## Kitty's Korner

by  
Kitty Montgomery

As long as I can remember Fire Prevention Week was highlighted with the annual Fire Prevention Poster Contest. It offered creative competition for the school children and created interest in the community. For the past couple of years, the poster contest has been done away with locally, and it leaves Fire Prevention Week sadly lacking somehow, in this writer's opinion.

To all inquiries, the answer has been "too busy for poster making." I take this to mean "too busy with athletics." I know of no extra-curricular activities, with the exception of athletics, that take up the time of children from grade school through high school so thoroughly. This makes me wonder what secondary education is coming to. Many years ago courses such as handwriting and art were laid aside. Debate clubs and Drama Clubs have also been cast aside, at least in this area of the world.

This has created a whole generation of illegible handwriting, ignorance of the old masters, inability to get a point across and poor public speakers. In other words, the children of today are not getting a well-rounded education in preparation for college or just to get out in the world on their own. So much emphasis on sports can only prepare the child for a major in physical education.

This was brought home to us with a bang some four years ago when our son went off to the University with all his letter jackets, golf trophies, etc. He found out that with all his years lettering in football, basketball and track, he could buy a cup of coffee for all these and 20¢, and he was a cum laude graduate of the Class of '71, Ozona High School. I couldn't and still can't read his letters home. He had a tough first year. He was required to write a theme a week in English. In high school he had written one term paper to my certain knowledge. As far as I know he was never required to memorize anything. He will graduate this semester "with honors" and it has been up hill all the way. His degree does require two semesters of P. E. which he sailed through with "A's" but no grade points and no credit for hours were given.

I do think sports have their place. Physical competition is good for girls and boys of all ages, and it's good to have team spirit. But mental competition is also good for all ages, and far more important in the long run.

DIESEL TRUCK FIRE NEAR OZONA HELD UP TRAFFIC for several hours on Highway 163 three miles north of here. The driver was trapped in the overturned truck cab. Firemen managed to douse the flames in what remained of the cab, but boiling black smoke and roaring flames continued in the tank, in back, until

the fuel was gone and the tank melted to the ground. The truck was traveling to Ozona to make a diesel delivery when the driver failed to negotiate the turn off the Big Lake highway and crashed. An eye witness said the truck burst into flames immediately following the crash.

## Lions Squeak By Iraan 7-6 In Homecoming Tilt; Brady Fri.

The Ozona Lions managed a victory of one point in their homecoming game against the Iraan Braves Friday night. The Lions will host the Brady Bulldogs in Lion Stadium Friday night. The Bulldogs were beaten by 7-AA Reagan County last Friday night and will be out to revenge the loss.

In the game with the Iraan Braves, both teams were lack-luster during the first half of the game. It was three downs and a punt on each side for uneventful first half, and half time came with 0-0 on the clock.

Rousing halftime activities gave the home stands something to cheer about. The Ozona High School Band put on an outstanding half time show for homecoming and received a standing ovation from the near capacity crowd of an estimated 3,600, closing with a fire twirling show from the twirlers. In pre-game activities, Kathy Sewell, daughter of Mr. and Mrs. L. T. (Rip) Sewell, was crowned football queen. Kathy was selected by vote of the team.

Other contenders were Karen Bebee, Dawn Burns, Carmen Galvan, and Lupe Tambunga.

The Lions lone score came in the third quarter. Obviously fired up by the festive half time activities, the Lions took the opening kick off and marched 70 yards downfield to score. Quarterback Greg

## First Baptist Revival Begins Sunday

Rev. Jim Hancock will return to Ozona and be the evangelist for the revival at the First Baptist Church. The meeting will begin Sunday morning, Oct. 12, and continue through Sunday, Oct. 19.

Rev. Hancock, formerly a pastor of the church here, is presently pastor of First Baptist Church in Canyon.

Mike Jefferys, music director at First Baptist, will direct the music during the nightly services, which will begin at 7:30 p.m. each night.

The public is cordially invited to attend all the meetings. The nursery will be open for each service.

