Highlights and Sidelights FROM Your State CAPITOL

Legislature to Be Busy

Texas' 56th legislature will have much of its work cut out for it by January 8.

State agencies and public and semi-public groups by the score are busy drawing up desired changes in state laws. Almost every day brings one or more public appeals pinpointing some proposed enactment as vital to state progress.

Some want certain laws liberalized. Others want them tightened. Many departments of state government seek new or increased appropriations.

Examples in the news:

State board of education wants \$50,000 a year for the next two fiscal years for education and rehabilitation of mentally retarded.

Board for state hospitals and special schools wants the state cigarette tax providing \$5,000,000 a year for its building program continued two more years. Contingent on this, it asks \$11,000,000 for building improvements in the next biennium.

Texas prison board wants some \$5,500,000 for new building and staff needs resulting from an 80% jump in prison population.

Texas law enforcement conference wants 29 law changes aimed at updating criminal detection and trial procedures. Typical items: set up a statewide file of fingerprints of convicted felons, allow drunk driving convictions upon scientific blood tests, provide public defenders for defendants without funds, etc.

Texas Junior Chamber of Commerce wants to institute annual legislative sessions with annual and more substantial salaries.

Texas Congress of Parents and Teachers wants a 10-point program involving improvement of the school system and teacher salaries, strengthening of laws concerning juveniles, banning of common law marriages, sale of narcotics to children, and sale of fireworks.

Costly Change

At an approximate cost of \$1.00 per vote, Texans have approved

a plan to aid the permanently disabled.

It was the third time in history the legislature had fumbled its calendar in setting a constitutional amendment election. Eight amendments were taken care of with the general election. But the ninth, by error, was dated for a week later.

Confused or short of funds, nine counties held no election. Another held it a week early. In all, some 200,000 straggled to the polls. Estimated cost: \$200,000.

Under the amendment, qualified persons will receive \$58 a month, \$20 from the state, balance from federal funds.

NAACP Seeks Move

Next encounter between the state and the NAACP will be in Tyler district court December 3. NAACP will then seek to have the site of future hearings changed from Tyler to Dallas or Austin.

Last month in Tyler, District Judge Otis T. Dunagan granted a temporary injunction against operation of the NAACP in Texas. Defendants gave oral notice of appeal.

Since, the organization abandoned appeal efforts and asked for a full trial on merits. If it loses this, the injunction becomes permanent.

Atty. Gen. John Ben Shepperd said his staff already is at work preparing and that he "earnestly hopes" the trial can be completed in December. Shepperd will be succeeded by Will Wilson on January 1.

Oil Boost Okayed

Texas' December oil allowable will be 3,442,592 barrels daily—an increase of 75,503 barrels a day.

A 16-day producing pattern was set by the Railroad Commission, compared to 15 days in November.

Several major companies had urged 17 to 19 producing days because of disruption of supply lines from the Middle East. But representatives of Texas Independent Producers and Royalty Owners contended crisis needs could be met with surplus oil in above-ground storage.

In announcing the 16-day pattern, Comm. Chm. William Murray said the commission could issue a half-month emergency order later if necessary.

State Wins Tideland

Texas Supreme Court added to Texas' public domain in a case setting the boundary between tidal and landholder's property.

"Highest tide of the year," not "average tide," determines the

dividing line between tideland and coast land, ruled the court.

In the test case Texas gained 4,986 acres of mud flats along Laguna Madre north of Port Isabel.

Eventual result, said Atty. Gen. Shepperd, will be the gaining of hundreds of thousands of acres and millions of dollars for the permanent school fund.

Tidelands, according to law, belong to the state. Income is earmarked for education.

Tax Issue Clarified

Corporation franchise taxes do not have to be figured on the rate in effect at the end of the year if the rate was lower during the year.

Third Court of Civil Appeals so ruled in a suit brought by Southland Cotton Oil Company to recover taxes paid under protest.

During most of Southland's first year the franchise tax was \$1.25 per \$1,000 taxable base. By the end of the year the rate was up to \$2.00.

State officials contended the company should compute the entire year's taxes at the \$2.00 rate. Southland paid the full amount, but sued for recovery.

