## State Patrolman Talks On Safety At Rotary Meet

### E. H. Gilbert Appeals For Cooperation In Safety Drive

Fast, careless and discourteous driving are causes of 45 per cent of automobile accidents, Patrolman E. H. Gilbert of the State Highway Patrol, told members of the Rotary Club in a safety talk before that group at its regular luncheon Tuesday noon.

"These three terms mean about the same thing," the patrolman said. "A man wouldn't think of crowding and shoving a lady off the sidewalk when he meets her on the street, yet put the smallest most anemic and timid little fellow behind the wheel of an automobile and he becomes a holy terror on the highways."

Patrolman Gilbert illustrated his talk with a safety poster issued by an insurance firm, which contained accident statistics over a ten-year period.

The National Safety Council and the Austin bureau of the Highway Patrol know from these statistics just about how many persons will be killed in Texas today, this week or any week, how they will be killed and where. The only thing they don't know is WHO will be killed."

The patrolman quoted figures on the appalling loss of life and property damage from highway accidents, pointing out that an average of 100 persons a day lose their lives in auto accidents.

"If a foreign army should invade this country and wipe out the city of Del Rio," the speaker declared, "a few thousand persons would be killed and a few hundred thousand dollars in property damage would result. The people and their government would arise to a man, they would spend multiple billions of dollars to avenge the incident and to prevent its recurrence, yet 100 persons are killed in automobiles every day and everybody takes it as a matter of course."

Economic loss from auto accidents each year in this nation would build three Panama Canals, 25 to 30 Red Bluff and Buchanan dams, and finance all the educational facilities of the nation, Patrolman Gilbert declared. He urged the cooperation of all citizens in making the people safety conscious, to themselves set a good example in courteous and safe driving to the end that the accident rate might be materially reduced.

Sheriff W. S. Willis and Deputies R. E. McWilliams and Claude Russell were guests of the club.

## Santone Masons Confer Degrees For Ozona Lodge

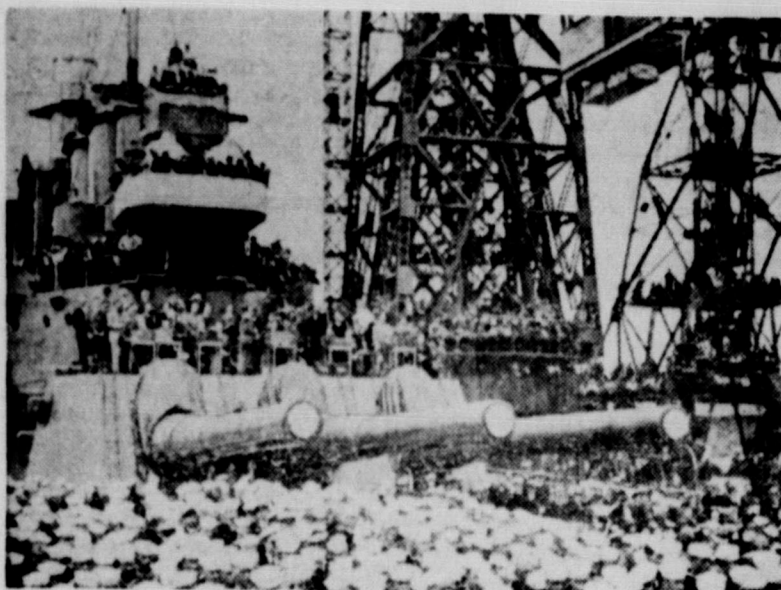

### Visitors Feted At Barbecue Supper Preceding Lodge Meet

Members of the Ozona Masonic Lodge saw an impressive exemplification of degree work here Saturday night when five members from the Scottish Rite bodies of San Antonio composed a degree team to confer a Master's degree for the local order.

Honoring the occasion of the visit of the San Antonio group, the Ozona lodge invited Masons from Sonora, Eldorado, Del Rio and San Angelo to attend the meeting. A barbecue supper was served at the fair grounds beginning at 7 o'clock, the group going from there to the lodge hall for the degree work.

Acting as master of the lodge during the work was E. A. West of San Antonio, 82 years old, a Mason for nearly 40 years. Others in the group from the Alamo City were Guy Cude, secretary of the Scottish Rite bodies, F. C. Rauber, Milton L. Smith and W. E. Pyne.

## Giant New Battleship Commissioned

The 35,000-ton super-dreadnaught, U. S. S. Washington, has now joined the United States navy. This view during the commissioning ceremonies shows part of the after-deck with crew members lined up under the great ship's 16-inch rifles.

## Reunion Of Old Timers, Barbecue And Roping Contests Suggested For July Observance County's Anniversary

### Suit Seeks To Clear Title To Shannon Lands

### 150 Defendants Cited In Action Involving 5 1/2 Sections

Another suit seeking to clear title to Shannon Estate lands in Crockett County was filed in District Court here last Saturday by attorneys for executors of the Shannon estate and trustees of the Shannon West Texas Memorial Hospital in San Angelo.

The suit, which names 150 defendants, involved title to 5 1/2 sections of Shannon lands just north of the Todd deep production field 15 miles northwest of Ozona. Tracks in blocks 8, 9, 10, 11 and BB are involved in the action.

The suit is an outgrowth of oil and gas leases made by J. M. Shannon to F. E. Miller in 1922. The leases were sold to Doc Young, who sold the acreage in small parcels to the many defendants named in the suit. A similar suit filed here last year and involving a large block of Shannon lands, named more than 500 defendants.

Defendants in the suit are being cited by publication to appear for hearing of the suit in 112th District Court at its next regular term opening September 15.

## Baptist Vacation Bible School To Start June 7th

In preparation for the opening of the First Baptist Church's annual Vacation Bible School Saturday, June 7, next Sunday has been designated as Lemon Sunday, Rev. Clyde Childers, pastor, announced this week. All who attend Sunday school are asked to bring six lemons for the school.

The annual Vacation Bible School is open to children of the entire community, the pastor announced, and a cordial invitation is extended to all to attend. An interesting schedule is being worked out and announcement of the program and teaching staff is to be made next week. A big enrollment day parade is planned.

## STORE NAME CHANGED

Involving nothing more than a change of name, Ozona's Piggly Wiggly grocery went out of the picture this week to become Baker's Food Store. Hubert Baker, operator of the store for the past four years, established it as a Piggly Wiggly store after its purchase from Richard Flowers. There will be no change in the policy of the store save the change in name.

## Move Gains Favor Of Old Timers For One Day Celebration

As a means of bringing together the old timers of Crockett County and at the same time making proper observance of the 50th anniversary of the organization of the county, to be celebrated this year, numerous suggestions have been heard from Crockett County citizens, principally the old-timers themselves, that a reunion of Crockett County residents and former residents, with a barbecue dinner, and a home-town rodeo to top off the day's festivities be arranged for sometime in July around the anniversary date of the county organization, July 22.

Appropriate ceremonies are understood to be in the planning stage for observance of the anniversary date with the marking of the county tree, the huge liveoak at the northeast corner of the town square under which the first Commissioners Court of this county held its first meeting. A bronze marker has been purchased by the Crockett County Historical Society to be installed under the big tree to designate its part in the formation of Crockett County.

The suggestion of an old-timers reunion and barbecue has come from several sources and although no definite plans have been formulated, these interested citizens declare their interest in such a proposal and are hopeful that such a plan will be formulated and carried out.

The community barbecue dinner, usually on the fourth of July, is an institution in Crockett County. Such dinners, especially with the attendant rodeo events and other attractions, have always amount to a reunion of Crockett countians, hence the suggestion for a dinner for the proposed 50th Anniversary Reunion.

One of the earliest community-wide entertainment features in Ozona was the roping contest. An old-timers roping contest, and contests for the present-day cow hands, with possibly a dance to climax the reunion day are among the program outlines submitted in the round of suggestions.

## FORMER OZONAN VISITS

Ozona has come a long way in 20 years, declares R. R. Stricklen, a former Ozonan who visited here last week for the first time in 20 years. Mr. Stricklen, representative of the Osborne Co. of Clifton, N. J. manufacturers of advertising novelties, has recently been assigned to this territory. He is a son of Mr. and Mrs. E. E. Stricklen, long time Crockett County residents, who ranched in the Juno sector before moving away in 1927.

The average oil well in Texas today costs \$25,000 to drill compared with \$15,000 in 1922.

## Child Suffers Concussion In Fall Of Horse

### Dick Lee McDonald Taken To Angelo Hospital After Mishap

Dick Lee McDonald, son of Mr. and Mrs. Bryan McDonald, was taken to a San Angelo hospital late Wednesday afternoon suffering from a brain concussion and other injuries resulting when a horse fell with him on the Davidson ranch shortly after 3 o'clock Wednesday afternoon.

Dick Lee and Charlie Boy Davidson, son of Mr. and Mrs. C. E. Davidson, Jr., were helping round up ewes and lambs in the horse pasture of the Davidson ranch east of Ozona. Two wool blind lambs cut out from the herd and the boys put them back. When the blinded pair of lambs again made a break both of the lads charged them to put them back in the drive and one of the lambs, blinded by wool growing over its eyes, ran under Dick Lee's horse.

