## Lick For Freedom, Firemen Led By Speaker

### Conservative Jack Cox Speaks At Area Convention Here

Jack Cox, Breckenridge attorney and conservative candidate for Governor of Texas last year, left behind while he exhorted others to be better Americans and to stand up and be counted in this country, when he spoke at the Hill Country Fire-Association convention here today.

Cox was introduced by By-Williams, Ozona Oil lease broker. Cox, who recently announced he would no longer work in the Democratic party, which he had been taken over by the liberal element, touched on many points, particularly in politics, preferably at the precinct level.

Cox, who recently announced he would no longer work in the Democratic party, which he had been taken over by the liberal element, touched on many points, particularly in politics, preferably at the precinct level.

William Hollis Fitch

## Rotary District Governor To Visit Ozona Club Tues.

### Wm. Hollis Fitch Of Eagle Pass To Pay Annual Visit

The Rotary Club of Ozona will host Tuesday, Oct. 24, Wm. Hollis Fitch, Governor of the 584th District of Rotary International, who is making his annual official visit to each of the thirty-six Rotary Clubs in Southwestern Texas. He will address the local club and confer with President Ira Carson, Secretary Al Fields, and committee chairmen on Rotary administration and service activities.

Mr. Fitch is owner of Eagle Pass Drug Co. and a realtor in Eagle Pass and is a member and past president of the Rotary Club of that city. He is active in community affairs, having served twice as Chamber of Commerce President and as a member of the School Board and of the Water District Board. He is chairman of the Board operating the City's International Toll Bridge. Mr. Fitch is active in his Church's organization, and is a Trustee of the University of the South of Sewanee, Tenn.

In Tokyo, Japan, last May, he was elected as a district governor of Rotary International for 1961-62 at Rotary's annual convention. He is one of 269 district governors supervising the activities of more than 11,000 Rotary clubs which have a membership of 509,000 business and professional executives in 123 countries throughout the world.

## District Shuffle Adds Iraan, Rankin Transfers Sonora

### Sonora Upped To 2A, To Play In District To West

By Ernie Boyd

District 8-A lost one long-time member and took in two near at hand rivals this week when the Texas interscholastic League office in Austin announced classifications for the new two year period beginning in 1962.

The Sonora Broncos, long time member of this class A district with Ozona, were moved up to class 2A on the basis of their enrollment which has averaged over 200 for the past two years. The former breaking point of 206, however, was lowered to 200 resulting in a surprise for the Sonora system which had not quite averaged the 206.

Coming into the district are Iraan and Rankin, both comparatively close neighbors, and both of whom have been on the Ozona schedule from time to time during the past ten years, with Rankin having been there steadily.

Old members remaining in the district are Junction, Eldorado, Big Lake and Ozona. Reports were that Sanderson now in a district most of which is west of Alpine is trying to move into 8-A which would give the district six teams.

Sonora moved into the district to the west instead of the one with Brady and really just took Fort Stockton's place in the district with McCamey, Alpine, Crane, and Stanton. Fort Stockton went 3A as its enrollment surpassed 500 this year and for the past two years has been within the 3A classification.

Ozona currently has slightly in excess of 200 students but is not expected to hold that number as there are usually from 15 to 25 students lost each year to various causes. Last year the Ozona school began with around 191 and wound up about 178. This pattern has held true for a number of years and should it stand up this year Ozona's enrollment will drop to less than 190 by mid-term.

Mr. and Mrs. Ed Reynolds, Jr., Judy and Ned, of Dallas were the guests of Mr. and Mrs. L. B. Cox, Jr., and the Bud Coxes over the week-end.

## Quail Season In Crockett County Open Nov. 1 Thru Dec. 31; Deer Season Nov. 16 Thru Dec. 31; Warden Carpenter Reminds of New Game Laws

The approach of quail and deer hunting seasons brings the usual questions of specific dates for the open seasons and Game Warden Bun Carpenter, stationed here, has prepared a statement conveying all needed information for hunters and landowners in this county.

Antlerless or doe deer, may be taken in a small part of Crockett county, with special permit only the game warden points out in his statement and he also calls attention of landowners to the law requiring them to buy a shooting preserve license if they plan to lease their places to hunters this season.

Game Warden Carpenter's outline of this year's hunting laws, open season etc follows:

"The season for quail in Crockett County is set for November 1st thru December 31st both days inclusive. Bag limit, 12 per day with 36 in possession. Shotguns must be plugged to 3 shell capacity.

