The Tennis Courts

LET'S SYSTEMATIZE

ONE OF THE HIGHEST recreational assets the City of McLean can boast of is its City Park, and recent additions to the facilities open to the public there make the park an even greater asset.

The latest additions are the playground equipment and concrete tennis courts.

But some of this equipment is being abused. And some is being "hogged" by a few individuals.

The new playground equipment, consisting of two new slides and two new merry-go-rounds, has been installed for the younger children, but some of the older boys have been abusing the equipment. This should, and no doubt will, be stopped immediately.

The tennis courts are causing the most discussion around town. Everybody (most everybody, at least) is wanting to play, but not many are getting the chance. Many people have to work all day, getting off from 5 to 6:30 o'clock, and by that time the courts are crowded, mostly from younger boys and girls.

As a result of this situation whereby the youngsters are crowding the courts in the late evening hours, The News has been asked to publish a few suggestions and find out whether there is sufficient interest to warrant the organization of a Tennis Club.

It has been suggested that certain rules for the courts be set up, and these rules strictly adhered to, in order to make play on the courts more democratic.

Here are some of the suggestions:
Children under 10 years of age not to be allowed to play with anyone else desires to play.

Children, aged from 10 to 15, allowed to play all hours except after 5 o'clock in the afternoon. Set aside one night each week when the courts would be open for this age exclusively.

After 5 o'clock, the courts would be open to those 15 years of age and over.

Alternate players after one set, if any others desire to play.

Do not play singles, if there are sufficient players for doubles.

These are suggestions made thus far. It has been suggested that the Tennis Club be organized immediately, and that the members make up the rules and post them on the courts. The club would not be only for residents of McLean, but also for residents of Alanreed, Kellerville, and other communities. The club would not collect dues, but merely be an advisory organization. It could also sponsor tennis tournaments.

The News is not attempting to tell the tennis players what to do. Neither are we attempting to dictate the policies for the courts. We are merely passing along to the general public the suggestions of a few people, including members of the city council, who are anxious to see the new courts put to the best possible use.

If you have any suggestions, bring them to The News office. If you want to join the prospective Tennis Club, turn your name in at The News office.

The main idea, according to those who requested this article, is to systematize the playing on the courts so that as many people as possible can enjoy this form of recreation.

Stories of Discs Dis-Appear, But They Were Good

That flying disc talk of last week, which covered practically the entire U. S., is gradually dying out.

The cause of the fading away is not exactly known, but it is probably due to the fact that no one has definitely found one of the flying saucers. So practically no one is thoroughly convinced of the discs.

Except maybe that man from Idaho, who is still sticking to his story—he was the first to report seeing the discs.

We'll have to admit, however, that the disc and saucer stories did make good reading.

New Alanreed Church to Have Formal Opening

Formal opening ceremonies of the new Pentecostal Church in Alanreed will be held Sunday night beginning at 8:30 o'clock. It was announced this week.

Delivering the message will be C. S. Hunt, who will speak on "Christ and Santa Claus."

Hunt invited the entire public to attend, stating that "I can speak lots better to a full audience than to a small one."

The work on the inside of the church has been completed, Hunt said although some remains to be done on the outside. The old building was torn down, and some of this material was used in the construction of the new structure.

The new building also has walls made of heavy concrete blocks obtained from the McLean POW camp.

Relief Check Acknowledged

Acknowledgement of the receipt of \$34 as a contribution to the "Texas City Firemen's Emergency Fund" from members of the McLean volunteer fire department was made this week by Olin Culbertson, secretary of the State Firemen's and Fire Marshals' Association.

The check from the McLean department brought the total contributed to the cause to \$24,773.83, Culbertson said in a letter to Boyd Meador, fire chief. The money is being forwarded to Chief Fred Dowdy of the Texas City department.

There's Rumor, But No Definite Highway Dope

No further definite information concerning the proposed splitting of Highway 66 through Gray County has been released, according to local city officials.

Mayor Harris King stated Wednesday that the county has as yet received no rights-of-way maps—the instruments which will give the definite routing of the highway. Councilman Ed Lander, chairman of the city's highway committee, also said that the maps had not been received, according to the latest information he had received, and that he had not been informed of any later developments.