The horse tripped on the lamb and fell with the boy. The lad fell clear of the horse but the animal rolled over him after both struck the ground.

The injured child was examined and given first aid treatment by local physicians and was taken in the Joe Oberkamp ambulance to the San Angelo hospital. He had not regained consciousness late last night.

Examining physicians declared that the boy had suffered a concussion, but at last reports his pulse had improved and he was thought to be in no immediate danger. He suffered minor bruises about the body but it was thought that he had escaped internal injuries.

## New Mexico Floods Fail To Bring Rise In Pecos River Here

Ranchers living along the Pecos River in this and adjoining counties watched with some concern the waters of that turbulent stream for several days early in the week following reports of unprecedented floods in the stream at Carlsbad, N. M., and other points up stream, resulting from heavy rains and melting snows in the mountains.

The river was said to have been a mile wide at Pecos City and news dispatches from that city predicted that the stream would inundate the oil field areas along its banks in Pecos and counties to the north.

The river, however, had failed to rise at all up to yesterday afternoon, according to reports from ranchers living near the stream. Heavy rains in the vicinity of Iraan late last week put the stream up some for a time but the rise quickly subsided, and it was believed that the New Mexico flood was absorbed before reaching lower reaches of the stream in Texas.

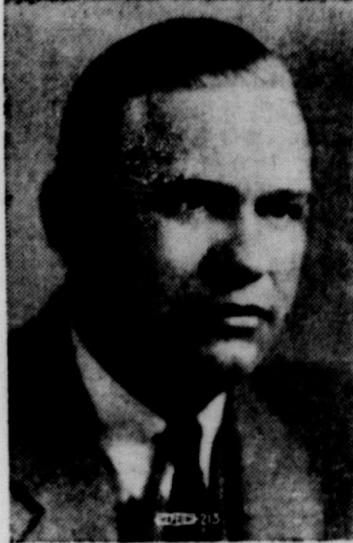

## Hastings, Okla., Needlecraft Club Comes In Body In Chartered Bus To Visit Mrs. Marley

Fourteen of the twenty members of the Hastings, Okla., Needlecraft Club with their driver arrived in Ozona Monday afternoon in a chartered bus to visit their former president, Mrs. Jesse Marley, who served ten years as president of the club while she was a resident of Hastings.

Members of the party went immediately to the Marley ranch south of Ozona where the Marleys were expecting them. Cots were spread on the big screened porch of the ranch home for the night and the days were spent in horseback riding and other entertainment typical of West Texas.

Tuesday Mrs. Marley entertained with an all-day party, with Mrs. Tom Smith, Mrs. Joe Pierce, Jr., Mrs. Victor Pierce, Mrs. Hugh Childress, and Mrs. W. R. Baggett joining in the festivities. Forty-two furnished diversion in the afternoon, after the barbecue dinner.

## Campaigns For Senate

Congressman Martin Dies

Martin Dies, Congressman from Orange, Texas, who has won nationwide fame as the hard-hitting chairman of the Congressional Committee on Un-American Activities, is making a determined campaign for the Senate seat made vacant by the death of Senator Morris Sheppard of Texas. Dies is considered among the top four candidates, including Attorney General Gerald Mann, Governor W. Lee O'Daniel and Congressman Lyndon Johnson.

## Cooke Marketers Off To Lead In Softball League

### Three Straight Wins In League Opens Give Team Advantage

Cooke's Marketers stepped off in the lead in the 1941 nocturnal softball war with three straight wins at the expense of the other three teams, taking each in stride.

The Williams Grocers and Humble Oilers have played only two games each, and won one and lost one each, Williams having defeated the West Texas Utilities Kilowatts in the league opener last week only to lose to the Cookies last Thursday night. Humble also lost to Cooke, but got back in the running last night by trouncing the lowly Utilities crew 16 to 11 in a play-off of a game rained out last Friday night.

The Utility magnates are off to a bad start with three straight losses, one each to the other three teams. But manager H. C. McCaleb promises a dark horse for the next melee. Williams and Humble are one game short in the schedule by reason of postponement of the game slated Tuesday night for President Roosevelt's speech.

Softball games are played under the lights each Monday, Tuesday, Thursday and Friday nights.

150 beautiful girls on the stage and in the water at the Ft. Stockton Water Carnival, June 13 and 14. 8-2tc

## Drilling Starts June 10 On New Water Well Here

### 12 1/2-Inch Hole To Be Sunk For New Type Rotary Pump

With contract awarded after advertising for bids, drilling is scheduled to start June 10 on a 12 1/2 inch well atop the water works hill seeking water in sufficient quantity for installation of a modern rotary type pump to provide ample water for the city water works system.

Contract for drilling the well was awarded to J. C. Crowder of San Antonio. The contract is to be a turn-key job, with 12 1/2 inch hole cased with 10-inch casing. The 10-inch casing to be set on bedrock, which officials of the Water Control and Improvement District hope will be encountered at about 200 feet.

Crowder will start drilling by June 10 and will be allowed 35 days from that date to complete the well. Equipment will be brought here to test the well to capacity, the test equipment being capable of bringing up the water at the rate of 500 gallons per minute. A well with 300-gallons per minute capacity is the best local officials expect, however, according to J. W. North, chairman of the Water Control board. Such a volume would be more than sufficient to supply Ozona's needs.

The vein of water from which Ozona's present supply comes is at a depth of 420 feet. As soon as the well is completed and tested, a rotary type pump is to be purchased and installed to insure an unlimited supply of water for the city. The pump is to be operated by electric motor on the surface, with a shaft to the bottom operating the centrifugal pump, which throws a continuous stream of water.

With completion of this step in the improvement program for the (Continued on Last Page)

## FDR Sets July 1 Registration Day For 21-Year-Olds

### Those Becoming 21 After Oct. 16, Required To Register

Estimates place at 25 to 50 the number of young men in Crockett County, who have reached the age of 21 since registration day on October 16, 1940, or will reach that age by July 1, who will be required to register under the Selective Service Act under President Roosevelt's proclamation issued Monday fixing July 1 as the new registration day.

The July 1 registration will be conducted by the 6,500 Selective Service boards throughout the country and the new men signed up are expected to be placed at the bottom of the local draft lists in an order of priority among themselves to be determined by another national lottery to be conducted in Washington some time after registration.

In the proclamation fixing the registration date, the President said the action was required in the interests of the national defense and defined those who will have to register as all unregistered male citizens and aliens who have attained their twenty-first birthday on or before July 1.

The manner of integrating the new registrants with the first group of draftees in each local area has been under consideration by Selective Service officials in Washington for some time. It was suggested that the new registrants be sandwiched among the previous registrants by lottery, but as press dispatches indicated it more likely that the new registrants would be added to the bottom of the lists and taken in order.

OZONA STOCKMAN

Any erroneous reflection upon the character of any person or firm appearing in these columns will be gladly and promptly corrected up on calling the attention of the management to the article in question.

THURSDAY, MAY 29, 1941

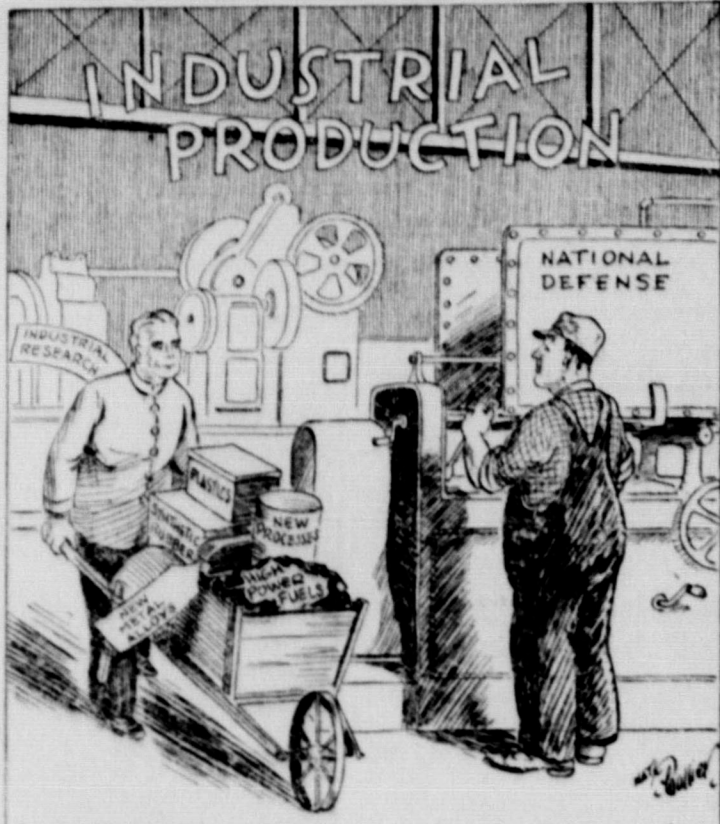

PRIVATION AND PRIVIES

The national defense effort is the first job before the American people at the moment and no one can afford to waste time talking about things that already have happened, said Albert W. Hawkes, newly elected president of the Chamber of Commerce of the United States, recently.

