## Ike Can't Make It Rain, But He's Still Best Man

The other day I asked a farmer if it was dry out his way. He said it sure was. "Looks like we just can't get any rain," he said. "Why, when Noah had his 40-day flood, we didn't get over half an inch."

There's no mistake about it, Texas is having itself a real drought. Some of the farmers and ranchers in our county are in such bad shape that they may vote for Stevenson.

Old Man Jones, from across the river, said he wasn't going to go to any such extreme. He said he needed rain as bad as anybody else. He claimed water was so scarce in his community that the preacher was baptizing new members with a wet handkerchief. But he was holding out awhile longer, anyway.

"I may be stubborn," said Old Man Jones, "but I just ain't been convinced that President Eisenhower is keeping it from raining."

He said he knew that Stevenson and Kefauver acted like they thought so, and they had a right to their opinion. Lyndon Johnson, he figured, knew better, but he was sticking with Adlai and Estes for the sake of unity. He said he didn't figure Mr. Sam Rayburn had known whether it was raining or not for the last 25 years.

"I hate not to go along with such a widely known crowd of weather observers," Old Man Jones said. "If there's anybody

who keeps up with which way the wind is blowing, generally speaking, it's Stevenson, Kefauver and Johnson."

Then he went on to say that he realized the national farm program hadn't pleased everybody—including him. If he was in the White House, he would do things different, at least in our county. He allowed that the \$61,000,000 spent by the Eisenhower administration for drought relief in Texas could have been doubled and still not made all the farmers happy and prosperous.

"But," said Old Man Jones, "I keep remembering that the main reason for our troubles, besides the drought, is the fact that we are not at war. Now, if Adlai and Estes really want to jump on President Eisenhower, there is a real issue. They've sure got the goods on Ike in that respect. If he hadn't stopped that Korean War, farm prices would be higher, no doubt. I wonder why they never mention that."

Old Man Jones was kidding a little, of course, in his usual way, but I think he had something there. We have got to adjust to peace-time, which is taking awhile but President Eisenhower is working at it. And meanwhile our boys aren't fighting and dying on foreign soil. It's worth thinking about.

Yours truly,  
Tex

## Tax Refund Checks Will Be Mailed To Overpayers

The Internal Revenue Service is diligently looking for 3,000 North Texans who have tax refund checks awaiting them, according to Walter C. Bowen, administrative officer. The Dallas office has an employee who spends full time finding taxpayers due a refund check. A very large part of the taxpayers due a refund check have moved and failed to

give Internal Revenue a forwarding address. In quite a few cases, the taxpayers plain forgot to put their address on their tax return. Bowen stated the checks ranged in size from a few dollars to some amounting to several thousand dollars.

A Dallas newspaper recently printed 600 names and addresses of Dallas taxpayers due refund checks. Within three days, 400 of these taxpayers had claimed

their checks. Others are claiming their checks daily. Bowen advised the McLean area taxpayers who are due a refund check to send their correct name and address to Miss Bonnie Reed, claims

examiner, district director of Internal Revenue, 2101 Pacific Avenue, Dallas. Miss Reed is as glad to hear from the taxpayers who have refund checks in her file as the taxpayers are glad to get the checks.

A few taxpayers have been notified that their returns are being audited before their refund can be made, Bowen explained. These taxpayers will be notified concerning their refunds. They should not contact Miss Reed.

THINGS YOU SHOULD KNOW ABOUT YOUR PHARMACIST

If a visitor to this country set out to find true American atmosphere, certainly one of the first places he would go is to the nearest retail pharmacy. American pharmacies—from Maine to California, from Miami to Seattle—have a character all their own. In each of these pharmacies, countless services are performed for you, and for others, by the pharmacist. You may know your pharmacist personally, or you may know him only by sight—but there are a few things you ought to know about him.

Today's pharmacist is a man of long and specialized training. To get his college degree, he must have a broad and exact knowledge of the many technical sciences associated with the action, handling and dispensing of drugs, chemicals, biological products, antibiotics, and other medicinal agents. He must have passed a rigid state examination to become a licensed pharmacist. Then, like your doctor, he must keep abreast of the latest medical developments, the newest drugs, and the constant improvement of pharmaceutical products.

