

# Hemisphere Defense May Be Extended

## Patrol Would Reach Far Out In Atlantic

WASHINGTON, April 24 (AP)—A major extension of hemisphere defense strategy—the patrol of the North Atlantic half-way to Europe—was reported being planned today by the high command of the United States navy.

The creation of such a broad security zone might have the incidental effect of relieving some of the strain on part of Britain's most important supply line but, in the absence of details, the full significance of such a policy was a moot question.

Officials here gave no encouragement to the reports of the widened defense patrol, but the informed quarters where the originated cited the statement of New York's Mayor Fiorello H. La Guardia that provisions had been made for off-shore defense beginning at a line 1,000 miles out to sea.

La Guardia, speaking as chairman of the joint U.S.-Canadian defense board, made his assertion during an address at Ottawa yesterday. The circumstances led to the belief here that he spoke with White House approval.

"Off-shore defense, as we understand it, is to defend our shores at three hours' distance from the farthest point of either the Canadian or the United States coast," La Guardia said.

"And when I say three hours I mean three hours by airplane doing 333 miles an hour. That is our St. George's Day message to the people of England."

## From Fireplace To Flower Place Is Easy Trick With These Suggestions

A simple wicker basket, filled with greens, makes this fireplace.

Let your fireplace serve as a frame for a lovely low bowl of flowers or foliage.

In Summer your hearth needs this touch of freshness.

By FRANCES JONES

No. 1—At this time of year most of us are waiting a little while longer before closing up the fireplace for the summer. There are many unusual and good looking ways to fill in that empty place. A few of them are shown here today. A simple chip basket, lined with a cookie tin, becomes an attractive fireplace screen when it is filled, fanwise, with greenery. Al-

most any foliage and any shaped basket will serve.

No. 2—A totally different treatment is applied to the empty fireplace of this classic mantel. It is the picture pool. The background for the arrangement is a piece of heavy, corrugated cardboard, cut a bit longer than the grate opening, and placed in it in a semi-circular effect. In front of the colored screen is a lovely, simple arrangement of cut azaleas branches and magnolia in a shallow bowl.

No. 3—Here's the easiest trick of all! A painted tray, a heavy cardboard disk, or a circle cut from wallboard silhouettes a sprightly pot of geraniums. Elevate the pot by placing it on another inverted pot or on an oil can painted to match the tray. Another tray of different texture may be used at a lower level as the background for an interesting pot of ivy or philodendron. There are endless variations possible on this sort of arrangement. Work up the one which best suits the proportions of your mantel. Although the sketches show the fireplace garden used in a modern setting, it is equally well adapted to traditional backgrounds. We'll wager that if you once try a fireplace filler you'll be using it until fall. (Distributed by Esquire Features, Inc. Reproduction strictly prohibited.)

Variety stores have increased 44 per cent in number and 25 per cent in sales since 1935. The census reports that there are nearly 17,000 variety stores whose sales amount to only slightly less than one billion dollars.

## Leading Educators To Help Install Dr. W. R. White As H-S. U. President

an historic milestone in Hardin-Simmons university history, three-day inauguration ceremonies for Dr. William R. White as seventh president of H-S.U. will begin next Sunday.

Special inaugural exercises will conclude the formal inauguration on Tuesday afternoon.

Speakers from ranking state and denominational schools in the southwest will be heard on the programs.

At the inaugural, to be climaxed by an address by Dr. White, more than 70 colleges and universities will be represented, more than a score of them by their presidents.

Guest of honor, here for the occasion, will be Dr. Charles E. Friley, president of Iowa State college, and the son of Rev. W. C. Friley, who served from 1893 to 1894, as the first president of Simmons college.

Speakers will include three former presidents of the Southern Baptist convention, the presidents of the University of Texas, Oklahoma Baptist university, and other ranking schools.

The inaugural program will begin next Sunday morning, with services at the First Baptist church, South Side Baptist church, and the University Baptist church with Dr. John R. Sampet, president of the Southern Baptist Theological seminary, Dr. Lee R. Scarborough, president of the Southwestern Baptist Theological seminary, and Dr. John W. Raley, president of Oklahoma Baptist university, as speakers.

Others who will speak during the inauguration series are Dr. E. C. Routh, editor of the Baptist Messenger, Oklahoma City; Dr. Pat M. Neff, president of Baylor University; Dr. S. J. McCallie, headmaster of McCallie School for boys at Chattanooga, Tenn.; Dr. Clifford E. Jones, president of Texas Tech; Dr. Homer P. Rainey, president of the University of Texas; and Dr. George W. Truett, pastor of the First Baptist church in Dallas and international figure in the denomination.

Installation of Dr. White will be by Dr. J. D. Sandfer, Jr., Breckinridge, chairman of the university board of trustees and son of the late Dr. J. D. Sandfer, whom Dr. White succeeds.

## Traveler Moches 102 Dozen Eggs

COLORADO CITY, April 24 (Sp.)—Something new to this section in the way of "mooching" has been brought to light by local officers in the east of a man from Sioux City, Iowa, who is in Mitchell county jail charged with arson in the burning of his car near here recently.

The man and his companions, including his wife and child and another man, "mooched" 102 dozen eggs from charitable farm families of southern Mitchell county in four days time before the burning of the car landed him in jail.

