

Stores Closing For Baseball Opener Here

Eighty Big Spring merchants and business men today took the lead in shaping up arrangements for dedicating the new high school baseball stadium tomorrow and welcoming home the Big Spring Broncs, who are currently riding high atop the Longhorn league.

Store managers hastened to sign petitions for closing their respective businesses at 4 p. m. Thursday in order that employees would have an opportunity to attend the Broncs' home opener at 4:30 p. m. The petitions were started at a special meeting of the chamber of commerce retail merchants' committee, which was called at 9 a. m. this morning by Lewis H. Price, committee chairman. A total of 29 committee members, one of the largest groups ever to attend such a meeting, were present.

At the conclusion of the meeting, petitions were circulated rapidly through the business district, and by noon the list of names had grown to 80. Price reminded business men and store managers that it was impossible to cover more than the central business section during the abbreviated morning hours, but all firms who can arrange to do so are urged to observe the early closing hour for the occasion.

The local stadium was originally scheduled for dedication on the night of April 23, but construction work on the plant was delayed.

The stadium and other installations will not be entirely completed Thursday, but ample seating space for a sizeable crowd will be available.

Tri-State Tornado Kills 20, Injures 50

WORTH, Mo., April 30. (AP)—Tornadoic winds whipped through small towns in Arkansas, Missouri and Iowa leaving at least 20 dead today, injuring more than 50 and causing thousands of dollars in property damage.

Hardest hit was this northwest Missouri town with a population of 233. Thirteen persons were killed and approximately 45 injured. Only half a dozen buildings in the town were left standing.

At least seven persons were killed in Arkansas where vicious winds last night lashed the small community of bright water and swept close to Garfield, not far from the Missouri line.

A tornado also struck Clio, a town of about 200 population, in southwestern Iowa, causing extensive property damage. No loss of life was reported, however.

The tornado that hit Worth swept through the center of the town wiping out the entire business district. Two of the town's three churches and its brick schoolhouse were among the buildings demolished. Practically every tree in town was clipped off.

The community was in darkness until late last night when a mobile generator arrived from a neighboring town. Both the Salvation Army and the Red Cross set up stations and homeless were being cared for in the few remaining residences still standing and in nearby towns.

Mrs. N. A. Combs, 59, a nurse, said she first saw the tornado high in the air.

"It had a long tail," she said. "When it hit the ground there was a swirling dark cloud. The point seemed to broaden and sweep everything before it. There was a terrifying roar."

Mr. and Mrs. Bruce Pickering arrived just shortly after the tornado hit and found their two children, Irene and Melvin, and Mrs. Pickering's mother dead in the ruins of their home.

"Everything we had is gone—the children, the home, the livestock, everything," said Pickering.

The couple had just returned from nearby Grant City when they saw the storm swoop into Worth.

Clues Slim In Hunt For Missing Airliner

VANCOUVER, B. C., April 30. (AP)—A "bright object" spotted on one of the lower levels of 5,000-foot Mount Moriarly, 20 miles west of Nanaimo on Vancouver Island, provided searchers with their only clue today to a Trans-Canada Airlines transport, which disappeared early yesterday near the end of a Lethbridge, Alta., to Vancouver flight.

Royal Canadian Air Force planes, grounded last night by ceilings almost zero, stood ready to search the rugged east side of the island for the missing craft as soon as they get a break in the weather.

Ground forces were preparing to move on towards Moriarly from Nanaimo to investigate the "object" spotted yesterday by a RCAF flier, who reported visibility was too poor to identify it as a plane or its wreckage.

Famed Bacteriologist Succumbs In England

LONDON, April 30. (AP)—Sir Albroth Edward Wright, the introducer of anti-typhoid inoculation died here today. He was 85 years old.

The famous bacteriologist has been credited with saving more than 100,000 lives of British soldiers in the 1st World War through his use of typhoid inoculations.

He also did much valuable work in the preparation of their vaccines, such as those for tuberculosis and pneumonia.

House Passes Slashed Foreign Relief Measure

Aid To Countries Soviet-Controlled Will Be Re Restricted

WASHINGTON, April 30. (AP)—The House passed a \$200,000,000 foreign relief bill today after cutting \$150,000,000 of the sum asked by the administration and clamping tight conditions on aid going to countries under Russian domination.

Final passage came on a roll call of 333 to 66.

The measure now goes to the Senate where the foreign relations committee already has approved the full \$350,000,000 figure.

Final passage came after the House shouped down a motion by Rep. O'Konski (R-Wis.) to return the bill to committee. The House already had voted to trim the funds and fix distribution standards where Moscow might be involved.

The restriction would deny relief assistance to "those countries whose governments are dominated by the Union of Soviet Socialist Republics" unless they agree to American control of the supplies.

The restrictions were first ordered tentatively yesterday, in an outbreak of protests against the activities of Russian within the countries on her borders.

The action conforming the 43 per cent cut in the relief fund, also tentatively voted yesterday, came on a roll call vote of 225 to 165.

The provision to place tight conditions on relief for Russian-dominated nations was adopted on a roll call vote of 324 to 75.

Price Cuts May Reduce Work

WASHINGTON, April 30. (AP)—An official of the US Chamber of Commerce suggested today that President Truman's plea for lower prices may produce joblessness and recession instead of preventing them.

William S. Street, chairman of the chamber's economic policy committee, cautioned business to be watchful lest the White House call "result in wholesale cancellations of commitments both by business and the consumer."

The Seattle merchant suggested that unemployment might be caused "by the action now taken to attempt to prevent it."

"Such can be the result of failing to give our economy time to work out of its wartime dislocation by the free enterprise method," he said in a speech prepared for a luncheon gathering at the chamber's 35th annual convention.

"The consumers prior to the president's announcement had already indicated their dissatisfaction with some of the values represented in some markets. It seems to me that a sound price adjustment was on its way to be worked out."

Street said he is "not hopeful" that industry generally will cut prices "unless at the same time there is a commitment on the part of labor that they will hold the line during the period such price cutting will require before stability is achieved."

Street said he is "not hopeful" that industry generally will cut prices "unless at the same time there is a commitment on the part of labor that they will hold the line during the period such price cutting will require before stability is achieved."

Aleman Sight-Seeing In US

WASHINGTON, April 30. (AP)—Miguel Aleman, president of Mexico, embarked on a sight-seeing tour of Washington today with President Truman giving him a cheery sendoff from the White House and calling him "a grand guy."

Mr. Aleman, president of Mexico, embarked on a sight-seeing tour of Washington today with President Truman giving him a cheery sendoff from the White House and calling him "a grand guy."

The 43-year-old chief of state from south of the border received one of the most tremendous ovations ever accorded a foreign dignitary when he arrived in Washington late yesterday.

He began a round of official activities last night as honor guest at a Sparkling White House dinner, at which President Truman played host. He had a big program today.

Nine a. m. (CST), lay a wreath on the Unknown Soldier's Tomb at Arlington National Cemetery.

At noon, speak to a special session of the Pan American Union's 21-member governing board. The union is "the inter-American organization of the American Republics."

Tonight return the diplomatic dinner to President Truman at the spacious Mexican embassy. The dinner will precede a reception for Washington's diplomatic corps.

Sometime during the day, "Don Miguel" may find time to talk with Mr. Truman and US officials about possibilities of a multi-million dollar loan to Mexico.

The Mexican government seeks about \$175,000,000 from the Export-Import bank, an agency of the United States. It also had applied for a loan of \$208,875,000 from the World bank for reconstruction and development.

Settlement Is Okayed By Five Phone Unions

Effort To Split Labor Bill Downed

WASHINGTON, April 30. (AP)—The Senate's Republican majority batted down today a proposal to split the big catch-all labor disputes bill into four separate measures.

The vote was 59 to 33.

Defeat of the proposal, sponsored by Senator Morse (R-Ore), gave the Republican leadership a victory in the first Senate test on legislation to curb unions and strikes.

Morse proposed to send the pending omnibus measure back to the labor committee for a four-way division. He and those who backed him contended that it would assure some labor legislation during this session of Congress.

They argued that President Truman might veto an omnibus bill if it contained provisions he did not like. They said he might accept some of the measures if four separate pieces of legislation were sent to him.

Senator Taft said he believes Mr. Truman "has changed his position" since he vetoed the case labor bill last year and "I hope very much he will sign the bill as it is presented to him."

Republic Steel Grants Pay Hike

NEW YORK, April 30. (AP)—Republic Steel Corporation today concluded an agreement with the Steelworkers of America (CIO) providing for a 12 1/2 cents an hour wage increase and other employee benefits which will raise wages by more than 15 cents an hour.