It looks now as if the country is licking the defense production problem—substantial quantities of war materials of all kinds are pouring out of our factories, and in the opinion of competent authorities we will soon be producing more of them than any other nation.

At the moment, a new tax bill of unprecedented severity is in the headlines. But relatively little is heard of something which is every bit as important—a program to reduce government costs in non-defense activities to ease the tax burden. Certainly, it cannot be argued that such retrenchment is impossible.

THE EXTRA HELPER HE NEEDS

INDUSTRIAL RESEARCH is contributing in ever increasing measure to the defense production of the nation.

THIS BUSINESS OF Living

It's the Individual That Counts

We're talking in big numbers these days as industry gets into its stride in making America strong: 1,400 planes a month now, with a goal of 4,000 before the year is over.

The figures mount up until we are dizzy. But back of the spectacle of America rousing like some great giant to defend herself is the individual—the man who must give almost unbelievable personal care and precision to the making of the machines which will be our chief protection.

For instance, there must not be so much as a scratch on a certain vital casing of an airplane engine. So an individual polishes it and polishes it again with more care could be eliminated.

Congress cannot escape this responsibility. Congress can no longer listen to those who ask for swimming pools for towns and privies for individuals. We are starting this defense program with a \$50,000,000,000 "pre-defense" debt on our backs.

than as if it were a jewel and then tests it with the "Magnaflux" which can discover hidden flaws. Another individual who is skilled with a micrometer must measure to a hair line every moving part of this beautiful machine.

So, in the final analysis the production of machines for defense is up to the individual craftsman. In the final analysis, our Democracy is also a matter for separate human beings—for you and me and the man and woman down the street who must believe in it with all our hearts and defend it by this belief as well as by the things we say and do.

It also requires something of us individually. We dare not leave its protection to the vast mechanized army we are building or to the government in our state capital and in Washington or even to our great free industrial system which has gone "all out" in service to the country.

We must each one of us learn what our Democracy means—and what it does not mean. We must think about it, talk about it and see that it works in our own home and in our own neighborhood, and our own town and make sure that no one imposes on any of the fundamental freedoms of ourselves or our neighbors.

SALAAM TO SCIENCE

Very often we get impatient with science. It hasn't found a way to cure the common cold or eradicate tent caterpillars. But now we hail a really important forward step—the potential eradication of the pest who leans on his automobile horn to summon his girl friend from her home.

Japanese scientists believe they have about perfected an edible paper. Could this be a naive oriental way of saying Japan is about to eat its words?—Indianapolis News.

MERRY CHRISTMAS!

Neighbor: "Jones is planning a Christmas celebration. I see they're carry in a yule log." "That's not a yule log; that's Jones."

The Stockman Pulpit

By REV. EUGENE SLATER, Pastor Ozona Methodist Church

"All things work together for good to them that love God."—Romans 8:28.

You have observed how two people, confronted by the same set of circumstances, will react in entirely different ways, haven't you? I once knew two brothers who received an equal inheritance.

Consider another set of circumstances. Two persons are compelled to give up an active life because of ill health. One frets over her illness, bemoans her fate, and makes everyone around her uncomfortable.

Here is a third situation. Two men are cast into prison for holding convictions that their state believes to be subversive to its interest. One of them, resentful of his predicament, grows bitter and sour, and therefore becomes useless so far as helping his fellows achieve a better life.

How is it that some people are able to take the good things and the bad things of life and come through with clean, honest and unselfish lives? Money does not rule them, ill health does not embitter them, sorrow does not rob them of their joy.

Come into each of our hearts, O God, that we may have that quality of spirit that will enable us to take each experience that life brings and rise to new heights with Thee.

IF HE KEEPS QUIET

A man without a single idea is less of a bore than a man with only one idea.—Columbia State.

More than 50,000 Texas oil wells have to be pumped in order to produce oil.

BLOCKADE-RUNNING, 1941

In the War Between the States, a problem for the North was created by the "specters of the seas"—the blockade-runners which for years evaded Yankee warships to Southern cotton to European ports and exchange it for materials of war.

be intercepted successfully when the Germans were able to send out considerable numbers of planes in that area to harry commerce. The chances are very much less that solitary transport planes over an untraveled part of the Pacific would be halted.

6,391 COYOTES TRAPPED

Trappers employed by the Texas Game Department reduced the coyote family in the Lone Star State by 6,391 during the last 90 days, the executive secretary of the Game Commission announced.

Trapping of coyotes is carried on in regions where it is believed the coyotes are so numerous that they are doing considerable damage to game. It is recognized that it is practically impossible to completely eradicate coyotes, but the work the department is doing along those lines helps keep the predators under control.

Coyotes are trapped by the Game Department at an extremely low cost. It amounts to 50 cents per animal plus the slight cost of the traps.

YOURS . . . almost as a gift More Adventures of Ellery Queen

Famous detective of book, screen, and radio

You will be held breathless by these five startling, fast-moving mystery stories. Daring, clever, extraordinarily exciting, they are among the most amazing adventures of the famous detective: The Adventure of the Teakwood Case, The Adventure of the Two-Headed Dog, The Adventure of the Glass-Domed Clock, The Adventure of the Seven Black Cats, The Adventure of the Mad Tea Party.

A WARNING to Ranchmen!!

It has come to my attention that certain persons are going about the ranches of Crockett County representing themselves as agents for Mike Couch, seeking to buy dead wool, sacks, cattle and other things.

I am hereby notifying all persons that I have no representatives in the field, and unless you have previously been notified by me in person, you may be certain that anyone thus representing themselves are impostors, probably planning to steal something from your ranch, and should be escorted from the pasture.

MIKE COUCH

GROCERIES FILLING STATION PHONE 154

### Side Glances on Texas History

By Charles O. Hucker  
University of Texas Library

#### ZEBULON PIKE, WHO SAW TEXAS, TOO

Three events of national significance which occurred early in the Nineteenth Century brought Texas to the attention of the people of the United States for the first time and established the roots of their interest in the territory—that interest which soon was to bring about its settlement, later its liberation, and at last its annexation to their own Union.

The first of these events was the Louisiana Purchase of 1803, which caused a border dispute between the United States and Spain which was not settled until 1819. The second was the exposure of Aaron Burr's plan to set up an independent republic in the Southwest, resulting in his trial for treason in 1807. And the third was the exploring activity of Capt. Zebulon M. Pike of the United States Army.

Many Texans who have traveled into the West have seen Pike's Peak in the Colorado Rockies, and most Texans know something of the discovery of it. But records in the University of Texas Library reveal that Pike also traveled across Texas and was the first man to give Americans first-hand information about its soil, climate, wild life, people and government.

#### PIKE'S ADVENTURES

In 1805-06 young Pike had led an expedition into the Northwest in an attempt to trace the Missouri River to its source, and in July, 1806, led out another along the Arkansas River. He reached what is now Colorado, discovered the peak which has been named for him, got lost among the Rockies in the dead of winter, wandered southward into New Mexico, was picked up by Spanish soldiers and at Santa Fe was politely informed that he and his men were to be held in protective custody as trespassers on Spanish soil.

From Santa Fe the party of less than 20 was taken to Chihuahua, a provincial capital, where Pike was thoroughly investigated and questioned. A number of his papers were taken from him. Then at last, in the early summer of 1807, he was dispatched homeward, across country to Louisiana, still under Spanish escort.

On June 2 Pike crossed the Rio Grande ("Rio del Norte") near the present city of Laredo. On June 7 he reached "St. Antonio," capital of the province of Texas; on the twenty-fourth he passed through Nacogdoches; crossed the Sabine River on the twenty-ninth and on July 1 arrived in Natchitoches, La., safe within the undisputed boundaries of the United States once again.

#### HIS INFLUENCE

Three years later he published a book of his experiences, "Exploratory Travels Through the Western Territories of North America," which was in the main a diary but included a copious appendix of "geographical, statistical and general observations" on the lands he had seen. It was very popular.

Of Texas, Pike had much to say. He estimated its population as 7,000; described "St. Antonio" and Nacogdoches, its only towns; admitted he knew nothing of its history; spoke of its climate as "one of the most delightful in the world"; remarked that its government and laws were almost "perfectly military" and described its most prominent citizens.

### U. S. Loan to China

Signing of a stabilization agreement involving the purchase of Chinese yuan by the U. S. stabilization fund to the amount of \$50,000,000 was another important step in the monetary co-operation between the United States and China. Photo shows (seated) Henry Morgenthau Jr., secretary of the treasury, and T. V. Soong, representing China. Standing: Dr. Hu Shih, Chinese ambassador.

"Taken generally," he summed up, "it is one of the richest, most prolific, and the best watered countries in North America, for the residence of man, and the production of the necessaries of life."

At last, then, Americans could say that they knew something about Texas, and it was an enticing picture that they saw. Without it, the colonization that followed in a dozen years might not have been so well supported in the United States as it was. But Zebulon Pike fell in the War of 1812 and never knew what was to happen in the rich new land whose possibilities he had broadcast to his people.

