Volleyball Girls Win Chance At State Title With 2nd In Regional

The Ozona High School girls volleyball team qualified for the state contest to be held in Abilene this week by finishing second in the regional tourney in Lubbock last weekend.

Miss Knox's battling young team defeated Tuscola Friday morning to gain the finals but found Plains a bit too big and too good in the finals, losing rather decisively.

The Friday morning game was a close one going three rounds before Ozona scored a 15 to 13 win in the final game to win two to one.

The Ozona team will leave for Abilene Friday but some of the team members will have to return to San Angelo for the area band contest Saturday in the event the team wins its first game and remains in the tourney through Saturday.

Ozonan Gets His Meas Off Country In Ft Hood Guerrilla War Training

Fort Hood, Texas — Armadillo, rattlesnake or raccoon might have been on the menu for Army PFC Johnny M. Fielder, son of Mr. and Mrs. Willie B. Fielder, Ozona, Texas, as if he could have caught one.

The soldiers spent a week on the course, in turns. The 60 hours of training included bridge demolition, cliff climbing, hand-to-hand combat and survival techniques like catching dinner.

Fielder, a driver in Company A of the 51st Infantry's 1st Armored Rifle Battalion at the fort, entered the Army in June 1961.

The 18-year-old soldier attended Lockett High School.

Services Wednesday For John R. Bailey Crockett Pioneer

Ranchman Here 62 Years Died Mon. Nite In Crockett Hospital

Funeral services were held at 3 o'clock Wednesday afternoon from the Ozona Methodist Church for John Robert Bailey, 84, pioneer Crockett county ranchman, who died Monday night in the Crockett County Hospital. He had been in failing health the past year but had been hospitalized only a week.

Services were conducted by the pastor, Rev. William R. Fleming, burial following in Cedar Hill Cemetery under the direction of Cody Funeral Home of Ozona.

Pallbearers were grandsons of Mr. Bailey and included Bob Bailey of San Angelo, L. B. Cox, III, Brock Jones, Jr., and John Jones of Ozona, Elton Holland, Jr., of Fort Stockton, Jim Easley of Hereford, Bob Jennings of Farmington, N. M., Ed Reynolds of Dallas and Johnny Green of San Angelo. Honorary pallbearers are all his old friends.

Mr. Bailey, a resident of Crockett county sixty-two years, was a native of Tarrant county. He was born in Birdville, the old county seat of Tarrant county, Feb. 9, 1879, the son of an early pioneer ranching couple, Robert and Mary Ann (Calloway) Bailey. He moved to Schleicher county with his parents in the early nineties and helped to establish that county. Mr. Bailey once said that his first vote was cast to organize Schleicher county. Earlier the family had lived for a time in Erath county and Mr. Bailey attended public schools in Dublin and took a business course in Add Rann Christian College, forerunner of the present Texas Christian University.

Mr. Bailey learned the ranching business under his father's able tutelage, having been associated with his father in cattle ranching in Schleicher county. On October 29, 1899, he married Miss Roberta Murchison, daughter of Mr. and Mrs. Robert Murchison who were living at the time on "Point Pleasant", ranch between Eldorado and Sonora. Two years later, in 1901, the young couple moved to Crockett county, having purchased the old Zeb Owens ranch east of Ozona, a 17-section ranch which he still owned at his death. In more than a half century of ranching, Mr. Bailey acquired additional ranch lands in Terrell county, near Sanderson, and in Kimble county, near Roosevelt.

Mr. Bailey has been identified with the community development programs in Crockett county for more than sixty years. He served on the school board and was active in many community undertakings, such as the annual fair, stock show and rodeo that was a feature in Ozona for many years. A faithful member of the Methodist Church, Mr. Bailey had served in many capacities in the church family through the years. He was a member most of his life in the Ozona Masonic Lodges, and held membership in the Texas Sheep & Goat Raisers Association and the Texas and Southwestern Cattle Raisers Association.