J. A. Voss, director of industrial relations of Republic, the nation's third largest steel corporation, said the general increase will raise wages by more than \$1.20 a day and represents an estimated increase of more than \$22,000,000 annually in the company's payrolls.

The wage agreement follows the pattern set in recent contracts negotiated between US Steel Corporation subsidiaries and the union.

BOULDER NOW HOOVER DAM

WASHINGTON, April 30. (AP)—President Truman today signed legislation renaming Boulder dam, Hoover dam.

Mr. Truman used four pens in signing the resolution and sent them to Lawrence Ritchie, secretary to former President Herbert Hoover, with the view to Hoover's distributing the pens as he pleases.

Texas Strikers 'Not Influenced'

DALLAS, April 30. (AP)—T. E. Webb, special representative from Texas of the Southwestern Telephone Workers Union, said the action of five New York and Pennsylvania unions ending the telephone strike there would not influence the situation in this area.

Webb explained that the five unions representing 43,000 eastern workers were not affiliated with the National Federation of Telephone Workers. The Southwestern workers are.

He said it was possible for Southwestern Telephone Workers Union to reach a separate agreement with the Bell Telephone Company, but it would not be effective unless approved by the national policy committee.

"Any action we take must be approved by that committee, composed of 49 members, one from each of the affiliated unions," Webb said. "Obviously, they would not approve a regional settlement in conflict with the overall policy."

He said there was nothing new in the Texas picture.

"We are just sitting by the radio and reading the papers for the latest news," he said.

All negotiations by the Texas unions, he said, were being conducted in Washington.

CONTRACT FIGHT STARTS

WASHINGTON, April 30. (AP)—John L. Lewis began a new contract fight today with one third of the soft coal industry determined to block another nationwide wage agreement.

43,000 Workers End Long Strike

WASHINGTON, April 30. (AP)—Five unions of 43,000 telephone workers in New York and Pennsylvania called off strikes today, accepting contracts for wage increases of \$3 to \$4 a week.

None is affiliated with the National Federation of Telephone Workers—which called the nationwide tie-up April 7—but their actions aroused optimism among government labor conciliators for an early end to the strike of 300,000 NFTW unionists.

Joseph A. Beirne, president of the NFTW, said that it showed the Bell Telephone system's "solid wall of opposition to wage increases is crumbling."

He made that comment in a statement as negotiations were resumed here aimed at bringing about a national settlement.

Beirne added that the NFTW's 39 unions "will maintain our picket lines until our entire dispute is settled."

A \$6 weekly wage increase was the chief demand made by the New York and Pennsylvania unions as well as with the NFTW.

Four of these unions are in the New York City metropolitan area. It was announced that the agreement they reached provided:

Ending of the strike today; a general \$4 weekly wage increase effective tomorrow; maintenance of union dues for members beginning tomorrow; pensions and benefits to remain undiminished during contract period; an extra day of vacation for a holiday falling during vacation period plus "improved one-week vacation treatment."

No discrimination by either party for strike or non-strike activities; fringe issues to be negotiated at departmental levels; either party may reopen the wage question once during the one-year lifetime of the agreement.

The settlement in Pennsylvania was reached by a union with 6,000 maintenance workers. It agreed to \$3 weekly wage increases for workers getting less than \$51 and \$4 for those now making over \$51.

A big question left by the agreements was whether the members of these unions would respect picket lines of the NFTW workers still on strike.

NFTW officials said they expected the independent unionists to do so. But some government labor conciliators took the view that the agreements provided for a return to work and hence the independent would feel bound by that.

Frank J. Fitzsimmons, president of the Western Electric employees' association (a telephone affiliate) asserted that the New York-Pennsylvania agreements represented a "sell out of fellow telephone workers," adding:

"There will be no settlement under \$6 as far as we are concerned. Telephone workers can't live on \$3 and \$4 increases when the rest of the country is getting \$6."

Experiment Farm Calves Bring Top

Forty yearling steers, on feed at the US Experiment Farm since last Oct. 30, topped the market in Fort Worth today.

Fred Keating, US Experiment Farm superintendent, notified the Herald Wednesday morning that the fat calves brought 2 cents per pound above the board. This was the top price for this type of feeder on the Fort Worth market for several weeks. While no figures were available immediately, the gross sale likely was in excess of \$8,000.

The calves have been fed out in a continuation of a series of experiments to test the effect of minerals in feeding diets, also in an effort to explore further the possible cause of urinary calculi. This ailment, which produces a fadder precipitate which sometimes clog the urinary tract with fatal results, is one of the problems of feeders.

Keating will remain in Fort Worth today to get grades on carcasses and to get data on bladder precipitates. Final data on the tests, together with average daily gains and economy of gains, will be computed upon his return home.

Colonel Durant Gets 15 Years At Hard Labor For Theft Of Jewels

FRANKFURT, Germany, April 30. (AP)—Col. Jack Durant was sentenced today to 15 years at hard labor and dismissal from the US Army for participation in the bizarre theft of \$1,500,000 of Hesse Royal jewels from Kronberg Castle.

After deliberating for two days, the US Military Court of eight colonels convicted the 37-year-old Chicago Air Force officer on eight counts. These included theft, smuggling jewels into the United States without payment of customs, and signing another officer's name without authority in an attempt to hasten a discharge from the Army.

TRAGEDY IN PALESTINE — Unaware that he was dead, Mrs. Shaki Balladi of Beirut, Lebanon, prepares to bathe the face of her three-year-old son, Gilbert, after a mine exploded and wrecked a British train near Behevet, Palestine, recently. Mother and child were in a sleeping coach of the train, en route back to Beirut from a visit in Cairo, Egypt, when the explosion occurred. (AP Wirephoto).

Bill Prohibiting Check Deductions Is Approved

AUSTIN, April 30. (AP)—A House-passed labor bill which forbids deductions from an employee's paycheck without his consent was approved by the Senate today and sent to the governor.

There was no argument, amendment or opposition to the bill authored by Rep. Wayne Waggoner of Fruitland and sponsored in the Senate by Sen. R. A. Welnet of Seguin. It was finally passed by voice vote.

The bill exempts federal income withholding taxes and Social Security taxes from its provisions. Labor union dues and other deductions could be made, however, only with the written consent of the payee, who, under provisions of the bill, could withdraw his consent at any time after it is given.

In the House, the spending-taxation issue erupted again when Rep. Woodrow Bean, of El Paso, took the floor to warn that the state would show a deficiency of \$46,222,384 unless new taxes were levied or appropriations slashed.

Sparking the outbreak was a resolution calling for final adjournment on May 13.

The resolution was withdrawn after Bean declared that it was "one of a series of attempts by those who want to close shop and go home without getting the job done."

Injunction Suit To Start Today

A panel of 33 jurors has been summoned for duty in the injunction suit instituted by Charles Tompkins et al against the Big Spring Independent School district board, which begins at 10 a. m. Thursday in the district court.

Tompkins and the co-plaintiffs sued for an injunction to bar construction of a high school baseball stadium on the school property in the Highland Park addition, maintaining that it would constitute a "nuisance."

Hearing the case will be A. S. Mauzey, judge of the 32nd judicial district (Sweetwater). Mauzey agreed to preside after Cecil C. Collings, judge of the 70th judicial district, excused himself.

Collings bowed out after first refusing to disqualify himself. Motion for such action had been made by the plaintiffs.

Canadian Income Tax Cut 29 Per Cent

OTTAWA, April 30. (AP)—Most Canadians greeted with enthusiasm today news that the projected 1947-1948 federal budget will trim their income taxes an average of 29 per cent, but expressed disappointment that sales and luxury taxes will remain unchanged.

Some labor officials were critical of the fact that the new budget—which calls for expenditure of \$2,092,000,000 in the new fiscal year—proposes removal of the excess profits tax and maintained that if that levy could be removed lower bracket income taxes should have been eliminated entirely.

She and Durant were arrested in Chicago last June 7 while on their honeymoon. Most of the jewels, which had been hidden in the castle, were recovered in Chicago.

Maj. David S. Watson of Burlingame, Calif., was sentenced to three years in the same case as a trial which ended last October.

Sept. 27 for her part in the embezzlement. She had been manager of the Castle, the estate of the Countess of Hesse—a descendant of Queen Victoria of England. The US Army had requisitioned the castle for an officers' club.

MEXICAN PRESIDENT GREETED — President Truman (left) stands with Mexican President Miguel Aleman on a bunting draped platform at the National Airport in Washington as the visiting head of state was welcomed on his trip to the United States. Governor's Stand Again Criticized

AUSTIN, April 30. (AP)—For the third time since he warned the 60th session to slow down on spending, Gov. Beauford Jester has been openly criticized on the floor of the Legislature.

