NEARING COMPLETION is the new Department of Public Safety communications headquarters in south Ozona. When completed, the building will house offices of the Highway Patrol, Texas Ranger and radio center crew. The communications center will use the 500-foot tower at Crockett Heights to mount its antenna to serve as center for DPS radio communications in the area.

## Game Dept. To Issue Doe Permits Oct. 23

The Texas Parks and Wildlife Department has announced that antlerless deer permits for designated areas of Crockett County will be issued at the County Courthouse on Friday, October 23, Game Warden Raymond Davee announced this week.

Landowners or their agents can apply for permits between 8:00 A.M. and 5:00 P.M. on these dates. All interested landowners or agents are urged to obtain antlerless deer permits during this issuance period.

Maps showing permit issuance rates and compartments of issuance will be posted in the county courthouse prior to the dates of permit issuance.

## County Veterans Service Officer To Conference

Austin, Texas--A. O. Fields, Veterans County Service Officer for Crockett County, attended the 23rd Annual Statewide Rehabilitation Conference for veterans Service Officers, which was held at the Austin Hotel in Austin.

This Conference was conducted by the Veterans Affairs Commission of Texas, in cooperation with the American Legion, Disabled American Veterans, AMVETS, Jewish War Veterans, Veterans of Foreign Wars. The purpose of the meeting is to offer Service Officers from the entire State of Texas an opportunity to gain first-hand knowledge of recently enacted legislation dealing with benefits to veterans and their dependents

## Christoval Burial For L. R. Dorsey After Rites Here

Funeral services for L. R. (Buck) Dorsey were conducted from the Ozona Methodist Church and graveside services were held in Christoval where burial was made.

Mr. Dorsey, Ozona electrical contractor, died in Crockett County Hospital after an illness.

Mr. Dorsey had been a resident of Ozona for more than ten years, coming here from Big Lake where he was engaged in a similar work for three years prior to that he had worked for the West Texas Utilities Co. for 25 years.

Mr. Dorsey was born in Marlow, Okla. in April of 1906. He and Mrs. Dorsey were married in San Angelo in 1930. He was a member of the Methodist Church and of the Big Lake Lodge of the Masonic order. He was a 32nd degree Scottish Rite Mason and a member of the San Angelo Shrine Temple.

Surviving are the widow, two sons, Ray Dorsey of Jal, N. M. and Ronnie Dorsey of San Angelo and four grandchildren. One brother and six sisters also survive.

## Forum Hears Angelo Artist

Members of the Ozona Woman's Forum met last Tuesday afternoon at the Civic Center with Bart Mann, custom jeweler of San Angelo, presenting the program.

Mr. Mann lectured and displayed a large collection of his custom made jewelry.

Mrs. James Baggett, president, welcomed the large group of members and guests. Mrs. Joe Clayton gave the invocation and Mrs. Charles Black introduced the guest speaker.

Hostesses for the occasion were Mrs. John Coates, Mrs. Dempster Jones, Mrs. W. T. Stokes, Mrs. James Lively and Mrs. P. L. Childress.

## Todd Gets Prospector, Confirmer On Helbing

Crockett County gained location for a wildcat and a confirmation and a field gained a confirmer.

Cities Service Oil Co., Odessa, will drill a 6,800-foot wildcat in Crockett County, surrounded by production in the Todd, North northwest of the Todd (Deep Crinoidal and Ellenburger, Grayburg and San Andres) field, and 22 miles south of Big Lake and is the No. 1-A Shannon Estate.

Location, on a 640-acre lease, is 660 feet from the south and west lines of 14-OR-TTRR, Abt. 5167. Contract depth is 9,500 feet.

The discovery was finalized July 30 to pump 99.26 barrels of 37 gravity oil, plus 10 barrels of water, with gas-oil ratio of 400-1, through perforations at 3,321-338 feet.

The Tippet West multipay field of Crockett County gained its eighth 5,050-foot Wolfcamp oil producer and a 1 1/2 mile east extension to that pay with completion of Gulf Oil Corp. No. 1 J. B. Mayberry, former lower Leonard producer in the Tippet multipay field, 10 1/2 miles southeast of McCamey.