A rumor to the effect that the highway department had accepted the proposal of the Rock Island railroad of 20 feet along the present Railroad street has not yet been confirmed, Lander said. He stated, however, that he had heard the rumor, strictly as a rumor, and had written for confirmation.

In a mass meeting held in McLean in March, engineers present stated that the splitting of the highway through this town would be acceptable, providing the proper rights-of-way could be obtained. One lane would run where the present highway runs, and the other on Railroad street. The Rock Island offered 20 additional feet.

Short Resigns As Bandmaster

J. E. Shortt, director of the McLean school bands during the past year, has tendered his resignation to the city council. It has been announced.

Mr. and Mrs. Shortt and their two children, Peggy and Charles, have moved to Tennessee. It was reported, Mrs. Shortt, who operated the Tiger Den next door to the Avalon Theater, has sold that business to May and Larah Rhodes.

No successor to Shortt has as yet been named. Mayor Harris King said, although the council has two or three applications for the post. Under the present set-up, the city pays most of the bandmaster's salary from a fund made up from a small city tax, and the school pays the remainder of the salary.

New City Park Facilities Attract Large Daily Crowds of All Ages

28th Car of Wheat Loaded; Price Increases to \$2.06

S. R. Jones, manager of the McLean Gin and representing the wheat buying firm of Paul Allison of Fort Worth—and the first man ever to buy and ship wheat direct from McLean, was loading his 28th car Wednesday.

Jones said that he has bought approximately \$91,000 worth of wheat, and has lost the opportunity of buying more than he has bought, due to the shortage of box cars.

Wednesday's price was \$2.06 per bushel, an increase of 16 cents per bushel over the price of one week ago. The wheat buyer explained that quite a few wheat farmers are storing their grain in their barns due to the unsteadiness of the market.

The price during most of the harvest season remained at about \$1.90 per bushel, and then during the past week it has jumped to \$2.06. Many farmers are holding their wheat in the hopes that another increase will come within a few days or weeks.

Practically all wheat in this area has now been harvested, Jones stated, although some more may come in in small quantities. He pointed out, however, that more cars will probably be shipped from here when the grain stored is placed on the market.

Throughout the Panhandle harvesting neared an end, and the shortage of combines, labor, and trucks faded out. Many of the combines and laborers who follow the wheat harvest were making their way during the past week to Kansas where the grain is ready to be cut.

This year marks the first attempt for a wheat buyer to try his luck in McLean. Jones stated that he has been surprised by the volume of business he had done, and that he could buy more than twice the amount if he had had sufficient box cars.

Mrs. Graham Suffers Burns

Mrs. L. V. Graham, 52, suffered severe burns on her right arm late Tuesday night when a can of lye and water mixture exploded in Earl's Cafe.

Mrs. Graham was reported resting as well as could be expected Wednesday morning, although she was suffering greatly from shock.

The accident occurred when Mrs. Graham poured water into a can of lye in preparation for cleaning purposes in the cafe. The mixture exploded, throwing the lye on Mrs. Graham's arm. She was given first aid, and then placed under a local doctor's care. She is now at her home.

New Equipment, Tennis Courts Add to Usage

That citizens of McLean and the surrounding area will take advantage of recreational facilities if available has been proved during the past two or three weeks by a great deal of use of the City Park in McLean.

Most popular new additions to the park are the two concrete tennis courts, finished recently by Pete Fulbright and Chas. Cooke. Players range from young to old, and are taking advantage of the exercise offered by the sport at almost all hours of the day.

The new playground equipment, installed by the city and the Lions Club, is also attracting much attention, and the youngsters of the town are going for this equipment in a big way. The equipment consists of two slides and two merry-go-rounds. One of the merry-go-rounds was purchased by the Lions Club, and the other three pieces by the city.

Picnicking is also proving popular, and almost every evening several families can be seen "eating out" at one of the picnic spots in the park.

The two tennis courts were only recently finished, although the idea for them was first mentioned several years ago. At that time, however, the idea was only an idea, and never materialized.

Early this year, the newly-organized Garden Club attacked the problem, and sought help from the city council. Later the Lions Club staged a minstrel show to help defray the expenses, although most all the expense was borne by the city.

Now that the courts are in use, and proving to be so popular, there is a movement underway to have them lighted so that night play can be possible.