Grain Crops Skid

Texas 1956 grain crops will be substantially less than last year, but better than expected earlier.

A 28-million-bushel corn crop is forecast by the U. S. Department of Agriculture. This compares to 49 million bushels in 1955. Sorghum is expected to hit 98 million bushels, a drop of about one-third. Rice is set at 46 million bags, a 15% decline.

Even so, forecasts showed an optimistic upturn since the last estimates a month ago. Another bright spot: USDA expects citrus production to run more than 50% above last season.

MORE LIVESTOCK WILL BE NEEDED

The following is from a Wall Street Journal news column: "To feed 1975's bigger, more prosperous population, federal prophets say, the nation will need 33% more livestock and livestock products and 22% more crops. The experts figure farmers will have to produce one-third more cattle, two-fifths more hogs, one-fourth more milk, two-fifths more eggs and chickens."

This is good news for livestock people, as well as the producers of the other farm products which will be in stronger demand. Also, of course, it presents a challenge. Meat production, particularly, must be planned on a long-term basis. Nature has her implacable laws, and you can't materially increase livestock herds in a hurry.

But every precedent indicates that U. S. agriculture will produce all the steers, hogs and other meat animals that the country can use. They always have—and in periods when both total and per capita demand have increased sharply. There are good reasons why that should be so.

For one thing, meat animals provide farmers with their largest single source of cash income. For another, there is an established market for these animals that operates every business day of the year—prices vary, naturally, but the market is always there. Most important of all, livestock production isn't subjected to government restrictions as are the subsidized crops. It is conducted within the framework of our free enterprise system—and individual producers, not the bureaucrats, have the power of decision. That works to the long-range advantage of everyone concerned—all the way from farm and ranch to the nation's dining tables.

Wishes Come True for Texas 4-H'ers

The perennial wish of Texas 4-H Club members—state honors and a trip to the National 4-H Club Congress in Chicago—came true this year for four teen-agers whose 196 records of performance were superior in the 4-H Food Preparation, Dress Revue, and Canning programs. A few highlights of their 4-H work are presented here.

Judith Dawson, 15, of Tulla is designer, seamstress, and model all rolled into one. Judged on three main points—herself, her outfit, and its construction, she won top state honors over all other 4-H participants in the 1956 Dress Revue. Judith's costume, which she will model in Chicago, is made of a dark brown silkette fabric, with an empire waistline and envelope skirt. Her accessories include dark brown gloves, kid leather shoes and bag. A tangerine velveteen hat and amber jewelry complete the ensemble.

nearly 2,000 meals. Having a variety of skills in food preparation, her favorite is cake baking. Gwenna realizes the value of dairy products in the diet—especially for her younger brothers and sisters. She has given demonstrations on dairy foods. Her 4-H leader is Mrs. Cecil Brown. Evelyn Trietsch, 17, of Sanger won the much desired Chicago Congress trip awarded in the 4-H Canning program. Throughout her six year 4-H career, Evelyn has been keenly interested in practical things concerned with homemaking.

Judith Dawson

Gwenna Lee Keith

Evelyn Trietsch

Judith's local leader is Mrs. Loy Pysatt. For the 10th year, Simplicity Pattern Co. provides awards in 4-H Dress Revue. Gwenna Lee Keith, 16, of Glacio has become an expert in preparing nutritious, appetizing meals. Participation in the 4-H Food Preparation program has taught her how to select, plan, and serve a wide variety of dishes. As state winner, the Kewinator Division, American Motors, provides her all-expense trip to Chicago. A Club member for eight years, Gwenna cooked and helped with

Recognized as an expert in preserving home grown foods, she has already to her credit over 500 jars of fruits and vegetables—mostly from her own garden. Evelyn is junior leader of the Blue Mound Community Club led by Mrs. J. B. Haisler and Mrs. Brad Gibson. A member of the National Honor Society, Evelyn is now a freshman at North Texas State College. For the 28th consecutive year, Kerr Glass Mfg. Co. supports 4-H work, providing her trip award.

All these programs are conducted under the direction of the Cooperative Extension Service.

Bible Class Report

The McLean Girls Bible Class met Saturday, November 18. Fifteen girls were present. The new officers elected were: Frankie Mae Upham, president; Verda Dean, secretary; Leona Watkins, reporter.