#### 100 YEARS AGO IN TEXAS

"Received per steamer Columbia, 3 casks Madeira Wine, 20 boxes Claret Wine, 20 boxes Cherries, 10 bbls. fresh Beans, for sale by Gazley and Robinson."

"We have just learned that Col. Wm. G. Cooke has returned to Austin. He has completed the military road as far as the Trinity."—Telegraph and Texas Register (Houston), February 24, 1841.

Don't miss the Fort Stockton Water Carnival, June 13, 14, 15, 8-2tc

#### FIVE SETS OF TWINS

MORRISTOWN, Pa. — Mrs. Charles Mitchell, farm wife, recently gave birth to her fifth set of twins and her twentieth child. Fourteen of the children are living, but only one of the four previous pairs of twins survived. Her oldest child Richard, is 22.

#### FREAK ACCIDENT

TACOMA, Wash. — Gus Monsele, a longshoreman, was struck on the head by two falling sacks of wheat. His injury—a fractured ankle.

#### ONE HOOK—5 FISH

SHREVEPORT, La. — When a fish snapped up the bait, C. E. Whitney threw into Cross Lake. Whitney was surprised to draw up, not one fish, but five, on his line. Some one had lost a string of fish and one of them had taken the worm on Whitney's hook.

#### RATTLERS CAN KILL QUICKLY

That rattlesnakes can be deadly and that their poison can act very quickly is reaffirmed by a report of a Texas game warden. While patrolling near Pearsall recently the warden saw a large calf reach down to take a bite of grass, jump and then run toward him. The calf dropped within ten feet of the warden after running seventy-two paces and was dead within five minutes. Two cowboys nearer the calf than the warden when it was struck found a six and a half foot black diamond rattler which had fourteen rattlers. The warden killed it.

The snake evidently had not struck at anything for some time and its poison sacks were filled with venom. The warden's report concluded: "It is not because boots are pretty that the Southwest Texas game warden wants to wear them while patrolling."

### Australian Prime Minister Arrives

Robert G. Menzies, prime minister of Australia, and companions, pictured as they arrived in New York, from Europe, on the Pan-American Dixie Clipper. Left to right: Menzies; Frederick Shedd, secretary of Australian-British defense co-ordination department; and John Storey, member of Australian-British aircraft production committee.

Chris Dotie Perner, son of Mr. the barn late Sunday evening and Mrs. Stephen Perner, fell off broke his arm.

### Increase in Texas Traffic Deaths Is Recorded in April

AUSTIN, May 28—Overshadowing the 34 per cent reduction in the number of Texas traffic fatalities recorded in March of this year over March, 1940, the month of April this year showed a disheartening increase of 24 per cent over April, 1940, Col. Homer Garrison, Jr., State Police director pointed out today.

The number of deaths last month was 141, compared with 114 the same month last year, showing an increase of 27 deaths.

However, the number of traffic fatalities for the first four months of this year as compared to the same period last year, shows 573 persons were killed in 1941 and 563 in 1940, for only a 2 per cent increase. The total fatal accidents in towns under 2,500, and on the open highways increased 20 per cent. Larger cities decreased their fatal accidents 2 per cent,

and county roads showed a 23 per cent decrease in accidents where fatalities occurred.

Colonel Garrison attributed a large portion of the increase in fatal accidents to the wet and muddy conditions of highways and streets prevailing in Texas during most of April.

### Matrimony Aim 98 Per Cent TCU Coeds

FORT WORTH — A husband and an average of 2.4 children within 10 years after graduation is the goal of 98 per cent of the coeds at Texas Christian University, a survey shows.

Slightly more than one-half of the girls placed \$40 weekly as the minimum income per couple on which they would marry. Only 15 girls indicated their willingness to try married life on less than \$25 a week, and there were but 26 who demanded more than \$75 a week income.

### Spectacular Show Promised By Fort Stockton Aquacade

FORT STOCKTON, May 28 — With rehearsals under way for the Fort Stockton Water Carnival's "The Aquacade of Comanche Springs," this year's presentation of the now famous over-water show promises to be even more spectacular and more beautiful than that offered last year. Combining a striking and novel stage revue with water ballets, the forthcoming presentation of "The Aquacade" will offer a new and varied form of entertainment for the many thousands of visitors expected.

Every indication points to a wonderful response from the entire Southwest to this colorful and outstanding water spectacle. A bigger and more varied street parade will again open this year's Carnival Friday, June 13 at 3 p. m., and the famous University of Texas Swimming Team will give daily swimming and diving exhibitions Friday and Saturday, June 13 and 14. Amateur swimmers from all over the state will compete for handsome trophies to be awarded winners in the various events. Entries are being received daily for the all-southwestern bathing revue, to be held Saturday, June 14, to choose "Miss Southwest of 1941" and many participants from all over the Southwest are expected to compete for that coveted title.

Additional seats are being erected to accommodate the thousands of spectators who will witness "The Aquacade of Comanche Springs" and reserved seats will insure a good view for all present.

### To Get Honorary Degrees From T. C. U.

Five prominent Texans will be awarded honorary degrees by Texas Christian University at the 67th annual commencement exercises Monday, June 2. Three will receive the LL. D. degree and two the D. D. degree. The three LL. D. awards will go to Dr. Joe L. Clark, Sam Houston State Teachers College, Huntsville; Judge Bruce Young, Forty-Eighth District Court, Fort Worth; and J. W. O'Banion, Assistant Superintendent State Department of Education, Austin. Receiving honorary D. D. degrees will be Rev. M. E. Sadler, minister of the Central Christian Church, Austin, and president-elect of T. C. U.; and Rev. W. W. Phares, minister of the South Dallas Christian Church Dallas.

### War-Curtailed Shipping Facilities Plus Augmented World Demand Keeps U. S. Wool In Strategic Position

#### World Supply Sufficient If Shipping Is Available

Editor's Note: The following summary of the domestic and international wool situation was prepared and released by Earl Newson & Co., New York, American representatives of the International Wool Secretariat.

Despite the fact that domestic wool production averages annually less than the total annual U. S. requirements, wool supplies available in Australia, New Zealand, South Africa, Argentina and Uruguay are more than sufficient to meet the U. S. requirements for 1941, provided shipping facilities remain unimpaired.

During 1939-40, wool imported from Argentina, Uruguay and South Africa totaled 215-million pounds. This amount will be augmented in 1941 by a large proportion of the 180-million pounds which prior to the outbreak of the war and the consequent British blockade, was imported from South America by countries in the Axis area. In addition, there will also be available for U. S. consumption, in the event of extreme emergency, the 250-million pounds of Australian wool now being stored in warehouses throughout the country as a strategic reserve.

From all foreign sources, the U. S. will have a potential supply of more than 600-million pounds. If domestic production this year equals the record 1940 production of approximately 450-million pounds of shorn and pulled wool, there will be available more than one billion pounds for U. S. needs.

During the first quarter of 1941, about 50 million pounds of the Australian strategic reserve wool were received in this country.

#### WOOL FOR BRITAIN

The age-old importance of wool as a means of preserving the health of a nation is emphasized in recent reports from the British War Relief Society. Bundles for Britain and the Canadian Maple Leaf Fund, well-known war relief organizations now active in this country. Since the start of the war, the British War Relief Society has shipped to England approximately 36,000 cases of clothing, consisting chiefly of wool garments, and 550,000 pounds of wool for knitting. Bundles for Britain has shipped a total of a million and a half garments and blankets, most of them wool. The Canadian Maple Leaf Fund in the last two months shipped close to 8,000 large wool blankets and estimates that it will send a minimum of 50,000 blankets for the year.

These wool garments and blankets reach regular distribution centers throughout England. From these centers they are delivered by voluntary workers to heavily raided areas where they are distributed to needy men, women and children bombed from their homes. The garments are of every kind and description. They include coats, dresses, sweaters, shoes, pajamas, gloves, socks, helmets, etc.

#### STANDARD CLOTHING SIZES PROPOSED

Citing the progress achieved in the United States by standardization of garment sizes, particularly in relation to women's clothing, a recent report issued by the British Standards Institute proposes a

similar standardization of garment sizes for men, women and children, and for household textiles in England.

The report pointed out that such a plan would result in conservation of stocks, regulated and informed purchasing and economies in manufacture, distribution and consumption by the elimination of superfluous types and sizes which add to the cost of the consumer and give rise to wasteful methods of production and distribution.

#### CLOTHING PRICES UP IN ENGLAND

Retail prices of clothing of the types usually bought by English workers and their families were 65 per cent higher in February of this year than in September of 1939, according to a Ministry of Labor report, and they were 3 per cent higher than during January of 1941. The average increase during January was approximately 3 per cent for men's suits and overcoats and about 4 per cent for woolen materials, underclothing and hosiery.