Sen. A. M. Alkin Jr. of Paris, vice chairman of the Senate's Finance committee, yesterday directed the most recent attack — the first in the Senate — suggesting that Gov. Jester "keep his picture fair and his figures straight" on the \$55 per capita and teachers' minimum salary bills.

Alkin said he did not want anybody blaming the schools for the state getting into a financial muddle, declaring: "I don't know where Gov. Jester got his figures but I want to tell this Senate here and now that Texas is not fifth in the nation on amount of money spent on education nor will the \$55 per capita bill cost the state \$51,000,000."

Jester had used the figures in a radio broadcast on permitting the bills to become law without his signature. He also mentioned the per capita bill as one contributing factor toward getting the state's finances out of line, in warning the legislature last week to cut down on its spending to keep "a mandate of the people" against new taxes.

Criticism had come in the House shortly afterward when Rep. Woodrow Bean of El Paso took the floor to object to the legislature's being "dictated to." Rep. Jim Wright of Weatherford criticized Jester as having no such mandate. The appropriations-tax argument continued in the House yesterday. It wheeled out another money bill and moved it one rung up on the legislative ladder over the strong protest of Chairman Claud Gilmer of the appropriations committee.

The bill, which was passed to third reading by a vote of 74 to 57, would extend for one year the tax remissions previously granted certain counties and other political subdivisions. No refunds were given in 1946 because no ad valorem taxes were levied.

For those public agencies which can prove to the automatic tax board that they are in immediate need of funds so as not to default on their bonds, the bill appropriates \$89,173.

The House also passed to third reading the so-called basic science bill, by a vote of 93 to 44. The proponents could not muster enough votes for immediate final passage. The measure would require persons entering the health arts to pass a state examination in anatomy, chemistry, physiology, bacteriology, pathology, hygiene and public health.

A measure to license and tax public recreation rooms was argued at

More Entertainers To Give Benefit Show

HOLLYWOOD, April 30. (AP)—A second troupe of Hollywood entertainers planned to leave by army transport plane tomorrow for programs in Fort Arthur and Austin, Tex., as benefits for victims of the Texas City explosion disaster.

In this group were Mickey Rooney, Kay Kyser, Sonny Tufts, Janis Russell, Peter Lind Hayes, Mary Healy, Ann Blyth, Dianna Lynn, Marion Morgan, Harry Babbitt, Abigail and Buddy and Victor Borge.

The first contingent headed by Jack Benny and Frank Sinatra gave shows in Galveston Monday and Houston last night and were to appear in New Orleans tonight.

Hustmyre Nominated

AUSTIN, Tex., April 30. (AP)—Frank W. Hustmyre of Orange has been nominated by Gov. Beauford H. Jester to become judge of the newly-created 128th judicial district composed of Orange county.

Jester submitted Hustmyre's name to the Senate yesterday for confirmation.

Iceland is about the size of Virginia.

Cosden Declares \$1.25 Dividend Injunction Suit May Test State Trucking Laws

Cosden Petroleum corporation Wednesday announced that the board of directors has declared a dividend of \$1.25 per share on account of accumulated dividends in arrears on the preferred stock of the corporation.

The dividend is payable June 20, 1947, to stockholders of record at the close of business on June 6, 1947.

In letters mailed to stockholders, R. L. Tollett, president, said that final reports on earnings would await an independent audit, but that the corporation's accounting department figures, based on operation but subject to adjustment for depreciation, inventory prices, etc., pegged the amount in the neighborhood of \$580,000 for the fiscal year ending April 30.

Under provisions of Cosden's charter, priority is given to dividends in arrears on preferred stock. The board has followed a policy of attempting to satisfy as soon as possible the dilapidated arrearage on outstanding preferred stock. Tollett indicated that other dividend payments on preferred stock, possibly in like amount to the June figure, might be made in September and December. Final figures on earnings would be a controlling factor.

"In Nepal, a state in India, there is a death penalty for killing a cow."

Proponents based their arguments on these grounds: (1) That the credit of the state would be impaired if the bill did not pass. Rep. George Parkhouse of Dallas said that "certain districts have committed themselves to certain obligations, which are also the obligations of the state" in that the state promised them tax remissions.

(2) That the bill did not carry an appropriation in the usual sense of the word, Parkhouse repeatedly noted that the funds would eventually return to the state, during the "extension year" when the money the agencies receive now is to be taken out of their tax remissions.

In Jester's third criticism in less than a week, Alkin told an attentive Senate that he objected to "figures being pulled out of the air" and broadcast over the state. He cited figures from a report he said was made by the census bureau of the US Department of Commerce placing Texas 29th in amount of money spent on education instead of fifth as Jester reported.

He estimated the cost of the \$55 per capita bill at \$42,000,000 per biennium rather than the governor's estimated \$51,000,000.

Injunction Suit May Test State Trucking Laws

FORT WORTH, April 30. (AP)—The American Asphalt Roof company has filed an injunction suit in 48th district court which may prove to be a test case on the state's motor carrier laws.

At issue is the operation of leased trucks without a permit from the Railroad Commission.

The roofing company seeks an injunction to prevent the commission's enforcement officers from arresting drivers of leased trucks come under the same rule as any truck's "for hire," and that they must have a permit to operate.

Others named as defendants are E. O. Thompson, George Hughes and Bill Murray of the Railroad Commission of Texas, and George Hughes, chief law enforcement officer for the commission.

Price Cuts Might Establish Trend

There seems to be a semblance of a voluntary campaign for price reduction taking shape over the nation. In many cities of Texas as well as over the nation, merchants are aiming at a 10 per cent cut in prices.

This, of course, is not a 10 per cent cut across the board, for not infrequently implements and food are excepted. So are prices fixed by the manufacturer or jobber. Thus, to become completely effective, the big processors must get in line. When they do, food products, whether they like it or not, will find that their markets are being eased off to join the parade.

There is nothing yet to warrant going off the deep end in an assumption that the price spiral is being stopped. The most significant point is that it offers a ray of

hope. The person making \$100 a month (and there are some who achieve the pinnacle of budgetary management on this slim margin) would have \$10 more per month to spend on necessities if the 10 per cent price cut could become widespread. Those with \$200 a month would receive \$20, about the equivalent of a week's basic food bill.

If the movement gains popularity and support, it may develop into a trend. It may invigorate merchandising and more economical production. It may offer the first step toward restoring sanity in our economic order and stop the ascension short of the big "bust." Could this be done, it would be doubly important because it was accomplished voluntarily.

Realistic Report, Positive Action

Secretary of State George Marshall, in his report to the nation, gave what might be most appropriately termed a realistic account. It did not embrace despair or optimism. It was more or less a cold analysis.

The secretary, as have competent observers, said in substance that about the only accomplishment of the Moscow conferences of the foreign ministers of the Big Four was a clarification of issues. When the ministers again come together, they may do so with an understanding of positions and differences which must be bridged if accord is to be achieved.

From Stalin he brought the word that the Moscow sessions were reconnaissance skirmishes looking toward grounds in efforts for peaceful settlement, and that after all parties were sufficiently exhausted by disagreements, agreement would be achieved.

To this the secretary said: "I believe that action cannot await compromise through exhaustion. New issues arise daily. Whatever action is possible to meet the pressing problems must be taken without delay." Categorically, he said that the "patient (Europe) is sinking while the doctors deliberate."

Secretary Marshall, in short, takes the view that there is some basis for hope in ultimate agreement if Stalin's remarks may be taken at face value, but that in the take a dominant role in the rehabilitation meanwhile the US must be prepared to of Europe to prevent further deterioration of the situation.

While urging action while keeping open retary is proposing a positive course. This the door for possible agreement, the sec is in contrast to a defensive or negative position of the past and will be interesting to observe.

The Nation Today—James Marlow

Fasten Tightly On A Few Things

WASHINGTON, (AP)—You, as a citizen interested in what happens in Washington, can know only a little of the whole story.

There's just too much story for anyone to absorb it all thoroughly. The same goes for most of your congressmen, or anyone else here.

Here's the best that people can do is fasten tightly on a few things and try to understand the rest by hitting the high spots.

Take the case of the labor bills as an example. For weeks the House and Senate labor committees, separately, heard a total of about 250 witnesses.

They came to talk for or against labor laws. The Senators and representatives questioned them in vast detail.

The testimony and questioning fills about 6,300 pages in 10 volumes.

Based on the testimony, these separate committees had to draw up labor bills for the full House and Senate to vote upon.

But only 13 of the 96 Senators and only 25 of the 435 representatives were on the Senate and House committees.