## Publishers Stress Part Of Press In Defense Program

NEW YORK, April 24 (AP)—After two days of shop talk, with the emphasis on newspapers' responsible role in the defense emergency, more than 600 delegates to the American Newspaper Publishers Association's 56th annual convention prepared to wind up their business today.

Col. Frank Knox, secretary of the navy and publisher of the Chicago Daily News, will be the principal speaker at the 20th annual ANPA Bureau of Advertising dinner tonight, together with C. R. Smith, president of American Airlines.

The ANPA management reported that despite dwindling of Scandinavian newspaper imports during 1940 and the demand made upon North American mills to supply the imports eliminated, the capacity of these mills "amply provided for the missing overseas shipments."

W. F. Wiley, Cincinnati (Ohio) Enquirer, chairman of both the committee on wage and hour law and the federal laws committee, reported on legislation passed during the last year as it affects newspaper publishers.

Contrary to the popular conception, the number of wholesale establishments increased 25 per cent in the last decade, according to the census.

## Big Expansion In Defense Construction Contemplated

WASHINGTON, April 24 (AP)—A vast new program of defense plant construction and expansion to cost approximately \$1,500,000,000 has been drafted by the war department. It was learned today, and is expected to reach the stage of contract negotiations in two weeks.

Almost doubling the \$1,700,000,000 of defense plant construction already under contract, the new program is designed to:

1. Increase defense production capacity to the point where it will supply full combat equipment for an army of 2,000,000 men, plus so-

called "critical" or basic items for a force twice that size. Previous plans were based on furnishing full equipment for 1,400,000 men, plus "critical" items for 2,000,000.

2. Substantially boost the capacity for turning out munitions needed by the British, particularly long-range bombers. Experts say Britain must have such planes in great numbers if she is eventually to start widespread offensive warfare against Germany.

The new program was understood to be awaiting approval by the office of production management and, after that, by the president.

## THE RECORD... Facts That Concern You No. 27 of a Series

## ONE SOUR NOTE...

but it's a great orchestra nevertheless

Even a great orchestra will make a musical mistake once in a while. And once in a while... out of the thousands of decent, law-abiding beer retailers in Texas... you'll come across one or two who operate disreputable establishments.

These "black sheep" retailers constitute a tiny minority. Yet they tend to drag down the good name of beer.

By arousing public indignation, such undesirable retailers endanger your right to enjoy good beer. They also en-

danger the benefits to the public that beer has made possible.

For example, in Texas beer has created 31,165 new jobs with an annual payroll of \$22,076,182 and paid \$2,273,968.64 in taxes last year.

The brewing industry wants "black sheep" retailers eliminated entirely. You can help us by patronizing only the reputable, legal places where beer is sold. And by reporting irregularities to the duly constituted law enforcement authorities.

BEER...a beverage of moderation

# Andrew Jackson Houston Says He'll Go To Washington, Be Active In The Senate

HOUSTON, April 24. (AP)—Texas' 86-year-old appointee as interim senator — fiery General Andrew Jackson Houston—intends to assume his post actively.

Full of spunk and slightly irked at reports the suddenness of his appointment had resulted unfavorably upon his physical condition, the son of immortal Sam Houston declared he felt "up-top" and would leave for Washington probably "within a week."

In his first interview since Governor W. Lee O'Daniel appointed him Monday, General Houston said he was uncertain when he would take the oath of office.

"I can't say—just any time," he said.

The octogenarian's voice, coming over the telephone from his Bay-side home 25 miles from Houston, sounded strong and clear.

General Houston, believed to be the oldest man ever appointed or elected to the national senate, said he would not be a candidate in the special election set for June 28 to determine who will fill out the unexpired term of the late Morris Sheppard.

He reported he was writing a history of the Republic of Texas and "simply wouldn't have the time."

General Houston in the past has shown the same high spirit of his illustrious father, who served as a senator before him. He has been in several disputes over statues and pictures representing his father,

declaring they did not do him justice.

He indicated he would assert himself in the same manner in the national senate, answering promptly and decisively questions regarding world affairs. He admitted his mind was not made up on certain of them, but each question he answered forthrightly.

He said he favored aid to Britain, but "wouldn't know" whether the United States should enter the war on the side of England.

He was not certain of the attitude of his constituents, he said, "and I must wait until I get to Washington to learn the sentiments of congress and the sentiments of the president."

# What's Going To Happen Next? Britons Demand

LONDON, April 24. (AP)—Frankly writing off the diplomatic and military campaign in the Balkans as a defeat, the British press and public, in a heightening critical mood and chafing under a black-out of definite news from the Greek front, grimly awaited unfolding of the full picture of Britain's reverses.

Two questions were dominant today: Where are the imperial forces, last reported yesterday falling back on Athens? Where will the Nazi blitz legions strike next? British saw a lone note of en-

couragement in North Africa, where Gen. Sir Archibald P. Wavell, commander of British Middle East forces, was reported to have poised his army for a decisive clash with the Axis mechanized spearhead that has struck across Libya into Egypt.

London newspapers, which until now had scrupulously avoided criticism of the conduct of the Balkan campaign, today reflected a mounting inclination to call for an accounting.

**FORMER EDITOR DIES**

# RAF, Luftwaffe Trade Blows

LONDON, April 24. (AP)—Bombers of the Luftwaffe and the Royal Air Force beat opposite courses over the English Channel last night, the Nazis pouring explosives onto Plymouth for the third successive night and the RAF staging its 12th raid on the battleships Goebenau and Scharnhorst sheltering in Brest harbor.

