Rotarians Hear Progress Report On Amistad Dam

Project Engineer Describes Giant Dam In Talk Here

Members of the Ozona Rotary Club and their guests heard a progress report on Amistad Dam, the second giant international project on the Rio Grande 12 miles upstream from Del Rio now in the design and planning stage, given in a talk by Lloyd Hamilton, project engineer for the U. S. Boundary Commission on the huge construction project.

Preliminary work on both sides of the border in the U. S. and Mexico, is under way in readiness for construction of the 6½-mile long dam. For the U. S. this will include relocation of the Southern Pacific railroad and of Highways 90 and 277 and other preparatory work estimated to cost approximately 19 million dollars by the end of this year. Cost of the entire project is estimated at 79 million dollars, of which the U. S. will pay 55 millions and Mexico 24 millions, Mr. Hamilton said.

The huge dam, larger than Falcon dam, about 300 miles downstream, will be 34,100 feet long, about 6½ miles, of which 2 miles will be in the U. S. and 4½ in Mexico. The dam will cross the main stream about a half mile below the confluence of Devil's river with the Rio Grande. The earth and rock embankment, with concrete outlet works, will be approximately 254 feet high, 109 feet higher than Falcon dam. The outlet works will be controlled by 16 huge gates, Mr. Hamilton said.

When completed, the Amistad (originally called Diablo) dam will impound at maximum 5,660,000 acre feet of water and create an artificial lake covering 87,400 acres of land, the project engineer declared. It will back water a maximum of 82 miles upstream on the Rio Grande, to about ten miles west of Langtry, and up Devil's River 26 miles. Athletic Booster Club Membership Drive Under Way

Memberships Invited In Preparation For Kickoff Banquet

A drive to enlist members of the Ozona Booster Club began this week as plans developed for the annual kickoff barbecue to be held Sept. 4.

Guests of the Club will be the Ozona football squad and its coaches with the boys being introduced to the club and the coaches giving a run down of the squad and the outlook for the coming season.

Guest speaker for the night will be nationally known humorist and wit, Louie Throgmorton, whose talk alone would be worth the membership fee.

Mr. Throgmorton, a Dallas insurance executive, charmed an Ozona audience early in this year when he appeared at a Rotary Club ladies night banquet.

Tickets were placed in the hands of a number of members in key positions around town in hope that all men interested in athletics could be contacted in the next two weeks. However, it was pointed out that tickets could be secured at the Ozona Boot & Saddlery, The Stockman, Ranch Feed and Supply, West Texas Utilities Co., Baggett Insurance Agency, Ozona Oil Co., Sutton's Chevron Station, and Knox Motor. Other ticket centers will be announced next week.

Mrs. Walter Dunlap Suffers Broken Hip

Mrs. Walter Dunlap was reported to be doing well following surgery at the Crockett County Hospital last Sunday morning. The operation was necessary to set a broken hip suffered in a fall Saturday afternoon.

Children of Mrs. Dunlap were on hand during the week to visit their mother following the accident. Included were sons Paul Counts of Fort Stockton, J. C. Counts of Corpus Christi and Howard Counts of Midland and their families, and daughters, Mrs. Glen Ratliff of Fort Worth and Mr. Ratliff and Mrs. Lee Worthington of Temple.

Sept. 7 when the McCamey Badgers of district 4-2A come to Ozona.

A major building job will face the Lion mentors this season and as if this were not enough of a problem, the replacements for last year's departing seniors, will come largely from sophs, with only a few junior and almost no seniors, except those who were regulars last season.

Among this year's tried and proven players will be Penn Baggett and Robert Cox in the line and Brent Moore, Pete Montgomery, and Richard Vargas and Leroy Cooper for the backfield. Add to this list Jim Semmler who lettered at end and Joe Huff, a starting offensive guard, and you have almost all of the experience contained on the squad.

Replacements for such boys as Phillip Carnes, Carl Montgomery, Frank Childress, Tommy Everett, Hal Long, Darrell Rasberry, Gary Studdard, and Bobby Tabb, will have to come from last year's B team which fortunately included some promising freshman who will be only sophs this year, but who will have to be counted on to come through.

Included in the most promising group will be Rick Hagelstein, Aaron Shackelford, Pete Garza, Dabbie Scrivner, Scott Mahon, Bill Bowman, Bernabe Villareal, Gustavo Campos, and a few others. Some of this group saw very brief service last season but none played enough to be important.

