here not once but many times. The tourist will seek far to find anything more inspiring than "The Lighthouse," while "The Frog" and "The Needle's Eye" instantly invite photographic preservation of the pleasure they give the beholder.

Canyon is the key not only to the Devils Kitchen, but to the Six-Mile Crossing, Cooley Canyons, Timber Creek Canyon, Happy Canyon, South Ceta Canyon and others less famous.

Located on two main highways, the Ozark and Southwest Trails, and just off the Colorado to Gulf Highway, these wonders are easily accessible to all. Free tourist camp grounds provide an overnight stopping place at Canyon. Free highway maps and information are available at local garages and every assistance is given by the Chamber of Commerce.

The lure of the canyons is among the chief causes of the large annual enrollment at West Texas State Teachers College here, a Class A member of the American Association of Teachers Colleges, providing as it does a convenient and wholesome, as well as an inspiring, outing place for students.

Sightseeing in the Palo Duro and other canyons round about may be done with less difficulty than at any show place in the West. An hour's drive from the well-paved streets of Canyon will bring the tourist within reach of more natural wonders than half a day's hard journeying elsewhere. With Canyon as a base he is assured of city conveniences, water, electricity, sanitation, well-stocked business houses and the best of transportation connections.

Just recently made available for the general public, the wonders of these canyons bid fair to make the Panhandle the center of tourist activity for all Texas, and there is now no excuse for the tourist or globe-trotter who fails to include them among his conquests.

More than one million boys and girls attend the Sunday Schools of Canada.

State Taxes are Not Excessive Burden on Taxpayers, Says Hill

Discussing the problem of taxation in Texas and the improbability of reduction in the cost of state government, President J. A. Hill at the chapel period Friday morning warned the student body against politicians who advocate extreme parsimony in government in an attempt to deceive the people.

According to reliable statistics given by President Hill less than one-tenth of the combined local and state taxes may be influenced by state authorities, and assuming that it were possible to abolish the cost of state government the effect that such action would have on the tax rate would be little.

It was also shown that the demands for greater expenditures are constantly increasing, especially among the institutions of higher learning, and that these needs cannot be ignored.

HOUSTON BOARD COMMENDS WORK OF HON. R. B. COUSINS

The Prairie has received a copy of the resolutions passed by the Houston Board of Education regarding the going of Supt. R. B. Cousins to the presidency of the new Teachers College at Kingsville. Mr. Cousins was the first president of this institution and has many friends in this section who will be pleased to read the resolution below.

Whereas, Dr. R. B. Cousins, the Superintendnet of the Public Schools of the Houston Independent District has sought other fields of endeavor and has been selected to the Presidency of the Texas Teachers College; and and

Whereas his long experience in educational work in and out of Texas has peculiarly fitted him to become a "Teacher of Teachers"; and

Whereas he has the good wishes of everyone connected with the Public Schools of our City; now

Therefore be it resolved by the Board of Education of the Houston Independent School District that it is their desire, both individually and as a body to extend to Mr. Cousins their wish for him, that he have the same measure of success in his new sphere of activity as has attended him in his earnest and faithful labors in and with the Schools of Houston.

Be it Further resolved that a copy of this resolution be spread upon the minutes of this regular meeting of the Board of Education, and that a copy thereof duly certified and attested by the President and Secretary of the Board of Education be furnished to Dr. Cousins.

Signed:

R. H. Fonville, President

(Mrs. M. L.) Blanche Bauman Goldman, Secretary.

College Choral Club to Present "The Peace Pipe"

A modern Indian composition will be sung by the choral club of the College in the latter part of the summer session. It is "The Peace Pipe," by Frederick S. Converse. The work is built around the peace pipe scene in the much loved American epic, Longfellow's Hiawatha.

Prof. Wallace R. Clark, who will direct the Chorus and who has sung the cantata, states that it is really a very delightful work—one with splendid parts for ladies' voices, excellent orchestration and a beautiful baritone solo part. The weird Indian chants, typical Indian names and sounds, combined with the incessant beat of the tom-toms, make it a production of rare merit.