Also underway is a movement to organize a Tennis Club—a nodules affair—to supervise play on the courts, and to sponsor city tournaments.

The playground equipment is receiving its share of the glory, although some complaints have been made that older children are using the equipment improperly. Parents were urged by city officials and others interested to instruct their children on the proper care of the equipment in order that it may continue to be useful for a number of years.

The council is also desirous of re-opening the wading pool in the park, but realize that strict supervision on the pool will be necessary. Members of the council are contacting clubs in the city to determine whether a plan for

Indiana Scouts Camp at Park

A group of seven Boy Scouts and two adults from Mishawaka, Ind., camped in the City Park Tuesday night, en route to the Boy Scout Ranch near Cimarron, N. M., for a 13-day outing.

The boys, 15 and 16 years of age, were mostly Eagle Scouts. They are camping out each night en route to the New Mexico grounds.

The scouts expressed their thanks for the kindness shown them by Mayor Harris King and other residents of McLean, in allowing them to camp at the park for the night.

Early-Day Editor of The News Visits Here, Recalls Old Times

A short, stock, gray-haired man, who once edited The McLean News when McLean could boast here, but so many changes have been made, both in the looks and the population, that he knows very few people—only some of Bellwood, a suburb of Chicago, who was en route to Bowie to visit relatives after visiting in Pampa with a sister.

Richardson owned and edited The News in the early days, leaving here in 1917 when he sold the paper, he recalled some of the hardships of the early-day editors, "but I did make some money in McLean," he added.

He has recently sold his weekly newspaper and job printing shop in Bellwood, and is now taking who are still residents of McLean by his son.

After visiting The News office and seeing several old friends in Bellwood, and is now taking who are still residents of McLean, Richardson and his son continued on their trip to Bowie.

Rodeo Boosters

To Visit McLean

A Memphis motorcade, replete with a western string band and the Memphis school band, will make 30-minute stops in towns of this area July 18 for a lively season of musical entertainment

as they spread the word of the gala entertainment at the rodeo to be held there July 24, 25, 26.

The trip, to cover 178 miles, is chartered to Clarendon, 8:45; Groom, 10:15; McLean, 11:30; Shamrock, 12:30; Wellington, 2:30; Quail, 3:15; and Hedley, 4:15.

..What Others Say Major U. S. Problem Is..

Major problem facing the United States today is the housing shortage in the opinion of Democratic Representative John F. Kennedy of Massachusetts, above, who is quoted in the July issue of Cosmopolitan magazine as saying:
"We are confronted with many exacting problems, but the most important, from a long-range view, is the great housing shortage existing in this country. Congress must act to provide housing for a great percentage of our veterans, and to institute a broad program of public housing that will aid low-income groups who, before the war, lived in houses that were mostly substandard. The simple fact is that the building industry cannot build homes for prices that veterans and others in the low-income brackets can pay; therefore, federal, state and local governments are under great obligation to render aid."

Major problem facing the United States is that of production of goods and services in the opinion of Democratic Senator Walter F. George of Georgia, above, who is quoted in the July issue of Cosmopolitan magazine as saying:
"Our most urgent problem is whether management and labor can realize that our only salvation is to produce here the goods and services needed not only by our own people but also by all the peoples of the world that means an agreement whereby production can be carried on without interruption until peace and the world economy are restored. This cannot be done through legislative abuses although some remedies of abuses may be enacted. Such an agreement is fundamental. It will shape our own salvation and determine whether the world is going to get."

World peace is our greatest problem in the opinion of Democratic Representative George A. Smathers of Florida, above, who is quoted in the July issue of Cosmopolitan magazine as saying:
"After two world wars within a generation, our greatest problem is world peace. Both wars resulted from rampant ambition and greed. Because of our hatred of war we tried to ignore or suppress those evil forces. Today, forces of oppression and aggression are again on the move. We ultimately must defend ourselves against their encroachments. Shall we again resort to appeasement and isolation, or shall we take a firm stand against aggression now—while there is still the possibility of averting war? That is the problem of our civilization."