Thompson scored from eleven yards out on a keeper. John Galvan split the uprights for the point after and the Lions were out to a 7-0 lead.

Victory almost slipped through the hands of the Lions when the Braves blocked a punt on the Lions' 18 yard line late in the fourth quarter and went on to score. When the Braves tried for the win by running for the two points, they were stopped in their tracks by Lion defenders, and victory was salvaged.

Outstanding on defense for the Lions were Henry Fay with 17 tackles, Gary Warren with nine and Gene Castro with 8. Warren was also the leading rusher, gaining 62 yards on 13 carries.

The Lions had 11 first downs to 9 for the Braves. The Lions had 200 yards rushing and 4 yards passing for a total yardage of 204, while the Braves picked up 105 yards on the ground and 46 in the air for a total of 151 yards. The Lions completed 2 passes out of six attempts and had one interception. The Braves attempted 8 passes and completed 3 with no interceptions. The Lions lost one fumble and the Braves none. The Lions had 11 penalties for 106 yards and the Braves were penalized 4 times for 37 yards.

## Graveside Services For Capers Infant

Graveside services for Matthew Lee Capers, one-day old infant son of Mr. and Mrs. Jerry Capers, were held Wednesday morning, October 1, in Fort Stockton. The baby died Monday in an Odessa Hospital.

Mr. and Mrs. Capers moved to Ozona recently from Fort Stockton. He is a deputy sheriff in the Crockett County Sheriff's Department.

## Girls P.E. Physicals Set For Mon.

Physicals for all high school girls, who plan to participate in any sport for the 1975-76 season, will be given at 6 p.m., Monday, Oct. 13 in Doctor David Blanton's office.

Girls' coach Sandy Tarno urges all girls who plan to take part in any sport to meet promptly at 6 p.m., at the doctor's office.

## Soil Conservation Election Tuesday

Qualified voters of subdivision 2 of the Crockett Soil and Water Conservation District will elect a director for this zone on Tuesday, October 14, 1975 at 10:00 a.m.

A tour, by all interested people, will leave from the S. C. S. office at 8:30 a.m. to observe Mesquite grubbing and range seeding completed this year on the Henry G. Moore-Buckhorn Ranch- 6 miles east of Midway Lane. Conservation and Range management practices will be observed at Moore's from 9:00 a.m. to 10:00 a.m. The election for Director subdivision 2 will be held at the Moore Ranch from 10:00 a.m. to 10:15 a.m. After the election, the group will leave and proceed to the R. L. Bissett Ranch, 4 miles North of Midway Lane, to observe results of aerial spraying with

Torolon, applied in 1973, on Mesquite, Pear, and Tamarillo.

Subdivision #2 consist of all land in Crockett County East of state Hwy. 163 from Irion County line to the North line of section 23, Block F, approximately 10 miles South of Ozona; thence due East to the Sutton County line.

To be eligible to vote in a Soil and Water Conservation District Directors election, a person must live in a county all or any part of which is in the Soil and Water Conservation District.

Soil and Water Conservation District Directors serve a term of five years. The term of office of a director begins the day after he is elected provided he is qualified; State law requires that a Soil and Water Conservation District Director take an oath (CONTINUED ON LAST PAGE)

## Applications To Be Mailed For Renewal Of Voter Registration

Applications for renewal of voter registration for the election year beginning March 1, 1976 will soon be mailed to Ozona voters along with a letter which explains the procedure. The applications must be completed and returned to the tax office before voter registration certificates will be issued.

The deadline has passed for voters to register to vote in the November 4 constitutional amendment election. One must have registered

## Open House Is Sunday At Fire Department

To culminate Fire Prevention Week, the Ozona Volunteer Fire Department will have open house Sunday between the hours of 1 and 6 p.m.

Members of the department will demonstrate the various types of fire extinguishers and smoke detectors for the home. Fire Department equipment will be displayed and literature on fire prevention distributed.

The fire department will conduct a program on fire prevention at Ozona Primary School this afternoon, along with a demonstration.

