## Highway Board Approves McLean to Hedley Road

### PRELIMINARY WORK DUE TO BEGIN SOON

Preliminary work on the long-awaited paved road south from McLean to Hedley is expected to begin shortly, following approval of the route last week by the Texas Highway Commission.

Official designation of the ranch-to-market road in Gray and Donley Counties came at Friday's commission meeting, ending a drawn-out effort for recognition by persons living in McLean and Hedley and along the route.

Construction of one 8.5-mile leg of the approximately 26-mile stretch will get underway as soon as engineering work is completed and the right-of-way is acquired.

#### 5 Miles South of Line

The first portion will extend south from a point at or near the intersection of SH 273 and U. S. 66 in McLean to a lateral county road in Donley County.

The ending point of this portion of the project will be approximately five miles south of the Gray-Donley County line, according to the Highway Board.

Designation of the road clears the way for preliminary work to proceed on the location. Following this, the counties must procure the right-of-way before construction can begin.

The Highway Commission expressed the intention to build the road by increments, financing it in a future program of work.

#### 100 Foot Right-of-Way

Commissioners directed the state highway engineer to coordinate the project with the possible future construction of the proposed Greenbelt Dam and Reservoir on the Gulf Fork of the Red River.

Right-of-way 100 feet wide will be required all along the route. However, much of the necessary land already has been acquired, since the road is expected to generally follow the route in use for a number of years.

The Highway Department has estimated the road will cost \$73,500, and the project will include a bridge across the Salt Fork.

Construction of the new road will give travelers from this area a direct route south, cutting in half the number of miles between McLean and Hedley.

### McLean Boy at St. Anthony's in Amarillo

## James' Condition: Better

James McCartney, 7-year-old McLean boy, was showing improvement Wednesday afternoon from wounds received when he was attacked by two dogs last Sunday.

The youngster's father, City Manager B. J. McCartney, reported that James appeared in good spirits and was enjoying visiting with friends at St. Anthony's Hospital in Amarillo.

Two young dogs attacked James Sunday afternoon as he played with the animals at the Bill

Reeves residence east of McLean.

The boy's left ear was torn off, and he sustained serious injuries to his right cheek.

Both dogs were killed soon after the incident, and their heads were sent to Austin for examination to determine if they were rabid.

A laboratory report received Wednesday showed that neither of the animals had rabies.

Neither of the dogs, acquired by Reeves as pets for his children, had shown any signs of

being vicious previously, and the reason for their attack could not be explained.

James was listed in serious condition when admitted to the hospital Sunday afternoon.

However, by Monday he had shown considerable progress. Tuesday his condition continued to improve.

Mr. and Mrs. McCartney expressed gratitude to the scores of McLean residents who showed their concern for James by telephone calls, visits and sending flowers and cards.

## Six Are in Race For School Board

Three more candidates—one of them a housewife—entered the race for the McLean board of education this week before the filing period for the April 1 election closed Wednesday afternoon.

The filing of Ernest Watson, J. B. Roach and Mrs. Creed Lamb Jr. doubled the number of candidates for the two school board positions to be filled.

### Cub Pinewood Derby Preliminaries Held; More Racing Slated

Members of the McLean Cub pack sponsored by the P.T.A. will hold their next Pinewood Derby races at 7:30 p. m. March 23, according to Cubmaster Sonny Back.

The races are held in the American Legion Hall, with the Cubs divided into two groups—Blue and Gold.

The derby track will be set up for practice races from 6:30 to 7:30 p. m. next Tuesday in the Legion Hall.

In the Pinewood Derby, Cubs compete with miniature racers made by themselves—with the assistance of their fathers.

#### Trial Runs Held

Preliminary trial runs were held last week.

Members of the Blue team are: Gary Ellison, Jeff Morris, Clinton Corbin, Thacker Haynes, Kirk Webb, Mike Haynes, Dennis Jones, Joel McCarty, Dick Back, Tommy Greenwood, Mike Dorsey, Brad Parker, Jimmy Shelton, Quinn Easley, James Page, Don Taylor, Bobby Short and Neil Middleton.

On the Gold team are: Clifford McPherson, Timothy Banks, Ernest Smith, Gary Skelton, Bob Ayres, Jerry Dwyer, Pat Windom, Richard Lewis, Dana Miller, Terrell Thornton, Butch Lands, Jim Barker, D. Sutton, Jackie Cook, Norman Jones, Billy Webb, Jimmy Hester, Melvin Simpson and Hickman Brown.

### Lions Zone Meeting In McLean Sunday

Officers of four area Lions Clubs will meet at 2:30 p. m. Sunday in McLean for a Zone 1 Region 1 meeting.

Sammy Haynes, McLean Lions Club president, urged all officers and other members to attend the meeting in the McLean Cafe.

Watson is a service station operator, Roach is superintendent of the El Paso gas plant east of the city and Mrs. Lamb is a housewife.

They joined W. C. (Flea) Simpson, George Orrick and Emory Cockett in the race for posts now held by J. W. Meacham and Clyde Brown, neither of whom filed for election.

The two candidates receiving the highest number of votes in the April 1 balloting will be elected to three-year terms on the school board.

**City Filing Period Ending**  
With less than three days remaining in the filing period for the city election, no new candidates had entered their names by this morning.

