BIG SPRING, TEXAS, THURSDAY, MAY 29, 1941

FOURTEEN PAGES TODAY

Power, Oil Shortages Cited --**'GASLESS SUNDAYS' PROPOSED**

WASHINGTON, May 29 (AP)—Interior Secretary Ickes today advocated daylight saving time on a nationwide scale, and suggested that America may have to resort to restricted use of electricity and institute "gasless Sundays" to meet shortages of power and oil.

This statement came as an official of the federal power commission foresaw a power emergency, "perhaps the most serious in history," and revealed studies were being made on means of diverting power from civilian to industrial uses, to prevent interruption of defense production.

Daylight saving, Ickes said, could be instituted by an act of congress, to save substantial amounts of power.

In mentioning the possibility of priorities in the use of power, the secretary said restricted consumption might easily include night baseball.

and he commented: "It's more important to make aluminum than to have night baseball."

Turning to oil, Ickes told his press conference the problem was strictly one of transportation, and he foresaw a possibility of restricted use, especially on the eastern seaboard.

In this connection, he advocated oil pipe lines from the south to the east, where severe shortages of oil are feared because of the transfer of one-fifth of the American tanker fleet to British service. He advocated priorities on materials used in making pipe lines and oil tankers, to hasten their construction.

Ickes said an effort to build the pipe lines had been blocked in the Georgia legislature by the railroads "very short-sightedly."

T. E. Tate, of the federal power commission, told of the study to conserve power.

FDR Not To 'Tip His Hand' On Methods Of British Aid**No Definite Announcement On Convoys**

WASHINGTON, May 29 (AP)—President Roosevelt adopted the strategy of silence today on future methods for delivering the goods to Great Britain.

"You don't telegraph your moves any more in the world of today," one service official explained, referring to the president's statement that army and navy technicians were devising new safeguards. "You can't afford to. You'll notice the other fellows never do."

However, Chairman Reynolds (D-NC) of the senate military committee looked for "full convolutions of some description." He said that was his interpretation of the president's flimsy chat, and he said that needed supplies reached England safely.

On the other hand, no less a personage than Vice President Wallace was reported to be disappointed that his chief had not been more specific as to how delivery would be assured.

Mr. Roosevelt did nothing to quell conjecture yesterday at his special press conference. He disclaimed any intention of seeking change or repeal of the neutrality act, contending that it in no way infringed on the principle of freedom of the seas, which he formally reiterated for the United States Tuesday night.

By ruling out action on the neutrality law, the president eliminated the possibility of American merchant ships being used to carry cargoes through the present combat zones. However, this caused one official to recall Mr. Roosevelt's specific assertions in the past that the combat zone quarantine did not apply to the nation's naval vessels, which were free to go wherever their missions took them.

President Roosevelt, touching on another subject of considerable speculation, also told reporters yesterday that he contemplated no executive orders at present to invoke any of the numerous broad powers conferred on him by the proclamation of an unlimited national emergency.

Weather Forecast

WEST TEXAS—Fairly cloudy with scattered afternoon and evening showers and thunderstorms in Panhandle and southwest portion today and Friday. Little change in temperature.

EAST TEXAS—Considerable cloudiness with scattered showers and thunderstorms tonight and Friday. Moderate and fresh south easterly winds on coast.

FD's Words Are Quoted To Strikers**Mediation Board Asks Quick Settlement Of Pacific Lumber Tie-up**

By The Associated Press

The defense mediation board cited President Roosevelt's proclamation of an unlimited national emergency today for the first time in an appeal to striking CIO lumber workers in the Pacific northwest to return to work "as patriotic citizens."

The board appealed to the lumber workers after being advised that their representatives had "rejected unanimously" a board proposal for temporary settlement of their dispute pending a report by a fact-finding commission. It said employers accepted the proposal. About 112,000 workers went on strike demanding a number of things, including a flat wage increase of 7 1/2 cents an hour. Officials said the base rate now for common labor in the 52 affected camps was 67 1/2.

W. H. Davis, vice chairman of the board, told a press conference: "You will recall President Roosevelt said in his speech that recommendations of the mediation board should be accepted. I assume he meant what he said."

Earlier the executive council of the American Federation of Labor declared that AFL machinists on strike at San Francisco bay shipyards "should call it off immediately and return to work."

This formal announcement by the council backed up a sweeping pronouncement it issued yesterday, calling on all its affiliates to take disciplinary action against local unions which strike without exhausting resources for mediation. The executive council said it would take similar action itself against federal labor unions directly under its control.

The council declared that uninterrupted production by the West Coast shipyards was vital to the nation's defense, and further that "the good name, the honor and the 'no-strike' policy of the American Federation of Labor demand that the coastwise master agreement between the shipbuilders and the metal trades unions, barring strikes and lockouts, be religiously observed and respected."

AFL and CIO machinists are on strike at 11 San Francisco yards which hold \$200,000,000 in defense contracts. They are seeking \$115 an hour and a double pay for overtime, instead of \$112 and time-and-one-half overtime provided in a coastwise agreement which the OPM negotiated with the AFL.

AAA Workers Here For Conference

County AAA committeemen, administrative officers and clerical workers of nearly all the 19 counties in extension service district 6-north were here today for the opening of a two-day conference.

Jack E. Hall, district administrative officer, and C. H. Mosley, state compliance supervisor for AAA, are conducting the meeting.

Today the 100 persons attending the session were hearing explanations of regulations governing the measure of farm crops for compliance with the AAA program. Tomorrow they will take up a discussion of wheat marketing quotas, on which farmers are voting Saturday.

Towers To Be Used To Train 'Chute Troops'**VF Memorial Day Service Due Friday**

Memorial services, under the sponsorship of the Ray E. Fuller post of the Veterans of Foreign Wars, will be held at the city cemetery at 7 p. m. Friday, J. D. O'Barr, commander of the post, reminded Thursday.

Decorations of graves of veterans with United States flags already has been started, said the commander, and families of veterans buried in the cemetery were asked to assist in making sure none is overlooked.

"We are urging all to attend, and especially families of veterans," said O'Barr. "Our program will honor all deceased members of the armed forces of the United States, whatever war."

Judge James T. Brooks, who led a Big Spring company in France during the first World War, will be the principal speaker at the cemetery. Dan Conley and members of the high school band will play and Mr. and Mrs. H. G. Keeler will sing. Invocation will be said by Rev. Robert J. Snell, St. Mary's Episcopal church, and Gen. Logan's Memorial Day proclamation will be read by Hawk Dalton, adjutant. The auxiliary is joining with veterans in staging the ritual.

City To Honor Baseball Team

Baseball fans here will give the Big Spring Bombers a roaring welcome here Friday noon when the team returns from a victorious road trip for a 10-game home stand.

Under the sponsorship of the chamber of commerce, a dinner had been arranged for hotel, honoring the team and its president and manager, Tink Riviere and Jodie Tate.

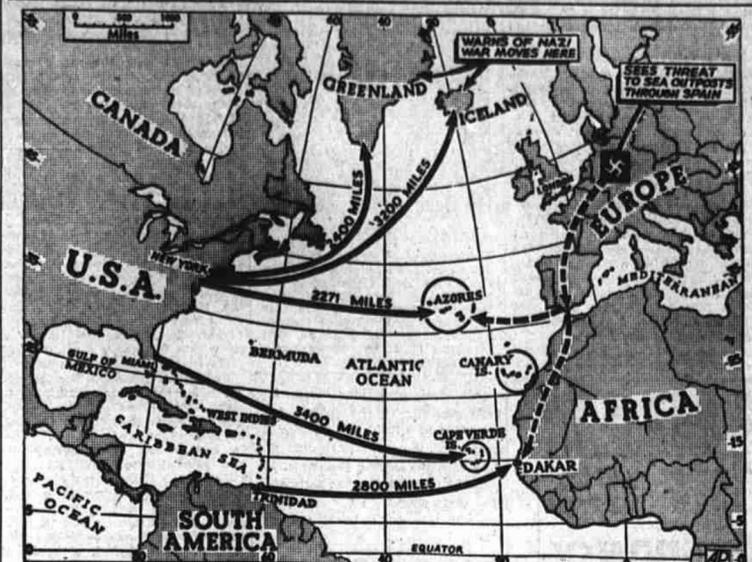

It will be in conjunction with the regular American Business club meeting, chamber officials announced after conferring with ABC leaders.

Guard Duty May Be Indefinite

WASHINGTON, May 29 (AP)—Indefinite military duty for the national guard, was considered a virtual certainty by the army officials today because of the unlimited national emergency proclamation by President Roosevelt.

An early request to congress for authority to retain the 291,000 guardsmen in service beyond the current single year of training was accordingly anticipated, although no final decision has been disclosed on the question.

In the light of the threat to American security pictured by the chief executive, an informed official suggested it would be "hardly logical" to demobilize 15 full divisions of trained troops, representing more than half the number of such major units under arms in all the expanding land forces.

Suda Bay, Candia Captured In Nazis' Smash On Crete

"Key" Islands—President Roosevelt warned the war "is approaching the brink of the western hemisphere itself" in his speech proclaiming a state of unlimited emergency and declaring the control or occupation by naval forces of any of the islands of the Atlantic would jeopardize the ultimate safety of the United States. Arrows indicate islands referred to by the president and approximate distances from the U. S. to these islands, athwart main sea communication routes.

Hundreds Of Prisoners Are Taken**Hitler Forces Push Farther Into Important Island**

BERLIN, May 29 (AP)—German troops occupied Candia, Crete, today, DNB, official German news agency announced.

The town's airport and harbor were taken over by the advancing Germans, the news agency said, adding that several hundred allied soldiers were captured.

The reported occupation of Candia followed announcement of the capture of Suda Bay, the island's best harbor, some 65 miles to the west and a drive to Almyro Bay between Suda Bay and Candia.

Earlier German dispatches said Suda Bay, site of a strong British naval base, had been captured. The high command said the Germans "again took a large number of prisoners" in the thrust eastward.

Almyro Bay is separated from Suda Bay by a pyramid-like neck of land, and on the body of water is situated Retimo, which with Candia, has been one of the two main places held by the British and Greek defenders.

The daily communique referred to the bay as Armini, but it is shown on most maps as Almyro.

The reported seizure of Suda Bay meant establishment of a bridgehead for landing sea-borne reinforcements to Germany's aerial invaders and the high command announced that Italian troops already have landed, possibly by this route.

The Germans claimed yesterday that the British had been driven from Canes, Crete capital west of Suda Bay.

The Luftwaffe was declared to have pounded British positions along the island's north coast yesterday with what was called "stronger formations of bombers and Stukas." A merchantman and a patrol boat, the war bulletin asserted, were sunk in waters around the island.

Despite the axis advance, the British said the actual territory in German hands is but a small fraction of the island area, consisting mainly of a strip along the coast from Malemi airdrome, southwest of Canes, to a new line east of Suda Bay.

For the most part, the Germans were reported being held in the coastal plain. Although Alpine troops were said to be among the advancing forces, they were declared to have made little headway into the steep hills which offer good defensive positions.

New Liquor Stamps Here

The district office of the Texas Liquor Control Board here is now receiving the fractional liquor tax stamps for distribution to retail dealers who must purchase them for affixing to present liquor stocks by June 1.

Passage of the omnibus tax bill by the legislature now in session had these effects on retail liquor dealers: (1) increased the tax on distilled spirits from 95 cents to \$1.35 per gallon; and (2) levied a tax of 25 cents on each prescription for liquor filled by drug stores holding medicinal permits.

There was no increase in tax on wine, ale or beer, and only dealers in whiskies, gins and other types of distilled spirits are affected by the new tax law.

All retailers are required to make an inventory of liquor stocks on hand as of midnight May 31, and report this sworn inventory to the Board's office here. Board representatives will then calculate the amount of tax stamps needed by the retailer and he in turn will pay for these stamps and affix them to his bottled stocks.