A note of interest to all Ozonans could be memorizing or writing down the number of the fire station. It is 392-2026. Calling the operator to get the number, many times delays the units and wastes valuable time, as you are referred back to the Ozona directory.

## Poor Man's Supper Is Band Booster Project

Residents of Ozona are reminded that a Poor Man's Supper will be served by the Ozona Lion Band Boosters prior to the football game between Ozona and Brady Friday night, October 10, at the Civic Center.

Supper will be served between 5 p.m. and 7 p.m., and preparations are being made for a large crowd. The cost is \$1.75 (children under eight years \$1.25). Carry-out trays will be 25¢ extra.

The funds raised at the supper will go toward the audio-visual teaching aid so long sought after by the Ozona Bands. This equipment will be capable of picturing the band in action with sound. The tapes may be cleared and used over again continually. Most area schools have this equipment and the cost is between three and four thousand dollars.

Band Boosters are working very hard to reach this goal as quickly as possible and your support will be appreciated.

## Taliaferro Receives Appointment

Cadet William C. Taliaferro, son of Mr. and Mrs. Warren Taliaferro of Ozona, Tex., has been appointed squadron safety sergeant in his unit at the U. S. Air Force Academy.

Cadet Taliaferro, a member of the class of 1978, earned the honor for his leadership ability and academic standing. He has also been promoted to cadet technical sergeant.

His assignment to this position will give him valuable job and leadership experience prior to becoming a commissioned officer.

before last Friday to be eligible.

All Crockett County voters will vote in precincts established by a commissioner's court ruling a year ago August. Those who have not changed their precinct numbers and have moved or were affected by the change so do so at the earliest possible time.

Certificates will be mailed in February to those completing applications and returning them to the tax office. However, prompt return of a completed application is urged in order for the staff to begin processing and preparation of the new lists of qualified voters for the election year beginning March 1, 1976. The new certificates will be good for a 2-year period. New applications will be mailed to all those on the new list in November of 1977.

Any changes of mailing address or residence needs to be listed. All blanks should be completed. The application is in conformity with Senate Bill 800 which re-

quires that all information be given before a certificate is issued. The change in past voter registration applications is the treatment of a married woman. A woman can no longer register under her husband's name, she must now register giving her first name, her maiden name and her last name. The street location is very important and is required in order to designate election precinct, date and place of birth is also required now. After completing all information requested on the application, the voter should sign in the appropriate place and return the application to the tax office at the earliest possible time.

## Diesel Truck Fire Fatal To Driver

A diesel laden truck exploded and the driver was killed early Saturday morning when the truck failed to negotiate a curve at the junction of SH 137 and SH 163 and overturned.

Another truck driver was witness to the accident. He was traveling down Hwy 163 toward Ozona when he saw the truck round the curve from Hwy 137 to travel south down 163. He told officers the truck failed to make the turn and as it turned over the entire rig burst into flames.

Pinned in the wreckage and burned beyond recognition was Robert A. Brown, 36, of Big Spring. He was an employee of Tesoro Production Co. and was on his way to make a delivery of diesel fuel to a local dealer. He had driven the tank truck from Big Spring Saturday morning.

The accident occurred at 8:45 and firemen and officers were on the scene shortly

after. Site of the crash was three miles north of Ozona where the highway intersects with the highway to Big Lake. The roaring blaze kept firemen at bay while it literally burned itself out. Telephone lines were burned to a crisp along with poles and fences in the area. Firemen managed to extinguish the flames in the truck cab and cool it enough to extricate the driver about mid-morning. However, the diesel filled tank burned until the fuel was gone and the tank completely melted. The area was still smoldering at mid-afternoon. Motorists reported seeing the billowing black cloud, caused by the flaming fuel, as far away as ten miles out of Mertzon toward San Angelo.

The Ozona Volunteer Fire Department stayed at the scene until afternoon. The accident was investigated by Highway Patrolman Tom Finley, DPS.