Major problem facing the United States is the atom and its control in the opinion of Republican Representative Donald L. Jackson of California, above, who is quoted in the July issue of Cosmopolitan magazine as saying:
"The atom and its control dwarfs all other problems, great clouds of fame, smoke and debris over New Mexico, Hiroshima, Nagasaki and Bikini formed the question for all civilization to answer. We can pass through one of two doors—leading the world to either a day of enlightenment or a day of stark disaster. An atomic bomb race may well write final chapter upon our civilization. We cannot enter upon a mutual suicide pact with the other nations of the earth, nor can we, in the present state of unrest, cede our deadly knowledge without assurance that the atom will be made the servant of mankind—not its master."

CHURCH OF CHRIST

ROMANS 16:16

"ARE WE SAVED BY FAITH ONLY?"

"Therefore being justified by faith, we have peace with God through our Lord Jesus Christ." (Romans 5:1). Many times this is cited as a proof text that one is saved by faith ONLY. Please note that it does not say ONLY.

One IS saved by faith but not by faith ONLY. We could just as well say that one is saved by works ONLY as by faith ONLY. The truth is, we are saved by both. In James 2:24 we read: "Ye see then how that by WORKS a man is justified and NOT by faith ONLY." In Romans 5:1, Paul declares we are justified by faith. Here, James says we are justified by works. This is not a contradiction but both are true. Paul was seeking to emphasize FAITH while James was stressing WORKS.

We are saved daily by eating, drinking, breathing, exercising, and etc. We could not truly say we are saved by any one to the exclusion of the others. If a man should be starving for food and should get food, then the food would save him. In such case food should be emphasized. Just so all down the line with water, air, exercise and etc.

The Philippian jailor was saved by believing on the Lord. (Acts 16:30-34). At his inquiry as to what to do to be saved, he was told to "believe on the Lord." In Romans 10:14 Paul says, "how shall they believe in him of whom they have not heard." So we see the jailor had to hear about the Lord before he could believe in Him. But is believing all the jailor was required to do? In Acts 16:34 we find the jailor had BELIEVED in God and was thus saved. He had done what Paul told him to do to be saved: "BELIEVE." Let's examine what he did and see what BELIEVING consisted of. In verse 32 he HEARD and so BELIEVED; he then washed their stripes and was BAPTIZED; he then brought Paul and Silas INTO his house and fed them, rejoicing. HAVING BELIEVED in God. (verse 33). What did believing consist of? Here it is: HEARING, BELIEVING, BEING BAPTIZED. Get your New Testament and read it! (Acts 16:30-34).

DESTRUCTION VS. REPRODUCTION

The summer's bitterest battle is racing today across the Cotton Belt—the struggle of the farmer to protect his cotton crop from the hungry boll weevil and other insect enemies. Multiplying with unbelievable rapidity, the boll weevil can heavily damage the crop unless controlled by insecticides, the National Cotton Council declared. The mule-drawn duster shown in the picture distributes insecticides over several rows of cotton simultaneously, but many other types of equipment are available to meet the needs of every size farm.

Teeth Need Daily Massage

The fact that dental decay may occur in the mouth of the average person, despite proper home care given the teeth, does not lessen the importance of brushing the teeth nor massaging the gums daily, nor does it minimize the need for a cleaning and inspecting of the teeth twice a year by the family dentist, Dr. Geo. W. Cox, state health officer, says that the lack of these measures gives added power to germs that attack the enamel of the teeth and gum tissues.

"If, despite the practice of proper oral hygiene, decay is suspected or teeth are injured in any way, the thoughtful person will seek the dentist's office promptly for the necessary corrective work," Dr. Cox said.

"It is surprising, though, even in these days of comparatively painless dentistry, that so many persons neglect to have their dental defects corrected, because they foolishly fear the discomfort they might experience in the dentist's chair," said the state health officer. "There are others who, having lost a tooth or several teeth, make no effort to obtain replacements. Apparently they believe they can get along without them. Reduced masticating power, the annoyance and sometimes actual discomfort of chewing hard substances on the exposed gums, and crooked teeth are some of the possible consequences of gaps in the teeth."

Dr. Cox advised those who are interested in experiencing the best dental and bodily health possible to give daily attention to their mouth and visit the dentist twice each year, and promptly seek the dentist's services should decay or other suspicious conditions arise between the periodic visits.