A ranchman all his life, Mr. Bailey never quite "let go" of his hold in ranching, although he had relinquished much of the active chores of the ranch for many years. The annual rodeos and stock shows in Ozona always found Mr. Bailey an active participant, and in recent years his was a familiar figure in the downtown parades to board his favorite mount, a gray cowpony.

Mr. Bailey is survived by his widow; one son, T. A. Bailey of San Angelo and Ozona; three daughters, Mrs. L. B. Cox, Jr., and Mrs. Brock Jones, both of Ozona, and Mrs. Worth Odom of Tucumcari, N. M.; one sister, Mrs. Nora Gee of San Angelo; ten grandchildren and eighteen great grandchildren, and a number of nieces and nephews.

Shed a Tear

Shed a tear for the passing of another old timer. For, with each passing, thinner become the ranks of those rugged men and women of pioneer stock who symbolize the strength and character that was the frontier West.

Their's was a breed of men and women who had no peer in American history, these hardy ones who carved an empire from what was called a waste land. And their's was a golden era, a saga whose telling in years to come may sound like fiction. Problems of today are different but no more

What Has Happened to the United States of America?

This is the nation that was conceived in freedom and dedicated to human dignity and equal opportunity. This is the nation that gave its youth and its treasure in two world wars to preserve and restore these "unalienable rights" to others.

This is the nation that set a pattern of valor and morality and progress for the world — only to embrace defeat and dishonor in Korea by Executive Order; to turn its back on the Hungarian patriots; to betray the Cuban freedom fighters at the Bay of Pigs, and now, after ringing words of encouragement from our President to the prisoners we ransomed from

challenging. Man has eased his burdens by his own ingenuity but perhaps never again will Americans know the measure of freedom enjoyed in this era, when each day of life was a challenge in itself.

Shed a tear, then, for the passing of an era, an era symbolized by men like John Bailey — an era when rewards were great for individual enterprise, when government was man's servant not his master, and when the world was free from the long shadow of "isms."

Castro, to reject their cause — which we had presumed was equally our own.

Has the United States of America become a "neutral" nation? We might ask our Congressmen.

A Creek In My Back

By Allan R. Bosworth
 Author of "New Country" and other historical & fictional works

As an old but never very spectacularly successful driver in sports car competitions, I could not keep back a few sympathetic tears when I read, the other day, about what happened to Erik Carlsson, of Sweden, in the International Motor Rally in Tanganyika.

Carlsson, last year's champion of the rally, was off to a handsome lead in the East African event when the Sabb he was driving ran into an ant eater, and wrecked both the ant eater and Carlsson's front suspension.

That was bad enough, but of all places, it had to happen near Dar-Es-Salaam.

In sports car parlance, I expect Carlsson "red-lined his tachometer," which is the equivalent of blowing ones top, and then I imagine he made his way to the nearest telephone, where he finally got on a party line that wasn't too good. It would have been better, though, than having to use jungle drums or native runners to send the word.

The race being an international affair, it just might have been Carlsson's luck to find himself talking to a rally steward who was Dutch or West German . . .

The line hums and crackles, and only part of Carlsson's report comes through. — "Der-Es-Salaam, on the highway — crackle, pop, snap."

"Vass iss ge-speaking?" the steward asks. He turns and announces to the other officials, "Ve iss after been having der big slam on der highway!"

"No — no!" Carlsson shouts. "Dar-Es-Salaam — down the coast from Zanzibar. This is Carlsson. I have run over — crackle buzz — ant eater!"

"Ach, Hammel!" exclaims the official. "Carlsson iss after having been run over Aunt Edith! Who iss Aunt Edith?"

"No — no! Ant eater!" yells Carlsson. "Aardvark — like in the crossword puzzles — aardvark!"

"Ach, du Lieber!" the steward says sadly. "Carlsson has been after red-lining his tach. He

iss ge-speaking it iss hard work on der crossword puzzles. . . ."

There is nothing for Carlsson to do but hang up, see the race go glimmering through the hot East African afternoon, and look for a tow car.

