## Just Between Us

A mighty tasty dish of sour grapes was served up to its readers last week by The Donley County Leader published in Clarendon.

In reporting on approval of the McLean-Hedley road by the Highway Commission, the Leader's editor—who obviously was disheartened by the commission's action—couldn't resist adding one last paragraph to prepared news release, to-wit:

"McLean workers on the project apparently carried more weight with the Highway Commission, getting the north end of the proposed road designated ahead of the portion from Highway 273 north to the river.

"The greater portion of the road designated lies in Donley County but will serve McLean."

—jbu—  
We got a big kick out of the article—after our blood pressure dropped back to normal.

It was so apparent that the Clarendon paper was trying to drive a wedge between the good people of Hedley and McLean.

We were joined by R. W. Scales, a Hedley resident and one of the most tireless workers on the project, in a big hearty chuckle.

Mr. Scales assured us that the people of Hedley have no ill feelings whatever over the start of the road project on this end.

Indeed, he pointed out that this is exactly as it should be. After all, Mr. Scales explained, the road will be an extension of SH 273, which now ends at McLean.

—jbu—  
Many, many incidents occurring during the struggle for approval of the project were related by the Hedley man.

One shows just how united the people of Hedley were behind the road connecting this area with theirs.

For a 3½-month period you couldn't buy a single bottle of one well-known soft drink in that Donley County town. Why? Because one of the biggest opponents of the McLean-Hedley road lived in Clarendon and bottled this certain drink.

No petitions were circulated to bar the bottles from their stores; business people simply stopped stocking the drink. We're told some Memphis stores took the same action.

—jbu—  
James McCartney came back home from the hospital last Saturday, well on the road to recovery, and he seems to show more improvement each day.

However, a common childhood disease caught up with him Monday—chickenpox.

Nothing so simple has happened to him before in his seven years. He's had about as many major operations as you can count on your fingers, but somehow he escaped having anything like the chickenpox.

We got to visit James for a couple of minutes Tuesday evening, and he looked fine.

He and his mother, Mrs. B. J. McCartney, and baby brother, Mike, will spend the next several weeks in Beeville with relatives while James recuperates from injuries sustained when he was attacked (See JBU—Page 5)

## TIME TO WAKE UP AND LIVE!

By JUDY WYATT

Ours is a nation of hollow-minded men. There are many men with brilliant brains, true, but what occupies their thoughts most often? When they speak, is it not as meaningless as the wind blowing through dry grass?

When these men find true beauty, do they not try to break it down into simpler parts and analyze it? How different things are composed is important; but many times the real beauty of a thing is completely overlooked in the search for reason and logic.

Then, too, the ordinary man's mind is filled with confusion, disbelief and problems. While taking part in conversations, the topic of conversation is utterly lacking in meaning.

The events of world affairs never enter the conversation; it's as if the circumstances do not involve every individual—but they do.

Whether we learn to accept facts and face realities or not, we are all caught in the tumult of world happenings. Fear of discussing God and His wonderful works keeps back discussions that could possibly mean a person's salvation if he learned about Christ.

But instead, useless talk is used as a means of escaping from realities. Read and learn about everything that concerns humanity—and this envelopes approximately everything.

Don't be afraid to live life as you want to live it. Wake up to life—live and be happy. Let your life mean something. Don't be like a grain of sand on a beach, as if life were nothing—make it count.

Don't put off duties, because life is so short from the beginning.

Now, are you going to fall into the category of a hollow-minded person?

## FHA and FFA Hold A Joint Meeting

By SUE WRIGHT

McLean chapters of Future Homemakers of America and Future Farmers of America held a joint meeting March 2. At this meeting the picture "An Arctic Adventure" was shown. This is the picture that Cotton John and the group of people took while visiting Alaska.

In the business part of the meeting the FHA members discussed their trip to Lubbock and what time they were to leave Saturday morning.

