Anyone had any hopes for the United Nations as a peace force, I trust the past has awakened them to that the Indian-Pakistan will be over and before that organization with a solution. They are still working on a plan to the Israeli-Arab and that only took six days was several years ago, but organization has been whatsover in the Viet conflict. We must come to the conclusion that as a world peacekeeping force, it's a colossal flop. The elimination of the Aid, we might possibly look forward to the nation of the U. N., since it's 600 million over one-third of the world. However, new foreign aid bill is its ugly head, it just goes on forever. In consolation, the bill cut funds to the U. N. in half, I don't have a cure handy, but it goes something like this "instead of \$10 billion annually earmarked for the U. N., the appropriation has been cut to a \$50 billion." Oh wow! Making of foreign aid, you run to the big city for your Christmas shopping, a good look around Ozona

There are many advantages in your purchasing power in your own home town. You are usually helped by a sales person whom you are fairly acquainted with and they put forth the utmost to see that you find just what you are looking for and substitutes. Many times they take a phone call and your merchandise the next day, so if it's not in stock, you can almost always find it in place and you don't have to pay for it either. Also, Ozona you don't pay that penny on the dollar for sales tax. Why should money be spent for parking meters and taxes that go to up a city which does absolutely nothing for you. Sort of, isn't it? Another advantage in shopping in your own home town is that you can do so at leisure. You don't have to deal with the crowd and exhaust

If you think you save money in the city to shop, think again. By the time you fill up your gasoline here, drive through hundreds of blocks trying to park, then fill up for the trip home, you've spent a tidy sum. This doesn't take into account the parking meters and the city sales tax much less the used up leather. I think we are all aware in Ozona we lack the vast selection of merchandise to find in a city, also there are more places to look through these large selections. In the long run, you usually only one of a particular item, and if you are like me, many to choose from makes shopping more of a chore. Of course, if you happen to be in the city anyway and have the nerve and courage to brave the crowd, you can probably find some items you can't get here, and they might be a few dollars cheaper. But do remember, the dollars you spend at home stay at home. They benefit you and your family as well as yours. So before you plan a Christmas shop, look around at home. I have, and merchants have the best selection this year ever. You get some ideas from our Christmas page. We would appreciate your shopping with our customers and I am sure they will.

No matter what the song is, you can put them in the refrigerator. They are fully ripe. But, if you store them in sealed containers so odor won't transfer to other foods.

Vargas Indicted For Murder, Two for Dope

Judge Charles Sherrill of Fort Stockton impaneled the 11th District Court grand jury for the September term here Friday morning.

The grand jury returned two indictments, one against an Ozona man on a charge of murder with malice and the other charging two men with possession of marijuana.

Felipe Vargas, III, was indicted on a charge of murder with malice in connection with the shooting death of Lupe Fierro November 14, three miles east of here on Hwy 290. Vargas has been hospitalized with a heart condition since the night of the shooting and a date for the trial has not been set.

According to statements by Vargas and his 14-year-old son, Raul, the shooting took place as the two men were struggling at the roadside. Fierro was alive when the ambulance arrived at the scene, but was pronounced dead on arrival at Crockett County Hospital.

The other indictment named Stephen F. Layton and Douglas K. Layton, both of San Antonio, as charged with possession of marijuana.

Named to grand jury duty were Mrs. Bill Clegg, Joe Tom Davidson, Robert Flores, Mrs. John Lee Henderson, Mrs. Stephen Perner, Hillery Phillips, Mrs. Eloise Ramos, Bill Taylor, Dick Webster, A. S. Lock, Robert Ogelsby, and Mrs. Jack Baggett.

AGNEW A BIG G.O.P. FAVORITE

Vice President Spiro Agnew is the choice of an overwhelming majority (76.5 per cent) of the delegates and alternates who attended the Republican National Convention in 1968. They feel not only that he should be renominated with President Nixon but that his absence from the ticket (71 per cent) would hurt its chances in the national election of 1972. The figures were gathered in a survey by Human Events, Washington-based news periodical.

This is of interest at this time when Secretary of the Treasury John B. Connally's name is being mentioned frequently as a possible running mate for President Nixon in 1972. Mr. Connally is a Democrat. Presumably he would become a Republican in the event he ran on the Republican ticket. He is said to have set forth the condition that, if he did run with the President in '72, Mr. Nixon would agree to support him for the Presidency in 1976.

Politics makes strange bedfellows, and remarkable switches do take place in these swirling times. Vice President Agnew has made a great name for himself, and has been the countervailing influence in a Republican Administration that has outdone the Democrats in money spending and concessions to the Communist powers. Mr. Agnew still seems a good bet in the Republican Convention next year.