It was finalized on a daily flowing potential of 12.36 barrels of 32.8 gravity oil, plus 31.8 barrels of water, with gas-oil ratio of 13,754-1. Production was through a 16-64-inch choke and perforations at 5,942-944 feet, which had been acidized with 1,000 gallons. Plugged back depth is 5,985 feet. Originally drilled to 7,796 feet, it was plugged back to 6,362 feet and completed in 1948.

Location is 341 feet from the northeast and southwest lines of 39-31-H&TC.

## Lions To Open District Play Against Big Lake Friday Night

### Ozona Junior Hi B Teams Lose To Sonora Squads

Coach Rip Sewell's Ozona Lions ran their record to 4-1 with a 35-0 win over a hapless Iraan team last Friday night. They will open district play in Big Lake tomorrow night with the defending champions, the Reagan County Owls.

The Owls have a 2-3 season record, losing their last game to Fort Stockton last Friday night. Although graduation hurt the Owls painfully, they are making improvement and will surely be up for the traditional grudge game against the Lions. On the other hand, the Lions will be invading Owl country with nothing but winning on their minds and will have a slight edge with all boys well and coming out of the Iraan encounter in good shape.

The Lions got off to a slow start in Iraan Friday night, but when they did get the ball rolling, they racked up the game in short order and Sewell was able to substitute the entire fourth quarter.

An interception by the Lions' David Pagan started the Lion attack with two and a half minutes to go in the first quarter. He pulled in the stray Brave pass on the Iraan 38-yard-line and seven plays later Greg Stuart kicked the extra point and the Lions had a 7-0 first quarter lead.

A 49-yard drive in the second quarter saw Stuart dive over from the 1-yard line to give Ozona a 14-0 halftime lead after Pagan toed the PAT.

In the third quarter David Williams directed a 70 yard drive to allow Ruben Tambunga to score from 30 yards out. Again Pagan made good the PAT.

Getting the knock of it, the very next time the Lions got the ball Williams executed a 95-yard drive in 10 plays to score Tambunga from the 14. Pagan's sure toe made it 28-0.

The Lions final score came in the top of the fourth period when Tambunga broke for 75 yards and a touchdown and Pagan put the icing on the cake with another successful PAT.

The Lions had 495 yards total offense, 428 rushing and 72 passing, while the Braves had 18 yards rushing and 19 passing for a total offense of 37 yards and a tribute to the powerful Lion defense.

The Lions had 17 first downs to the Braves' 3. The Lions completed 7 out of 16 passes for a total of 72 yards and the Braves completed 3 out of 16 for 19 yards. The Lions intercepted three passes and the Braves one. Ozona returned one fumble.

Stuart punted 4 times for a 38 yard average and the Braves punted 9 times for a 40.3 yard average.

Williams hit 7 out of 13 passes for the total yardage in the air. Pagan was the leading pass receiver, catching three for 33 yards. Other receivers were Mark Tillman, Pete Perez, Don Olson and Mike Schneider.

Tambunga was the leading rusher with 271 yards in 25 carries. Tillman was second with 61 yards in 5 carries and Stuart third with 37 yards in 6 carries.

Heading up the super Lion defense was David Pagan with 14 tackles and an interception, followed by Tom Davidson with 11 tackles. Gerald Huff and David Sewell both had an interception to their credit and Stuart recovered the lone Iraan fumble.

### 2 Ozona Students At Tech Institute

Waco, Texas - M. E. (Sooner) Williams and Gale W. Cavanaugh have enrolled at the James Connally Campus of the Texas State Technical Institute in Waco.

Sooner's major course of study is civil and highway technology. He is the son of Mr. and Mrs. Gene Williams of Ozona.

Gale's major course of study is commercial art and advertising. He is the son of Mr. and Mrs. Bill Cavanaugh.

TSTI opened its fifth year this fall with a total of 57 different courses of study. It is the state's first technical institute.

The multi-campus technical institute also included the Mid-Continent Campus at Amarillo, the Rio Grande Campus at Harlingen, and the Sweetwater facility at Sweetwater.