"The season for deer is Nov. 16 thru Dec. 31 both days inclusive. Bag limit, two buck deer, except that antlerless deer, may be taken by special permit only in areas so designated by the Game and Fish Commission. This area will be from the Howard Draw road, east to the Sutton County line, and from Hwy. 290, south to the Vel Verde County line. Also a third or bonus deer may be taken by special permit providing the bonus deer is a doe. The Game and Fish Commission will issue the antlerless deer permits to the landowners

that want them and also the bonus tag sometime after the 1st of Nov. Any one desiring to kill an antlerless deer must get the permit and the bonus tag from the landowner, fill it in properly and attach both to the deer. Without these permits with the landowner's signature, an antlerless deer will be as illegal as killing in closed season.

"As a reminder to the landowners who are going to lease their place for hunting this season, be sure to get your Shooting Preserve Licenses. These licenses and applications are at Collett's Trading Post. Let's not wait until the last minute this year to get them. We have word to check these licenses very closely this year and enforce the law on anyone without them.

"If I can be of help to anyone please feel free to call me at 392-2546." Bun Carpenter.

## CLAYTON FRIEND STUDENT AT CHRISTIAN COLLEGE

Clayton Friend, son of Mr. and Mrs. Batts Friend of Ozona, is presently enrolled in Lubbock Christian College, Lubbock, Texas. Clayton graduated from Ozona High School in the spring of 1958, and has attended San Angelo College and Texas Tech. LCC, a Christian liberal arts junior college supported by members of the Churches of Christ, is the largest church-related junior college in Texas. The college is in its fifth year of operation with a present student body of 450.

## Crockett County Fund For Screwworm Fight Boosted To \$24,142

Contributions from Crockett County livestock producers to the fund being raised in the Southwest to launch the screwworm fly eradication program continued to flow in during the past week and at midweek the total so far raised in this county stood at \$24,152.70.

This amount has been contributed by 117 ranch operators so far contacted. There are still around 100 operators in the county who have not been heard from in the fund drive. Livestock producers are being asked to contribute at the rate of 50 cents per head for grown cattle or horses and 10 cents per head for sheep and goats, toward a goal of \$3,000,000 from producers in the Southwest to match state and federal funds needed for the vast operation.

Additional contributions have been received during the past week, in addition to lists published last week and the week before, from Carl Appel, Louis Brooks, Joe Clayton, Mrs. Joe Friend, Schneemann Bros., Max, Jr., and Phillip, Miss Wanda Watson, Ted White, Parker & Lee, B. B. Noelke, Mrs. Ruby C. Helbing, Chas. E. Seay, C. W. Meadows, Henry Meadows and South Texas Lumber Co. of Ozona.

## Ozona-Del Rio Groups Launch Move For Hiway 163 Improvement Plan

A committee from Ozona, composed of members of the Ozona Lions Club and representatives of the Crockett County Commissioners Court attended a conference in Del Rio Wednesday morning with a committee from the Del Rio Chamber of Commerce, the Val Verde Commissioners Court and interested citizens with a view to launching a move to bring about the complete rebuilding of Highway 163 from Ozona to Del Rio.

The present high death rate from accidents on the road and the prospect of greatly increased traffic with construction and completion of the Diablo dam on the Rio Grande above Del Rio, prompted the movement to interest the State Highway Department in widening and rebuilding the highway. Crockett and Val Verde counties are in separate Highway Department districts and the two groups plan to bring the project to the attention of the district engineers and ultimately to the Highway Department for action toward getting the building program under way.

Composing the Ozona delegation was Woody Mason, Lions Club president, Oscar Kost, Charles Ratliff, Jack Baggett, Doyle Elmore and County Commissioners Rusty Smith and C. O. Wakler.

## Top 8A Threat, Big Lake, Next On Lions List

### Owls Coming In Second Dist. Frolic For Lions

By Ernie Boyd

The Ozona Lions will face their second district 8-A test here Friday night at 7:30 p. m. when they meet the dark horse Big Lake Owls, now figured to be the team to beat for the district title.

The Owls will boast size, depth, and speed, as well as a great deal of experience, having a decided advantage over the Lions in each category.

Big Lake Coach Ken Williams could start a letterman in every position Friday night with 205 pound fullback Tom Franklin and a real speedster Mike Holmes at halfback, offering the offensive punch and a veteran line providing a good defense.

Ozona scouts have returned with reports that in their opinion Big Lake and not Sonora should be the favored team in this district. The Owls have played a much tougher schedule than Sonora with the only mutual opponent having been

## BOARD OF WATER ENGINEERS TO MAKE SURVEY OF GROUND WATER RESOURCES OF CROCKETT COUNTY

An agreement, to be ratified later by the Commissioners Court, between the State Board of Water Engineers and the county for a cooperative program for the investigation of the ground water resources of Crockett County was presented at an open hearing in the district courtroom Tuesday morning by representatives of the State Board of Water Engineers.