"In short," Dr. Cox declared, "successful mouth hygiene means not only intelligent personal ap-

plication of prophylaxis but complete and timely cooperation with the family dentist as well."

"NATIONAL FARM SAFETY WEEK"

IT'S MORE dangerous to be a farmer than a soldier in wartime or a policeman at a riot or a fireman at a fire. More farmers and farmers' wives and children are killed or crippled BY ACCIDENT than any other group in this country, day after day—especially in the months of July, August, and September.

One in every six farms in the McLean area will be the scene of some tragic accident in a moment between now and a year from now. We know as surely as floods come in the spring that one of the nation's farm population will die or suffer BY ACCIDENT every 20 seconds, day and night, throughout the coming year.

That's unless—unless every farmer becomes his own safety engineer and every farm family becomes a safety council. Unless accident causes are weeded out of your place and all farms—unless you and yours and farm folks everywhere develop safety habits now that protect life and limb.

National Farm Safety Week is July 20 through July 26, six days set aside by President Truman, endorsed by Secretary of Agriculture Anderson, the National Farmers Union, the American Farm Bureau Federation, the National Grange, and the Farmers National Safety Council, six days that will mean everything or nothing to the farm accident toll, depending on what farmers do with them.

Can farmers pull together to save themselves, their families, their time, their crops, their money? Can National Farm Safety Week be six days in which this biggest of all big industries gets set to do the accident prevention job other big industries are doing?

Act—to make your farm safe from accidents.

Two little boys were bragging about the relative accomplishments of their respective dads. One appeared to have an edge when he insisted, "My father's an Eagle, an Elk, a Moose, and a Lion." "Yeah?" responded the incredulous companion. "How much does it cost to see him?" A preacher walked into a tavern in the course of his welfare work, and ordered a glass of milk. By mistake he was served an eggnog. After drinking it to the last drop, he raised his eyes upward and was heard to say, "Lord, what a cow!" And you'll exclaim with a great deal of pride about your car when you let us give it that needed washing and lubrication job. And also, remember that Standard products are tops for performance.

LES TALK

By LESTER

A few girls want to remain single, but most of them would rather knot.

A chip on the shoulder always indicates that there is wood higher up.

From another country weekly "Anyone found near my chicken house at night will be found there in the morning."

The other night I met big, tall Sam Summers, plant superintendent of the Warren Oil company's gasoline refinery out in the Kellerville community, and he said he wanted to see his name in the paper. So here it is—Sam Summers. Also wanting to see their names in the paper were Marvin Hindman and Woody Wilkerson, both members of the Warren gang, and George Graham. That about takes care of the name business for this week. No charge for this service.

We've got some pretty good citizens here in McLean, and one of them is Pete Fulbright. He and Chuck Cooke have just about completed one of the best jobs of civic work this town has seen in some time, and that job is the construction of two tennis courts in the city park. Pete Fulbright works for the city, it's true, but it's slightly out of his line of duties to take over the job of building a couple of concrete courts. It's also out of Chuck Cooke's line of duty to spend a lot of time on the same job. But the two of them saw that the job was completed, and saved the people quite a bit of money in taking over the supervision of the job themselves. Let's give them a big hand for a job well done, and then all go out and play some tennis.

Another good citizen of the town who gets no credit for a lot of work he does is Cleo Meharg, manager of the local office of the Southwestern Public Service company. Cleo has a full time job, but he still finds time to do quite a bit of civic work. As president of the Lions Club, he is doing a good job. The club is small, and even the members do not seem to take much interest in it, but nevertheless if you check back on the club's accomplishments during the past year, you'll find that the organization has done a lot of good. And practically all of it was done after Cleo took over last fall as acting president following the resignation of the regular president. Now Cleo has been elected to serve a regular term as president, and indications are that he will do an excellent job. He is quite capable, providing he gets some help from other members and the public in general. And incidentally, the club hasn't had much public support since I've been a resident of McLean.

Of course, there are a number of other good citizens of McLean, and, although I haven't been here long, I've come to realize there are a number who aren't so good. Naturally, I wouldn't mention them—my name is in this paper often enough without having to

When Hillard Cope, publisher of the Marshall Messenger, was a boy, he lived at Sonora and used to play in "Carver's thicket," so named from the fact that a notorious outlaw had been killed there.

