

PLAIN TALK

By BILL PERKINS

The McLean 66 Roundup and Rodeo was a success in every way—even financially—for the sponsoring organizations. A financial statement released by the committee and published in this issue shows that a net profit of \$1530 was made. We understand that plans are underway for an even bigger and better celebration here next year.

We usually hesitate to compliment specific individuals who work to put over a celebration of this type because no matter how hard we try it is impossible to include everybody. But we've never seen anybody anywhere work harder than John Haynes, C. P. Hamilton and Bob Sherrard did to make this year's rodeo the success that we all know about who did fine jobs, and we are sure that there are many that we don't know about who deserve recognition.

Although we will not attempt here to name the others who contributed time, hard work and money, we know that each individual feels that the good he has done for his organization and for McLean is reward enough.

We feel that the three organizations cooperating in the sponsoring of the event this year have made our town a little better because of the unity which was shown here.

We also feel that we all owe a debt of thanks to Cotton John, Hal Mayfield and Bill Rhew, and KGNC for contributing so much radio and TV time to help publicize the event. Bob Lizzard, the Amarillo newspapers and the newspaper-owned broadcasting facilities always are most helpful to McLean in all of its important undertakings.

The most curious thing in the world is a woman who isn't.

Dale Parvin was passing out cigars Tuesday night at the Lions Club installation and was telling everyone about his new little girl. Lion Jack Riley did the same thing a few weeks ago upon the arrival of the new young lady at the parsonage. We were mighty tempted both times because we always enjoyed a cigar most of all after a good meal like we get at the Lions Club. But after smoking for 10 years we decided to quit 16 weeks ago today. We haven't had a cigar or a cigarette since that time and are now getting to the point where we don't think about smoking more than four or five times a day. We think we have the problem licked. There are still a few things we haven't figured out yet, though: 1. Why we ever started smoking in the first place; 2. Why we didn't quit a long time ago; and 3. What is happening to that fifty to eighty cents a day we used to spend for cigars?

The Old Timer says that some folks are so far-sighted that they rest before they get tired.

Odell Mantooh had an operation over the weekend but he was at the Lions ladies night Tuesday. He rounded out six years of perfect attendance with the club.

When we act on impulse, we take dictation from our hearts and then can't read our own shorthand.

The Texas Outlook brought this bit of wisdom to our attention: "A man can often tell what kind of time he is having at a party by the look on his wife's face."

Marie Foundations continues to grow, and 54 persons are employed with the local manufacturing firm according to the last report we have had. They've only been in operation for four months, too!

We received a letter for publication this week which we did not print. There was nothing WRONG with the letter except that the writer did not sign his name. We will be glad to print letters of a constructive nature but ONLY if the letter is signed.

Friday is the first day of summer.

We are going back to our old home town to attend the school homecoming this weekend. When looking through some old keepsakes at Commerce last year we ran across one copy of our high school paper that was beginning

SERVICES FOR M. E. BROWN HELD SUNDAY

Services for Morris Elie Brown, Sr., who died of a heart attack at his home five miles east of town Saturday, were held Sunday afternoon at 3:30 at the First Baptist Church with Rev. Jesse Leonard, pastor, officiating. Rev. J. R. Lawson, pastor of the Kellerville Baptist Church, assisted with the services.

Mr. Brown was born in Kentucky in 1888 and moved to McLean from Chillicothe in 1937. He owned and operated a service station on Highway 66 five miles east of McLean.

He was married to Miss Maggie Smith November 5, 1914.

Mr. Brown was a deacon in the First Baptist Church and was a member of the Masonic Lodge in Chillicothe.

He is survived by his wife; four daughters, Mrs. Joe Brown of Kellerville, Mrs. A. A. Nicholas of McLean, Miss Bette Brown of Lubbock, and Mrs. Clayton Lock of El Paso; three sons, Morris, Jr., and R. L. of McLean and J. B. of Kellerville; two sisters, Mrs. A. W. Phillips of Chillicothe and Mrs. Ida Tune of Azel; one brother, H. T. Brown of Chillicothe; 15 grandchildren and one great-grandchild.