The Bible class meets every Saturday afternoon at the Presbyterian church at 4 o'clock. Every girl come and bring your Bible.

Montgomery and Harris Entertain

The members of the L. Y. H. Club were delightfully entertained with a six o'clock dinner last Saturday evening at the home of Miss Montgomery.

The home was artistically decorated in the club colors, white and pea green.

After dinner, the guests of the club were invited, and the evening was pleasantly spent in progressive games of 42, and many contests were the features of the evening.

At a late hour refreshments were served consisting of sandwiches, fruit salads and coffee, after which the guests declared themselves most heartily entertained by the charming ways of the young ladies.

Those present were Misses Watkins, Foster, Cook, Boll, Pearl and Lillie Gull, Bush, Harris, and Montgomery.

Messes Thompson, Thom, Eakins, Richardson, and Floyd; and Mr. and Mrs. A. G. Richardson.

Mrs. M. K. Guertin of Houston was the special guest of the evening.

Birthday Celebration

Complimentary to her little daughter, Maybelle, Mrs. D. B. Veatch entertained a large crowd of little folks at a party Saturday afternoon of last week. The pretty reception rooms were decorated in pot plants, and the table in the center of the dining room, where refreshments were served, was a delight to the childish eye with its lovely basket of flowers and birthday cake with five tiny candles burning.

Little Miss Joyce Caldwell added to the entertainment by giving a number of readings, and Johnnie Langley sang many pretty little songs. Lovely presents will long make the honoree remember her fifth anniversary.

CARD OF THANKS

We wish to thank the good people of McLean for the nice television and all the other wonderful things you have done and are doing for us in our illness. Surely God's grace will rest upon such good people. May His blessing rest upon each of you is our prayer.

LIBRARY NEWS

By Lady Bryant, Librarian

New books have arrived at the library for all age groups. "Captain Rebel" by Frank Yerby, "Stranger from the Tonto" by Zane Grey, "Star Kicker" and "Switch Hitter," for the juvenile sports shelf. Non-fiction includes "Experiments in Space Travel," "Radar and Other Electronic Inventions" and "The Story of Rocks."

We suggest a plan whereby funds will be made available for another order of new books—PAY YOUR FINES.

Friends of Mrs. J. M. Noel have remembered her in this way: Mr. and Mrs. Clyde Magee and family gave the book, "Hurlbut's Story of the Bible," to be placed on the memorial shelf; Mr. and Mrs. Chuck Cooke gave a subscription to Collier's magazine for one year; from Mrs. H. E. Franks is a biography of Robert Louis Stevenson.

Should you have some time on your hands and no hobby to work at, I can put you to work if you are interested. The picture box has a total of several hundred pictures that could be classified and placed in large envelopes, index included on each package. The ideal magazines carry useful holiday material for Thanksgiving and Christmas.

Come to see us one day soon. Your friends are here nearly every day, you know.

Post Office Helps In Livestock Survey

Rural mail carriers are going to leave some cards along their routes that they'll want back in a few days.

"These cards are used in making the yearly survey of the number of livestock on Texas farms," Johnnie R. Back, postmaster, explained.

Every year at this time the post office cooperates with the U. S. Department of Agriculture in getting reports from farmers and ranchers about their livestock holdings.

In distributing these survey cards, rural carriers pick boxes at random along their routes.

"This means that not every box will get a card," Back said. "For this reason, it's important for everyone who gets a card to return it filled out so that USDA can get a true sample of the nation's livestock holdings."

The facts and figures secured in this survey are the basis for a state and national pig crop report and inventories of livestock and poultry on farms as of the first of the year.

The material is analyzed and reported by the crop reporting board of the agricultural marketing service, an agency of the U. S. Department of Agriculture.

Methodist WSCS Meets Tuesday In Church Parlor

Forty-four members of the WSCS of the McLean Methodist Church met Tuesday afternoon at 2:30 in the church parlor.

Mrs. Kirby, president, conducted the business session.

Mrs. Longino led the prayer.