ONE OF OZONA HIGH SCHOOL'S FIRST FOOTBALL TEAMS - This group of Lions went to state two times. On the ground behind the football is the team mascot Bob Weaver. First row, l. to r., Worth Odum, Allan Mays, Harry J. Friend, Hillery Phillips, Neville Davis, Frank Russell and John R. Weaver. Back row, Coach Stewart L. Butler, Sherman Taylor, Charlie Davidson, Jr., M. C. Weaver, Arthur Phillips and T. A. Kincaid. (One in a series of old pictures the Stockman will print as space permits and as they are loaned, in celebration of the bicentennial.

OZONA LION FOOTBALL QUEEN is Miss Kathy Sewell, daughter of Mr. and Mrs. Rip Sewell and Ozona High School cheerleader. Kathy was chosen by vote of the team and officially crowned during ceremonies before the homecoming game Friday night. Escorting her is Lion captain Lonnie Martinez.

**THE NEWS REEL**

A re-run of "The Ozona Story" as gleaned from the files of "THE OZONA STOCKMAN"

Thursday, Oct. 10, 1946  
Long delayed rains, to the point of serious drought in some areas, visited the West Texas ranching area in bountiful quantities during the past week. Moisture in Ozona totalled 3 inches, in a section south of Ozona, an estimated 12 inches caused damage to fences and pens.

29 years ago  
Ozona High School's Lions met spirited competition when they met the Reagan High School Owls under the lights at Big Lake last Friday night. However, the Lions remained unbeaten for the season, with a score of 19-6.

29 years ago  
Mrs. Ben Lemmons honored her daughter-in-law, Mrs. Maurice Lemmons of San Angelo, with a tea Thursday afternoon. The honoree was Miss Eve Hoagland of Pasadena, Calif., before her marriage last month.

29 years ago  
Mrs. Evelyn Haynie, Bob and Bill Lee, have returned from a week's stay in Fort Davis where they purchased a dude ranch. The ranch will be operated by Bob Haynie who will take possession January 1. Mrs. Haynie to continue operation of her beauty shop here.

29 years ago  
"Women As American Citizens" was the theme for the Ozona Woman's Club program Tuesday afternoon at the home of Mrs. W. R. Baggett. Hostesses for the day were Mrs. Bert Couch and Mrs. J. C. Montgomery.

29 years ago  
Among those attending the football game in Austin Saturday were Mr. and Mrs. Demp Jones, Ralph Jones, Mr. and Mrs. Lefty Walker, Mr. and Mrs. James Baggett, R. A. Harrell, Bright Baggett, Bill Cooper, Mr. and Mrs. I. M. Dudley and Dr. and Mrs. H. B. Tandy.

29 years ago  
Mr. and Mrs. Joe Oberkamp, Mr. and Mrs. Lee Childress, and Mr. and Mrs. Vic Pierce attended the Dallas Fair the first of the week.

29 years ago  
Mrs. Victor Pierce, Mrs. J. A. Fussell, Mrs. Paul Perner and Mrs. Charles Williams entertained the members of the Barton-Baggett Sunday School Class of the Methodist Church with a forty-two party Saturday afternoon in the Pierce home.

Good selection of wind chimes now at BROWN FURNITURE COMPANY.

**Public Notice**

STATE OF NEW HAMPSHIRE GRAFTON, SS. SUPERIOR COURT 9-16-75

in the matter of a libel for divorce with prayers relative to the custody of children, support and other relief, which is now pending in the Superior Court for said County of Grafton, the original of which is on file in such court and may be examined by interested parties, the title of the case being as follows: Dorothy I. Rodger v. Eric G. Rodger.

It appearing that the residence of the defendant is unknown, it is ordered that the plaintiff give notice to the defendant to appear at the superior court next to be held at North Haverhill, in said county of Grafton on the first Tuesday of November 1975, then and there to show cause, if any there be, why the prayers of said plaintiff should not be granted by causing a true and attested copy of this citation and order of notice to be published in the Ozona Stockman a newspaper printed at Ozona, Texas, it being a newspaper published at or nearest the last known place of residence of the defendant, three weeks successively, the last publication to be at least fourteen days prior to the return day.