WHO WANTS TO BE PRESIDENT?

It used to be that every proud Mother and Pappy wanted their offspring to become President of the United States. But with things the way they are these days, maybe that is changing. One sure way to get blamed for everything is to be President.

Inflation? It's the President's fault. Unemployment? That's his fault, too. The war in Vietnam? Everybody knows he's to blame for that.

Violence, bloodshed and rioting on college campuses? The President is at fault—too much rhetoric. The strike against General Motors? Not enough rhetoric. High taxes? Who else? Increased government debt? Well, if the President had insisted on even higher taxes, for which he will be blamed anyways, then maybe he wouldn't be blamed for both higher taxes and a bigger debt.

Noting the blame laid at the doorstep of the President, the Walla Walla (Washington) Union-Bulletin declared "A national columnist has put his finger on the real cause of much of the trouble in the Middle East. It is, he said, the 'ineptly conceived' Nixon Administration peace plan.

"The logic of this assumption," the Union-Bulletin guessed, "is that the Palestinian guerrillas, alarmed at the prospect of a peace which would prevent the obliteration of Israel, had no choice but to start hijacking airlines and to precipitate a civil war in Jordan.

"Presumably, too, had the President not pressed for a ceasefire between Israel and Egypt, the latter would not have been placed in the position of having to violate its conditions in order to move new anti-aircraft rockets into advantageous position.

"With what a President can be blamed for, you wonder sometimes why anyone should want the job," concludes the Union-Bulletin. "Although the pay and fringe benefits may be attractive, the hours are lousy."

THANK YOU, JOHN PETER ZENGER

Every now and then we pause to thank our lucky stars for John Peter Zenger who nailed down the right to freedom of the press back in 1735. And we sometimes shudder to contemplate what it must be like in totalitarian countries today where editors are forced to work under a system of government controlled communications.

Our present reflections upon these matters were triggered by the rhubarb over the so-called "fairness doctrine" enforced by the Federal Communications Commission — the FCC. Said Commission has the power to grant or deny licenses to radio stations, without which said radio stations cannot go on the air. It is an open and shut case of: what the Government giveth, the Government can taketh away.

The FCC says that the Fairness Doctrine means that every radio station "must seek affirmatively to encourage and implement the presentation of contrasting viewpoints." This sounds all right in theory, but in practice it means that the government has the ultimate power to determine what is "fair."

Specifically, the FCC recently refused to renew the license of radio station WXUR and WXUR-FM in Media, Pennsylvania.

Reason? In the words of the FCC: "Broadcasters on WXUR took the consistent position that the Vietnam War is a war solely against Communist aggression; that the United States should do everything in its power to achieve a triumphant military victory; that the war and especially the bombing of North Vietnam should be escalated; and that individuals who suggest a policy other than total victory are appeasers playing into the hands of the Communists."

Now, whether you agree or disagree with the viewpoints expressed over WXUR is not the question. The terrifying point is that a government bureau can and does claim to exert such absolute control over free speech that such views are, in fact unfair — "verboten" — forbidden — the owners cannot go on the air, the employees are to be fired and must seek employment elsewhere.

We shudder to contemplate the consequences if all newspapers were controlled by a government "license" to publish, with complete power to control everything printed in accord with government determined rules of "fairness," and with a government watchdog stationed in each shop to monitor every edition.

Thanks in great measure to John Peter Zenger, we still have a free press in America.

Bride With a "Past"

When Ernest asked Jane to marry him, she lost no time in saying yes. Furthermore, she took pains to tell him what a loyal and devoted wife she would be. But she left out one small detail: she was already expecting a child by another man.

Not long after the wedding, Ernest became aware of his wife's condition. Understandably indignant, he hurried to court to demand an annulment on grounds of fraud.

However, Jane was not willing to give him up. "I told him no lies," she pointed out in her own defense. "Ernest just never asked questions."

about my past. Surely a girl is not required to confess everything she ever did wrong." Nevertheless, the court ruled

FOLLOWING IN HIS FOOTSTEPS

that Ernest was indeed entitled to an annulment.