In Plymouth, which lies across channel from Brest, the Nazi

bombs churned anew the wreckage left by the previous raids, and caused at least 12 deaths. Eight bodies were taken from a garden shelter which was hurled intact to the roof of a house. Two raiding bombers were reported shot down. (Informed Germans said the naval base at Portsmouth also was attacked by the Luftwaffe.)

### Army Period Is Uncertain

WASHINGTON, April 24 (AP)—The army doesn't know "whether it will be demobilized in five or thirty years," congress was told today by a general staff officer explaining the non-use of temporary accommodations.

Testifying before the senate defense investigating committee, Col. Stephen J. Chamberlin said that earlier mobilization plans had called for the use of race tracks, fair grounds and other such structures to house troops temporarily.

This plan, he said, was for wartime mobilization and had to be discarded in the recent expansion of the army because it was obvious that troops could not be moved out of one station to another as quickly as anticipated. For that reason, he added, construction also was much more substantial than in 1917, taking on an air of permanency.

Col. Chamberlin said in response to a question by Senator Brewster (R-Me.) that he had been "greatly surprised" last summer when Germany swept to swift victory over the French.

Brewster asked whether it might not be "even more difficult to think that America could be invaded than that France could fall."

"I would be greatly surprised right now," the colonel replied, "as long as the English fleet lasts and the American fleet lasts that America could be invaded, except by air."

He agreed that it was the duty of the army to make plans for "all eventualities."

### INJURIES FATAL TO MRS. TOM RHODES

AUSTIN, April 24 (AP)—Mrs. Tom B. Rhodes of Austin, daughter of Ira G. Yates from whom the Great Yates oil field of West Texas draws its name, died here today as a result of injuries suffered near Hempstead.

It was reported the injuries were received when Mrs. Rhodes fell from her automobile while en route from Houston to Austin but details were not known. She was brought to Austin in an ambulance and died about 1 a. m.

The body was to be sent to San Angelo today for funeral services there tomorrow at 3 p. m.

### ATTACK ON TRIPOLI TERMED A SUCCESS

LONDON, April 24 (AP)—An admiralty communique said today that a fresh report of the Monday naval shelling of the Libyan port of Tripoli, the axis major North African base, indicated the bombardment was even more successful than was at first thought.

Seven ships, including a destroyer, were hit and three of these were sunk, the admiralty account said, in this assault which naval officers have described as the heaviest of its sort in naval history.

Three transports lying in the naval basin were hit and set seriously fire, "the communique asserted. "One of these was actually sunk to sink."

"A fourth ship in the naval basin appears to have been laden with ammunition, for when it was hit by a 15-inch shell the ship exploded."

**BRITAIN'S SINGAPORE**—Life seems calm enough in this view of Raffles Place in Singapore, Britain's heavily fortified Near East base straddling empire trade routes from British India to India, Australia and New Zealand via the Mediterranean. When tension in the Far East rose Britain strengthened her defenses in Singapore, which is at tip of Malay peninsula.

### Here 'n There

The marine corps has opened a recruiting station in Abilene in the post office building with Sgt. Claude B. Reid in charge, it was announced here Thursday. It will serve approximately 50 counties in this area and young men between 18 and 30 years of age, single and with at least a grammar school education may apply for further information at the post.

American Airlines is the possessor of a trophy presented by the National Safety Council for an outstanding record of safety. The company was the first air transport company to operate one billion passenger miles without a traffic fatality to passenger or crew. According to the trophy inscription, this "covers a period of more than five years—a world record in safe air transportation deserving highest commendation."

The trophy was presented in ceremonies at New York on April 22. The Betsy Ross club is sponsoring a box supper at Birdwalk park Friday evening at 8 to raise money for improvement of the park.

Ladies are asked to bring boxes and the public is invited to attend.

### House Balks On Loan Shark Bill

AUSTIN, April 24 (AP)—Rep. Emmett Morse of Houston today failed to get sufficient votes in the house to suspend the rules for the purpose of printing his anti-loan shark bill on a minority report.

Rep. W. C. Montgomery of Houston, opposing the move, warned the house that, if it granted Morse's request, it would be "throwing the rules right out the window."

The house committee on banks and banking last night reported Morse's bill unfavorably.

The bill proposing licensing and bonding of all persons or firms making loans of less than \$500 other than agencies now regulated by the state banking department. It also sought to require records of transactions for examination by the state commission.

### LOUISIANA RIVERS AT FLOOD LEVEL

SHREVEPORT, La., April 24 (AP)—Rivers in this area were swollen to near flood levels today as the result of heavy rains throughout Louisiana, Texas and Arkansas.

The weather bureau here last night issued a flood warning, forecasting a rise to flood levels on the Red river at Fulton, Ark., within 24 hours.

Little river at White Cliffs, Ark., will rise six feet over the flood stage within three days, the warning said. Dangerous rises were also expected in the Ouachita river at Camden, Ark., and the Red river at Denison and Arthur City, Texas.

### Airport At Wichita Falls Gets Project

FORT WORTH, April 24 (AP)—District headquarters of the Work Projects Administration here today was notified of presidential approval on construction of a municipal airport at Wichita Falls to be used in conjunction with an aircraft mechanics school to be built by the war department.