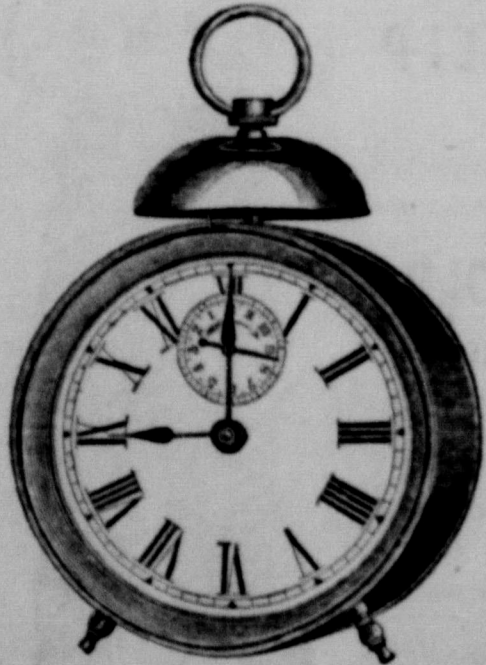

He devotes painstaking care to the preparation of every prescription your doctor orders. He uses precision equipment with scientific skill. He has an intimate knowledge of drugs and chemicals he keeps on hand—where to buy them, how to care for them, how to safely dispense them. He checks and re-checks every ingredient he uses and every step in his compounding technique.

Despite his long hours, your pharmacist enters into the civic, service and religious organizations of your community, doing his part as a good citizen and a good

neighbor. Every day, in communities, large and small, he is helping to make and keep America the finest land to live in, and the healthiest nation in the world.

October 7-13 is being observed as National Pharmacy Week and we should take stock of the many fine contributions the nation's pharmacists are making to the American way of life.

THE NEVER ENDING BATTLE

This is Fire Prevention Week, to be observed across the nation in many ways, all designed to make Americans conscious of their age-old friend which can turn into their worst enemy—fire.

During the next 24 hours, fire will damage or destroy at least 800 homes in the United States. It will take an untold number of lives.

A year from now, unless the average changes, the total will be 300,000 dwellings damaged, 11,000 persons dead.

Certainly, when added up on the national scale, we have here an enemy of vast proportions.

The answer to the enemy is education and fire prevention, along with improved equipment and methods to fight the fire once it starts.

We salute the insurance companies, the fire departments and the civic administrations who are waging this never ending battle against fire.—Ochiltree County Herald.

A Pretty Garden

One of the beauty spots of McLean and one that should excite the admiration and envy of every home owner in the city is the beautiful garden plot at the J. W. Kibler home. Maintained thru a season of unusually dry weather, this pretty little garden has stayed green and flourished through the entire summer and fall and is now a riot of blossom against a background of living green. Those who are conversant with the facts give Mrs. Kibler credit for this splendid example of civic attract-

iveness and we take our hats off to her as landscape gardener.

It is a pity that all the home owners in McLean do not give more attention to their gardens and grounds as the added beauty and attractiveness of the city would be manifold if the beauty of our numerous pretty homes was augmented by attractive surroundings.

Vote on Bonds

It is announced authoritatively that the citizens of Wheeler County have become thoroughly awakened to the possibilities of a great highway through the territory and are making arrangements to call an election at an early

date for the purpose of voting on a bond issue to build a first class road across the county from east to west, which they hope will be a link in the Ozark Trail.

here's what the

J. W. PEARSONS, 510 ANGELO CIRCLE, CARLSBAD, N. M., say:

They point out that a busy home requires husband and wife to share in the household duties. As Mr. Pearson says, "My wife is so busy with the children that I do a lot of the cooking. And I enjoy our electric range because it is quicker and a whole lot cleaner. Our electric range gives us a complete selection of controlled heat for any size pan, which is a big help for any cook." You'll notice the difference, too, when you start cooking electrically.

The Pearsons heat their water electrically, too. Mrs. Pearson says, "With a family of 5, including a baby, which sometimes requires as many as 3 washer loads of clothes a day, our water heater is economical, less than 10 cents a day to operate. It's completely safe, even for small children. In fact, we have put it in an open alcove in the hall." Notice in the picture, Mrs. Pearson fixes her daughter's shoe while daughter and mother obviously feel no wasted heat coming from the electric water heater. And that's because an electric water heater has no flame, and so is insulated on ALL sides.

Start now to live better electrically in your home. See your Reddy Kilowatt dealer and let him show you the wonderful electric appliances that contribute so much to modern electric living.