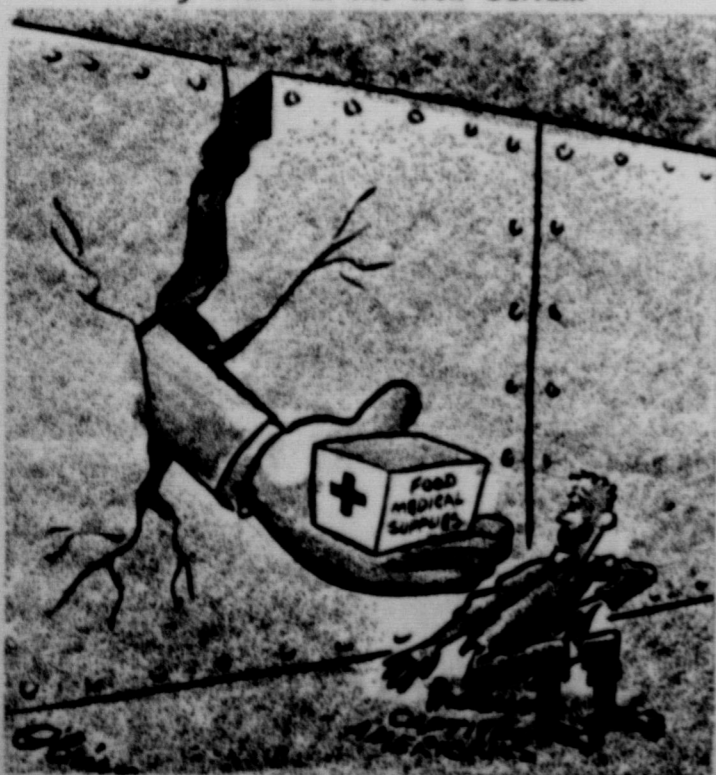

After the meeting was adjourned refreshments were served. Janice Saunders was the chairwoman of the refreshment committee. Everyone enjoyed the refreshments that were served; the cookies that were served were made by the third year FHA.

## JUNIOR CLASS TO PRESENT 'OUR TOWN'

By DANNY BROWN

"Our Town," the junior class play selection, will be held on March 30. The play, a drama in three acts, is somewhat different from past high school plays which have been presented in McLean.

Written by Thornton Wilder, "Our Town" is a story of the ordinary daily lives of ordinary people in a typical American small town. It is one of the most familiar and best-liked of American plays.

The play is centered around the stage manager, who directs and explains the action, takes the part of a minor character here and there, sets up the simple substitutes for regular properties, takes over the usual responsibilities of the printed program and regards the whole life of the little village with affectionate understanding and quiet humor. Acting as stage manager will be Charles Jones.

Other characters in the play are:

Emily Webb, Emme Grigsby; George Gibbs, Jimmy Kingston; Mrs. Webb, Margie Railsback; Mr. Webb, Paul Lee; Mrs. Gibbs, Janice Page; Dr. Gibbs, Jimmy Watson; Rebecca Gibbs, Mary Ann Carter; Wall Webb, George Patton; Mrs. Soames, Phyllis Flowers; Simon Stimson, Keith Teeples; Professor Willard, Nancy Hess; Joe Stoddard, Mike Nicholson; Sam Craigh, Ricky Banks; Constable Warren, Kenny Willingham; Howie Newsom, John Switzer; Joe Crowell, Tommy Hill; Si Crowell, Ben Billingsley; woman in balcony, Alta Watson; lady in box seat, Donna Graham; man in auditorium, Clyde Windom; speaking spirits, Chris Rodgers, Nona Beck, Lynda McCurley, Butch Dorsey and Eddie Kunkel; people of the town, junior class.

## Holidays and Events Ahead for School

By DOYAL BILLINGSLEY

Holidays and special events will be a major portion of the remaining school year for all of us. When spring rolls around you can depend on a busy schedule for every teacher, sponsor, student and administrator.

Of course, we think we are busy all of the time, but when one meeting starts piling on top of the other, it gets a little exciting.

For instance, last Saturday, March 4, many events were taking place: FHA girls were attending area meeting, Band Boosters sponsoring a bake sale, choir group in Canyon at contest, seniors sponsoring Italian dinner.

The schedule for the next few weeks does not look too favorable. The teachers will be in Amarillo Friday, March 10 for their annual meeting. St. Patrick's Day will claim all of the Irish McLean students the following Friday.

March 30 marks the day when the seniors will be downtown making that last bit of money for the senior trip. The day is proclaimed "Senior Work Day." March 31 sets off the start of Easter vacation. We will be out of school Friday and Monday—that is, weather permitting.