The arrival of a new traveling man in town always provides entertainment. Usually, kangaroo court was assembled and he was solemnly placed on trial for some trumped-up offense and after he had been sufficiently alarmed, he was allowed to settle the case by buying drinks all around.

Another procedure was for a merchant to engage the "drummer" in conversation at the foot of a stairway in the store, maneuvering so that the traveling salesman would be standing with his back to the stairs. Suddenly, there came a terrific noise, and, looking around, the stranger saw a barrel bouncing down the steps toward him. The merchant, not being startled, would wait till the last instant, then step to one side, but the panic-stricken victim of the prank would run wildly from the store with the heavy barrel right at his heels.

The Trot Theater—where would it be? In Cuero of course, the home of the "turkey trot." And as I was leaving Cuero shortly after dawn with a hop of halfway across the state ahead of me, just beyond the city limits I heard a "gobble" from the grass beside the highway; a big gobbler gave an appropriate farewell.

Between San Augustine and Jasper, a sign points down a side-road, "Orist mill; runs Saturdays." The highway in this area offers plenty of scenery—the tallest magnolia trees I ever saw; a pool covered with water lilies in bloom; another pool covered with lavender flowers. Just east of Palestine is a lake that is the color of new steel and as one approaches San Augustine there are long, dense hedges thick with flowers—Cherokee roses.

OUR WHEAT CROP COMES OF AGE

A QUARTER CENTURY OF PROGRESS

About 25 years ago, wheat came into its own in the territory we serve. Last year alone wheat farmers here harvested about 40 million bushels of high protein wheat . . . in fact almost four-fifths of that produced in Texas is grown in this area.

Today, good bread from our wheat helps keep a healthy America healthy.

We have so much confidence in the wheat industry—and all other industries we serve, that we are investing 35 million dollars in a building program. This expansion program in our territory will bring more dependable electric service to industry and farms and better living — electrically — to everyone!

CASTING FOR TOMORROW

A father teaches his son the thrill of fishing. And one day this son will teach his own son. Thus the world moves on. And whether it be the thrill of fishing, or the art of noble living, one generation teaches the next.

Many a great lesson of life is learned in such a humble setting as this one. For the foundation of education and growth is the "man to man" fellowship of father and son.

But Dad's free time is limited—these fishing trips are few and far between. Where else can this boy get the help he needs?

School and college will provide many of the resources for a successful career. And the Church School will instill the spiritual understanding from which noble living springs.

Wise is the father who gives the Church opportunity to help mold the life of his son—yes, and his own life as well.

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend and support the church of his choice. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church on Sunday and read your Bible daily.

-- Warning --

It has been brought to the attention of the City Council that a number of McLean citizens are planting corn, shrubs and hedges, and have built fences over their property lines, quite a few extending out to the curb.

This is a very dangerous traffic hazard and fatal accidents could occur.

If any accident should occur the City could be sued for neglect and not the property owner.

The City Council therefore asks that these hazards be corrected at once.

100,000 MILES, STILL ROLLING

This sturdy veteran from a group of tires tested for performance with a fleet of heavy gasoline trucks has given 100,000 miles of service, its cotton cord carcass outlasting three recappings. Made under identical conditions with the same amount and types of rubber, but using different fibers in the cords, the tires showed different degrees of stamina. Rayon cord tires lasted for an average of 46,399, 50,673 and 50,975 miles. Admiring the tire in the picture is Sam Lazenby of Hughes, Ark., himself an oil company distributor.

Mrs. Johnnie Mertel, cousin of the bride, was matron of honor. She was dressed in pale blue and wore a corsage of white carnations. Miss Tommie Rhotan, maid of honor, wore a light pink dress and a corsage of blue carnations. Both of the bride's attendants wore matching halo hats.

Shannon Barker served his brother as best man, while Kenneth Gibson and Walter Sargent of McLean served as ushers.

A reception immediately following the ceremony was held in the home of the bride's parents at 1713 Lincoln street. Miss Wanda Graham registered the guests, and Mrs. Herschel Cantwell and Mrs. C. A. Craig served punch and cake. Misses Wanda Brow, Patay Cavanaugh, and Ruth O'Bryant assisted with the serv-

ing of the 50 guests who registered.

