Millions For the Master

—What Does It Mean?

It means that during the next five years the Baptist churches of the South propose to raise \$75,000,000, that they may be able to enlarge their program of service by—

- Caring for their aged ministers in an adequate way.
- Providing homes, sustenance and Christian training for orphan children.
- Enlarging the hospitals for the healing of the sick and injured.
- Providing opportunities for Christian education to all the young people of the South.
- Reaching with the gospel the immigrants and other needy classes in our own land.
- And, finally, sending the gospel and its institutions of healing into all parts of the world.

This is a program to challenge the enthusiasm and the co-operation of men, women and young people who love God and their fellow-man.

Cash and five-year pledges with which to carry on this undertaking will be sought during

Victory Week November 30—December 7

Line up with the Baptist church of your community for a worthy part in this program.

Panhandle Likely to Get Back Central Time

The News is in receipt of a communication from Frank R. Jamison of Amarillo, secretary of the Panhandle Plains Chamber of Commerce, which should be of interest to everybody who finds Mountain time a source of inconvenience and annoyance. Mr. Jamison also has good news to those whose supply of coal is running low. The letter is as follows:

Amarillo, Nov. 24. — Editor McLean News, dear sir: I desire to discuss with you on this occasion two topics.

The first with reference to the Panhandle having been placed in Mountain time. The application has been made to-day for a rehearing before the Interstate Commerce Commission who will send a man to Amarillo for this rehearing.

Of course we do not know what will be the ultimate outcome of this hearing but we are quite disposed to, and do believe that the Interstate Commerce Commission assures us to have the time that we want. Numerous applications have come to this office expressive of a very great desire to have this portion of the State returned to Central time.

If you desire this change you will please indicate it by a statement of your views to this office and make known the fact among your citizens that this application is being made and be prepared to have your community represented at the rehearing of this case when the time is named.

NEXT. The shortage of coal over the Panhandle is a matter of the strictest concern. On last Saturday morning a meeting was held in this office with R. E. Johns, agent for the Santa Fe, J. W. Farley, agent for C. R. I. & P. and J. B. Gibbon for the F. W. & D. who defined specifically the plans which the railroads had instituted for the purpose of preventing distress in case of blizzard of zero weather. Coal which has been taken over by the railroads has been so taken for the purpose of sending it out where it might be needed to establish comfort.

You are, therefore, notified in case of emergencies to apply to your local agent with assurance that relief will be obtained.

Yours very truly,
Frank R. Jamison.

Business Was Movin' Last Week

Three McLean business firms changed locations last week, too late for news of it to appear in the last issue of The News.

Z. T. Wilson moved his McLean Shoe Shop from the Cousins building, west of the postoffice, to Henry & Cheney's store, where he is now comfortably established and so busy he don't want an ad. He says he has more than he can do already.

Bennie Sitter, who was running his tailor shop in the same building with Wilson's shoe shop, moved to the location formerly occupied by Stratton Produce Co.

These two moves made room for McLean Auto Co. to move their stock of Dodge automobile repair parts and their sales agency to the Cousins building, where they have everything arranged comfortably enough.

A New Shoe Store

We realize that we are advertising The News as a sleepy sheet by admitting our failure to record this item last week, but we've gotta tell it anyway.

John Mertel, well known to everyone in these parts who wears shoes, has opened a stock of shoes in the building Bundy & Biggers used to occupy with a grocery store. He is also putting in a shoe repair shop. Much of his equipment is still in transit, but he is able to do most of the work that comes his way. He tells The News that he is arranging to put in a full and up-to-date stock, and will soon be able to take care of the trade better than ever before.

Sells Hardware Stock

C. S. Rice closed a deal this week whereby he sells his entire stock of hardware to Western Lumber Company. The store has been closed since Monday, for the purpose of invoicing.

Mr. Rice retains his tin shop and stocks of furniture and undertaking goods, and will, we understand, add to the furniture line.

Mrs. J. B. Paschal returned home Friday after an extended visit with relatives at Breckenridge and other places.

Miss Eva Biggers of Amarillo came down Saturday to visit.

J. W. Wilkins and daughter left Tuesday for Brownwood.

A Timely Talk With Santa

Hello! Hello up there!

Gee! Is this really you? Well, this is Bob.

Yes, I just thought I'd ask you about that present we picked out for Dad, you know.

What's that? You've got something from Erwin's all wrapped up and in the sleigh already? That's bully! Dad will be tickled to death.

