Lions Pound Ft. Stockton Team In Scrimmage

The Lions scored two touchdowns and managed to hold the Ft. Stockton Panthers to short yardage and no score in the scrimmage Thursday afternoon. Coaches Mosley and Sewell were very well pleased with the team as a whole. Two players were out with a virus that has swept through the team, Rodney and David Pagan.

Coach Fowler's B-team won its scrimmage with the Panther B on penetrations and looks much better than last year with a strong group of sophomores.

The Lions will scrimmage the Robert Lee varsity this afternoon at 6 o'clock, and will play their first game against Junction Friday, Sept. 13.

The starting line-up has not yet been set, but the team will be sparked by quarterback Randel Clepper, senior and 3-year letterman who began his football career with the varsity as a freshman; Fleet Coates, all-district halfback, who averaged 7 yards a carry and scored 16 touchdowns last year; Marlin Farris, 215 pound senior and all-district center; Rodney Pagan, who was heading for an all-district title when side-lined by injuries last season, and Johnny Barbee, all-district line-backer and a dangerous man on defense.

School Enrollment Up At End of Week

School enrollment jumped to 1,046 during the first week of school, 31 students enrolling after the first day. Enrollment was up in all schools except the junior high school, which dropped to 168 from a first day enrollment of 175. High school picked up five students to bring the enrollment to 245. Both elementary schools increased enrollment. North Elementary from 273 to 281 and South Elementary from 327 to 352. Most of the elementary enrollment jump was due to an increase in kindergarten students.

Rain Storm Follows Cool Front Into Area

Rain and hail followed a severe electrical storm yesterday afternoon, which plunged Ozona into darkness for almost an hour. Only a few large drops of rain fell while lightning played overhead and deafening claps of thunder shook the town. About the time residents had given up any hope of rain the deluge came. Wind, rain and hail pounded the city for 30 minutes, dumping a half inch of moisture, according to the official gauge at the Water Office.

In the path of a new cold front moving through the area Saturday Ozona received 1.5 of an inch of slow falling rain. Rain fell intermittently for a 24 hour period beginning Saturday night and ending late Monday night.

Although the gentle showers in this area did not compare to the downpours that fell in South Texas due to the front, cool temperatures and cloudy skies were general in West Texas over the Labor Day weekend.

The shower and thunderstorm brought the official Ozona rainfall total to 18.59 inches for the year. The official 30-day forecast from the U. S. Weather Bureau calls for near normal to below normal temperatures through September.

Woman Injured, Damage Heavy In Hiway Crash

Only one accident marred the holiday weekend in Crockett County. A California woman was seriously injured and property damage ran into thousands of dollars in a car-truck accident atop Lancaster Hill early Saturday morning.

The wreck involved a 1961 Ford station wagon equipped with a camper and a 1967 International truck with a large refrigerated van. Both vehicles were traveling east. Wilford R. Jackson of Hollywood, Calif., was driving the automobile and Mrs. Jackson was asleep in the camper when the truck, driven by Kenneth G. Roberts of Canton, rammed the rear of the car. The collision knocked the camper off and onto the highway, where it skidded several yards before throwing Mrs. Jackson out and coming to rest on the shoulder of the highway. The car left the road, ran through a fence and came to rest on its top in a pasture. The truck careened 50 feet down the road before crashing through a fence and overturning on its side.

Screworm Cases Increase To 47 In Crockett Co.

Crockett county livestock producers have reported 20 additional screwworm cases in the county since August 23, making a total of 47 cases reported since July 12 when the first case was reported in the county this year.

All of the latest cases reported have been in the southwestern portion of the county with one exception, this case was reported on the Delong-Hall Ranch, 9 miles East of Sheffield. Others reporting cases were Joe Blakeney, B. B. Ingham, Jr., Young & Williams, Bob Childress, V. I. Pierce, Bill Hoover Estate and Jess Marley.

Sterile fly drops are being made on ranches with reported screwworm cases, according to county agent Pete W. Jacoby and Screwworm Program officials at Mission. The county agent encourages all ranchmen to report cases when found so Mission officials can spot drops for sterile flies in order to curb the outbreak. Ranchmen are encouraged to treat all wounds when possible and spray livestock to help prevent further spread of screwworms.

HUNTING LEASES SOLICITED BY C O F C

Hubert Baker, manager of the Chamber of Commerce, urged ranchers in Crockett County to list hunting leases at the C of C office. The chamber is in the process of making up the 1968 lease list in anticipation of the coming hunting season.

Baker said he is receiving inquiries daily about deer leases in this area.

Shotgun Blast Damages Doors At Civic Center

At least two blasts from a heavy gauge shotgun riddled the double glass doors at the south entrance of the Civic Center Tuesday night, causing extensive damage.