But the incident is not over. Half a world away, in the Saab plant in Sweden, the lights burn late. White-faced, grim-lipped men pore over blueprints and zoological texts. At the head of the table, the Chief points a challenging finger.

"Have you found the specifications, Olsen?"

"Yes, sir. The aardvark — genus Orycteropus, order Tubulidentata — is much bigger than the Texas armadillo, also an ant eater. Our cars clear the Texas armadillo with ease. We —"

"Get to the point, Olsen! Texans only buy Cadillacs. We want to sell our cars in East Africa."

"Yes, sir. The aardvark measures five feet from nose to tail tip, but its height is not specified. It must require considerable ants for fuel. Now, our car is 158 inches over-all, and I don't need to say how many miles it gets to the gallon of petrol. But this could mean a change in design — more road clearance, perhaps. There are two unknown quantities. How wide are the roads . . . how tall is the aardvark?"

The Chief reaches for one of his many telephones. "Get me Carlsson, down in Tubulidentata — I mean Tanganyika!" he barks, and then bites on a cigar. "Damn him!" he says. "A wonderful driver. Why couldn't he have run over an elephant — or a lion — or even a giraffe?"

As an old sports car driver, it does seem to me that running over an ant eater is both unlikely and unfair. But back in the days of the old high-pressure tires, I knew of a ranchman who was driving through a heavy rainstorm and suddenly had a flat. His tire was punctured by the fin of a two-foot catfish, and how the catfish ever got out into a ranch pasture nobody ever knew.

When the ranchman told the story afterward, people listened for a little while and then cleared their throats and sidled away with a suspicious glance over their

shoulders. I imagine that Erik Carlsson will find the same thing, in the years to come, especially in England, where he has many friends and admirers . . .

"Come off of it, old chap!" they will say. "Really, now, what actually did happen on that 1963 International Motor Rally?"

Democratic freedom was fine for colonial America
 but what will we have in 1976?

THE PEOPLE WANT TO KNOW—
*character, freedom,
 and public schools*

Our schools, public, private, and parochial, must assume leadership in and a large measure of responsibility for character and citizenship training of our children. Many children get little of good example or helpful advice at home. Even devoted parents sometimes fail.

School attendance is compulsory. Every child can be reached. Trained teachers have ability, knowledge, and keen interest. Training children to become good citizens, good parents, and good neighbors is the great purpose of education.

A broad program of school training in character, conduct, and citizenship is vital to the preservation of our heritage of culture and freedom.

Fed Cattle Drop Prompts Examination Near Future Prospects

College Station — The recent drop in fed cattle prices has caused considerable concern among cattlemen as to the prospects for the near future, says Ed Uvacek, livestock marketing specialist with the Texas Agricultural Extension Service.

The average weights of cattle slaughtered under federal inspection so far this year, have been the heaviest since early 1961. This was caused by the low number of cows slaughtered along with heavier weights of fed cattle coming from feedlots, explains Uvacek.

Even though the nation's population and income levels continue to increase, the effect is not enough to offset the future increases in beef supplies.

Marketing of fed cattle will be very heavy in the West and the Corn Belt during the next three or four months, he says. The A-

pril — June quarter should be up about 10 percent from levels of a year ago.

Uvacek says the forecasts indicate strengthening fed cattle prices in the West during the late summer and fall.

In view of this situation, feedlot management should consider holding down on capital investments and should market fed cattle as soon as they reach the desired grade, advises Uvacek.

GENERAL TELEPHONE TOWNS ON THE MOVE

Bonham Initiative Saves mill Payroll

When the Bonham Cotton Mill announced it would close its doors finally in early 1962, that North Texas city stood to lose a 61 year old industry with a \$14,000 weekly payroll.

Bonham's vigorous enterprise in the face of crisis is another reason we say big things are happening in General Telephone towns.

These towns are on the move. Community improvements are under way, local resources are being developed, new businesses, new industries are coming in. If your town seeks additional information about expansion perhaps we can help. Just write our Community Development Department, Box 1001, San Angelo, Texas.