The Chorus had its initial meeting last Tuesday. The regular attendance will probably exceed seventy-five people. There is a fair range of voices, with the sopranos very much in the majority. Most of the singers are experienced and an accurate reading is assured.

Last summer the Chorus did the Mendelssohn classic, "The Hymn of Praise," which was very enjoyable from every standpoint. The organization has been singing cantatas and oratorios for several years. Among the works which have been done are The Revenge, The Creation, Hiawatha, The Maid of Japan, The Mikado, and The Elijah. In addition it has sung short cantatas and part-songs in many joint enterfainments with the College orchestra. Special choirs selected from the organization sing on special occasions and annually present the commencement classic, The Twelfth Mass.

MRS. S. M. N. MARRS WILL LECTURE HERE NEXT MONTH

Mrs. J. I. Kendricks, president of the Eighth District of the Parent-Teachers Association, Mrs. J. E. Griggs, secretary of the organization, Mrs. Harvey Cash, Mrs. C. N. Harrison, and Mrs. Robert McGee, secretary, were visitors at the College last week. They consulted officials of the institution regarding a Parent-Teachers Training Course which will be taught here July 7-12 by Mrs. S. M. N. Marrs, state president of the Association.

Mrs. Marrs will speak in chapel several times. The local chapter of the Parent-Teachers Association has invited representatives of the whole district—which comprises about forty counties and one hundred P-T Clubs—to hear the speaker at that time. The invitations were printed by the College printing classes.

Those stories about fish climbing trees in New Zealand probably grew out of some tourist's seeing a bird in a tree sitting on a perch.—Nashville Southern Lumberman.

"My Rheumatism is gone—"

"THERE are thousands of you men and women, just like I once was—slaves to rheumatism, muscle pains, joint pains, and horrible stiffness. I had the wrong idea about rheumatism for years. I didn't realize that increasing blood-cells had the effect of completely knocking out rheumatic impurities from the system. That is why I began using S. S. S.! Today I have the strength I used to have years ago! I don't use my crutches any more." S. S. S. makes people talk about themselves the way it builds up their strength. Start S. S. S. today for that rheumatism. You'll feel the difference shortly.

S. S. S. is sold at all good drug stores in two sizes. The larger size is more economical.

S.S.S. The World's Best Blood Medicine

"Battles Nature"

Helen Cole, society girl of California and New York, dressed in evening gown and silk slippers, plunged into the wilds of New Jersey to prove that she could battle nature and subsist without provisions or equipment. Discussion started at a house party. She was followed by Chas. Carter, another guest.

The people of the United States saved during 1923 more than they earned during 1890.

NOTICE TO CONTRACTORS

Sealed bids will be received by the undersigned, until 2 p. m. o'clock, the 14th day of July, A. D. 1924, at Canyon, Texas, at the court house for the furnishing of all labor and materials in the construction of a one story frame school building for Common School District N. 17 Randall County, Texas. Plans and specifications may be obtained, for the purpose of bidding, from G. W. Cox, Happy, Texas, by deposit of $10.00 cash or certified check. A certified check for $200.00, payable to G. W. Cox, of the Board, shall accompany each bid. The owner reserves the right to accept any or reject all bids or proposals. Bids will be opened and considered on the above date in the office of the County Judge.

G. W. COX,
Common School District, No. 17,
11t4 Randall County, Texas.

NOTICE OF ELECTION

Whereas, a Petition has been presented to the City Commission of the town of Canyon, signed by Twenty citizens and qualified voters of said town of Canyon City, Randall County, Texas, petitioning the City Commission of said town of Canyon City that an Election be held as soon as practicable for the purpose of submitting to the legally qualified voters of said town the question of whether or not power shall be conferred upon the City Commission of said town to close that portion of Tenth Street in said town of Canyon City, Texas, between the South Line of First Avenue and the North Line of Second Avenue, in order that the Santa Fe Railroad Company may erect a new brick or concrete, or brick and concrete depot in said street; and,

Whereas, on the 2nd, day of June, A. D. 1924, said petition was considered by said City Commission, and on said date a resolution passed granting same and directing that an election be held in said town of Canyon City on the 25th, day of June, A. D. 1924, for the purpose of submitting said question to the legally qualified voters of said town of Canyon City, and directing the mayor of said town of Canyon City issue notices of said election as required by law.