It is further ordered that the clerk shall send by certified mail, with request for a return receipt, a copy of the libel and order attested by him, within seven days after filing to the defendant at the last known postoffice address, and to the relative or friend, as stated in the libel.

New Hampshire Legal Assistance, Solicitor for Plaintiff. Attest: /s/ Walter L. Murphy, Clerk

**THE LIONS ROAR**

By BELINDA BEBEE & KAREN MOODY

Congratulations to the Lions on winning their 1976-77 Homecoming game. They beat the Iran Braves 7-6. Kathy Sewell was chosen as the football queen and was presented with this well deserved honor during the pre-game ceremonies last Friday night. Her court consisted of Dawn Burns, Lupe Tambunga, Karen Bebee, and Carmen Galvan. The Lions will play Brady here for their last non-district game of the season. Gametime is 8:00.

LR

**Bob Krueger Reports**

U.S. Representative 21st District

A number of people have asked my views on the sale of American wheat to Soviet Russia and other countries. I have replied that while I do not believe that the U.S. Government should subsidize the sale of grain overseas by offering foreigners lower interest rates than are available to Americans, I believe it is necessary to trade with other nations and we must sell them those things which we produce that they want to buy.

The products that we have which others want most are agricultural. If we wish to buy from foreigners such products as oil, cocoa, sugar, radio and television sets, cars, etc., we must have something to sell in order to be able to pay for them. Last year the cost of foreign purchases of our products came to \$12 1/2 billion, or as much as we pay for imported oil. American farmers were able, by their ability and enterprise, to produce agricultural products cheaper than foreign farmers do. Thus we sold three-quarters of our wheat crop, one-half of our soybeans, and one-quarter of our corn, and still had enough for domestic consumption. Some people argue that such sales increase prices at home, but this is not necessarily the case. And it is unrealistic to think that we could buy from overseas without selling to people overseas as well.

Only 6% of the cost of a loaf of bread goes for the wheat itself. The rest goes for labor, transportation, packaging and other costs. Therefore, I am convinced that it is in the American interest to sell overseas, but these agricultural sales should, whenever possible, be made on a long-term basis. If farmers know several years in advance, for example, how much wheat the Russians are committed to buy or how much soybeans the Japanese will take, they can plan for production with greater certainty and this will be in our interests as well as theirs.

I spoke last week with the head of a large corporation that is trying to arrange for the shipment of liquid natural gas from the Soviet Union to the United States in order to provide gas for states on the eastern seaboard. Russia has large gas supplies which our eastern states desperately need in order to avoid plant closings, unemployment, and the threat of financial devastation to many American families. If we could arrange for their gas at fair prices with assured delivery and they can count on our wheat, then it is in the interests of both nations. Furthermore, if Russia depends on us for bread for its people, they would be less likely to engage in actions that could provoke future hostilities between our nations. I have always believed that in business, a good trade is a trade that is good for both parties. If we could trade wheat sales for Russian gas purchases, it could well be to our mutual advantage. We would have the added gain that, whereas natural gas is depletable (that is, it could be completely consumed), grain could be grown again every year with new plantings and new harvests.

80-20 Vision: I never use my glasses, but I can read the print with any magnifying glass, provided that I squint.

Dandelions are like a houseful of guests. You're glad to see the first one come and glad to see the last one go.

Eighty is a wonderful age, especially if you're ninety.

"Lead, Follow, or get out of the way."

A LIFT FOR THE WEEK - Remember - a "little" is "touch" when God is in it.

NOTICE OF REWARD I am offering \$500 Reward for apprehension and conviction of guilty parties to every theft of livestock in Crockett County — except that no officer of Crockett County may claim the reward.

Billy Mills Sheriff, Crockett Co.

**STATE CAPITAL Highlights AND Sidelights**

by Lyndell Williams

AUSTIN—Auto insurance rates almost certainly are going up—and rather steeply. The State Insurance Board staff recommended an average statewide increase of 17 per cent at an October 1 hearing on proposed new rates.