## Concert Climaxes School Open House

A band concert was given Tuesday evening in the high school auditorium. The band program climaxed the open house that was held in the McLean schools in connection with PUBLIC SCHOOL WEEK.

All three bands performed on stage at this time. The beginners band played several numbers followed by the junior high band. The 68-piece high school band climaxed the concert.

Some of the numbers that were played were "House of Freedom," "Bill Bailey," "The Black Knight," "Yankee Doodle Boy," "Necoid," "Voodoo," "Sentimental Journey," "Norwegian Folk Song Suite," "La Uuit," "Avi and March," "Thendare Overture" and "Beguine Festival."

## FBLA Members Get Taste of College On Trip to Denton

By NANCY MEACHAM

As 26 members of the Future Business Leaders of America headed for Denton Feb. 23 on a school bus, excitement filled everyone. The coming weekend was going to be quite an experience. These members were to taste a little of college life while they attended the state convention at North Texas State College.

When the bus pulled into Denton Friday morning, the many eyes that had been asleep were now wide awake. No one wanted to miss anything. All of the members were ready to venture into this change of environment.

The students remained the rest of that morning in a hotel. Bright and early that same morning, they rolled out of their comfortable beds and headed for the campus. Although the morning was bitter and cold, and everyone had to compete with sleet and rain, every student was looking forward to the coming day.

Registration was the first thing after arriving on campus. When everyone had registered, they were turned free until 11:30, when they were to meet to go eat dinner. Most of the students went to a small village cafe a couple of blocks from the campus.

At 1:00 p. m. the same day, everyone was given the dorm and room that he or she was to stay in. Some of the girls were put in rooms with college girls. After attending the first general session, the girls and boys returned to their rooms to get acquainted with their new roommates. That night they attended a dance held for all the FBLA groups on campus.

Saturday morning and part of the afternoon was spent attending meetings and observing the contests that were being held. The rest of the day was spent in preparation for the awards banquet which was to be held that night. The banquet turned out to be very thrilling for the McLean group because it seems that they carried away a few awards. After the banquet, the students went down town to see "Ben Hur."

Sunday morning, early, the group headed back towards home. Although everyone was worn out, their minds were filled with a little knowledge of what college life is really like.

## Juniors Order Rings

By RITA BROWN

The juniors of 1960-61 are getting a head start on their senior year, according to Miss Billie Brown and Mr. Perryman, sponsors. Their senior rings have been ordered and a \$5 deposit has been placed on them.

The juniors ordered their rings March 3. They chose to have gold stones as their set. The words "McLean High School" will be placed around the circular stone. The McLean Tiger head, the Texas state emblem, the year 1962 and the words "Truth, Honor, Wisdom and Loyalty" will complete the ring. The gold mounting of the ring will also have a dark finish.

## THE TEAR OF THE YEAR!

By DOUG CROCKETT

(This is the second installment of a serial about the average life of a high school girl.)

As we left Margaret, she was talking to Sue, and was about ready to tell her about her counter-attack. Before she could put her plan into action, Nick had goofed the works up by asking her for a date.

"Oh, Sue, he asked me and it's all I can do to wait until Saturday night. Just think I owe this all to Mrs. Perryman!"

"Mrs. Perryman?"

"Yes, if she hadn't decided to teach school and hadn't chosen English as her subject, I would not have been in her class; therefore, I would not have had English the morning I fell over Nick's books, see?"

"Yeah—big deal!"

"Just think, Friday night! Friday night is the most wonderful night of the whole week."

"Well, you can never tell what might happen. After all, this is your first date with him."

"I'll bet he's a dream on a date, and don't worry, I'll let you know all about it!"

The days passed slowly, and soon it was late Friday afternoon.

"Mother, I'm home."

"Okay, Peg, I can hear you a block away."

Peg ran up the stairs, threw her books on the bed, and ran

back down to the kitchen.

"Mother, tonight's the night, and I'll be so busy getting ready that I won't be able to do the dishes, okay?—Bye!"

She ran back to her room and started getting ready for her long-awaited date with her dreamboat!

Tune in next week (I mean two weeks from today) and get the exciting episode about Margaret's date!