Now therefore, Notice is hereby given that an Election will be held at the City Hall in the town of Canyon City, Randall County, Texas, on the 25th, day of June, A. D. 1924, within the hours prescribed by law, for the purpose of submitting to the legally qualified voters of said town of Canyon City, Texas, the question of whether or not power shall be conferred upon the City Commission of the town of Canyon City to close that portion of Tenth Street between the South line of First Avenue, and the North line of Second Avenue, in order that the Santa Fe Railway Company may erect a new brick or concrete, or, brick and concreet depot in said Street.

Attest:
Pearl Jinkins, Secretary.
10tf C. N. HARRISON, Mayor.

SHERIFF'S SALE

STATE OF TEXAS
County of Randall.

By virtue of an Order of Sale issued out of the Honorable District Court of Potter County, on the 4th day of June A. D. 1924, by the Clerk thereof, in the case of Will A. Miller Jr. Administrator versus C. T. Word, Laura J. Word, E. D. Harrell, C. T. Ware, Amarillo National Bank, Toney Chisum, Guaranty State Bank, W. H. Carlton, H. M. Horn, W. B. Allen, Gulf Refining Company and The Avery Company, No. 4078, and to me as Sheriff, directed and delivered, I will proceed to sell, within the hours prescribed by law for Sheriff's Sales, on the FIRST TUESDAY in July, A. D. 1924, it being the first day of said month, before the Court House door of said Randall County in the City of Canyon, Texas, the following described property, situated in Randall County, Texas, to-wit:

Thirty-five Hundred and Eighty-one (3581) acres of land, more or less situated and described as follows, to-wit:

Tract No. 1: All of Section 24, Block 1, Patent No. 496, Vol. 29, T. T. Ry., Survey:

Tract No. 2: All of Survey 25, Block 1, Patent No. 51, Vol. 35, T. T. Ry., Survey:

Tract No. 3: All of Survey 41, Block 1, Patent No. 58, Vol. 35, T. T. Ry., Co., Survey:

Tract No. 4: All of Survey 56, Block 1, Patent No. 499, Vol. 29, T. T. Ry., Co., Survey:

Tract No. 5: All of South half (S-½) of Section 40, Block 1, Patent No. 494, Vol. 29, T. T. Ry., Co., Survey:

Tract No. 6: All of Section 43, Cert. No. 70, Patent No. 75, Block 1, T. T. Ry., Survey.

Levied on this 5th day of June, 1924, as the property of C. T. Word and Laura J. Word, to satisfy a judgment amounting to $2696.54 in favor of Will A. Miller, Jr., Administrator and cost of suit.

Given under my hand, this 5th day of June, A. D. 1924.

W. C. BLACK, Sheriff,
10t4 Randall County, Texas.

THE STATE OF TEXAS,
County of Randall.
To the Honorable Commissioners' Court of Randall County, Texas.

Now comes Mrs. Q. V. Conner, widow of L. G. Conner, deceased, and W. H. Lewis, who reside in Randall County, Texas, and S. P. BUTLER, who resides in Chaves County, New Mexico, and respectfully show to your Honorable Court as follows, to-wit:

That Mrs. Q. V. Conner is the owner of that portion of Section No. 33, in Block No. B-5, Certificate No. 15-3556, Houston & Great Northern Railroad Company lands situated in Randall County, Texas, and more particularly described as all of Blocks Nos. 14, 15, 16, 17, 18, 19, North Half of 20, 21, 22, 23, 24, 25, 36, 38, 38, 39; 40 and 41, and being a part of the Conner Addition to Canyon City, Randall County, Texas, and has owned the same since September 1st, 1900;

