er Party

On the evening of last week a group of girls of the town and other lucky ones gladly responded to the invitation to a party given by Miss Mae Upham at her home west of town.

All in good old fashioned style through the snow arriving at the Upham every one showed that entirely ready for the thus evening meal prepared by Mrs. Upham.

Whether was over and all wondering who would be the washers six un invited arrived and gladly washed for the crowd to pay for supper.

The song was spent in merriment, singing popular and doing "stunt" the hour.

At four the "uninvited" guests to the city while the prepared to the space stairs where the slum of the party was supposed to begin, but some, it seems understood and entered the crowd with "stuntable until past midnight."

After a late Sunday breakfast kodaking, and last back to town, with ever saying a more pleasant never been hers.

Present—Misses Mary Billie Anna Butterfield, Bell, Ethel Cash, Rena Moody, Quattlebaum, Mag, Cecil Williams, Jess, Vid, Heasley, The Rogers, Mrs. Eunice Gibed Mrs. S. E. Boyett.

Und, Messers Wayland Floyd, Quattlebaum, Erwin, Dewitt Burks, Chestnut and Emmett Thom.

Joe Skipper Dead

Mr. Skipper died on the 24th, a victim of pneumonia. He was carried to Quail for burial.

His wife and four children mourn her loss. The community extends condolence to the bereaved ones.

In Memory of Miss Pearl Pool

Monday December 30th, a telegram was received from the Base Hospital at Houston, telling of the death of Miss Pearl Pool, also stating that the body was being taken back to her home in Hamilton County for burial.

Miss Pearl visited her sister, Mrs. L. F. Coffey here last summer, and altho she was here only a few weeks, she made many friends who will miss her, for all who knew her loved her for her kindly manner and purity of character. Her beautiful christian influence was felt wherever she went, and the love for her Savior shone out as brightly in her face as in her character. To be with her made one want to look up and strive ever for the goal to which she was so soon to attain.

"No one hears the door that opens,

When they pass beyond recall;

Soft as loosened leaves of roses,

One by one loved ones fall,
 To rise with our Savior as they hear his call."

Miss Pearl volunteered her services in the struggle for righteousness and freedom and stayed with it long enough to see her work rewarded; she was serving her country helping others when she contracted influenza which developed into pneumonia. "Me thinks I see my Savior as he passes, by and taking her hand to lead her away he whispers; well done, compare higher I have a mansion prepared for you in that city not made with hands."

"I cannot say, and I will not say,

That she is dead—she is just away,

With a cheery smile and a wave of the hand,

As she wandered into an unknown land,"

And left us dreaming, how very fair

It needs must be since she lingers there."

Pearl is survived by her mother, father, two sisters and three brothers, one who is in France. This family has our sympathy in this their sad dark hour.

A Friend

The New Time.

At two o'clock A. M., January 1st all of that section of Texas west of Sayre, Okla., and Big Spring, Texas, was changed from Eastern to Mountain time. This will cause us of McLean to set our clocks back one hour in order to have "standard time."

Heretofore, the railroads set the lines of demarcation which determined the different divisions of time within the United States. But Congress passed a law (and set Jan. 1, 1919, the time for it to take effect) specifying the four divisions of time in the U. S. which in most cases changed the lines of demarcation that the railroads had set.

Sunlight determines the time of day, and as the "new time" more evenly divides the sunlight before noon and afternoon, the McLean News hasn't any fault to find with the change.

A party of little girls were entertained on the afternoon of Christmas day, at the D. B. Veatch home. Mrs. Veatch had arranged a Christmas tree, and gifts were exchanged and every body had a jolly good time and this occasion will long be remembered by those present.

The Aeroplane.

From the days of "Darius Green and his Flying Machine" to the present, what a wonderful development in the art of flying there has been! When we see the aeroplanes rising above us, wheeling, circling, obeying every movement of the rudder, we certainly realize that man is learning to dominate the power of the air.

Development and improvement both in the machine itself and the mastery of it is in great measure due to the war. Up to that time the use of the aeroplanes had largely been for experiment and for exhibition. Its possible fields of transportation and of practical use were already efficiently occupied by other agencies.

With the war came the need, and mechanics and aviators responded to it. More improvement was probably made during the four years of war than twenty years of peace would have brought about.

Now that the war is over the development and skill gained will probably turn the aircraft to practical everyday uses.

The aeroplane is already utilized for carrying mail, and its fields will undoubtedly be gradually increased to transportation of all kinds. Despite its presents high cost of construction it requires neither franchise, rail nor trolley, and so it can compete favorably with other transportation agencies.

It is difficult to predict how general its use may become. It may some day become a customary thing for amanked to fly upon the wings of the wind.

Our New Year's Resolution.

