AN EASTER POEM

It happened on an April Bounded by skies so blue

and still And olive trees all hus-

ed and gray, They led One up a skullshaped hill

Followed by a crowd whose piercing cry Wa: "Crucify"!

It happened on an April

a tree. Whose head was circled with sharp thorn,

Lifted Him high that all might see

breath. His awful death.

It happened on an April They tombed a Man (the erwod had fled).

Sealed it; and set a watch that way

To flout His words, to prove Him dead; And show Himself He could

not save From the dark grave. It happened on an April

A tremor shook the paling

A white flame tore the door away.

Life came a victor from the tomb Love cannot die, nor life

The crosses in the shadows were real. Three hung there and died in agony . . . two for their own wrong-doing . . . one for yours.

That chapter to which the Book lies open — it tells of the scandal ... the indignity ... the injustice — and the pain.

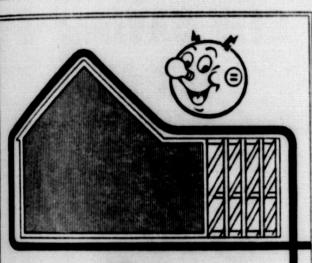

The lilies? . . . symbols of what men call Easter Day! When the women found the tomb empty . . . and were afraid to believe He was risen . . .

IT is not a pretty picture. IT is the stark reminder of man's distrust of God . . . and God's love of man.

And you'll let nothing keep you from worshipping your Lord when you stop thinking of IT as a pretty picture.

IT happened.

FOR ALL ALL FOR THE CHURCH

THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily

TUPPERWARE - Call Mrs.

By A. R. Rutherford

Crap-shooting may not be very reputable as a sport among the better elements of society, but it has ? history that streches 'way back'. In fact, some historians give the year 1244 B. C. as the year in which the ancient Greeks initiated the game. Strange part of it is that there is very little difference between the dice used today and those excavated in old archaeological ruins. It seems that even the Romans had reformers when it came to the question of gambling with the bones, for according to old Roman law, no suit could be brought to court by anyone allowing gambling by dice to be done in his home.