Even that didn't satisfy insurance industry spokesmen who asked a 24.9 per cent overall increase. Figures proposed by Board staff actuaries would increase company revenues \$112.8 million a year. The companies sought a \$165.4 million hike.

New rates outlined by the Board staff would raise premiums of so-called typical or average motorists over 25 years of age driving late-model medium-priced cars to work in the range of \$8 to \$43 a year.

Smallest increase would be in the Sherman-Denison area and the largest in Houston. Figures refer to standard liability, \$100 deductible collision and full coverage comprehensive.

Young drivers in Houston may face a \$130 increase, to \$746 a year, for their regular coverage, while older drivers in that city pay about \$296 for the same insurance.

The Board will make its decision by October 15, Chairman Joe Christie indicated. New rates would take effect January 1. A raise of 8.8 per cent was ordered last year.

**Spending At Record**  
State government spending hit an all-time monthly high of \$962,154,535 last May, Treasurer Jesse James has reported.

James' report for the fiscal year ending August 31 said average monthly spending totaled \$712,750,000 during the period.

The Treasurer said the state earned more than \$78.9 million during the last fiscal year of \$1.33 billion worth of time account deposits in 1,240 Texas banks. He said cigarette tax collections totalled \$247.6 million, interest and dividends on investments held by the treasury bond division \$315 million and escheat and other taxes collected by treasury \$2.97 million.

**Commission Gets Case**  
The new Texas Public Utilities Commission got its first case last week—a controversy over telephone equipment rates.

Its authority to act before January 1 is expected to be challenged, since the law creating the agency gives it regulatory duties starting next year.

Fisk Telephone Systems Inc. of Houston accused Southwestern Bell Telephone Company of offering "fictitious" low prices on special PBX telephone equipment in an effort to drive out competitors.

The case was accepted by the Commission for filing and turned over to the attorney general's office for where-do-we-go-from-here advice.

**Courts Speak**  
A federal district court jury convicted District Judge O.P. Carrillo on in-

come tax charges. Duval County Commissioner Ramiro Carrillo was also found guilty.

Increases in assessed property values for more than 500 Fayette County owners of rural land without individual written notice were invalidated by the Third Court of Civil Appeals.

A divided Supreme Court held Lo-Vaca Gathering Company must pay \$7,244 to an Erath County couple due to damage of their fishing lake in laying a pipeline.

The Third Court of Civil Appeals, in an Austin case, said mechanics who repaired a car later abandoned had first claim on it, over a bank which held a larger note on the vehicle.

**AG Opinions**  
A school district can't charge for supplies, lab fees and band uniforms without legislative authority, Atty. Gen. John Hill said in an opinion.

Hill concluded the Texas Open Records Act on confidentiality of personnel records does not keep Alvin Independent School District from disclosing employment applications to the Equal Employment Opportunity Commission.

Hill also found hospital districts liable for medical care of indigent prisoners.

Firms specializing in fitting executive-level personnel into jobs are still private employment agencies for regulatory purposes if a significant portion of their activity involves providing employees for employers Hill said.

The Attorney General said a state employee who exhausts accrued sick leave becomes eligible for workmen's compensation benefits.

He classified crew leaders, day labor contractors and operators of temporary labor pools as "labor agents."

**Bullock Balks**  
Comptroller Bob Bullock turned down a University of Texas request to pay an architectural firm for UT law school building remodeling plans.

Bullock, reviving a long-standing controversy, said the law school project had not been approved by the Coordinating Board, Texas College and University System, and the Governor had vetoed appropriations bill riders attempting to give the project legislative approval.

The vetoed rider is void, anyway, because it sought to write general legislation in an appropriations bill, Bullock said.

**Short Snorts**  
Twenty new industries located in the state last month—a high for the year, according to Texas Industrial Commission.

Sen. Bob Gammage of Houston said he will run for the congressional seat of U.S. Rep. Bob Casey when Casey resigns to accept a Federal Maritime Commission appointment.

**One-Third of Congress 'Extremely Liberal'**

A new voting index covering the first 200 substantive votes during the current Congress documents the extreme leftward leanings of more than one-third of the Members of the House. The index was compiled by the Committee for the Survival of a Free Congress (CSFC), which lists 20 conservative Senators and Congressmen on its board of advisors.