Here we are fairly started on 1919. The salutation of "Happy News Year" has just ceased ringing in your ears, and your New Year's resolutions are all made and in order.

Perhaps you have made up your mind to be more kindly this year and you have determined to be economical; maybe on the contrary you have resolved to be more generous; possible more industrious.

These, whatever they may be, are the individual good qualities which you wish to gain. But there is one quality which we shall every one of us need very much through 1919, and that is patience.

We have just come the end of a great war, for which we have all borne deprivations and sacrifices, and naturally we are all very anxious to see the condition of peace restored exactly as they used to be.

But this will be a matter of time. It has taken time and infinite effort to prepare the country for war, and time will not lapse into its old lines in a moment.

It will take time to bring our army home. It will take time for inflated war prices to go down to normal level. There will have to be slow readjustment of our economy, and possibly some other things, and this

cannot be hurried. We must continue to conserve food for starving Europe until the next harvest. There will be a Victory loan, for our men must be supplied as hitherto until the army is completely mustered out.

The problem of the government will be many and serious, and we must not expect impossibilities.

Now shall we all resolve to meet these conditions with the utmost patience? All in favor signify by saying Aye. Contrary same sign. Resolution carried unanimously.

Patience shall be our watchword for 1918.

Those Christmas bonuses will come in time to make the last payment on the Fourth Liberty bonds.

Some men don't aspire to become great because they fancy that greatness begets enemies. Better a plodder in the overcrowded, ever-inhabited rut with a companion here and there than a tall slim pedestal with a plush cushion to sit on and instruments of critical destruction aiming from every direction at your knowledge warehouse, think some.

But it is only common to believe that when a man prepares to snooze out his days under the wheels of the successful, or in the rut, he is his own enemy, and what are all the bad wishes in the world compared to your enmity?

After Influenza What

The answer may be tuberculosis. With proper care this can be avoided. Tuberculosis often follows an attack of grippe (influenza), as do bronchitis pneumonia or the like. This statement is made not to scare you, but to warn you. Proper precautions will help avert the danger.

After recovery from influenza or any other infectious disease, the room should be thoroughly renovated. Disinfecting with formaldehyde, sulphur candles and the like does good. Better to depend on good soap and water, with plenty of "elbow grease." The wood work can be wiped off with a 2 per cent solution of carbolic acid. If possible, have the room repaired.

How to Avoid Tuberculosis

After sickness remain in bed until all fever has gone.

Do not return to work too soon. Do not dismiss your physician too soon.

If fever persist over two weeks have a chest examination by your physician.

Eat nourishing food. Take plenty of rest; more than usual.

Periodical examinations are good for all.

The use of patent medicine is a delusion and a snare.

Tuberculosis is both preventable and curable. If detected in time the disease can be arrested.

WEST TEXAS CHAMBER OF COMMERCE FORMED

BUSINESS INTERESTS ORGANIZE TO PROMOTE WONDERFUL RESOURCES OF WEST TEXAS.

West Texas is to have a Chamber of Commerce to represent this section of the state as a whole, just as a local commercial organization represents a particular city. Representatives from fifty West Texas cities met in Fort Worth last week and formed the West Texas Chamber of Commerce and appointed a committee to raise the necessary funds and complete final organization. The meeting was the most representative West Texas gathering ever gotten together and was attended by more than one hundred leading businessmen and city builders from every part of the western section of the state.

The West Texas Chamber of Commerce will be incorporated under the laws of Texas at once. Its purpose, as announced in the by-laws which were adopted, will be to foster, promote and develop the agricultural, livestock, mineral, manufacturing, commercial and other resources of West Texas.

The organization is to be non-political and will take no part in the election or defeat of any candidate or party. Membership will be open to any individual, firm, corporation or organization interested in the development of West Texas.

Will Raise \$250,000.

It is planned to raise a sum of \$250,000. Membership dues will be based upon the financial ability of the proposed member, with a minimum of ten dollars. Officers will include a president, treasurer, vice presidents and general manager. Each West Texas county will select its own representative to serve on the board of directors. The board of directors shall elect the president, treasurer, and vice presidents from among their own number and shall also select from their number an executive committee of not less than five, which will employ a general manager. The board of directors will have the authority to carry out the purposes of the organization.

A committee will start an immediate campaign for funds necessary for preliminary work. This committee consists of H. P. Brelford of Eastland, Marlon Sansom of Fort Worth, J. A. Kemp of Wichita Falls, P. H. Landerger of Amarillo, C. C. Walsh of San Angelo, Brooks Smith of Brownwood, Frank S. Hastings of Stamford, and W. W. Turney of El Paso.