THE CAUSE OF CRIME

One of the greatest causes of crime is salacious literature. The right to have pornography all over town is the right to destroy our country from within. Americans spend two billion dollars a year on pornographic literature. If the filth merchants traded only with adults, it would be bad enough. But three-fourths of the pornography in the United States falls into the hands of young boys and girls in their early teens.

To sit back "openmindedly" and conclude that smutty literature has its place is to condone national suicide. As James Kilpatrick pointed out in *The Smut Peddlers*: "The heart and soul of this racket is not the grown-up sucker. It is the curious child..." Police officials point to the results: rebellion against authority, social disease; homeless children; shattered lives of unwed parents; an expanding population of sick perverts; a self-indulgence that condones adultery; and the destruction of the home.

Psychiatrists point out that pornography is undermining the mental health of hundreds of thousands of teenagers. The chief psychiatrist of the Philadelphia county court recently declared that pornography is the greatest single cause of sexual immorality. Detective Austin Duke of St. Louis maintains: "I have never picked up a juvenile sex offender who did not have this stuff with him, in his car, or in his house."

No one is on the firing line more than the judges who man the juvenile courts. They pointed out at their national conference that salacious literature has had such a profound effect on our society that it is changing the very character of juvenile delinquency. J. Edgar Hoover put it very briefly: "Sex-mad magazines are creating criminals faster than jails can be built to house them."

Other nations have often wondered why America has the highest crime rate in the world, and why our youth play the leading role in this gruesome drama. How can we account for this precocious perversion and youthful addiction to crime? The greatest cause is indecent literature. But why has pornography been permitted to run so rampant? The answer is threefold: its profits are enormous; it has some of the sharpest legal talent in the country behind it; you and I have done little or nothing to prevent it.

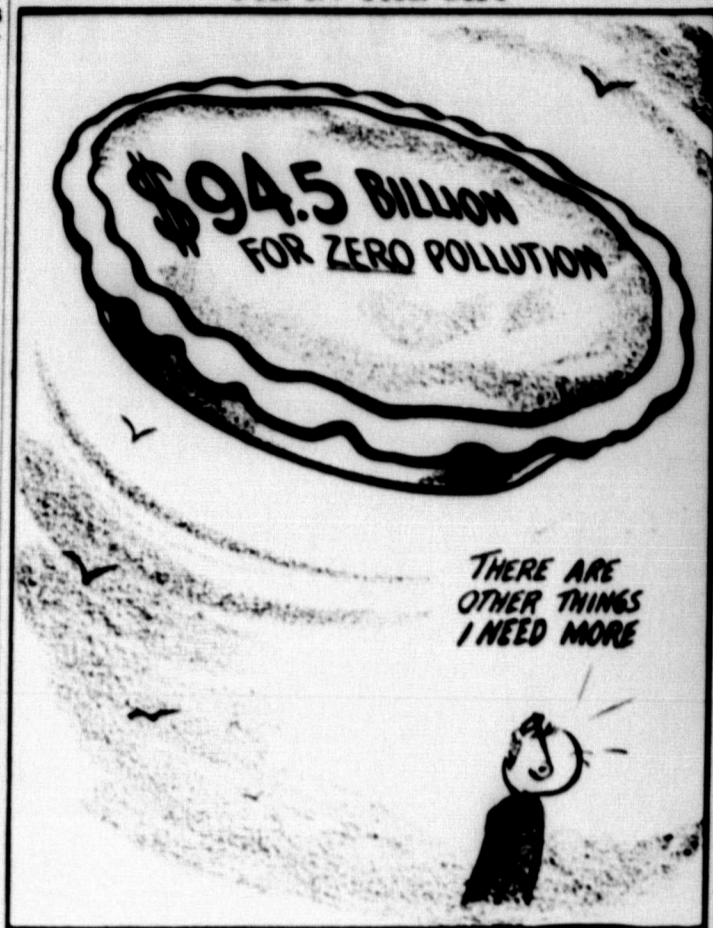

The solution must be found on the local and national level. Local groups are being formed all over the country to hit the purveyors of smut in the pocketbook, the only place they understand. Cincinnati has formed a *Citizens for Decent Literature organization*. It publishes a *Handbook of Procedures* that is helpful for any city (3300 Carew Tower, Cincinnati, 25c a copy). Local postmasters can be helpful if they are kept informed.

Interfaith groups have banded together to fight the problem. This is true ecumenism. If we are to unite with others on anything, we should unite against the forces of evil, and for preserving what is good.

RUMMAGE FOR RESEARCH SALE REPORT

The Crockett County Unit of the American Cancer Society raised a total of \$609.40 at the sale held last weekend in the shopping center. The money will be used in research for a cure for cancer.

Mrs. C. E. Davidson, III, chairman of the annual sale, Mrs. M. E. Nicholas and Mrs. Charles Williams, expressed appreciation to all those who contributed items for the sale and the many customers who supported it.