The project will cost an estimated \$725,450 and will employ 600 men for approximately eight months.

### Accuracy In Social Security Tax Reports Asked By Board

Errors like this cost employers and the Government time and money. If the employer's social security tax return does not include each employee's social security account number or has the number incorrect, the Government must ask the employer to check back on his pay roll records to correct the error.

As the time for filing another quarterly social security tax return approaches, Robert M. Mayne, manager of the Big Spring social security board office, reminds employers to make certain they report each employee's name and social security account number correctly. In this way, he said, they will save the time and expense of later having to check back on their pay-roll records to correct any errors.

Mayne stated that practically all employers have now learned the importance of correctly reporting their employee's account numbers and names as well as their wages. He added, however, that occasionally an employer's account number will be missing from an employee's report, or the number will be incorrectly reported, or the employee's name will be spelled wrong.

"In these cases," he said, "we must ask the employer to check back on his records and supply the correct information. Sometimes the employer has failed to get the correct name or account number from the employee and must take this to check with him. That means a waste of time and consequently is expensive for the employer."

Mayne pointed out that the law makes the employer responsible for maintaining a record of the employee's name, account number, and wages and for reporting them correctly to the government. The next quarterly social security tax return is due on or before April 30.

### Two Leave For Aviation Meet

Dr. P. W. Malone and Jimmie Greene, secretary of the Big Spring chamber of commerce, left here Thursday morning in Dr. Malone's plane for Wichita, Kas., where the Southwest Aviation conference is to be in session April 24-25-26.

Greene and Dr. Malone will take part in a project that is to be devoted to improving the Civilian Pilot Training program. Members of the conference will deal with the problem of coordinating activity of the CPT and the CAA.

Robert H. Hinckley, assistant secretary of commerce, to whose department all the government's civilian air activities are assigned, and Grove Webster, director of the CPT service, will attend the meeting. Main question before the conference will be the proposal to make the CPT a permanent project.

Being an aviation enthusiast and also closely associated with civilian air training, Dr. Malone was asked to attend the meeting in order to present an outline of the work being done and the needs of West Texas' civilian flying.

Art Wintheiser, operator of the local unit of the CPT, was scheduled to take part in the conclave but a slight illness prevented him from attending.

### Material Lacking For All Applications For Mattresses

More applications for mattresses under the department of agriculture cotton surplus disposal program have been received in Howard county than can be filled with available material, Lora Farnsworth, county home demonstration agent, said today.

Material enough is available, she said, to make 400 mattresses, while more than 800 applications are in. However, applications may be made by farm families until April 30. In case some of those families already approved drop off the list or move away, some of the late applicants may get mattresses.

There are 14,559 jewelry stores in the U. S., whose annual sales exceed \$360,000,000, according to the census. These figures represent an increase of more than 2,000 stores and \$125,000,000 in sales over 1935.

### Parade Precedes Opening Game

Finishing touches on Big Spring's welcome to the hometown opening of the West Texas-New Mexico baseball league were added this afternoon when a forty-car parade was conducted through the downtown section.

Led by the Stanton high school band and its two drum major-ettes, Johnnie Beth Zimmerman and Joyce Kathryn Clardy, the Big Spring Bombers were escorted through the streets by a parade consisting of cars, two tractors and a boat and trailer. Each car carried at least one or two Bomber baseballers. Max Westerman, highway patrolman stationed here, conducted the doings.

### Britain Losing, Is Hoping For An A.E.F., Lindy Says

NEW YORK, April 24 (AP)—Colonel Charles A. Lindbergh says Great Britain seeks another A. E. F. to turn the tide of a "losing" battle.

"It is now obvious that England is losing the war," he said at an America First committee rally last night, "but they have one last desperate plan remaining.

"They hope that they may be able to persuade us to send another American expeditionary force to Europe and to share with England militarily, as well as financially, the fiasco of this war."

### Kovacs-Grant Net Tilt Bows To Rain

HOUSTON, April 24 (AP)—If the rains continue here, maybe Frank Kovacs of Oakland, Calif., and Pitty Grant, Atlanta mite, will be forced to toss a coin to see who shall be proclaimed singles champion of the River Oaks tennis tournament.

The three other scheduled games—Houston at San Antonio, Fort Worth at Tulsa and Shreveport at Beaumont—were postponed because of dampness and cold.

Today's schedule: Fort Worth at Dallas (night), Houston at Shreveport (night), Tulsa at Oklahoma City (night), San Antonio at Beaumont (day).

### Okla. City Indians Scalp Dallas Rebels, 4 And 2

By The Associated Press

The Dallas Rebels failed to improve their Texas baseball league standing last night, but you can't say they didn't go down fighting.

The Oklahoma City Indians plastered a 4-3 defeat on the Rebels, but only after several players on the two teams had exchanged more or less lusty blows.

The three other scheduled games—Houston at San Antonio, Fort Worth at Tulsa and Shreveport at Beaumont—were postponed because of dampness and cold.

Today's schedule: Fort Worth at Dallas (night), Houston at Shreveport (night), Tulsa at Oklahoma City (night), San Antonio at Beaumont (day).

### Rice Milling Tax Offered

AUSTIN, April 24 (AP)—Approved by committee, a house bill taxing milled rice two cents per hundred pounds today was advanced to the calendar of the Texas senate for future debate.

