That's An Order!

Again, on February 21 — as on October 22 — President Kennedy put on his Commander-in-Chief's hat, this time to order the armed forces of the US to "take all necessary action against any repetition of such an attack" (as that of MIG fighters from Cuba on the US shrimp boat Ala some days earlier).

On the same day came the first official announcement from the White House that Uncle Nikita had said that he would take some of his troops home from Cuba pretty soon. In fact, he even set the date as March 15, but failed to indicate how many. And, on the same day, the arrival in Havana of the first of four Russian passenger ships said to be on the way lent color to Kremlin promise. Whereupon some Washington characters with access to a crystal ball seized on the notion that 8,000 Russkys would be returning to the people's paradise. Goody! Goody! that only leaves 9,000 Russkys troops and who-knows-how-many "technicians" in the arts of rocket and missile launching, communications, subversion, mayhem and well-visiting; the rocket-launchers and rockets, the short-range (?) missiles,

military aircraft, submarine bases — and Castro — to cause us a moment's uneasiness. The Pentagon, we would think, must be in quite a flap over just what the Chief's order means. Do our soldiers and sailors and marines and flyers restrict their activities to protecting shrimp boats against MIGs? Suppose it's a land-fired rocket next time? Or a submarine? Or doesn't it count if the Commie target is merely a cruise ship filled with happy, bourgeois winter-vacationers?

The best answer to what constitutes "necessary action" that we have yet heard comes from Connecticut's Democratic Senator Thomas J. Dodd who said, after hearing the announcement from the White House: "The only way to prevent repetition is to get the Russkys out of their Cuban base."

But, looking back on the brief, ineffectual, on-again off-again naval blockade (quarantine); our failure to stand firm on the demand for on-site inspection of weapons removal, or to stop and search on the high seas the ships thought to be carrying missiles back to Russia; we don't think that's what the latest order means.

More Than Meets The Eye

Those of us who were born too soon to join the Young Americans for Freedom, now more than 20,000 strong and with over 300 chapters in the 50 states, can nevertheless join them in their opposition to the White House proposal for a "domestic peace corps" and agree that this is "the most expendable item in an already unbalanced budget."

National Chairman Robert E. Bauman, a law student at Wash-

UNITED NATIONS AID TO CUBA

Congressman Bruce Alger of Dallas, in his Weekly Letter

The United Nations is going to give \$12 million of your money to help strengthen Communism in Cuba. And the only concern the Kennedy Administration has, according to the press, is that this action "may add fuel to the attacks by some Congressmen on its Cuban policies." They are so right. This Congressman, for one, is going to continue to attack policies which are not in the self-interest of the United States and which, in fact, strengthen the sworn enemies of the United States. The next move by the United Nations is to approve a Cuban crop diversification project which will strengthen the agricultural economy of Cuba and make the Communist dictatorship more secure. It is a continuance of a policy which has seen the United States contributing to its own suicide by financing the United Nations so it could in turn finance Communist countries; and by our foolishly foreign aid contributions to Yugoslavia, Poland and other Communist-dominated nations. The action of the United Nations Special Fund in approving the financing of the agricultural project in Cuba should call for this immediate reaction by the United States: (1) An immediate stop to all payments to the United Nations (2) Our withdrawal from the United Nations (3) Eliminate all foreign aid to Yugoslavia, Poland, and other Communist dominated or neutral countries supporting our enemies.

Mrs. Carson To Show Slides, Speak At San Angelo Event Saturday

Mrs. Ira Carson of Ozona will lecture and show slides on Texas wild flowers and plants at the "Our Natural Heritage" luncheon at 12:30 p. m. Saturday in the Cottillion Room of the Town House Motor Hotel in San Angelo. The San Angelo branch of the American Association of University Women will be hostess.

The material Mrs. Carson will discuss is to be incorporated into a book. She has taken her own pictures of the assortment of wild flowers and plants, and over a period of five years has compiled the commentary and pictures.

The trips were at all seasons to photograph various species at height of bloom. She and her husband have visited nearly all 50 states of the U. S., Mexico and Canada.

Mrs. Carson has given the wild flower program about 200 times in Texas, for Women's Clubs, Rotary Club Lions Clubs, Texas Garden Club groups and other organizations.

Besides photography, Mrs. Carson's hobbies are oil painting, West Texas history and travel. She is the daughter of a pioneer family to West Texas, Mr. and Mrs. W. E. West. Her father came to Ozona in 1888, one of Crockett County's first settlers. Mrs. Carson is a former student of Baylor University.