The Liquor Control Board's district office located at 301 Scurry street, Big Spring, will be open Sunday, June 1, to distribute stamps and accept payment from dealers. Personal checks will not be accepted.

Retailers should obtain their stamps from the district office here if they operate in any one of the following counties: Brewster, Culberson, Crane, Ector, Howard, Loving, Pecos, Presidio, Reagan, Reeves, Terrell, Upton, Ward and Winkler.

Says Germany Must Be Made To Keep Peace

LONDON, May 29 (AP)—Foreign Secretary Anthony Eden, in his first comprehensive statement on Britain's war aims, declared today that "our political and military terms of peace will be designed to prevent a repetition of Germany's misdeeds."

Eden said that "under the system of free economic cooperation, Germany must play a part. But here I draw a firm distinction."

"We must never forget that Germany is the worst master Europe has yet known. Five times in the last century she has violated the peace. She must never be in a position to play that role again."

Eden, addressing a London audience, termed President Roosevelt's friends chat Tuesday night "a momentous world event" because, "by his words, the president has given resolute expression to the fixed determination of the most powerful nation on earth."

He asserted that "a lasting settlement and internal peace of the continent as a whole is our only aim."

"It is obvious," the foreign secretary said, "that we have no motive of self-interest prompting us to economic exploitation either of Germany or of the rest of Europe."

"This is not what we want nor what we could perform x x x."

"The fact that at the bottom of his heart every combatant knows this is the ultimate source of our strength. To every neutral satellite of a conquered country it is obvious our victory is, for the most fundamental and unalterable reasons, to their plain advantage."

Senior Class To Give All Savings To U. S. Defense

No benches, no books, no plaques will adorn the Big Spring high school in the name of the class of 1941 in years hence.

Thursday the class threw all of its savings behind the national defense program.

What to do with class funds—what sort of a gift the class will make to the school is always a problem for seniors.

At a special meeting Thursday morning, seniors voted to give \$110, the net proceeds from the senior play, to the cause of national defense. There will be no strings. A check for the amount will be mailed to the treasurer of the United States with the request that it be put into the preparedness funds.

TO HYDE PARK
WASHINGTON, May 29 (AP)—President Roosevelt will leave today for a weekend of rest at his Hyde Park, N. Y., home.

U. S. To Train British Aviators

WASHINGTON, May 29 (AP)—Secretary Stimson disclosed today that a far-reaching undertaking to train 8,000 British Royal Airforce flyers in this country would start June 7.

The first class of 500 students, all from the British Isles, is to begin instruction on that date, followed by new groups at five-week intervals.

Stimson told reporters the program might be enlarged later. He asserted "it can be done without interfering at all with the army air corp's own undertaking to accelerate the training of American pilots to 20,000 a year."

7th Graders Are Promoted

With an appeal to start now on a program of becoming a well-rounded American in their minds, 187 members of the seventh grade were promoted into the high school in exercises held at the municipal auditorium Wednesday evening.

George Thomas, attorney, urged students to not be satisfied with mere patriotism and citizenship, but to combine the two virtues so well that they would be real Americans in every sense of the word.

Presentation of the Cushing award was made by Judge Walton Morrison to Wynell Wilkinson and Thomas Clinkscals.

Two class songs were grouped together and Cecilia Westerner favored with a piano selection. Student speakers for the occasion were Betty Alice Nobles and Joe Bruce Cunningham.

J. Gordon Bristow, member of the board, presented diplomas, while the Rev. Robert J. Snell, pastor of the St. Mary's Episcopal church, pronounced both the invocation and the benediction.

Ship Transfer Bill Approved

WASHINGTON, May 29 (AP)—The senate finally approved and sent to the White House today administration legislation permitting the government to take over more than 80 foreign ships now lying idle in American harbors.

The measure, a compromise between the original senate and house versions, was approved by the house earlier this week.

Under the bill, the government may take over foreign ships by purchase, requisition or charter.

Cash benefits or other "equitable treatment" must be provided for foreign seamen thrown out of employment by ship acquisitions.

The bill provides that, except by purchase, no ships can be acquired which actually were owned by foreign governments at the outbreak of the war, September 3, 1939. The senate commerce committee was advised that only two small vessels in American waters fall into this category.

Price Chief Opposes Rail Pay Increase

WASHINGTON, May 29 (AP)—Leon Henderson, government price chief, testified today he would oppose a suggested 33 per cent increase in railroad wages if the increase could be absorbed only through increased transportation costs.

Appearing before the senate agriculture committee, the head of the office of price administration and civilian supply was asked by Senator Ellender (D-La) whether he had made any effort "to fix the price of labor."

When Henderson replied negatively, Ellender mentioned the proposed rail wage boost and in opposing it the witness remarked that "rising transportation costs seriously affect all other costs."

He said that when it appeared that "an unjustified wage increase would affect prices" he would "make representations" to the office of production management and the secretary of labor.

When Ellender suggested that Henderson could be given authority to fix "the price of labor as well as any other commodity" the witness said he was "not prepared to suggest what ought to be done."

Henderson told the committee that "the president does have an obligation to maintain stability of prices in times of emergency like these."

Medical Units Must Pay Fine

WASHINGTON, May 29 (AP)—Justice James M. Proctor of District court today fined the American Medical association \$2,500 and the District of Columbia Medical Society \$1,500 for violation of the Sherman anti-trust act.

The A. M. A. and the district society were found guilty of conspiracy to violate the act on April 4. At the same time 15 physicians, including five officials of the AMA, were exonerated.

In the trial attorneys of the justice department argued that the two groups and the physicians had conspired to obstruct the activities of Group Health association, a federation of government employees organized to provide cooperative medical care.

They charged that the association and its affiliated societies had "concocted and restrained 12 Washington hospitals" by refusing the group health doctors the privilege of practicing in the hospitals and had brought pressure to bear to prevent other physicians from consulting with the group health physicians.

F. O. NOMINATION
WASHINGTON, May 29 (AP)—President Roosevelt sent to the senate today for confirmation this postmaster nomination: Texas, Midland, Allen Tolbert.

Agricultural Census Shows New Trends Of Farm Life

Courtney Ends School Term

STANTON, May 28 (Sp)—Tuesday night marked the close of the Courtney high school term. The class roll included Owen Kelly, president; James Jones, vice president; Max Graham, secretary; M. W. Alcorn, sponsor; Vida Mae Mae Angel, Herman Cain, Mildred Cross, Marvin Easman, Raymond Herron, Mary Livingston, Maxine Mims, Betty Jo Stewart, Ida Mae Reeves, Bill Pinkston. Ida Mae Reeves was salutatorian and Vida Mae Angel, valedictorian. The class left Thursday by bus for a trip to New Mexico where they will visit Santa Fe, Taos and the Sacramento mountains.

Japan's Ties To Axis May Be Weakening

WASHINGTON, May 29 (AP)—Responsible legislators said today there is a growing belief in administration circles that Japan's adherence to the axis soon may weaken, and they cited as evidence President Roosevelt's virtual omission in his fireside chat of any discussion of America's problems in the Pacific.

This belief, reported to be entertained in high quarters, was said to be based on information that business interests apparently were gaining influence in the Tokyo government and might eventually prevail over the military party which led Japan into the war with China and into the axis alliance. The president made only brief references to the Pacific in his address Tuesday. He mentioned aid to China, but nothing else beyond the assertion that the dictators were organizing a system which might be used to force enslaved peoples to build "a naval and air force intended to gain and hold and be master of the Atlantic and the Pacific as well."

Chairman George (D-Ga.) of the

Chief—Commander of district No. 7 of the Veterans of Foreign Wars is Dr. C. W. Deats, above, who was elected to that office at a district meeting here Sunday for a two-year term. Dr. Deats saw service during the World War as a member of Big Spring's own company D, 117th supply train, 42nd division. (Ferry Photo).

Fewer Farms Now Operate Than In Past

(Editor's Note—This is the first of several articles summarizing findings of the 1940 agricultural census in eight counties in the Big Spring territory. The next will appear tomorrow.)

Released for publication today by the bureau of the census, the complete report on last year's agricultural census in Texas contains a vivid picture of agricultural conditions in the state. Hidden among the many pages of fine print in the report is a story of change in farming methods, a story of the decline and rise of farm values, a story of the crops harvested and failures suffered, and a story of the wealth gained from the land.

Nearly all figures obtained in the 1940 census are reported in comparison with 1935 and 1930 agricultural censuses. This is shown the changing mode of farming. It shows that Texas now has fewer farms than it has had since 1910. From that date until 1935, the number was increasing, but since 1935 a rapid drop has occurred. It shows the industrial revolution by which tractors have replaced the horse and mule.

For quick perusal, The Herald has lifted the figures pertaining to eight West Texas counties in the Big Spring territory from the voluminous report and will print them in easy-to-read form during the next several days.

The first figures, pertaining to the number of farms in cultivation, acreage used, average acreage, value of lands and buildings, and value of implements and machinery, appear below. Others will follow.

NUMBER OF FARMS		
County—	1940	1935

Italian Army Heads Shifted

ROME, May 29 (AP)—Replacement of Lieutenant General Achille Starace, former secretary of the fascist party, as chief of staff of the fascist militia, was announced officially today. Premier Mussolini appointed Lieutenant General Enzo Galbiati to the post which Starace had held since January, 1940, when Italo Muli replaced him as party secretary.

Muli, now a war pilot, later was succeeded by Adelchi Sereno. The announcement, without stating the reason, merely said Starace had left the position May 28. The fascist militia is a combat organization of blackshirt battalions fighting alongside regular army regiments in various divisions of Italy's armed forces.

Utilities Men See Emergency In Power Use

WASHINGTON, May 29 (AP)—Forecasting a nation-wide power emergency—perhaps the most serious in history, T. R. Tate of the federal power commission re-

vealed today that a study was being made of means for diverting electricity from civilian to industrial purposes, to assure uninterrupted production of defense weapons. Tate expressed hope, however, that any restriction in the use of electricity would not include the "lightless nights" and darkened great white ways of World War years. Under the "unlimited emergency" proclaimed Tuesday night, President Roosevelt has absolute

away over the nation's power facilities. He may "take over power houses, dams, conduits and reservoirs; require temporary connections of facilities and such interchange, delivery and transmission as may be required." Tate, who is director of the national defense power staff in the power commission, predicted that "if we are going to double airplane production, quadruple tank production, treble powder, small arms ammunition and rifle production, and multiply output of machine

guns and other materials, then by the end of 1941 the power situation will be critical indeed." Every resource is being exhausted, he said, to meet such a situation. That Full, Choked Feeling—after eating and drinking usually comes with acid indigestion and heartburn. Have ADLA Tablets handy; they contain Bismuth and Carbonates for quick relief. Your druggist has them. Cunningham & Phillips, Druggists, and Collins Bros. Drug Co.—adv.

Memorial Day Parades Should Be Topped With Special Dinner

The first formal observance of Memorial Day, commonly known as Decoration Day, was in 1868. General Logan, commander in chief of the Grand Army of the Republic, issued orders to all army posts calling for national flags to be held at half-mast from sunrise to midday, in honor of fallen comrades. The custom was taken up by the navy and now all branches of our armed forces observe Memorial Day with appropriate ceremonies on May 30 each year.

This year, with so many of our boys in uniform, the parades will draw millions of spectators, and after these stirring displays, what could be a more fitting culmination than a grand dinner, with special dishes for the occasion!

FLAPJACKS
(Serves 3 people)
1-2 package fast granular yeast.
1-4 cup lukewarm water.
1-4 teaspoon sugar.
2 cups milk.
1 tablespoon butter.
1 teaspoon salt.
2 cups flour.
2 eggs.

Four the granular yeast in 1-4 cup lukewarm water and add the 1-4 teaspoon sugar. Scald the milk and let it cool. Add the softened yeast and the salt to the cooled milk and then mix in warm place to rise. Separate the eggs and beat the whites and the yolks. Add the beaten yolks to the raised batter and then fold in the beaten whites. Beat well and let stand for about 15 minutes in warm place. Fry on a hot greased griddle.