Dr. H. F. Fabian is attempting to unseat one of two incumbent aldermen. The incumbents, Ruel Smith and Boyd Meador, have filed for re-election.

Mayor John C. Haynes has drawn no opposition in his campaign for a second term.

The city election is scheduled for April 4, and the filing period will close at noon Saturday.

### New Baptist Church Dedication Scheduled

Rev. Jeff Moore, pastor of Borer's Calvary Baptist Church, will be principal speaker for services dedicating the new McLean First Baptist Church building Sunday, March 12.

Rev. Dan Beltz, pastor, has announced that the dedication program will begin at the new sanctuary at 2 p. m.

The large brick structure, costing almost \$100,000, was formally accepted last week by members of the church building committee.

Installation of new pews and other furniture is expected within the next few days.

### Planning Meeting For Rodeo Saturday

Further plans for this year's 65 Rodeo and Horse Show will be made at a meeting at 7 p. m. Saturday.

John C. Haynes, president of the 96 Roundup and Rodeo Association, said the acquiring of stock for the mythical teams selected by district coaches last week in a meeting at Clarendon.

Forward Cindy Rice and Guards Nancy Meacham and Mary Ann Carter are the Tigrettes' representatives on the girls teams.

Names of the all-district selections were withheld until the completion

### McCurley in Hospital

C. H. (Hack) McCurley is receiving treatment in Highland General Hospital at Pampa after suffering a heart attack at his home east of town.

McCurley was admitted to the hospital Monday.

## Five Local Players On All-District 2-A Teams

Two McLean High School Tigers and three Tigrettes have been named to the All-District 2-A basketball teams announced this week.

Kenny Willingham and Jim Watson, both of whom also made the All-District football squad last fall, represent McLean's Tigers on the mythical teams selected by district coaches last week in a meeting at Clarendon.

Forward Cindy Rice and Guards Nancy Meacham and Mary Ann Carter are the Tigrettes' representatives on the girls teams.

Names of the all-district selections were withheld until the completion

## LEFORS HIRES NEW COACH

LEFORS — (Special) — Dunny Goode 31-year-old member of the athletic staff at Hardin-Simmons University, has been named head coach at Lefors High School, Supt. Jerry Jacobs announced this week.

Goode and his wife, Betty Ann, and 2-year-old son, Eric, will move to Lefors next week.

The new coach was employed by the board of education to replace Ed Lehnick, who resigned recently to become head coach at Pampa High School.

Goode has been freshman coach at Hardin-Simmons since last spring. He also served as defensive varsity coach and assistant track coach.

#### Outstanding Player

An outstanding football player, he was second in the nation in the rushing department in 1951, with a total of 1,399 yards.

The same year he was named an All-Border Conference halfback and was a third team All-American.

The six-foot, 130-pound coach is a graduate of Midland High School. After receiving his degree from

## House Trailer Is Damaged by Fire

A 46-foot house trailer was severely damaged by fire late Wednesday afternoon on U. S. 66 about two miles east of the city.

McLean volunteer firemen were summoned to the scene and extinguished the flames, but the interior of the trailer was badly damaged.

An investigation later indicated the fire apparently started in clothing piled on a bed.

The trailer was being transported by National Trailer Convoy of Tulsa, Okla., from San Diego, Calif., to Springfield, Ill.

Local firemen had been called earlier in the afternoon to the C. Bjerg farm residence north of McLean on SH 273 to extinguish a fire which was threatening a barn.

## City FBLA Wins Many Honors At State Meeting

The McLean High School Future Business Leaders of America captured a big share of the honors last week at the state FBLA convention held on the North Texas State College campus in Denton.

Phyllis Flowers, daughter of Mr. and Mrs. Waymond Flowers, took first place in the spelling contest; the chapter project also won first; the scrapbook received a third-place rating; the parliamentary team ranked in the top five, and Doug Cockett was among the top six in public speaking.

Miss Flowers now is eligible to represent the entire state at the National Future Business Leaders convention the second week in June.

**'Gem of Year'**  
"Gem of a Year" was the theme of both the chapter project and the scrapbook.

The project, which won a trophy, consisted of a jewelry showcase containing nine birthstone rings, with lights inside to reflect the color of the sets.

On the set of each ring were inch-high characters depicting the highlights of the FBLA year and demonstrating the club's projects and programs in each given month.

Judging was based on originality, neatness, proportions, design materials and detail.

**Miss Page Chairman**  
Janice Page was chairman of the project, and other committee members were Doyal Billingsley

## Religious Survey Is Sunday Afternoon

The First Baptist Church will conduct a community-wide religious survey Sunday afternoon, according to Frank Simpson, director of the enumeration.

Simpson asked all members of the church interested in helping with the survey to contact him or Rev. Dan Beltz, pastor.

Persons participating will meet at 1:30 p. m. Sunday at the church.

## STOCK LAW TO BE ENFORCED

Newly enacted City Ordinance 82 regulating the number of livestock kept in McLean will be enforced when complaints are filed, according to City Manager B. J. McCartney.

The ordinance, an amended version of Ordinance 82 adopted in the 1940s, became effective with its publication last week in The McLean News.

McCartney said the city marshal has been instructed to contact persons owning livestock not legally kept in the city when a complaint is signed.