Mrs. Clovis Womack manager of the center, discovered the damage when she arrived for work Tuesday morning. Sheriff Billy Mills and his deputies investigated and determined that the shots came from the street between the center and Lion Stadium.

Sheriff Mills said that in his opinion it was a deliberate act of vandalism and he asked that anyone having any knowledge of the shooting contact him or his office.

If the damage had occurred at the north entrance, the blame might possibly be placed on bird hunters. However, from where the center of the blasts hit the doors it seemed obvious to officers that the shots were fired from the window of a car in the street. No empty shells were found in or near the street but, the walk in front of the center was covered with birdshot.

Sheriff Mills reminded residents that the law provides a stiff penalty for those who damaged public buildings. He also urged bird hunters to use extreme caution when hunting in pastures near town and residential sections.

ROBINSON AND FORTAS

Jackie Robinson and Justice Abe Fortas have been very much in the news in recent weeks. The bleats of the friends and protagonists of these two gentlemen call for a response by responsible members of the press and communications media.

Let's take the Robinson matter first. For some years he has been a prominent member of the "Rockefeller Team," in New York State. Immediately after the Republican convention he made headlines by disavowing the Nixon-Agnew ticket and asserting that he would support the Democratic ticket.

It is Mr. Robinson's privilege to order the priorities of his life any way that he wishes. But it is shocking that the statement did not become at least as newsworthy as his allegations regarding Nixon and Agnew. Can you imagine the furor it would cause in the press if either Nixon or Agnew were to say publicly that they were white first, American second, and politicians third?

Too much of the press comment on the Fortas nominations has suffered the same bias. It has been repeatedly asserted that the Senate Committee interrogations of Justice Fortas, and the debate on the floor of the Senate, were motivated by racial prejudice. The implication has been that Justice Fortas is qualified for the job of Chief Justice and hence should be confirmed by the Senate, forthwith.

Let us suppose that Governor Wallace were to win the presidential election, and at the first opportunity nominated one of his lawyer-judge cronies to a seat on the Supreme Court. Do you imagine that the liberal press would demand so vociferously that the Senate rubber-stamp the presidential choice?

The right of the Senate to review and pass judgment on the fitness of a nominee to the Supreme Court is clear. It is one of the reasons that we have a Senate, as prescribed by the Constitution.

The right of the mass media to ignore the bias inherent in the Robinson pronouncement is also clear. It is one of the reasons we have

a free press in this country. Happily, the system also provides for dissent from such views. And we dissent.

THE HUNGRY BEAR

The bear belongs to the carnivorous order, but lives mostly on plants and fruit. This characteristic apparently also holds for the Russian bear.

The Soviet Union was not reluctant to make a deal with Hitler, as long as the deal permitted the bear to tear some juicy morsels out of Poland. After the Second World War started, the bear swallowed whole three small nations, Estonia, Latvia and Lithuania. At the end of that war, the bear again grabbed some flesh, Carpatho-Ukraine, for example, was torn out of Czechoslovakia; Bukovina and Bessarabia were ripped out of Romania.

But the steady diet of the Soviet animal has always been the fruits of the labor of the peoples under its control. The Russian peoples, themselves, have provided the bulk of this diet. But the hungry bear has never been satisfied.

One after another of the small states along its borders was subverted. Once their institutions were destroyed, the economies of these nations were fitted into systems which served Soviet needs and designs. We need not wonder why the Soviet Union insists upon complete dominance over its satellite junior partners in eastern Europe. The fact is that great earth-shaking plans have been made in Moscow and that these plans contain the assumption that the Soviet Union will ultimately — and inevitably — dominate the world. Each step back from that goal is resisted fiercely. Each step toward that goal is taken in confidence.

The Soviet grand designs call for all nations to be incorporated into the Soviet

Union. Intransigent populations will be split up, shipped out, decimated — just as innumerable Poles, Lithuanians, Estonians, Latvians, Romanians, Czechs and Slovaks, Ukrainians, Georgians or other "Russian" peoples have been. The final hour of such Soviet fate may be very near for the non-submissive Czechs and Slovaks.

Humanity's interests are not served by feeding the hungry bear. Very many Russians, perhaps even most Russians, know this. The Free World will hope that the Russian people will find a way to still the insatiable drive of their totalitarian government. Unless they find a way to cope with that monster, the chances are that one day he will think to pluck a plant and in the doing scratch a man who is prepared to deal with bears. On that day each of us will have to choose to become a hunter, or the hunted.

HIGHLIGHTS
AND
SIDELIGHTS

Austin, Texas — Until this year no one could vote in any election in Texas unless he had lived in the state for a full year: "Not so now," says Secretary of State Roy R. Barrera.

As the result of a statute passed by the Texas Legislature in 1967, following voter approval of a constitutional amendment in 1966, voting rules have been changed.