San Angelo branch of American Association of University Women will be hostess, with Mrs. Pat Jackson and Mrs. David Wood in charge. Mrs. Tom Ridgway is program chairman.

Heart Association Is Seeking New Name

What is presently known as the San Angelo Heart Association and which embraces fifteen West Texas counties wants a new name. Dr. Dwan Dodson, president, announced recently that a new name is being sought and asked persons from Crockett county to submit suggestions. Suggestions may be sent to Mrs. Coralie Meinecke, committee chairman, or Mrs. Jack Jones or Mrs. Lonnie Van Ness, chairman, by March 15.

HIGHLIGHTS AND SIDELIGHTS From State Capitol

Austin, Texas — Senate and House committees have accomplished quite a bit — either by positive or negative action — to settle some legislative issues.

They have given a green light to a bill to raise the age ceiling from 14 to 16 on the state's program of aid to dependent children (an effort to keep needy children in school) . . .

Given a friendly reception to the bill by Rep. W. H. Miller of Houston to require seat belt anchors in all new cars sold in Texas . . .

Given cool reception to a series of Senate-proposed constitutional amendments and bills designed to revise — and eventually eliminate — the state property tax, and leave it to local units of government.

Approved a Senate bill to set up a new school for mentally-retarded children in Corpus Christi. Another bill to create a similar school somewhere west of the 100th meridian in West Texas is set for a Senate committee hearing on March 20.

Texas again led the nation in 1962 as the foremost interstate highway builder, with 3,000 miles of highway construction contracts awarded during the year.

Rep. Bill Rapp of Raymondville and Rep. Maurice Pipkin of Brownsville introduced a bill to repeal the 1961 Sunday Blue Law.

State Comptroller Robert S. Calvert said a new cigarette vending machine permit — a gold, pressure-sensitive decal — must be displayed on all machines March 1.

FINISH RESEARCH

exhausting pounds of type-
 per, wearing both patience
 ters thin, and spending
 of dread, the seniors are
 lieved. Research papers are
 hands of Mr. Moody and
 longer the worries of our

fourth year students.

The typical senior was a "dis-
 agreeable cuss" while writing his
 paper, and those surrounding him
 no doubt found him hard to toler-
 ate. The unfortunate faculty mem-
 bers who supervised typing after
 school probably "had their ears
 burned" more than once from stu-
 dent's crude expressions of dis-
 gust.

Those weeks were "hard" ones
 indeed, but the members of this
 year's graduating class have been
 given something to look forward
 to. A second research paper is
 required for all seniors. Work on
 these papers has already begun,
 so underclassmen, parents, and
 teachers will have to endure a
 few more weeks of anguish until
 these papers are finished.

TEXANS CELEBRATE INDEPENDENCE

On Saturday, March second,
 Texans will celebrate their decla-
 ration of Independence from Mex-
 ico.

In 1836 a group of brave Tex-
 ans met in the small town of
 Washington-on-the-Brazos and
 signed the document declaring
 Texas a free republic. Ironically,
 on the same day in San Antonio,
 Santa Anna's army was gathering
 to conquer the rebel Texans.

By March sixth the last Tex-
 an had fallen at the siege of the
 Alamo, and Santa Anna was pre-
 paring to "take" Texas.

The familiar legend of the Bat-
 tle-of-San Jacinto remains one of
 the strangest battles of history.
 While the Mexican army was tak-
 ing a siesta, the Texans' cries of
 "Remember The Alamo, Remem-
 ber Goliad" rang in their ears,
 and within twenty minutes the
 battle was over, with a decisive
 victory for the Texans.

 and will play a return match here
 tonight at 6:30.

 posed of Pauline Maness, Floyd-
 dine Moss, Freida Kay Noelke,

 and Yvonne Martinez, Carmen

World Day of Prayer To be Observed Friday; Services Here 9:30 a.m.

Prayer will be the invisible space ship which will orbit the world Friday, March 1, the 77th World Day of Prayer, in which women of Ozona will join with hundreds of thousands in services around the world.

The local observance will be held at Ozona Methodist church at 9:30 a. m., sponsored by the Woman's Society of Christian Service. The service is open to all who wish to be a part of this world-wide prayer fellowship.

"More Than Conquerors" is the theme of the 1963 service, inspired by the Apostle Paul's encouraging words to the Romans that neither tribulation, distress, persecution, famine, nakedness, peril nor sword can separate from the love of Christ, for "in all these things we are more than conquerors through him who loved us."