Residents desiring to register complaints should come to city hall.

The city commission decided to change Ordinance 82 because its provisions were "inconsistent."

**'One Full Acre'**  
Under the new ordinance, "one full acre of land" is necessary for each head of livestock.

Ordinance 108 provides: "Hereafter it shall be unlawful for any person, firm, corporation or association of persons to keep a hog or swine, cows (including any animal of the bovine species of livestock), horse, mule, jack, goat or sheep within the city limits of the City of McLean, unless such animal is kept upon one full acre of land, and in any event no such animal or animals shall be kept within the limits of said city unless there is one full acre of land for each of such animals where the same is kept."

The keeping of more animals than provided "constitutes a health menace," the ordinance states.

## Pancake Supper Will Be Held March 16

March 16 has been set as the date for a pancake supper sponsored by the McLean Lions Club, and tickets will go on sale soon.

The supper is to be held in the grade school cafeteria.

Proceeds from the event will be used to help pay the expenses of sending the club's queen, Ruth Pagan, to the Lions convention next month in Pampa.

The date for the supper was announced at Tuesday's club directors breakfast in the Hindman Hotel Coffee Shop.

Club President Sammy Haynes also announced during breakfast that the organization is checking into the possibility of locating the new Little League baseball park on Rock Island Railroad property in the south part of town.

Permission to use the property is being sought from the railroad. The club had planned to acquire land east of Floral Addition for the park, but now will delay any further action until an answer is received from the railroad.

## Attends Show

Mrs. Alberta Fry, owner and operator of Alberta's Hair Fashions in McLean, attended a hair fashion show in Guyton, Okla., Sunday.

Guest artist for the show was Paul Barnes of Oklahoma City.

Just Between Us by J.B.S.

It's good to hear that flashing smile of a certain young friend of ours didn't disappear for long, and he's returning to his usual happy disposition.

James McCartney's broad, handsome grin has been a source of pleasure for us in these few months we've been in McLean, and it was a painful shock when we heard about his injuries Sunday.

Obviously every resident of our city shared the same feelings.

"Have you heard how James is?" was on the lips of almost everyone we met Monday, Tuesday and Wednesday.

Pain is no stranger to this 7-year-old. He's had more than his share, and we're praying that after this latest siege is past James can be spared any more.

It seems James' young life has been one major surgery after another, and there will be more operations in the future as doctors restore his good-looking features.

But we're sure he'll come through in fine form, and we're looking forward to having him back home again.

It appears not too many months will pass before we're finally in that fine new Post Office.

The boxes have been installed and furniture should be here before too long. Then Bill Reeves and his crew can move across the alley.

With all that space, they may have trouble keeping up with each (See JBU, Page 4)

## Showing of Movie Sponsored by FFA

The McLean High School Future Farmers of America will sponsor the showing of "Tomboy and the Champ" Sunday, Monday and Tuesday at the Avalon Theatre.

Jim Weatherford, vocational agriculture teacher and FFA advisor, said Wednesday tickets for the color movie—about a girl who made a champion out of a calf won in a scramble—are now being sold by the chapter members at regular admission prices.

Half of the money from ticket sales will go to the chapter. The FFA's proceeds will be used toward the purchase of a welder for the agriculture students' shop.

## NEWS from YOUR COUNTY AGRICULTURAL AGENT

TEXAS A. & M. COLLEGE EXTENSION SERVICE

By FOSTER WHALEY

### Revised Estimate on Cattle Numbers

A revised estimate of the U. S. cattle numbers now estimates we have 97 million head. Earlier estimates had it we were pushing the 103 million mark.

This is good news to know we have some six million head less than earlier reports. The fact that there were fewer cattle than the government estimates could have been the prime factor in last fall's and this winter's price rise.

Late last fall information leaks had it that the Marketing Service was over-estimating cattle numbers. The fact that there weren't as many cattle to supply buyers' demand for feed lots, wheat pasture and other needs probably had a lot more to do with the price rise than the information from the U. S. D. A.

The Jan. 1, 1960, and also January, 1961, estimates were made before the 1959 agricultural census was completely tabulated.

Since the agricultural census is

### Crutcher Participates In Army Exercise

FULDA, Germany—(Special)—Army Pfc. Johnny D. Crutcher, 20, son of Edward Crutcher, Lefors, recently participated with other personnel from the 14th Armored Cavalry Regiment in Exercise Winter Shield II at the Grafenwohr-Hohenfels training area in Germany.

Crutcher, a member of Howitzer Battery of the Regiment's First Reconnaissance Squadron in Fulda, entered the Army in January, 1959, and arrived overseas in May, 1960.

He is a 1958 graduate of Lefors High School and was employed by the Coca Cola Bottling Co., Pampa, before entering the Army.

The state's farms and ranches will hum with activity once weather conditions become favorable for outdoor activities. The Texas Farm and Ranch Safety Council passes on this reminder—"Don't forget your safety manners. They could save a life."

## BLOWIN' Out the CORNERS

Uncle Zeb

National Future Farmers of America Week started Saturday, Feb. 18. This is hats off week to this fine group of future citizens. Good training for our youth should receive constant recognition. Training received in this group has helped many boys to be better equipped to face life.

