**What You Buy With
WAR BONDS**

Our military forces must depend
upon aerial photographs for an ac-
curate mapping of enemy territory.
So the aerial camera is a vital ne-
cessity for our scout observation
planes. These cameras cost up to
\$8,000 each and will make excellent
pictures from tremendous heights.

A poor map may mean the dif-
ference between victory and defeat.
So help your Boys towards victory
with your purchase of War Bonds.
Join the Payroll Savings Plan at
your office or factory. Let's "Top
that ten percent."

FOOD FOR FREEDOM

With a scarcity of good planting
seed for this spring and with high
production so essential this year's
farmers should prepare now to fight
a few of the saboteurs of their 1943
crop. To disarm a few of these ene-
mies of maximum production before
they cause damage, seed should be
treated with mercury dust such as
cereson. Best results are received
when the treatment is done a month
or two before planting because the
treating dust kills the parasites. The
cost is only about 10 cents per acre.

Experiment Stations in California
have gotten some good results in re-
cent tests on the use of crystal phen-
othiazine mixed with the salt. This
use is becoming more widespread in
that state and ranchers are well pleased
with the results. The mixture is
one of phenothiazine and fifteen of
salt feed each alternate 30 days.

A well-balanced dairy ration may
be had by mixing 200 pounds ground
sorghum heads, 100 pounds of ground
oats, 200 pounds of cotton seed meal,
10 pounds limestone and 5 pounds of
salt. This should be fed at the rate
of 3½ pounds daily for each gallon
milk produced, and in addition each
cow should receive about 25 pounds
of roughage each day.

Economists say that food prices
rose 12 percent in 1942 and that food
costs are 40% higher than they were
when the war started in 1939. So you
will not only be aiding the war ef-
fort by raising as much of your food
as possible in 1943 but you will also
be saving your pocket book.

Sears, Roebuck and Co., who have
sponsored some outstanding swine
demonstrations with 4-H club boys
the past several years, are now spon-
soring a Victory Garden Campaign
among club boys and are offering as
prizes medals, bonds, and trips to
the 4-H Club congress held each year
in Washington. For details of this
program, boys should contact the
County Agent.

Mr. and Mrs. Wilton Baggett of So-
nora are the parents of a baby boy
born February 2nd. He has been
named Stanley Wilton.

Payroll Savings Plan. At least 10% of your salary every pay-
day. Not 6%, or 7% or 8% — but at least 10%. And more,
if possible.

Many Americans who *ought* to be buying War Bonds through
the Payroll Savings Plan every payday, *aren't*. They just
haven't yet STOPPED TO THINK what it means to
Johnny.

Don't be like that, lady. Invest your 10% with Uncle Sam
— payday after payday. You'll get a big kick out of it.
Knowing that you, personally, are sending him the guns,
planes, bombs, tanks — whatever it is he needs!

WHAT YOU SHOULD DO

If you are . . .

1. Already investing 10% of your pay in War Bonds through the Payroll Savings Plan — boost that 10% if you can.
2. Working in a plant where the Plan is installed, but haven't signed up yet — sign up tomorrow.
3. Working in a plant where the Payroll Savings Plan hasn't been installed, talk to your union head, foreman, or plant manager — and see if it can't be installed right away. The local bank will be glad to help.
4. Unable to get in on the Payroll Savings Plan for any reason, go to your local bank, or wherever bonds are sold. They will be glad to help you start a plan of your own.

**What You Buy With
WAR BONDS**

Save now to buy later, after the
War. That's good common sense
because if you spend now, you help
to drive prices up for everything
you buy. Durable goods are scarce
so invest in War Bonds today and
do that house remodeling when Vic-
tory is won.

If you have not done so, join a
Payroll Savings Plan at your
office or factory. If you are not in-
vesting at least ten percent in War
Bonds, increase your regular deduc-
tions on your Payroll Savings Plan.
Let's "Top that ten percent."

U. S. Treasury Department

held at present levels. That will be
about 78 billion dollars less than these
goods would cost if prices were not
controlled and were allowed to fol-
low the inflationary pattern of World
War I in 1914-1918.