"The first purpose of matrimony," said the court, "is procreation. A woman, to be marriageable, must be able to bear children to her husband, and a representation to this effect is implied in the very nature of the (marriage) contract."

True, the law does overlook a certain amount of "the deceptive arts" in matters of romance. It recognizes that each party will naturally try to put his best foot forward. But an annulment will be granted if the deception involves something truly basic to the marriage relationship, as in the case of Ernest and Jane.

Suppose the child that is expected is the husband's, not some other man's. Could he still get an annulment, merely because his bride did not tell him the facts before the wedding?

The courts have said no. They note that her deception does him no great harm, because he would be legally responsible for the child anyhow.

What if the situation is just the opposite? That is, the girl is not expecting a child at all but tells the man that she is—and that he is the father.

In this situation, too, most courts have refused to grant an annulment. As one court put it, the husband should not expect the law to rescue him from a predicament made possible by his own premarital misconduct. He had, said the court, "created his own dilemma."

A LOOK AT CAPITOL HILL WITH Dick Gill YOUR CONGRESSMAN

FOR THE '70s AND BEYOND
One of the major points of President Nixon's war against crime is his efforts to reform the Bail Reform Act. The Bail Reform Act of 1966 requires that federal judges cannot consider a criminal suspect's dangerousness in setting bail.

Recently, U. S. District Judge George L. Hart told a Senate committee that the Bail Reform Act has permitted rapes, armed robberies and attempts at murder that otherwise could have been prevented. And, according to Washington D.C. Chief of Police Jerry Wilson, criminals in Washington, frequently get out on bond under the Bail Reform Act to commit more crimes.

The Nixon Administration asked Congress to act quickly on its anti-crime legislation; Congress has dawdled. The Democrats are playing politics with the public's safety by sitting on the Nixon Administration's crime package, and O. C. Fisher — who voted for the Bail Reform Act in 1966 must share part of the blame for this intolerable state of affairs.

A re-run of "The Ozona Story"

A re-run of "The Ozona Story" as gleaned from the files of "THE OZONA STOCKMAN" Thursday, Oct. 16, 1941

To avoid further delays in waiting for positive action by the State Highway Department, Crockett County has ordered paving of 21 miles of Highway 163 from Ozona south toward the Val Verde county line.

Ozona was literally invaded Monday afternoon and night by some 5,000 of Uncle Sam's soldiers, members of the First Cavalry Division, U. S. Army, who stopped here on their way back to Fort Bliss in El Paso from the army maneuvers in Louisiana.

Crockett and Pecos Counties are collaborating on a project for construction of a bridge across the Pecos River at a point below Iran.

A German band, composed of six members of the Ozona High School band, under direction of Cyril Pingelton, band director, provided entertainment for members of the Ozona Rotary Club at its luncheon Tuesday noon.

First of a series of weekly sessions on Scouting was held in Sonora Tuesday night with about 20 men attending. Boyd Lovelace, Neighborhood commissioner of Scouting in Ozona, presented one of the lectures.

Fire prevention posters were made by Ozona school children this week. Cash prizes, totaling \$4.50 were given by the Rotary Club.

Pvt. Clifton Tallafiero, son of Mr. and Mrs. C. W. Tallafiero of Ozona, left Sunday to return to his post at Ellington Field, Texas, after spending a few days here with his parents.

Mr. and Mrs. Monroe Baggett have moved into their beautiful new brick home recently completed in the southeast part of Ozona.

Mrs. Sherman Taylor is home after spending a week in a San Angelo hospital.

Mr. and Mrs. Oscar Kost are adding a room to their home here.

Miss Ethel Mayes, daughter of Mr. and Mrs. Hudson Mayes and an Ozona High School pupil, is able to be home after undergoing an operation for appendicitis in a San Angelo hospital.

Mr. and Mrs. Doug Kirby are having their home remodeled.

WASHINGTON NEWS LETTER

Cong. O. C. Fisher

A trade bill, which deals with oil, textile and shoe imports, is now on the House calendar where, according to present plans, it will be debated after the General Election.