Pallbearers were deacons of the First Baptist Church. They were Boyd Reeves, Homer Abbott, Howard Williams, Rush Turner, R. L. McDonald and Joe Taylor. Honorary pallbearers were Custer Lowry, Wallace Rainwater, Leroy Williams, George Colebank and T. A. Landers.

Burial was in Hillcrest Cemetery under the direction of Richardson-Lamb Funeral Home.

Funeral Services Held Wednesday For S. E. Smotherman

Funeral services for Stanford Earl Smotherman, 69, were held Wednesday afternoon at 2:00 o'clock at the First Baptist Church. Rev. Jesse Leonard, pastor, officiated, assisted by Rev. Carl Baker.

Mr. Smotherman was born March 22, 1888, in Murfreesboro, Tenn., and died Tuesday. He moved to McLean from Corsicana in 1928. He was a Baptist.

Interment was in Hillcrest Cemetery under the direction of Richardson-Lamb Funeral Home.

Survivors are one sister, Mrs. C. C. Dalton of McLean; one brother, D. A. Smotherman of East Texas; two nephews and one niece.

BIRTHDAYS

June 23—Jill Marie Page, Mrs. G. W. Billingslea, Kenny Simpson, Duane Holmes.

June 24—E. J. Lander, Mrs. S. A. Cousins, Sharon Vineyard, John Wayne Sublett, Duwayne Blackshear.

Weekend Revival Set By Baptist Youth

A weekend youth-led revival will be conducted Friday night, Saturday night and Sunday at the First Baptist Church.

Services will be conducted by the young people of the church, assisted by the Volunteer Mission Band from Wayland College.

Rev. Jesse Leonard, pastor, has extended an invitation for everyone to attend the services.

Nobody ever gets anything for nothing, but a lot of people keep trying.

GEORGE SAUNDERS
... Lion of the Year

Amos Page, local theatreman, was installed as president of the McLean Lions Club at the Tuesday ladies night affair held in Fellowship Hall of the McLean Methodist Church.

Page succeeds Lion Boss George Saunders.

Installing officer was District Governor-Elect Bill Smith of Ralls. Other officers installed were: first vice president, L. K. Fuller; second vice president, W. C. Simpson; third vice president, Freeman Melton, Jr.

Elmo Whaley was installed as secretary of the club for the coming year, and Charles Cousins will be treasurer.

Harold Bunch is the new Lion tamer, and Odell Mantooh was installed as tail twister for the coming year.

Jim Hathaway is a new director, as is Johnny M. Haynes.

Highlight of the evening was the presentation of the "Lion of the Year" award to the outgoing president, George Saunders. Every Lion voted by secret ballot in April for his choice for Lion of the year. Lion Ralph Thomas of Pampa was in charge of the ballots since that time and only he knew who the winner was until he presented the award to Lion Boss Saunders Tuesday night. The honor is given each year to the Lion who contributes most to Lionism as determined by popular vote of all members.

Lion Cliff Day presented perfect attendance pins to those Lions who had earned the honor. Lioness Lois Page, wife of the new president, was presented a pin by Lion Boyd Meador in recognition of the work she will have to do during the coming year. Meador also presented a gift to the out-going club sweetheart, Mauree Miller, and introduced the sweetheart for the coming year, Flo Nell Crockett.

Entertainment for the evening, arranged for by Program Chairman S. A. Cousins, was brought to McLean by Sheriff Rufe Jordan of Pampa and featured a fine men's quartet.

An excellent dinner was served to the Lions, their wives and guests, by the ladies of the Methodist church.

After installation of the new officers, each Lion pledged his support to the club and its officers as the beginning of another successful year in the history of the local service organization got underway.

Child Photo Contest Winners Announced

Winston B. Lucas, Irving photographer, has announced the winners in the children's photo contest held at The McLean News office recently.

First prize winner was Craig Cunningham, son of Mr. and Mrs. Donald Cunningham. He was awarded an 11x14 bronze portrait.

Judy Ann Smith, daughter of Mr. and Mrs. Joe Smith, was second place winner and was awarded an 8x10 bronze portrait.

Third prize, an 8x10 black and white portrait, went to John Reeves, son of Mr. and Mrs. Bill Reeves.

Pictures of all contestants will be published in The McLean News in a few weeks.