Coach Fred Hickman stated last week that positions would be filled. (Continued on Last Page)

Football Reserved Seat Ticket Sales Picking Up As Season Opener Near

The sale of reserved seats for the Ozona High School football games was reported to going well Tuesday morning, but Mrs. Frank McMullan, school secretary in charge of sales, stated that a number of very good seats were still available on a first come first served basis.

Fans who have bought reserved tickets but who wish to change their seats were urged to get this task done right away, before all seats are taken.

Ozona fans were urged to take advantage of the opportunity to buy reserved seats at regular general admission prices, thus assuring the school gate guarantees and available operating funds in exchange for reserved seats in the most desirable location in the stands.

Fans interested in tickets can call the high school office, go by during the week or write. Tickets, care of Ozona High school, enclosing a check for five dollars for each seat desired.

Cool Front Kicks Off Showers In Area; Drops Temperature Readings

Some relief, even if temporary was afforded from the terrific heat of the past two or three weeks with the arrival of a weather change of sorts early this week which brought thunderstorms and scattered showers over parts of the county and somewhat cooler temperatures.

Although thunderstorm activity visited Ozona late Monday afternoon and evening, the town proper received no moisture but parts of the ranch country did get showers, some places reporting up to two inches of rain. The rain clouds formed west of Ozona and showers fell as far west as Sheffield but were scattered. The disturbance moved to the south of Ozona and rains in scattered areas were reported from that area, the hop-skipping showers dumping up to two inches in comparatively small areas in that direction.

Three From Ozona Attend Crippled Children's Camp

Lions Of South Side Club Sponsor Trio At Kerr Camp

The South Side Lions Club finished its summer camping project recently after having sent four Ozona children to the Lions Club camp for crippled children this summer.

The four children attending the camp at Kerrville were: Jay Sanchez, Arturo Ramirez, Melissa Ann Zapata, and Pedro Galvan.

Several of the children were on units which won citations in such contests as, clean cabin, Boy's Stunt night, and overnight camping, while Arturo Ramirez won second in checkers and advanced three stages in his swimming program.

Pedro Galvan won third place in shuffle board and moved up four stages in his swimming, advancing from a tadpole to advanced beginner.

The summer sessions for crippled children are divided into six sections named for Indian tribe. The tribes are Tejas, Lipan Apache, Comanche, Fox, Cherokee, and Chickpewa, the first letters of which form the initials of Texas Lions Camp for Crippled Children.

The camp is the result of a joint effort by Texas Lions Clubs to do something to help crippled children.

Bill Bradbury of the Ozona Lions Club was recently named a director of the camp and will serve for the next year on the state board of the million dollar installation.

Mr. and Mrs. Buster Loudamy and children were in San Angelo over the weekend to attend a family reunion. Over 150 members of the family from as far away as both coasts were present.

Hilton North Is Laid To Rest In Services Monday

Ozona Grocer, Former Rancher, Died Here Saturday Night

Funeral services were held at 5 o'clock Monday afternoon from the Ozona Methodist Church for Hilton North, 54, owner of the North Grocery in Ozona for the past 13 years and member of one of the pioneer families of West Texas.

Mr. North died in the Crockett County Hospital at 10 p. m. Saturday. He had undergone lung surgery in a Dallas hospital in January of this year and had been returned to the local hospital last week after receiving treatment in the Dallas hospital when his condition worsened.

Services were conducted by the Rev. Morris Bratton, pastor of the Ozona Methodist Church, assisted by the Rev. Harry Trulove, pastor of the First Baptist Church of Ozona. Burial followed in Cedar Hill Cemetery under the direction of Cody Funeral Home. Pallbearers were Hillery Phillips, Jake Young, George Bunger, Joe Tom Davidson, W. E. Friend, Jr., W. P. Seahorn, Jr., Brock Jones and Boyd Baker.

Mr. North was born in Sonora April 27, 1903, a son of the late Mr. and Mrs. J. J. North. His father established one of the first automobile dealerships and garage operations in West Texas in Ozona, a business which remained in the family's hands until a few years ago when it passed into other hands at the death of Mr. and Mrs. Joe North.

For more than 20 years Mr. North ranched in Terrell county near Sanderson. When he sold his livestock from the ranch in 1949, the family moved to Ozona and Mr. North entered the grocery business and owned and operated the North Grocery store here. He was married to Miss Mary Augustine, daughter of the late W. H. Augustine, early-day Crockett County sheriff and rancher, and Mrs. Augustine, on August 6, 1931, in Ozona. He was a member of the Masonic Lodge for many years.