"I can't figure it out," said the small boy trying to get his father to help him with his arithmetic. "If a carpenter was paid three dollars a day, how much did he earn in four days?"

"No wonder you can't figure it out," said the father. "That's not arithmetic—that's ancient history!"

The kind of treatment you will get at our station is modern in every respect. Why not drive in today and give us a trial?

## Your RIGHT TO VOTE

MR. AND MRS. VOTER, do you feel that you should have an opportunity to vote on legalizing Parimutuel Horse Race Betting?

A constitutional amendment (H.J.R. #4) is being considered whereby Texans will be given an opportunity to legalize horse race betting in Dallas, Tarrant, Harris, Galveston, Bexar, Midland, Hidalgo, Cameron and Webb Counties, subject to approval by LOCAL OPTION.

H.J.R. #4 provides for distribution, ANNUALLY, among all counties that do not have race tracks, one-half of the STATE TAX REVENUE obtained from horse racing. Each county would receive approximately \$1.00 per capita population the first year. Counties where the tracks are located would receive 2% of parimutuel handle. The state's tax income from horse racing alone would run close to \$12,000,000 the very first year—possibly more—besides all the income tourists would bring to Texas—which would amount to millions of dollars, plus a great ad valorem tax on race tracks, breeding farms and many valuable race horses.

Please express your opinion by checking  the appropriate box below. You do not have to sign your name unless you like, but we would prefer it.

.....P O L L.....

YES: I feel that the people should have an opportunity to vote on horse race parimutuel betting.

NO: I am not in favor of letting the people vote on the subject.

Four names have been filed for the seven places on the McLean Independent School District board for the school election to be held Saturday, April 7.

The four filed are Clyde Andrews, Erey Cubine, W. G. Carter and Milton Carpenter. Boyd Reeves, president, and Custer Lowary, the other two members of the board, have announced that they will not seek re-election. Roy Kiser was the seventh member of the board but resigned when he moved to Amarillo recently.

There were some who just couldn't believe that the McLean Tigerettes had a chance to whip the Dalhart girls on the basketball court. But the Tigerettes had other ideas, or else didn't hear those unfavorable comments. For the score at the end of the final game of the Region 1-A girls basketball tournament, held last weekend in the Municipal Building in McLean, was 51-42, and McLean had the 51 over Dalhart's 42.

Bill Stubbs' big bull will wisely be watching his steps carefully in the future.

The animal had been missing for a couple of days last week, when Bill, who lives north of Alanreed, started a search.

Bill was walking near his mother's home when he heard a steady thud. A few steps farther, and he discovered his bull—wedged hind feet first in a septic tank.

The weight of the bull had caused the top of the tank to cave in, plunging the large animal into the small hole in the ground. There he stood—back feet down, front feet up—with his head barely visible when Bill found him. How long he had been in that cramped position no one could tell.

Except for a near skinless back and other minor injuries, the bull appeared in fine shape after a couple of days rest.

John Pakan, son of Mr. and Mrs. Miro Pakan of McLean, has hit the big time with a photograph he snapped recently.

The picture—of a dairy farmer near Canyon holding triplet Holstein calves—made the cover of the Southwestern Crop and Stock magazine published in Lubbock.

Pakan attends West Texas State in Canyon, working as a photographer on the side. It was he, too, who sent us a picture the first of the year of Roy Hancock, another McLeannite in Canyon.

Pakan "shot" Hancock, son of Mr. and Mrs. Cleve Hancock, after the latter joined the police force in Canyon.

here last September, with Mrs. McCall as troop leader, Mrs. Stroud McMurry and Mrs. Ernest Watson as assistant leaders and Mrs. Richard Back as neighborhood chairman.

Mesdames E. E. Brooks, A. L. Fuller and James Ellison are serving on the troop committee.

The McLean Brownies are fully associated with the Quivira Girl Scout Council, with headquarters in Pampa.

Summer Day Camp The troop has held a cook-out in City Park and was conducted on an educational tour of KGNC-TV in Amarillo, and plans are now being made for a summer day camp sometime in June.

McLean Brownies have been invited to day camp with Pampa girls at Camp Mel Davis.

Mrs. Back said local leaders believe there would be sufficient interest to begin an intermediate Girl Scout troop, with girls of the fifth and sixth grade level, next fall.

