Old Pete Is 'Horsey', Say Mule 'Experts'

Old "Pete," the model for Muleshoe's memorial to a mule, is "horsey."

So claim several persons who have written to Tolbert's Texas, a Dallas News columnist. Seems they saw a portrait of Pete in various and sundry newspapers (many newspapers have run Pete's profile) and they think he's too "refined," so to speak.

As a matter of fact, Tolbert himself is inclined to think Pete is too aesthetically looking. "A number of letter writers," says Tolbert, "seem to agree with this department that Old Pete, a horsey - looking Muleshoe mule with rather small ears, isn't the right model for the proposed statue to the mule in the city of Muleshoe."

One of his letters read: "Tell the people of Muleshoe that I'll furnish them with a picture of a REAL mule for their statue after I get permission from David Key, owner of Headlight

Nell," adding, "anyone who knows a mule knows about Headlight Nell." That letter came from A. V. McKee, Dallas.

Another Dallasite who calls himself a "Mule Consultant," wrote to Tolbert like this: "I agree with Uncle Wren Smith of Zula Stockade that Old Pete ain't the best - looking mule I ever saw. Old Pete has got to be a snide (a handsome but worthless mule used for trading purposes) because he ain't a 'tone mule'."

"Surely the folks of Muleshoe will want to use the best looking mule, a mule that looks like a mule for that statue." Editor's note: Old Pete himself was not available for comment, but if he had been he probably would have been completely unshaken by the remarks of the Dallas folk, taking the criticism with the stoicism typical of his breed, horse-faced or mule - faced.

Yule Lights? Here's Where To See Them

Muleshoe homes are decked out gayly for Christmas and all of them were entered in the annual Chamber of Commerce lighting contest, judged last night.

The displays range from decorated doorways to elaborate Christmas scenes. The Chamber listed these homes as among "must see" houses in Muleshoe.

J. Lewis Morris, 429 E. Dallas, "Birth of Christ," an exterior scene.

Truman Lindsey, 333 Ave. J, exterior of house.

J. R. Ottwell, 918 Hickory east of the Catholic Church, rooftop, fence, trees and yard decorated.

W. D. Nicewarner, 1829 W. Ash, "Santa's Return to the Star of the East."

John Smith, 1810 W. Ave. C, front of the house.

Olan Burrows, 303 Cedar, a decorated doorway.

Vance Wagon, W. 6th at Ave. J, elves on fence, decorated yard, light figures, doorway and windows.

Curtis Walker, 1025 W. Ave. B, window and doorway.

Matilda Slemmons, 310 W. 8 front of house.

Frankie Black, 1625 W. Ave. B, window and doorway.

Howard Cox, 310 W. 10, doorway and yard.

Bicycle Give-Away List Stands at 61

Sixty - one Muleshoe area boys and girls between the ages of 4 and 18, are going to be mighty happy, come Christmas.

That many children will receive shiny, new bicycles, compliments of Muleshoe merchant.

Roy Davis, manager of the Muleshoe Chamber of Commerce, said the number of bicycles to be given away at 1 p. m. Dec. 24 has reached the 61 mark and registration for the drawings is booming. "Children and adults are registering as never before," the manager

said, "indicating a great amount of interest in this program which is a strictly Muleshoe project."

Under the program, any child 4 through 18 may register, or any adult may register for him. However, adults cannot win in the contests, and children must be present in order to win even if their names are drawn.

The drawing itself Dec. 24 will take place on the west side of the courthouse. Registration has been under way since Nov. 28. The bicycles, incidentally, can be seen at all businesses participating in the program. Davis explained.

Stores To Start Yule Schedule; Open Evenings

Muleshoe stores will start staying open evenings next Thursday, the Chamber of Commerce announced Saturday, and except for Friday evenings, they will remain open evenings until Christmas Eve. Majority of stores in Muleshoe will follow this schedule.

The evening openings will permit out - of - town shoppers as well as Muleshoe people, to come to town to do their Yule shopping after the workday ends, Roy Davis, chamber manager, explained.

"We know that the stores have gone all out to provide area shoppers with the most complete Christmas line ever seen in Muleshoe," he added. "And prices, too, are as good as can be found anywhere."

First National Pays Dividend

M. D. Gunstream, president of the First National Bank of Muleshoe, announced yesterday that the board of directors had approved a 15 percent dividend to stock holders and a two-months' bonus to all bank employees.