That S. P. Butler is the owner of that portion of Section No. 33, in Block B-5, Certificate No. 15-3556, Houston & Great Northern Railroad Company lands situated in Randall County, Texas, and more particularly described as the South Half of Block No. 20, of the Conner Addition to Canyon City, Texas, and has owned the same since the_____day of_____; and,

That W. H. Lewis is the owner of that portion of Section No. 33, in Block No. B-5, Certificate No. 15-3556, Houston & Great Northern Railroad Company lands situated in Randall County, Texas, and more particularly described as all of Blocks Nos. 33, 34, 35, 48, 49 and the North Half and South-east Quarter of Block No. 50, of the Conner Addition to Canyon City, Randall County, Texas; and has owned the same since the 10th day of November, 1919;

That on or about the 21st, day of April, 1910, L. G. Conner and wife, Q. V. Conner caused a plat thereof to be made and recorded in Randall County, Texas, as is fully shown in Volume 21, Page 369, of the Deed Records of said County, to which reference is here made for a full description of said plat;

That the land described herein is situated in the center and Northeast part of said plat, and that none of the Streets or Alleys in that part have ever been opened and used as highways, and that they have not been formally accepted by Randall County or any other municipality as highways, but as a matter of fact all of that portion of said Section 33 is now in cultivation and pasture land; that your petitioners as such owners are desirous of cancelling that part of said map and plat and embracing the blocks described above, and throwing the same back into acreage property as it existed before such subdivision into lots and blocks, streets and alleys was made.

That your petitioners still own all that portion of said Conner Addition as set out above, as located in Randall County, and that the cancellation of that part of the said Conner Addition will not interfere with the established rights of any person whomsoever.

Wherefore, your petitioners pray your Honorable Court take such action, give such notices and enter such Orders as may be proper or necessary for the cancellation of that part of the map and plat to said Conner Addition described in this petition, and throwing the property above mentioned back into acreage.

This 14th, day of May, A. D. 1924.
Q. V. CONNER
W. H. LEWIS
S. P. BUTLER.

And upon due consideration it is ordered by this Court that said application and petition be heard and further considered and action taken thereon at the next regular term of this Court, to-wit: And that any person or persons interested in the land therein described be commanded to appear at said time to protest if so desired against the action prayed for by the petitioner.

Said application and notice of such hearing and action shall be published in some newspaper, published in the English Language in said County, for three weeks, prior to action on said application as is provided by law; and a true copy of this order containing said application as above set out shall be published as the application for the relief prayed for; and as a order of this Court giving notice of the time that the court will take action upon said application and the Clerk of this Court shall issue legal notice of such hearing.

R. L. LESTER,
11t3 County Judge.

Dr. G. A. Works Spent Two Days Here in Interest of School Survey

Dr. G. A. Works of Cornell university and now conducting the school survey of Texas, spent Monday and Tuesday in the city visiting the College in the interest of this survey.

He spoke Monday and Tuesday mornings at the chapel periods as to the work of the survey.

The main purpose of the survey was not to remedy the ills, but rather take an inventory of what we have in the Texas school system. Not to criticise, but to discover the needs, and likewise to find the good qualities of the school system.

The survey is trying to classify the state geographically and with respect to the type of work done, in the rural schools, city schools, colleges and universities; to study the courses of study and the finances.

Dr. Works pointed out some of the findings of the survey. In the rural schools of Limestone county the schools run from five to ten months; in Wood county from five to eight; some of the rural schools in Gray county run as low as two months. Dr. Works stated that all conditions being the same, the longer school term the better school.

Teachers' salaries were compared in some instances. In district No. 17 in Coke county on a local tax rate of 10c on the $100 valuation, the salary was $64.25 per month, while in district 19 of that county with a local tax rate of 50c, the salary was $125.

Local interest in schools determines the kind of schools usually. Where there are low salaries, low tax rates and short terms, the schools are usually poor. There are some districts in Texas levying no local taxes.

Dr. Works advocates at least an eight months school term for every district.

Enlightenment of the public on school needs is the greatest need.

Dr. Works is head of the department on rural education in Cornell, and on Tuesday morning spoke of his work in this line. Better rural schools is the great need of rural life was his message.