#### WOOL FOR THE U. S. NAVY

Purchases by the U. S. Navy dur-

ing the fiscal year of 1941 include the following woolen articles: 1,705,000 yards of 16-ounce melton; 810,000 yards of 30-ounce melton; 805,000 yards of 11-ounce flannel; 292,000 heavy undershirts; 201,000 bathing trunks; 336,000 black woolen socks; 1,050,000 natural wool socks; 183,000 jerseys; 211,000 blue wool gloves; 286,000 heavy drawers; 219,000 watch caps; 440,000 white blankets.

Many valuable products are now made from the exhaust gases of Texas petroleum refineries.

## Wedding Plans June 17 Of Miss Totsy Robison And Fred Hagelstein Are Told At Bridge-Breakfast Tuesday Morning

Mrs. P. T. Robison, assisted by Mrs. Paul Hallecomb and Mrs. C. O. Walker, entertained Tuesday morning with a bridge breakfast to announce the engagement of Miss Totsy Robison to Fred Hagelstein. The party was held at the home of Mrs. Robison. The bride elect is the daughter of Mr. and Mrs. P. T. Robison of Ozona. Mr. Hagelstein is the son of Mrs. Mamie Hagelstein of San Angelo, and operates a ranch south of Ozona.

Yellow and white, favorite spring colors, were carried out in the decorations throughout the house. White shasta daisies centered the buffet and white candles burned at each end. The dining table was laid with a white lace cloth and centered with a large bowl of white carnations. A basket of queen anne's lace, blue and pink larkspur, and sweet peas stood in front of the fire place. The mantle held bowls of yellow California daisies. White magnolia blossoms were arranged throughout the reception room and occasional tables held bouquets of sweet peas.

Breakfast was served at seven individual tables where members of the 20th Century Club and

guests were entertained at bridge. Each guest was presented with an announcement. The approaching marriage was announced on white parchment scrolls, to which tiny orange blossoms were attached with white and yellow ribbons. The announcement read: Marriage License to be issued to Totsy and Fred, June 17, 1941.

Several gifts were presented the honoree by the hostesses.

Miss Wanda Watson won the bingo game and Mrs. Jake Miller, club, and Mrs. Richard Flowers, guest, won high score awards.

Those present were Mrs. George Bunker, Mrs. Joe Clayton, Mrs. Dempster Jones, Mrs. J. B. Miller, Mrs. Jake Miller, Mrs. Vic Montgomery, Mrs. Bill Baggett, Mrs. Massie West, Mrs. Alvin Harrell, Mrs. Bill Littleton, Mrs. Ele Hagelstein, Mrs. Richard Flowers, Mrs. Hugh Childress, Jr., Mrs. Henry Carden, Mrs. Sherman Taylor, Mrs. Hillery Phillips, Mrs. Arthur Phillips, and Misses Catherine Childress, Wanda Watson, and Mildred North. Out of town guests were Mrs. Mamie Hagelstein, Mrs. John Shepperson, and Miss Mary Louise Hagelstein from San Angelo, Mrs. Kenneth Lee, Del Rio, and Mrs. C. O. Walker, Lueders.

## Miss Dixie Davidson To Wed Baton Rouge Man In Houston Sat.

Miss Dixie Davidson, daughter of Judge and Mrs. Charles E. Davidson, will become the bride of Robert John Meybin, Jr., in a wedding ceremony to be performed in Houston Saturday of this week.

Mr. Meybin, a son of Mr. and Mrs. R. J. Meybin of Roanoke, Va., is employed as an electrical engineer with Dupont de Nemours, Inc., in Baton Rouge, La., where the couple met. Miss Davidson, a graduate of the University of Missouri, spent the past year in Baton Rouge as district sales manager for an investment firm.

Judge and Mrs. Davidson, Mrs. Mark Garver of Bethlehem, Pa., Mr. and Mrs. Charles E. Davidson, Jr., and other members of the bride's family are planning to accompany her to Houston. Mr. Meybin, with friends from Baton Rouge, to meet them in that city for the wedding.

After a brief honeymoon trip following the ceremony, Mr. and Mrs. Meybin will be at home in Baton Rouge.

Mr. and Mrs. Buddy Moore are the parents of a baby boy born in San Angelo at 9:30 o'clock Sunday morning. He weighed 7 pounds and 11 ounces and has been named John Scott.

## Mrs. Jesse Morley Saturday Hostess To 20th Century Club

Mrs. Jesse Morley was hostess to the 20th Century Club Saturday afternoon at Rendall's Drive Inn. Mrs. Sherman Taylor, guest, and Mrs. Paul M. Hallecomb, member, received the high score awards. Mrs. James Baggett won the bingo game.

Iced Coca-Colas were served between games and a salad plate was served to the following guests, Mrs. C. O. Walker, Mrs. Sherman Taylor, Miss Mildred North, and Mrs. Virgil Cauthorn of Juno, and members, Mrs. Dempster Jones, Mrs. Johnny Miller, Mrs. Bill Childress, Mrs. Paul M. Hallecomb, Mrs. James Baggett, Mrs. Joe Clayton, Mrs. Peas Childress, and Miss Totsy Robison.

## ENTERTAINS CIRCLE

Mrs. J. P. Pogue was hostess to members of the Annie Sallee Circle of the Baptist Missionary Society Wednesday afternoon. The group enjoyed a Royal Service program. Present were Mrs. Cleophas Cooke, Mrs. Lloyd Johnson, Mrs. Pink Beal, Mrs. Joe Billy Keeton, Mrs. Ben Williams, Mrs. Jones and Mrs. Pogue.

## MISSIONARY

The E. A. Nelson and Lottie Moon Circles of the Baptist Missionary Society met Wednesday morning in the home of Mrs. J. S. Whatley for a Royal Service program. The topic for the day was "An Urgent Gospel to Direct Youth." Mrs. S. L. Butler directed the program with Mrs. J. T. Keeton, Mrs. Claude Hill and Mrs. J. T. Patrick taking parts.

## Mexican Army Doctors Study U. S. Methods

Mexican army medical officers visit a Chicago draft induction station to study U. S. army methods. From left, Capt. L. Johnson of the draft center. Mexican army men, Majors Salas, Vera and Sanchez; Lieutenant Colonel Ramos and Major Gomez. Captain C. Buczynski, of the draft center. Major Zapata of Mexico. Seated: R. Forsythe, a selectee.

## Monahans Expects 4,000 Visitors At Meet June 1st

MONAHANS, May 28 — More than four thousand visitors are expected here June 1 for the second annual West Texas Air Meet, to be staged at Agey Field under sponsorship of the Junior Chamber of Commerce. A large number of amateur and commercial pilots from West Texas and Eastern New Mexico will compete in the show, advance reports indicate.

Two parachute jumps are scheduled for the day, along with a large number of other contests and events. A mass flight of about 100 planes will be made over the city preceding the afternoon performance.

See "The Aquacade of Comanche Springs" at the Ft. Stockton Water Carnival, June 13 and 14. 8-2tc

Fred (Happy) Currie, son of Mrs. Ola Currie, is in Eldorado to spend a few weeks visiting his grand parents.

Mrs. C. O. Walker and baby daughter are in Ozona visiting Mr. and Mrs. P. T. Robison, Mrs. Walker's parents.

employed in construction of the new home for Dr. and Mrs. H. B. Tandy.

Mr. and Mrs. W. E. Bellino of San Antonio are making their home in Ozona. Mr. Bellino is a carpenter employed in construction of the new Tandy home on the Heights.

## TANDY HOME STARTED

Construction has started on the new home being built for Dr. and Mrs. H. B. Tandy. The home is being built on one of the lots Dr. Tandy owns on the Ozona Heights, top of the hill east of the school buildings. The residence will contain five bedrooms and two baths, with asbestos siding and shingles.

Mr. and Mrs. Joe Pierce, Jr., are here this week from their ranch near Van Horn.

It takes 163,600,000 miles of wire annually for about 160,000 uses in the daily life of the United States — everything from paper clips to piano wire.

### Health Department Warns Of Threat Of Infantile Paralysis

AUSTIN — "Infantile paralysis can be expected to occur more frequently during the next three or four months," declared Dr. Geo. W. Cox, State Health Officer. "This disease is always more frequent during the hot months.

"The germ responsible for infantile paralysis is so small that it escapes detection even with the most powerful microscopes. The first symptoms are usually vomiting, headache, fever, stiffness of the neck, pain in the legs, irritability and drowsiness. Complete recovery may follow such an illness. In more severe cases, the germ penetrates the nervous system, resulting in paralysis of nerves controlling one or more groups of muscles. Some remarkable recoveries have been noted.