The First National Bank first opened for business in Muleshoe in August, 1955, with a total capital of \$250,000. Their total capital accounts and resources now exceed \$750,000.

HELPING HANDS — When Joe Embry was injured Sunday in a cotton boll puller, his neighbors pitched in and did his harvesting for him. This shows only three of the cotton boll pullers in action on Embry's farm northeast of Muleshoe. Practically all his neighbors took part in the whirlwind harvesting operation.

British Warm, Cordial, Muleshoe Man Says

English people, like the American service men and treat them very well indeed." That's the opinion of Don Cihak, Muleshoe newcomer who has opened his law office. He's associated with Jack Young.

Cihak spoke to the Muleshoe Lions Club this past week, describing his two years' experience in England as an Air Force officer.

"Part of their friendliness, of course, is due to the fact that the American military bases in England, just as in the United States, mean much to the financial stability of the community. But part of it, too, is a natural warm feeling for the people of America. We found them, on the whole, extremely friendly."

While the British caste system is less in evidence than 50 years ago, "there's still a class system," he said, "and the key to a man's position is his accent. If he talks with a heavy accent, usually he is a man of low class, but if his speech is free of such accents, he usually belongs to the upper class. In fact the high class Englishman uses practically the same language and pronunciations that we do. At the bottom of the scale, of course, is the cockney, the low - class Londoner who has a lingo all his own which he uses as a sort of code communication. Since that type is frequently in bad with the law, he uses his own lingo to communicate with others in the same field."

"The term Cockney, incidentally, comes from big Ben. A Cockney is a person who was born in an area close enough to hear Big Ben."

Gasoline, in England, Cihak explained, costs 70 cents a gallon which accounts for the vast number of small automobiles. Many English roads are "merely paved horse trails, although the nation also has some very fine super highways."

School, he said, starts for a youngster when he is 4 years old. At age 11 he takes what is known as the "Eleven - Plus" test to determine whether he may be permitted to go on to college. If his tests at 11 prove he is college calibre, then he goes to college, but if not, then he must enter a trade school.

Cihak said the 11 - Plus plan has been under bitter attack, and the new Labor Government against this system, claiming it is impossible for the capacities of a child to be determined by the time he is only 11 years

Tri-Pacer Landed Safely By Locker

A Tri - Pacer belonging to a Dimmitt man, Roy Lilley, was landed safely Thursday afternoon in a freshly plowed field eight miles west and two miles north of Abernathy, by his instructor, Morgan Locker on a check ride following take - off from Lubbock airport.

Lilley and Locker had left Muleshoe Flying Service earlier in the day and had flown to Lubbock on the first leg of the check ride. On take - off from Lubbock, Lilley was flying portage and dead reckoning when the engine sounded like "14 hammers at work". Locker checked the oil pressure and all instruments on the panel. All in order, he knew the failure was not pilot error and still in contact with Lubbock tower, he radioed back that they were going down.

Reducing altitude, the pair picked a field to set the craft down, and Lubbock Civil Air Patrol had a twin - engine craft circling overhead by the time the wheels hit the ground.

Knowing the Tri - Pacer characteristics to nose over on the bicycle gear Locker held the

12-Week Peak Hits 2133 For New High

Muleshoe schools had a peak enrollment of 2133 during the first 12 weeks of the current year. Superintendent Neal Dillman reported to the school board at their meeting this week.

On a comparative basis, the average daily attendance for the first 12 weeks of last year's school term was 1975.49, while the average this year for the same period was 2009.91.

Dillman pointed out that average attendance has been unusually high, too, 97 percent for the first 12 weeks. School men said lateness of autumn crops may have been a contributing factor to the good attendance record.

At the peak this year senior high had 598 pupils; Junior high had 355 and Mary DeShazo, 542. Richland Hills, the biggest school in town so far as attendance is concerned, had 635. Hilltop had a peak enrollment during the first 12 weeks of 93 pupils. This brought the total for the entire system to 2133.

The board also approved the 1965 football schedule for the Mules and set admission prices. Season reserved seats will sell for \$10. Adults will be charged \$1.50 for general admission, college students 75 cents and students 50 cents, the board decided. (See schedule this page.)

The board discussed the elaborate building program now under way. Latest step in the program is the removal of the old vocational agriculture building; razing of that building is now under way.