Clarendon Schedules 3-Day Celebration

Clarendon's annual 3-day celebration will begin this year with the first of four big rodeo performances at the rodeo grounds at 8 o'clock on Tuesday night, July 2. Persons performing in the rodeo must register some time before 1 p. m. on Tuesday.

The Clarendon Outdoor Entertainment Association will offer prizes in the amount of approximately \$3,500 for the four performances.

The high point of the big celebration will be a free barbecue beginning at 11:30 a. m. on July 4. Last year some 5,000 people were fed on beef barbecued by H. M. (Flip) Breedlove, Donley County agent. Another high point of the program will be an old settlers reunion which will begin at 9 a. m. on the 4th. All old settlers in the surrounding communities are invited to this reunion.

The four rodeo performances will be Tuesday night, Wednesday night, Thursday afternoon and Thursday night. Each night performance will begin at 8 o'clock and the one afternoon performance will begin at 2 o'clock.

CRAWFORD DIES SUNDAY AT ALANREED

Funeral services for W. B. (Pete) Crawford of Alanreed were held Tuesday afternoon at 2:30 in the Alanreed Baptist Church with Rev. J. I. Herndon, pastor, officiating.

He was born June 7, 1907, in Midland, Okla., and died of a heart attack in his home in Alanreed Sunday morning. He had been a resident of Alanreed for the past 14 years and had been an employee of the Rock Island Railway Company for 15 years. Mr. Crawford was married to Miss Alice Benedict in 1929 at Oklahoma City.

Interment was in the Alanreed Cemetery under the direction of Richardson-Lamb Funeral Home of McLean. Pallbearers were former co-workers.

Survivors include his wife, Alice; one son, Harold of Prague, Okla.; one daughter, Mrs. Johnny Burns of Prague; two grandchildren; four sisters, Mrs. Ann Strinkle of Oklahoma City, Mrs. Roy Howard of Lefors, Mrs. Jimmie Hill of Alanreed and Mrs. J. A. Patterson of Groom; and two brothers, George of McCloud, Okla., and Homer of Duncan, Okla.

'Wings of Eagles' At Derby Drive-In

"The Wings of Eagles," starring John Wayne, Dan Dailey and Maureen O'Hara, will be at the Derby Drive-In Theatre Sunday, Monday and Tuesday.

Comdr. Frank (Spig) Wead, one of the navy's great modern heroes, is the subject of the film. "The Wings of Eagles" tells of this man who, after he had suffered a spinal injury, was told by doctors that he would never walk again. A pioneer in naval aviation, he learned not only to walk but to continue to fight for navy air power. And when later he began writing for the Broadway stage and Hollywood, it was about the subject he knew and loved best.

SOIL CONSERVATION DISTRICT NEWS

OUR SOIL ★ OUR STRENGTH
By Jack G. Douglas
Work Unit Conservationist

"We have no erosion. Our land is level." How often you've heard someone say that! It raises a question of who's kidding whom.

How about run-off? Put enough water on "level" and it will run somewhere. And when it runs, look out! Flatlands are not damage proof against moving water.

How about the effects of falling water? If a storm dumps an inch of rain on a piece of land, the water strikes with enough energy to plow the soil 10 times. This splash erosion dislodges (and more or less transports) tons of soil, if unprotected, even on level land.