Survivors include the widow; two daughters, Mrs. J. O. Whitley of Beaumont, and Miss Janet North of Ozona; one brother, Carl North of Ozona; three sisters, Mrs. Wayne W. West, Mrs. Gertrude Perry and Miss Mildred North, all of Ozona, and one grandchild, Elizabeth Whitley.

Mrs. W. M. Johnigan To Be Buried At 3 Friday Afternoon

Longtime Resident Of Ozona Died Wednesday Afternoon

Funeral services will be held at 3 o'clock Friday afternoon from the Church of Christ in Ozona for Mrs. Georgia E. Johnigan, 80, resident of Ozona since 1905, who died Wednesday afternoon in the Crockett County Hospital where she had been a patient the past ten days. She had been in failing health the past year.

Services will be conducted by Jess Hall, minister of the Church of Christ, with burial to follow in Cedar Hill Cemetery under the direction of Cody Funeral Home of Ozona.

Mrs. Johnigan was the wife of the late W. M. (Bill) Johnigan, longtime Ozona justice of the peace and deputy sheriff, who died May 9, 1960. They were married in Bell County October 2, 1898.

She was a member of the Church of Christ here more than 40 years. Survivors include three daughters, Mrs. Welton Bunger and Mrs. Frank James, both of Ozona, and Mrs. E. A. Schneider of McAllen; two sons, Hartley Johnigan and J. W. Johnigan, both of Ozona, nine grandchildren and four great-grandchildren.

'KING OF THE WILD FRONTIER' STILL POPULAR WITH

TOURING PUBLIC Davy Gets His Picture Snapped Hundreds of Times a Day In Ozona's City Park

The recent Davy Crockett rage (the Song and toy era) is over but it would be a mistake of considerable size to say that Crockett has been forgotten, as is so often the case with rages that come and go in American life.

Crockett did not gain his fame as a result of the rage that swept America a few years ago, and with its passing he still retained that place in held in American history and Texas history in particular, and in the folk lore of Americana.

U. S. 290 is always busy with traffic moving from coast to coast but with the arrival of summer the number of people traveling from all over the United States up and down 290 becomes heavier and the lure of Crockett's fame would seem to have lost none of its luster.

Ozona's green and inviting city park no doubt has a strong lure to motorists along the hot and dry west Texas highways, but in reality the green trees and lush grass

do little more than provide the perfect backdrop for the majestic statue of Crockett.

Few Ozona people outside those whose business face the statue, are aware of the number of visitors the big granite carving attracts each day. West Virginia, California, New York, Virginia, and even his home state, Tennessee, form but a smattering of the car licenses that can be seen every day inspecting the marker in Crockett's honor. Texas of course is the home of most of those who stop the car get out, inspect the shaft, take pictures of Johnnie and Susie standing beside Davy, and then once again resume their journey. But visitors from every state in the Union have stopped.

To give the Ozona reader some idea about the number of pictures taken each day, it is probably not much of an exaggeration of the facts, to say that a film processing company could operate profitably on the rolls of film on which one (Continued on Last Page)

HIGHLIGHTS AND SIDELIGHTS From State Capitol

Austin, Texas — Members of the 49th Armored Division of the Texas National Guard received a personal "Welcome home" from Gov. Price Daniel. He greeted them in front of the State Capitol.

Afterwards the Guardsmen paraded down Congress Avenue, then dismissed for their homes and civilian jobs.

More Money for Well Study — Governor Daniel has okayed the release of \$105,000 from Texas Railroad Commission funds to finance additional equipment, personnel and other expenses connected with the investigation of slant-well drilling and oil producing operations and pollution of public wat-

ers. He also authorized Atty. Gen. Will Wilson to adjust his present appropriations to cover slant-well and anti-trust investigation ex- penses. Meanwhile, the Railroad Com- mission called a temporary halt to oil well testing in East Texas and Hawkins fields, in order to rear- range personnel.

Crime Explosion — Texas prison wardens and agencies interested in rehabilitation of "first offenders" are being haunted by the expected population bulge just as are col- leges, universities, and for that matter, all future planners.

Post-war bumper baby crops which started in 1947 are expected to hit the cell as well as the campus in full force in 1964.

Three phases of clemency — sus- pended sentence, judicial proba- tion, and state parole — are being studied as a means of keeping youthful offenders out of the pen- itentiary.