So of all the people in Congress, the committee members were most familiar with the background and details of the labor bills.

The rest could learn a lot during debate before voting. But largely they'd have to depend upon the committee members for guidance.

Few members of congress, outside the labor committee members, would have had the time to read through 10 volumes of testimony.

They wouldn't have the time for a very good reason: Most of the House and Senate members not on the labor committees were busy on other committees which were hearing other witnesses on other bills.

So when they in turn draw up bill, after lengthy testimony, the rest of the House and Senate will depend upon them for guidance.

All, when it comes time to vote, may know in a general way what they're doing, and why.

But those few committee members which handled a certain bill will always know it best.

side the labor committee members, would have had the time to read through 10 volumes of testimony.

They wouldn't have the time for a very good reason: Most of the House and Senate members not on the labor committees were busy on other committees which were hearing other witnesses on other bills.

So when they in turn draw up bill, after lengthy testimony, the rest of the House and Senate will depend upon them for guidance.

All, when it comes time to vote, may know in a general way what they're doing, and why.

But those few committee members which handled a certain bill will always know it best.

Affairs Of The World—DeWitt MacKenzie

Future Meets May Produce Accord

Four points stand out above all others in Secretary of State Marshall's report to the nation regarding the deadlocked Moscow conference.

1. There still is a possibility of composing the differences between Russia and the western democracies.

2. However, haste is necessary because disintegration is becoming evident in Europe.

3. The general placed the blame for the failure of the conference squarely on Russian obstructive tactics.

4. There must be no sacrifice of principle for the sake of appeasement.

problems were possible on the main questions. The generalissimo said it was necessary to have patience and not become pessimistic.

This can only be interpreted as an invitation to hope that future big four meetings will produce agreement. However, the next conference to write the all-important German and Austrian treaties is set for November, with some conversations possible in September when the assembly of the United Nations is in session.

This means a lag of six precious months, and Marshall in speaking of the need of haste declared that "the patient (Europe) is sinking while the doctors deliberate."

"So I believe," he added, "that action cannot wait compromise through exhaustion. New issues arise daily. Whatever action is possible to meet these pressing

problems must be taken without delay.

The secretary didn't specify what action he had in mind, but he did make clear the economic disintegration which is going on in Germany and Austria because of the failure of the allies to agree on the economic and political measures for rehabilitation.

And this disintegration in those key countries of central Europe is affecting surrounding nations. Moreover, while it wasn't any issue at the Moscow conference, we can see the dangers of the precarious situation in which Greece and Turkey find themselves.

So while it's encouraging to hear of hope for compromise at some future date, yet this half year of delay is a matter of grave concern. At least it is a matter of concern for the western allies because of their belief that communism thrives on disintegration.

In Hollywood—Bob Thomas

Frankie Joining The Transcribers

Hollywood, (AP)—Hey Bing, look who's joining your ranks in the transcribed radio show corps—it's Frankie Boy.

Sinatra will lose his air sponsor June 4, and he assured me there are many others ready to sign him for a program made a la Bing Crosby—on wax.

It is not surprising that Frankie is anxious to do his shows in this fashion. Like Crosby, he is mixed up in as many ventures as is humanly possible.

I met the swooner in the MGM commissary after he had tested costumes for "The Kissing Bandit."

transcription). It is best for many reasons: The first, but not most important, is convenience. Convenience, not only for us, but for possible guest stars. Secondly, the radio show can approach

perfection, and thirdly, I can do a show, or several when I know I am feeling my best and can give the public a good show."

It is not surprising that Frankie is anxious to do his shows in this fashion. Like Crosby, he is mixed up in as many ventures as is humanly possible.

I met the swooner in the MGM commissary after he had tested costumes for "The Kissing Bandit."

In Sewer Plant

LINCOLN, III. (AP)—A tank at the sewage disposal plant here yielded \$150 in government bonds.

Sheriff C. L. Kief said the bonds, apparently part of the contents of a stolen cash box dumped into an open sewer a half mile away, floated free and into the sewage plant. The box was empty upon recovery.

Health Program

CANBERRA, Australia (AP)—The Australian Cabinet has decided to give wider powers to quarantine officers to ensure that travelers to the dominion do not menace public health.

Prime Minister Joseph B. Chifley told correspondents the new powers were added precautions against the entry into Australia of smallpox and similar diseases carried by travelers.

"I Seem To Be Getting Smaller And Smaller"

Hal Boyle's Notebook

One Thousand Nights

WASHINGTON, D. C. (AP)—Tonight—I figure—is the thousandth night I have slept in a hotel room.

It is a memorable occasion to me. But hotel owners of America have ignored its significance completely. No beaming manager waits outside in the corridor to surprise me with a cheery basket of fresh plucked rosebuds or a gleaming cake with a thousand candles.

No, I am celebrating this historic milestone all alone. The maid even forgot to dust off the Gideon Bible.

I am putting myself to sleep not by counting sheep—I detest mutton even with its clothes on—but by thinking back on all the hotel rooms I have known. The first thousand beds are the hardest to know.

I have slept in hotels in 51 countries and 17 American states. In about 27 cases a room was obtained merely by going up to the desk and registering. I forget just when this strategy last worked.

I feel now though that with the possible exception of the Martha Washington hotel in Manhattan—which caters exclusively to the girdle trade—I could somehow get into any hotel in the world. And without paying a bribe or putting on a white beard and pretending to be former Chief Justice Charles Evans Hughes.

Hotels are full of rooms. The desk clerks don't really want to keep you out. They just want to be sure you appreciate how lucky and grateful you are if you get to spend a night in their genteel custody.

The best run hotels are in Switzerland. But they give you an uneasy sense of feeling well-

come. The worst hotels are in the Balkans whose beds hold more kinds of small game than the neighboring countryside. With a flashlight and flit gun you can spend a wonderful night hunting—and scratching.

In Chinese hotels the peddlers wake you up before dawn to try to sell you an ivory trinket, a pair of seedy silk pajamas or a jade-encrusted blackjack. In India you can have two servants—one to put on your right shoe, one the left. A third servant draws your tub. A fourth cleans it.

Chambermaids in all countries have one vice in common. No matter where you hide your slippers they always find them and pole them with a broomhandle as far under the bed as they will go. It is their way of getting even with the world.

NOTE: The secret committee vote for a rent-control increase was not recorded. However, the Merry-Go-Round is able to give the line-up. Republicans who voted for rent increase despite Speaker Martin were: Smith, Ohio; Buffett, Nebraska; Hull, Wisconsin; Fletcher, California; McMillen, Illinois; Democrats—Paul Brown, Georgia; Brooks, Kansas; Rainey, Alabama; Boggis, Louisiana.

Red Scientists Find New Fish Supplies

LONDON (AP)—Added food supplies for Russia are being found by Soviet scientists in 16 ships who track fish, according to the Tass News Agency.

Herring which live in Murmansk waters until they are five years old migrate 12,000 miles to the warm Spitzbergen current and the Greenland Sea where they find a variety of plankton that makes them unusually fat, one group of scientists found.

Other fishing grounds were found in the Black Sea, formerly regarded as almost barren of fish because of the chemicals in waters near shore.

Washington Merry-Go-Round—Draw Pearson

Martin Engineers Rent I Like Reverse

WASHINGTON—It wasn't about outside-congressional cloak-room, but astute speaker Joe Martin engineered the sudden reversal of the House Banking committee when it voted 14-10 against a 10 per cent general rent increase. Just one month ago the committee had voted 9-4 for the rent boost.

If the closed-door committee session got under way, Martin called in Chairman Jesse Wolcott of Michigan and other Republicans to whom he gave some Dutch-uncle sermonizing on why it would be politically unwise to increase rents at this time.

Martin argued that it would be "poor psychology" to endeavor to raise rents now, because we do not know what strides the building industry will make in the next year.

"Give the builders a chance to see what they can do," the speaker declared. "If we get more rental construction, rents will come down without any action by Congress."

"Personally, I am against Congress setting any flat rate for rent increases at this time, or for that matter, price increases of any kind. Something like this might lead to national price-fixing and I do not think this is within the province of Congress, except in extreme cases."

Later, when the closed-door banking committee meeting convened, the only Republicans who spoke out for the 10 per cent hike were Representatives Howard Buffett of Nebraska and Frederick Smith of Ohio. And even their pleas so obviously lacked punch that committee Democrats couldn't resist some ribbing.

At one stage, Democrats Hale Boggs of Louisiana and Mike Monroney of Oklahoma jokingly asked Buffett if he was "really for a rent increase." The Nebraskan insisted, amid laughs, that naturally he was, else he wouldn't be talking for his amendment.