Aggressive citizens of the 7357 population community arose to the emergency. Today, little more than a year later, Red River Textile Mill, Inc., is not only continuing the operation of its predecessor, but is talking plans for an eventual major expansion.

 NEW SPORT**

Each spring, certain West
 Texas bands together in motorized

caravans to go rattlesnake hunt-
 ing.
 Although ridding the country of
 snakes is the primary objective,
 these men seem to enjoy this new
 sport.

The rattlers are driven from
 their dens by fumes from gasoline.
 Slithering to the openings for air,
 the snakes are picked up by the
 waiting hunters and dumped into
 steel barrels.

During a recent three day hunt,
 more than 10,000 pounds of rat-
 tlesnakes captured. These snakes
 ranged from 11 inches to 6 feet
 and weighed up to 9 pounds.

After their capture, the rattlers
 were Bar-B-Cued and served to
 the hunters and spectators.

**Through this cable
 flows power for progress**

A literal web of cables strung on highlines tie together
 all the communities we serve. Through these cables flow
 the electricity to light the darkness, to relieve housewives
 of home-making drudgery, to turn the wheels of industry,
 and to perform countless other tasks economically and
 continuously.

Because our service area is the center of one of the
 Nation's fastest growing regions, we are engaged in a
 long-range program of expansion. Generating and dis-
 tribution facilities are being enlarged to serve more people,
 more businesses, more industry.

That is why our product — electricity — is not only the
 power FOR progress, it is a symbol OF progress here in
 the Center of the Southwest.

HIGHLIGHTS AND SIDELIGHTS From State Capitol

Austin, Texas — A complete overhaul of the election code is due. Senate already has passed a bill correcting scores of errors in the old law, which was overhauled in haste in 1954.

House members amended the bill to eliminate the "agent form" of paying poll taxes. Instead, prospective voters would have to go to the court house or get a deputy tax collector to certify qualification to vote.

House also refused to require county tax assessors to name civic workers as deputies.

Progress is slow on the proposals to abolish the poll tax as a prerequisite to voting.

Senators passed a proposed constitutional amendment to let the people say whether they want to keep the poll tax. But after some delay, a House committee put it in subcommittee.

Meanwhile, the national constitutional amendment to outlaw the poll tax in election of President, Vice President, Senators and Congressmen has been ratified by 30 states. When eight more ratify it, use of the poll tax in Texas would be out the window.

Shortest Session? — A modern-day record for short legislative sessions may be set if Lt. Gov. Preston Smith and Speaker Byron Tunnell can get legislators to wind up their business by May 7.

A May 7 adjournment has been filed. But the Constitution would allow them to work until May 27 if they can't finish by the 7th.

Big Bills Pending — Length of the legislative session hinges on the three boggiest issues yet unsettled.

One is the House-passed tax bill to provide \$32,000,000 to finance Gov. John B. Connally's higher education, tourist and industry-catching programs.

Then there's the appropriations bill, which is being worked out in conference committee headed by Sen. Grody Haslewood of Amarillo and Rep. Bill Heatly of Paducah. It allocates the funds to each agency for spending during the next two years.

And there is the loan regulation bill, which Speaker Tunnell and Governor Connally consider a "must." It may be in trouble since the Senate bill, which mustered a bare majority, was changed considerably by a House subcommittee.

Securities Registration Up — State Securities Board granted investment permits in Texas totaling \$25,000,000 last month. February total ran only \$17,000,000.

Thirteen of the 42 companies granted the right to sell stocks in Texas were Texas firms.

House Bills — Beetles better beware if Conroe Rep. David Crew's bill to cause forest landowners to pay for their extermination becomes law.

Victoria Rep. Dick Cory's bill authorizing district judges to provide jurors' meals in the jury room rather than dismiss them, is ready for Governor Connally's signature.