Objective is to make prison an old settler's home for hardened con- genital criminals who cannot be rehabilitated, and who have aged in making their record.

Market Testing Helpful — "Peo- ple who have never known — and cared less — about brucellosis era- dication are now getting their herds cleaned up," Dr. Seymour J. Smith told state animal health commissioners.

Awakened interest is due to the state-federal plan of market test- ing, under which a county can be modified or certified brucellosis- free without testing every herd.

Another animal health officer, Dr. H. H. Payne of El Campo, told the group that he never had seen anything like the mosquito menace in May, June and July, which caused an estimated loss of 50,000 Texas cattle and ruined many more in Jefferson and Chambers coun- ties alone. "Some cattle are per-

manently warped from the long period of stress," he said.

Payne said cattlemen in the two- county area may be "wide open" for more trouble if fall showers cause the same condition that began when spring showers made mosquito-breeding beds out of brackish pools created by Hurri- cane Carla.

Screwworm Battle Rages — weekly production of sterile screw- worm flies has hit the 50,000,000 mark and is expected to reach 75,- 000,000 by September 1, according to Dr. G. D. Stallworth of the Tex- as Animal Health Commission.

He said the battle against screw- worms, initiated a year ago, is going so well that the Kerrville sterile fly plant is being closed down and all production centered at Mission.

Outcome of the fight for screw- worm eradication this year may depend on winter's weather whims.

"We're at the mercy of winter weather," Dr. Stallworth said. "If a very mild winter occurs, the overwintering line that serves as a boundary for release of sterile flies, will have to be pushed farther north, and more resources and more flies will be needed."

No Death for Taxes — Robert S. Calvert, State Comptroller, warns that merchants must pay the state sales tax on gross receipts despite

a recent court ruling by District Judge Herman Jones.

Calvert expects a lot of mer- chants to quit paying the tax on sales of under 25 cents after read- ing about the ruling.

Judge Jones ruled that the state has no right to make the merchants pay while at the same time pro- hibiting them from collecting.

"There won't be any change un- til the suit finally is settled by the higher courts," Calvert said.

Two Term Limit? — Another ef- fort may be made to limit the term of office of the governor.

Similar resolution was unsuc- cessfully sponsored in the 57th Legislature. New proposal would set the governor's term at four years. It provides that he could not succeed himself in office.

Divorce Study Starts — House Interim Committee on Divorce held its first meeting.

Committee, headed by Rep. Ren- nal B. Rosson of Snyder, was cre- ated by the 57th Legislature to study divorce laws, with special atten- tion to: Rights of children; meth- ods of promoting and protect- ing family life; and possible ways to encourage reconciliations.

Texas now has the fifth highest divorce rate in the nation. More than 28,000 divorces were grant- ed here in 1961.

Straight Talk

From TOM ANDERSON

PRESIDENT KENNEDY promised to get this country moving again and find jobs for everyone. The country was already moving downhill. Now it's on a socialist toboggan, rushing into a one-world, unionist, welfare dictatorship. (There will never be jobs for everybody — unless we have dictatorship. Then, those who won't or can't work can be shot.)

The promising New Frontiersmen promised a broad "Civil Rights" program as the first order of business in 1961. This broken promise is not funny to the NAACP, which has not yet attained forced equality for Negroes in all fields. But Negroes are nevertheless safely in the Democratic bag and the expedient thing for the Administration to do was to soft-peddle further forced mixing until other New Frontier projects could be traded out with our Southern statesmen for federal aid projects for us. President Kennedy promised that his farm program would cost up to \$2 billion less per year than the Benson program. It cost \$1 billion more. Ain't that funny?

President Kennedy promised a balanced budget if possible. Of course, for him, it's not possible. A balanced budget goes with New Frontiersmen like oil goes with water. So we turned up \$3.9 billion short for fiscal 1961 and the hilarious prospect is for a \$6 billion deficit in fiscal 1962. Ha, ha.

Let any humorless people who may be taking this criticism of the New Frontier seriously be reminded that I, although a registered Democrat, dislike both parties equally. Actually, I most

confess I'm glad Socialist Party A out-promised our TV's and out-cheated Socialist Party B in the Presidential election. Much good can come out of this. It may be better to "Go Socialist" at 100 miles an hour instead of at our accustomed 30.