"Well, you may still be for it, but you're not quite so enthusiastic today as at our last meeting," piped up an unidentified voice on the Democratic side of the table. Even the Republicans got a chuckle out of this one.

NOTE: The secret committee vote for a rent-control increase was not recorded. However, the Merry-Go-Round is able to give the line-up. Republicans who voted for rent increase despite Speaker Martin were: Smith, Ohio; Buffett, Nebraska; Hull, Wisconsin; Fletcher, California; McMillen, Illinois; Democrats—Paul Brown, Georgia; Brooks, Kansas; Rainey, Alabama; Boggis, Louisiana.

JUNIOR CONGRESSMAN
Industrious young Representative Carter Manasco of Alabama, who keeps a reserve pocketful of cigars to supplement his tobacco-chewing, recently had a chance to unload some of his stogies following the world premiere of the new Manasco—a boy.

It was the Alabama's first child and he carried off the proud-papa role well—except for one thing. He refused to give the newcomer a full "junior" label, naming him John Carter Manasco.

"I always causes mix-ups when there's a junior in the family, particularly a congressman's family," explained Manasco. "For one thing, I don't want him reading my mail."

SENATOR TAFT RENEGES
The whisper has made the rounds of Republican cloakrooms that Senator Taft is not really for his own housing bill. Certainly, as GOP leader of the Senate he has done little to whip his Republican colleagues into line.

It was a line-up of Democrats, plus the clever maneuvering of New Hampshire's Senator Tobey and the last-minute help of Vermont's Senator Ralph Flanders that finally pried the Taft housing bill out of committee.

Except for this, the legislation so urgently needed for the relief of war vets and the housing shortage would still be hopelessly buried in committee.

When two-listed Chairman Tobey started calling the roll at the secret committee meeting, GOP Senator Douglass Buck of Delaware, known as the Du Pont representative, and Homer Caphart of Indiana, the music-book king, voted resoundingly "No's."

They were against reporting the Taft bill to the Senate floor. Flanders of Vermont was next called on to state his position.

"I would like five minutes to think this over," said the Vermont Republican. "I don't like omnibus bills as a rule and I still haven't made up my mind about whether this legislation should be reported."

Tobey continued around the committee table, then came back to Flanders. The vote stood five for reporting the bill and six against. Chairman Tobey had joined Democrats Wagner of New York (proxy), Taylor of Idaho, Fulbright of Arkansas and Sparkman of Alabama in voting to report. On the other side, Democrat Robertson of Virginia, a Byrd henchman, joined Republicans Buck, Caphart, Bricker of Ohio and McCarthy of Wisconsin (proxy) in voting to keep the bill stymied in committee.

FLANDERS STILL HESITATES
This meant the bill would have been lickered, had Flanders sided with Buck, Caphart and company.

"I still haven't made up my mind," pleaded Flanders. "Let me give this a little more thought."

"Take all the time you need," replied Tobey. "However, I would like to remind the senator that it is an unwritten law in the Senate that members may vote legislation out of committee and yet reserve the right to oppose it on the floor. A measure of this importance should not be defeated in committee, thus depriving the larger body of the Senate from acting on it."

"If the senator doesn't like this bill in its present form, he has every right to offer amendments on the floor," continued Tobey.

Finally, with the reservation that he could oppose the housing measure on the floor, Flanders voted to report. This made the vote six to six. While Buck and Caphart looked daggers at Flanders Tobey jubilantly raced out and telephoned to Democratic Senator Maybank of South Carolina, who was in Annapolis. Maybank voted "Yes" and the bill was liberated by a 7-6 margin.

UNDER THE DOME
Chairman Edith Nourse Rogers of the House Veterans committee reports that Representative Homer Ramey, conscientious Toledo, Ohio, Republican, is one of the most dependable members of her committee on inspections of veterans' hospital facilities.

Ramey, whose reports show an excellent grasp of what conditions in the hospitals should be, is a Christian Scientist. . . A number of Democrats in the House have been quietly chuckling to themselves over the reckless slashing of appropriations for western reclamation and water-power projects by the Republican majority. They recall that it was only last fall that western voters decided they needed Republican representation in Congress. . . CIO publicists are chuckling over the March-April edition of the AFL's "labor monthly survey." With the most extreme union-busting bills of the last dozen years nearing enactment, the survey made no mention of what Congress was doing to labor. . . "Putzi" Hanfstaengl, Harvard-educated former Nazi press chief, has asked that he be considered a victim of political persecution because he was forced to flee Germany in 1937 following a personal scrap with Hermann Goering.

Texas Today—Jack Rutledge

Nice Cold Beer Waiting For Harvey

Ike Kibbe of Brownsville swears this is true. In fact, we have it in writing, with his signature down at the bottom.

He and his brother were hunting ducks. Decoys were out and the hunters were all set for the kill. But the ducks were flying high, wide and handsome that day, he says, and they wouldn't decoy.

One bunch flew in rather low over their boat, so Kibbe shot at them. He winged one, which fell out of formation.

Then, says Mr. Kibbe—in writing—it happened.

"Two other ducks flew up, one on each side of the injured duck, and each took a wing. They carried him along with the others, and did not fall behind.

"We just stood there and watched them until they were out of sight."

If anybody sees Harvey, Rockport's beer-drinking Easter rabbit, tell him to come home. All is forgiven.

Jack Blackwell, Rockport photographer, and former editor-in-chief, bought Harvey as an Easter present for his son Glenn. Not long after that he caught Harvey wrestling with a party empty beer bottle. Just to see what the rabbit would do, Blackwell poured some beer into a platter for him to sniff.

Instead, Harvey took a snifter. He liked the stuff. Just like in the story, it made Harvey brace.

Grave Problem!

BUDAPEST, Hungary (AP)—Members of an American Graves Registration team tell how they made a 300-mile trip to investigate a burial plot which had been tended lovingly by a German priest. Perplexed when they found only refuse under the green mound, they looked at the priest and he looked at them.

He had been there originally. He said he would fetch it and returned quickly with a crude cross roughly printed "Old Dump."

Lost Coat Locked Up

HUNTINGTON, W. Va. (AP)—Paul Midkiff's coat was stolen from a cafe. Days later an anonymous telephone call informed him he would receive a letter with instructions for finding the coat. The letter arrived with a key to a locker at a railway station. The coat was right there.

READERS DON'T LIKE THE MONEY SYSTEM OR THE "EASTER SPELLS"

Dear Editor:

We hear much about cutting personal income taxes and reducing the national debt. I would do it this way:

1. Replace the present bank credit system with a single unit dollar money system. After which, require banks to borrow its money lending needs from the US Treasury and from the depositors at wholesale interest rates of say, 2 per cent on security the government and depositors will accept. Banks, in turn, to lend dollar money to borrowers at retail interest rates of say, 4 per cent on security the banks will accept. They would put banks squarely under the profit system to earn, not create, profits, and would be a 100 per cent sound and understandable money system, and money would be interest free at its source.

2. Retire the national debt with a tax on the machine system. In the Feb. 3rd issue of Life magazine we are given a strong hint that automatic industry is just around the corner. The writer saw the machine age from a distance years ago and coined the epigram, "The machine to make tillers of tillers."

Some politicians are talking 62-500,000 jobs by 1950. It may happen, but the safer course is to start gearing our economy to a high machine production industry, low prices and back to the soil for millions of workers who will not be needed by an automatically operated industry of tomorrow.

Plague Check Started Here

The US Public Health Service is checking this area again for signs of Bubonic Plague. V. A. Cross, local typhus control director, reported today.

Checks made several months ago revealed plague carrying fleas on wild animals and rodents northwest of Big Spring. Cross said the USPHS is now working on territory between Abilene and El Paso, after which they will move northwest of Big Spring toward the New Mexico line. Although no results of the work have been made public, local health authorities were doubtful that this immediate area is in immediate danger of plague.

Dr. Irving Fisher, US Economist, Dies

NEW YORK, April 30. (AP)—Dr. Irving Fisher, internationally known economist who for nearly half a century sought means of avoiding inflationary periods and depressions, died yesterday in Gotham Hospital at the age of 80.

Dr. Fisher, who became professor emeritus of political economy of Yale University when he retired from active teaching in 1935, had entered the hospital Feb. 28. The night before, his birthday, he reviewed his experiences at a testimonial dinner.

County TB Association Re-Elects Five Officers At Annual Meeting

The Howard County Tuberculosis Association re-elected five of its officers at the organization's annual meeting Tuesday night at the city-county health unit office.

Renamed to posts were Dr. J. M. Woodall, president; C. O. Nalley, first vice-president; Roy Reeder, second vice-president; Mrs. Louise Horton, executive secretary, and Letha Amerson, treasurer.