The senate agriculture committee last night approved the bill, estimated to raise \$225,000 annually to increase consumption of rice by advertising and research into new uses.

Despite insistence of Rep. Jimmy Phillips of Angleton, chief legislative opponent of the measure, the committee refused to accept an amendment requiring a referendum among rice growers as a prerequisite to placing the bill in effect.

An amendment providing that should the tax be held unconstitutional the revenue would be refunded to the persons from whom it was collected was approved.

Phillips declared the proposal was substantially the same as an original measure which was held to be unconstitutional by the attorney general's department. The bill considered was a substitute, drafted and passed by the house

after the ruling.

Phillips said the proposal was sponsored by the American Rice Growers association "because they can't get more than 25 per cent of the farmers to join and they want to bring them in by legislation."

**Quartet Of Texas Tracksters Gunning For Spring Honors**

DES MOINES, Ia., April 24 (AP)—A quartet of untanned Texas lads—Morris Barefield, Fred Ramadell, Bill Seay, and Mac Umattid—gunning for a comeback in the sprint medley, feature attraction of the first day program at the thirty-second annual Drake Relays tomorrow.

The University of Texas speedsters two weeks ago rambled through the event in 3:24, world record-breaking time, at their own relays. A week later, however, at the Kansas games, where the Longhorns ran into cold weather, Texas was beaten by Indiana's hustling Hoosiers in a 3:25.2 race.

Saturday's program will include a special mile and a half race involving Greg Rice, Ralph Schwartzkopf of Michigan, Forrest Eflaw of Oklahoma A. and M., and John Munsel of Missouri.

A crowd thronged the streets outside packed Manhattan Center as Lindbergh made his anti-war plea, and for a brief time there were scenes of disorder as police, pickets and bystanders clashed.

One man was arrested and later sentenced to one day in jail for seizing the bridle of a mounted patrolman's horse during a kicking and slugging melee as pickets with anti-Lindbergh placards were dispersed.

Lindbergh declared he did not blame England for its hope of an A. E. F.

"But we now know," he added, "that she declared a war under circumstances which led to the defeat of every nation that sided with her, from Poland to Greece."

On the subject of any United States entry into the war, he said this country "is not prepared to wage war in Europe successfully at this time."

### Beaten By Breaks Last Year, Schoolboy Miler Ready Again

DALLAS, April 24 (AP)—In the blinding, biting dust of Memorial Stadium track at Austin on a stifling day in May, 1940, was born Texas' greatest schoolboy miler runner.

Little Jerry Thompson lay on the cinder path, dazed momentarily by a collision at the first turn in the interscholastic league state mile final.

But out of the dust there arose a youngster of courage and stamina—an amastig boy with pipestem legs but a heart of steel.

When Jerry started in pursuit he was in last place, 20 yards behind the bulky field. But at every turn he passed a runner or two.

One, two, three, four—and five, they finished, Thompson just a few yards short of fourth place. He had failed but only because of the most unfortunate of circumstances and the crowd gave him a hand as he slumped dejectedly from the track.

Seven days a week since then this 117-pound youngster has whirled around the track in punishing half mile, mile and mile and a half runs. And now he's ready.

Last week Thompson galloped the fastest mile ever turned in by a boy racing under the interscholastic league banner. It was 3:29.8, almost two seconds better than the state record.

"I hope to break the record at Austin next week," he said, "but the main thing is to win that mile. Last year I got hit in the head by a discus before the meet started, then I was knocked down at the first turn in the mile. My head cleared up with the first lap but when I started down the stretch everything got pretty dark."

Thompson not only is the premier miler of the year thus far in Texas but he also has the fastest time in the half-mile, a race he has run in 2 minutes. And he can clip off the quarter-mile in 51 seconds.

He'll graduate in June. Thus far he has but one invite to college—that from Southern Methodist university—but chances are that after he runs the mile at Austin next week there will be a flock of offers.

Despite insistence of Rep. Jimmy Phillips of Angleton, chief legislative opponent of the measure, the committee refused to accept an amendment requiring a referendum among rice growers as a prerequisite to placing the bill in effect.

An amendment providing that should the tax be held unconstitutional the revenue would be refunded to the persons from whom it was collected was approved.

ALBANY, N. Y., (AP)—The oldest building in Albany has been demolished to make way for a parking lot. The structure, built of bricks brought from Holland, was constructed about 1700, historians believe.

First real estate records show it was a going concern in 1793 and Hugh M. Flick, state superintendent of public records, says it may have been built as early as 1632.

Early records show that the structure was purchased from the descendants of early patroons who settled the Hudson river valley.

# O'Daniel Asked To Reveal His Last Presidential Vote

## Senatorial Campaign Is Warming Up

By The Associated Press

The senatorial campaign warmed up today with the request by one candidate upon Governor W. Lee O'Daniel to get in the race "and tell the people of Texas how he voted last year in the presidential race."

The demand was made in a statement issued from Houston by Virgil E. Arnold, one of the less widely-known political personages in the race in which two congressmen, the attorney general, a minister and several others are already campaigning. Drumming up a crowd for the opening speech of Gerald Mann at Sulphur Springs were caravans of cars, touring North and East Texas.

O'Daniel has not yet said whether he would be a candidate, but political observers took his appointment of Andrew Jackson Houston as interim senator as a good sign that he would enter the race.