One might suppose that only boys who later became farmers were the ones helped. This is far from the truth. Suppose a certain boy later decides to become a preacher. Then, his training in speaking before groups, conducting chapter meetings will be valuable to him. Chapter conducting is one of the leading training programs given the boys. If this same minister should decide to begin with some small rural church, here again his FFA training would become very important.

Regardless of whether a boy becomes a lawyer, preacher or a farmer, he has many demands that are similar. Today's farmer belongs to groups and organizations and speaks before audiences to some degree as the others. The matter of keeping records of our financial activities has become a must for those of any profession. Keeping good records is a part of FFA training.

To the boy who becomes a lawyer he will find that some of the simple agricultural law, the public speaking, and the parliamentary procedure will be priceless.

When we see these boys in the stock show ring we can see future citizens of tomorrow in every field. We can also see them as a part of the 10 per cent of our population who will feed tomorrow's people. Hats off, everyone, to these fine boys this week and every week.

Modern farming is a competitive business and the successful farmer, believes C. H. Bates, extension farm management specialist, must plan just as carefully as does this counterpart in industry. Technology figures large for both. Bates recommends that farmers take advantage of the technical services available to them through local county agents.

## TIPS for OUTDOORSMEN

### A Few Hunting Don'ts

Never say anything against your hunting partner's dog. Also, don't put it or feed it. And don't give the dog orders.

If you kill a bird, tell the owner not the dog.

Follow these don'ts and you'll keep the respect and friendship of your partner.

### For Better Shooting

As you get older, the open sights of your rifle get fuzzier and won't stay on the target. You find yourself missing the target often.

Of course, this can be overcome by using scope sights. But often a scope isn't feasible, or you may not like scopes.

So, the next best thing to do is to switch from open to ring, or peep sights. You won't have to squint, and your target is again clear.

Better change the front sight at the same time. Replace with one that has a higher post. Most rifles are drilled to receive peep sights, so you can install it yourself.

### Be Careful With Bullets

Carrying your loose ammunition around in your pocket is foolhardy. The little .22 cartridges are especially dangerous. They are small and easily lost, and may turn up in the open fireplace with a bang—literally.

### Remember the Dogs

Hunting dogs, especially setters, have a mighty hard time in hot weather. So don't forget to give yours plenty of shade and water at all times. Many sportsmen are inclined to neglect the pooch during off-season.

### To Clean Ducks Easily

Next time you scald ducks to remove the feathers, try using a home detergent in the water. The feathers come off easily and quickly.

### Smoking Out Coons

Don't smoke coons, possums or squirrels out of dens or hollow trees. You can cause a disastrous forest fire by doing so.

### PACKAGE AGED PLAN

The United States Chamber of Commerce has proposed package retirement programs financed during working years as the best way of providing medical care for the aged.

The social security approach, Arthur H. Motley, chamber president, said, "would require boosting social security taxes to a point where people might rebel against the whole social security program."

Instead, tie a wad of cloth on a stick and soak in common household ammonia. Thrust ammonia-soaked end of stick in tree hollow or den and the occupant will hustle out in a hurry.

### Protecting Your Motor

Does your outboard motor get scuffed, scarred or thrown out of adjustment when carried in your car trunk?

Next time out try laying it on an old inflated inner tube. The inflated rubber absorbs the knocks and scuffs, and preserves the finish.

### Patching Holes in Boots

An enduring emergency patch for that hole in your rubber boot can be made by heating (not too hot) enough common tire tape to do the job, and applying to the dried surface of the boot. It lasts!

### Carsick Pup Needs Air

When your pup begins to get carsick he will drool at the mouth. That's the time to hustle him out of the car in a hurry (to avoid much unpleasantness) and walk him around in the fresh air.

### Easy Way to Probe Shot

Use a very small sharpened screwdriver to probe shot and imbedded feathers out of your game birds.

It does the job better than a knife blade and is easy to carry with you on a hunting trip.

### New Use for Tin Shears

Pack a pair of small tin shears in your duffle bag next hunting trip.

They are excellent for chopping off the legs, wings, heads, etc., of any game you might be dressing.

### Saves dulling your knife on bones.

### Be Alert for Snakes

Watch out for snakes when in the field or wear snake-proof boots. Don't think there are not snakes about just because of the calendar. A warm sun on a cold day often brings out the reptiles.

Also, remember that rattlers don't always rattle before striking. So don't depend on your ears.

Look for raccoons around water and in damp places. Rattlers usually inhabit rocky or timbered country.

Always carry a snake-bite kit, to use on the side.

### "Besswood" Dangling Clothes

Smoke those new-smelling hunting clothes over a campfire. This will remove them from the hunting season so they won't scare off game, or get ribald comments from your fellow hunters.

## Fishing License In Texas Is Lowest

AUSTIN—(Special)—Thirty states charge more than Texas for resident fishing licenses and every state charges more for non-resident licenses, according to a breakdown of hunting and fishing license costs for 1960-61.

The average cost of non-resident fishing licenses in 49 states is \$7.36 in Texas residents and nonresidents pay \$2.15 for an annual license. The average price for resident fishing licenses in 49 states is \$2.70.

Iowa and Kansas have the lowest non-resident licenses, other than Texas. They are \$3 each. Indiana charges \$3.50 and Illinois charges \$4.