The meeting was a follow-up of a similar meeting here in the summer at which the plan for a county-wide study of underground water resources was proposed and discussed with the court and interested citizens. The court and citizens having exhibited interest in going forward with the program, the representatives of the Water Board left to prepare a specific proposal for a cooperative program in which the county and state would participate.

The State Board of Water Engineers would send technicians to this county to conduct the investigation of ground water conditions throughout the county to determine:

1. The geographic and vertical extent of water-bearing formations in Crockett County.
2. The chemical quality of the ground water in the county, the variations in the quality of the ground water, reasons for these variations, the probable effects poor quality water will have on areas containing good quality waters.
3. The direction of ground water movement and, if sufficient data are available, the rate of movement.
4. The general availability of ground water in the county.
5. The areas of recharge to and discharge from the aquifer or aquifers of the county.
6. Changes in ground water conditions, especially the chemical quality of the water and water levels as reported by static measurements in wells in the areas where earlier comparative data are available.

## Ozona's Defense Limits Sonora To Single Touchdown

### Underdog Lions Rear Up To Pose Serious Threat To Broncos

By Ernie Boyd

The Sonora Broncos put together one sustained march mid-way of the fourth period last Friday night to score an 8 to 0 win over a determined, hustling, but undermanned group of Ozona Lions in both team's district opener in Ozona.

The game's only points came when Julio Samanigo swept his own left end for 21 yards and the score to cap a 73 yard drive in which most of the yardage came on a long pass completion and two plays wide to the left side.

The Lions made the game's first other deep penetration in the first quarter when they drove to the Sonora 1 yard line where they lost the ball on downs. The Lions drove 63 yards on that march, a great deal of which came on two scampers by Pete Montgomery over his own left tackle, the first covering 31 yards and the second carrying to the 3 on an eight yard push at the same spot.

Sonora narrowly missed completing a pass in the end zone in the first half but failed and in the third quarter were not able to move the ball against the Lions when a bad snap on a fourth down punt try gave them the ball on the Lions 19 yard line.

The major part of the game was a defensive struggle with neither team able to make more than a single good play occasionally during a possession of the ball, but after the half the Sonora defense kept the Lions out of the Sonora end of the field so effectively that the Lions never did have a chance to score in the last two periods.

Coach Pete Hickman's crew gave everything they had to the task of stopping the Broncos who were undefeated for the season and almost succeeded but not quite.

Darrell Rasberry, Pete Montgomery and Phil Carnes along with

sources of Crockett County was presented at an open hearing in the district courtroom Tuesday morning by representatives of the State Board of Water Engineers.

The meeting was a follow-up of a similar meeting here in the summer at which the plan for a county-wide study of underground water resources was proposed and discussed with the court and interested citizens. The court and citizens having exhibited interest in going forward with the program, the representatives of the Water Board left to prepare a specific proposal for a cooperative program in which the county and state would participate.

The State Board of Water Engineers would send technicians to this county to conduct the investigation of ground water conditions throughout the county to determine:

1. The geographic and vertical extent of water-bearing formations in Crockett County.
2. The chemical quality of the ground water in the county, the variations in the quality of the ground water, reasons for these variations, the probable effects poor quality water will have on areas containing good quality waters.
3. The direction of ground water movement and, if sufficient data are available, the rate of movement.
4. The general availability of ground water in the county.
5. The areas of recharge to and discharge from the aquifer or aquifers of the county.
6. Changes in ground water conditions, especially the chemical quality of the water and water levels as reported by static measurements in wells in the areas where earlier comparative data are available.

The report to be prepared after the study would discuss findings in all these fields, including discussions of probable effects of pumpage in the county and adjoining areas on the general availability of ground water in the county and problems of pollution of underground water supplies. The report would also provide tabulation of basic ground water data, including information on wells and springs, drillers' logs and chemical analyses of water from wells and springs, a map showing location of wells and

(Continued on Page Three)

## Back Tags Available Here For Use In Easing Brucellosis Re-Testing

Back tags have been received by County Agent Pete Jacoby for use of Crockett County ranchmen who wish to take advantage of the relatively painless method being afforded by the U. S. Department of Agriculture to get county re-certification of modified brucellosis-free status.

Crockett county earned such status recently through testing of its cattle herds under the USDA Animal Disease Eradication division. Now, cattle sold for slaughter will be blood tested and both the individual owner and the county will be credited if one of the back tags is attached to the animal upon being sold to packers. If during the three-year period before the next county re-certification is due, 15 percent of the county's cattle are accounted for and no more than 1 percent infection is found, the county can be re-certified automatically. Any part of that percentage will be credited and the re-testing requirements reduced accordingly.