For many of the Christian people around the world who will participate in the World Day of Prayer, these words are more than words, for as with the women of Korea, who wrote the service, they have seen tribulation, distress, persecution, famine, peril and war.

The offering, a dedication of gifts to assist the work of those giving time and talent in any fields of service, is a vital part of observance. The gifts will be channeled through the Division of Home Missions and the Division of Foreign Missions of the National Council of Churches. They will go to help support many worthwhile projects in foreign and home mission fields.

Now you can make major additions and repairs to your home and pay for them over a 20-year period with small monthly payments. Your home does not have to be clear of debt. For details call Wm. Camera Phone 22601 in Sonora.

WMU CIRCLE MEETS

The June Cooper Circle of the First Baptist WMU met for its monthly meeting Wednesday morning in the home of Mrs. Jerry Perry.

Mrs. R. C. Pitts, Circle chairman, called the meeting to order with the WMU watchword. Calendar of prayer was read by Mrs. Perry. The program topic was Christian Witnessing.

Others present were Mmes. Glenn Russum, J. L. Sweeten, and Quentin Brentz.

Joe Montgomery, 81, Brother Of Ozonan, Is Dead In Ft. Stockton

Joe M. Montgomery, 81, Fort Stockton banker and rancher, brother of Ozonan George Montgomery, died late Friday at his home in Fort Stockton, where he had been confined several years because of illness.

Mr. Montgomery, who homesteaded land in the Glass mountains area south of Fort Stockton early in the century and developed one of the largest ranching operations in the area, helped organize the Pecos County State Bank in Fort Stockton and served as its first president.

Funeral services were held at 3 p. m. Sunday from the First Christian Church of which Mr. Montgomery was an elder and for many years active in the church's program.

Born in Comanche county, Mr. Montgomery worked on his father's ranch near there and in a bank as a young man. He was married there in 1904 to Pearl Farmer, the couple moving to Crockett County for a time before moving to the Glass mountains area. Mrs. Montgomery and a daughter, Mrs. Peggy Brooks were killed when their car collided with a train at a crossing between Big Lake and Rankin July 29, 1960.

Survivors include two other daughters, Mrs. Frank Fulk of Fort Stockton and Mrs. Wayne Moore of Midland; two brothers, George Montgomery of Ozona and J. C. Montgomery of Fort Stockton; and two sisters Mrs. Jim Mitchell of San Antonio and Mrs. Charlie Schauer of Del Rio.

Forum Game Night Proves Popular Fund Raising Plan Here

A fine turn-out of players enjoyed themselves and the Ozona Woman's Forum benefitted financially Saturday night at the first game-night staged by the Forum in lieu of its annual fashion show, which was abandoned this year.

The game-night was at the North Elementary school. Among out of town guests joining in the play were a touring couple, Mr. and Mrs. Rogers from College Station. Mr. Rogers is a former member of the faculty of the engineering school at A&M College and is now retired. They were on their way back home from a trip to Arizona and stayed over

night in Ozona. They were presented a cake by the Forum as a goodwill gesture.

Men and women winners in bridge and forty-two were given home baked cakes as prizes. Bridge winners were Evert White and Mrs. Jerry Pace of Austin, here with Mr. Pace visiting her mother, Mrs. J. M. Baggett, and in forty-two Allie Lock and Mrs. N. W. Graham.

IS IT A SIN TO PROVIDE SHELTERS?

Sonora Caverns Official Replies To Houston Man's Attack On Shelter Plan

EDITOR'S NOTE: The following "Open Letter to Ellis Ray Bennett" of Houston, whose "Letter to the Editor" was recently published in the Stockman, has been submitted by H. V. (Buzzie) Stokes of Sonora, secretary of the Caverns corporation. Bennett was highly critical of proposed outfitting of the beautiful caverns as fallout shelter.

Mr. Ellis Ray Bennett
Houston, Texas.

Dear Sir:

The Caverns of Sonora have been proclaimed by all experts as the world's most beautiful cavern. To expedite its development and promotion a group of local citizens purchased this attraction in 1961, helping to create an attraction that would bring thousands of tourist to West Texas, benefiting Sonora and Ozona most.

Today the Caverns of Sonora are a depth trap. For several thousand people, in hysteria, to enter in case of an atomic scare would mean mass murder — unless proper life saving facilities had been installed.

It is estimated that it will take some \$75,000.00 to properly equip and prepare the Caverns for an underground shelter. These facilities must include an underground well and water system, underground rest rooms with an above ground sewer system, opening and preparing many rooms in the portion of the cavern, filter air equipment, a stand-by electric generating plant, an underground hospital with proper facilities for storing food, medicine and supplies.