There are 45 states with temporary fishing licenses, average \$3.05 each.

California, Colorado, Florida, Maryland, Montana, Nevada, South Carolina, West Virginia and Wyoming charge non-residents \$10. Washington and Arizona charge \$15.

A number of states have a trout stamp which costs extra.

On hunting licenses, the average resident cost is \$4.38. The Texas license is \$3.15. The non-resident average for 49 states is \$25.36. The Texas non-resident is \$25. The price in Idaho is \$75.

Several other states have lower basic licenses than Texas, but charge additional for deer permits.

There are about 100 foundations and public trusts in the U. S. with assets of \$5,000,000 or more. They perform widespread functions for human welfare. The two largest, Rockefeller Foundations and Ford Foundation, have assets of over half a billion dollars each.

## THE AFRICAN PROBLEM

The recent death of Patrice Lumumba has brought into clear focus the fact that there are many, many problems associated with the continent of Africa, and that there will be many, many more not readily discernible.

Africa is attempting to do in a very few years what it has taken this country since 1492 to accomplish. In other words, the task of bringing Africa to modern-day American standards is equivalent to the task that would have faced Christopher Columbus in 1492 when he stepped off his ship onto the virgin new world.

This task may not be impossible to accomplish, but it is highly improbable, even with the modern-day methods, unless the people of that continent are able to face the problem involved and fully appreciate what must be done to solve it.

This is most difficult in a country that is 95 per cent illiterate; a country which is rich in natural resources, but wholly lacking in human knowledge; a country in which the government is primarily tribal and the chief political divisions are tribal; a continent inhab-

ited by some 220 million people, as best estimated, who generally pursue a day-to-day existence with no understanding of modern-day economics.

The continent of Africa gave birth in 1960 to some 17 new African states, 16 of which have become members of the United Nations with a vote equal to that of the United States. These new nations must choose between two ideologies; either freedom under the philosophies of western democracy, or a regimented and restricted existence under the communistic doctrines of the Soviet philosophies.

In order to make the proper choice, it is essential that these people have the advice and counsel of an educated and well-trained mind; preferably an educated and well-trained mind of their own people, in whom they can place definite trust.

The difficulty is that very few of their people have an education, and fewer have any training or experience at all in government matters.

There are only 10 universities in tropical Africa, and some of these have just started to function, such as Lovanium University in the Congo, which graduated its first students in 1959. Only about 7,000 African students were enrolled at African institutions in 1958. Several thousand were studying in the United Kingdom, France, Italy and other countries.

There were some 1,165 Africans studying in American institutions in 1960. But these numbers are infinitesimal when compared with the populations of the countries in Africa and the number of people who have not the slightest education of any kind, outside of nature.

Efforts are being made by many universities and groups in this country to afford educational opportunities to these peoples from these new nations of the world. We in this country are always willing to help our fellow man. But it is most difficult to be helpful when those who need help refuse to recognize the fact that independence and freedom have corresponding responsibilities.

It would seem that those Africans who have been so fortunate as to be afforded educational opportunities would be trying to explain to their own people the responsibilities which must be assumed. It would seem that those of their own race who live in this country and enjoy the benefits of western democracy would see the great opportunity to counsel with those in Africa.

It is an unlimited opportunity to strike telling blows against communism. Certainly these new nations in this world cannot make headway toward the full exercise of freedom and independence employing the tactics which were used at the meeting of the Security Council in New York on Feb. 15 and at the Belgian Embassy in Washington, D. C., on that same date.

I do not know the nationality or the make-up of the groups causing the disturbance at the United Nations, but those who moved against the Belgian Embassy in Washington were listed in the police record as natives of Nigeria, Tanganyika, Kenya, Uganda, Ethiopia and Sierra Leone.

They were students in this country, enjoying the hospitality of this country. They attacked the property of another nation, in violation of the laws of this land and with a total disregard for diplomatic ethics.

The newspapers in Washington listed the 25 students who engaged in this unlawful demonstration. This conduct and that of the demonstrators in New York undoubtedly caused chuckles of glee to Mr. Khrushchev and other Communist leaders. It would behoove all who participated in these activities to carefully analyze their behavior and ask themselves what contribution they think they have made to the future welfare of these newborn nations.

It would be well for them to remember that the only reason they were not lined up against a wall and shot is because they were in a country governed by laws, not men.

**VISITORS**

We had the pleasure of a visit with Bill Nelson of Amarillo, Sheriff Hugh Anderson of Borger and Carroll Griffin of Dumas. All were in the nation's capital last week. ## IDEA FOR A LAW

A bill before Congress is an idea for a law.

Who thinks it up? A congressman, the home folks the President, almost anybody.

How does it become a law?

1. The congressman calls on the Congressional Legislative Service to cast the idea into legal language.

2. He drops his bill into a legislative hopper. The clerk numbers and passes it to the Speaker of the House of Representatives. He refers it to a committee. There it may "die" unless the sponsor asks for action.

3. If he does, the committee may consider the bill or assign it to a subcommittee to consider the bill.

Usually, either the committee or the subcommittee will hold hearings, study the merits of the bill and prepare a report on it to be submitted to the House.