The tags, now available here from County Agent Jacoby or at the Ranch Feed & Supply Co., are stuck on the animal behind the shoulder with a special glue which will hold the tag in place until the animal reaches slaughter. A blood sample is drawn by the slaughterer and sent to the nearest government laboratory for testing and the results will be tabulated county by county.

THURSDAY, OCT. 19, 1961

**DEFAULT IS DEFEAT**

Despite rumors that President Kennedy and Red Boss Khrushchev had made a deal on Berlin at their Vienna meeting — that would be revealed after a suitable period of fencing — the President declared at his latest press conference that there had been no negotiations as yet — only talks with the Russians — on the Berlin impasse.

"We happen to live," he said, "in the most dangerous time in the history of the human race." And certainly no one will question this statement. At another point in the press conference, in discussing fallout shelters after ducking the question of whether his various homes were thus equipped, he said: "... we're going to have to live through a long period of constant tension with these dangerous (nuclear) weapons which will be proliferating ..."

Thus, the subsequent Russian

announcement of their 20th atmospheric blast since "resumption" of testing (some authorities say there have been many more than this) suggests the question: For whom will these weapons be "proliferating"? Must we be content with what warheads we may be able to develop in our hesitant, pint-sized testing in a hole in the ground? Or, if we are to make a serious effort at really deterrent atomic striking power, when — after the pointless and perilous loss of three years of priceless time — do we start.

It is no secret that testing in the atmosphere is essential to the development of the weapons that can save us. And as Admiral Lewis L. Strauss, former chairman of the Atomic Energy Commission, pointed out in a recent magazine article, there is the little matter of proof-testing to be done to make sure the bombs in our stock pile will actually go off if needed.

As for the hysteria that has been built up over the deadliness of radio-active fallout, a terror that we have obligingly helped our enemy to create — scientists have established that all of the radio-activity man has yet produced is negligible.

And while there is still no acceptable evidence that intense fallout — experienced by animals close to ground zero at Eniwetok and Yucca Flat — affected their descendants; we must consider the probability that to have descendants we must first have impressive nuclear capability.

**WCSA MEETS IN BAGGETT HOME**

"The Christian and Responsible Citizenship" by R. P. Barnes under the leadership of Mrs. Buster Deaton, Gleaners Circle Chairman, was the program theme of the Methodist Woman's Society of Christian Service meeting in the home of Mrs. W. R. Baggett Wednesday morning. The devotional was scripture from Psalms 117 and Luke 1:46-55. Prayer groups were considered and a review of the program theme with open discussion followed.

Others attending were Mr. K. R. Stanton, Mrs. Ruben Whitehead, Mrs. Stephen Perner, Mrs. Alvin Harrell, Mrs. Keith Mitchell, Mrs. N. W. Graham, Mrs. Lawrence Janes, Mrs. Allen Morgan, Mrs. Joe Clayton and Mrs. W. O. Mills.

**Rotation Grazing Said Most Effective Range Improvement Practice**

James Glynn, newly assigned local unit Conservationist, and E. B. Keng, range Conservationist at Sonora, recently viewed results of 13 years of experimental grazing management at the Sonora Experiment Station.

They first checked a pasture stocked continuously with 48 animal units of cattle, sheep and goats per section. It was characterized by short grass, with no feed reserve and a complete absence of good weeds, Glynn said. Another pasture stocked continuously with 32 animal units of cattle, sheep and goats per section "has shown little if any improvement."

According to Glynn, the real eye opener was the deferred rotation grazing system on four pastures. Three pastures are grazed at the same time with the fourth pasture resting. Each pasture is grazed 12 months then rested 4 months. Following this system, the rest periods for each pasture are staggered over spring, and summer and fall

growing seasons. Stocked at 32 animal units of cattle, sheep and goats, these pastures made steady improvement throughout the drought. With the additional forage reserve, the stocking rate has recently been increased by approximately 25 percent. All pastures are expected to be improving even with the increase in stocking rate.

**Cadillac**

The word for it is... "Masterful!"

"Superb" . . . "luxurious" . . . "beautiful" . . . "brilliant"—there are many words that might be used to describe the new 1962 Cadillac car.

But if we were to select from the Cadillac vocabulary the one word that most completely captures the essence of this latest "car of cars" —we would choose "masterful".

For here is a motor car that has already established its mastery in everything that makes an automobile good and fine and desirable.

In appearance, it is clearly a Cadillac masterpiece—graceful, clean-lined and elegant.

In performance, it is a revelation. Its power plant is a reservoir of silent power—and the car rides and handles with an instinctive ease and sureness.

In safety, it is in a class of its own—with a host of exclusive features, including remarkable new side cornering lights.

In craftsmanship, it is simply without rival. Every 1962 Cadillac will undergo more than 1400 inspections to assure its quality and goodness.