Rep. Martin Dies spoke over the radio from Beaumont Wednesday night, again asking enforcement at the polls of his campaign against un-Americanism. He was

scheduled to speak at 8 p. m. tonight at Brenham and tomorrow at Cameron.

Rep. Lyndon Johnson planned to fly to Texas today from Washington, where Tuesday he announced his candidacy from the White House steps after a call on President Roosevelt. Hays county citizens headed by County Judge C. M. Decker and Mayor Earl McGee of San Marcos asked him to open his campaign there.

Johnson's aides in Washington said he would announce plans for his opening from Austin.

## Italian Casualties In Greece 6,000

ROME, April 24 (AP)—The Italian high command reported today that fascist forces lost 6,000 dead and wounded, including 400 officers, in the final offensive against the Greeks on the Albanian front.

Stefani, official Italian news agency, estimated that 300,000 Italians and 400,000 Greeks fought along a 150-mile front in the 10-day "Battle of Epirus" which began Easter Sunday.

The agency said that before the Greek left wing capitulated Italian troops had penetrated as much as 90 miles into Greece.

(The Greek high command declared that the Italians had not set foot on Greek soil up to the time of the capitulation, which they attributed to collapse of the Yugoslav army and the subsequent exposure of their northern flank to the Germans.)

In an order of the day Premier Mussolini expressed Italy's pride in her troops whose "victory" over the Greeks, he asserted, "illumines Italian flags with new glory."

## The War Today -- British Forces Sent Into Greece Principally For Political Reasons

By DEWITT MACKENZIE

Even as the final throes of defeat grip the allies in the battle of Greece the London press is raising the call for an accounting of Britain's whole Balkan adventure, and this is being echoed in Australia, whose sons have played such a heroic and bloody part in holding the right wing of the allied line.

Certainly there are some points that can stand a bit of clearing up. One of the chief questions which appears to have been puzzling America was rather well summed up by a highly placed newspaperman who flung at me with some acerbity:

"What I want to know is why the deuce the British got mixed up in this Balkan mess when they must have known from the start that the chances were they would be smashed."

Well, that's a fair query, so let's see what we can make of it. First off, strange though it seems, the British participation has been largely for political rather than military reasons. It's true that the odds were greatly against the allies being able to stop the Hitlerite war-machine, although there was always the chance that luck might give them a break, and permit the opening up of a new front against the Germans.

However, the fundamental reason for Britain's action lay in the fact that she had given her bond to aid Greece against aggression.

The Greeks didn't need any help to give the fascists a beating, but when the nazis started to pour a million men down through the mountain passes the Hellenes were ready for the British to fulfill their obligation.

Some Credits

Now if there are cynical readers who believed that the English would keep their word only if it served their own purpose, there is this to consider—What would world opinion have said of Britons if they had run out on their little ally? The answer is that it might have cost John Bull every friend he had.

The credit side of the allied balance sheet does look slim, but if you take the trouble to examine it more closely you will find some surprising items which are favorable. For instance:

Herr Hitler has been forced against his will to fight for something which he had expected to get for nothing. Without the Yugoslav, Greek and British resistance he would have been able to achieve his conquest of these Balkan states by telephone—as he is now trying to do with Turkey and Spain.

The Balkan upheaval has interrupted the smooth run of his assault on the British Isles—the crucial operation of the whole war.

The nazis have lost heavily in casualties and in equipment.

What is perhaps more important, the Hitlerites have burned up rivers of precious gasoline, and used lubricating oil which they couldn't afford.

In this connection I hear from an excellent source that even before the battle of the Balkans started, the Germans were short 55 percent of requirements in gasoline for their airplanes and ground machines, and more than that in the all important lubricating oil which is the life-blood of industry. And again I heard what I have heard oil experts say before—that Hitler is in desperate need of oil, and if he can't find it somewhere quickly he may lose the war on that score alone.

Twenty thousand names of prospecting gold miners were turned in to the census bureau when all assays were requested to submit names of gold miners who had turned in "pay dirt" in 1939. The census bureau, investigating these for the census of the gold mining industry, found that many of them averaged less than \$10 per week from their discoveries.

## Knott HD Club Studies Rugs And Paper

KNOTT, April 24 (Sp)—Members of the Knott home demonstration club Tuesday studied the background for rugs and paper in a program presented in the home of Mrs. J. W. Phillips, Jr.

Lora Farnsworth, home demonstration agent, directed the program. In a business session, reports from council and the association meeting were given; Mrs. S. T. Johnson was named to investigate possibility of arranging a concert at the gymnasium; and Mrs. Paul Adams was elected club reporter.

The rooms were brightened by vases of wild flowers and refreshments were served to a visitor, Mrs. Lee Castle, Brown, three new members, Mrs. S. T. ## Figure In Murder Ring On Trial For Burglary

TULSA, Okla., April 23 (AP)—Ernest Burkhart, a central figure in the Osage Indian "reign of terror" murders which shocked the nation in the early '20s, went on trial for burglary today, with his life's freedom at stake.

The Osage county rancher was given a life sentence for the dynamite slaying of W. A. Smith, one of the victims of a murder ring which the government charged had killed a dozen oil-rich Indians in an effort to gain control of their fortunes.

After pleading guilty, Burkhart assisted the government in convicting W. K. Hale, "King of the Osages," as the master mind of the murder plots. For this, a parole was recommended by federal attorneys but was not granted until 1937.