Socialism nibbles away our freedoms. Gulating Socialism is to be preferred over creeping Socialism because at a pulling people are jerked into an awakening. The inevitable way to lose all our freedoms is to let them be nibbled away one at a time. The inevitable way to lose the big all-out battle is to continually give ground and forfeit every skirmish.

What many Americans call "welfare" the British more honestly call "Socialism."

The last two administrations differ in ideological concept. The Eisenhower Administration's idea of saving money was to reduce the guard at Ft. Knox. The Kennedy Administration believes in increasing the guard at Ft. Knox. Means more jobs. The Federal Government has four times the civilian employees and twelve times the payroll it had 30 years ago. Kennedy has added 100,000 more. For 25 of the last 70 years the Federal Government has spent more than it took in. Since 1940, inflation has taken away more than half of the purchasing power of the dollar. And the administrations, Republican and Democrat, cynically led to and cynically robbed, widens and everybody on a fixed income — while panicky calling in them to be patriotic and buy government bonds which will eventually be paid off in 70-year dollars.

Area Women Urged To Visit Santone Wool-Mohair Week

Joske's Plans Promotion; Miss Wool And Miss Mohair Attend

Wool and Mohair Week will be observed at Joske's in San Antonio next week with a city-wide publicity campaign featuring Miss Wool and Miss Mohair and a store-wide emphasis on wool and mohair products.

Window displays, fashion shows, and luncheons will feature the week's observance at Joske's, but Miss Wool, Miss Carolyn Barre and the newly elected Texas candidate for Miss Wool this year, Katherine Ann Spence of Austin, along with Miss Mohair, Miss Nancy Friend of Ozona, will make TV appearances and model clothes at a luncheon given at Joske's Tuesday Aug. 22 to which the public is invited.

The week's program will include a luncheon and reception for the two Miss Wools and Miss Mohair Monday. Tuesday will find a fashion show and luncheon to which the public is invited. Wednesday will be "Make it yourself with Wool" day and the balance of the week will feature window and store displays of wool and mohair products.

Mrs. W. E. Friend, Jr., of Ozona, Miss Mohair's sponsor and Crockett County chairman of the Womans' Auxiliary of the TSO&GWA, said Tuesday that the San Antonio backers of this wool program had not received the support from area wool producers that was needed in the last few years, and urged Crockett County residents to make an effort to visit San Antonio sometime next week and attend some of the activities.

Bill Jacoby Attends A&M Adjunct Summer Session At Junction

College Station, Texas — Students from throughout Texas are among the some 117 young men registered for the second six-week term of the Texas A&M College Adjunct, which is located at Junction. The campus at Junction, which is 250 miles west of College Station, is possibly the world's most unique.

College training is combined in a remarkable way with camp life at the Adjunct, which is on the banks of the South Llano River. The Adjunct program is for entering freshmen, and there always is a waiting list for each session.

A well rounded program for each student includes classwork, study and recreation. The student takes seven hours of regular college work, usually college English, college math, and physical education.

W. D. Kutsch of the A&M College Counseling and Testing Center is the Adjunct director, and the

faculty and staff are regular members of the Texas A&M System. Among the students registered for the second term, was the son of Mr. and Mrs. P. W. ... Mr. and Mrs. C. O. ... daughters have returned on vacation trip to Oklahoma and they visited relatives and ...

Air Conditioning experts agree... **WATER cooling is BEST!**

Youngsters learn mighty early about the cooling effect of water when the weather's hot. And air conditioning engineers know that water cooling is far more efficient than air cooling. The reason is simple... 85° water can absorb more heat from your home than 100° air.

That's why ARKLA-SERVEL Sun Valley's GAS air conditioners are WATER cooled! Water cooling, plus Sun Valley's "no moving parts" principle, gives you two big advantages unavailable with other air conditioners. One, a Sun Valley gives you **CONSTANT EFFICIENCY**, while air cooled units lose as much as 15% efficiency. Two, Sun Valley operating **COSTS REMAIN CONSTANT**, while air cooled equipment operating costs rise as much as 23%.