The board also discussed the delinquent school tax roll at considerable length but took no action on the matter. They will resume their discussion at the (See ENROLLMENT Page 7)

The publisher of the Castro County newspaper said "Well that sounds like Lilley. You can't scare him; not really."

Santa To Open Workshop Again Next Saturday

Santa Claus will be in Muleshoe again next Saturday, but it will be next to the last time area boys and girls will get a chance to visit the old fellow at his workshop and make their wishes known.

It's been a big December so far for the old gentleman. He shook the hands of 300 children the first day his shop on 2nd Street was open, and there are still many who will want to chat with him between now and Dec. 24 when he makes his annual ride.

Santa will be here next Saturday, and then he'll return Dec. 23 for his final visit with the children. After that he'll be too busy for any more visits with kids.

The workshop will be open from 2 until 5 p. m. both next Saturday and the Saturday following.

Coffee Given In Observance of Christmas "Birthday Of A King" Narrated as Topic

A very lovely coffee, to celebrate Christmas was given by the Woman's Society of the First Methodist Church, last Tuesday morning at the Methodist Church. Members of the society and special guest enjoyed coffee and an assortment of nut breads in the Intermediate classroom. Mrs. J. Frank Peery registered guests and pinned a Christmas tag on each one with her name printed on it. The gaily decorated table was covered with a green linen cloth, with appointments in silver. Plate favors were miniature Santa mugs filled with candy. A money tree was filled with donations which were given as a Christmas gift to the Methodist Spanish Mission.

The group adjourned to the Youth Chapel for a beautiful Christmas program. "The Birthday of a King" was narrated by Mrs. Robert Hooten with background music from the "Messiah". The scriptures were taken from Isaiah 9: 2 - 7, Luke 2: 1

YES, IT'S CHRISTMAS — Imagination runs rampant during the holiday season and Mrs. J. Lewis Morris finds more uses than reading for Reader's Digest and Better Home and Garden. With the continuous folding of the pages of these popular books, spray painting and the adding of styrofoam heads creates beautiful Christmas angels. Candles of many heights are made with foil covered rolls from the center of paper towels, foil and other rolled items. She is pictured here with her decorations at the Production Credit office where she works.

Don't Pamper Children Because of Handicaps

WASHINGTON, D. C. — Treat the handicapped child as an equal with his classmates, see that he studies, and avoid coddling him. That's the advice of specialists and regular teachers, Dorothy Waleski writes in the December issue of the "NEA Journal," publication of the National Education Association. The teacher may, of course, adjust learning goals to fit the ability of the child, but once established, the goals must be maintained, the author insists. Some examples that illustrate her point: — Sue, a crippled sixth grader, is of average intelligence, but she is an above-average student and becomes upset only when treated differently from her non-handicapped classmates. — Sam is different. He has an ailment that causes poor balance and the teacher often excuses him from work because he might fall. But other students resent it because Sam sometimes overplays his inability. But when Sam's teacher decided on firmness, it paid off.

Marriage Vows Read In Church

Marriage vows were pledged by Hattie Joe Dawson and Jackie T. Moser at the Longview Baptist Church recently. Rev. Troy Walker read the double ring service before an altar decorated in red and white with baskets of Chrysanthemums forming a bank on either side. Mr. and Mrs. J. U. Dawson are parents of the bride and Mr. and Mrs. W. B. Moser are parents of the bridegroom. Given in marriage by her father, the bride wore a formal gown of satin and lace. The bodice was fashioned with a scalloped neckline, outlined with lace appliques and feature brief sleeves. A chapel train was attached to the waistline of the full skirt over laid with lace. Her waistlength veil was of silk illusion and was caught to a crown of seed pearls. She carried a bouquet of white feathered carnations centered with a white orchid.

Traditional wedding selections were presented by Alexa McCormack at the piano and soloist Jean Killingsworth singing "Because" and "I Love You Truly". After a wedding trip to Ruidoso, N. M., the couple are making their home on their farm south of Muleshoe. Out-of-town guests attending the wedding and reception were Mr. and Mrs. J. B. Dawson, Winnie, Texas; Mr. and Mrs. Herman Taylor, Canyon; Mr. and Mrs. Cleo McCormack, Clovis; Mr. and Mrs. Don MacKenzie, Debbie and Shery, Albuquerque; Mr. and Mrs. J. C. Tucker, Clovis, Mr. and Mrs. Leon Harvey, Kathy and Cinda, Clovis.

 don't believe they gained any new seats in the House of Commons."