The bride is a graduate of Amarillo High School and attended Amarillo Junior College where she was a member of Sigma Phi Chi sorority and Beta Phi Gamma, press club.

Mr. Barker is a graduate of McLean High School and served two and a half years in the navy. He is now employed with Warren Petroleum Corporation. The couple are making their home in McLean.

'Miss Cotton' To Be Chosen

Cleopatra never had as gorgeous a bevy of beautiful girls as will be in Memphis October 3 and 4 at the first West Texas Cotton, Chemurgic and Ceramics Carnival. If advance statements from over the region prove true.

More than 25 cities, organizations and clubs have announced queen candidates would be in Memphis seeking the enviable title "Miss Cotton of West Texas" and the handsome awards going to the winner.

Seminole declares they will send Miss Alternate Texas as their bid for the national publicity honors.

Amarillo is in process of selecting their queen, as is Perryton, Shamrock, Spearman, Turkey, and a host of other West Texas cities.

Any girl 16 years of age or older, unmarried, and sponsored by a recognized group, is eligible to compete.

Miss Memphis will not compete for the title or awards, but will merely be hostess for the visiting royalty.

Name, address, age, measurements, description, and a glossy picture of the candidate should be sent to the Memphis chamber of commerce as early as possible to insure ample advance publicity. The sponsor's name should also be included with this data, officials have ruled.

West Texas communities are also urged to send in required exhibit space desired in order such space may be reserved for the displaying of natural resources at the two-day Mardi Gras of Texas. Space is free but an unusually heavy request for booth space is being received for the occasion and an early reservation is desired to complete plans.

SUITED FOR SEA

Lovely Pat Kirkwood is striped for action in this novel two-piece suit of blue and white cotton. The M-G-M starlet was delighted by the unusual cut of the adjustable bra top. The fluted edging forms the pockets of the slim drop-front shorts.

Shamrock Golf Course Opens

Shamrock's new grass green golf course is now open to the public. It was announced this week, and the Irish golf enthusiasts declare it is one of the classiest links in this section of the country.

The nine-hole course, located on an 80-acre plot south of the city swimming pool, was opened for play July 4.

A formal opening to which golfers of nearby towns will be invited will be held after a fairway mower has been received

and put into operation. The new mower has been ordered and is expected to arrive soon.

Billy Holmes, 1947 winner of the Greenbelt tourney, is holder of the lowest score to date. Holmes rang up a 37, one above the 36 par.

Specialist Says Give Children Part In Preparing Food

Let the children fix sandwiches for picnics the family will be having now that summer is here, suggests Miss Ardyth Arbuckle, Oklahoma A. and M. College home life instructor.

The out-of-doors will invite the children to new and untried ideas, and many times the parents, with a little extra effort, can help their youngsters carry through their ideas to completion.

The main point of a picnic is to have fun and the children will have a big time if they are allowed to help plan and get ready for it. Children need to feel although they have a part, Miss Arbuckle states.

In the summer-time, children and water just seem to go together like strawberries and cream. Frequent visits to a swimming pool are fine but a water sprinkler or a wash tub full of water will give many a summer afternoon of

pleasure. Better for the older children is a stock tank filled with water. They will like to help clean it out before and after using it.

During vacation time children with nothing to do are likely to be mischievous to keep busy. Parents should come forth with plenty of ideas for good clean fun, Miss Arbuckle says.

Fresh supplies of materials are as necessary as ideas. What kind of play props do you have around your house? An old sheet and a broom stick are a good start toward a tent which the young boys will use either in play or sleep outside at night.

A few hours of quiet play will help to eliminate over-fatigue and irritability on hot summer days. For this quiet play children like easel paints, crayons, colored paper, scissors, and a variety of blocks, as well as dolls and house-keeping things.

supervision can be worked out. Some citizens have suggested that a park supervisor, to handle all recreation in the park, be appointed. This would, of course, require considerable funds, and possibly an added small tax. Should this idea grow into much prominence, it is possible that a small tax would have to be voted on by the people, with similar provisions to that tax now taking care of part of the bandmaster's salary.

feet to the present paved street, which would provide a 50-foot lane for the one-way traffic, and local workers were hoping that this offer would be accepted. No definite routing through Gray County has been announced, although it is believed that the routing will generally follow the preliminary survey maps made two or three months ago.