The measure would place legal limitations on oil that is brought in, along the line of the voluntary quota system which was begun during the Eisenhower Administration. This should add stability to a sagging domestic industry, and help to prevent policy changes without the consent of Congress.

The dumping of low-cost textiles on U. S. markets has forced the closure of scores of domestic mills in this country. The pending legislation would require a leveling off of such imports, and hopefully save many mills from bankruptcy. Close to half of the woolen mills in America have been forced out of business during the past 20 years, due to excessive low-cost imports. This deprives wool and mohair growers of market outlets, and contributes very directly to the slump in domestic prices.

Regarding wool and mohair, a House-approved bill extends the Wool Act for three years. This program, which is financed solely by import duties on competitive products, has provided a measure of stability to our growers. In these uncertain times it is considered quite essential that it be continued.

LETTER TO THE EDITOR Dear Editor—

The Ozona Stockman: Please find inclosed a check for twelve dollars which will pay for my subscription up to 1971.

The Ozona Stockman is like a letter from home and we always look forward to getting it (Saturdays).

I enjoy reading Kitty's Corner, especially in the last issue. I made a trip to Tucson, Ariz. the first part of November four years ago, I went by bus. I could have flown, but I wanted to see the country. I love traveling by car or bus. It was a nineteen hour trip and I met some lovely ladies both coming and going. My sister and her husband took me over 100 miles to see a copper mine, and what a sight to see, a great basin in the ground with men and trucks busy as bees. Arizona is a beautiful state but I prefer Dallas as it is home. Also, our four children live in Texas. Joe across the driveway, Margaret lives a block away, John D. and wife live in Port Arthur and Pat and husband in Beaumont. We are a happy family.

Kitty, your telling of your trip prompted all this writing. I believe you are a mighty good neighbor to your neighbors. I'd like to have you for a neighbor.

Love and best wishes to all of you.

Sincerely, Mrs. J. S. Whatley

Ed, note: The Whatleys were Ozona residents several years ago. I am sorry I did not have the pleasure of knowing them. A happy family is a wonderful asset.

RECIPE OF THE WEEK

From Kitty's Kitchen

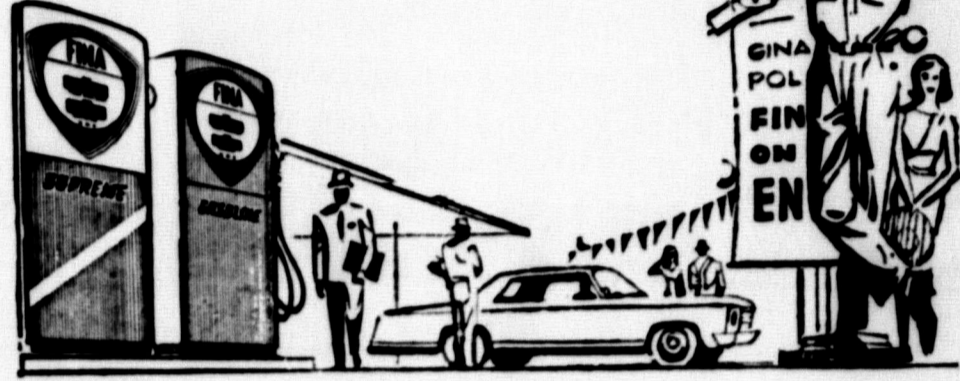

I tried the following recipe last week after copying it from a television program during my noon hour. We loved it and there isn't much work to it after you cook your chicken.

- Mexican Chicken: 1 fryer, boiled and cubed, 2 cups chicken broth, 1 (3 1/2 size) pkg. tortilla chips, 1 medium size onion, chopped, 1 medium green pepper, chopped, 1 can Rotel tomatoes, 1 can cream of chicken soup, 1 can cream of mushroom soup, 1/2 pound of cheese. Spread tortilla chips in shallow baking dish. Take two cups of stock from chicken broth and pour over chips. Cover with chicken which has been boiled, boned and cubed. Sprinkle over this chopped onion and bell pepper. Mix tomatoes, and soups together and pour over top. Sprinkle grated cheese over this and bake one hour in 300-degree oven. A tossed salad is all you need with this dish.