She urged anyone interested in working with girls of this age group to contact her.

# WALTER ROGERS REPORTS

## UN-AMERICAN ACTIVITIES

In view of the large amount of mail that I have received as to the possible abolition of the Committee on Un-American Activities of the House of Representatives, I thought it well to call the attention of the people in our district to the most recent developments relating to the subject.

I do this because I feel that a great amount of misunderstanding developed as to the possible influence that might be brought to bear on the Congress by those groups commonly referred to as "left wing organizations."

In a previous newsletter I undertook to allay any fear that anti-Communist activities on the part of government agencies might be in jeopardy. My conclusions were definitely confirmed by the overwhelming vote in the House of Representatives on March 1, 1961, approving funds for the continued operation of the House Committee on Un-American Activities.

The resolution on the subject was rather innocuous-looking on its face, but it spurred a lengthy and detailed discussion. I do not use the word "debate" because the discussion was so one-sided it would hardly be fair to call it a debate.

It involved the history of the Un-American Activities Committee, the many trials and tribulations of that committee and the several members who have seen service with it, and especially the most recent activities of the committee and the activities of those who would like to see it destroyed.

I have reference to the so-called "San Francisco riots." As most of you know, it was the meeting of the Un-American Activities Committee in San Francisco, and the resulting hullabaloo directed at it by a large group of people that constituted the basis for the film "Operation Abolition."

This film is quite controversial primarily because of a resolution of criticism adopted by the National Council of Churches. This resolution allegedly objects to the showing of the film.

Much has been said to the effect that the film was "doctored" and did not represent a true picture of what actually transpired. However, I feel that many of you who have seen the film have been able to view the matter objectively and can see for yourself whether you think it was "doctored" or not.

Certainly, it could be expected that portions of what transpired might be deleted in preparation of any filming of an actual event. But there is little doubt in the minds of those seeing the film as to the physical actions of the persons undertaking to interfere with the duly constituted procedures of the Congress of the United States in full accord with the Constitution and laws applicable.

Hence, it would seem to me that one would be justified in concluding that the inspiration for such action certainly came from an un-American source. Further, such

action and procedure should be condemned in the minds of all who subscribe to our form of government.

However, to get back to the House discussion, the resolution simply authorized the expenditure by the Committee on Un-American Activities of a sum not to exceed \$331,000 in carrying out its work.

Whether or not this was the proper amount of money was a question which could be readily answered. A long and effective history of the Un-American Activities Committee provides ample evidence as to the monetary needs of that group for proper investigation. The figure of \$331,000 had been determined after full consideration by the Un-American Activities Committee and the Committee on House Administration before the matter was brought before the entire Congress.

So, the question before the House was not one of whether or not the House Un-American Activities Committee should continue to exist. The need for that committee was admitted and the question before the House was as to the amount of money needed by such a committee.

To admit the need for a committee and then deny it the money upon which to operate would be grossly unfair if not dishonest. In fact, it would be "un-American." It would be like saying, "We cannot convict you under the Constitution and laws of this land and give you the death penalty, so we will starve you to death."

The fact is that the Un-American Activities Committee serves an indispensable purpose. In meeting its responsibilities it should be afforded the weapons to carry out and execute the purposes for which it exists.

I think the vote on the resolution before the House on March 1, 1961, is a clear and unmistakable indication as to how the people of this country feel. Their duly elected representatives under-wrote this policy by a vote of 412 to 6.

This will give you several weeks ago that the House Committee on Un-American Activities was not in jeopardy.

## Derby Drive-In Due To Re-Open Tonight

The Derby Drive-In Theatre will re-open tonight, weather permitting, according to Amos Page, owner.

Page said the drive-in, closed during cold weather, will open with the showing of the final free movie, sponsored by McLean merchants.

The Avalon Theatre in downtown McLean will be closed, except for a matinee at 2 p. m. each Saturday.

No movies are planned for the remainder of this month on Wednesday and Thursday evenings.

"How do you get your sister to find so many fishing worms for you?" asked Johnny.

"That's easy," said Tommy. "Out of every ten worms she digs up, I let her have one to eat."

dedication.

Rev. Jesse Leonard, pastor of the church when the building program was started last spring, will be unable to attend the ceremony, Rev. Beltz said.