A declaration of purposes adopted unanimously by the meeting follows in part: "The necessity for concerted expression of public opinion of the people of this district exemplified itself in the manner in which publicity was given to West Texas during the drought. This was a matter on which West Texas should have expressed itself officially and emphatically before other sections of the state and nation gave our temporary misfortunes nationwide publicity. The proposed organization would eliminate this kind of undesirable advertising and give West Texas the right of censorship on its own publicity."

"The masses of West Texas are dependent directly upon agriculture for a livelihood. Improved and scientific cultural methods, systematic marketing and distribution of farm products, assisting the tenant and farm laborer to become home owners, improvement of dairy herds, stabilizing the price of cotton are some of the important problems of agriculture that this organization should consider. There should be some medium for the expression of the common judgment of the people on these vital matters and they should not be left to chance or to the untried judgment of inexperienced persons. Organized effort is necessary for the common good."

"There is a most pressing need for a campaign for the conservation of flood waters in order that excessive rainfall may be utilized for the production of crops. At the present time there is scattered activity along this line but no more general concerted movement exists. There is no more important question than this, and it is a problem in which all West Texas is vitally concerned. Conservation of rainfall is the greatest single need of Texas today."

"One of the first tasks this organization should undertake should be to encourage the full development of our vast petroleum deposits. There will arise in all probability occasions where concerted action on the part of the business men of West Texas

The New Year has dawned upon us

The last one has been a trouble. Many homes have been made sad, and many have been made vacant on account of the great war. As all rejoice that peace has at last come and many hearts have been made glad on this account. Your patience has been appreciated during these past days of trouble. And we are now looking forward to the new year that peace and prosperity may reign supreme. We thank you and all, for your past business and hope to have a change of the same through the coming year. May peace, safety, and happiness attend you in such a bountiful way that the wounds of the past may be healed and the scars of grief away and God's gracious mercy may be felt in each home is our sincere wish.

Cicero Smith Lumber Company

will be necessary to protect and defend this vast industry and certainly some central organized body should voice the judgment of the people.

Another matter which is not entirely foreign to the general purpose of this organization is that when there are problems that should be called to the attention of our state and federal governments they would be received more seriously if presented by a non-political organization representing all the combined interests of West Texas. This feature alone manifests the prescience needed for a central organization, and with such a medium West Texas would become a potent power in shaping the destinies of this great state."

Want To Farm In Turkey?

A chance to do some intensive and extensive farming is waiting for expert agriculturists who are willing to help out in the rehabilitation of the countries in the Near East, Asia Minor, Syria, Armenia, Palestine, and Northeastern Persia.

Doctors, teachers, religious workers, auto drivers, and mechanics are also needed.

The ships on which these relief workers will sail, will also carry medical supplies, food and clothes for the thousands of Armenia and Syrians who remain after the deportation and massacres by the Turks and Germans. The first relief vessel will leave within three or four weeks and a second probably within a month.

Anyone feeling capable to take up this noble work should communicate with the American Committee for Relief in the Near East, No 1 Madison Ave., New York City.

Indian Girls Interest-d in Canning

Oklahoma Indian girls are as much interested in the canning campaign as their paleface sisters. In Beckham County, Oklahoma, they attend all the meetings held by the home demonstration agents, and this year made an excellent booth exhibit of the fruit and vegetables they had canned and dried. One Indian woman also exhibited 100 chickens of her own raising.

Let THE NEWS Print For

Greetings to Our Customers

This being the first issue of the McLean News for the year 1919, we feel that it is a fitting time for us to express our deep appreciation for the many courtesies shown us since our son and brother left us at the helm, and enlisted in the service of our country.

We were glad that it was possible for us to assume his duties here,—alho our efforts have been weak and we have felt our inefficiency—so that he could answer our countries call.

We wish to thank you, our patrons and friends, for the way you have stood by us, with, not only your generous patronage, but also with words of cheer and encouragement, which means so much to every appreciative heart.

Many times when the way has looked dark to us and we were tempted to give up the struggle we were bouyed on by your kindness and encouragement to make efforts, with a firm determination to succeed.

We feel that we are fortunate indeed to be in the midst of such a generous, noble hearted people as we have found the citizenship of McLean to be. We feel that we are among friends, alho we have been here but a little more than a year.

At the beginning of this new year is a fitting time for us all to form some good resolutions; and not only to form them, but as nearly as is possible to live up to them. We expect to pass this way but once, and any good that we can do or any kindness we can show our fellow beings, let us do it now. Let us endeavor to strew flowers along the pathway of the living, for after they are gone it is to late.

CENTS AND SENSE

There is a difference between cents and sense.

It is possible for a man to possess cents without sense but it is impossible for a man with sense not to possess cents.

The sensible man is the one who saves, no matter how small his earnings may be. Consequently he is at all times independent and able to grasp business opportunities that his less thrifty friend cannot manage to cope with because he has not practised the paramount habit of SAVING.