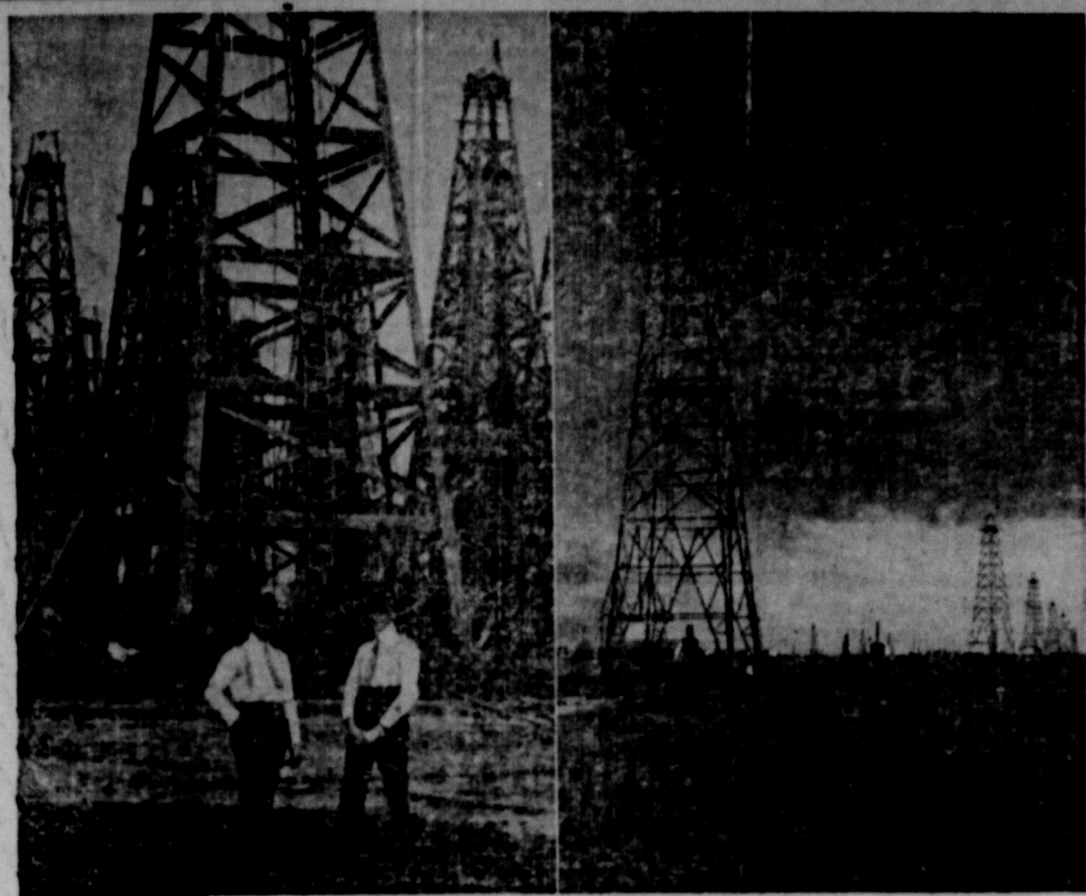

How about soil structure? Beating rains can destroy the desirable granular structure of a soil. They pack the soil hard and tight.

How about puddling, flood water or standing water? Too much water can be as bad as not enough, and surplus water usually finds its way down from the higher land to the "flat" bottoms.

How about wind erosion? It's no respecter of level land, either. How about loss of seed, fertilizer, organic matter? Water can carry it away from level land, too!

No erosion on "level" land? Don't kid yourself! No matter what your topography may be, you must be constantly alert to the needs of soil maintenance.

If you need contour lines or diversion terraces on flat lands or a need for terraces on your

PROGRESS IN CONSERVATION is clearly illustrated by these two photos from Humble files. At left are wooden derricks of a generation ago, closely spaced for quick — though wasteful — production, as outmoded as the fashions of the men pictured. At right is a modern oil field in the Panhandle, with steel derricks marching in a scientifically

spaced pattern across the prairie. Ultimate oil recovery from today's efficiently developed reservoirs may be several times that possible from yesterday's haphazard methods. And everyone benefits — the landowner, the oil company, and most of all, the consuming public.

These Forty Years!

Forty years ago, in June of 1917, the Humble Company received its charter from the State of Texas.

The Company was formed through a merger of the properties of a number of independent oil operators. Its founding brought together a remarkable group of men who occupy an important place in the annals of the oil industry:

R. S. Sterling and his brother, F. P. Sterling, the principal organizers of Humble Oil Company from which the present company acquired its name; W. S. Farish and R. L. Blaffer composing Blaffer and Farish; H. C. Wiess with assets from Paraffine and Reliance Oil Companies; Walter W. Fondren and C. B. Goddard, producers; and L. A. Carlton and E. E. Townes as lawyers.

All of these men contributed greatly in adopting the principles, in shaping the policies, and in laying out procedures that have guided the Company's

progress through these forty years. Their influence will survive as long as the Company continues.