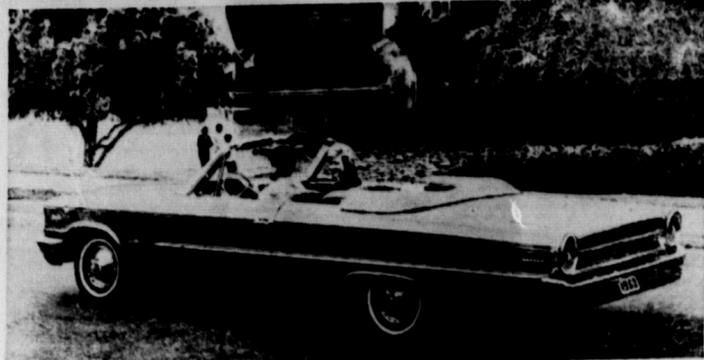

House endorsed a bill to require school boards to advertise for competitive bids on purchases totaling \$1,000 or more.

Kerrville Rep. Jim Nugent gained approval of his bill to set up strict supervision by the Secretary of State for charity fund-raising organizations which solicit \$10,000 or more a year.

Women's righters gained a small victory when the House passed bills, authored by Rep. George Cowden of Waco, to allow a woman to make contracts concerning her own property.

A bill by Rep. Don Kennard of Fort Worth to increase longevity pay for firemen and policemen across the state was given a second chance when Senate Counties Committee chairman Martin Dies Jr., of Lufkin "fired" a subcommittee that couldn't reach a decision on the bill and set up a new committee.

**Texas Counties
By As Modified
Poliosis Free**

Station — Nearly half counties in Texas now qualified certified brucellosis, and more are in the of certification, says Dr. Patterson, extension veterinarian at Texas A&M College.

They are granted a modified status when the disease is reduced to not more than five percent of the herd. For this testing cattle are tagged or identified with red ink.

cases of the human form disease, undulant fever, are all time low. Once reported thousands, only 500 cases reported in the U. S. in 1962. They still are expected during the year says Patterson.

Important part of the program is market testing, says Patterson. For this testing cattle are tagged or identified with red ink.

of the herd through sales records samples are taken at plants and if infected are discovered eradication is planned by the herd and veterinarian. At present 97 percent of the cattle in this manner are found to be free of the disease, he says.

But every day from April to December the island's 30-mile beach attracts thousands for all kinds of seaside pastimes.

**CONFUSED AND BEWILDERED
PRESIDENT NOW PROTECTING
COMMUNISTS**

By Congressman Bruce Alger
Dallas District

The United States, on Presidential order, is now taking a stand against free men and using our might to protect a vicious and bloody-handed dictator.

The end result of the confused and bewildered policies of President Kennedy must be the complete Communist takeover of Central and Latin America and Communist

encirclement of the United States. The brave actions of President Kennedy this week included the arrest of more Cuban exiles whose crime is wanting to free their homeland; a break with Dr. Jose Miro-Cardona, Cuban exile leader, and further efforts to curtail critics of Communist dictators Khrushchev and Castro in order that the Administration could make deals with the Soviet boss.

There is no reasonable explanation for the Kennedy failure to enforce the Monroe Doctrine or to refuse to demand the immediate

removal of all Russian troops and war material from Cuba. Whatever his motive, the actual result is appeasement of the Communists and history records that appeasement always results in victory for the Reds and defeat for us.

Last year the Kennedy Administration bought the Communist coalition as a solution in Laos. As we all knew, the Communists are at this moment, after breaking another agreement, taking over completely there.

What is the President's answer to this failure? He has rewarded the architect of the Laos disaster, Averill Harriman by promoting him to a higher position in the State Department where he will be responsible for mapping all our political relationships with the Communists.

An insertion in the Congressional Record by Congressman A. J. Arthur Younger of California notes the activities of Dr. Walt Rostow and McGeorge Bundy, close advisers to the President and apparent architects of a new U. S. policy reversing our support of anti-Communist exiles which is forcing Russian and Baltic exile groups to restrict their anti-Communist activities.

Before it is too late, President Kennedy should tell the American people now what secret deals are planned and who and what is behind the strange policies, or lack of policies, which continue to increase the strength and prestige of the Soviet Union and weaken United States leadership of the free world.