If you want a light snack to carry along to the parade or the ball game, try—
EGG ROLLS WITH GRILLED SAUSAGE OR FRANKFURTER
(About 30 rolls)
1-4 package fast granular yeast
1-4 cup lukewarm water
1-4 teaspoon sugar
1-4 cup milk
3 ounces shortening
1 teaspoon salt
5 cups flour (sifted)
2 eggs
Summer sausage or frankfurters

Four the granular yeast into the 1-4 cup lukewarm water and add 1-4 teaspoon of the sugar. Scald the milk and add to it the shortening, salt and the remaining sugar with about half the flour and mix with the cooled milk. Add the softened yeast and beat well. Cover and set to rise until light.

Beat the eggs and stir them into the sponge, adding the rest of the flour, or enough to make a soft dough. Knead lightly for eight or ten minutes, using as little flour as needed to prevent sticking. Form into rolls about 3 inches long and about 3/4 of an inch in diameter. Set again to rise. Bake in hot oven. When ready to prepare sandwiches, cut and grill pieces of summer sausage, or slice frankfurters lengthwise and grill. Toast rolls, sliced lengthwise, butter, and use with the summer sausage or frankfurters.

Eastern Star Has Election In Coahoma

COAHOMA, May 29 (Sp.)—Coahoma O. E. S. met Tuesday evening for election of officers. Mrs. Minnie Birkhead was elected worthy matron; Miss Luella Thompson, associate matron; R. F. Darsey, worthy patron; J. G. McGee, associate patron; Mrs. John Davis, conductress; Mrs. J. G. McGee, associate conductress; Mrs. Della Lay, secretary and Mrs. E. R. Thomason, treasurer.

Kongential Klub Is Entertained In Elmer Dyer Home

High scores for guests went to Mrs. Leann Baker when Mrs. Elmer Dyer entertained the Kongential Klub in her home Wednesday. Mrs. Roy Anderson was also a guest.

Mrs. Bert Shive won club high score and Mrs. Escot Compton second high. Mrs. Gerald Liberty binged.

Snadragons decorated the rooms and small fans were used as talismans. A salad course was served.

Others playing were Mrs. Jack Smith and Mrs. Bill Gage who is to be next hostess.

O'Brien, Sammie Rhodes, Mickie Casey, Billy Pay Rhodes, La Rue Casey, Clarence Schaefer, Jr., Kyle Jacks, Irvin Campbell, Wanda Cooper, Margaret Morris, La Vern Cochran, Bessie Halbrook, Jimmy Frank Wilcox.

New Liquor Law Attacked In Court

AUSTIN, May 29 (Sp.)—Steps will be taken promptly to defend the new restricting drug store sale of liquor against a suit alleging illegality, C. A. Faxton, chief supervisor of the enforcement division of the state liquor control board, said today.

A temporary injunction restraining the board from enforcing the law was granted yesterday by District Judge Max M. Rogers of Huntsville. Hearing was set for June 12.

Faxton said that immediately after the papers had been served representatives of the board would confer with members of the attorney general's department and a course of action decided upon.

The district clerk at Huntsville had advised him by telephone that the papers were being mailed, he asserted.

Group Entertained At Earl Powell Ranch

STANTON, May 29 (Sp.)—Several couples went dancing at the ranch home of Mr. and Mrs. Earl Powell Tuesday evening.

Powell furnished the piano music. "Put Your Feet" polka and schottische were danced. Present were Mr. and Mrs. Owen Ingram, Henry Houston, Angela Schell, Bernard Houston, Josephine Houston, Bob Schell, Loretta Schell, Bart Fowler of Midland, Beth Houston and Virgil Deakins.

Bridge Club Gives Funds To Red Cross

Voting to give \$5 to the Red Cross sewing room for equipment, the Blue Bonnet club met in the home of Mrs. C. E. Shive Wednesday for bridge and a business session.

Mrs. Arthur Woodall was elected president of the club, and Mrs. R. C. Hitt, reporter. Mrs. E. L. Carpenter was named as next hostess at a luncheon.

Spring flowers decorated the rooms and refreshments were served. Mrs. Jake Bishop won guest high score and Mrs. Ed Merrill club high score. Bingo awards went to Mrs. J. E. Hodges, Mrs. E. C. Boatler, and Mrs. Charles Kobberg.

Others present were Mrs. Herschel Petty, Mrs. J. L. Terry, Mrs. Ira Watkins, Mrs. W. D. McDonald, Mrs. S. L. Baker.

Pioneer League Is Organized At Church

COAHOMA, May 29 (Sp.)—A pioneer league was organized recently in the Presbyterian church and includes youngsters from 12 to 15. The adult advisers will be Mrs. C. H. DeVaney and Miss Elsie Mae Behols. Officers elected were Lewis Lovelace, president; vice president, Ray Behols; secretary, Juns Stamps; treasurer, Wayne DeVaney. Trail guides are Betty Pearl Kidd and Roy Mullin. The league will meet each Sunday at 7 o'clock.

Names Of 29 On Ticket For Senatorship

AUSTIN, May 29 (Sp.)—The official ballot for the June 25 U. S. senatorial election will contain the names of 29 candidates, 25 democrats, two republicans, one independent and one communist.

One of the largest fields ever to run for a single office in Texas, the list, certified to county clerks by the secretary of state yesterday, included an attorney general, congressman, a governor, a laundry operator, a chiropractor, a minister, a plumber, a physician and a citrus rancher.

The candidates:

Democratic Party
Joseph C. Bean, Bay City, 66.
Dr. John R. Brinkley, Del Rio, 55, physician.
A. A. Calvin, Houston, 65, secretary taxpayers association.
E. R. C. Cypote Davis, Dallas, 60.
Marlin Dies, Orange, 40, congressman.
Guy E. Fisher, San Augustine, 55.
W. H. Gilliland, Dallas, 35, plumber.
A. E. Harding, Fort Worth, 48, Commodore Beal Mace Hatfield, Fort Worth, 72.
Robert Grammer Head, Fort Worth, 25.
O. F. Heath, Sr., Dallas, 50.
Bubba Hicks, Houston, 63, merchant.
Lyndon B. Johnson, Johnson City, 32, congressman.
W. C. King, Bronson, 64, farmer and café operator.
Gerald C. Mann, Austin, 54, editor general.
Sam Morris, Del Rio, 41, Baptist minister.
Stari G. Newsome, Jr., Dallas and Gilmer, 46, farmer.

Take-Off Of Year's Program Is Feature Of Music Club Luncheon

A take off program on regular club meetings featured the President's luncheon held by the Music Study club Wednesday at the Settles hotel.

The skit which pointed out the amusing happenings in the club during the year was put on by Mrs. Bernard Lanun, Mrs. R. L. Carpenter, Mrs. Carl Strom, Mrs. Harry Hurt, Mrs. Omar Pitman.

A newboy brought in an 'Extra' which contained a record of the year's program. Mrs. H. G. Keaton, retiring president, was presented with a gift from the club.

The table was decorated in the club colors of green and yellow and place cards were old-fashioned dolls. Snadragons also decorated the table.

The club disbanded until fall and committees for the year were appointed.

Others present were Mrs. D. W. Conley, Mrs. V. H. Fleweller, Mrs. S. H. Gibson, Roberta Gay, Mrs. Anne Gibson Houser, Mrs. J. P. Kenney, Mrs. J. H. Kirkpatrick, Mrs. L. S. McDowell, Mrs. J. H. Farrott, Mrs. Herman Williams, Elsie Willis, Mrs. Stormy Thompson, Mrs. C. W. Norman, Edith Gay.

Mrs. Green Hostess To Wednesday Bridge Club

The home of Mrs. J. J. Green was decorated with garden flowers when she entertained the Wednesday bridge club yesterday. Mrs. A. G. Hall, Jr., and Mrs. T. J. Walker were present as guests.

Mrs. Ray Shaw won high score and Mrs. Walter second high. Mrs. Hall and Mrs. W. M. Gage binged.

A salad course was served and favors were miniature American flags. Others playing were Mrs. George Hall, Mrs. Robert Anderson, Mrs. M. C. Lawrence. Mrs. Hall is to be next hostess.

Pupils To Give Recital Friday Night At Church

Piano pupils and two rhythm bands will be presented in recital Friday night at 8 o'clock at the First Christian church by Mrs. J. H. Kirkpatrick. There is no admission charge.

Study Club Disbands Until September

COAHOMA, May 29 (Sp.)—The 1941 Study club of Coahoma met Wednesday afternoon in the home of Mrs. Phil Smith for regular meeting. Her home was decorated with spring flowers. Mrs. Norman Read, president, presided at the business hour and it was voted to invite Mrs. Ira Thurman of Big Spring to give a religious book review on "I Paul," date to be given later. The review will be given in the First Baptist church here.

The group voted to adjourn until Sept. 10. Present were Mrs. W. W. Lay, Mrs. J. L. Adams, Mrs. C. H. DeVaney, Mrs. Phil Smith, Mrs. Charles Read, Jr., Mrs. Norman Read and Mrs. Glenn T. Guthrie.

Pioneer Bridge Club Meets In Ellington Home Wednesday

Mrs. E. O. Ellington entertained the Pioneer Bridge club in her home Wednesday and high scores went to Mrs. C. W. Cunningham. Mrs. Harry Williamson, only guest, won high for visitors.

Refreshments were served and others present were Mrs. Albert Fisher, Mrs. Bernard Fisher, Mrs. Joyce Fisher, Mrs. B. Hekhaus, Mrs. R. C. Strain, Mrs. Shine Phillips, Mrs. John Clarke, Mrs. V. Van Gleason, Mrs. Harry Hurt.

Wheat Quota Vote Slated On Saturday

Full participation of the few Howard county wheat farmers in the marketing quota referendum due Saturday is being urged by M. Weaver, secretary of the Howard county ACA.

On that date, farmers of the entire wheat belt will vote on the issue of establishing market quotas for the first time. Cotton quotas have been in effect for several years, due to favorable votes received annually in referendums.

The issue is similar to that in establishment of cotton marketing quotas. If two-thirds of the nation's wheat farmers vote in favor of the move, each farmer will be given a quota of acreage off which to harvest wheat. Any wheat that he attempts to market from acreage in excess of this quota will be taxed enough that its production likely will be unprofitable.

If the quotas are not approved, the government will not offer the wheat loan, which is intended to push the price of wheat toward parity.

In Howard county, the election will be held in the district court room.

Stills That Bloom In The Springtime Keep Kentucky Revenooers On Jump

The moon shines when it's springtime in Kentucky.

AP Feature Service

LEXINGTON, Ky.—The moonshiner, who got the name from working at night, has switched to daytime operations. And this change, federal alcohol tax agents report, is only one of a number in the illicit whisky trade.

Once notorious for exercising his shooting eye when a "revenooer" came around, the moonshiner also has abandoned gunplay. Experience has taught him, the agents explain, that the revenue men carry long-range rifles and know how to use them. They even have a new weapon designed to spray slugs through automobile bodies.

Night work now is confined to the transporter, a comparative newcomer to the game, who finds the darkness more suitable for bridging the gap between still and hip pocket.

But the changes do not mean an end to moonshining, and the stills are blooming with the springtime in Kentucky.

Moonshiners parade before United States District Judge H. Church Ford here twice annually. "I jest couldn't make a livin' out of that farm of mine," says those who own farms. The agents report, however, that the average moonshiner's farm is unutilized—and that moonshining runs in families. How do agents locate stills? More often than not "tips" come from law-abiding citizens. In one unusual case, a father "turned in"

his own son, with whom he had been living in a one-room mountain cabin for years. Pressed for explanation of his motive, the father explained his son had brought home a bride, forcing the father to sleep outdoors.