On and on the list could go. But however lengthy, that list could never replace the experience of inspecting the car and driving it.

Your dealer will happily let you do both.

Once you have, you'll understand why the word has gone out so quickly that this is the finest motor car ever to bear the Cadillac name.

FOR SIXTY YEARS THE STANDARD OF THE WORLD

**Survey —**

(Continued from Page One)  
 and survey, block and section plus illustrations produced under conditions in investigation and study under proposed contract would be completed by April 1, 1962. Special team of geologists and would map the surface and make an inventory of industrial, irrigation, and stock wells in the county; inventory of base flow of perennial streams in the county; inventory of municipal, industrial, irrigation pumpage in the county; collect water samples for analysis; measure water, determine elevation of wells; make pumping tests and analyze the data and report and publish same. Estimated cost of carrying out project, expected to be more than two years, is \$24,000 of the county's part credit for furnishing office and the cash balance of \$5,000 payable in installments over a period of three years. The amount of \$17,605 is to be paid by the Board of Water Engineers. The program at the time Tuesday morning was led by Billon, head of the ground

water division of the Board of Water Engineers, Ron Hardin of Austin, geologist, and Tom Rogers of San Angelo, geologist. Mr. Rogers is expected to be assigned to the Crockett county project as soon as all preliminaries are completed and the project is ready for launching.

**Big Lake Here —**

(Continued from Page One)  
 Rankin.  
 The Broncos would seem to have a slight edge in this encounter with a one point win over the Red Devils while Big Lake wound up with a tie but the Rankin-Big Lake fray was the first of the season for each team, and might not be a very good indication one way or the other.  
 Ozona emerged from the Sonora scrap without any serious injuries and is expected to be in good shape physically for the Owls but the question will be, can Ozona coaches get their charges ready for another top effort after having dropped a really well played game last week, that came as the result of a real strong physical and spiritual effort.  
 Big Lake, with last week off, has had two weeks to get ready for the Lions and since the Owls have not been very successful with the Lions since 1956, there is strong reason to think they will be up for a top effort.  
 The teams have played several

mutual foes with the Owls getting the nod all the way. The Lions did not handle, and tied Rankin. The Lions lost to Rankin and both teams dropped contests to Mc-Camey, Ozona and Big Lake both played Coahoma and in that encounter the Lions were much the more impressive even though both won.

In other conference games this week, Sonora will try Junction, a team that lost 36 to 6 to El-Coradado last week, and the Eldorado Eagles will take the week off from district play to get ready for Sonora next week.

**Sonora Wins —**

(Continued from Page One)  
 freshman Richard Vargas were the Lions' most frequently involved in the big defensive plays of the night but Penn Baggett, Robert Cox, Hal Long and Charlie Bingham had good nights too as the Lions turned in their top defensive game of the season.  
 The Lions had also cooked up

some offensive medicine for the Broncos in the way of a spread but on the first play Phil Carnes faked a pass and then raced 31 yards and from there on things went poorly as the running game was stopped and the Lions did not or could not pass from the formation.

Sonora had its share of fine defensive players with Preston Neely, Bob Nevill and Douglas Wood all having good games but in the long run it was the fine offensive work of Primo Gonzales and Sammiego which spelled the difference.

The game was viewed by one of the largest crowds to attend a ball game in Ozona in several years and most of the Ozona fans left the park feeling that even though they had lost they could be very proud of the way their team had played.

Statisticswise the game was close just as it was in score and in this case the statistics tell a rather accurate story.

In first downs Sonora had a 13 to 10 edge, the three extra ones coming on the lone touch-

down drive of the game. In yardage rushing the Sonora team held a 217 to 141 yard advantage with the bulk of that (73 yards) coming on the td. drive and the last few moments of the game. In the air the Lions had the edge with 55 yards on 4 completions out of 9 tries getting 1 intercepted and the Broncos had 39 yards also on three completions out of 10 efforts.

For the Lions, Phil Carnes was the leading ground gainer with 69 yards followed by Pete Montgomery with 50 yards, and Carl Montgomery with 27 yards.

The leading ground gainer in the game was Sonora's Sammiego with 88, followed by fullback Lester Schmidt with 69 and Johnny Morris with 28.

The game was hard fought but cleanly played with all infractions called amounting to only six and none coming from personal fouls. We occasionally see games where few personal infractions are called but chiefly because they are either not seen or overlooked but this was not such a game.

## EDITORIAL

### EDUCATION IS BEST WEAPON AGAINST COMMUNISM

By Leroy Drago

There exists in the world today a blight on human minds that has rapidly become a foremost threat to the peace of those persons living in free nations over all the earth. The term free nations includes the United States. In America, there is a huge number of people going about their way of life each day seemingly oblivious of the black and beguiling danger lurking all about them. That danger, that blight of otherwise intelligent minds, is Communism, and the proponents of this philosophy are ever working and striving toward their ultimate goal victory over, and domination of, the free world.