The program directed by Mrs. Parker was a children's program of the kindergarten, primary and junior Sunday School classes. Assisting Mrs. Parker were Mrs. Jesse Coleman, Mrs. Sam Haynes, Mrs. Guy Beasley, Mrs. Harold Bunch and Mrs. Clyde Magee.

The program was as follows: several songs by the kindergarten class; "America the Beautiful" played by Vicky Bunch; a song, "Thanksgiving Calamity," by Dorothy Beasley and Bryan Parker. Jackie Hess told the story of the "Harvest Booths"; "Journey to Jerusalem" was given by Patricia Jenkins; and "Jewish Thanksgiving of Today" by Joyce Beasley. Bible verses describing the promised land were given by Jackie Hess, Joyce Beasley and Patricia Jenkins. Others on the program were Brad and Michele Parker, Stevie Melton, Martha Beasley, Diana Bunch, Craig Fuller, Jan Coleman and Jamie Brown.

Refreshments of cookies, cocoa and coffee were served by the CSR committee.

Christmas Seal Sale Is Effective Way To Kill Tuberculosis

Ninety-three thousand pounds of TB-killing material will go through Uncle Sam's mail this week in Texas.

Its magic will be spread in post office boxes throughout the state.

By itself the material will not kill tuberculosis, but it provides a means of controlling the disease which yearly causes more deaths than all other infectious and parasitic diseases combined. That disease is tuberculosis.

Those 93,000 pounds are Christmas seals.

In the 50 years since the first bright bit of gummed paper appeared on the American scene, much has happened to tuberculosis

control. Because of money brought in by those bits of paper, 3,000 TB associations dot the country, working slowly but tellingly against what was, a half-century ago, the nation's No. 1 killer.

Today, because of contributions of the voluntary TB movement, research and medical knowledge have been able to cut the death rate from the disease 68% in Texas in the last ten years.

Perhaps from the comfort Texans have derived from that scaled-down death rate, complacency has set in. But not enough has been done to keep the disease from pulling down new patients. Last year, more new cases of TB were reported in Texas than were found the year before.

Tuberculosis is still a threat as proved by the fact that the nation spends \$600 million each

year to treat and control it. Tuberculosis is still a threat as proved by the fact that the average patient spends 15 months in the hospital before his case is marked "arrested." Tuberculosis is still a threat when men and women refuse to be hospitalized, or leave a hospital before their case is non-infectious and go back into everyday life, infecting others with the disease.

So, welcome your Christmas seals, your own individual package of TB-killing materials.

Congressman Rogers Reports— TO THE PEOPLE

Tension on the World Front
 Since Nasser seized the Suez Canal, tension on the world front has developed so speedily that it has been almost impossible to follow. Each day brings more news indicating the possibility of an outright break that cannot be healed. England and France played the game so fast and loose that they took action without telling their No. 1 ally what they were going to do. I say No. 1 ally because we are the country that has pulled the chestnuts of France and England out of the fire in two world wars and protected both countries in the police action known as the Korean War, in less than 50 years. Our own President told the American people in a nation-wide broadcast that this country was not consulted about that action of moving into the Suez area by either France or England, and was not advised that those countries were intending to take that step. As I pointed out in a previous newsletter, it is difficult for me to understand what our intelligence agents were doing when France and England decided upon this move. But actually that is beside the point. England and France took affirmative action that could well have triggered a third world war within half a century, when they failed to obtain the consent of this country to that action. No one doubts but that if their action had triggered the third world war this country would have been called upon to shoulder the burden of furnishing most of the men, most of the machines and substantially all of the food and fiber to put the fire out.
 England now tells us that she and France acted without prior notice to this country because Russia was fixing to move into the Middle East and it was necessary for France and England to beat her to the draw. This may be true, and if it is, certainly a move that would block such action by Russia without instigating a war, would certainly be in order. But it must also be remembered that such intention on the part of Russia would be of as much, if not more, importance to this country than any other place in the world. Therefore, England and France could not possibly justify their failure to notify this country of such a serious threat on the part of Russia, except on the ground that they did not trust this country to make the right decision under such circumstances, or else they were suspicious of the security measures of this country and were afraid that information would leak to the Russians. Neither of these reasons would, in my opinion, have any support whatever on the basis of soundness. It would seem to me that both England and France should apologize for their actions, if not their