## Laura Nell Brown and Wayne Morris Exchange Wedding Vows Saturday

Marriage vows for Laura Nell Brown, daughter of Mr. and Mrs. R. L. Brown of McLean, and Wayne Morris, son of Mr. and Mrs. Craig Morris of Clarendon, were read Saturday evening, October 6, at 8 o'clock in the home of the bride's parents.

Dr. Buell Wells, pastor of the First Baptist Church, read the double-ring ceremony against an archway of pink gladioli and greenery, flanked by baskets of pink glads.

The bride, given in marriage by her father, wore a ballerina length gown of white brocaded satin. The gown was styled with tiny buttons down the front, ending at a pointed waist, a small Peter Pan collar and cap sleeves. Her headdress was of pink split carnations and she carried a white Bible topped with pink carnations and pink streamers.

Miss Bette Brown, aunt of the bride, was maid-of-honor. She wore a blue peau de soie dress with a white headdress.

The best man was the groom's brother, Glenn Morris of Clarendon.

The traditional wedding march was played, and Miss Jo Ann Turner sang "Because" and "Always."

Following the ceremony, a reception was held. The refreshment table was laid with a white lace cloth over pink with a bouquet of cut flowers. Barbara Brown, sister of the bride, served the wedding cake. Ada Lou Brown, cousin of the bride, poured the punch and another cousin, Linda Nicholas, registered the guests.

Out-of-town guests attending were Mr. and Mrs. Craig Morris, Vernon, Kenneth, and Debbie, Mrs. Cathleen Griffin and Mrs. H. Jones of Clarendon.

## Happy Swap

More and more farmers—who badly need hired help sometimes, but can't afford a full-time hand—are making deals with young town workers and the employers they work for.

For instance, young Hap Hooper now lives rent-free on Easy Roberts' farm. In return he works about 100 days a year for Easy—for a farmhand's pay.

The rest of the year Hap works for his "regular" boss... Buzz Ellis, the electrician. Buzz just speeds up his business when Hap's on hand—slows it down

when he isn't—and, like Easy, pockets healthy savings in wages. From where I sit, it's great how people with different backgrounds—and different viewpoints—can co-operate. How about more of us trying that? I live in a town—maybe you're a farmer. I'm partial to a good glass of beer—you may prefer coffee or milk. But we can make things pleasanter by ignoring differences and giving each other a "hand."

Joe Marsh

**THE STATE OF TEXAS COUNTY OF DONLEY**

BE IT REMEMBERED, that the Honorable Commissioner's Court in and for Donley County, Texas, convened in regular recessed session, on this the 28th day of September, A. D., 1956, at the Courthouse in Clarendon, Donley County, Texas, with the following members present, to-wit:

Jack E. Gray, county judge, presiding; Hubert Rhoades, County Commissioner, Prec. No. 1; F. M. Murray, County Commissioner, Prec. No. 3; Jess Finley, Commissioner, Prec. No. 4; and P. C. Messer, County Clerk, and Ex-Officio Clerk of the Commissioners' Court.

 cause we do expect rain again, but now is the time to make plans for controlling this run-off water. Several farms observed since the recent rains have shown some severe damage from washing. The best way to control damage from water erosion is to be prepared when the rain comes.

PROMPT DIAGNOSIS and assignment for treatment of large numbers of attack casualties would be the function of the "triage," or admitting room in a Federal Civil Defense Administration 200-bed emergency hospital. Because first aid training programs have been expanded, it is expected that most victims—like this simulated casualty—would have received some first aid before they reached the hospital for actual professional treatment. (FCDA Photo)

EMERGENCY HOSPITAL 15-kilowatt generator for operating room lights and power equipment is loaded at a Federal Civil Defense Administration warehouse onto two trucks. In attack situations, an entire self-sufficient 13 1/2-ton hospital of 258 items in 450 containers could be moved by a single large truck to a school, church or other suitable building which was reasonably undamaged. (FCDA Photo)

COMPLETE HOSPITAL designed by the Federal Civil Defense Administration to supplement existing hospitals in case of attack is shown in the display above, minus only its generators and most of its 250 cots. The hospital would occupy about 15,000 square feet for ideal operation, but in the more crowded display above, the following major segments may be seen: (1) Admitting center, where patients are assigned to various parts of the hospital for treatment. (2) Portable X-ray, with its own generator and special process for 60-second development of photographic plates. (3) Simulated ward, which would be much larger and accommodate 200 patients at a time in actual practice. (4) Operating room, complete with lights powered by a generator. (5) Laboratory for blood typing and other elementary medical tasks. (6) Pharmacy and supply section. (7) Sterilizing room, including autoclaves operating on liquid fuel. (FCDA Photo)

**O'Daniel Rides Again**  
 W. Lee O'Daniel is back in the saddle again, riding the range for votes. This time it's a big bus and the Hillbilly Boys.