And say, Santa—how about me? There's nothing I'd like half so—

Aw Betty, keep still a minute, cantcha? I just gotta tell him this—

Hello? Yes, hello, Santa! Say, you know I'm getting plenty big enough to own a real sure-enough watch—the fellows wear 'em a whole lot younger nowadays—

How's that? Got one right in front of you—an Elgin! Oh boy!

And the tag says what—for a very good boy? Say! just watch me between now and Christmas!

SKILLED ADVERTISERS AN ASSET

Fortunate, indeed, is a community whose business men advertise wisely and liberally, says a bulletin from the Associated Clubs of the World, for that community will grow and prosper.

Good advertising, which means steady advertising space big enough to tell the story that the advertiser wants to present, brings new dollars to town, and keeps home dollars at home, the bulletin continues.

And what becomes of the dollar that goes into the cash drawer of a local merchant? Three-fourths of it or thereabouts (depending somewhat on the line of business and the nature of the goods sold) goes to the wholesale dealer or manufacturer for the goods the store sells.

The rest stays in the home town. Most of the other 25 cents out of each dollar goes for rent, salaries of employees, and to the local coal dealer, the light company and

others whose goods or services are needed in keeping the store going.

Each time the advertising of local merchants brings \$10,000 of new business to a town, at least \$2,500 of it remains in the town, and is passed around from person to person, and all the people share in the resulting prosperity.

Though some people who are not themselves in business fail to appreciate it, every one in a community has an interest in every new dollar that is brought to town, and that it is just as true in the large city, where business is a great network of mutual interest, as in the smaller place, where it is easier to trace the benefits which every person receives.

Advertising has come to be a great power in business because advertising creates markets. Markets are in the minds of people, and can be made through honest advertising. Merchants and manufacturers have found this out, and that is why they advertise.—Ex.

Community prosperity is, or is not, as we of the community make it. Much money will be spent around here during the coming Christmas holidays. It is right that it should be so, for every normal person likes to partake of the joys of the yule time. But where will the money go? Will the profits remain here, and continue to circulate in our midst, and enrich our local community? Or will they go to foreign houses, and be forever lost to us who have produced them by our energy and our thrift? The answer is in our hands. Our local merchants will be well equipped for supplying our demands. The goods will be on their counters, where we can see them, judge as to their quality,

and know what we get. And the name of local dealer stands as a guarantee for everything he sells. But if we buy abroad we lose from our midst both the dealer's cost price and his profits. We never see them again. And our community is the poorer to the extent of the profits on every article not purchased at home. Which shall it be? A constructive Christmas, or a destructive one? Prosperity should begin at home.—Paducah Post.

Higgins has refused to go by Mountain time and has turned back to Central time. Congress got busy and changed this section of the Panhandle to the Mountain time last year. There is a move on foot, gaining in momentum, to restore our section to Central time. People out this way don't like to have it get dark in the middle of the afternoon.—Randall Co. News.

Ford Will Bring Them Back

The following appeared a few days ago in the "State Register" of Springfield, Ill.:

"Many are the stories of Henry Ford and his popular automobile, but Hillsboro is relating what it calls the best of the season, and the facts in the case are true. It happened in one of the leading churches of the city that the pastor took for the text of his sermon, 'Better Church Attendance'.

"The pastor held that the automobile has taken more people away from church than any other thing. He concluded with the exclamation: 'The Ford car has taken more people to hell than any other thing that I can mention!' Whereupon an old lady in the congregation began to clap her hands and moan 'Praise the Lord! Praise the Lord!'

"What's the matter, sister?" asked the pastor.

"The Ford never went any place that it couldn't make the round trip, and I am sure that all of those people in hell will be back," she answered. "So praise the Lord."

When a Farmer Writes a Letter

What do you expect? That it will be on a blank sheet of soiled paper that has been rusting on a dusty shelf for months?

Not a bit of it.

The farmer's stationery is as important as his automobile. He is a business man, and he does business in a business-like manner. He may raise hay, but you never find it sticking out of his boots.

We print letter heads, envelopes, bill heads, etc., for farmers. No chance for a correspondent to make a mistake in the name, or in the address, when it is plainly printed on the letter head and envelope. No chance for purchases to go astray in the mails.

The next time you are in town step into our office and use your eyes. Then you will want to use printed stationery,

Says County Should Not Dispense With Services of Home Demonstration Agent

When in town last Tuesday, I was pained to hear murmurs against a county home demonstrator for Gray county. If I had known about it sooner I would have been doing my bit a long time ago.