The government winning in an election takes over immediately, he explained, but may lose its power at any time, in which case a new government is formed. Elections must be held every five years.

Housing, he said, has been a problem, and heat is still a major drawback, especially in the old homes many of which are heated with small coal-burning fireplaces in every room.

"The British are making progress in their housing program, however," he said, "and central heat is now coming into its own. England is damp and cool most of the time."

He said the British are avid sports fans, and attendance at

all sporting events is large. Cricket, hockey, Rugby and racing especially popular.

He said efforts to make the British conscious of the needs for bomb shelters has been ineffective. "Their reasoning is that if bombs should strike the centers, particularly, all would be destroyed any way," he explained. "For instance, London is a city of 11 million, and it would be impossible to provide bomb shelters for that many people anyway. Therefore the British are inclined to take a 'so what' attitude toward shelters."

Chihak said that he and his family enjoyed their two years in England, and that they liked the British people. "We found that in general they were cordial and warm and are fond of Americans."

Seaman Locke Home On Leave

Seaman Ronnie Locke, son of Mr. and Mrs. B. C. Locke, arrived here Wednesday night on leave. Seaman Locke is stationed at Davisville, R. I. and is assigned to the U. S. S. Investigator-AGR - 9.

The Muleshoe serviceman says the country around his base

is beautiful with many interesting sights. The people of the East Coast are much different than Texans, he said.

Styles and customs are also something someone needs time to adjust to: for instance, the men and boys wear Beatle shoes, which somehow resembles the old type shoes worn in frontier days by women. There is also a lot of the "Rolling Stone" type thing going there in dress and characteristics.

Sea voyages on the picket ship have taken Locke near Cuba, Bermuda, along the Florida Coast and other places of interest.

The U. S. S. Investigator usually stays at sea about 30 days on each trip out on Radar Picket Duty.

While at sea, when the ship runs onto large schools of fish, the sailors get their gear, kept near at hand and start fishing. The "take" is cooked and "real good" he said.

"One of the prettiest sights we have seen at sea was a large school of Porpus, estimated to be around 500 in number. These playful creatures put on quite a show for as far as we could see."

"Another thing we saw 450 miles off shore was a large sailboat competing in an international sailboat distance race and another about 2 weeks ago perhaps farther out flying the British flag," he said.

Locke is to leave port December 28 on sea duty.

STATE CAPITAL Highlights AND Sidelights

by Vern Sanford
TEXAS PRESS ASSOCIATION

AUSTIN, Tex. — A post-election review of statewide voting totals shows that only 89 percent of the 3,100,000 Texans who were qualified to vote actually made it to the polls on November 3.

Total number of ballots cast — 2,760,788.

Not all of those who went to the polls voted in all the races. In Travis County, for instance, 3,461 of the 67,419 who cast ballots failed to vote in the presidential race. Elsewhere around the state, 52,394 Texans who voted in the governor's race did not vote in the lieutenant governor's race, which placed next on the ballot.

Highest vote getter, in this election and in Texas history was Atty. Gen. Waggoner Carr. He racked up 1,901,038 votes. Gov. John Connally was next with 1,877,137. Lt. Gov. Preston Smith was third, with 1,823,747.

LAWMAKERS TAKE OATH — All 42 freshmen in the 156-member House of Representatives already have taken the oath that makes them state officials. They started drawing their \$4,800 a year salary the day of their oath-taking.

Thirty-three took the oath jointly in the special swearing-in ceremony. Lt. Gov. Preston Smith participated, along with House Speaker Byron Tunnell and Secretary of State Crawford Martin.

Freshmen legislators who did not come to the Capitol were sworn in at home by local judges. Many did so for sentimental reasons.

TRAIN HEARING SET — Right after the order was issued allowing the Texas and Pacific Railroad to discontinue two passenger trains that ran between Fort Worth and El Paso, the Gulf, Colorado and Santa Fe Railway Company filed a request with the Railroad Commission to discontinue two trains in West Texas.

Company said it wants to stop service of passenger trains Nos. 77 and 78 between Brownwood and San Angelo because Railway Post Office service was halted on them September 26. Company said governments fail to renew the postal contract will increase the railroad's already substantial net annual "load" of pocket d'cier" by more than 75 per cent.

Hearing on the application will be held in the Tom Green County Courthouse on January 13.

ATTORNEY GENERAL RULES — Attorney General Carr branded unconstitutional a section of the tax law providing for cigarette tax payments to the State Treasurer.