SUPERIOR TRAIN SERVICE

Canyon is on the main line of the Santa Fe—the world's greatest railroad. The Santa Fe branches from here also, running south through Plainview. Six excellent passenger trains daily run on the Santa Fe lines. Quick freight service is obtained from the principle wholesale centers.

SAYS GRAIN IS FINE.

George Frank states that the grain crop generally in Randall county is good. The wheat is just about ready to cut, and will make a splendid crop.

The early oats and early barley is doing fine and will make a good yield, says Mr. Frank.

The late grain has been cut short by the prevailing dry weather and the hot weather hit.

FILE TAX SUITS.

County Attorney James L. Wohlford has filed one hundred and seventy suits for delinquent taxes.

Tax Collector W. C. Black has been required by the Comptroller to make a complete list of all delinquent taxes shown by the Collector's books, and steps will likely then be taken by the state and county to force collections.

CLUBS ON THE CREEK

Randall county has several popular parks on the Palo Duro and Tierra Blanca creeks. On the Tierra Blanca is the Gordon-Cumming Country Club, and on the Palo Duro is the Canyon City Club, Hale's Pleasure Park, Wragge Pleasure Park, the Palo Duro Club, the Happy Glen Club and Dolcater's Park. All are popular bathing and fishing resorts during the summer.

9,000 STUDENTS ENROLLED

More than 9,000 students have attended the West Texas State Teachers College since the College opened in 1910. Th first year the total attendance was 227. Fire which destroyed the main building in 1914, followed by the drought and the war checked the attendance records. The College is now the third Teachers College in the state in point of attendance.

EDUCATIONAL CENTER

Canyon is the Educational Center of Northwest Texas. No town in this great Northwest Texas offers educational advantages that will compare with those in Canyon. The public schools are the very best. The College is a recognized leader among the teacher training institutions of the United States.

GREAT MELON CROP

The farmers of Randall county marketed a great melon crop last fall. Melons of all kinds do well here, and the flavor is most excellent. Gardening and truck farming is becoming more and more a profitable industry in Randall county.

National Guard Goes to Annual Camp at Galveston July 5 to 19

Captain H. C. Gamble has received notice that the annual encampment of the Texas National Guard will be held at Fort Crockett, Galveston, on July 5 to 19.

Previously the annual camp has been held at Austin. Fort Crockett is said to be more convenient for both officers and men, and the decision was made to change to Galveston this year.

A few more places are open for good men to join Company F, 142nd Infantry, in time to make the camp.

Galveston offers what is admitted to be the finest surf bathing in the world, not excepting even the famous Waikiki Beach at Honolulu. Fishing piers, sailing craft and sea-food suppers are among the attractions to which attention is called by Captain Gamble. The encampment will be held in the shadow of the historic fort, with its huge disappearing guns for coast defense, and all members will be given opportunity to inspect them.

Weekly drills are being held by Co. F, and the personnel is being kept up to a high pitch of efficiency. Capably officered and efficiently manned, this organization promises to reflect great credit on Canyon and Randall County at the state encampment.

DAN MOODY HERE MONDAY.

Dan Moody of Taylor, candidate for Attorney general of Texas, was in the city Monday meeting the voters. Mr. Moody is a prominent young lawyer, who made a great record as district attorney. He has very strong support among the business men of his district, and all of the neighboring counties.

Mr. Moody is making a complete canvas of the state in order to meet the voters.

KILL BY LIGHTNING MONDAY.

During a thunder shower Monday afternoon at 4:50 o'clock, W. L. Walker was killed by a bolt of lightning five miles southeast of Amarillo. He was driving a four horse team to a plow at the time, and three of the animals were killed.

John Fry was two miles away at the time the bolt hit, and said he had never heard such a loud clap of thunder.

DEGREE WORK GIVEN

Degrees are given in the West Texas State Teachers College. The first degree was issued in 1918. The attendance among the students of advanced standing is increasing year by year. The teachers of Texas feel their need of better preparation. The work of the College is recognized by all leading universities in the United States.