Large Delegation Of Local Lions To Attend Meet

Plans to send a large delegation to the last convention of district 2-T, largest geographically in Lions International, were expanded Wednesday at the meeting of the Lions club.

Otis Graf, president, said that efforts were being made to have a minimum delegation of 20 Lions from this club. At the El Paso meeting, carrying out a mandate of the convention here last year, 2-T will be divided into two districts, Big Spring-falling in the southernmost, 2-T-2.

Charles W. Roberts and D. C. Nix, Andrews, were present to present the candidacy of M. C. Woolam, Andrews, as a candidate for first district governor of 2-T-2.

Entertainment for the day was furnished by a group of high school students, carrying out the theme of Boys and Girls week. Don Phillips gave a brief address on principles upon which youth could "build a record true." He said the challenge was for young people to think and to have faith in God. Lex James favored with three piano selections.

These two, together with Joyce Howard, Joyce Bean, Joyce Worrrell and June Cook, Murph Thorp and George Worrrell, all members of the YMCA Boots and Bustle club, presented two lively sets of square dances with Bill Dawes, Y executive secretary, as caller.

Coal reserves in the United States are equal to 23,000 tons for every person in the country.

Mrs. Dorothy Wilson was elected recording secretary. She replaces Lorena Huggins on the staff of officers.

Three new directors were selected. They include Mary Cantrell, Ruth Jefferies and Trinidad Cano. The new board members succeeded Mrs. J. C. Douglass, Mrs. Ira Thurman and Genora Morales. Hold-over directors are W. C. Blankenship, Dr. R. B. G. Cowper, Mrs. Wilson, H. D. Norris, Dr. Edward Strauss, Walker Bailey.

Dr. Strauss, Dr. Cowper and Dr. L. R. McIntire will continue on the medical advisory board.

C. O. Nalley, who headed the Christmas seal sale campaign for the association, gave a report on the last drive, and Mrs. Horton submitted the executive report.

Money derived from seal sales has been used to distribute literature and to give tuberculin patch tests to individuals, Mrs. Horton said. A total of 1,905 persons have been patch tested and 149 were X-rayed at no cost to the individuals.

Mrs. Horton also explained in detail about tuberculosis information which has been distributed to the public in pamphlets, as well as by radio and motion pictures.

Dr. Woodall was principal speaker at the meeting.

Young Fortune Hunters Freed

Three Dallas youths, the oldest of whom was 16, were picked up here Tuesday afternoon by members of the state highway patrol after they admitted they had left home to seek their fortunes.

They were released from custody when their parents arrived to take charge of them.

In GOLF or GASOLINE IT'S Control THAT COUNTS!

PHILLIPS 66 IS CONTROLLED* FOR BETTER DRIVING!

Sinking a 4-foot putt takes control—and it takes control to help build the gasoline that's right for your car in all seasons, too!

That's what Phillips 66 does—controls the volatility of Phillips 66 Gasoline to suit the climate. Phillips great variety of quality blending components makes this possible.

See if this "controlled" gasoline doesn't improve engine performance in your car! Stop at the nearest "66" sign for a tankful of Phillips 66!

"VOLATILITY CONTROLLED" to give you POWER, PICK-UP and PEP!

We love 'em in December as we do in May

REMEMBER the day you first romped away in that Buick of yours? How those eight Fireball cylinders fairly floated you over the hills—how those road-steady two tons of lively car answered sweetly every light touch of your hand on the wheel—how you glided along with foursquare BuicCoil springing, smoothing every wrinkle in the road?

That's what your Buick was built to do. Years and years of that kind of driving are in it—especially when it gets the interested, informed care this fine an automobile should have.

That doesn't mean just periodic lubrication, a body wash, battery check or bolt-tighten. It means thorough attention by competent Buick men—attention that keeps a Buick always a Buick.

Buicks are our babies. Even the smallest details are handled the way they should be for a Buick. We have Buick tools that do jobs better and quicker. We have men who know Buicks best. We have Buick-engineered parts that are precisely right for your car.

Put that all together and it's Buick car care. Pretty clear, isn't it, that here is where your Buick will receive the best attention? After all, we love 'em heart and soul.

"TOP" SECRET

One of the things that play a part in Fireball snap is Buick's wafer-thin steel cylinder gasket. Just 15 thousandths of an inch thick, it's a "must" for the high compression this powerful straight-eight is designed for. Other kinds that are thicker cut down the compression and the car's liveliness.

In carbon and valve jobs, or any other where this gasket must be replaced, only this Buick gasket will assure the fit Buick engineers intended. No wise Buick owner would have any other in his engine.

Just another example of how you get more for your money—in major adjustments, tune-ups, lubrication or anything your car needs—when you make sure it gets Buick car care.

BUICK CARE KEEPS BUICKS BEST

Baseball Season

OPENS THURSDAY

4:30 P. M.

BIG SPRING vs SWEETWATER

4:30 P. M.

JOE LANGSTON — Joe, a right handed tosser and general manager of the Broncs, is a transplanted Floridan who came to West Texas and liked it so much he settled here. Attended McMurry college last fall, played last season with Abilene. Has been with Beaumont of the Texas league and was active in the Georgia-Florida and Florida East Coast leagues prior to the war. He was born in Sopchoppy, Florida.

SET FOR HOME OPENER—The Big Spring baseball Broncs, who opened their season on the road due to the fact that their park wasn't ready for play, return home Thursday to do battle with the Sweetwater Sports in a 4:30 p. m. game. Left to right, front row, they are Gerardo Rodriguez, p; Tony Traspurto, c; Andy Viamonte, ss; Orlie Moreno, 3b; and Humberto Baez, 2b. Second row, Joe Langston, pitcher and general manager; Jose Traspurto, p; Manager Pat Stasey, rf; and Jose Cindan, p. Back row, Gaspar Del Toro, 2b; Mario Varona, lf; Pepper Martin, cf; Leamon Bostick, 1b; and Lloyd "Pat" Patterson, p. (Photo by Jack M. Haynes).

LLOYD "PAT" PATTERSON—Pat, who hails from Northern California, came to Texas to play professional baseball in 1939. He stayed. Pat was with Big Spring and Lamesa before the war, went to Rocky Mount for one year. Was a team-mate of Bill Voiselle's while there. Won 23 games for Lamesa in 1941 and became known as the WT-NM league's best pinch hitter. He's a right-handed tosser.

Job Seekers Asked To Avoid Texas City

HOUSTON, April 30. (P)—Home H. Jackson, district director of the Texas Unemployment Compensation commission, urges all persons seeking employment to stay away from Texas City.

"No workers are needed there now," Jackson said. "People have swarmed into the place from all over the state, particularly East Texas, only to be disappointed."

Fire Chief Probing Waffle Shop Blast

DALLAS, April 30. (P)—Fire Chief C. N. Penn conducted an investigation today into an explosion at a downtown waffle shop yesterday.

Two of the ten persons, who were in the shop received minor injuries. Plate glass windows were broken and dishes were jumped by the explosion which occurred in the basement.

Faultless Wins Derby Trial

LOUISVILLE, Ky., April 30. (P)—The colt a lot of folks were counting out of the derby picture—Ben Jones' Faultless—came bouncing right back into the middle of the stage Tuesday with a snappy win in the Derby trial mile at Churchill Downs.

And along with him came an outsider who was practically unheard of a week ago—the black beauty from the blue grass, Star Reward, who hinted by finishing only a head behind that he may be the one to finally break Auto-Body Builder's Charles Fisher's 8-year-old derby jinx.

Grade Schools In Track Show

A city wide track and field meet for grade school boys will be staged at Steer stadium either May 16 or 17, Coach Pat Murphy announced Tuesday.

Boys of the sixth and seventh grades will compete in 50 and 100 yard dash events, 400-yard football relays, high jump, broad jump and chinning the bar.

Those in the lower grades will run the 25 and 50 yard dashes, 200-yard football relays and compete in the high jump, broad jump and chinning the bar.

All schools will run their own eliminations.

DIRECTIVE FOR BABY SITTERS

CHICAGO, April 30. (P)—The Fairteen Club, an organization of high school girls, has issued this "directive" for the benefit of all present and future baby sitters among its members:

Do— homework, read a book, check the baby every half hour, knot or sew.

Don't— dress sloppily, turn radio on loud, invite boy-friend to jitterbug, raid ice box or make a lot of phone calls, hold the baby over the gas stove to dry its diapers.