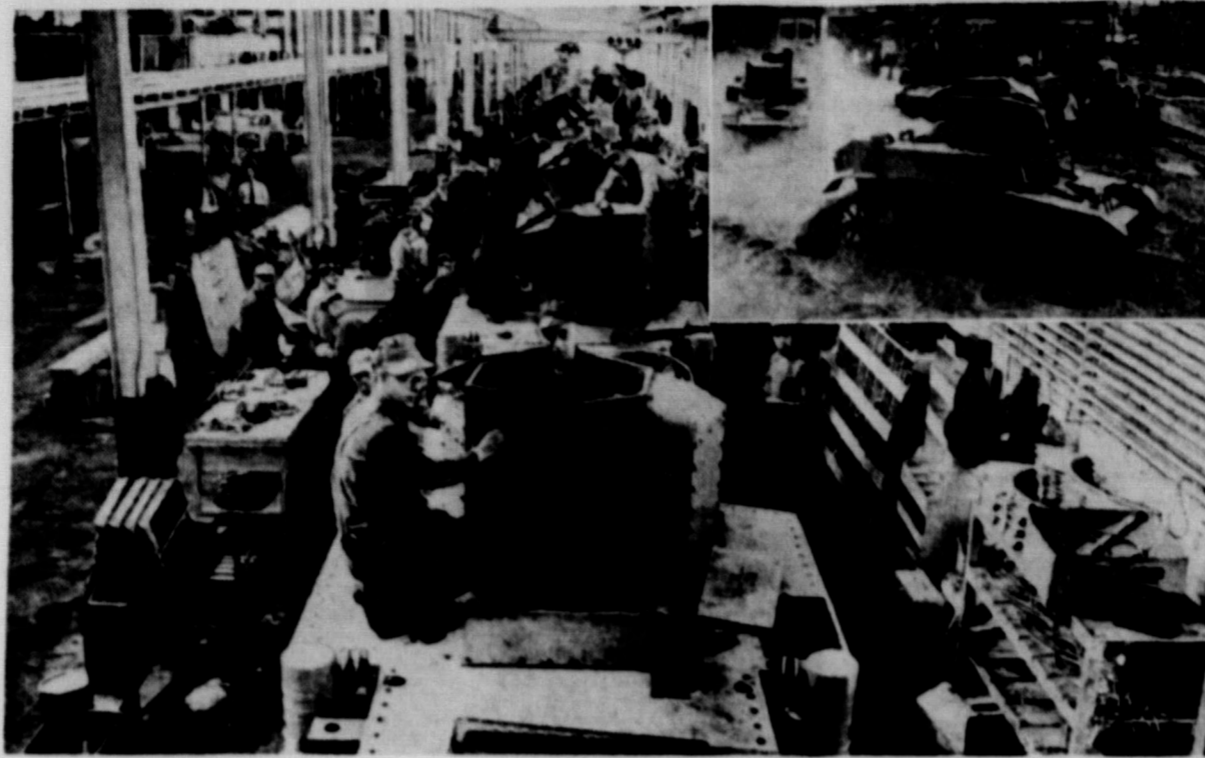

"Flies or other insects have not been demonstrated to play a part in the spread of this disease. Infection spreads from person to person with the droplets attending coughing and sneezing. Children and grown people who are healthy may be carriers of the germs. When present in epidemic form, about one child in each hundred is likely to suffer an attack.

"Early recognition and diagnosis are essential. The use of immune serum may be a factor in preventing paralysis. A period of complete rest is essential for muscles that are affected."

### U. S. Marine Corps Seeks Recruits At Houston District

HOUSTON, May 28—The U. S. Marine Corps has established a Recruiting District of Houston, with headquarters located in rooms 209-10, Seaman Bldg., Houston. This district is composed of the entire southern part of Texas, extending eastward from El Paso to the Louisiana state-line and southward to Mexico. Sub-stations are located in the Post Offices of Beaumont, Austin, and San Antonio. This new district was established to facilitate the recruiting efforts of the Marine Corps, according to an announcement by Major F. R. Worthington,

## Turning Out Tanks in Quantity Lots

One of the large cogs in the U. S. defense machinery is this production plant of the American Car & Foundry company at Berwick, Pa., where tanks are turned out by mass production methods. Here is an assembly line with tanks reaching as far as the eye can see, while workmen put on the finishing touches. (Inset) New tanks leaving the plant for their first road test.

USMCR, officer in charge.

There are numerous vacancies open in the Marine Corps and the Marine Corps Reserve for young men of military age. Enlistment in the regular Marine Corps is four years. These two classes of service in the Marine Corps are identical with the exception that the active duty in the Reserve is for the duration of the national emergency only. Upon its termination reserve members will be ordered home. The general qualifications for enlistment are: Between the ages of 17 and 30, white, single and without dependents, physically sound and of good moral character, with at least common or grammar school education.

Young men enlisted will be transferred immediately to San Diego, Cal., where they will receive their basic military training. Upon the completion of this training they are offered a ten day furlough and are granted five days additional for every new man brought into the service, by them, while on furlough.

Mr. and Mrs. Jerry Pace of Austin has been visiting Mrs. Pace's parents, Mr. and Mrs. Monroe Baggett.

Mr. and Mrs. Joe Friend of Dryden are visiting Mr. and Mrs. Bruce Drake.

Boyd Lovelace was in San Angelo Monday on business.

### METHODIST CHURCH

### Behind The Scenes In American Business

By John Craddock

NEW YORK, May 26—PRICE PATTERN—Thus far commodity prices are following much the same upward course they took in World War I despite much effort at price control. On the basis of the Department of Labor's wholesale price index, covering just about everything, commodities as a group have climbed 12 per cent during the first 20 months of this war, against a rise of 16 per cent for the similar period of 1914-16. Raw material costs are up 18 per cent, against a rise of only 11 per cent at this stage of the "other" war. Prices of farm commodities, textiles, hide-leather products, foods and house furnishing goods have shown sharper gains. On the other hand, prices of manufactured articles have moved up 9.6 per cent, against 14 per cent in 1916. And in metals and chemicals the picture is vastly better. Due largely to government regulation, metal products have risen only five per cent in 20 months, whereas in World War I they ballooned by 34. The U. S. chemical industry was in the "infant" stage in 1914, and we were much dependent on imports. Thus chemical and drug prices skyrocketed 125 per cent then, have been held to mere 11 per cent rise thus far in the present hostilities.

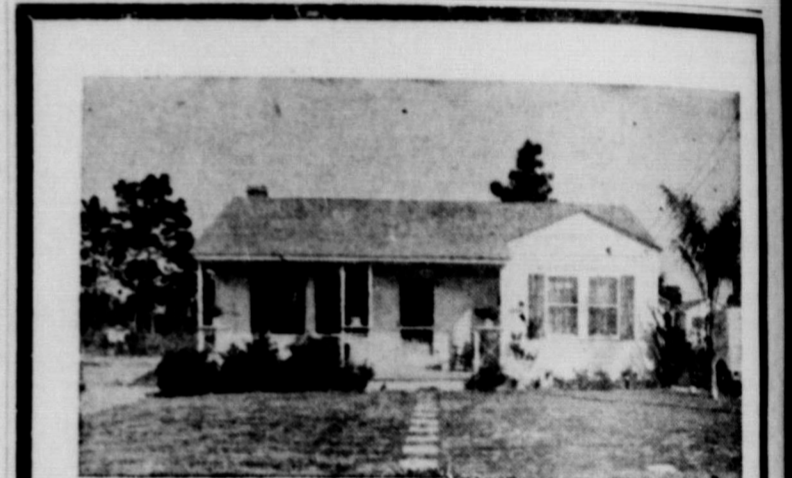

VITAMINS AU NATURELLE—last year we Americans spent over \$100,000,000 for vitamin capsules; this year the figure will probably be even higher. Nevertheless, the Department of Agriculture says that at least every third one of us lives below the dietary safety line. Poverty alone can't be blamed, it says, for surprisingly large numbers of middle and upper income bracket folk don't get enough vitamins—they may be "full," but still they're not really fed. Which is one reason for the government's food-defense program, designed to tell everyone just how vital vitamins are. First nation-wide par-

terms for time sales financing on household appliances, equipment and furniture, auto accessories and transportation. It recommends minimum down payments of 15 to 33 per cent, and terms of 12 to 24 months. More drastic tightening of such terms—and more widely applied—would result if OPM decided that sales of such items need to be held down further, to conserve steel and other metals for defense.

RFC RUBBER — The Reconstruction Finance Corporation last week announced an appropriation of \$5,000,000 for construction of four synthetic rubber factories with a yearly capacity of 2,500 long tons each. They are to be leased to Goodrich, Firestone, Goodyear and U. S. Rubber and will be designed so that yearly capacity can be stepped up quickly to 10,000 tons per unit. The RFC move highlights the brilliant record scored in synthetic rubber's first year in the automobile tire field. Goodrich, which only last June brought out the first synthetic rubber tires ever sold to the American public, now reports that several thousand of these tires "are giving satisfactory service on the highways" while several hundred leading corporations are putting them on light trucks and company cars.

To dispel any overconfidence, however, it should be pointed out that the combined initial production of 10,000 tons a year is only a little more than 1 per cent of the 725,000 long tons of crude rubber which the nation is expected to use this year. The 10,000 tons would last less than a week at the current average use of 67,271 tons per month. Private expansion of synthetic rubber production for tires is hampered by the fact that the cost of synthetic is considerably higher than the price of natural rubber, currently 24 cents a pound. For other uses, however, the various companies have developed an estimated 1942 production of between 10,000 and 15,000 tons of oil-resistant varieties of synthetic.