They possessed courage and business judgment. They established high standards of performance. They built a strong organization of competent men and women.

The Company, as it stands today, is a tribute to the leadership, the vision, and the work of its founders.

But it is doubtful that these men, with all their foresight, visualized the changes that have occurred in the oil industry since 1917, or the size and complexity of Humble's present operations, or the extent of the Company's contributions through the years to the progress of our society.

To all who have made those contributions possible—employees, customers, shareholders and the people of the states in which the Company operates—Humble extends its thanks.

DON'T FORGET THE BABY

The parents of a two-year-old Florida girl recently told a newspaper: "We intended to have our Jody vaccinated against polio from the time she was one. But whenever we made plans to see the doctor, Jody had a cold or something happened to postpone the visit. Last summer she contracted polio. Now she needs a crutch and a brace on one leg."

A Texas mother made this statement: "I saw two of my three tots lamed by polio after I had put off having them vaccinated. My advice to other parents is: Don't make the same mistake I did."

Two out of every five cases of paralytic polio recorded by the National Foundation for Infantile Paralysis are children under age five. And nothing is more pitiful than a child disabled at the very beginning of life.

How soon should an infant get his vaccination? The man who knows best is Dr. Jonas Salk, who developed the polio vaccine. His answer is: "Give the first injection at three months. The second should follow two to six weeks later. Two shots are good, but for maximum effectiveness a third is needed seven months after the second."

So when you are vaccinating the family, don't forget the baby.

GRASS ROOTS OPINION

Corvallis, Oreg., Gazette-Times: "Newspaperdom can take pride in this year's Pulitzer prize awards to news-

papers. Recognition of The Oregonian for its expose of the vice and corruption involving municipal officials and officers of the teamsters union, and the Chicago Daily News for determined and courageous public service in exposing a \$2,500,000 fraud in the office of the state auditor of Illinois is recognition of one of the prime service of good journalism."

Tell City, Ind., News: "We usually criticize the post office department. It wouldn't be fair if we failed to give credit when it is due. This is on the brighter side. A mountain of red tape consisting of 1,685 different government forms has been eliminated by the department's forms control program since January, 1953."

Huntington, N. Y., Times: "Washington has no consideration for money. Once it is allocated, the bureaucrats insist it must be spent."

Lenox, S. D., Independent: "One hears a great deal about the 'big oil monopoly' that supposedly controls the U. S. supply of petroleum products. Yet, since 1925, while the price of clothing has increased 67%, household furnishings 62%, and food 71%, the price of gasoline has increased only 15 1/2%. And the gasoline you fill up with today is a vastly superior product to what you purchased in 1925."

Alanreed to Buy Holsteins

W. J. McPheeters of the Nisley Creamery Co. announced Tuesday that Alanreed had decided to send a large delegation to Wisconsin in a few days for two more cars of Holstein cows, making a total of five cars ordered by the people of that community recently.

Steve Greenwood of Alanreed already has a considerable herd of Holstein cattle and other farmers in the vicinity have been accumulating milkers. We are pleased to note this distinct indication of progress on the part of our neighbor city and hope the time will come when the "fever" will spread to the entire county.

Joins Red Cross

Miss Amy Faulkner, daughter of F. M. Faulkner of this city, has affiliated with the Red Cross Association and word comes to her relatives and friends here that she has landed in France with the first contingent of Red Cross workers to assist in caring for wounded American soldiers.

Miss Faulkner has made a special study of nursing for the past several years and her services will be invaluable to her country in these distress times. Hundreds of red blooded young women from the Panhandle have offered their services in this splendid work and the many friends of Miss Faulkner are proud that she has numbered herself among them.

Personals

Mrs. Estel Bowen returned the middle of the week from a visit to Central Texas.

Mrs. Luther Roach returned Thursday morning from Geary, Okla., where she has been for medical treatment the past ten days.

A good shower Tuesday night paved the way for a bigger shower Wednesday night and the fields look green and prosperous once more. The rains this week will be worth hundreds of thousands of dollars to this section of the state.

Joe Glass and Erwin Rice made an overland trip to Amarillo and Canyon the latter part of last week.

J. M. Carpenter and family left the latter part of the week for an overland trip to Clayton, N. M., where they will visit with friends and relatives.