The highway project, that of making a two-lane highway out of 66 through the entire Panhandle of Texas, is No. 1 on the U. S. priority list, and in Wheeler County, the first step through the Panhandle, the roadbed is nearing completion. Gray County will be the next in line for the two-lane road, and it is expected that actual work on this road will get underway within a very few months.

Boat Races Are Postponed

Motorboat races, scheduled to be held last Sunday at Lake McClellan, were postponed until a later date because many of the potential racers were tied up in the wheat harvest, officials of the McClellan Boat Club announced.

The races Sunday would have been the first in a series of every-other-week races.

Races will be open to all amateur boatmen who own stock motors. Boatmen having racing carburetors, racing ignitions, and racing underwater gears will automatically be disqualified, although racing propellers are permitted.

Next meeting of the boat club is slated for Tuesday, August 12, in the district court room in Pampa.

NEWS FROM ALANREED

A bridal shower was given Saturday honoring Mrs. Harvey Craig in the home of Rev. and Mrs. Steve Greenwood. The hostesses were Mrs. Roy Sherrod and Mrs. L. H. Earthman. The shower was held in the Greenwood home in order that Mr. Craig's invalid grandmother, Mrs. Gracey, could attend.

Ramona Talmer of Ryan, Okla., visited her aunt, Mrs. Dee Hill, last week.

Visiting Mr. and Mrs. J. D. Carpenter in the Bullock home this week were Mr. and Mrs. O. E. Carpenter and daughter of Vernon, Mr. and Mrs. Bob Massey, G. S. Carpenter and Evelyn, and son of McLean, Mr. and Mrs. Hugo Riemer. Mr. and Mrs. Carpenter returned to their home in Stockton, Calif., this week.

Mr. and Mrs. Buddie Hill and children and Dee Hill are vacationing in California.

Mrs. George Oakley and Mrs. Olin Stapp and daughter were Clarendon shoppers Monday.

Mr. and Mrs. Tom Clasby and daughter of Pampa attended the Alanreed lodge installation Monday evening. Mr. and Mrs. L. H. Earthman and Julia helped arrange a musical program. Rev. Carver of Pampa was the principal speaker.

Pampa Ready For Song Fete

Plans are complete in Pampa for the event of the 26th annual Plateau Singing Convention, to be held there July 19 and 20.

The convention will officially open Saturday afternoon, July 19, at 2:30 o'clock in the senior high school auditorium, with sessions to follow Saturday night and all day Sunday. Quartets from all sections of the Southwest have been invited, including the Stamps Quartet of Dallas.

The Plateau Singing Convention had its origin back in 1922 when the organization was started in Clovis, N. M. John P. Taylor was elected as president in its first year, and has served in that capacity since that time.

Legion Notes Have Takers

A number of the non-interest bearing notes of \$25 each, which are being sold to pay off the indebtedness of the local post of the American Legion, have been sold, Ed Lander, who is in charge of the drive, said this week.

The plan is to sell one hundred \$25 notes, and pay off the Legion's indebtedness of approximately \$2,500. The notes do not bear interest, it was explained.

At each of the two meeting nights in each month, numbers corresponding to the numbers will be drawn, and the notes will be paid off. It is hoped that from four to six notes can be called in each month.

Those interested in buying one of the notes may call Ed Lander, Earnest Beck, Ernest Erwin, Frank Pressler, or Raymond Glass.

Mail Carriers To Be Honored

The rural letter carrier—the man who moves through ice and snow in winter and the sweltering heat of summer to deliver mail to even the most isolated sections—will be honored this year by the State Fair of Texas.

W. H. Hitzelberger, executive vice president and general manager of the State Fair, announced that October 5 had been set aside on the fair's calendar as Rural Letter Carrier's Day.

"It is a privilege to honor this group," Hitzelberger said, "for their unflinching faithful service to the citizens of Texas."

Arrangements for the day are being made with Oran T. Gray of Florence, president of the Texas Rural Letter Carriers' Association, and Bun Raley of Valley Mills, editor of the organization's official organ, "The Texas Carrier." A special program is to be planned.