Third Appointee For Liquor Board Up To Senate

AUSTIN, May 26 (AP)—The senate today for the third time this session faced confirmation, or rejection of a militant prohibitionist as chairman of the state liquor control board.

Governor W. Lee O'Daniel yesterday appointed Mrs. Claude De Van Watts of Austin, veteran dry leader and president of the Texas W.C.T.U., and the senate committee on governor's nominations promptly recommended her confirmation to the post.

Mrs. Watts said she would accept the appointment "if I am confirmed."

The committee also asked confirmation of Edwin C. Leay of Longview as a member of the game, fish and oyster commission. Leay was previously rejected as state public safety commissioner after serving many months as a recess appointee.

The nomination of Mrs. Watts was in line with the governor's apparent intention to place an ardent dry at the head of the liquor regulatory body.

Nazi Mourn Loss Of The Bismarck

BERLIN, May 26 (AP)—Germany mourned today the loss of the battleship Bismarck, one of the two most formidable naval units she ever launched, but the people were told it was better to dare the risks of sea warfare in a fight to win than to wait in port.

Mourned, too, were Fleet Commander Admiral Guenther Luetjens and the Bismarck's officers and crew, all of whom apparently died—so far as was known here—after Admiral Luetjens' last message early yesterday.

"Ship unable to maneuver. We are fighting until the last shell. Long live the fushers."

(The Bismarck is believed to have carried a complement of between 1,300 and 1,500 officers and men.)

The tenor of newspaper editorials today was "the Bismarck is lost, but the fight against England goes on."

County Agents Issue Plea For More Farm Food Production

County Agents O. F. Griffin and Kora Farnsworth have issued a plea to farm families of Howard county to help national defense by increasing their production of eggs, poultry and hogs.

"This request is being relayed direct from the secretary of agriculture. 'If America is to win out in this world revolution,' says a letter from the agents to farm families, 'America must be strong. That is, every citizen must be strong. But American citizens cannot be strong unless they are well fed. It is more important that each

farm family feed themselves from their own production than it is to produce for the market. Perhaps the things that cannot be raised can be bought with eggs, poultry and meat. That makes your family self sustaining and gives them a correct diet too."

Each farm family was sent a chart outlining the needs of each person in his daily diet.

This chart shows that each person needs daily: one pint to one quart of milk (more for children under 10), one egg, one serving of meat, poultry, fish or cheese, one serving of Irish or sweet potatoes, one serving of green or yellow vegetables, one serving of other vegetables, one serving of citrus fruit, tomatoes or melons, one serving of other fruit, one serving of whole grain products, other breads and cereals as desired, butter, some sweets and six to eight glasses of water. Dried beans, peas or nuts may be substituted for eggs or meat; dried peas or beans may be the other serving of vegetable.

The city of Alexandria, Egypt, became a naval base more than 2,000 years ago when Alexander the Great founded it to aid in his campaign against Persia.

Business Indices Show Many Gains

Gains over March and many over April of 1946 were recorded in many lines of trade during April of this year, according to reports from the Texas Bureau of Business Research. Postal receipts in representative cities were 4.4 per cent above March and 14.1 above April of last year. Seventy-six new firms were capitalized at \$925,000, a sharp decline from March, and still further under April of 1946. Building ceased off 20.5 per cent from March but was 20.5 per cent above building in April last year. Livestock shipments from Texas ranches to interstate points and to Port Worth yards was down 4 per cent under April of a year ago. Only hog shipments gained, being

4,000 Expected To Attend Odessa Show

MONAHANS, May 29—More than four thousand visitors are expected here June 1 for the second annual West Texas air meet to be staged at Agey Field under sponsorship of the junior chamber of commerce. A large number of amateur and commercial pilots from West Texas and eastern New Mexico will compete in the show, advance reports indicate. Two parachute jumps are scheduled for the day, along with a large number of other contests and events. A mass flight of about 100 planes will be made over the city preceding the afternoon performances. Several U. S. army planes and pilots will come here to take part in the meet, and army maneuvers and stunting will be demonstrated.

Business Indices Show Many Gains

Up 21 per cent over the same time last year. Poultry shipments dropped off only four cars over April 1946 but egg shipments zoomed by 71 per cent over the same time in 1946. Texas dairy products manufacture in April with there being \$2.8 per cent more butter than in March, 22.4 per cent more less cream, and \$2.5 per cent more cheese. Nearly 10 per cent more is being spent in department stores by Texans than last year. April sales over the state were up for April by 23.3, and up by 8.3 per cent over March of this year. Men's clothing led with a 45.6 gain. Production of lumber was up 15.3 per cent over April last year, and one per cent above March. Bankruptcy flattened 23 Texas firms, more than the 17 for April of last year but 17.3 per cent under March when 28 concerns went under.

Buick Tells Need Of Advertising

FLINT, Mich., May 28—Latest contribution to automotive literature is a booklet entitled "Modern Used Car Management," currently being distributed to its field organization by the Buick division of General Motors. Covering successful used car operation, the book devotes its chapters to five important phases of used car sales: display, advertising, conditioning, proper pricing and management, and effectively illustrates each. "Probably the most important single factor in finding used car prospects is newspaper advertising," the books says. "When a buyer is in the market for a used automobile it is natural to turn to the newspaper pages where advertisements of used car values are to be found. The dealer with the most and best advertising usually succeeds in getting the prospect into his place of business." About 80 per cent of Egypt's agricultural population has holdings of less than an acre.

News Notes From The Oil Field COMMUNITIES

Mr. and Mrs. R. L. White and family have as their guests for several days his brother and wife, Mr. and Mrs. C. B. White of Santa Maria, Calif. Mrs. J. M. Landon of Austin will be the house guest of her niece and family, the C. V. Wash's. Mr. and Mrs. W. E. Becker and Alda, Rae of Iatan were visitors in Foran Wednesday night. Mrs. C. B. Barker and daughter, Marjorie, of Kermit, are visiting friends here. Mrs. W. E. Lonsford and Juanita and Fred left Thursday morning for Comstock to make their home. Fred plans to return to Foran in the near future. Jimmie Johnson is home from NTAC. Mr. and Mrs. M. J. Bransfield have had as their recent guests Mr. and Mrs. Harold Chaney of Monahan, Mr. and Mrs. Don L. Chaney of Crane, Mrs. Lula Chaney and Mrs. Benny Cross of Stanton. Mrs. Carrie B. Chaney has returned home from a visit in Troup. Mr. and Mrs. R. M. Brown have returned home after being in Tulsa, Okla., for ten days. Anita Bee, Mrs. Winona Boston and Mrs. J. P. Kubecka accompanied Coleen Moore to Abilene Thursday. Coleen will visit Ruth and Mary Brown in Hardin-Simmons university until Monday, when they will return home for the summer vacation. John Cardwell and daughter, Gladys, left Wednesday night for Rice to join Mrs. Cardwell, who left Tuesday night to be at her mother's bedside. Mollie Parker of Silver City, N. M., is visiting his wife's parents, Mr. and Mrs. Walter Gladden. Mrs. Parker, who has been here several days, will return home with Mr. Parker in a few days. Mr. and Mrs. C. W. Harlan of Big Spring were in Foran Wednesday night visiting the C. C. Kents. Wayne Monroey is home with his parents and sisters, the G. M. Monroey's, in the Cosden camp. Wayne has attended Texas Tech during the past school year. Chauncey Gray is at Fort Aransas on a fishing trip.

Wife Wears Churchill Scarf LONDON, Eng. — National slogans and some of the inspiring phrases from her husband's speeches are printed all over a scarf which Mrs. Churchill, wife of the Prime Minister, wore when she handed over a mobile club van for the use of A. T. S. girls in lonely districts recently. She is president of the Y. W. C. A.

Hespecked Husbands Carry On HALIFAX, Yorkshire, Eng. — Members of the Ancient Order of Hespecked Husbands have held their annual general meeting again and enjoyed their one day off in the year from their wives. None revealed the secret meeting place. They were afraid that their wives might call.

A large percentage of passengers on boats plying the Red sea are Mohammedan pilgrims making their annual trek to Mecca.

Knott HD Club Plans Social

KNOTT, May 28 (Sp)—Mrs. Roy Phillips was hostess to the Knott home demonstration club in its regular meeting Tuesday. The program was in charge of Lora Farnsworth, county agent, on Feeding the Farm Family in National Defense.

In a business session the club decided to have a community social at the gym instead of its regular meeting June 24.

Reports from the chairman of the concert committee was that the tickets were handed out and everything arranged for Saturday evening at 8 o'clock at the gym.

The next meeting will be with Mrs. D. L. Knightstep.

Mr. and Mrs. O. B. Gaskins and son, Joe Mac, and Mr. and Mrs. R. E. Unger were visitors in Midland Friday night.

T. M. Robinson, Geo. Bayes, H. F. Kallback and John Anderson made a business trip to Rankin recently.

Shorty Airheart, five-year-old son of Mr. and Mrs. Johnny Airheart, had the misfortune of getting his arm broken Monday afternoon. He was playing ball and fell on the arm.

Oscar Smith and his daughters, Majorie and Mrs. Edna Jones of Big Spring left Tuesday for a visit at Anson. Mrs. Smith, who has been visiting there, will return home with them.

Mr. and Mrs. R. B. Starkey of Sweetwater were guests of Mr. and Mrs. W. A. Burschel Sunday.

Mr. and Mrs. Temp Faircloth and Junior Helton of Dallas and Mr. and Mrs. M. Houston of Abilene were recent visitors of Mr. and Mrs. Reese Adams.

Roy Phillips and Charlie McCauley attended the livestock sale at Lubbock Tuesday.

Fun With Flowers— There Are Some Wall Flowers That Everybody Likes And Wants

No. 1—Try your hand at a bit of decorating. Haven't you admired the new manner of applying wall-paper floral borders as adornment for plain wall areas? It's a smart way to set off an over mantle wall area but even smarter when real vines and real flowers are used instead of wallpaper ones. To create this effect train your vines from mantle shelf to molding. A bit of painted lath, picture wire or string, fastened to the molding and secured to the pot, will serve as a trellis. Tiny, two inch pill vials, fastened to these supports with adhesive tape, will hold real flowers to make the vines blossom with bright color. In the above treatment ivy vines and day lilies are sketched but any flower you like

may be used in place of the early fading hemerocallis. No. 2—A smart flower and foliage treatment is often just the thing needed to brighten a small hallway. Pothos vines trained in an interesting pattern form a handsome design against the plain wall area above. Green painted dowel sticks are the supports. This time a few big, full open tea roses or peonies placed among the leaves gives our adaptation of the wallpaper border idea a real flair. If your hallway is one of the dark, "difficult" ones, you might even try an artificial vine and flower treatment for the vine border accent. Or, if vines just won't grow for you, use artificial leaves spotted with fresh flowers. There are ever so many spots in the home where this treatment would be positively sensational: around small bay windows, on either side of nooks or dressing tables, and framing mirrors and pictures. Let's try a fresh frame of green this summer! (Distributed by Esquire Features, Inc. Reproduction strictly prohibited.)

Favors Permanent Farm Price Peg

WASHINGTON, May 29 (AP)—A permanent system of price-pegging government loans on major crops as part of the national farm program the goal of some farm-minded lawmakers today.

Senator Bankhead (D-Ala.), sponsor of much new deal farm legislation, announced he would offer a measure for enactment at this session of congress. "The loan measure signed by the president this week is effective for only one year," the senator explained. "Most of us want this as a permanent measure."

Record High School Senior Class Will Graduate Tonight

Win Awards—Thomas Clinkscales, left, and Wynell Wilkinson were presented Wednesday night with the Cushing award, voted them by fellow members of the seventh grade for being best all around "citizens" of the class. The award is posted annually by W. F. Cushing. Thomas is the son of Mr. and Mrs. C. Y. Clinkscales and Wynell the daughter of Mr. and Mrs. Bart Wilkinson. (Hesley Photos).