One of the main victims or targets of these so-called "scientific socialists" is the young mind, particularly the high school student. During this time the boy or girl is forming many convictions and beliefs he or she will retain through later life. The Communists realize this and prey on that fact to their advantage. In the past few years, they have been filtering into school systems in the United States, indoctrinating students with Communist theories, and instigating and perpetrating riots and demonstrations against American beliefs. It is here, in the public institutions of our country, that we who believe in the time honored ideals of democracy and freedom set down by our illustrious forefathers, must strike. And we should be education, education against Communism and its evils.

Americans, citizens, awake! Rise to the cause and resist! These fanatics must not gain the free land of America, and the only means of preventing this short of total war — is to fight and resist

the pressure and threats of these atheists and felons in thought, action, and by education of young and impressionable minds against this sweeping sickness. The time for running is past. The future must be faced, and intelligently so. If America is to be saved from the fanatics, murderers, and purgers that are the true Communists; every possible effort must be made by every Christian man, woman, and student, to educate himself against Communism, the "blight of society," until that blight shall cease to be!

### THE LINES MAKE THE COLUMN

Many store windows were painted Wednesday afternoon to boost school spirit for the Sonora game. The various signs were painted by the cheerleaders and a few others who desired to help.

On second floor in O. H. S. Friday it was difficult for one to see the walls. This was because of the many signs painted by the cheerleaders and the classes entering the sign contest.

Mrs. Hayes, a substitute teacher, took Coach Dozier place last Thursday.

If someone were visiting in O. H. S. Friday they might have thought that the students were trying to start a riot between classes. Yells broke out between most of the classes.

By Friday afternoon it looked as if Ozona's enrollment had dropped one-third. What had really happened was that many of the students had become ill or exhausted during the day.

Jayne Cole took over Janet North's place as cheerleader for Thursday's and Friday's activities of yelling and boosting the Lions spirit.

If anyone sees Kathy D. squeezing a rubber ball, don't worry about her. She is just strengthening her grip, so that at the next snake-dance she will be able to hold on. She was slung off, and as a result, she received a knee-full of gravel.

It was certainly quite in the halls all day Monday and then Tuesday afternoon. The "Fish" were taking the Flanigan Aptitude Classification test, but they are back with us now . . . and that is very evident.

### YWA'S SPONSOR FELLOWSHIP FOLLOWING SONORA GAME

A fellowship for the Y. W. A.'s of the First Baptist Church was held October 13 at the Fellowship Hall. Red and black and Purple and gold crepe paper decorations were hung around the hall.

Several games were provided as entertainment and refreshments were served.

Visiting home from business school and attending the fellowship was Janie Everett. Others attending the fellowship were: Vicki C., Jan P., Kathy S., Billy W., Vicki G., Jeannene H., Delores A., Celia H., Gloria L., Roger S., Jimmy M., Linda W., Kathy M., Janet M., Gary E., Jackie M., J. W. S., Helen M., Mary Ann P., Jo G., Kay P., Gladys M., Howard M., Donna M., Fannie Beth E., Mary Jo W., Larry W., and Mr. and Mrs. Harold Shaw. Art Dodds, the song leader and youth director, led the games and kept things going.

### JUNIORS NEED RUMMAGE AND WHITE ELEPHANTS FOR SALE

The mothers of the Junior class members are sponsoring a rummage sale. The profit will go to the Junior Class.

The mothers have asked that if you have any rummage, or white elephants that you wish to donate to the class; you may contact one of the following mothers.

Mrs. Chandler at 2-2413; Mrs. Clayton at 2-2714; Mrs. Jones at 2-2432; Mrs. Moore at 2-3003 and Mrs. Smith at 2-3003.

The sale will be held on October 28.

### JUNIOR MUMS ADD COLOR TO GAME

The people at the Ozona-Sonora football game supported their schools by wearing beautiful mums sold by the Junior class of the Ozona High School. About 293 flowers were sold before and during the game last Friday.

Some of the flowers were ribboned with black and red ribbons and were sold to Sonora boosters. Ozonans wore mums decorated with purple and gold ribbons.

The money made by the sale of the flowers, will be used by the Junior class to finance the Junior-Senior Banquet.

### MANY RALLIES SPARK ANTI-SONORA SPIRIT

Last week the student of O. H. S. were busy with many activities before the Sonora game.