The final analysis for District Directors on the 1970-71 year was received recently by Mrs. Nicholas early this week. According to the report,

District 4, of which Crockett County is a member, was first in state in per capita funds raised in both crusade funds and memorials. Crockett county alone ran fourth highest in the shopping center.

The educational program is progressing well, according to Mrs. Nicholas. She cited a recent program given at the Rotary Club and the showing of a mobile exhibit on uterine cancer in the Village during the recent sale. A program will be presented to the Baptist Women and their guests December 15.

Mrs. Nicholas returned to her home here today after attending state committee meetings in San Antonio Tuesday and Wednesday.

DRIVE FRIENDLY takes on a new dimension as Jene Kincaid of El Paso makes a pointed plea for Texans to heed the message of the world's heaviest billboard. Erected during a highway construction project on Interstate Highway 10 in El Paso, the 210,000 pound steel beam billboard is 45 feet above the ground. Using the beam for the Drive Friendly message was the brain-child of J. D. Abrams, President of the El Paso Traffic Safety Council, who says that driving friendly means not driving while under the influence of alcohol or drugs.

Lionettes Break Even In Week's Cage Play

Mrs. Susan Webb's Lionettes varsity won one and lost one during the past week and the B team suffered defeat for the first time this season.

Last week the Lionettes downed Sonora 67-42 on the Sonora court. All three of the starting forwards for Ozona were in double figures, wishing the nets almost at will. Mary Jo Hyde hit for a fantastic 27 points to take game honors. Jan North hit for 16 points for the Lions and Christy Davidson, 12.

Dana Collett, Nelly Sanchez and Rita Welty were outstanding in the guard slots.

Other Lionettes scoring were Edna Gonzales 5, Stacy Dockery 5, and Mary Jo Hayes 2. Fannie DeHoyos, Bridget Dunlap and Anne Tillman also played for the Lionettes.

After taking a big win from the Sonora crew early in the season, the Lionette B lost a

44-30 bout with the Sonora girls for their first defeat of the season. Jan Peltó led the Ozona girls with 20 points, Kay McMullan and Debra Clayton had 4 each and Teresa Shaw 2. The Sonora forwards had a consistent attack.

The Lionettes led the Comstock girls at the end of every quarter Monday night, only to lose in the final few minutes of the game in a real heart-breaker. The Lionettes held a 25-22 lead in the fourth quarter and after see-sawing back and fourth, the Comstock team won 31-28. Jan North was high point girl for the game and for the Lionettes with 14 points. Mary Jo Hyde hit for 10 points and Christy Davidson for 4.

Dana Collett, Stacy Dockery and Nelly Sanchez were outstanding in guarding the taller Comstock girls.

The Lionette B ran its season record to 3-1 with a 38-14 win over the Comstock B.

Debra Clayton led in scoring with 12 points, followed by Jan Peltó with 10, Kay McMullan with 6 and Teresa Shaw with 4. Sally Bailey and Martha Cantu had 2 points each.

Responsible for Comstock's low score of only 14 points for the night, were Ann Glynn, Sharron Fierro and Sylvia Flores.

Two other delegates from Ozona, Mary Frances Martinez and Melissa Zapata, will make their reports during the holidays.

Organizational leaders Miss Ethel Wolf and Miss Dorothy Price discussed several new projects in the making and it was announced that prizes have been donated by South Texas Lumber Co., Foxworth-Galbraith, and West Texas Utilities, for the Christmas Decoration Contest.

WASHINGTON NEWS LETTER

By Congressman O. C. Fisher

By a margin of nearly two-to-one the House last week voted -- again -- to outlaw school busing when done solely for racial mixture purposes. This was an amendment to a higher education aid measure.

Members from the north and west, who in the past when compulsory busing applied only to the south, always voted for busing, for the first time in history voted for the anti-busing amendment. This switch-over was directly due to recent busing orders in their own bailiwicks, which triggered outbursts.

The Soviet Union suffered a bit of an economic set-back last week when the House okayed a Senate-approved provision ordering removal of a U. S. imposed boycott against importation of chrome ore from Rhodesia.

Chrome, of which we produce none, is a required ingredient in the manufacture of stainless steel. Most of the world's supply is found in Russia and Rhodesia.

Our embargo against trade with Rhodesia 5 years ago, from which we previously obtained most of our chrome, gave the Russians a real wind-fall. Since 1967 the price of this ore jumped from \$29 to \$72 per ton, and 60% of our imports had to come from the USSR.

The boycott was imposed by the UN, and this country followed suit. Other UN members, like Japan and Russia, used better sense and continued to import chrome from Rhodesia during this period.

Ever since 1967 a good many of us have insisted our government should not impose such a ridiculous restraint upon Rhodesia, a friendly democratic and anti-communist country. It took an Act of Congress to remove it.