President Of Texas Tech Will Speak

One hundred and forty-seven members of a record Big Spring high school graduating class will participate in commencement activities at 8 p. m. in the municipal auditorium today.

Dr. Clifford B. Jones, president of Texas Technological college at Lubbock, will address the graduates, the 40th class to receive diplomas from the Big Spring high school.

A far cry from the initial class of six members in 1903, the current group of seniors is the largest on record and well above the 110 of last year. They constitute the first "crop" of six-year-old scholars who have now attained high school graduation.

Janice Carmack, daughter of Mr. and Mrs. H. G. Carmack, will be the student speaker, delivering an address on "What American Citizenship Means to Me."

Gloria Conley will be heard in a vocal solo, and Billy Meter, Dorothy Sikes, Robert Delbridge, Natalie Smith and John Winter will participate in an instrumental ensemble. The Big Spring municipal high school band, under direction of Dan Conley, will play the processional and recessional. The Rev. E. E. Mason, West Side Baptist pastor will give the invocation and the Rev. J. A. English, Wesley Memorial Methodist pastor, the benediction.

Presentation of diplomas will be by E. L. Tollett, member of the school board, while Seth H. Parsons, coordinator, will present diversified occupations certificates, and John A. Coffey, high school principal, special awards. W. C. Blankenship, superintendent, will preside.

Candidates for graduation include: Alfrede, Vernon Allen, Edith Ataway, Eva Jean Banks, W. R. Bankson, Robert Battle, Hal Boatler, Billie Marie Bradley, Billie Ould-Bryant, James Butts, Joe Cagle, Bernice Cain, Mary Alice Carmack, Janice Carpenter, Wan Cass, Keith Cate, Anita Christensen, Lesley Cochran, Martha Collett, Margaret

Speaker for the graduation exercises of the Big Spring high school tonight will be Dr. Clifford B. Jones, above, president of Texas Technological college.

Oberammergau Anxious To Present World-Famed Passion Play Again

By ERNEST G. FISCHER
OBERAMMERGAU, Germany, May 20 (AP)—This peaceful village in the Bavarian Alps is busy with war work but its 3,000 residents eagerly await the time when they may present their world-famed Passion Play again.

Mayor Alfred Bierling said the play, suspended last year on account of the war, probably would be performed again in 1944. But Alois Laang, who had the role of Christ in 1934, declined to hazard a guess, explaining that the next production depended on termination of the war—after which "at least a half year's preparation would be required."

War has brought other changes to Oberammergau, too. Four hundred and eighty of its sons, including about 100 from the cast of 1,800 used in the special jubilee performance of 1934, are in the military service. Many of the older men, skilled in the handicrafts, are working in industrial plants. Many young women are taking men's civilian jobs for the duration of the war.

Four of Oberammergau's men have been killed in the present war, none of them members of the Passion Play cast. Villagers recall that 70 of the 1910 cast fell in the World War.

The more-or-less fireproof wooden theater, in which the Passion Play is presented to 6,000 persons at a time, stands idle. A lone hoot owl fluttered from the girders when the caretaker opened the auditorium for inspection.

Costumes costing 280,000 marks (\$12,000 at current exchange) lie in the dressing rooms back of the stage, ready for the next production.

One thing which has not changed is the Bavarian woodcarving school, famous throughout Germany. One of four such schools in the realm, it gives a four-year

course in which the students begin by drawing such fundamentals as a human foot and wind up by making a life-size wood-carving of Christ on the cross.

There now are 107 pupils in the school, ranging in age from 8 to 20.

Carving has been a home industry for centuries.

The famous Passion Play normally is given every 10 years. It was started in 1634 after 100 of the population of 280 died of the plague. The villagers vowed to give the play if no more died and kept that vow when no more did.

In 1930, 450,000 persons, including 185,000 foreigners, attended the play—a 6 1/2 hour production—from May to September. In 1934 for the jubilee there were 430,000 visitors, including 130,000 foreigners.

Contract Flown To Teacher For Signing
Jacksonville, Ill.—It's always a big moment when a new teacher signs her first contract and for Miss Roberta Butler, MacMurray college senior, there was an added thrill.

Her boss-to-be, Superintendent Johnson of Payson community high school, is a licensed pilot and flew the contract to her for initialing.

Greens Preserved 25 Years
EAST TEMPLETON, Mass.—Dandelion greens, salted and crocked by Mrs. Addison Howard 25 years ago and stored in the cellar, were found in good condition by workmen digging on the site of the Howard homestead which was destroyed by fire.

The shankle delta of the Nile extends 180 miles westward from the Suez canal to Alexandria.

Cushing Awards Go To Two Outstanding Students Here

Thomas Clinkscales, son of Mr. and Mrs. C. Y. Clinkscales, and Wynell Wilkinson, daughter of Mr. and Mrs. Bart Wilkinson, were presented with the Cushing award Wednesday evening, becoming the 11th pair to win honor posted by W. F. Cushing, pioneer Howard-Glasscock rancher.

Judge W. S. Morrison made the presentation to the two, selected as being outstanding citizens of the class of 1934 members.

Cushing first posted the award in 1921 as a stimulus to balanced student participation in scholastic and extra-curricula activities. The first year Dorothy Dublin and Paul Ruffner were selected as winners.

In 1922, when C. E. Thomas made the presentation, Cleo Lane was a winner. Today she is Mrs. George Thomas, wife of the man who addressed the promotion class Tuesday and who is son of the man who made the presentation. The other winner was Alton Rogers.

1923—Camille Koberg (now Mrs. Lloyd Patterson) and Ray McCullough.

1924—Harold Creek and Mildred Jesse.

1925—Harold Plum and Jean Packson.

1926—Dorothy Carmack (now Mrs. Noble Kennamer) and Tabor Rowe.

1927—Jack Rice and Yvonne Phifer.

1928—Hayes Strippling and Billie Duke Rogers.

1929—Jo Ann Switzer and Bobby Dickerson.

1940—Jerris Hodges and Billie Jo Underhill.

Prize Rooster Is Champ Rat Killer

Jerseyville, Ill.—Charles Terry didn't know his prize rooster was a rat killer when he sold it to Gordon Cary.

But when Cary informed him he found a dead rat in the champion rooster's pen with its head picked full of holes Terry decided the game bird was mighty valuable. So he repurchased him.

Retired Railroadman to Travel ALBANY, N. Y.—As a New York Central railroad engineer George F. Murphy has traveled approximately 1,000,000 miles—equivalent to 400 times around the earth's equator. But he still enjoys train riding. The Murphys plan two trips this summer.

Virtually all of Egypt's 16,000,000 population lives by the side of the Nile.

DOUBLE YOUR DOLLAR with DODGE FLUID DRIVE

HOW DO WE MEAN DOUBLE YOUR DOLLAR? Well, look at all other prices and other values in the Fluid Drive field and then put down this fact.—You buy Dodge Fluid Drive for \$25 and you get the greatest motoring sensation of the decade, and by far the greatest value of the year. For Dodge gives you much more than TWICE AS MUCH as your Fluid Drive Dollar will buy anywhere else.

Yes, you can double your dollar with Dodge Fluid Drive, and you should by all means talk with your Dodge dealer about doing just that. Go Fluid Driving with him today.

Judge Excuses Man For Fishing Trip

Kansas City—Chester W. Selgler's frank admission that his thoughts were on fishing won him exemption from jury service.

"I just couldn't sit here and hear the evidence impartially and think about those fish in Minnesota," he told the court.

Circuit Judge John F. Cook agreed the excuse was "a frank one," but quickly added that his decision was not to be taken as a precedent.

Athletics In Line To Jar Loop Setup

By Associated Press
The real sensation of the spring in the major leagues now is being provided by the Philadelphia Athletics, who have won nine of their last 11 games.

From a haphazard crew that floundered helplessly for five weeks, once losing seven straight games and another time five in a row, the A's suddenly have sprung up to challenge the first division in the American league.

They squeezed into fifth place ahead of Boston yesterday by capturing a 6-4, 16-inning marathon from the Red Sox and now not only threatening Detroit in fourth place, but are just three games out of second!

No one will dissent in giving the greatest credit to that 75-year-old genius of the scoreboard, Manager Cornelius McGillicuddy himself.

While the Athletics have been leading in the east, the Detroit Tigers have conquered the first-place Cleveland Indians three in a row, yesterday by an 8-5 margin.

The second-place Chicago White Sox dropped their second straight to the St. Louis Browns 8-4.

A grand-slam home run by George (Twink) Selkirk with the bases loaded in the eighth brought the New York Yankees a 6-5 victory over the Washington Senators.

The St. Louis Cardinals continued their burning pace in the National league with another ninth-inning rally to clip the Chicago Cubs 6-5 for their ninth consecutive victory.

A three-run homer by Vince DiMaggio gave the Pittsburgh Pirates the margin needed to cage the Cincinnati Reds 7-4.

Brooklyn's Dodgers preserved their lead over the Phillies by taking a 4-5 twelve inning decision in a night game.

Major city softball league wars move into the short stretches as Stags Autmen tangle with Montgomery Ward tonight in the 7:45 opener at city park.

Phillips' Tiremen meet the Munymen at 9:25 to close out the night's softballistic work.

Stags and Phillips are given the nod to handle their opponents as they see fit, although Munny came through with a 12 to 7 count against the loop leading Cities.

Officers that place them in the thirteenth slot, Stags Autmen, marking time until they tie up with the Ollers, may fall off a bit while Ward takes advantage of its increased tendency to line the apple out when least expected.

Because of the famous "gun-powder plot" of 1605, a ceremonial search of each building of Parliament is made every year.

Dog-Tired, Road-Weary—Bombers Ready For More

Road-weary and dog-tired, the Big Spring Bombers return to their home grounds Friday. Tired, because they will have played nine grueling ball games in five days when they wind-up tonight's engagements at Lamesa; road-weary, because they have been kept busy hopping from bus to diamond to bus.

But, tired and sore, the Big Springers are anything but near the breaking point. They've been playing their hearts out, battling against heavy odds. Rookies or what have you, this bunch of young stars has been playing a brand of ball that may not be seen in this league in many a moon. Young, inexperienced, these lads have been playing the sort of game that only one class can play—champions.

The old man of the outfit, Jodie Tate, has been in there taking punishment with his boys. Wednesday night, his chief words dealt with the way the Bombers had been turning in the sort of game that made even the old rock-ribbed hearties of other years take notice.

"The whole club's been playing its heart out," Manager Jodie Tate said. "Look at that Zmitrovich, he'd butt his head against a brick wall if he thought it would

win a ball game, and all of the boys are the same way," he added.

The whole thing adds up to this—Big Spring is scheduled to turn out en masse to give the Big Springers, Uncle Jodie and Tink Riviere a welcome that will knock the lid off previous turnouts. Big Spring people have been wanting a championship-bound team—let there be no mistake, they have it now. A move in the right direction was made last night, when Lee Hanson talked up a "welcoming party" that traveled 88 miles to give the Bombers an indication of what to expect when they square off here Friday against Lamesa. The thirty or forty that was expected to make the jaunt was far exceeded.

As for the Bombers' showing since they left the local field, they stretched their winning streak to 14 and dropped a heart-breaker to Wichita Falls after they were bested down by a long trip. After being rained out of games slated at Amarillo, the Big Springers journeyed to Clovis, won a double-header there, 9-5 and 8-4, on May 25, then moved on to Wichita Falls for twin bills on consecutive days, took the first day's session, 11-1 and 10-0, split the second day, 9-0 and 3-4, and last night defeated Lamesa, 8-5.

During the time on the road the Bombers batted .300, getting 63 hits out of 243 times at bat. One of the most hopeful results of the trip, next to the fact that regardless of what the walloping is like the club's on top of the heap, is the improvement in some of the lads' hitting. Eddie Stevens currently leads the pack, hitting .321 for the time spent on the road, and Larry Drake holds second place with .318. Other road averages held are Hayden Greer .313, J. L. Haney .300, Pete Zmitrovich .278, Hank Poitras .267, Al Zigelman .239, Art Shilling .227.