THINGS TO WATCH FOR—Air-conditioned auto house trailers, with insulated walls and everything... Theater television may be a regular feature, nationwide, by fall, since two chains are testing it and recent large-screen televising of the Billy Snow-Kat Overlin boxing match by NBC went over well on Broadway... More nylon bristled toothbrushes; they say 45 per cent of all molar scrubbers made in this country this year will have that kind of bristles.

## RENT RECEIPTS WILL NOT BUY YOU A HOME

If you are paying \$25 a month rent, you can afford a new, modern home of your own. Under the new FHA plan, the \$25 per month will cover your payment on a home loan, interest charges, taxes and all service charges. Come in today and let us help you plan a home of your own.

# NO, LADY!

We told the woman who asked if advertising increased the cost of things she bought!

The Coca Cola Co. the world's largest advertiser, spends ONE CENT for advertising for every 67 glasses sold!

**Advertising Lowers The Cost Of Any article because it creates mass demand — resulting in mass production!**

**Around OUR PLACE**  
by Fred Gopson

One crop the government doesn't have control of yet is the chigger or red bug crop. And what with the spring rains we've had this year, the chances are good for an overproduction.

Some people argue that there's a difference between a chigger and a red bug. All I know is, they both do business alike—each one makes somebody else scratch for his living.

A lady caught me scratching for a chigger's living in church last Sunday and quoted me a poem in a whisper behind her fan. I thought it had a lot of lovely truth and sentiment in it. She said:

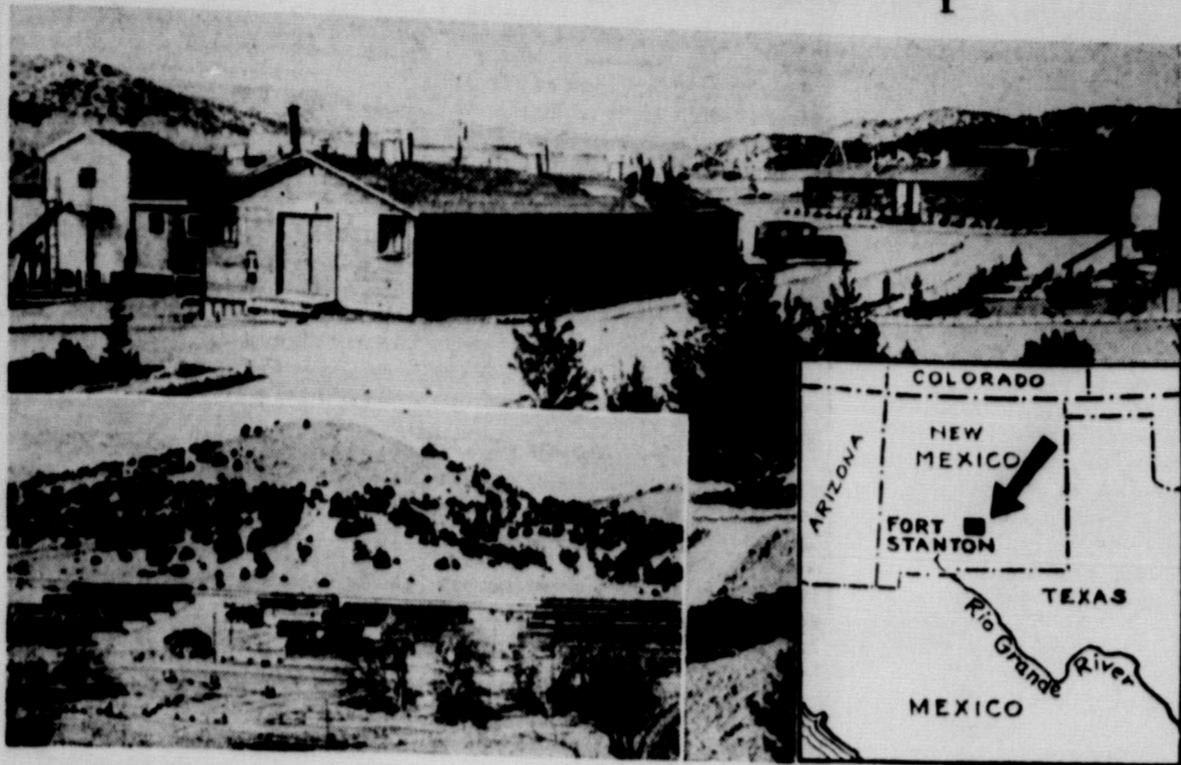

"Here's to the chigger  
That grows, grows on bigger  
Than the point of a little  
straight pin.  
But the bump that he raises  
Just feels like the blazes,  
And that's where the rub  
comes in!

Although I was a little embarrassed at being caught scratching my chiggers in church, I asked this lady if she knew any better remedy for chiggers than scratching. She said she'd heard that strong soda water was good, and a lady behind us popped up with spirits of camphor remedy, claiming that it couldn't be beat. We wondered some what the preacher used, but he was giving us such a two-fisted hammering at the time that we hated to interrupt and ask.

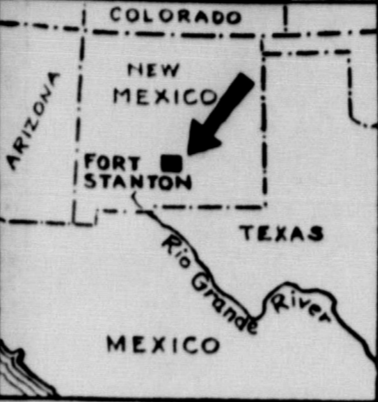

I remember that Mama used to use turpentine on us kids at home. I think it was for chigger bites. She used it on us for about everything, although I always did contend that the best remedy for a bee with a nail knocked off was for one of my old hounds to lick the sore for about five minutes.

In those days, it was turpentine on the outside and castor oil on the inside, yet somehow we all grew up to be fairly normal people.

Speaking of chiggers reminds me of ticks. And ticks make me think of the time me and Papa built some 10 miles of fence for a local banking concern on the

A view of the first U. S. "concentration camp," at Fort Stanton, N. M., where 300 members of the crew of the scuttled German luxury liner Columbus are interned for the war's duration. Barracks adjoining the fort are their homes, but they are not confined as ordinary prisoners, being permitted to occasionally explore the nearby foothills (shown lower left). Map shows the location of Ft. Stanton.

top of the Mason Mountains.

A man could work and sweat in the shinoak brush all day, digging post holes and stringing barbed wire and cussing the hot weather, and then come home and work and sweat half the night trying to grab three or four places at once where the ticks were boring through the hide, and at the same time trying to keep from being tickled to death by a couple of frisky ones that had started a horse race up his backbone.

That 10 miles of fence cost us plenty of sleep and sweat and blood. The blood wasn't wasted, however; the ticks got it.

The big ticks weren't so bad. A man could get hold of them with his fingernails. And if a big tick already had his head buried under the skin where you couldn't pull him out without leaving his head to start a bad sore, you could get a sort of revengeful joy out of holding a lighted cigarette to the tick's back and watching him squirm and pull and swell with the heat and finally pop open.

No, it was the seed ticks that gave a man fits. Papa always swore that the seed ticks were the big ticks' little ones; that when a big tick hanging on a bush couldn't reach the animal passing by, he just reached back and caught up a handful of these little ones off his back and flung them down, sowing them like sowing an out-field by hand.

Chiggers are the only creatures I know that enjoy your picnics as well as you. Unless it's mosquitoes.

**ARE YOU A GOOD SHOT**

Maybe you are better than the average when it comes to hunting ducks and geese, but if you are just an average hunter, your ducks are costing you considerable in ammunition alone. A survey made by a Game Department biologist of 308 hunters during last season showed that they fired 10,705 shells in bagging 2,205 ducks. That is an average of 4.4 shots per duck. A total of 196 goose hunters fired 1,199 times to bring down 124 geese for an average of 9.6 shots per goose. Maybe you're not so cheery now. We're not!

**CITATION BY PUBLICATION**

THE STATE OF TEXAS  
To the Sheriff or any Constable of Crockett County—Greeting:

You hereby are commanded to summon the hereinafter named defendants by making publication of this citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in Crockett County, Texas, but if not, then in the nearest county where a newspaper is published.

Watt, Mrs. Allie Simmons Wheeler, Helen D. Whitford, Elizabeth Wiedenkopf, Robert Wiedenkopf, Bessie E. Williams, Annie R. Williams, E. P. Williams, Mary E. Withey, Robert T. Withey and the unknown heirs of each and all of the defendants named, the residences of all of which said defendants and unknown heirs are unknown to the plaintiffs.

You are commanded to summon

the defendants hereinabove named to be and to appear at and before the next regular term of the District Court of Crockett County, Texas, to be held at the Court House of Crockett County, Texas, in Ozona, Texas on the Third Monday in September, A. D. 1941, the same being the 15th day of September, 1941, then and there to answer a petition filed in said court on the 24th day of May, A. D. 1941 in a suit, numbered on

the docket of said court No. 760, wherein J. S. Hixson and Alex Collins, Independent Executors of the Will and Estate of Mrs. Margaret A. Shannon, deceased, and J. S. Hixson, Alex Collins, H. E. Jackson, Willis Johnson, J. P. Hill, Clarence R. Webb and J. S. Allison, Trustees of the Shannon West Texas Memorial Hospital, are plaintiffs, and each and all the persons, unknown heirs, private corporations, unknown stockholders of defunct corporations.