Federal authorities pointed out today that under the terms of Burkhart's parole he must complete his life sentence if he is convicted of any crime.

Burkhart is charged with stealing \$7,000 worth of silver and jewelry from the garage of Mrs. Lillie Maggie Morrell Burkhart, Osage Indian woman.

## 13 Killed, 9 Hurt In Azores Blast

HORTA, The Azores, April 24 (AP)—Twelve soldiers and a civilian were killed and nine soldiers were injured by a munitions explosion which destroyed a barracks Tuesday at this mid-Atlantic Portuguese stopping place for trans-Atlantic air lines.

The blast occurred only 10 minutes after most of the garrison had departed for morning drill. Considerable military equipment was destroyed, a church entrance was demolished and windows were shattered over a wide area.

Military authorities suggested the explosion might have resulted from spontaneous combustion in black powder used in saluting shells.

The Pan American Airways base was undamaged.

## DESTROYER FIRED

BERLIN, April 24 (AP)—German warplanes set a British destroyer afire during night raids on England in which Plymouth and the Portsmouth naval base were again heavily attacked, the German high command announced today.

## SUPPLIES LOST

LONDON, April 24 (AP)—The United States embassy announced today that a large shipment of supplies from America, including two trucks for military attaches, had been lost through war action in the Atlantic.

The three states reporting largest annual consumption of sugar in foot manufactures, census records show, are New York, 737,437,222 pounds; Illinois, 607,361,378 pounds; and Pennsylvania, 488,170,004 pounds.

Police Surpass Movie Cops VIRALIA, Cal.—This city claims the two most dexterous policemen still outside the movie thrillers. They chased two boys in a stolen auto. The boys leaped from the machine while it was going at full speed. One officer caught one of the boys as he was flying through the air while the other leaped into the speeding car and stopped it before it struck a pole for which it was heading.

Cubs' Holdout Still Dickering

TUCSON, Ariz., April 24 (AP) — Hank Leiber, sole remaining major league holdout, took a plane (American Airlines) for Chicago today to talk things over with Jim Gallagher, Cubs' general manager, but the ace outfielder's demeanor was anything but indicative that a deal was in the air. The husky blond, a National league fixture since 1935, said he was making the trip at Gallagher's request and at his own expense. Leiber has been a perennial holdout since he went up from Nashville in the Southern association after hitting .427 during the 1934 season. He played with the Giants in 1936, 1939, 1937 and 1938, and was traded with several other players to the Cubs in 1939. He hits around .300 consistently. Last year he batted .302 in 117 games, pulling out 17 homers. More than three and one-half million dozen pairs of work gloves is the annual U. S. factory output, according to the census.

Typewriters Scarce in Britain

LONDON.—Second-hand typewriters are selling at prices as high as new models did in pre-war days. Because of air raid damage, stoppage of imports from America and a big demand from the government, typewriters which would have long ago been relegated to the scrap heap are being brought and made to work.

### Postmaster Asks Rural Mail Box Clean Up Effort

Postmaster Nat Shick is seeking the cooperation of rural residents in mailbox improvement week, which officially begins May 5.

The postmaster is asking that all rural box holders cooperate with the postoffice department in a campaign to make all mail boxes more serviceable and attractive.

"Mail is brought right to your door, although it be many miles away from the postoffice," the postmaster pointed out, "so why not cooperate with the postoffice department by making your boxes slightly?"

Specially constructed metal boxes, firmly attached to good posts are the first requirement. Care should be taken that the posts be just the right length to place the box right at the level of the mail carrier's automobile window. Painting the box white

is not a bad idea, although it is not necessary, and painting the name plainly on the box is important.

The postoffice department is asking this assistance purely on a voluntary basis. It has no funds for the work, but leaves the matter up to individual box holders.

### Heavier Meat Animals Gain In Popularity

STILLWATER, Okla., April 24 (AP)—A swing back from the current popular baby beef to the heavier meat animal of a decade or more ago is forecast as a result of the war.

Dr. Oliver S. Williams, vice dean of agriculture of Oklahoma A. and M. college, made the prediction today after studying possible effects of the American military training program and the German counter blockade of Britain on American cattle production methods. The result may be a direct about-face in feeding and marketing habits.

Mess sergeants favor heavy cattle, Dr. Williams said. They find the heavy cuts of meat are more economically handled in army kitchens and that beef produced from older animals is less subject to spoiling.

The switch will not entail any change in cattle types. Breeders will continue to produce high quality animals of medium size but feeds simply will hold their steers for a longer period before marketing them.

The U. S. meat industry annually consumes more than 61 million bushels of barley in malt manufacture, according to census reports.

### Grand Opera Receipts Up

DALLAS, April 24 (AP)—If gross receipts are any evidence, enthusiasm for grand opera here is greater than in 1939 and 1940.

Arthur J. Kramer, president of the Dallas Grand Opera association, said yesterday that sponsors of the three-day Metropolitan Opera company appearance here already have banked \$74,000, exceeding advance sales of the two previous years.

The brief Metropolitan season here will open tonight with presentation of Verdi's *Il Trovatore* at Fair Park auditorium. Arthur Carron, British tenor, will be featured as Manrico; Richard Donnell, American baritone, as Count Di Luna; Stella Roman, Rumanian soprano, as Leonora, and Bruna Castagna, Italian contralto, as Azucena. Ettore Panizza will conduct.