But, above all other things, the Bombers have been handling themselves like the top-notchers they are. Welcome them as such.

Women's Golf Affray Goes Into Quarters

HOUSTON, May 29 (AP)—Light-spirited Mrs. Russell Mann of Omaha went out today, as she put it, "to win for my married folks" as well as to essay the task of winning the Trans-Mississippi golf tournament.

"Looks like I have to beat all these youngsters by myself," she chuckled.

Mrs. Mann's immediate task was the disposition of laughing Pat Grant, 29 year old medalist who divides her spare time between golf and tennis.

Miss Grant, Shawnee, Oklahoma, girl who chides herself with a muttered "sissy" when she dubs an easy shot and declares she "three putts like a motorboat," eliminated Polly Riley of Fort Worth, 15 year old links comer, 3 and 2 yesterday.

Marion Miller of Lexington, Ky., raven haired stylist who is picked to go to the finals, met Phyllis Otto, 16 year old star from Atlantic, Ia.

Bridegroom in Deep Lament
LAS CRUCES, N. M.—Less than 24 hours after he had bought the license an unhappy bridegroom returned to the county clerk's office and asked that the license not be recorded. The bride disappeared 15 minutes after the ceremony with his car, \$100 in cash and her wedding clothes—which he bought.

"Isn't the bare midriff rather chilly on cool evenings?"

Lions Take Minor Loop Top Spot

Herald Sets Up Hit, Run Record To Sink NYA, 27-7

The Lions roared to their hearts content as they took a lick at ABC in two directions—first, walloped the ABCers' Sea Scouts, 16 to 6, to gain a lead in the city minor softball league race, holding six won and two lost as to the Scouts' four and two. As the standings are now listed, the Scouts are in second place and ABC is in third.

Two records were made in last night's conflict, both socked up by the same club, the Herald's ex-defeat ridden crew.

In a tussle with NYA, the News-boys romped over with 12 runs in the first inning, breaking the runs in one stanza mark, then wound-up splattered counts with a heavy "B" throughout—winning the game 23 to 7.

The Herald crew came out of the dark corners of the circuit cellar, which it shared with last night's victim, with a revamped crew. Still a bit on the erratic side, the News-boys capped their top-heavy count with 20 hits, over the route.

Ideal Home To Be Open To Public

The model Cameron-built "Texan" home at 709 W. 17th street will be open for public exhibition throughout "Texas Home Building Week," beginning next Sunday, June 1. W. S. Crook, local manager of Wm. Cameron & Co., Inc., sponsor of the home, announced today.

There will be no admission charge, and the visiting hours will be as follows: Sunday, 1 p. m. to 8:30 p. m.; week days 1 p. m. to 8:30 p. m.

Representatives of the sponsor of this modern, low cost home will be on hand to escort visitors through the rooms, explaining the construction features and answering any questions the visitors might have.

This rather unusual home was designed by Cameron's Home Planning department and was built by Cameron Building Company. Sub-contractors were the following: Runyan Plumbing Co., Taylor Electric company, John R. Chaney, painting and paper hanging.

One of the most important necessities in a modern home is plenty of built-in cabinets and woodwork specialties. The "Texan" is equipped with the nationally famous, ideal step-saving kitchen completely built-in, plus many extra corner shelves and cabinets, to the ceiling. It also has ideal built-in medicine cabinet, telephone cabinet, ironing board, china cabinets, linen cabinet, book shelves and mantel, Coleman floor furnace and venetian blinds, ideal windows, doors, window screens and interior woodwork trim are used throughout.

The floors are white oak with inlaid linoleum on bath and kitchen floors and linoleum drain and splash with chromium mouldings. Waincote in bath and kitchen in a factory finished tile board with chromium mouldings in all corners and angles and cap. The roof is 210 pound Flintkote composition shingles laid over solid sheathing. The siding is clear heart redwood for long life and durability.

Tony Zale Keeps Middleweight Title
CHICAGO, May 29 (AP)—They grow them gems in Gary.

Tony Zale, who once tolled in the mills of that Indiana steel city, proved that before 14,087 roaring fight fans at the stadium last night. Knocked spinning in the first round, he came back with a furious attack to knock out Al Hostak of Seattle in 22 minutes, 22 seconds of the second stanza and retain his world's National Boxing association middleweight championship.

Third Cruiser Is Lost By Britain
LONDON, May 29 (AP)—Britain's third cruiser lost in the battle for the island of Crete, destruction of H.M.S. York, was announced by the admiralty today.

The powerful, 8,250-ton warship had been under repair at Suda bay, British naval base on the embattled island, and the admiralty said she "must now be regarded as a total loss" after having been bombed again and again from the air.

Big Spring Knocks Out 8-5 Win Over Lamesa; End Series Tonight

Locals Open Home Engagements Fri.

LAMESA, May 29—Lamesa's Lobos tossed in an extra pitcher, started a rally in the last of the ninth that netted a pair of runs, but were unable to stem the tide as Big Spring's Bombers took an 8 to 5 decision here last night, opening a three-game series.

This afternoon and tonight the clubs tee-off, then shift the scene of battle to Big Spring for tussles on Friday, Saturday and Sunday. Buck Schulze is slated for the first game's hurling job and Charlie Wulchell is up for the second.

A makeup fracas is up for this afternoon, starting at 3 o'clock. The sessions are wound up with the 8:30 nightcap.

Willard Ramsdell used a faithful knuckle to good advantage as he cleared the decks of seven Lobos by the strikeout route but was needed for a total of 12 hits before the evening's show closed. Lamesa's Trees was battered for five hits and seven runs.

Big Spring caught up with Lamesa's 2-1 advantage gained in the first stanza. In the second and kept ahead of the host remainder of the night, picking up lone counts in the fifth and eighth, then shooting the works in a run-crazy ninth, giving a goody crowd of Big Springers their first chance to see what Big Spring can do in a final stanza.

The windup display came as Willard Ramsdell took a walk, Al Zigelman landed on first on an error, and Art Shilling stroled to fill the bases; then, J. L. Haney grabbed himself a flat full of triple to score all three.

Lamesa appeared to be headed for a last-stand win in their share of the ninth when Marshall Brown blasted the ball over the right field fence, adding two to the Lamesa ledger. The final effort was stopped but not before Sam Scaling took a walk and Eddie Guynes got a single.

Big Spring's hitting power took a slight turn for the better during the affair. Eddie Stevens came through with what has been expected of him since the season started—a hitting show deluxe. The burly first baseman accounted for a two-base hit plus a three-baser to raise his average.

Lookin 'em Over

WITH JACK DOUGLAS

Lamesa's Lobos' Bob Riviere took up the first base job in the Lubbock camp yesterday morning, taking over the spot vacated by Hubber Kauzlarich. Starting the season with a flourish, the Hubbers have failed to deliver the goods in the pinch, leaving an indication that the club will go through a strenuous bit of face-lifting before the juggling act is over.

Borger, the club that was scheduled to rule the roost so far as material was concerned, took Lamesa's Harry Readon under its wing, but the Lobos kept the score even by the addition of Outfielder Prince Scott, Texas Tech footballer, Tuesday.

All in all, the Lamesans are getting ready for a blitzkrieg so far as West Texas-New Mexico baseball is concerned. For some time there have been mutterings and mumbblings in the Lobo camp—they're so near the league's number one gravy train they can taste it.

Pity old Sam Scaling, the Lobo playing pilot—he's been troubled with a bit of backache lately, so what does he do—proceeds to knock out a .390 batting average. Wonder who he'd do if he would break a leg too?

Scaling and his brothers-in-arms can sometime make a good rookie pitcher look a bit on the so-so side. They've learned the knack of hitting with their experience and head instead of shoulders and bat. As the summer months deepen, these old hands are slated to start feeling their oats—nothing like a bit of hot weather to bring fire to the joints.

Speaking of old heads at the business of baseball. Big Spring has a wealth of men who at one time investigated the chances of raking in a few annuities by the baseball route—men like Virgil Smith and Sammy Sain, for instance. It is customary nowadays to have days honoring people for all sorts of reasons, cowboy reunions, etc. What's wrong with singling out a day to give these men a hand at Roberts Field. They're as much a part of the baseball picture as the umpire's traditional "play ball."

Red Cross To Ship Garments In May Quota

Closing out on the May quota, the Howard-Glasscock county Red Cross chapter Thursday prepared to ship a 204-pound box containing 1,098 garments made for war relief purposes.

At the same time, Mrs. G. G. Sawtelle, executive secretary of the chapter, urged all women who have been working on May quotas to turn in their pieces as soon as possible so that they may be included in the month's last shipment on May 31. When this is done June quotas will be announced.

In the Thursday shipment were various items including 27 layettes of 24 pieces each.

Mrs. Sawtelle complimented the work of several church groups and mentioned the Church of Christ women as being the first to rally to the cause and as having done an outstanding piece of work.

Meanwhile, the appeal for other women to join in the program was renewed by Red Cross chapter officials.

Big Spring Hospital Notes

Mrs. W. W. Grant, King Apartments, had emergency appendectomy Wednesday.

Jda Belle Richards, Garden City, underwent medical treatment Wednesday.

W. P. Douglas, Big Spring, is receiving medical treatment.

Mary Nell Donaldson, Garden City, is undergoing treatment.

Mrs. Tom Burkhead, Coahoma, entered the hospital Thursday for surgery Friday morning.

ONLY WOMAN IN CANADA'S COMMONS—Mrs. Dorice Winifred Nielsen is the only woman member of Canada's House of Commons. With her in her office are her three children.

Tests, Faculty And Student Rating Used To Name Honor Graduates

A broad base has been employed by high school officials this year in the selection of Big Spring members of the National Honor society, to be announced at high school graduation exercises this evening.

The upper 15 per cent of the graduating class is named to the national society, this group being chosen on the basis of scholarship, leadership, service and character.

Faculty members and students themselves participated in the selection, and in addition tests were given to determine the honor students.

Through faculty nomination, 20 per cent of the senior class, or 45 students, were chosen for the final tests. These 45 took two standardized achievement tests—exhaustive examinations—to determine scholarship. Then a rating chart was prepared, and each of the 45 students was rated by instructors and by all the other students. This ranking was done on a weighted average, with scholarship accounting for 50 per cent, teachers' ranking 25 per cent, and students' ranking 25 per cent.

Through this grading, 23 students were selected for the final honor. These will be presented at the program this evening.

School officials said this system was perfected this year, to make the honor selections as fair and comprehensive as possible.

Wool Market

BOSTON, May 29. (UP) (USDA)—Scattered sales were being closed today on domestic wools. Combing three-eighths and quarter blood average bright fleeces wools were moving occasionally at 46 to 47 cents in the grease. Only a few users were showing any interest. Combing three-eighths blood territory wools have been moved at prices ranging 50 to 55 cents scoured basis, but demand was rather limited. Foreign wools were receiving some demand at steady prices.

Grain

CHICAGO, May 29. (UP)—Selling increased in the wheat pit today, forcing prices downward as much as two cents a bushel to the lowest levels since May 12. At the low point prices showed net losses of about 7 cents since establishment of the year's peaks May 19.

Wheat closed 1 3/4-2 1/4 cents lower than yesterday, July 98 3-4 7-8 September 98 1-4-3-8; corn 1 1/4-1 1/2 down, July 78 3-8, September 74 2-8; oats 1-4 lower to 1-8 higher.