The cause of action of the plaintiffs in said cause is as follows:  
Suit in trespass to try title to recover possession and title to the following lands located in Crockett County, Texas:

Abstract 1730, certificate 4-959, Section 11, block 10, original grantee GC&SF Ry. Co., 640 acres.

Abstract 1726, certificate 270, section 11, block 9, original grantee D&SE Ry. Co., 640 acres.

Abstract 2054, certificate 20, section 9, block A, original grantee EL&RR Ry. Co., 640 acres.

Abstract 5103, certificate 19, section 8, block A, original grantee EL&RR Ry. Co., 640 acres.

Abstract 4968, certificate 4-962, section 18, block N $\frac{1}{2}$  10, original grantee GC&SF Ry. Co., 320 acres.

Abstract 4740, certificate 4-954, section 2, block BB, original grantee EL&RR Ry. Co., 640 acres.

containing 3520 acres, more or less, to remove as cloud from title all oil and gas leases outstanding in the name of such defendants on the said lands, or any part thereof, to cancel the same and for judgment declaring that such oil and gas leases and all other oil and gas leases outstanding on such lands, including that certain oil and gas lease from J. M. Shan-

non to F. E. Miller of date, June 10, 1922, recorded in Volume 25, pages 451, et seq. of the Crockett County Deed Records, had been surrendered, abandoned and forfeited on the grounds that such defendants had made default in the following particulars: (a) to pay annual rental as required in their respective lease assignments; (b) to undertake and continue the exploration and development of the leased premises for oil and gas purposes; (c) to comply with the terms of their sub-leases and assignments of lease relating to the payment of annual rentals; (d) commencing of drilling operations; (e) the continued exploration of the premises for oil and gas, because of all of which the defendants have forfeited and abandoned all rights in the leased premises, and the oil and gas lease hereinabove mentioned and identified has by its terms, both express and implied, fully terminated.

Herein fail not, but have you before said court on the first day of the next term thereof, this writ, with your return thereon, showing how you have executed the same.

Witness George Russell, Clerk of the District Court of Crockett County, Texas.

Given under my hand and the seal of the said court, in the town of Ozona, Texas, this 26th day of May, A. D. 1941.

(SEAL) GEO. RUSSELL,  
Clerk of the District Court of Crockett County, Texas.

Issued this 26th day of May, A. D. 1941.

GEO. RUSSELL,  
Clerk of the District Court of Crockett County, Texas.

**T. H. Eastman Sells 77-Pound Lambs At 9 1/4 In Fort Worth**

Lambs in the Pumpville sector are the finest seen in many years, reports T. H. Eastman, who ranches near Pumpville and who was in

Ozona this week moving his family back to the ranch for the summer.

Mr. Eastman recently topped the Fort Worth market with 165 range fat lambs that averaged 77 pounds and brought 9 1/4 cents per pound, or a little over \$7.15 a head. The lambs, born early in February, were topped out of a bunch of 203 from one pasture, or nearly 77 percent of the lot fit for the fat market.

**Ozona Boy To Serve With Naval Bomber Patrol In Honolulu**

Norman E. Rendall, III, son of N. E. Rendall, Ozona cafe operator, was scheduled to leave San Diego, Cal., early this week for Honolulu, Hawaiian Islands, where he is to be stationed with the U. S. Naval forces.

Young Rendall joined the Navy last year and has just completed his training period in Naval Aviation at the San Diego Naval training base. All leaves, customarily granted after completion of training, were cancelled for members of the class in which the Ozonan finished and part of the group were ordered to Hawaii.

Rendall, who has ranked among the highest in the group of enlistees with whom he saw training service, finished among the first fifteen highest ranking in the class of several hundred. He is to see service aboard one of the Navy's twin engine patrol bomber sea planes, called the eyes of the Navy and flying battle ships. He will wear the title, "Commander Patrol Wing Two" aboard the bomber, which carries a crew of ten men.

Gordon Rendall, another son of Mr. Rendall's, is also enlisted in the Navy. He has just recently recovered from a serious attack of pneumonia. He is also in training at San Diego.

Many Texas oil wells are now drilled to depths of 10,000 feet or more.

**Joe Bert Couch To Receive High School Diploma From NMMI**

Joe Bert Couch, son of Mr. and Mrs. G. M. Couch of Ozona, will receive a high school certificate from New Mexico Military Institute, Tuesday morning, June 3, 1941. Couch has been enrolled in the high school division this year. He is completing the first year basic course in the Senior Cavalry Unit of the R.O.T.C. Young Couch is one of twenty-five boys from Texas included in the total of 123 who will receive high school certificates at the graduation ceremonies. Sixty-eight per cent of the cadets receiving high school certificates enroll in the Junior College division, and may become graduates of New Mexico Military Institute after completing the two-year course. Governor Miles will present diplomas to 140 graduates at the June 3rd ceremonies.

Floyd Richmond Henderson, son of Mr. and Mrs. Floyd Henderson of Ozona, and Roy Walter Henderson, son of Mr. and Mrs. Roy Henderson of Ozona, are also expected home at the beginning of the summer vacation.

There are one hundred thirty-seven young men from Texas enrolled at New Mexico Military Institute, Roswell, this year.

**Junior Boys, Girls Of Baptist Sunday School Enjoy Picnic**

Junior boys and girls of the Baptist Sunday School enjoyed a picnic Tuesday afternoon from 5 to 7 o'clock. The group met at Mrs. Claude Hill's home. A game of softball and a picnic spread were enjoyed. A. C. Hoover is the teacher for the group.

Present were Joe Perry, Ralph McCaleb, Alvin McCaleb, Leon Atkins, and Raymond Atkins, of Barnheart, Billie, Thomas and Toots Hill, Joy Hubbard, Elaine and Juanita Oathout, Betty Cooke.

**Drilling Starts—**

(Continued from Page One) local water system, the next project will be installation of larger mains and a new tank or improvement of the present one. Installation of larger mains and improvement of storage facilities, contemplated ultimately all over the city, will bring the local water system to as modern as any to be found in this area.

Plans for improvement of the storage tank are indefinite at present, Mr. North said. Engineers and members of the board, who first contemplated dividing the present half-million gallon tank, covering one half and using the covered half as storage for the city's supply and keeping the other half filled for fire emergency, are now studying an alternative plan for building a new tank and using the old as storage for emergency in case of fire. Engineers have advised the board that a smaller and higher tank, with less area to cover, would probably be no more expensive than dividing and covering the present tank.

**FIRST BAPTIST CHURCH**  
Clyde Childers, Pastor

Schedule of services:  
9:45 Sunday School.  
11:00 Morning Worship.  
2:00 Deacon's Meeting.  
3:00 Monthly Conference.  
8:15 Evening Worship.

Wednesday—  
3:00 WMS Circles Meet.  
8:15 Mid-Week Worship.  
9:00 Choir Practice.

Plan for these coming events:  
Vacation Bible School, June 7-19.  
G. A. Camp at Paisano, June 24-27.

R. A. Camp at Paisano, June 30-July 3.  
Paisano Encampment, July 29-August 6.

In preparation for our annual Vacation Bible School next Sunday is designated as Lemon Sunday. We are asking all who attend the Sunday School and the morning worship to bring six lemons for the school. We are expecting a large enrollment this year and we trust that the boys and girls of the entire community will feel welcome to attend the school. Remember that next Saturday week, June 7, will be the day of our enrollment and the big parade.

The fine response of our people to the service on last Sunday leads us to believe that we are going to enjoy our best summer's work. If for some reason you could not come we trust that you will be with us next Sunday for all the services.

**Parents Invited To Visit Church School Last Classes Friday**

The 5th annual Vacation Bible School being held at the Ozona Methodist Church will hold its final class meeting on Friday morning. Certificates will be awarded to those students who have attended at least eight of the ten days.

The pupils are inviting their parents to visit during the last morning and see what they have learned and accomplished during this period of study. To avoid having parents miss a class if they have more than one child enrolled in the school different hours have been given for each class demonstration.

Parents of the Juniors are invited to be there at 9 o'clock; Primary students are asking mothers and fathers to come at 9:30 and Beginners have 10 o'clock for their period of demonstration. All parents and friends of the students are urged to attend if possible.

**It's Time to Vaccinate for—  
Equine Encephalomyelitis**

(Sleeping Sickness in Horses)

We are now in position to furnish you LEDERLE'S encephalomyelitis (chick) vaccine in the new approved 1 cc dosage in any quantity.

Simple instructions make it possible for any rancher to vaccinate his own animals against this destructive disease at small cost. Vaccine is injected into layers of the skin, but the medicine is so concentrated that sub-cutaneous injection is also effective.

Protect your horses at small cost. See us at once and reserve the number of doses you will need.