4. At long last the committee votes on it. If most members support it, it goes "out of committee" to the House.

5. It gets on the calendar and the House Rules Committee says how, when, and for how long the House may review the bill.

6. The speaker sets a time for debate with equal time to both sides.

7. Afterwards the House votes. If passed, the bill becomes an "act" and goes to the Senate.

8. The Senate president refers the act once again to a committee which may "table" it, or report it out with or without change.

9. The majority Policy Committee sets the time for debate on the bill, and a member asks to have the act considered. If this motion is carried, it calls for debate, perhaps amendments and a vote.

10. Often, if the Senate (or the House) amends the bill, it goes back to the House (or Senate) or another vote. Failing that, the bill goes to a "conference committee" of both houses (as a rule, seven members from each) to iron out differences. Result: Often a compromise. Should the conference disagree, the bill dies.

11. If it agrees, the act goes back to both houses for a final vote.

12. If approved, the act goes to the President. He may (1) sign it and make it a law; (2) veto it (two-thirds of both houses may over-ride his veto) or (3) neither sign nor veto it.

13. If he does not sign it, the act becomes law in 10 days if Congress is still meeting. If Congress has gone home, the act dies by "pocket veto."

14. Bills starting in the Senate must go to the House of Representatives and thence to the President.

(This newsfeature, prepared by the State Bar of Texas, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who is fully advised concerning the facts involved, because a slight variance in facts may change the application of the law.)

# Farm Facts

Many members of farm families today live on the farm and work in industries nearby, thus supplementing the family income.

The net income of farm operators in 1959 was more than \$18 billion. Net income from farm sales amounted to almost \$10.7 billion—about 59% of the total—while net income from non-farm sources amounted to more than \$7.4 billion, or approximately 41% of the total. This was a decline from 1958 when net income totaled more than \$19.3 billion. Farm sales accounted for almost \$12 billion and off-the-farm income amounted to almost \$7.4 billion.

Off-the-farm jobs loom more important for farm operators as net income from farm sales continues to decline. This is due to a cost-price squeeze which finds the farmer having to pay more for what he buys without a proportionate increase in prices for what he sells.

In 1948, for example, total net income of the farm population amounted to more

About 2/3 of the income of farm families comes from off the farm.

than \$21.1 billion. Net income from farm sales accounted for almost three-fourths of the total, or about \$15.8 billion. Off-farm income in 1948 was about \$5.3 billion, 25.2% of the total net.

On the parliamentary team were Gary Gordin, chapter president; Jack Back, chapter parliamentarian; Jim Watson and Barney Pool, chapter vice presidents.

Mr. and Mrs. Jack R. Riley accompanied the FBLA members to Denton, and Mrs. Riley, sponsor of the local organization, was elected area sponsor and appointed to the state auditing committee.

Twenty-six of the 32 local FBLA members attended the event.

Mrs. Riley praised the McLean students for their showing at the convention. They competed with students from much larger schools. A majority of the contestants were representing Class 4-A schools at the convention.

**No Bridge Now**

The present road was completed and fenced in 1927, but no bridge across the river exists and the Salt Fork presents a barrier to travel much of the year.

Efforts to persuade the Highway Commission to build a paved road through the area began some 30 years ago, but little encouragement was received until recent months.

Last year committees were formed in McLean and Hedley to press for the new road.

# STATE CAPITAL Highlights AND Sidelights by Vern Sanford TEXAS PRESS ASSOCIATION

AUSTIN—(Special)—Both pro- and anti-sales taxers declare they're in a better position now that Gov. Price Daniel has dropped his support of the payroll tax plan.

Pro-sales taxers say this will leave the Legislature practically no choice but to pass a general sales tax. But opponents say it clears the way to getting down to "numerous other plans."

In his message dropping the payroll tax, the governor also said that he felt neither a sales nor an income tax had a chance of passing. He recommended instead the State Finance Advisory Commission's second choice plan, extension of excise taxes.

Under this plan, new items to be taxed would include restaurant meals, gas and electric household appliances, jewelry and watches, soft drinks, building materials, business machines, home and office furnishings and boat and automobile parts.

Taxes on these items would be increased: Motor vehicles, gasoline, air-conditioners (to include central systems), cosmetics, beer, liquor, wine and boats and motors.

**ELECTIVE INSURANCE BOARD**—A proposal to grant the people the right to elect the members of the Insurance Board has been introduced by Rep. David Read of Big Spring.

The appointive board has been under severe criticism for several years, especially since it suddenly increased insurance rates on motorists, based on traffic violations.

Bill is patterned after the law requiring the election of the railroad commissioners. It is the sponsor's belief that the public would be given more consideration if the insurance posts were elective positions.

**AUTO INSURANCE PLAN HIT**—Texas' merit-rating plan for auto insurance came in for heavy criticism as the Senate insurance committee considered a measure calling for extensive changes.

Sen. Grady Hazelwood of Amarillo declared that, at present, it's not how you drive, but whether you get caught that determines your insurance premiums.

Under a revised plan sponsored by Sen. Hazelwood, insurance premiums would be raised only for more serious traffic violations. No penalty points would be assigned for anything that happened before Jan. 1, 1960.

in taking apart the present plan. Sen. Hazelwood said it is inequitable because, among other reasons, (1) it doesn't apply to commercial vehicles such as trucks, taxis, etc., and (2) traffic tickets aren't passed out as readily in small towns as large ones.