SHELTON-PRUITT

Miss Mabel Shelton and Mr. Thomas Pruitt were united in marriage at Panhandle on June 4th. Miss Shelfon is the daughter of Mr. and Mrs. C. F. Shelton of this city and is a former student of the college. The couple left the following Saturday for San Antonio where they will make their home.

FOUR LIVE LITERARY SOCIETIES

There are four live literary societies in the College, two each for men and women. For the men, Cousins and Antlers; for the women, Sesame and Elapheian. The Cousins and Sesame societies were organized the first year the College opened.

MARRIAGE LICENSES

Marriage licenses were issued this week by the County Clerk as follows:

John Downing and Miss Laree Hill, June 13th.

Harold Otis Pitt and Miss Narna C. Box, June 14th.

C. T. Chambers and Miss Jewel K. Keene, June 15th.

O. D. Whiteside and Miss Eula Wade, June 17th.

A CHRISTIAN INSTITUTION

The West Texas State Teachers College has been pronounced to be a College of Christian ideals by those who have looked closely into the religious atmosphere of the College. Every church in Canyon has a member of the faculty as its Sunday School superintendent, and many of the teachers in Sunday School are members of the faculty. The President of the College is a highly cultured Christian gentleman and encourages everything that leads to the better Christian life.

COLLEGE IS RECOGNIZED

The West Texas State Teachers College is recognized by every leading university in the United States. During the past summer, students have been given credit for all work carried in this college by such outstanding universities as University of California, University of Iowa, University of Texas, and many others.

COUNTRY SCHOOLS GOOD

There are twenty country schools in Randall County outside of Canyon. All have excellent teachers.

PLATEAU SINGERS MAY RETURN TO CANYON IN 1925

(Continued from first page)

ers College. The opening attendance and registration Saturday morning were small, but doubled during the progress of the meet.

John F. Taylor of Clovis, guiding spirit of the convention, was re-elected president of the business session Saturday night. R. I. Wilson of Lubbock was re-elected vice president and Earl G. Robertson of Clovis was chosen secretary, vice S. G. Bridges, retiring.

Fully 40 counties of the Staked Plains territory were represented at the gathering, most of the delegates coming overland and camping at the park. Specially notable was the attendance of the Vaughn Music Company's famous quartet, which came by motor from Jacksonville to take part in the program.

Registration began at 8:30 a. m. Saturday, the first number on the program coming at 9 o'clock, when the teachers of the college entertained the delegates. E. E. Walker led the opening song and invocation was pronounced by Rev. Mr. Bonner of Tulia. Lotis F. Hart, manager of the local Chamber, welcomed the visitors and praised their ability to enjoy the oldtime amusements. Songs were then led by Lawrence Taylor, D. L. Huffstutler, Milton Nichols, D. B. Roberson, C. J. Williams, C. C. Bowman, P. S. Mallin, H. N. Estes, Grown Lemaster, W. S. D. Dixon and C. G. Tubbs.

The resolutions committee, consisting of C. C. Bowman, C. J. Williams and Grown Lemaster was then appointed, and later brought in resolutions of thanks to the Chamber of Commerce, the college, the Randall County body and the city administration, as well as to the citizenship in general and the merchants in particular, for their assistance in staging the big gathering.

J. A. Hill, president of the college, spoke on "The Key," declaring that Jesus Christ is the key to success in life, both public and private, and was the recipient of great applause. More songs were sung in the afternoon and a great variety of comic numbers Saturday night.

Preparations for the big barbecue began weeks in advance and during the last several days previous occupied the entire time of several committeemen. To give the lie to propaganda from the South Plains regarding Canyon's water supply, special arrangements were made, at considerable expense to provide plenty of city water, well iced, for the visitors. Two large tanks were provided by Thompson Hardware Company, and in a cistern supplied by J. I. Penrod water was hauled from the city's plant. John Guthrie took the ice detail and J. W. Flesher looked after the coffee. J. D. Gamble and others looked after parking and W. A. Warren looked after the serving.