Several people went from town to the Sitter ranch the first of the week to assist in the roundup and branding.

Mrs. C. A. Watkins accompanied her sons, Everett and J. F., back to the ranch in Hutchinson County the latter part of last week and will spend some time with them there.

W. P. Rogers' new home is about complete and they expect to get their furniture moved in right away.

Mr. and Mrs. Arthur Erwin are at Mineral Wells for a few days visit with relatives and friends.

T. A. Cooke and sons this week commenced construction on the new residence for C. M. Carpenter on his place north of town. When completed this will be a handsome and commodious home.

Game Harvest Proves Good in Panhandle

The Texas Panhandle provided a satisfactory game harvest in 1956, according to a summary report made by employees of the Texas Game and Fish Commission. The report covers 28 counties, according to the assistant director.

The report shows a kill of 256 deer, 397 turkey and 229 antelope, checked in by the hunters. The antelope hunts were staged on 29 ranches which had contracts with the game department to permit hunting.

There were 305 antelope hunt permits issued, with a kill of 229, or 83.27%. The average antelope checked out at 75.3 pounds. The average weight of the mule deer killed was 124 pounds, against 120 pounds on the white tail deer.

Hunters from the area also contributed 4,708 bob white and 899 scaled quail wings for study. The quail kill was said to be as good as the previous year.

In a check of dove hunters, 564 reported a killing of 2,616 doves, or an average of 4.6 doves per man. These results equaled the previous year's hunt.

'Halliday Brand' To Be at Derby Friday, Saturday

"The 'Halliday Brand' is an adult western in every sense of the word. For here is a drama with overtones of Eugene O'Neil, which tells of a western family divided against itself. The father, a domineering despot, drives his oldest son into a life dedicated to vengeance and his daughter and younger son into bland obscurity. This dramatic state of affairs comes about when the daughter falls in love with a man who is part Indian, and her father swears that there will be no half-breed blood in the Halliday family. The situation is further aggravated when the father, who is also the sheriff, allows a mob to lynch an Indian because the latter was in love with his daughter. This drives his son into a vengeful outlaw.

The picture has an excellent cast starring Joseph Cotten, Vivien Lindfors, Betsy Blair, Ward Bond and Bill Williams.

"The Halliday Brand" will be shown at the Derby Drive-In Theatre Friday and Saturday.

TELEPHONE TALK

By George Newberry, Manager

SHE'LL GET YOUR NUMBER

Is your personal list of out-of-town telephone numbers complete and up-to-date?

If it isn't, we'll be glad to get any new numbers you need—free of charge, too. Just call Long Distance and ask the operator for the numbers you want.

As always, you'll find Long Distance service is much faster and more convenient when you keep a list and call by number.

Long Distance is a real bargain, too. You can call from McLean to Amarillo for only 50c plus tax (station-to-station, after 6 p. m. and all day Sunday).

I LIKE MY PHONE BECAUSE . . .

If you were asked to name the one "main" reason why you like having a telephone, what would it be?

Time-saver, maybe? Housewives, especially, get so much more done during the day by using their telephone as an errand boy.

Business aid? The phone is an essential tool for most business and professional people.

Companion? Folks who have to stay close to home because of illness or family responsibilities find the telephone a reliable friend. Frequently, it's their number one means of keeping up with friends they don't often get to see.

Others find it reassuring just to have a telephone close by, knowing they can use it to call for help in an emergency.

Telephone service means a lot of different things to a lot of different people. For whatever reasons you like having a phone, you can be sure we're always searching for new and better ways to make it even more useful, convenient, and economical.

NOT OUT TILL YOU COUNT TEN

Remember the old saying? "Don't lose your temper. Count to 10." Still pretty good advice, I guess.

And 10 can be a magic number for saving your telephone temper, too.

When you make a call and don't get a quick answer, a good rule of thumb is to wait at least 10 rings before you assume no one's there.

Especially during the summer—when people are out in the yard so often—it's a good idea to allow them some extra time to reach the phone.

Call by number. It's twice as fast.

14-MILE HAUL — 4300 FEET UP—When Sheriff Cal Sales of Maricopa County, Arizona, sends his 4-wheel-drive GMC to his radio transmitting station on a mountain peak, one round trip deals out more punishment than a year's ordinary use.