Today, without these installations, to use the caverns as an emergency underground shelter could cost several hundred lives. With the proper facilities several hundred lives might be saved. The question is, who is supposed to furnish this \$75,000.00? Some say the Government, others feel that it is something we should do for ourselves.

During the Cuban crisis a'd over this area it was said, "the first sign of a bombing we are going into that cavern," which happened to be the only place in this area, and still is, that was even recommended. And it would be safe for a few hundred people. A statewide meeting was called by the Civil Defense Authorities and it was said there that small,

remote towns could likely prepare to take care of their own, their big problem would be the influx from cities near the Coast and near important military installations. Now we find that Houston has shelter for everybody!

It was recommended by Civil Defense that yard shelters be built, that public buildings be made into approved shelters. It was estimated that back yard shelters would cost some \$2,500.00 minimum and can you imagine anything more selfish than to build a shelter in your own back yard for one's family, only? What about the neighbors and their children? Of course, they could do the practical thing by going to Houston for the duration of the emergency.

Here, instead of spending tens of thousands of dollars in building and equipping small shelters that could serve a limited number at that, it was thought that we should capitalize on the shelter, built by nature, one with several miles of underground passages, with a nice air flow and with a small opening. To finance the life saving facilities it was agreed that a limited number of memberships be sold and that certain space in the dry portion of the cavern be allocated to these members. Another portion of the dry cave would be reserved for school children, regardless of race, color or residence, on first come basis. Then, if the safety factor permitted, others would be accepted but no event to the point that it might endanger the lives of those in the shelter.

It was never planned that we

Shallow Wildcat Set In Crockett Co. Field

Jess Lynch, et al, Midland, will drill the No. 1 Southland Royalty Co., a 1,800-foot cable tool Sn Andrews wildcat, in Crockett County, 14 miles northwest of Ozona and 3/4-mile northwest of the same operators' No. 1-A Southland Royalty, opener and lone producer in the Donham (Greyburg) gas field.

Location is 487 feet from the south and 1,660 feet from the east lines of 55-UV-GC&SF.

The discovery was finalized Dec. 7, 1962, for a calculated, absolute open flow of 1,020,000 cubic feet of dry gas per day through perforations between 1,133-183 feet.

could give shelter to all West Texas, as much as we would like to. It was planned to give shelter to those who paid for the safety facilities, first, and to as many more as possible. This could be no more than a few thousand. At the present there are no approved shelters in this or any adjoining county except in a few minor cases. In case of an atomic scare the Caverns of Sonora are still a death trap. What would you do about it? Is it a sin for a person to spend his own money in building a shelter in his own back yard for his own family? Is it a sin for several families to join in equipping a private owned cavern as a shelter for protecting their families and friends? Is it really true that Houston, the most vulnerable spot in Texas, has shelter for everybody? With the heat off its funny now but we haven't heard the last of the atomic bomb, I fear.

Your respectfully,
H. V. Stokes, Secretary
Caverns of Sonora, Texas

The News Reel

A re-run of "The Ozona Story" as gleaned from the files of The Ozona Stockman

From the Stockman, March 1, 1934

John L. Bishop, who is serving his sixth year as superintendent of Ozona schools, and his eighth year in the local system, has handed his resignation to the school board, effective at the close of the present school year.

A giant bone, believed to be part of the skeleton of a pre-historic animal, was unearthed recently by Fred Cooke in the Davidson pasture south of Ozona. Cooke was digging gravel for use in local street work when he uncovered the huge bone, which is approximately four feet in length and 20 inches around in the center. A giant knob at the end, 18 inches in diameter, is believed a joint.

C. C. Luther, who recently disposed of his interest in the Humble agency here to Clyde Newberry, his partner in the business, had purchased the Midway Cafe in Barnhart, and has added a distributing agency for several kinds of 3.2 beer.

A new ruling by the State Department of Education, which extends the requirement that teachers in the grades as well as in high schools have college degrees or be making regular progress toward a degree, will affect nearly a dozen teachers in the Crockett County system.

A committee from the Crockett County Commissioners Court, headed by Max Schneemann, has been appointed to meet with a committee of women from the Ozona Woman's Club to discuss the plan for a proposed county free library here.

A motorized wolf drive on the Walter Childress ranch 20 miles north of Ozona, in which near a

score of men participated, results last Monday when a female wolf that had been on sheep on the Childress ranch several weeks was killed by fire from the "wolf pen" of Friend, Jr., with a shotgun.