No one appeared to disagree with his views.

**WATER BILL PASSED**—A bill to raise the amount the State Water Development Board can lend for local water projects gained final passage from both Houses.

It will become law with the governor's signature. Gov. Daniel favors the bill, called it "a great step forward." Bill would allow the board to lend up to \$15,000,000 for any one water project.

Another water measure under consideration would allow the state to buy conservation storage space in Texas reservoirs, saving and selling water that would otherwise run off. It is in the form of a constitutional amendment and is sponsored by Sen. George Parkhouse of Dallas.

Supporters hope to gain legislative approval in time to have it put on the ballot at the same time as the run-off in the special senatorial race.

**WOMEN LOSE ROUND**—Women's rights advocates lost by one vote an effort to get their proposed constitutional amendment sent immediately to the Senate floor.

Instead the amendment designed to wipe out with one stroke all differences in legal treatment of men and women was sent to subcommittee.

A large delegation of women came to plead for the measure. Objectors said a law-by-law approach should be taken to avoid legal chaos.

**SCHOOL DAY INCREASE**—House passed to the Senate a bill which would increase the time during which a child may be legally compelled to attend school.

Present requirement is to attend school from 7 to 16 years of age for 120 days each year. House bill would change the age limit from 6 to 16 years of age and the school year to 180 days.

At the request of Rep. Jack Woods of Waco, the House removed a provision that would have required 17-year-olds to stay in school.

**JOB CLASSIFICATION APPROV.**—A bill to amend "like work" among state employees has moved to within one step of House passage.

Sponsored by Rep. John A. Huebner Sr. of Bay City, the bill enacts a job classification system and raises the salaries of workers receiving less than the standard salary for those in their category. No salary cuts would be made.

Estimated cost of the required raises under the measure is \$450,000 a year.

**PROPERTY OWNERS UPHOLD**—Two cases involving disputes between property owners and oil and gas drillers were ruled on by the State Supreme Court.

In a Lubbock County case, the high court ruled that a drilling firm was responsible for damages caused by salt water pollution of an irrigation well—even though the property owner had given permission for salt water disposal on the land.

In another case, the court ruled that drillers using the sand fracturing process to open up subsurface cracks to release gas were trespassing on the right of neighboring lease holders.

**SHORT SHORTS**—Rep. Robert Hughes of Dallas is sponsor of a bill to strengthen laws against cruelty to animals.

House gave final approval to a bill to require run-offs in special elections to fill congressional vacancies. Present law applies only to U. S. senatorial races.

## Operating Money Is Made Available To Farmers by Agency

Additional funds have been made available to help meet the needs of eligible farmers who need operating money to carry out their farming operations, James Gouddy, county supervisor for the Farmers Home Administration, has announced.

Gouddy said that a \$35,000,000 contingency fund provided by the 1961 Agricultural Appropriations Act has just been released to the Farmers Home Administration to meet the growing demand for credit.

This move was taken by the U. S. Department of Agriculture, Gouddy said, in an effort to make certain, within the authorities and funds available, that no qualified family-type farmer will be required to give up farming because of his inability to finance his 1961 operations.

**Sources Exhausted**—Because of high operating costs and unfavorable margins of profits many farmers have exhausted their regular sources of farm operating credit. The amount of operating loans made so far this year by the Farmers Home Administration totals 20 per cent higher than last year.

The credit agency's biggest lending season lies just ahead as farmers prepare to start their spring work.

The FHA makes operating loans primarily to help eligible farmers make improved use of their land and labor resources on family-type farms and make needed changes in their farming systems.

**Better Practices**—Most of the changes call for adopting better farming practices and improving the efficiency of their farming operations. Loans may also be made to qualified farmers who carry on smaller than family-type operations.

Operating loans help farmers pay for equipment, livestock, feed, seed, fertilizer, tractor fuel and other farm and home operating needs, including the refinancing of cattle debts.

Loans are scheduled for repayment in accordance with the borrower's ability to repay, over periods up to seven years. The interest rate is 5 per cent.

Further information on these loans may be obtained from the office of the Farmers Home Administration in Clarendon, serving Armstrong, Donley and Gray Counties.

## Miss Thompson In Critical Condition

Miss Hattie Thompson, formerly of McLean, was reported Tuesday in critical condition in the United Brethren Hospital in Espanola, N. M.

Miss Thompson, sister of Mrs. Willie Boyett of McLean, was found in a semi-conscious state last week at her home in Belarde, N. M.

Doctors blamed her condition on a blood clot in her leg.

Mrs. Boyett said Tuesday her sister's condition was critical. Doctors are attempting to dissolve the clot. The local woman returned home late Monday afternoon, visiting Miss Thompson.

Two other sisters also have been at her bedside—Mrs. Pearl Thompson, Birdman, Thomas, Okla., and Mrs. Maude Prefountain, Ada, Okla.

Mr. and Mrs. Jack Shelton and wife spent Sunday in Clinton, Okla., visiting with friends.

Mr. and Mrs. Raymond Smith visited his sisters, Mrs. Ruby McTate and Mrs. Willie Mohrenweiser, and her boys at Damas over the weekend.