IT CROSSES 3 MOUNTAIN CHAINS, wades through shifting sand, picks its way over boulder-strewn passes—goes where no sane horse would set foot. The deal includes climbing up a 65% grade. But—"It hasn't even breathed hard yet," says the Sheriff.

How tough could you make it for this GMC 4-WHEEL DRIVE?

YOU probably never would push a GMC truck this far.

It's great to know that GMC's do incredible jobs, beyond all normal requirements for their class—and still run longer, cheaper and with fewer repairs than other trucks.

Got some tough assignments for this GMC 4-wheel drive? It's just about the handiest truck ever built—goes anywhere, makes its own roads, has full traction in muck

or deep snow, has clearance on high-crowned roads.

With a few accessories, it pulls stumps, drills postholes or wells, stretches fence, pumps water, hoists anything. It takes a king-size cargo and—in 2-wheel drive—gives you full road speeds.

The GMC 4-wheel drive is really two trucks in one—and it costs surprisingly little. Just ask your GMC dealer!

Electric Living is FUN!

Linda Baxter demonstrates to her mother, modern cooking techniques learned in school homemaking class.

Under guidance of teacher, Mrs. Quentin Adams, Linda Baxter practices cooking techniques on modern electric range.

"Our daughter sold us on ELECTRIC COOKING!"

says Mrs. CLYDE BAXTER College and 5th Streets LOCKNEY, TEXAS

Mrs. Clyde Baxter, like many adults, has had the advantages of electric cooking pointed out to her by her high school student daughter, who learned that the modern way is the accurate, dependable way. Of course, it's electric! Says Mrs. Baxter, "I'm mighty glad we installed an electric range when we built our new home. The counter-top height oven gives perfect baking results and we get more broiled foods since getting the new range."

Sixteen-year old Linda Baxter is a sophomore student with two semesters in homemaking. Her teacher, Mrs. Quentin Adams, says, "Although our department has both types of household cooking equipment, most of our girls prefer to use the electric range." Why not "take a tip from your teenager"? If you are not yet cooking electrically, ask your daughter to tell you why you should.

Time of the Twister

Springtime is tornado time. In the unstable transition from winter cold to summer heat, great masses of cold and warm air collide. When the heavier cold air is forced above the lighter warm air, funnels sometimes form to relieve the topsy-turvy situation. This is the twister.

SOME 800 TORNADOES boll up each year in the United States. When they strike, local civil defense and the Red Cross speed to the rescue.

Spring is the time for a special weather eye to the tornado-spawning southwest. Last year, for instance, every major tornado occurred between February and May. On one day—April 3—four giant twisters killed 30 persons, injured 415 and caused an estimated \$12,700,000 damage. There is no way to prevent a tornado. But early warning, proper precautions and speedy rescue of victims can save lives. In addition, disaster funds administered by the Federal Civil Defense Administration can provide emergency repairs and restoration of vital community facilities when Federal assistance is authorized by the President to augment State and local efforts.

Overstocking Ponds Can Do Much Harm

Most owners of farm and ranch ponds do themselves more harm than good in overstocking their places with fish, is the warning of the hatchery superintendent of the Texas Game and Fish Commission. A dozen of these men, meeting in Austin to work out plans for handling an overflow of requests for fish, say they will do everything possible to restock as many places as they can this year.

"Cooperation on the part of the property owner, however, can make the job a great deal more successful," one of the superintendents said. "Nearly everyone wants a heavier planting than is justified in their impoundments."

"We have learned through years of experience that ponds can be overstocked and as a result the fish do not grow as rapidly as they should. Then the owner comes back for more fish to put into an already overcrowded pond."

The hatchery men pointed out that some owners will misrepresent the size of their tanks or ponds to get many more fish than are needed. This year, with so many impoundments refilled by the continuous rains, it will be impossible to meet all demands unless requests are within reason, the hatchery men say.

"When making application for fish the owner should attempt to give us some accurate information as to area," the superintendents said. "If they tell us the tank covers 40 acres and it only covers 10 acres, they have done themselves and everyone else harm."