He noted that the law calls for the treasurer to ship cigarette

stamps, or a set meter for use in stamping cigarettes, without receiving payment in advance.

Carr declared it improper lending of state credit. Thousands of dollars are lost under present practices, he said.

The Attorney General also ruled that a county commissioner's court does not have authority to prescribe office hours for a county official holding a constitutionally-created post.

Opinion stated that a county official may close his office on Saturdays without consent of the commissioners court, because no provision in the statutes or constitution requires county officers to be open to the public for any specific time other than for a "reasonable time."

COURTS SPEAK — Texas Supreme Court heard arguments in the Trinity River Authority's suit to force the attorney general to validate its \$48,500,000 interim bond issue for land purchase and construction of the Livingston Reservoir.

On September 8 the City of Houston contracted for 70 per cent of the reservoir water, estimated at 1,200,000,000 gallons a day. Money from city payments would finance bonds.

High court refused to change lower court rulings against the City of Carrollton's suit seeking to regulate Southwest State Telephone Company rates covering optional direct dialing telephone service with Dallas.

RECEIVERSHIP SUIT FILED — J. N. Nutt, State Insurance Commissioner, instituted the first receivership of any significant size in recent months when he initiated proceedings against Great American County Mutual Fire Insurance Co. of Lufkin.

Merle Norman Studio Offers Famous Products

Mr. and Mrs. Raleigh Mason are owners of the Merle Norman Cosmetic Studio, at which, in addition to the famous line, features the new Sculptress Bra.

As many of their customers know, the Merle Norman Cosmetics offer a most wonderful complexion care program, when used to specification, which may be learned in a complimentary demonstration given by Mrs. Mason in the Studio.

Mrs. Mason has completed the necessary training which the Company does demand of all Merle Norman Cosmetics representatives before they are accepted into the Merle Norman family.

Merle Norman Cosmetics are not found in a drug store, department store, grocery store -

thus these cosmetics are not just another line of make-up.

The famous Merle Norman Cosmetics are internationally known, priced and demonstrated.

Merle Norman is the designer of these wonderful cosmetics and is a most sincere person with complexion care and skin problems first in her thoughts.

Knowing the skin is an eliminating organ of the body, she declined to make creams which claims nourishment to the skin; rather she points out the impossibility of such.

We can appreciate this fact when we recognize the intelligence of one who is able to design this marvelous line of cosmetics without taking money for creams that can not aid our complexions.

Merle Norman cosmetics not only offer the complexion care program — it has a beautiful, most natural looking line of make-up. The application is a part of this secret which may be learned upon visiting the studio at 118 East Avenue B. in Muleshoe for a facial demonstration with the latest fashions customers tips that will be of great value.

Merle Norman has a beautiful line of colognes and bath preparations, Mrs. Mason keeps in addition, Merle Norman has a line for men which should not be overlooked. New in the men's line is Cologne for men. There is also a most effective deodorant available in this cosmetic line.

Mr. and Mrs. Mason say they are pleased with the growth of the Merle Norman Cosmetic business since being accepted with the company 11 years ago.

The Sculptress Bra line has been designed with the same great skill and desire to offer the public something of which will be appreciated for its comfort and improvement in personal appearance for women.

Penny Rich is the designer of this garment. After many years of cutting and ruining patterns, Penny's ambition and desire was to create a Bra to meet the needs of every woman and girl. She took her problems to the Cancer Research Foundation and after a few more years, designed this wonderful Sculptress Bra. Sculptress performs miracles not possible with ordinary Bras.

First, with unbelievable comfort, better health, a more glamorous figure and posture improvement, along with unusual Bra sizes which are not found in other bras.

Ordinary Bra sizes are standardized. Unfortunately women are not. Only Sculptress provides a precision engineered Bra with its many adjustments which can offer every figure type a complete and personalized fit.

Twenty-five hundred new classrooms costing approximately \$75,000,000 are needed in student population in Texas, annually to house the increas-

Palmer, in charge of the Lubbock office. The three offices received approximately 50,000 samples daily during the past week. During the week ending Wednesday, December 9th, the Lubbock, Brownfield and Lamesa Offices classed 278,400 samples. The Lubbock Office classed 228,400, the Brownfield Office 32,100 and the Lamesa Office 17,900. Total samples classed at the three offices this season was 822,500, compared with 992,400 by the same date last year.