More Munitions

Planes, tanks, guns, and other mil-
itary equipment and supplies that rolled
off American assembly lines in
December 1942 was 14 percent greater
than in November, said Donald Nelson,
chairman of WPB. It was the
greatest volume ever produced by U.
S. factories in one month. During
1943 it is planned to produce about
twice as much munitions as in 1942.

Support Millfeeds Price

Prices of millfeeds will be support-
ed by the Commodity Credit Corpo-
ration to flour millers at \$1.50 per ton
below the OPA ceilings. This is part
of the USDA's effort to prevent a
rise in flour and bread prices to the
consumer, and to encourage increas-
ed production of livestock by keeping
a supply of millfeeds available.

Add 3 Percent Tax

The 3 percent freight tax imposed
Nov. 1, 1942, may be added to deliv-
ered prices by processors of animal
product feedstuffs, according to OPA.
Prices of such feeds are held to a
(Continued on Page 3)

On plentiful commodities points
will be lower, with a revision up or
down as the supply and demand for
each article increases or decreases.

For the first month, which will be
March, each person will have a total
of 48 points to "spend" for any of
the rationed articles needed. The en-
tire amount may be used at once, or
as the individual chooses.

"We do not anticipate the difficul-
ties experienced during registration
for gasoline rationing," Covert de-
clared, "because we have had more
time to work with the local rationing
boards."

Necessity for the successful opera-
tion of this program, he added, is not
hard to understand when we are re-
minded every day of the needs of
our troops and our allies.

"Point rationing must work if we
are to win this war," he concluded.
"We all remember that Bataan fell
for the lack of food and supplies.
Every American is willing to do any-
thing to see that there are no more
Bataans."

"It Takes Both"

It takes both . . . two fingers to
give the Victory sign. It takes both
. . . War Bonds and Taxes to make
that Victory come true. Continue
your purchase of War Bonds, at
least ten percent of your income.
Pay your Victory Tax and your in-
come tax cheerfully and gladly.
Both are in lieu of an Occupation
Tax to Hitler. U. S. Treasury Department

Only the Bill Grows
Coal cannot grow because it is
petrified matter. It generally is be-
lieved that coal originated in swamps
similar to present day peat bogs,
near sea level and subject to re-
peated submergence. In decompos-
ing the substance became peat; oxy-
gen and hydrogen were eliminated
to a greater extent than carbon.
Metamorphosis, or a change of form,
due in some extent to pressure, re-
sulted in lignite and coal. Although
coal has been formed in other geolo-
gical periods the formation occurred
chiefly in the Carboniferous period.

During Peacetimes
Lourdes, France, includes an old
and a new quarter divided by the
Gave de Pau and connected by a
bridge. An esplanade leads to the
shrine, the basilica above the grotto
and the Byzantine church of the Ro-
sary, completed in 1889. Hanging
thickly on the grotto walls are the
crutches discarded by afflicted men,
women and children who credit their
cures to a visit to the shrine. Votive
offerings and the flags of all na-
tions are displayed.

The Little People
A Field museum expedition spent
five months in Ecuador, studying
the ruins of ancient cities of the
Canari civilization, a people con-
quered by the Incas. Discovery of
perhaps the last remnant of the
Mayas, who fled before the conquest
of Cortes into unexplored parts of
Chiapas, Mexico, was reported. The
natives are described as little peo-
ple with long hair, who still use
bows and arrows, and who worship
figurine gods.

Two Dim-Out Methods
Berkeley, Calif., is using two meth-
ods for marking dim-out areas. The
first method consists of painting elec-
troliters and street lights at dim-out
area boundaries a distinctive blue
color; the second, painting the words
"dim-out" and "end of dim-out" on
the pavement at boundaries of such
areas. The paint contains a type of
material which acts as a reflector so
the markings are more distinctive
than ordinary paint.

Rock Salt Preventive
In most cities rock salt is used
as a preventive at the first sign of
snow. It is spread particularly on
hills and at intersections so that ice
cannot form at all. Usually only
one application is required, an econ-
omy for street maintenance men,
and it has the added advantage of
leaving no residue to clean up after-
ward, or to clog sewers.