Rev. Leonard is now serving as pastor of a church in Bonham.

The First Baptist congregation voted last year to issue \$100,000 in bonds for the church expansion.

As originally planned, the building program included remodeling of the present sanctuary to provide additional classroom space.

However, Rev. Beltz said the remodeling phase of the program will not be undertaken at this time.

Workmen were busy at mid-week preparing the new brick structure for use Sunday.

The main floor will contain 60 padded mahogany pews. Additional seating will be available later in the balcony, which is to remain unfinished at this time.

The building also includes new, enlarged office space for the pastor.

A man decided to capitalize on the alleged difficulty of reading the prescriptions of physicians.

After obtaining the medicine, the patient took the prescription and used it as a railroad pass, twice an invitation to dances, once as a complimentary ticket to a banquet, and later as a recommendation from his employer. And, in the evenings, his daughter played it for him on the piano.

### JUNIOR LIVESTOCK SHOW

McLean FFA and 4-H exhibitors walked off with all the blue ribbons at the Gray County Junior Livestock Show.

Max Coleman had the fifth-place calf was named grand champion over 32 other calves. Fred Brown, McLean FFA, took reserve champion honors with his Angus steer.

Joe Magee, 4-H Club boy, placed first in the light weight division over 16 other entries. Sarah Cole-

man, 4-H girl, took second place in the lightweight division.

Max Coleman had the fifth-place calf in the lightweight division. In the heavyweight division, Joe Magee had the third-place calf.

Jim Weatherford, vocational agriculture teacher, and Cecil Regier are to be congratulated, as well as the parents of these youngsters for their help and encouragement.

Of course, George Saunders, Clyde Magee and Jess Coleman are happy to see their stock place in the upper bracket.

### COTTON RELEASE

We would like to remind everyone to release your cotton allotment, if you plan to plant it.

### FEED GRAIN PROGRAM

Secretary of Agriculture Orville Freeman has proposed a new feed grain program. If this proposal becomes law, it will be necessary to give everyone a feed grain base.

The amount of feed grains you planted in 1959 and 1960 will determine this base. Time is very short to get such a law enacted for the 1961 crop.

Predictions are, however, that some type of program will be in effect in 1962.

Some of the commercial companies that sell economic advice to farmers, ranchers and cattle feeders have been advising farmers the past two or three years to plant from fence to fence in order to keep up the history on a place.

It appears this might be a good thing to keep in mind for the 1961 crop, which could be used for building a base acreage.

### CONDITION OF CATTLE

Milton Carpenter says cattle have wintered the best he has ever seen them.

Last fall ranchers said 1960 was the best summer they had ever witnessed. One extreme follows another.

I am hoping any drought years can be delayed for sometime to come.

### TIME SHORTAGE

Due to the big rush at the Top of Texas Junior Livestock Show, we are forced to cut this a little short this week.

## Plentiful Foods Match Changeable Weather

COLLEGE STATION—(Special)—Changeable weather calls for varied menus, and foods in the pantry that can be prepared into hearty winter fare or light springtime dishes.

Of such are the nine versatile items on the U. S. Department of Agriculture's March list of plentiful foods, reports the Texas Agricultural Extension Service.

With cooling in the air, production of eggs and milk is increasing. So eggs and dairy foods of all kinds join the plentiful this month. Both belong in all diets in any weather.

Cabbage supplies remain large as fresh shipments join huge win-

ter stocks. Fresh dates, for desserts or snacks, are in abundance. Serve them often.

Crops of rice and dry beans were large last fall and supplies of these basic and nutritious items qualify them for the "plentiful" tag. Among the dry beans, look especially for good buys on small red, red kidney and small white beans.

Peanuts and peanut products offer limitless menu possibilities. They're plentiful. Chopped peanuts in crisp salads are a pleasing combination. And have you tried peanut butter soup?

Completing the March list of plentiful foods for Texas shoppers are cranberry products and canned ripe olives. Both can provide added color and flavor to March meals.

If we were choosing the salesman of the week, we'd give serious consideration to the lad who called to sell us tickets to a school performance and advanced the argument that we didn't have to use them.—Times Leader, West Point, Miss.