Students met Thursday night at 8 at the school for a snake dance to the football field. It was led by the band and the twirlers. Following the band, was an Ozona Lion riding a Sonora Bronco. The Lion was Carey Pitts. Then came Arlene's jeep, decorated from top to bottom. Last, but not least, came the cheerleaders "pulling" the students.

When the snake dancers reached the field, the bonfire started, and the cheerleaders led some yells. There were speeches by the senior football boys, Carl, Darrell Phillip, Charlie, Frank Gary, and Tommy. After the speeches, the cheerleaders gave the boys hobbles and pennants. The theme was "Hobble the Broncos." The twirlers also performed for the bonfire.

On Friday afternoon there was a pep rally. The "Sonora cheerleaders" led one yell. These cheerleaders were our own Abe, Herbie, Leroy, Carey, and Van. Afterwards the Ozona Junior High cheerlead-

ers, Lana Alford, Vicki Montgomery, Lynn Cox, Linda Woolism, and Donna Moore, led a yell. There were also speeches on the appreciation of school spirit by Carl, Darrell, and Phillip.

Two contests were held last week in connection with these activities. They were a box contest for the bonfire and a sign contest for the halls. The winner of the \$5 prize for the most boxes were the freshmen. They also were first prize in the sign contest, with second prize going to the sophomores.

HOUSE TRAILER owners: Try Home Trailer Courts. Convenient, clean, pleasant, reasonable rates TV available at minimum charge

### STUDENT COUNCIL BANQUET FOLLOWING SONORA GAME IS WELL ATTENDED

Friday night after the Sonora game the student council banquet was held in North Elementary cafeteria. Mr. Pelto, Mrs. Carl Pelto, C. W. Gocher, and Mr. and Mrs. Buddy Moore were the emcees. They served sandwiches, punch and refreshments.

Some that attended were: Kathy and Jerry, Penn and Ed, Edice, Darrell and Mary John, Pam and Francis, Betty and Pam, and Herbel, Jimmy and Judy, Jann and Hal, Gary and

within this week the automatically receives two more.

At the meeting Mr. Morgan explained the reasons which enable a band member to receive a demerit.

Most of the band members did not clearly understand the demerit system and this was the reason for the meeting.

**FRESHMEN WIN SIGN CONTEST**

The Freshman class won the Student Council sponsored sign contest last week for Ozona High School as the class having the most attractive and interesting sign won a prize.

The freshmen took first place with their sign showing an Ozona Lion dragging a Sonora Bronco to the glue factory.

The sophomore ran a close second with their sign showing an Ozona Lion dragging a Sonora Bronco to the glue factory.

SAN ANTONIO, TEXAS

**Notes From The County Agent's Office**

By Pete W. Jacoby

Ranchmen who wish to get their cattle tested for brucellosis the easy way are urged to tag all cattle going to market with the Back-Tag. Tag only female cattle of three years of age and older. Crockett county is due for recertification of its modified-certified status in three years from date of certification. Any ranchmen who uses the back tag method on 15% of his herd in the period before recertification will not have to be tested. If he does not have 15% tested in this period, he will get credit for those tested through the back-tag method. If the county has as many as 15% of its total cattle tested under this method, then it will not have to pen cattle for the re-test. Tags for this purpose will be available through the county agent and will also be distributed at the Ranch Feed & Supply Company.

Twenty-four 4-H club members have commercial lambs on feed for the county show. Several of the members are feeding steers and heifers and breeding sheep. Four members have enrolled with quarter horse filly colts for the county show. The colt show is a new feature of the coming spring show. Members enrolled in this program so far are Rex Bland, George Cox, Lynn Cox and Paul Perner.

news reel— Mrs. S. L. Butler suffered a broken bone in her ankle Friday when she slipped and fell off the steps at her home here.

news reel— Another taste of winter and more rain was visited on Ozona beginning early this morning. A cold norther with intermittent rain was this morning's weather pic- ture.

### BIRTHDAY REUNION

Mr. and Mrs. Ivy Smith especial- ly enjoyed their joint birthday ob- servance the past week-end when all of their children and grand- children gathered for a week-end visit. Mr. and Mrs. Smith have birthdays a week apart and for the first time in several years all of their children were here for a reunion, including Ivy Smith, Jr., and family from Kermit, Carlton Smith and family from Sanderson and Mr. and Mrs. Alton Smith from Carswell AFB Fort Worth.

### WILLING WORKERS MEET

The Willing Workers Circle of the Methodist WSCS met Wednes- day morning in the home of Mrs. Morris Bratton. Mrs. Evert White was leader for the study of "The Christian and Responsible Citizen- ship."

Others present were Mmes. L. B. Cox, Jr., Charles Williams, Sr., Dempster Jones, Joe Pierce, Sr., Jack Baggett, Tom Harris, Sr., J. A. Fussell, W. T. Bradbury, Joe Pierce, IV, Paul Perner, Joe Pierce III, and A. S. Lock.