 KING-SIZED FILTER Sun Valley's double filtering capacity STOPS ALL HOUSEHOLD GERMS! It even traps cigar and buttdots, giving your home Spring-like freshness all year long.	 NO MOVING PARTS ... in the heating or cooling cycles of the Sun Valley... nothing to wear out or break down! Sun Valley is year-around comfort for the mortgage life of your home!	 CONSTANT EFFICIENCY Sun Valley has no compressor rubbing friction to run up your operating costs. It doesn't cost a penny more to operate the Sun Valley for an hour when it's 115° than it does when the temperature is 90°.

gazettes, Some threepence in the whole. Mine is on unremunerative vice, or hobby, and I shall be far more than threepence in the hole if I keep it up. But I have just found an exciting thing. The word "girl" — I have always liked and encouraged girls as a race — was a diminutive of the root "gir", which meant a child of either sex. (Too bad.) Old English used the term "knaave girl", meaning a boy. "Wench" was much the same. In The Armulium, the diminutive of this, "wenchel", was applied to the Babe in the Manger.

See how things change? See what we have lost? Our modern use of wenchel has unfortunately been prefixed by walter, to nobody's gain.

ed by the men who could best serve the team and indicated several boys will find themselves playing different positions from the ones they held down last year as well as playing different positions on offense and defense, the coach said.

Big Lake will be a big favorite in the newly established district 8-A which will have three new members, three old members and minus two of last year's members, Sonora which went 2-A, and Junction which moved into a district east of here.

On the more encouraging side seem to be outclassed by any other of the picture the Lions do not now member of the circuit so an interesting race could very will develop.

Amistad Dam

be impounded, Mr. Hamilton pointed out that both Lake Walk and Devil's Lake on Devil's river will be completely inundated, the water at Lake Walk to be approximately 145 feet deep and at Devil's Lake more than 100 feet deep.

Falcon dam was dedicated in 1933 by the presidents of Mexico and the United States and by impounding waters of the huge 1934 flood saved millions of dollars in damage to the lower Rio Grande valley of Texas and many towns and villages below the dam in Mexico.

"If Amistad dam had been in place in the 1934 flood, the damage it would have saved on the US side alone would have more than paid for the entire cost of the project," the engineer said. The dam will in the future save flood damage on the Rio Grande from Del Rio to the gulf, he declared.

Allocation of water use from the huge reservoir will be prorated between Mexico and United States users on the basis of percentage of inflow from streams on the American and Mexican sides of the international boundary stream. The upshot of a treaty covering water rights from the reservoirs will give U. S. users title to approximately 66 percent of the Amistad waters and 34 percent to Mexican users. These percentages vary along the distance of the boundary stream as percentages of inflow from streams varies, the visitor declared.

Mr. Hamilton was introduced by T. J. Bailey, program chairman, Herman Knox, Rotary president, presided.

Davy Crockett

or more of the pictures of the statue appear.

It is not a matter of speculation to say that the figure of the Hero of the Alamo draws many dollars of trade into Ozona business houses each day, particularly during the summer.

Once stopped, motorists often decide they need a coke, or something to eat, or something in the variety store and thus many dollars that would have otherwise passed on by without notice are gained by Mr. Crockett's reputation.

Many of the viewers with only a smattering of knowledge about the noted frontiersman are uncertain about where Crockett met his fate, or if he had lived here before the Alamo. Others knowing something of his background are prone to ask why the statue is here.

The statue was erected as a part of the Texas Centennial observance in 1936 when historical spots over the state were marked and statues of Texas heroes erected at various points in the state.

Crockett's statue was erected here, of course, because Crockett county is named in his honor. The statue, carved from Llano marble, depicts the famous bear hunter and Alamo hero resting on his long double barreled rifle "Betsy" but minus his coonskin cap.

Something you should think about if you're about to buy a truck:

If all trucks were built the same way, cost the same to keep up, were worth the same at trade-in . . . then probably the price tag would be your only concern. It can't be, of course, because some trucks have more quality than others. And marks of quality are the real keys to low cost.

Chevrolet trucks, for example, have double-wall construction, which gives bodies and cabs more strength. Cabs are insulated against heat, cold and noise. A big part of road shock, which shortens truck life, is dumped out by Chevrolet's suspension system; it also makes riding in the truck a pleasure. Pickup bodies and cabs are separated to eliminate stress between them.

Value such as this has induced more people to invest in Chevrolet trucks every year since 1937.

This can be a good time to buy a modern new Chevrolet truck

Late summer traditionally is the season for all-around savings on a new Chevrolet truck . . . selection is still good . . . deliveries are prompt . . . and Chevrolet dealers are doubly anxious to put you into a new vehicle in order to make way for next year's models. Coupled with the efficient performance a new Chevrolet truck will give you, it seems evident that you couldn't buy at a better time.

Come in and take full advantage of it!