Pro-Amateur Golf Show Opens Today

WICHITA FALLS, April 30. (P)—A field of approximately 200 tee off today in an 18-hole pro-amateur best ball warm-up for the all-Southwest Pro-Amateur Golf tournament at the Wichita Falls country club.

Fifty-four-holes medal play will be held Thursday with the 80 lowest players qualifying for the final 36 holes Friday.

Among the leading golfers who have already registered are Harry Todd and Earl Stewart of Dallas, Jimmy Gaunt, Oklahoma City; Jimmie Clark, Huntington Beach, Calif. and Iverson Martin, Fort Worth.

Trials are scheduled to begin Monday.

The bill of particulars was filed yesterday by US Attorney William H. Cantrell after Judge William H. Atwell granted a defense motion requesting them last Friday.

Lamesa Beaten In Slugfest

By The Associated Press

The Lubbock Hubbers remain undefeated in the West Texas-New Mexico league — the only club maintaining such a status in professional baseball of this state.

Last night the Hubbers clipped Clovis 14-10 to continue on top while Amarillo stayed within breathing distance of Lubbock by turning back Abilene 8-2.

In other game Pampa lost to Albuquerque — the first win of the season for the Dukes — by 12-8 and Borger doped Lamesa 20-14.

Parents, Teachers Congress Meeting

WACO, April 30. (P)—The Texas Congress of Parents and Teachers has been urged to enlarge its financial policies to provide for study of "the gravest dangers facing our youth today," and to seek means of offering aid in meeting the problems.

The action was recommended yesterday in a resolution adopted unanimously by the ninth district of the Congress at its convention here.

Briefs Prepared For Eastus Tax Trial

DALLAS, April 30. (P)—The US government has filed a list of payments of legal fees to the law firm of Eastus and Jones which it expects to use in the income tax evasion case against former US Attorney Clyde O. Eastus and his first assistant, Joe H. Jones. The

MIZE GETS 7TH HOMER

Castoffs Get Revenge In Big League Tests

By The Associated Press
(NY) castoffs Johnny Mize, Eddie Lake and Ed Stanky were looking for chop today following "vengeance victories" over their former bosses.

Mize, traded by the St. Louis Cardinals to the New York Giants in 1942, homered with two aboard in the third at Polo Grounds yesterday to start the Giants to victory over his former mates. The slugging first baseman has made eight hits this season, but seven of them have been home runs.

Young Monte Kennedy went to the Giants to start the National League cellar in favor of the World Champion Redbirds. The Cards now have lost six straight, their longest losing streak in seven years.

Eddie Lake, the pint-sized Detroit shortstop who was obtained from the Boston Red Sox following the '45 season, banged three hits, including a triple, and scored three runs to help the Tigers de-

feat his former mates 8-3 in Detroit. Stanky, the firebrand Dodger second baseman who was shipped to Brooklyn by the Chicago Cubs in 1944, highlighted a seven-run inning with a two-run double to aid the Dodgers in a 10-6 victory over the Bruins at Ebbets field. The victory increased the league-leading Dodgers' margin to two games over second-place Chicago.

Outfielder Hal Peck of Cleveland did his best to beat his former Philadelphia mates by belting a homer and single, scoring twice and driving in another run to account for all the Indians' tallies in Cleveland. But the Athletics, led by Heinie Majske, former New York Yankee and Boston Brave, and George Binks, ex-Senator from Washington, eked out a 4-3 win.

Other "discarded" gent who fared well yesterday included Hank Greenberg, celebrated Detroit cast-off and Bob Elliott, Pittsburgh's gift to Boston. Big Hank hammered his third home run for his new Pittsburgh club, with one aboard, to feature a four-run third inning which gave the Pirates a 6-2 victory over the Phillies in Philadelphia.

State Hi Meet To Be Aired

State-wide winners in the Texas High School Championship Literary and Academic contests will be announced during a broadcast of the Texas High School Championship Track and Field Meet, Saturday afternoon, May 3, over a network of 34 Texas radio stations. The broadcast, from Memorial Stadium in Austin, will begin at 2 p.m., and is sponsored by the Magnolia Petroleum Company.

Both the literary contests and the track and field events are held under direction of the University Interscholastic League. During 1946-47 season, 35,000 Texas boys and girls from grade schools, junior and senior high schools, entered the preliminary contests. Approximately 600 will participate in the finals in Austin, May 1, 2, and 3.

In the track and field contests, 15,000 boys in junior and senior high schools entered preliminary events in their own schools. More than 400 will take part in the final championship events in Austin, May 2 and 3. Charlie Jordan, Ves Box and Fred Kincaid will announce the final track and field events as they occur, and during the afternoon will report on the progress of the literary and academic events which include extemporaneous speech contests, debates, spelling contests, mental arithmetic, 1-act plays, slide rule contests, shorthand and ready writers.

Stations over which the broadcast may be heard include Big Spring, KBST, 1490 Kc. Because the earth's atmosphere bends light we can see the sun around the curvature of the earth an instant after it sets.

Cindan Earns Mound Victory

BALLINGER, April 30. — Pat Stacey's Big Spring Bronces broke loose with a 14-hit assault off three Ballinger pitchers to defeat the Felines, 12-7, here Tuesday night and retain their position atop the Longhorn league standings. The Cats led until the seventh inning when the Hosses pushed four runs across the dish.

Joe Cindan went all the way on the hill for the Big Springers. He settled after a shaky first inning to pitch creditable ball. Cindan shared hitting laurels with Orlie Moring. Each collected three safeties. Every man in the lineup, with the exception of Tony Traspuerto, hit safely at least once.

Stu Williams, Ballinger skipper, collected four blows in as many tries.

The victory was the fourth in a row for the Cayuses, as against one defeat. In those four games, the Staceymen have collected a total of 62 base hits.

Player	AB	R	H	P	A	E

Looking 'Em Over

With TOMMY HART

Joe Cambria, the Washington Senator's scout, comes to town this week to see the Big Spring Bronces open their home campaign.

One of the lads he'll keep his eye on is Mario Varona, the big left fielder. Varona can't speak a word of English, outside of "ball" and "strike," but his mace may do his talking for him.

Mario is unusually big for a Cuban. At 6-foot-4 and 215 pounds, he looks more like an American Indian. He's not fleet of foot and has a lot to learn about playing the outfield but bears promise as a hitter.

When Cambria sent Varona here, he insisted that the local club keep strings on him, at all costs—which means he thinks Mario has a bright future in the Washington chain.

Most of the Cubans who have made good in the 'big time' can field and throw with the best of them but can't hit consistently. Cambria reasons that weakness should have been overcome within recent years, since practically all kids are brought up on the game on the island. He's out to prove that Cuba can develop hitters with Varona and boys like him.

Howard McFarland, the Odessa baseball skipper, has all his distasteful signals flying. Reason: his pitching staff is giving him the proverbial fits. He ran through his staff in that awful nightmare Monday night, when the Big Springers combed the offerings of four of his slabmen for 24 safeties.

Now he's threatening to pink slip every hurler, if he can get replacements.

Local fans may find that Harold Webb, the Midland skipper, will needle them no end as the season wears on.

Webb is the neurotic type. He finds it impossible to sit still during a game, dies a thousand deaths while his team is on the defensive. He's eternally waging a war of nerves against the umpires and the team which happens to be opposing his Indians.

He'll chatter like a monkey while coaching at third base and would protest every decision called against him, if he thought he could get away with it.

People who see him on the field will look twice before they realize it isn't Tony Rego, the one-time Big Spring pilot. Both are short, have the same posture and stride.

Gordon Goldsberry, Albuquerque's \$25,000 beauty of the 1946 season, has been sent by Hollywood to the Memphis club of the Southern association.

At the season's end last year, the Dukes asked 25 grand for the teenage first sacker but found no takers. He was in the Army for a spell but got out in time for spring training.

Vince DiMaggio, cut adrift by the San Francisco Seals at the end of last season, has taught on with Oakland.

Local school officials are trying to figure out the reasons Clayton Hopkins packed up and left Odessa for a coaching job at San Angelo Junior college.

Hopkins was athletic director of Odessa high school. His salary ran better than \$5,000. He was safe from the wolves. If the Bronces experienced a bad season, Coach Joe Coleman and not Hopkins would have been the one to get raked over the coals.

Now he steps back into a coaching post and his pay can't equal that paid by the Odessa school board. It must be the romance of the business.

Midland Gets Pair From Lubbock Club

LUBBOCK, April 30. (AP)—The Lubbock Hubbers of the West Texas-New Mexico League have sold a pitcher and optioned a third baseman to Midland of the Longhorn League, Sam Rosenthal, President of the Hubbers announced.