Tomato's Classification
Botanically the tomato is a fruit,
being the fruit of the tomato vine,
but, according to the department of
agriculture, by common usage it is
included among the vegetables as
far as garden and kitchen uses are
concerned.

Past Preserved in Ice
A Russian scientist dug through 50
feet of ice, near the foot of the Altai
mountains of Siberia, and uncovered
a stable of logs and planks hewn by
Bronze age axes. In the stable were
found the well-preserved bodies of
ten horses, saddled and bridled.

Gasoline
The recent and continuing short-
age of gasoline in Eastern states
calls for the utmost co-operation by
farmers and all other citizens
throughout the area, advises Secre-
tary of Agriculture Wickard.

Mushroom Used in Medicine
A natural substance extracted
from mushrooms that has produced
a significant reduction of high blood
pressure in 95 per cent of human
patients on whom it has been tried
was recently described.

Reading Glasses in 1054
A portrait by Raphael shows Lee
X, who was pope from 1049 to 1054,
holding a reading glass with a
minus lens. This is the first indica-
tion that minus lenses were in use
at that time.

In Nine Weeks
A normal-sized class of aviation
cadets flies an average of 800,000
man hours of cross-country flights
during the nine-weeks of basic train-
ing at Randolph Field, Texas.

Crosscut Saw Operation
For best operation, set only the
tips of the cutting teeth in a crosscut
saw, as teeth that are set wide
will bind as soon as the points are
slightly dulled.

For the Yanks
The nation still needs scrap met-
als. Junk gathered from out of the
way places on farms might save the
lives of boys on foreign fighting
fronts.

Sharp Sighted Birds
The retina in the eyes of birds
does not have blood vessels. This
condition, it is believed, aids in
sharpening the sight of birds.

SOCIETY CLUBS PERSONALS

Mrs. Jack Kerr Entertains Friday Club

Mrs. Jack Kerr entertained the Friday Bridge Club in her home last Friday. Mrs. J. C. Crosby won high score for the club and Mrs. T. R. Jones won high score for the guests. Refreshments were served to Mmes. Dobbie Tinning, T. R. Jones, and Hayne Graves, guests. Members were Mmes. J. C. Crosby, Terry Crain, L. W. Ballew, and Ben Hext.

Mrs. Sam Oglesby Entertains Wednesday Club

Mrs. Sam Oglesby entertained the Wednesday Club in her home. Mrs. G. C. Crosby won high score and C. R. Brace won the bingo prize. A salad plate was served to Mmes. C. R. Brace, Leslie Baker, Carol White, E. B. Keng, C. C. McLaughlin, Jimmie West, G. C. Crosby, V. G. Tisdale and A. D. Richey.

The Reynolds Home Demonstration Club Meets

The Reynolds Home Demonstration Club met in the home of Mrs. W. E. Bruton. Nearly every woman in the community is knitting for the Red Cross. At present we are working on two Navy scarfs, six sweaters, 3 wristlets and 3 helmets. Since our working time is limited, we knit most every meeting. Mrs. Ray Bruton was in charge of the program and gave a very interesting talk on nutrition for the family and discussed a chapter from the Home Nursing Manual. In her nutrition talk she stressed the importance of us understanding exactly the nutritive standards and how to apply them to our every day problems. The meeting adjourned and we decided to meet with Mrs. Raymond Dickens, Wednesday, February 10th.

Presbyterian Auxiliary Meets At Church For Foreign Mission Program

The Presbyterian Auxiliary met at the church on February 5th for a book review and day of prayer for Self-Denial for Foreign Missions. Mrs. Kelly Neal reviewed "On This Foundation." A Mexican dinner was served to the following members: Rev. and Mrs. Kelly Neal and Harold, Messrs. and Mmes. Jim Williams and Martha Dell, Elton Ellis and Irve Allen, F. B. Gunn, H. T. Finley, Joe B. Edens, Edwin Jackson, Leslie Baker, and Mmes. Sam Jones, Jim Simpson, Lewis Whitten, Sallie Murchison, Jim Griffin, R. A. King, B. O. Bridgman, Sam Oglesby, S. W. Holland, R. J. Page. The guests were Mmes. Pawley, W. T. Whitten, Myrl B. Fitzhugh, and J. F. Dossett.