The big barbecue had been announced for 1:00 o'clock, but by 12:30 the visitors were crowding in, so that preparations had not been completed. Everyone was served after a fashion, however, and all appeared well satisfied.

More singing was indulged in following the feed and the visitors departed Sunday evening.

Business men who wish to see the convention brought back next year are urged to get in touch with Charles Stratton of the local committee.

STORY HOUR STARTS.

The summer story hour under the auspices of the Parent-Teachers Association met last Friday for the first time on the Presbyterian church lawn.

Many games were played, after which Miss Ruth Lowes told very interesting stories for the children. All children are urged to come to the story hour every Friday evening at 6:45 o'clock. Miss Elva Fronabarger is to lead in story telling Friday night of this week.

COLLEGE GREAT PLANT

In addition to the finest administration building in the Southwest, the West Texas State Teachers College has separate buildings for Cousins Hall, Randall Hall, the President's home, the infirmary, the power plant, the pumping plants, the dairy barn, the poultry houses, the machinery sheds, the Fair Exhibition Hall, bath and dressing house on the athletic field, and the grandstand.

PLENTY OF WATER

All of Randall County is underlaid with sheet water, which guarantees a never failing well at any spot where one would desire to sink one. The water is pure, soft and cool, and exists in inexhaustible quantities at a depth of 30 to 100 feet. Randall county is in the shallow water belt of the Plains.

American Telephone & Telegraph Co.
139th Dividend

The regularly quarterly dividend of Two Dollars and Twenty-Five cents per share will be paid on Tuesday, July 15, 1924, to stockholders of record at the close of business on Friday, June 20, 1924.
H. BLAIR-SMITH, Treasurer.

Well-Merited Success

Honored politically and professionally, Dr. R. V. Pierce, whose picture appears here, made a success few have equalled. His pure herbal remedies which have stood the test for fifty years are still among the "best sellers." Dr. Pierce's Golden Medical Discovery is a blood medicine and stomach alterative. It clears the skin, beautifies it, increases the blood supply and the circulation, and pimples and eruptions vanish quickly. This Discovery of Doctor Pierce's puts you in fine condition, with all the organs active. All dealers have it.

Send 10 cents for trial pkg. of tablets to Dr. Pierce, Buffalo, N. Y.

SHERER FOR COMMISSIONER.

O. E. Sherer has authorized the News to announce his candidacy for the office of County Commissioner in Precinct No. 4.

Mr. Sherer is a farmer in this county and has lived here for sixteen years. He has never held a public office and it was only upon the strong solicitation of his friends that he announces for the office of commissioner.

Mr. Sherer stated that he is in favor of running the county government in an economical manner, and giving to all of the tax payers a fair and square deal in all county affairs. If chosen by the voters of his precinct, Mr. Sherer is qualified to serve the people of the county in a very business like manner.

NOTICE IN PROBATE.

THE STATE OF TEXAS,
To the Sheriff or any Constable of Randall County—Greeting:

You are hereby commanded to cause to be published once each week for a period of ten days before the return day hereof, in a newspaper of general circulation, which has been continuously and regularly published for a period of not less than one year in said Randall County, a copy of the following notice:

THE STATE OF TEXAS

To all persons interested in the welfare of Freda Menke, a Minor, file No. 150, Probate Minutes of Randall County, Texas, B. F. Fronabarger has filed an application in the County Court of Randall County, on the 16 day of June, 1924, for appointment as guardian of said Freda Menke in place and stead of Chas. R. Flesher, resigned, which said application will be heard by said Court, on the 7th day of July, 1924, at the Court House of said County, in Canyon, Texas, at which time all persons interested in said welfare are required to appear and answer said application, should they desire to do so.

Herein fail not, but have you before said Court, on the first day of the next term thereof, this writ, with your return thereon, showing how you have executed the same.

Witness my hand and official seal, at Canyon, Texas, this 16th day of June, 1924.

(Seal) ETHEL WOODS, Clerk, County Court, Randall County, Texas. 12t3

And perhaps there would be more religion in business if there were less business in religion.—Columbia Record.