Warm, Fresh Air ... direct from the manufacturer

Natural gas is the healthiest, most economical way to heat your house this winter. Gas is economical because it's the direct way to produce heat - you don't pay to convert heat to another energy source and then back to heat. And with gas you can afford to bring clean outside air into your home this winter instead of having to re-heat the same old stale air time after time.

So, if you're building or remodeling, be sure to specify gas heating. Gas is the "natural" fuel. It's like buying direct from the manufacturer. Call your heating contractor, plumber, or Pioneer Natural Gas.

PIONEER NATURAL GAS COMPANY

don't knock it

Maybe you don't like rock and roll, but there's vibrancy to its beat that lets kids express themselves. Even if it isn't your kind of music it's their kind of music. Perhaps the "generation gap" may be narrowed slightly if you'll listen.

Life, remember, is a process of give and take. Adults and teenagers have to give a little if they are going to reach mutual understanding. If, in the beginning, you've given the basic things - like faith, love and respect, then you've nothing to worry about.

But it's never too late. For instance - have you gone with your teenager to church lately?

## WASHINGTON AND SMALL BUSINESS

It's quite famous, the sourdough French bread that is baked and enjoyed in San Francisco. For many years, going back a century or more, all visitors to the city by the Golden Gate have exclaimed over this bread, and it is a favored item on the dinner tables of the residents of the Bay Area. Its flavor and texture are most distinctive, and it perhaps has only one drawback. It does go stale quite rapidly. But because it is so distinctive, and so well liked, people going through the San Francisco airport remember that it is for sale to people on departing planes to take home with them. Of course, there is quite a premium price of 75 cents per loaf which is about double the normal grocery store price. Yet people ready to airplane buy the bread at this price. Nobody knows why this particularly flavored bread is produced only in San Francisco. Some say it is old fashioned brick ovens, some say that it is due to the peculiar qualities of the Bay Area atmosphere which produces a distinctive yeast culture, and some give other reasons, but the mystery remains. Why is the true sourdough French bread a San Francisco institution found nowhere else? Big baking organizations, and bakery supply firms, have spent substantial sums seeking to find the answer. Obviously any big national baking organization that could find a way to duplicate a loaf of bread that has a wide appeal, would carry a premium price, and would stake quickly would be on the road to greater profits. But alas and alack. The mysterious alchemy that produces this unusual bread has eluded even the most profit hungry private enterprise. However, with that peculiar twist of mind that prevails in government circles it was apparently decided that government money is more effective than private money. So the government has given a grant to a university of \$49,000 to learn the secret of San Francisco French bread. To make the matter all the more confusing, the grant did not go to a California school but to one in a neighboring state. Presumably, if the answer is found, it will then be released for the added profits of all baking organizations. If government succeeds in discovering the mystery of the flavor of San Francisco French bread, it will be interesting to see the public reaction. Will people in the East dance in the streets because they can now enjoy the San Francisco type sourdough French bread? Or, could they become a little sour over this use of their tax dollars?

### Ozona Girl With HSU White Horse

Ablene, Tex. -- Eight Hardin-Simmons University coeds have been selected for the 1970-71 White Horse Riders who traditionally ride at the H-SU Rodeo and Parade and at area rodeos. This year five White Horse Riders and their sponsor, Mrs. Barbara Currie, will accompany the Cowboy Band to New York City to ride in the Macy's Thanksgiving Parade. Among those going to New York City are Kay Witter, senior of Childress, who is beginning her fourth year as a White Horse Rider. A third year rider, Lois Dunn, is a junior of Comstock and the 1970 Hardin-Simmons University Rodeo Queen. This is also the third year to ride with the unit for Patsie Greer, a junior of Abilene. Sophomore Chris Clegg of Ozona is a second year White Horse Rider. Paula Birdwell, freshman of Silverton, is beginning her first year as a White Horse Rider. Other riders are Cindi Wiley, freshman of Merkel, Paula Wooten, sophomore of Haskell, and Pam Brunson, senior of Whitchita Kan.