Students who are interested in applying for temporary government employment next summer are urged to make application early. Details of procedure may be obtained by writing us. Application forms, according to an announcement by Civil Service, may be secured at the Post Office at Del Rio, Kerrville, and San Antonio.

Population explosion -- The Census Bureau has just reported that the U. S. population in the year 2000 is expected to be at least 271 million and as much as 322 million -- an increase of between 32% and 57% above official 1970 population of 204.8 million -- a slight increase over previous estimates.

THE FAMILY LAWYER

Father to the Rescue

Suppose a man sees his son being beaten up by the neighborhood bully. Does he have a legal right to use force in his son's defense?

He does indeed. Parallel to the right of self defense is the right to defend the members of one's family, with force if need be. This doctrine goes all the way back to the days of feudalism, when the master of the household was legally entitled to protect his family from attack.

But in such situations, there is always the chance of escalating the violence. Therefore, the law places careful limits on this right of family defense.

1) The force used must not be excessive. For example:

A father found his son involved in a fracas with the man next door. Rushing to the rescue, he knocked the man unconscious with a mighty blow on the head. Then he followed up with a swift kick in the abdomen.

For the resulting internal injuries, the father was duly held liable in court. The right to defend his son, said the court, did not include the right to kick someone who was lying on the ground unconscious.

2) The force must be used only to defend, not to "get even." In another case, a father found out that a certain teacher had slapped his son in class. Days later, meeting the teacher on the sidewalk, he punched him in the nose.

Could the father be held liable? Again, yes. The court said that since the boy was in no danger at the time of the punch, the father's action could not fairly be called defensive.

3) Many courts add that the father's right to use force is no greater than the child's. Thus:

A belligerent teen-ager deliberately picked a fight with another youth. But by the time his father came along, he was already getting the worst of it. The father promptly slugged the other boy with a rock.

Sued later for damages, the father claimed he had acted to protect his son. But the court held him liable anyhow. The court said that, in terms of the right to use force, he "stood in his son's shoes" -- that is, in the shoes of the aggressor.

Tips For Gardeners

From The Ozona Garden Club
 By Mrs. Bailey Post

For many of your friends and kin you might make Christmas a gardening affair. There are so many creative gifts you can make yourself, as well as the always welcome gifts of shrubs, trees, roses, bulbs, books and houseplants.

Also for the patio are tables, chairs, containers, attractive planters, hanging baskets, chimes, and many accessories for birds. Statuary and fountains always add interest in both small and large landscaped gardens.

In most magazines you can find pictures and directions for making very attractive wreaths for outdoors or indoors. Those using dried seed pods, pine cones, nuts, etc. can be made now. Also beautiful sprays or wreaths can be designed out of the many different varieties of evergreens available at Christmas time.

If you have never grown paper white narcissus, try it for an exciting winter project. Select a bowl about six to eight inches across and several inches deep. This size should hold seven bulbs and make a pretty group. Collect pretty pebbles in assorted sizes from one-fourth inch to one inch in diameter. Line the bottom of the bowl with 1 1/2 inches of pebbles. Place the bulbs pointed end up on this layer, spaced about an inch apart. Then add more pebbles around and between the bulbs to anchor them in place. But do not cover the bulbs completely, let top half or two-thirds stick out. Put water in the bowl so that it comes just up to the base of the bulbs. Set the planted bowl in a dark cool place for about three weeks. Perhaps a closed closet, basement or attic, just so they won't freeze.

Temperature should average around 50 degrees. Check on bulbs every week to be sure there is still water in the bowl, and keep the level just at base of bulbs. They will make a lot of healthy white roots. As they swell and make roots the bulbs move upward. Leaves will start to grow. When they reach a height of about an inch, and when you can see many roots through the pebbles down below, move the bowl to a place on a bright cool window sill. Turn the bowl around everyday to keep the stems straight. Now watch for bud stalks and add a little water when needed. If stalks grow too tall, it is because the room is too warm, so find a cooler bright window. If you start bulbs in November or December they will probably bloom in four or five weeks. If you wait until Jan. to start they may bloom in as little as three or four weeks. An ideal way is to start a new bowl or pot every two weeks.

"What goes on in the beauty parlor? Bet you hear all the gossip in town." That's what my husband says.

Well, I'll admit — there is talk. When people get together — whether in a beauty parlor, a barber shop or, in the old days, around the cracker barrel in the general store — tongues start flying. It is human nature to talk, to criticize, to complain.

But isn't it refreshing to hear something good about someone? Sometimes it takes a lot more strength to say something good than something bad! Sometimes it takes more strength to stand up and be counted as a churchgoer than it does to sit on the sidelines, espousing neither faith nor cause.

Which side are you on? If you're not sure, why not cast your vote for the Church? Try it next Sunday.