### THANKS

Fire Chief James Schumler and President Claude Montya of the Ozona Department have expressed the thanks of the department for the assistance given by many Ozona-ns to make the Hill Country Firemen's Association convention here last week a success.

Sgt. and Mrs. W. S. Hutcherson are the parents of a son, Jimmy Dean, born in the Crockett County Hospital October 10.

Dr. and Mrs. Lloyd H. Sherrill are in Houston this week where Dr. Sherrill is attending the annual meeting of the Academy of General Practice.

Hilton North, who was to have undergone surgery in a Dallas hos- pital last week, is under treatment for a slight heart attack suffered shortly before he was to have undergone surgery. The operation was postponed for three weeks to give the heart time to heal. No permanent damage to the heart resulted, physicians reported.

FOR SALE — 3-bedroom home with rockpatio, barbecue pit, side- walks. \$2,000 equity. Chandler Heights. W. M. Groesbeck, Phone 2-3230.

### President Of State Federation Is Speaker At Woman's Club Tea

Ozona Woman's Club observed Federation Day Saturday afternoon with a seated tea in the home of Mrs. Evert White honoring mem- bers to the Woman's Forum and the Woman's League. Assisting hostesses were Mrs. O. D. West, Mrs. Stephen Perner, Mrs. R. H. Knox and Mrs. J. W. Henderson.

Mrs. Harry F. Griffiths of Aus- tin, president of the Texas Fed- eration of Women's Clubs, was guest speaker on the occasion.

Mrs. Stephen Perner greeted the guests at the door and in the re- ceiving line were Mrs. White, Mrs. Griffiths, Mrs. Hubert Baker, a district officer, Mrs. Taylor Word, club president, Mrs. P. C. Perner, Woman's Forum president, and Mrs. Jim Dudley, vice presi- dent of the Woman's League.

Mrs. Word opened the meeting to welcome the guests and Mrs. J. A. Fussell gave the invocation. Mrs. Hubert Baker, Heart o' Texas district chairman of education, in- troduced Mrs. Griffiths. Mrs. Mil- lie Bierschwale of Mason, District President, was to have been pres- ent but was unable to attend be- cause of prior commitment.

Mrs. Griffiths spoke on her trip to Finland and her project as State Federation president, to study and better understand Finland in ap- preciation of that country's brave stand for democracy and freedom in the very shadow of Russia. As Federation president, Mrs. Grif- fiths had asked each club in the state to acquaint themselves with Finland and to establish friendly relations with the Finnish people.

The Finnish embassy in Wash- ington furnished her much informa- tion and as a result of her inter- est in the country, she received an invitation to visit Finland and to assist in the opening of its trade fair, especially on Texas Day. Mrs.

Griffiths took along 100 Texas Almanacs, Texas Highway De- partment's new highway map and guide book, and books and mat- erials from the University of Texas and the Extension Loan Library covering every phase of Texas life. She presented the Lone Star flag to the mayor and governor of Mikkeli and it was flown with the Finnish flag on Texas Day. Students of the University of Hel- sinki danced the "Texas Star" wearing their Texas hats which Mrs. Griffiths had brought them as gifts. She was given a list of 1,000 names of Finnish high school students who wanted pen pals in America. She gave the list to Aus- tin high schools and all were ad- opted by students there.

Mrs. Griffiths said she stayed in the home of Finnish people and found them all most gracious, sin- cere and honest. Most of them speak fluent English and are avid readers. Nearly every home has a modern library and cherish their books. The largest book store in the world is located in Helsinki. She was taken on tour of the many points of interest, including the headquarters of the Finnish - A- merican Society, the tomb of war heroes, the grave of Sibellius, art galleries, etc., and was honored at dinners, luncheons and garden parties.

The speaker reminded the club women that Finland was one of the few countries that paid war debts. It bought out all interest of Russia in Finnish territory, thus freeing themselves from Russian pressure. The Finnish - Russian frontier is a typical "iron curtain", she said, with Russian soldiers walking 24-hour guard and armed with machine guns. She asked one of her hostesses if they were not afraid of the Russians. The Finn declared they were not afraid for "we are a God-fearing nation and if God is for us how can we lose?"

Guests present were Mrs. Allie Lock, Mrs. Marshall Montgomery, Mrs. Jim Dudley, Mrs. P. C. Per- ner, and members were Mmes. Taylor Word, N. W. Graham, Hubert Baker, O. L. Sims, Will Bag- gett, J. A. Fussell, J. B. Miller, W. T. Bradbury, Ira Carson, O. D. West, Stephen Perner and Evert White.