Barrera, as the state's chief election officer, advises that any citizen of the United States, 21 years of age or older, who has resided in Texas less than one year and for at least 60 days as of the day of the election, who satisfies the conditions of a qualified voter in the state from whence he came to Texas and would have been qualified to vote had he remained there, may vote in the Presidential Election here this fall.

However, Barrera points out, the voter can not vote on any office except that of president and vice president of the United States.

Furthermore, he must apply for a ballot at the county clerk in the county of his residence . . . sometime during a 15-day period beginning September 6. If the voter has an official document attesting to the fact that he was a registered voter in the state of his former residence, he should take that document with him when he applies for his ballot. This will eliminate the necessity of the clerk certifying eligibility at the place of his former residence.

It is important to note too, says Barrera, that once declared eligible to vote, the newcomer must cast his ballot in the county clerk's office . . . not on November 5, the general election date. . . . but sometime during the 15-day period preceding

the general election.

State Income Tax Discussed — Constitutional Revision Commission finished its first full review of recommendations for a new constitution after a battle royal on the question of state income taxation.

Commission wound up recommending that the current provision allowing an income tax be retained, but there was considerable support for prohibiting income taxes.

Revenue and Taxation Committee, headed by Geo. Wilson of Dallas, president of Lone Star Steel Company, had recommended retention of the clause authorizing such a tax. But Wilson quickly joined forces with Houston, Rep. Bill Archer during the full commission meeting in an effort to forbid income taxation.

Wilson said a prohibition on the income tax "would be helpful to our chambers of commerce in recruiting industry." San Antonio Mayor Walter McAllister termed income taxes "socialistic, communistic and Marxistic."

By a vote of 7-5 (most of the 25-man commission were absent or failed to vote) the prohibition of the income tax was approved. But Denton, Rep. Alonzo Jamison forced reconsideration of the issue when he moved that the sales tax be limited to its current level, "if we are going to bind the hands of the legislature in the matter of one tax."

Anthrax Reported — Texas Animal Health Commission has received a report on an outbreak of deadly anthrax disease in the area around the juncture of Val Verde, Kinney and Edwards Counties.

Nine premises have reported deaths from the disease among cattle, horses and deer.

Commission has also reported 696 screwworm cases confirmed in Texas in July. Mexico reported 1,982 cases in roughly the same period.

Mrs. George Montgomery left Wednesday for El Paso where her granddaughter, Jean Studt, will be married Saturday. She was accompanied by Mr. and Mrs. Mike Talley of San Angelo.

Frightened, its wing broken, the bird was clinging to a rail when Tod found it. He brought it home, and "Racky" became its name.

Days passed and the bird mended quickly.

"Racky's getting well," the six-year old informed me one day. "Will he fly away?" I nodded.

"But I want him to stay here! I'll feed him, and let him sleep in his box-house, and take care of him—an' everything!"

"But he might want to be with his friends," I said. There was silence as the boy pondered the idea.

"All right," he finally said. "I'll let him go. But I bet he'd be happier here with me!"

We, too, would be happier if we knew where we belong in the complex pattern of life. God helps us discover ourselves and our place in His universe through His Church.

The child didn't know any better.

Do you?

Poor Votes

There is the old phrase about sewing the wind and reaping whirlwind. * * *

The truth of this adage is perhaps well illustrated by the so-called race problem now existing in this nation. * * *

And those who have created the whirlwind are the irresponsible politicians who in hunger for votes have promised minorities the moon and aroused expectations far beyond possibility of fulfillment. * * *

There are certain basic rights guaranteed by the Constitution to all Americans, regardless of race, color or creed. These rights have now been re-affirmed, but still there is rioting. * * *

And perhaps the most interesting part of the entire mess is that no sooner had so called civil rights legislation been passed than the noisier adherents of these measures then demanded that they also control U. S. foreign policy as witnessed by the strong anti-Vietnam complexion of the movement today. * * *

There is probably some justification for demanding an end to Vietnam. And assuredly the American foreign policy is quite an enigma. * * *

But on the other hand, the credentials of those who pour into Washington as part of a March of the Poor to make decisions on foreign policy seem open to question. * * *

For after all, it can perhaps be assumed if they have the intellect and ability to decide on such complex problems of American relationship to the world, that some intellect and ability should have somehow lifted them out of their life of poverty in their own home towns. * * *

There are ways of helping the poor. The nation's independent businessmen, voting through the National Federation of Independent Business support several bills languishing in the Congress which would be quite remedial. * * *

But they are opposed by many politicians who do not like to see such legislation as the tax incentive plan for rural development by Congressman Joe Evin, Tennessee, or the plowback allowance by Congressman James Corman, California, passed. * * *

The big objection to action in these areas is that they would provide employment opportunities for those who do not want to be poor, and thus eliminate the need for spending billions of dollars to help the unemployed poor who also happen to be voters, and more importantly, the poor who actually do not want to work. * * *

And in addition, it should perhaps not be overlooked that there are many wealthy big city property owners who would like to see all taxpayers shaken down under the guise of helping the poor. * * *

They would be quite enchanted to get big movement subsidies to aid them in improving their properties. They too, weep for the poor, and will continue to do so until such times as they, too, can get a chunk of the taxpayer's money. * * *

ROTC Scholarships Available To High School Graduates

Male high school students who plan to enter college for the first time in the fall of 1969 may apply now for 800 four-year Army ROTC scholarships, the Army ROTC Directorate, Fort Monroe, Cal. announced today.