**LITTLE COLONEL** By Bob McKinley

Mr. and Mrs. Ed Brown and son of Samnorwood and Mrs. T. E. Trostle of Lela were here Monday night visiting with Miss Ruby Cook. Mrs. Trostle, mother of Tom Trostle of McLean, is president of the Penthandlers.

Mr. and Mrs. Hickman Brown were in Shamrock Sunday.

Mr. and Mrs. J. W. Stoup of Nocona visited with the J. Boyd Smiths last Friday. He is Mrs. Smith's brother.

Mrs. Pearl Turner, former resident of McLean, left Friday for her home in Amarillo after visiting several days with friends and relatives here.

**P-TA Meeting Will Be Next Wednesday**

"Counseling and Testing" will be the subject under discussion at the next P-TA meeting at 4 p. m. Wednesday.

Jack Riley, grade school principal, is in charge of the program. Jim Boyd, band director, will present one of his musical groups in a few numbers.

At the meeting the group held in February, Mrs. Vera Back served as moderator for a panel discussion on the subject "Time—How It Is Used."

Others on the panel were Mrs. Richard Back, Mrs. Harold Fabian, J. B. Roach and Supt. Lee Welch.

During the business meeting, at which Mrs. Guy Beasley, president, presided, there was a short discussion on buying a trophy case for the grade school.

Hostesses for the afternoon were the room mothers for Mrs. Lucille Gething's fifth grade.

Mrs. Charles Weaver's room won the room count.

**SPACE FILLING STATIONS**

The United States has taken its first tentative step toward creation of cosmic filling stations for space ships.

The first problem is to find out whether such filling stations can now be put together and how.

In time, a series of these space platforms could become manned refueling points and wayside inns for astronauts bound for trips of exploration around the solar system—and possibly beyond.

**PRESS HONORED:** The George Washington Medal for accomplishment in the field of advertising dedicated to preserving the American Way of Life, was presented to the Texas Press Association at its January convention in San Antonio by Associate Justice Meade Griffin of the Texas Supreme Court. Judge Griffin presented the plaque, pictured above, on behalf of Freedoms Foundation of Valley Forge, Pa. Receiving the national award for TPA, on behalf of the daily and weekly newspapers of Texas, was L. B. Smith, publisher of the Brady Standard-Herald, president of the press group.

Although the extensive federal highway construction program of 40,000 miles, now well along, will represent only 1.2 per cent of the total U. S. mileage, the new roads are expected to carry 15 per cent of the total traffic.

**Ground Broken For New Game Building**

AUSTIN—(Special)—Ground has been broken for a new state office building in Austin which will house the Game and Fish Commission.

The first spadeful of dirt was turned by Gov. Price Daniel, who also is chairman of the State Building Commission.

The building when completed will have an area of 147,205 square feet. The construction contracts call for an expenditure of \$2,076,102. Of that amount the game commission is paying \$1 million.

The building is located on the southwest corner of 15th and Congress Avenue just north of the Capitol Building.

It is the fifth new structure on the Capitol campus program within the past four years.

**PET LOVERS GET BIRDS**

EAST LANSING, Mich.—There is now one pet bird in every fourth house, reported Dr. K. M. Friedburg, an authority on the care of caged birds.

"We have 15,000,000 parakeets and 7,000,000 canaries in this country, and the figure is climbing," Friedburg said. "Apartment dwellers and our large aged population find a bird the least burdensome pet."

**ROAD PLANS DISCUSSED BY JUDGE CRAIG**

County Judge William J. Craig spoke to the Lefors Lions Club Monday night concerning the new highway to come through Lefors, the contract for which will be let this summer.

"Values have to be set, utility companies must agree with necessary changes and land-owners have to come to terms with the final contract," stated Craig, "sometimes making it rather difficult to get a state highway in the final stages so that work can begin."

"The first-class highway will eventually connect with the road going from McLean to Hedley," Craig said.

Fred Blackwell reported that the highway committee had reached a decision on a route through the city which would involve only three blocks, and will meet with the county commissioners Friday or Saturday to see if the proposal will be accepted or rejected.

The route is one which will be just east of the football field, and will involve moving several houses.

Ray Chastain reported that work on the cemetery fence is progressing well.

Boyd Beck heads a committee that will raise funds to send the club delegate to Atlantic City.

J. E. Spackman spoke on the occasion of the Civic Center, at the board of directors meeting at 9:30 a. m. Monday, stating: "The building is in need of a face lifting, such as paint, and re-doing floor, etc."

Discussion was held on taking his as a club project, many details needing to be worked out, with Fred Blackwell and Ray Chastain to work with Spackman in regard to the club's taking this as a project.

It was decided to paint street sign posts over the city.

R. E. McDonald and John Archer spoke on the crippled children's camp at Kerrville, where they visited last week, stating it was very impressive to see blind people "teach the blind."

The thirty-eight members were present for the evening meeting. Present for the board of directors meeting were Gene Fort, Fred Blackwell, Charles Roberts, J. R. Spackman (guest), Alex Swain, D. T. Pfeil, John Archer, R. E. McDonald, Warren Walls, Walter Elliott, J. P. Bussell, Aubrey Carlton, Joe Clarke (guest), Jack Thacker and Boyd Beck.