CIVIL DEFENSE EVACUATION would look like this with carefully controlled traffic moving one way outbound from a threatened target city at a rate of up to 1,200 autos per hour per lane, except that cars would be carrying more people. All access to major surface streets would be controlled, traffic on cross streets banned. Reports indicate that some 32 million persons could be evacuated from 185 target areas in 1 1/2 hours by using this system. (Cameramen, Inc., Photo by Berkeley Payne)

From the State Capitol HIGHLIGHTS AND SIDELIGHTS

By Vern Sanford Texas Press Association

Vacation Time
It's vacation time in Texas. During the next three months millions of people will stream to every corner of the state in search of relaxation.

But a lot of home folks will stay home. They make a living catering to the tourists. Vacationing is big business in Texas. And it promises to get bigger. Last year nearly 8 1/2 million out-of-staters visited Texas—only 12% on business. They spent \$350,000,000 for food, lodging, gasoline and entertainment.

Next year voters will decide whether to try to hustle in even more visitors and money through nationwide advertising. A proposed constitutional amendment to remove the ban on spending state funds for advertising was passed by the last Legislature. It will come to a vote at the November, 1958, general election.

Meanwhile several state agencies and a host of municipal and private organizations give out information on how to have fun in Texas.

State Highway Department has just issued a brand new map telling how to find your way over the state's 100,000 miles of roads. It includes 20 full-color pictures and a warm welcome to the "land of hospitality." Available free from the department.

State Parks Board, housekeeper for 49 state parks, plans many new camping, swimming and picnicking facilities. It got a "generous appropriation" from the Legislature, said the board.

Texas Game and Fish Commission has help and advice for the one in every four Texans who hunts or fishes. Its numerous publications give guidance ranging from where the fish are biting to what to do for snake bite. Year's Water Supply

Without another drop of rain, Texas' 35 major reservoirs have enough water stored to last a year.

Heavy spring rains poured 6 million acre feet of water into the reservoirs, filling them to 92% capacity, reports the State Board of Water Engineers.

Storage is about twice that of a year ago. Floor Survey Sought

But the unprecedented rains brought problems. The water board wants money to make an emergency survey of what the floods did with a view to learning how to prevent future destruction.

Both the board and Gov. Price Daniel requested an appropriation for this from the last Legislature. But it didn't go through, so now the board has asked do-

Goodbye to Chips
Texas gambling has got to go, says Atty. Gen. Will Wilson. An all-out effort to shut down the multi-million-dollar empire in Galveston was called just the beginning.

Wilson and Department of Public Safety Director Homer Garrison, Jr., cooperated in planning a massive raid on Galveston's illegal establishments. But the gamblers got word, closed up and cowered out ahead of the raid.

Wilson's staff followed up by filing padlock suits—boxes full of them—to try to prevent the places from re-opening. Wilson and Garrison said they would follow the same pattern in other areas. First, local officials will be called on to suppress gambling and state cooperation offered. But, said Wilson, "if local officials fail to do this job, we will do it from the state level."

Gov. Daniel gave his full backing to the crackdown, hailed it as the "beginning of a new era in law enforcement." More Science for Teens
New standards set up by the State Board of Education direct that:
1. Graduates complete 16 units of study, rather than the present 15, including two years of laboratory science.

2. Physical education cannot be counted in compiling the units.
3. Not more than one class period of the day may be used for competitive athletics.

New rules will take effect during the 1958-59 school year, but are to be applied to ninth graders next fall. Tip to motorists: Watch out for children—they weren't brought up to be run down.

PLAIN TALK

to turn a little brown. In the graduating issue was the Class Prophecy which we scanned over hurriedly until we came to the one written about myself. The prophecy predicted what each class member would be doing ten years from the day of graduation. Ours said: "Bill Perkins is the publisher of a Tri-Weekly newspaper. He prints a paper one week and TRIES to print one the next. That writer didn't know how right she was back in 1945."

Then there was the story about the fellow attending his class reunion who had cards printed with the following information on them "Before you start telling me about your Cadillacs, your mansion, your trips abroad and what a success you are, let me tell you that I am married, have three children, make \$65 a week, have a 1949 Ford that is paid for, and have \$1.20 in my pocket after paying for these cards."