ADAMS H. D. CLUB

Some garden hints were discussed when the Adams Home Demonstration Club met in the home of Mrs. Silas Burk last Friday. "A never fail time to plant Irish potatoes in this country is just before the new moon around the last of February or first of March. This year that date is March 4th and 5th, said one club member. Another member said, "Plant all root crops just before the new moon." "To keep tomato plants healthy and bearing fertilize with cotton seed, meal and copperas, mix and put about 10 inches away from plants, when setting plants out," said another club member. Still another club member said, "To keep cucumber vines from having honey dew, lice, etc., plant in April or May when sign is in scorpion." You see our club believes in gardening in the moon although you need soil, water, and work.

SHUGARTS ENTERTAIN NIGHT BRIDGE CLUB

Mr. and Mrs. Jack Shugart entertained the Night Bridge Club on Tuesday night. Mr. and Mrs. H. T. Finley won high prize for the guest. Mrs. Carol White won high score for ladies in the club. Mr. E. B. Keng won high score for the men in the club. Mrs. Carrol Ratliff won the bingo prize and Mrs. Leslie Baker won the rambling prize.

Refreshments were served to Mr. and Mrs. Jimmie West, Carrol White, Carrol Ratliff, E. B. Keng, C. C. McLaughlin, L. L. Baker and Mrs. Myrtle Fitzhugh, members, and guests were Mr. and Mrs. C. R. Brace, H. T. Finley, Eldred Roach, Mr. and Mrs. Thomas R. Jones.

Amount of Victory Tax Deductible from Weekly Wages of Selected Amounts and Amount of Net Victory Tax After Deduction of Credits

Weekly wage (gross amount)	Gross Victory tax	Net Victory tax after credits		
		Single person—no dependents	Married person—no dependents	Married person—two dependents
\$ 12				
15	.15	.11	.09	.08
20	.40	.30	.24	.22
30	.90	.68	.54	.50
40	1.40	1.05	.84	.78
50	1.90	1.43	1.14	1.06
60	2.40	1.80	1.44	1.34
70	2.90	2.18	1.74	1.62
80	3.40	2.55	2.04	1.90
90	3.90	2.93	2.34	2.18
100	4.40	3.30	2.64	2.46

The credits may be taken currently or after the war. They amount to 40 percent of the tax for married persons, 25 percent for single persons, and 2 percent for each dependent. They may be taken currently and will be based on (a) payments of premiums on life insurance policies in force on September 1, 1942; (b) payments of old debts; (c) net purchase of War Bonds. U. S. Treasury Department

GIRL SCOUTS

On February 1st the Girl Scouts held their regular meeting. A report was given on money collected for the New Scout Lodge. Each Scout was asked to give one dollar. Material for Scout uniforms has arrived. Plans were made for a Salvage Drive next Monday. Birthday cake and punch were served to celebrate Anita Runge's birthday.

PLANNING OF WEEK MENU

"Plan your menu for a week at a time," said Miss Mary Lewis to members of Country Woman's Club Wednesday afternoon in the home of Mrs. W. J. Humphrey. In going further she asked that each fill out a menu for one day then she checked up on the contents of several to see if they contained the required vitamins for one person daily. In selecting fruits, vegetables, etc., be sure that they are in good condition and good quality study grades and labels of food and above all prepare them appetizing in appearance and flavor. Mrs. Gordie Alexander gave a quiz on how much nutrition each one knew. A variety of dress samples were sent to Miss Lewis from Sears, Roebuck and Co. These were demonstrated and commented on by members of the club. Mrs. Marion Wade gave a talk on essentials of First Aid. Recreation was given by Mrs. L. Kent. Papers were given by Mrs. W. J. Humphrey, and Mrs. Ray Alexander, on finishing of floors, walls, woodwork and windows. The club will meet March 3rd with Mrs. Ray Alexander. Those present for this meeting were Mmes. Ray Alexander, Gordie Alexander, H. Z. Pennington, W. J. Humphrey, Truitt Stanford, Fred Gillispy, L. Kent, Tom Alexander and Miss Mary Lewis.