A local businessman, seeing several hundred women in town for various meetings, couldn't help wondering if the problems they solved at their meetings were as important as the ones caused by their being away from home.—News, Russell, Kans.

## SERVICE AWARDS PRESENTED TO 10 EMPLOYEES OF SCHOOL

Service awards were presented to 10 school employees Tuesday evening, before an audience which gathered for the musical program presented by grades one through six in the school auditorium under the direction of Bill McGowan, music teacher.

Mrs. Imogene Clarke received a 25-year service award. All her 25 years of teaching have been spent in the Lefors schools, 10 years teaching sixth grade and 15 years previous to that teaching high school history and civics and girls physical education.

Receiving 10-year service awards were Mr. and Mrs. G. N. Mounser, Cleo Hammer and Fern Bull. Mounser is high school principal and Mrs. Mounser teaches the 31 little fellows in the first grade.

Mrs. Hammer is the faithful second grade teacher, and Mrs. Bull teaches fifth grade. Chester Hill, Stella Klein, David Robinson, Jerry Jacobs and Dale Prescott each received a five-year service award. Hill is a school janitor and Mrs. Klein works in the cafeteria.

Robinson takes care of the school books; Jacobs is superintendent, and Prescott is basketball coach.

Mrs. L. M. Rippey led the group the club prayer after Mrs. A. M. Dickerson, president, called the meeting to order.

Roll call was answered with "Am I a good Texan, and have I visited the state Capitol," to which Mrs. John Lantz gave the following particulars:

"Built in 1888 of pink granite from Granite Mountain at Marble Falls, Texas, the Capitol building is the largest state Capitol building in the world and second in size to the Capitol of the United States."

Mrs. Francis Cox was appointed as chairman of education-expansion committee.

The vote was carried to sponsor the city park again this year, supplying finances for immediate needs, such as aluminum pipe, Bermuda seed, etc.

A game was led by Mrs. Cobb. Refreshments were served. Mrs. B. H. Diehl gave a program in the planting of tomatoes, giving the method of her husband, who is famous in the county for his prize tomatoes, which is as follows:

"Have bought tomato plants already started in little two-inch square containers."

"For shallow soil, his advice is digging holes about two feet square and two feet deep, using compost altogether, usually put some grass, weeds or cotton burs or hulls, in the bottom of the hole four to six inches thick, to hold the moisture for the tomato plants."

Then he fills the hole with good top soil mixed with compost or with well-rotted cow manure, leaving the hole about four to six inches lower than the ground level. Then he puts the tomato plant into the soil, usually between the 10th and 25th of April.

Since there is still danger of frost at this time, he takes an old five-gallon can, cuts both ends out. He does not put any water around the plant until the can is firmly set around the plant.

Then he uses enough water in the can to settle the soil, then places a cover over the top of the can.

If the sun is hot he leaves the cover on for a day or so, then starts to move the cover to one side and let the plant have some sunlight, preferably in the morning, until after the plant has a start, which usually takes three to seven days, then the cover is removed entirely.

If the nights should reach freezing temperature, cover the plants at night.

An old tub with the bottom cut out is then placed around the tomato plant to protect and hold all water, a saving on water. If there is danger of hail, the plants can be covered for protection. Old trash barrels cut in three sections can be used for protection in the same way.

After the plants start growing he makes a frame for each plant out of one-by-four lumber, to support the plants as they grow.

He waters according to the degree of weather—in dry weather, two times per week or every four days.

Never plant tomatoes on the same ground year after year, rotate them, and wait at least three years before putting them on the same ground. For well-rotted manure, use one-half bushel basket mixed with dirt for each tomato.

Members present other than those mentioned were Meses A. J. Rolins, Jeff Davis, B. D. Vaughn, Charles Roberts, Walter Morris.

## Missionary Union Meets at Church For Regular Program

Women's Missionary Union met at the First Baptist Church Tuesday for their regular monthly business meeting and mission program.

Minutes were read and treasurer's report given. Both were approved.

Mrs. Alvin Cates recommended that the W.M.U. members bring a can of food to be stored for emergency each time they meet for the monthly sessions.

"Witness Where You Are" the program, was depicted as taking place in a car containing six women, following a W.M.U. meeting, and in a humorous way showed how one can be a witness wherever she is.