Twice refused a place on the general election ballot, "Pappy" is campaigning as a write-in candidate for governor. He reports thousands of letters asking instructions as how to vote "the write-in way."

First big bomb to be tossed by the former Democratic governor was his endorsement of Republican Dwight D. Eisenhower for re-election as President of the United States.

Proof that O'Daniel means business is evidenced by the fact that he is advertising consistently by press and radio, statewide.

**Other Campaigners**  
 Texas strategists for Ike and Adlai will send fresh recruits into the field this week as campaigns enter the final month.

For Adlai, a "Democratic Victory Van" loaded with buttons, literature and speakers, was launched from Austin over the week-end. It will make a 30-day, 10,000 mile trek "to the forks of the creek."

Democrats for Eisenhower added a one-time Stevenson supporter to their crew. He is Johnston Murray, former Democratic governor of Oklahoma, now a Fort Worth business man. Murray, a long-time friend of Gov. Allan Shivers, speaks Spanish fluently, and will make speeches mostly in South Texas.

**Resignations**  
 James H. Blundell of Dallas, chairman of the Democratic executive committee for less than

a month, has resigned. His reasons were both personal and business.

Succeeding Blundell is Jim Lindsey, former speaker of the House of Representatives and State Representative from Texarkana, now head of the Texas Good Roads Association.

L. C. Page of Tyler, also a member of the committee, has resigned. He gave as his reason Stevenson's statement that he favors an end of the draft.

**House Investigators to Meet**  
 A loaded agenda awaits the House Investigating Committee meeting, beginning in Austin October 19.

Scheduled are: (1) extensive inquiry into tidelands leasing procedures, as instructed by the last legislature; (2) preliminary consideration of a report to be made to the next session on insurance companies; (3) a report on the committee's inquiry into absentee voting in Webb County; (4) discussion of possible recommendations that powers of any future investigating committee be limited lest it be "used as a political tool."

**Prison Expansion Urged**  
 The Texas prison system is in for "serious trouble" unless it gets more money for buildings and salaries.

General Manager O. B. Ellis warned that the prisons cannot continue to "stack men up the way they are now." Also, said Ellis, the system is understaffed by 58 guards, and lacks even one psychiatrist to deal with the increasing numbers of "mentally irresponsible troublemakers."

In an Austin speech Ellis gave an advance outline of the expansion program he will seek from the next legislature. His proposed "bare minimum" budget:

\$4,825,000 for new buildings and an \$870,000 increase for operating costs, including salaries. **Three Million Jobs Seen**  
 Three million jobholders in the state by 1957 is foreseen by the Texas Employment Commission. TEC also predicted steadily rising employment through the fall with a peak in December well above last year's figure of 2,862,000.

Even before school openings brought a bustling upsurge, non-farm employment had swelled to 2,901,500. Agricultural laborers totaled 273,600, which, despite drought, was 12,000 more than in 1955.

**Business Record in Doubt**  
 Economic experts are backing off from earlier predictions that Texas business in 1956 will top the 1955 record.

Retail merchants entered the fall months with the sales index off 8% from a year ago. Automobile sales lagged 20%.

Overall business activity for 1956 is slightly higher than '55, says the UT Bureau of Business Research. But if the downward trend continues, hopes for a new record may be too optimistic.

Credit tightening has slowed, but not "seriously affected" Texas' rapid industrial expansion, says Dr. John Stockton, head of the research bureau.

Many Texas merchants look to a big holiday boom to bring up the year's average.

**Washburn Verdict Reversed**  
 The murder trial of Harry L. Washburn will have to be tried again. Texas' court of criminal appeals has reversed and remanded the Waco conviction.

Washburn had been given a life sentence in the auto-bomb killing of Mrs. Helen Harris Weaver of San Angelo.

Defense attorneys contended the state prejudiced the jury with "fact-laden questions" to a witness who claimed 5th Amendment immunity.

Washburn said he hoped for a new trial in his home town, Houston.

Canada is larger than continental America.