The scholarships are awarded annually on a competitive basis to outstanding high school graduates who are highly motivated toward a career in the Active Army.

Each scholarship pays for the student's tuition, textbooks and lab fees and provides a \$50 per month subsistence allowance for the duration of the award except for a six-week summer camp period when the student receives one-half the pay of a second lieutenant.

The scholarship winner may attend any one of the 259 colleges and universities offering the four-year Army ROTC program. Except for officer training subjects, which are taught by Army professors of military science the ROTC student pursues the same academic courses in the field of his choice as any other student.

Application closing date is Jan. 15, 1969. Announcement of scholarship winners will be made in the spring of 1969. The scholarships become effective with the opening of the 1969-70 school year.

Since part of the scholarship selection is based on the College Entrance Examination Board (CEEB) tests, high school students who intend to compete for one of the awards should take the CEEB tests given nationwide.

Detailed information about the four-year scholarship program and application forms may be obtained from the Commanding General Fourth U. S. Army, ATTN: AKAAG-R, Fort Sam Houston, Texas. 78234.

Government regulations and heavy tax programs are destined to be a part of the American way of doing business for a long time. For that reason it is more important today that every business keep accurate records of its operations.

this democracy which stands probably at the most critical crossroads of American national history. Yet it also remains true that in an even larger sense that our life together as a people will not and can not be finally settled on the poll of any one day. The price of national progress will require continuing participation by all the people in the continuing political process. We'll go a long way to settling America's future when we cast our ballots. But we are poor and paltry citizens if we think once the polls are closed we can go back to our golf and bridge, our ranching and merchandizing, our TV's and our cars, and forget about our life together as a people. It may be an headache and a backbreaking load to fulfill our duty as citizens. But nothing less than total involvement will suffice the awful demands this fate-

Washington News Letter

As millions of Americans looked on, the ugly hand of violence was displayed in both Miami and Chicago during the two conventions. At least three were shot by the alert police in Miami before an incipient riot was squelched.

In Chicago an even noisier outburst was nipped in the bud when some 3,000 mobsters defied police and drew some bumped heads but no fatalities.

The firmness of the police in both cities demonstrated the mobsters can be controlled only in that manner. Had the police in both instances relaxed, withdrawn, pampered, or coddled, the militants would have taken over and no telling what would have happened after that.

The only ones who complained about police brutality in either city were those who were up to no good or else the glibble followers or subversives and hoodlums — and sympathizers. Inside the Convention Hall

in Chicago, TV viewers were treated to instances of disgraceful performances on the part of several delegations making it quite obvious that a number of delegates were ill-equipped to perform their functions with dignity and decorum.

It was rather sickening to observe the immaturity of grown people in the display of fuzzy reaction to efforts to maintain law and order outside the Convention Hall.

Indeed it was a lunatic fringe in evidence — a minority which was obviously more interested in TV exposure and horseplay than in tackling and finding answers for the mammoth problems of the day.

It should be observed that while the Chicago convention was plagued with a rough and noisy element, many delegations conducted themselves with order and decorum befitting their mission. That was particularly true of the Texans.

Let us hope the lessons gained from the various aspects of the two conventions may serve to improve future ones. It is an ill wind that blows no good.

Ozona Hotel To Receive Marker As Historical Site

The historic old Ozona Hotel (now Crockett Hotel) in Ozona, has been named a Recorded Texas Historic Landmark, significant to the history of this community and state, and worthy of preservation, today announced Charles Woodburn of Amarillo, president of the Texas State Historical Survey Committee.

As a result of meeting TSHSC requirements for this high official designation, the Texas Historical Building Medallion with interpretive plate giving a capsule history of the structure will be affixed to the structure.

Dedication of the marker will be announced by Mrs. R. A. Harrell of Ozona, chairman of the Crockett County Historical Survey Committee.

A certificate signed by Gov. John Connally, Charles Woodburn, and Mrs. Harrell will be presented at the dedication.

The inscription on the marker reads:

"Old Ozona Hotel"
Built about 1893, From its early days, boarded teachers, visiting athletic teams and business callers in city.