Livestock

FORT WORTH, May 29 (UP)—(USDA)—Cattle 1,700; calves 600; generally steady; common and medium slaughter steers and yearlings 7.00-8.00, good and choice kind 8.25-10.50 including a part load of heifers at the latter price and a load of two-year-old steers 10.25; most cows 5.75-7.25; bulls 5.50-7.25; good and choice fat calves 9.00-10.00, common and medium 7.25-9.00; few head choice vealers 11.00 and above; good quality stocker steers calves 10.00-12.00 and yearling steers 9.00-10.50, common and medium stockers in full demand from 6.50-8.00.

Hogs 1,000; market 10-20 higher than Wednesday's average; top 9.10 paid by all interests; good and choice 180-200 lb. 9.00-10; pig soars; packing sows steady to strong 7.75-8.00.

Sheep 9,000; all classes around steady; most spring lambs 8.00-9.00, old crop lambs 7.00-8.25; few aged wethers 4.00-5.00, clipped feeder lambs 6.00-8.00.

Taylor Death Texas Mourns

AUSTIN, May 29. (UP)—The University of Texas and its alumni today mourned the death of Thomas Ulvin Taylor, 83-year-old dean emeritus of the school of engineering and "Grand Old Man" of the institution.

A member of the university faculty more than half a century, Dean Taylor was known to thousands of students as instructor, friend, benefactor and general fountain of inspiration. He was a native Texan and graduated from the University of Virginia in 1888.

When he came to the Texas university, it had no school of engineering. The department came into being at his urging and under his guidance, grew into one of the most important.

Funeral services were scheduled at 3 p. m.

The educator was survived by his widow and a daughter, Mrs. D. C. Strother of Randolph, Fla. A son, Sommerfield Taylor, died a year ago.

Here 'n There

Pvt. James T. McCullough, son of Mrs. Grace McCullough of Colorado City, has been sent by special order of Lt. Col. George M. Palmer, post commander of the air corps basic flying school at San Angelo to the army air corps technical school at Chanute Field, Rantoul, Ill., where he will take a course in airplane mechanics.

National defense contracts and expenditures in Texas through May 15 have reached \$240,198,976, according to E. Frank White, acting state director for the office of government reports.

The Pickering Family of Lubbock is being sponsored in a musical program by the Knott Home Demonstration club Saturday at 8:30 p. m. in the Garner gymnasium, members have announced. Admissions are 10 and 20 cents.

H. R. Freeman, Big Spring representative of the Lincoln National Life Ins. Co. has qualified for attendance at the company's 1948 convention at Colorado Springs, Colo. on June 7-8. His production for an 18 months period earned him the right.

Coy B. Payne, formerly of Big Spring, has been transferred from the army reception center at Fort McPherson, Ga. to the 14th reconnaissance squadron at McDIll Field in Tampa, Fla.

Shoe Size Delays Recruit
LAFAYETTE, Calif.—Uncle Sam will not get a full year's service from Pvt. Roy Mangini during his year in the army. Mangini wears a 12 1/2 shoe and the army had to let him loaf until a pair of shoes that size could be obtained.

The War Today—British May Be Forced To Yield Isle Of Crete

By DEWITT MACKENZIE
(Special Writer for The Herald)

The position of the Anglo-Greek allies in the battle of Crete was so grave today that even as this is being written they may have been compelled to give up the fight to retain control of that strategic island.

During the ten days of one of the fiercest battles of history the Nazi dive-bombers have all but blasted Crete out of the water. Late Greek reports record that the cities of the island literally are pulverized by the deluge of high explosives that have produced an inferno in which civilians and troops alike have struggled.

Lack of air-power in the eastern Mediterranean is the millstone about the allied neck. It will so continue to be until this deficiency is supplied from America.

Some London observers believe that if the Hittites win the battle of Crete they will turn their attention next to the big British naval base on the island of Cyprus. This lies four hundred miles to the east of Crete and off the coast of Syria.

This might be an early objective, but possession of Crete would give the Nazis a fairly wide choice of moves. In any event, they must take time out for consolidation of the bomb-torn island before it will be of much value as a base for further major operations.

It is quite possible that the Germans will by-pass Cyprus for the moment, and try to establish themselves in Syria. This would provide a necessary base for a drive through Palestine to Egypt and the Suez canal, and it would give them handy airbases for an assault against Cyprus.

Also of vast and perhaps more immediate importance is the fact that possession of Crete would bring German bombers within 250 miles of the Libyan-Egyptian border on the North African coast where the axis expeditionary force is maneuvering for an opening to drive into Egypt. In fact, this entire stretch of coast, including the all-important British naval base at Alexandria, and the Suez canal, would be brought within very handy bombing distance for the Nazis.

While possession of the island of Crete doesn't by a long shot win the conflict for domination of the eastern Mediterranean, it would be of incalculable value in development of the German campaign. The only satisfaction the British and their allies get out of the situation is that the German victory—if so it proves to be—has been tremendously costly.

Rains Threaten Buffs More Than Opposition

By The Associated Press
It's not the other Texas league teams that the Houston Buffs fear—it's rain.

Wet weather seems to be about the only means of stopping the Buffs in their steady drive toward the championship. Last night for the second time in a row excessive dampness prevented the Buffs from tangling with the sixth-place Beaumont Exporters at Houston.

The San Antonio at Shreveport contest also was washed out, but clement weather enabled the Fort Worth Cats to get into action and wrest a 7-3 victory from the Indians at Oklahoma City while the Oilers at Tulsa were edging out a 5-3 win from the Dallas Hobels.

SPORTS ROUNDUP

By EDDIE BRIEZE
NEW ORK, May 29 (Herald Special News Service)—Rumor foundry: The Brown front office is spiking stories Rick Ferrell will replace Fred Haney. They sounded off-key to start with since Haney tried for two seasons to get Ferrell on the club. . . . And we suppose reports that some of the Reds aren't speaking to each other are just part of the gossip that always goes along with a slump. . . . The Washington Boxing commission says it paid Arthur Donovan, \$150 to referee Louis-Baer. Ray C. Alvis, one of the promoters, says Donovan got a grand. Which is right, and if it's Alvis, who made up the difference?

Crashing the "400."—Ted Williams of the Red Sox pounded that apple for a very neat 400 in his first 30 games. . . . Which led Mel Webb to sing as follows in the Boston Evening Globe: This is the tale of Teddy the Great, Who hits 'em early and hits 'em late. Who's blasted away with his trusty bat To the tune of a cool 400 flat.

Tramp, tramp, tramp.—Heck Greenberg's outfit is marching 15 miles per day from Fort Custer, Mich., to Camp Forest, Tennessee. . . . Good crowds turn out at every stop. At one, signs were being carried around reading, "Here comes the Army—and Greenberg." . . . Ben Chapman says the reason Washington alred him was his \$12,000 salary. Clark Griffith merely says, "We are still on the market for a hard-hitting outfielder." . . . P. S.: Chapman closed at 255. . . . Prof Moe Berg, the linguistic coach of the Red Sox, interviewed Maurice Tillett (The Angel) and reports the Angel speaks the best French he's heard since he was in Paris several years ago. Moreover, M. Tillett struck Berg as a cultured and educated gentleman, even if he is uglier than Tony Galento.

Today's guest star.—C. E. McBride, Kansas City Star: "Barrell brings strange switches. . . . Dick Bartell, now on the Giants, finds himself teamed with Gaby Hartnett and Bill Jurges. . . . Bartell and Gaby didn't get along when Dick was with the Cubs. . . . And in the old days when Bartell was a Giant and Jurges a Cub, they used to tangle every time they came together in a play at second base."

The morning line.—Fort Worth bookies quote Craig Wood, Gene Sarasin, Jimmy Demaret and Ralph Guldahl at 15-1 in the national open. Ben Hogan is 10-1. . . . Zeks Bonura, bowling along at a sweet 400 clip for Minneapolis, predicts he'll be first basing in the majors before the season is over and there are plenty who will second the motion. . . . The deal the Braves and Reds were trying to make didn't involve Max West, but called for Ernie Lombardi and Whitey Moore to change uniforms with Ray Berres and Lloyd Waner. Then Ernie began hitting and the thing fell through. . . . The Detroit football Lions will move back into Briggs stadium for next fall's home games. . . . Detroit U's orchard wasn't big enough.

There's only ONE Protective Blending*

One-minute interview.—Joe Cronin: "If Joe and Dominic DiMaggio played in the same outfield there wouldn't be enough room for a third outfielder."

Crack-of-the-week.—"I'm still wondering," writes Ben Atkinson, "how anybody got close enough to Whirlaway to scratch him."

Three Men Enter Air Corps Here

Three young men have entered the U.S. air corps through the Big Spring army recruiting station, Sgt. Troy Gibson, announced Thursday.

They are John P. Cook, son of Mr. and Mrs. Joe Cook of Stanton; Mason C. Ball, Jr., son of Mr. and Mrs. M. C. Ball of Lubbock but who has been staying here; and John T. Couch, son of Mr. and Mrs. General Jackson Couch, Big Spring.

All were assigned to Biggs Field at El Paso. Seven others have applied for enlistment and their cases are pending, reported Sgt. Gibson.

Wednesday Maj. Walter Jesso (retired), in charge of the Lubbock recruiting office for the army, made an inspection of the local post.

Iran (Persia) is the fourth oil-producing country in the world.

Editorial— Graduates Should Chart Course With Care

Congratulations, young men and women, upon your accomplishment in completing the course of study prescribed by the board of education for a high school diploma. Perhaps few of you really realize that you have done a thing which will enable you to contribute more to the free society in which has fostered you and to which you now will become a more active member. You can't see it now as

clearly as when you look back off the years and get a clearer perspective; but you have made yourself an opportunity to fulfill your mission in the world. It may sound odd, but we hope

many of you won't go off to college. Frankly, lots of you don't have any business in college. It's not that you aren't as smart as the next, but that you haven't made up your mind what you want to do.

Some of you who have decided have chosen fields where college will only deter your chances for experience and immediate production. If we may, we would like to suggest that before you pursue the idea of going off to a higher institution of learning that you make sure of yourself and your desire to enter a chosen line of work.

Then, if you are convinced a college education is the best course, don't let anything stand in your way. Go with the idea of getting an education, with getting everything possible in your head—and not with the idea of getting a degree.

Whether you do or don't go to college, never let it be said that your schooling stopped with receiving a high school diploma. Never let it be said that you ceased to thirst for learning until you fall into the sleep of death. Keep your mind open, fight always against prejudice, come up with a fair judgment, courage of convictions, your consciousness of God. Surely you have learned to think. Your high school education has been almost for naught if you failed in this lesson. Be jealous of this heritage and right. Think always, and think for yourself.

Never was the challenge so great for a group of graduates. In some humble capacity you will be called on down the years to help re-establish a practical and working order for free society. You will have this opportunity, doubt it not, and to be ready you must stand ready sacrifice yourself in service to your community, state and nation in a far more glorious manner than those before you.

Make money honestly, if you can. Never make it dishonestly. If you make it, use it wisely and enduringly. And, regardless of how little or how big you may be, try to live in such a manner that it would be difficult to replace you when you are gone.

Alsoop and Kintner— Isolationists Should Now Follow Example Of Magazine That Leads In Their Cause

By ALSOOP and KINTNER

WASHINGTON, May 29—These words are written just before, and will be printed after the president's message to the nation. At the moment, Washington is almost wholly preoccupied with speculation on what the president will say. But there is also an unrecurrent talk on another subject—as yet a mere trickle, but one that may swell to a flood—which it is well to record in this decisive moment. The subject of the talk is the policy of the closely knit, highly organized isolationist high command. This group, for which the America First committee serves as a front and financing agency, includes such politicians as Senators Burton K. Wheeler, Bennett Champ Clark and Gerald P. Nye, such public men as Col. Charles A. Lindbergh and Herbert Hoover, and such powers from the business world as Henry Ford and General Robert E. Wood.

their politician allies have conferred constantly and regularly. In some cases the alliances are public. On others, as when Henry Ford was discovered to be giving facilities to Colonel Lindbergh and Senator Wheeler for answering their mail, the link has not been disclosed. But it can be taken for granted that the isolationist high command is acting as a unit.