Ernie Nelson, left-hander who won 14 and lost 13 for Lubbock last year, was sold out right to Midland, while third baseman Frank McAlexander, who hit .287 in 1946, was optioned on 24-hour recall.

Steer Tracksters Shove Off For League Meet Thursday

Felines, Sports Extend Streaks In Texas Loop

By The Associated Press

The Dallas Rebels, who were picked as the class of the Texas League but who have spent most of their time at the bottom of the heap, broke a streak of 30 scoreless innings last night while the pace-setting Fort Worth Cats and the Shreveport Sports extended their winning streaks to five and six games respectively.

Dallas beat San Antonio's Missions, 5-2. Fort Worth defeated the Houston Buffs, 4-2. Shreveport won from the Oklahoma Indians, 9-6, and Beaumont's Exporters shaded Tulsa's Oilers, 5-4.

Roy Clark's four-hit pitching and the hitting of Bob Finley and Hal Hirschon broke Dallas' three-game losing streak.

Clark, who registered his second victory against one defeat, was never in trouble until the ninth inning. With two men on the count two balls and no strikes on Rube Naranjo, the League's leading hitter, Joe Orrell came in and quelled the Missions uprising.

Finley led the Rebel nine-hit attack on Al LaMacchia with three hits in four times at bat. Hirschon hit a home run with two men on after two were out in the eighth. George Archie hit a four bagger for the Missions in the eighth with none on.

The defeat was LaMacchia's first against four wins.

Fort Worth found Houston a tough foe. The Buffs got four hits and their two runs off Miady in 2 1/2 innings, but Bob Austin, Fort Worth relief hurler, held them in check the rest of the way for his second win and no defeats.

The Cats went ahead in the sixth when Anderson singled with the bases full to send in two scores. They added another in the seventh on three singles.

Shreveport had a real scare before finally downing Oklahoma City. The Indians pushed across three runs in the top half of the ninth and had three men on base when relief pitcher Bill Gann fanned the final batter, Nick Gregory, hit two home runs for Shreveport.

The loss dropped the Indians from third to fourth place. Beaumont trailed Tulsa for six innings, and then scored four runs in the seventh to get a 5-4 victory that moved them up to third place. The big stik in the seventh inning was wielded by Al Stringer, who hit a home run with two on base. Jack McKinney gave up eight hits in winning his third game against no defeats.

Today's schedule is the same as yesterday's.

Flour Saved

HOUSTON, April 30. (AP)—Four carloads of flour damaged at Texas City by the explosion of the SS Grandcamp April 16, are being loaded on the SS Saint Marcou, sister ship of the Grandcamp, for shipment to La Havre.

Hawks Favored In Muny Tilt

Howard County Junior college and Big Spring Motor rule as slight favorites in Muny softball league play at the city park tonight, which will be the last until May 8 due to the fact that the professional baseball team is returning to town. The JayCees tangle with Foran's Couden Pipeliners in the 7:30 o'clock opener while the Motorists square off with American Legion in the aftermath.

Baylor Trounces Ponies, 7 To 0

WACO, April 30. (AP)—Baylor hung on to its second place in the Southwest Conference baseball race yesterday with an easy 7-0 victory over Southern Methodist.

The game, first of three between the two schools this week, was called in the seventh inning because of rain.

Baylor Freshman Rickey Rowe gave up three hits in chalking up his third consecutive conference victory. His teammates collected eight safeties off two SMU pitchers, including two home runs by Joe Szekley and one by Chuck Devereaux. One of Szekley's four-baggers came with the bases full. The teams play again in Dallas Thursday and Friday.

LAWLESS EMPIRE

CHARLES STARRETT
The Durango Kid
Also "Open The Door Richard"

TEXAS COWPOKE—One of the stellar players of the spectacular film production, "Duel In The Sun," is Gregory Peck, who has rapidly ascended the Hollywood ladder to stardom. He appears, in this story of early days in the Texas Panhandle, as a wild and woolly cowboy whose scruples are none too good. "Duel In The Sun" will have its West-Texas premiere screening at the State theatre in Big Spring, opening next Tuesday for a five day run.

11 Million In Salary Aid Said Needed To Assure Teacher's Pay

AUSTIN, Tex., April 30. (AP)—The State Department of Education estimates that it will take between \$10,500,000 and \$11,000,000 per year in salary aid to assure most if not all Texas teachers of the \$2,000 annual minimum pay now a part of the state's law.

It gave this answer yesterday in response to many questions on the outlook for teachers' salaries in view of enactment of the \$55 per capita and the minimum pay bills.

The figures, by Miss Myrtle Tanner, were prepared on the basis of "facts as they are reflected in school reports on file" in the Department of Education. The figures and analysis were released by Dr. L. A. Woods, state school superintendent.

In an accompanying statement, he said that there are two possible sources to supply the salary aid needed: state equalization aid or additional local taxation in some districts.

"Whether or not pending equalization bills will suffice remains to be seen. Whether or not all the teachers get a minimum of \$2,000 annually also remains to be seen in view of the complex nature of state school financing in Texas.

The education department's analysis considered three groups of schools:

Group 1. This includes 69 independent school districts, with a scholastic population of 2,500 or more. They will need \$7,933,173 or an additional increase of \$460 per teacher, to pay the salary schedule set up in House bill 301, provided they "employ the same teachers with the same qualifications."

"Taking it for granted that their salaries this year are based on an estimated \$38 per capita, then according to HB 300, they will receive an additional \$10,700,174 from the state apportionment in 1947-48, which if they were operated as a unit would be more than they needed," the survey said.

"Since none of these schools are salary aid districts (under existing equalization measures) then it follows that none of the \$8,000,000 included in state aid salaries this year would be added to their needs."

Coast Guard Board Ends Hearings On Disaster, Will Sift Evidence

GALVESTON, Tex., April 30. (AP)—A Coast Guard board sifted evidence today following nine days of investigation into the Texas City disaster that killed an estimated minimum of 575 persons.

The board, headed by Rear Adm. Gordon T. Finlay of New Orleans, held its ninth and concluding hearing yesterday and today was in executive session.

The investigators will arrive at conclusions and make recommendations which will be sent to J. F. Farley, coast guard commandant at Washington. Any announcement will come from Washington.

Finlay stated that the board has no power to punish personnel but can revoke licenses and will do so "if evidence justifies such action."

Willie H. Jackson of Ashford, Ala., was the last of a parade of dozens of witnesses, mostly seamen and dockworkers, to testify before the four-man board. First session of the board was held April 18.

Testifying yesterday afternoon, Jackson, chief engineer of the vessel Wilson B. Keene, lost his temper repeatedly when asked questions by some of the attorneys who obviously had little technical knowledge of the operation of ships.

The Keene was damaged by the explosion of the French freighter Grandcamp in Texas City's harbor April 16 and was destroyed when the freighter High Flyer disintegrated early the next morning.

Jackson testified that the engine room of the Keene was full of live steam after the Grandcamp explosion.

"Didn't you make any effort at all to move the ship after the explosion?" an attorney asked.

Jackson looked at Admiral Finlay and pointed to the attorney.

"Who is this guy?" he shouted. "Don't none of these fellows know anything about ships? I'm thinking about getting my men out alive, not moving the damned ship. Mister, that ship wouldn't move—it was wrecked. And besides Mister, the chief engineer don't move ships. All he does is answer signals and take orders."

Another attorney questioned Jackson's statements that the Keene's engines were not cold after it had been in port overnight.

"They don't cool off like a highball," the engineer told him.

Groucho Marx On Crosby Program

Groucho Marx, who is always up to his neck in wisecracks, and Dorothy Shay, "The Park Avenue Hill-billy," will visit Bing Crosby during the KBST broadcast of Philco Radio Time tonight at 9 o'clock.

Listeners will learn, for the first time, the difference between Groucho's three and five dollar tour of Chicago when he tries to sell Bing one or the other during the laughter and melody-filled half-hour.

Miss Shay, seldom seen outside the smarter nightclubs, will join the merriment and the argument, besides contributing her own number one tune, "Feudin', Fightin' and Fussin'."

Bing will open the proceedings with "Albuquerque" and "Guilty," after which he and Groucho will make a duet of "Lydia." Before the show ends, Bing will rescue the microphone from the man with the bushy eyebrows in time to sing "I'll Close My Eyes."

Fox Hunter Gets Foxy Very Quick

CHARLESTON, W. Va. (AP)—How to be foxy with foxes comes easy to Conrad H. Wells of Mineral Wells, Wood County.

Wells, without experience in the art of seeking out six Reynard, went to State Trapper Doy Rollyson for instruction. He listened for four hours.

Then, explains Rollyson, his pupil went out and bagged 58 foxes in 47 days.