I cannot conceive of a greater benefit to be given our children in any way with less expense. Add to this the pleasure and profit we women have, or could have, gotten out of this year's work, and I do not see how an informed person, man or woman, would say "it was too big an expense."

If I could send my girl, only 13, and her first year's work, to Dallas as a prize winner, when we had no garden owing to 17 or 18 pests that ruined the spot after we had put hours of labor and almost \$10 worth of seed, besides about a pound of gift seed, into the place, how much easier it would have been for someone who had a good garden and older girls to have done what mine did, or more likely beat her to the prize. My tomatoes, pepper and apples were given me by a good old lady (Mrs. Lindly) thus enabling us to put up some jars of vegetables and fruit under Mrs. Cameron's demonstration. She was to hold a canning demonstration for beans at my house this summer when the club girls had their monthly meeting, but no! We could not get one interested enough to come (after I had prepared dinner too). So five club members and Mrs. Cameron and I enjoyed ourselves, or at least I did. I have only been able to attend two meetings in town and the ones held at my house, but it's the only pleasure I've had in the nine months I have lived in Gray county.

Other women feel the same about the demonstrator as I do, and go as far as I do in saying that Gray county will go backward instead of forward if the commissioners are persuaded that Gray county needs no guiding hand for her young people.

As far as I have seen there is

no community spirit in Gray county. We can have no Sunday school, no church (just one sermon in this neighborhood since we moved here). We had one singing, but no more so far. Now, a demonstrator is paid to build up a community spirit and make folks glad they are alive. When I first came here I was sorry I was alive, then we got our agent and I thought we would be taken an interest in, at least.

And Mrs. Cameron has worked hard to that end. If some of the fathers and mothers had attended the first day of the three days course held in McLean, and met our district agent, Mrs. Barnes, and seen her and Mrs. Cameron striving to hold the girls' attention, they would see now why so few of the girls made a good record. My girl was smiling at some foolishness and so spoiled the looks of two dishes, and that is the way it went. But both ladies had worlds of patience and, at least to my girl and to me, the day was well spent. The girls were told then what they must do to get their exhibits ready so all had ample time to prepare for Dallas Fair.

I am told that the peanut butter contest had about half a dozen contestants. Now if Ruth and I could get our peanuts and make butter on Thursday and Ruth ride two miles to get the mail carrier to carry our glasses in on Friday, for fear of bad weather Saturday making us stay at home, could not McLean women and girls and nearby neighbors have entered the contest and learned something and also have beaten us to prizes?

Do not tell me a demonstrator does not pay. Look at Donley county and do likewise.

For my children to be disappointed now in next year's work is disgusting to me. The girls were to be in canning and poultry clubs, the boy was to have a pig and an acre of maize, and I was planning to flood the county with pure bred Barred Rocks, if the coyotes would let me.

We can do all this and not

Such Compliments Come Often

Every once in a while someone says to us, "I like to trade with you people, because I find your goods dependable and worth the money you ask for them."

To us, this is the highest compliment that can be paid, and it is one we try honestly to merit. To sell a customer and believe while we're selling him, that he will come back again, because what he bought gave satisfaction, means a great deal to us—and why shouldn't it?

Good merchandise suffers when compared with other merchandise as to PRICE only. Quality is the greater consideration. And when the price and quality are compared, we fear nothing. We invite that kind of comparison. Remember! We're here to stay a long time, we hope, and that you must be pleased as to both Quality and Price.

have an agent; but who will take time to help any of us with out being paid? And I like competition. Some here and there are striving to save a few dollars at the expense of their wives' and children's enjoyment. My husband, I am glad to say feels as strongly on this subject as I do. He ought to, for one demonstrator wants to buy a carload of maize from him if the price suits, and she is not the Gray county agent—so we are not being shown up as favorites.

If I had a car I would go over the country in the next week and get the names of those in favor of a demonstrator and I believe the progressive element will win out in favor of our women and children having a small county expense paid out for them. Surely everyone will agree that the women and children of Gray county are worth enough to justify this small expenditure for their improvement.

Don't men realize that the more poultry and garden there is raised the less household expenses and doctor bills there

are? Don't our children need something besides a trip to town to see a "headachy" movie, or worse?

Space forbids more, but let my poor plea for a demonstrator have a little weight, for Mrs. Cameron has, so far as I know, done well and deserves another year's trial.

Respectfully,
Mrs. C. A. Hemberson.