The double result of the isolationist campaign is to give courage and coherence to their natural supporters among the bundists and extreme left wing groups and to arouse to a sort of hysteria of excitement the disinterested anti-war party in the country.

The polls do not show that they have been making numerical gains. On the contrary the recent Gallup survey showing a supporting majority for active shipping protection actually indicated that the isolationists have been losing ground among the masses of the people.

But while losing ground numerically, they have been gaining in the sense that they have been welding together a small but very violent minority group, ready to go any lengths in opposing the president.

"How long will they keep this up?" is the question being asked here. The question is being asked not because there is any desire to limit the freedom of the isolationists to express themselves. The communist leader, Harry Pollitt, can still say what he wants and speak where he pleases in Britain.

Obviously, the Wheelers, the Lindberghs, the Clarks and their friends should have the same freedom here. But at the same time, a great many people are beginning to wonder whether the isolationists are not now laying themselves open to charges of serious irresponsibility.

The reason for this is very obvious. Not long ago the Saturday Evening Post, the most important isolationist publication in the country, sharply changed its policy.

Since the passage of the lend-lease bill, they have exhausted every resource at their disposal, including money, propaganda, and such devices of the old big-business lobbies as stimulated letter-writing campaigns to obstruct and hamstring the president's foreign policy.

Their effort has culminated in a series of loudly touted public meetings. And these meetings, besides making much noise and offering conclusive evidence of the preposterous financial state of the isolationist movement, have aroused comment in other directions.

Particularly, fair-minded persons in every city where they have been held have noted with distress the extremely high proportion of men and women with obvious communist or bundist affiliations among the honest patriots and old-fashioned little-America advocates in attendance.

The meetings are known to be part of a carefully laid plan of campaign. The chief members of the America First committee and

Warship Sponsor Loyal SALT LAKE CITY, Utah—When Mrs. H. Walter Thomas of Salt Lake City christens the new U. S. destroyer, Fitch, next October, she won't use the usual bottle of champagne. Mrs. Thomas plans to take a bottle of water from the Great Salt Lake to Boston for the christening.

Post's idea is that the British intelligence service could make excellent use of the detector in questioning any of the captive airmen that are shot down and land by parachute in England. He doesn't imply that Herr Hess himself contemplates the falsification of facts. But it certainly is a de-

terrent when a man is convinced that he can't get away with anything without betraying himself. A simple maneuver is the preliminary move in any test. The suspect is asked, secretly, to write down a number between one and ten. He places the number in his pocket. Then Post questions him about each number. If he has written "3" and attempts to deny it, the needle dances all over the dial. It is conclusive and self-evident, and the prisoner always sees the light.

Reporters and representatives of the army, navy, and secret service witnessed the test. It took Post only a few moments to convince the man there was no use holding back. He gave in.

I mention this because I have known Post for years and because I have seen the lie detector work. To Post's credit is a long list of convictions that have saved insurance companies, commercial houses, and private individuals thousands of dollars. Some time ago Post was on the air with Elliott Roosevelt, giving a detailed explanation of his detector, and more recently one of the major film companies produced a technical short showing the apparatus, which looks like a portable phonograph, in operation.

Now Post has the idea of offering his services to the British government. It is his suggestion that with his machine the British government can ascertain the veracity of any statements made by their distinguished and surprising guest, Rudolf Hess, by merely confronting him with this machine. If the British would rather have one of their own men operate the machine, that will be all right with Mr. Post.

"I can train any man they designate in two or three days to operate it," he told me. As a matter of record, the machine is very simple. You plug it in as you would an ordinary radio. You strap a contact pad to a man's hands. Then he begins to talk. If he utters an untruth, a sensitive needle showing on a dial begins to jump violently up and down.

Not long ago Post was called on a case involving the disappearance of \$10,000 worth of merchandise. The suspects were in custody. They denied any connection with the case. But with the lie detector confronting them they confessed all. The case was settled on the spot. It was duly written into the records and published.

Some time ago Post was on the air with Elliott Roosevelt, giving a detailed explanation of his detector, and more recently one of the major film companies produced a technical short showing the apparatus, which looks like a portable phonograph, in operation.

Now Post has the idea of offering his services to the British government. It is his suggestion that with his machine the British government can ascertain the veracity of any statements made by their distinguished and surprising guest, Rudolf Hess, by merely confronting him with this machine. If the British would rather have one of their own men operate the machine, that will be all right with Mr. Post.

"I can train any man they designate in two or three days to operate it," he told me. As a matter of record, the machine is very simple. You plug it in as you would an ordinary radio. You strap a contact pad to a man's hands. Then he begins to talk. If he utters an untruth, a sensitive needle showing on a dial begins to jump violently up and down.

Not long ago Post was called on a case involving the disappearance of \$10,000 worth of merchandise. The suspects were in custody. They denied any connection with the case. But with the lie detector confronting them they confessed all. The case was settled on the spot. It was duly written into the records and published.

Post's idea is that the British intelligence service could make excellent use of the detector in questioning any of the captive airmen that are shot down and land by parachute in England. He doesn't imply that Herr Hess himself contemplates the falsification of facts. But it certainly is a de-

terrent when a man is convinced that he can't get away with anything without betraying himself. A simple maneuver is the preliminary move in any test. The suspect is asked, secretly, to write down a number between one and ten. He places the number in his pocket. Then Post questions him about each number. If he has written "3" and attempts to deny it, the needle dances all over the dial. It is conclusive and self-evident, and the prisoner always sees the light.

Reporters and representatives of the army, navy, and secret service witnessed the test. It took Post only a few moments to convince the man there was no use holding back. He gave in.

I mention this because I have known Post for years and because I have seen the lie detector work. To Post's credit is a long list of convictions that have saved insurance companies, commercial houses, and private individuals thousands of dollars. Some time ago Post was on the air with Elliott Roosevelt, giving a detailed explanation of his detector, and more recently one of the major film companies produced a technical short showing the apparatus, which looks like a portable phonograph, in operation.

Someday I'll Find You

Chapter 21
House Divided

amusing as a cat, a crazy improviser—and Martin.

tears, felt Bill pulling her up.

Martin, bent, without losing the rhythm of their waiting, and kissed her lightly. . . . And then, of course, the rest were scrambling down the bank, clinking into the ice. Bill Grant had seen the sort of skater she was. He took her over.

He was nearly professional. He'd been heaven to dance with even if he'd been bad. As it was, she forgot everything but happiness. For all the difference in their heights, they danced as they had before, like one person.

"Hurt yourself?" he asked tenderly.

And presently she found he was talking—which was odd, because so far he hadn't except to indicate needs.

They were in a far corner as the hand swung into an old thing. . . . "Kiss me—kiss me—again!" She tightened her hold. She tipped up her face to his, smiling down. She sang the words. . . .

"No," she said. "Leave me alone." But he only laughed admiringly and steered her back up the hill.

"Well skater," he said. "Thought Caroline said you were a cashier from the lower East Side. Good dancer, are you?"

He laughed. "Sweet kid!" he said as he had that afternoon. As he stooped to kiss her she clung to him. For a long moment they kissed like lovers. . . . And this dizzy minute was past; they were down the room again.

She had nearly decided to swallow her pride, throw in her hand, borrow money of Lewis and go back home, after two days of this. And then Caroline, with the girls clinging about her as usual, the men rounded up, made the plans for the next day, round the fire late at night!

Free Candy Bars Offered By Ritz On Saturday

An extra attraction for children attending the Saturday afternoon matinee at the Ritz theatre will be a free 5c bar of candy.

Management of the theatre has announced that full size bars of the confection, "Hit o' Honey" will be given Saturday afternoon. More than 200 bars of candy are available for the gift.

The special offer is in cooperation with a children's safety campaign sponsored by the makers of Hit o' Honey.

CARD OF THANKS
We want to thank our many friends for their kind expressions of sympathy at the death of our husband and father, C. E. Edwards.

Mitchell Well Rated At 450

Wells & Fontress No. 1-B Crawford, 280 feet from the south and 1,170 feet from the east line of subdivision 13, George J. Felger survey, rated 450 barrels on potential test this week, giving the Doctery & Robbins pool in northwestern Mitchell county one of its biggest producers.

The test ran 110 barrels on the initial six hours and 113 on the second stretch. It is bottomed at 1,794 feet and had its dolomite limestone stratum of around 100 feet cracked with 820 quarts recently. Operators reported high porosity in the lime.

F. W. Merrick No. 1 Mills, 330 feet from the south and west lines of subdivision 18, C. H. McGinnis, was preparing to take a 420 quart shot after completing with rotary to give the pool another producer.

The Lockhart, Robbins, Dockery and Willbanks Bros. No. 1 Cora Brown 3,000 foot wildcat test southeast of the old Westbrook pool in Mitchell county prepared to set 12 1/2 inch string at 600 feet Tuesday. It is a mile and a half northwest of a test which showed considerable free oil 17 years ago, and is 1/2 mile west and north of the Caswell, et al. No. 1 Franklin, which apparently has missed the pay in a 3,000-foot effort.

In southeastern Howard county Pura Oil Co. No. 18 Chalk, in section 12S-20, WANW, showed a 24-hour pumping potential of 607 barrels after treatment with 2,000 gallons of acid at 3,134 feet.

Population density in the delta of the Nile river is 1,500 persons to the square mile.

Coffee To Attend Underwriters Meet

As representative of the local association of life underwriters, Lib Coffee will leave Saturday to attend the annual convention of the Texas Association of Underwriters, to be held next Monday, Tuesday and Wednesday in Beaumont. Coffee is a vice president in the state organization.

He will be accompanied as far as San Marcos by Mrs. Coffee and their child.

Population density in the delta of the Nile river is 1,500 persons to the square mile.

Hospital Inmate's Death Is Probed
AUSTIN, May 26 (AP)—Continuing an investigation of state eleemosynary institutions, a house committee today prepared to inquire into the recent death of an inmate of the San Antonio state hospital.
The committee recently voted to order an autopsy after Rep. M. A. Bundy of Wichita Falls, chairman, read testimony assertedly taken by the state board of control from the deceased inmate's wife.
Bundy was authorized also to take immediate steps toward an investigation.
He said the woman's statement declared she was prohibited from seeing her husband's body for several hours and that when she was permitted to view it she found his head bruised.
Other letters claiming mistreatment of inmates at state institutions also were read by the chairman.

Pan-American Republics Plan Tight Control Of War Exports
WASHINGTON, May 26 (AP)—Bulwarking President Roosevelt's unmistakable challenge to the axis, the 21 American republics today planned strict control of all exports of war materials as economic defense against new threats to the peace and security of the western hemisphere.
Inter-American diplomatic negotiations already under way, it was learned authoritatively, are designed to achieve continental common danger" by having each American nation impose export control systems.
Such systems would:
1.—Conserve all strategic raw materials and manufactured products required for defense of the hemisphere (and aid to embattled Britain) by placing restrictions on export of war supplies to areas outside this continent.
2.—Prohibit re-export of vital materials and goods (except to other American nations) which have been imported from another country, in order to plug any leaks through which Germany, Italy, or axis-dominated countries might secure supplies.

others in their rush for outdoor clothes, came slowly over to Martin. She said gently, "Martin, I won't go if you think I'd better not."
"Can't," and "Hey, you can't," Ike and Martin said together.
"We can too!" She was laughing. She flung herself forward and snatched the reins over Ike's shoulder.
"You darn little fool, stop it!" Ike began. She had wrenched the sleigh and horses halfway round on a glare of ice. Eileen heard a horse's shrill scream as the sleigh went over and flung her off and out into deep, wet snow.
"To be continued."

Dog Mothers Possess
HANFORD, Calif.—Fuzzy, 13-year-old Pekinese dog, belonging to M. S. Reeves, mothered five baby possums from the time their real parent died until they could be fed milk and liver. The young possums have been domesticated without difficulty.