Other performances will consist of the following:

Friday, 8 p. m.—Mozart's *Le Nozze di Figaro* with Edo Piana, John Brownlee, Salvatore Baccaloni, Elizabeth Rethberg, Jarmla Novota and Bidu Sayon.

Saturday, 2 p. m.—Donizetti's *La Fille du Regiment* with Lilly Pons, Raoul Jobin and Baccaloni.

Saturday, 8 p. m.—Verdi's *Rigoletto* with Lawrence Tibbett, Charles Kullman, Josephine Tumina, Bruna Castagna and Norman Gordon.

### POPE PIUS ASKS PRAYERS FOR PEACE

VATICAN CITY, April 24 (AP)—Pope Pius XII asked Catholics throughout the world today to pray for peace—the third such appeal of his pontificate.

The appeal, made in the form of a letter addressed to Luigi Cardinal Maglione, papal secretary of state, asked Catholics to devote the month of May to peace prayers.

### FOR HOSPITALS

AUSTIN, April 24 (AP)—A bill appropriating \$600,000 for distribution to counties operating separate tuberculosis hospitals today was under scrutiny of a house sub-committee.

There is one drug store to each 2,274 persons, according to the census.

### Task Of Getting Surplus Foods For England To Rest On Texan

By L. T. Easley

WASHINGTON, April 24 (AP)—Embattled England looks to America for food and clothing as well as armaments, and on the shoulders of a Texan will rest the responsibility of seeing that our surplus farm goods are rounded up for delivery.

He is Milo Perkins, 41-year-old Houston business man who was invited here six years ago with the understanding his position as assistant to the secretary of agriculture was to be more or less temporary, and who stayed to rise to the ranks of the administration's inner council.

As head of the surplus market-

ing administration, Perkins is scheduled to be assigned the task of purchasing agricultural products for Great Britain under the lease-lend program. His will be the duty of seeing that farm products are bought up for England in quantities that, while aiding that nation, will not cause a shortage and prohibitive prices to American consumers.

Born January 28, 1900 in Milwaukee, Perkins attended public schools in that city, married and moved to Houston as salesman for a bag company. He was christened Milo Randolph Perkins, but seldom used the middle name.

In 1923 he became sales man-

ager for the bag concern and three years later formed the King-Perkins Bag company. There he remained until coming here. During the early years of the depression he occasionally wrote the then secretary of agriculture, vice president Wallace, whom he did not know, offering constructive suggestions relating to the farm problem.

The upshot of the correspondence was that in 1935 Wallace asked him to come to Washington as one of his assistants in the agriculture department. Two years later he became assistant administrator of the farm security administration, in 1939 president of the federal surplus commodities corporation, and subsequently head of the surplus marketing administration.

He is the father of the food stamp plan, the most popular method yet put into effect by the administration for distributing foods to needy persons. It was drafted after lengthy conferences with growers, retailers, wholesalers and bankers to avoid procedure that might work a hardship on any one group.

Under the food stamp plan, certified needy persons buy \$1 in orange stamps and receive 50 cents in blue stamps free. The blue stamps are used only for purchasing surplus farm products. Merchants may redeem the stamps at their face value.

Surplus farm goods have been spotted throughout the country, by area and seasons when emergencies arise, and gathered up for distribution through the food stamp program. Similarly, surpluses are expected to be removed from gutted markets and shipped to England.

The party was gay, and the hour late. Acid stomach and headache seemed my fate. But I chucked an ADLA before going to bed. And got up next day with a smile instead.

ADLA'S bismuth and carbonates are fine for one who celebrates.

THAT'S A LIST OF GIRLS' NAMES, DEAR—WANT TO LOOK IT OVER?

I'M GOING TO LET OUR READERS PICK A NAME FOR THE BABY

Blondie says:

## "Name Our Baby And Win \$100"

It's Easy... it's Fun... YOU can win

Since Blondie's new baby laughter belongs not only to the Bumsteads but to all the country, you are asked to help in naming her.

What shall it be? What name do you suggest? What name is suitable for the little darling and why?

It's all very simple. Just read the rules, then send in your suggestion.

Yours may be the winning name and \$100 will be your reward if your selection is chosen by Chic Young, Beatrice Fairfax, Inez Robb and Dr. A. R. Dafeo, the four judges.

- HERE ARE THE SIMPLE RULES. READ THEM CAREFULLY, PLEASE**
- (1)—Print or write plainly on a piece of paper your choice of a name for Blondie's baby daughter and complete this sentence, "I think this name is suitable for the baby because..." The sentence should contain not more than 25 words.
  - (2)—Do not enter more than one name and one sentence in this contest.
  - (3)—To be eligible entries must be mailed before midnight, Wednesday, April 30, 1941, to P. O. Box 6, Grand Central Annex, New York City.
  - (4)—Neatness, suitability and originality of thought and expression, as well as the name, will be the determining factors in awarding the prize of \$100.
  - (5)—Any resident of the United States or Canada may compete, with the exception of employees of this paper or members of their families.
  - (6)—The prize will be awarded as soon after April 30th as the judging has been finished. Duplicate prizes will be awarded in case of ties. The decision of the judges is final. The judges are Chic Young, Beatrice Fairfax, Inez Robb and Dr. A. R. Dafeo.

I hear it is charged against me that I am a "war-monger." What constitutes war-mongering?