Miss Laura McGinnis started to work Monday for the San Angelo Telephone Co.

Mr. and Mrs. Bert Page have returned from Galveston where they visited their daughter, Miss Anna Florence Page.

What You Buy With WAR BONDS

Uncle Sam's lighter 37-millimeter anti-tank guns are dubbed "tank killers." They are attached to the infantry, not the field artillery, and cost approximately \$6,500 each. They have proved particularly effective in anti-tank warfare.

They are mobile, mounted on automobile tires and can be rapidly whisked from place to place. Your purchase of War Bonds will help pay the cost of these field pieces so necessary for our Army in this War. Join the Payroll Savings Plan at your office or factory and let's "Top that ten percent" by investing at least ten percent of your income in War Bonds. U. S. Treasury Department

SALVAGE FOR VICTORY

Monday, Feb. 8, Girl Scouts and Brownies made a house-to-house drive to collect everything that is valuable to the war effort—old silk and nylon hose and underwear, waste kitchen fat, scrap metal, old rubber, old clean rags. Everyone is urged to save their tin cans at home. They may be called for later by the government.

Presbyterian Aux. Meet For Circle Meeting

The Presbyterian Auxiliary met in Circles Monday, February 8, at the Presbyterian Church. Mrs. Joe B. Edens and Mrs. R. J. Page served refreshments to the following members: Mmes. Jim Williams, Joe Edens, Edwin Jackson, Sam Oglesby, S. M. Holland, Sallie Murchison, Butler Kelly Neal, R. J. Page, and Leslie Baker.

Sophia

Mrs. Kimball and Mrs. Worthington, dressed soberly and wearing their best black gloves, walked along the stony country road back toward Sophia Hardy's farm, to pay their visit of condolence.

"How do you reckon she'll be bearing up?" Mrs. Kimball asked Mrs. Worthington. Both ladies wore their most solemn, funeral expressions.

"A mighty severe blow," Mrs. Worthington said. "Mighty severe. To lose your only son, the mainstay of your declining years. And such a dreadful death, too—to go down with a ship. 'Mercy!'"

"The first of our boys from Hand County to go, too," Mrs. Kimball said, mournfully.

"I wouldn't blame Sophia Hardy for feeling right bitter."

They stood on the simple stone doorstep, with downcast eyes, getting themselves into the proper commiserative mood.

"Come in!" The voice was brisk and cordial. They looked up in surprise. Sophia herself had come to the door. As they followed her into the parlor they exchanged glances, with eyebrows lifted. Sophia was not even in mourning. The parlor shades were not even drawn.

"It's nice of you to come," Sophia said. "Do sit down."

"We came," Mrs. Kimball said almost reprovingly, "to tell you that our hearts are bleeding for you in your great loss."

"We know how lonely you must be out here," Mrs. Worthington said. "With nothing to take your mind off . . . off . . ." She sniffed and reached in her purse for a handkerchief.

"Oh, I keep busy," Sophia said. "I've just finished applying for the Government insurance on Tom's life."

The visiting ladies could not resist a shocked glance at one another.

"I want to get it right away," Sophia said. "So I can put it into War Bonds. My boy hasn't finished fighting yet, not by a long shot."

The ladies were so occupied with feeling horrified, so titillated by this callous behavior in a bereaved mother—that neither of them noticed Sophia's hands. Under the folds of her clean print dress, against the seat of her chair, they were tightly clenched.

(Story from an actual report in the files of the Treasury Department.)

Carry on for mothers like Sophia. Buy War Bonds till it hurts. U. S. Treasury Department

Mr. and Mrs. Billie Childress of Ozona are in Eldorado visiting relatives.

Mrs. Jack Halbert and Mrs. J. W. Yates have returned from Santa Anna, Texas, where they have been on a visit.