Members were rated on their "correct" voting on the 200 issues, and divided into five categories according to the number of times they voted for the conservative position.

A CSFC spokesman said the 435 Members of the House fell into these groups: (1) "extreme liberals," 35% who rated between 0-25 on the index; (2) "liberals," 19% who rated between 26-40; (3) "moderate-to-liberal," 21% who rated between 41-64; (4) "conservatives," 18% who rated between 65-79; and (5) "staunch conservatives," 7% who rated from 80-100.

When divided into two categories—liberal and conservative—239 Members (55%) are on the left, according to the index.

"The situation becomes even more ominous when we view our new index on the three individual ratings for defense, economic, and social issues," says Paul Weyrich, CSFC director. "We discover that a sizable number of Members only seem to belong on the right, because of high defense ratings, while their ratings for economic and social issues are markedly on the left."

The research director for the group, Dr. Marc Tangner, explains further that, "by 'conservative' we mean someone who supports the free enterprise system, the guarantee of individual rights as outlined in the Constitution, states' rights, a strong defense apparatus, and limitation on government; and who is strongly anti-Communist and in favor of a spiritual balance in the nation."

CSFC was formed last year to help raise funds for conservative candidates to the House and Senate. It is now zeroing in on next year's congressional elections with a goal of unseating 100 "radicals" in Congress and replacing them with conservatives. "We believe 1976 can be the turning point in our nation's onward rush toward socialism at home and humiliating defeat abroad," says the group's literature.

If CSFC—a politically independent organization—can indeed help to curb those trends, then we say more power to it.

**Sneaky-Pete Legislation**

The present Congress of the United States, over one-third categorized as "extreme liberal," continues to bend every effort to confirm the indictment by Senator Barry Goldwater and others that it is the "worst in history."

One of their latest, if not most sneaky, tricks was to pass themselves not only a hefty pay raise, but to tack on the provision that every time the "cost of living" goes up—i.e., inflation becomes worse—they automatically receive additional pay raises. Thus, we have the incredible situation whereby the very worst perpetrators of inflationary measures—the Members of Congress themselves—are encouraged to vote for more inflationary measures, since every increase in inflation means another pay raise for themselves.

And what happens, may we ask, to those who are ill, or retired, or dependent upon savings and fixed retirement benefits? What happens to the thousands of independent businessmen and housewives whose income will NOT keep up with rising prices?

The "liberals" who weep crocodile tears on the floors of Congress obviously couldn't care less, because off the floor of Congress, and in the hidden confines of their secret committee meetings, unidentified Members of the Senate entered into what amounts to a conspiracy to pull the wool over the eyes of those who voted them into office.

Specifically, the way the slick pay-raise rabbit was pulled from the hat was under cover of a bill called "Postal Service Employees Occupational Safety Provisions." The original bill, which was debated and passed by the House, was H. Res. 653. The measure came back to the House from the Senate in the form of "H.R. 2559, Agreeing to Senate Amendment." And behold, out of the legislative hat jumped the pay-raise rabbit. The question is, what Senator or Senators sneaked the rabbit into the hat?

Congressmen Henry J. Hyde of Illinois and House Minority Leader John Rhodes of Arizona have introduced a bill which would sever the automatic cost-of-living Congressional salary raise from the resolution, but even that bill would curtail the pay raise only until the end of this year.

A good rule of thumb in re-electing present Congressmen to their next term in office would be to vote against those who passed HR 2559 by a one-vote margin, and to vote for those who voted against the amendment.

**Tips For Gardeners**

From the Ozona Garden Club by Mrs. Bailey Post

October gardening can be fun and most interesting in both your flower and vegetable gardens. You might divide this time into parts - harvesting, getting ready for winter, planting and learning. The final harvest might be the most exciting and may extend into November.

Though most of the fruit crop was killed, several have had a nice crop of apples to gather. Before the first frost, harvest all the tomatoes you can. Green ones may be far enough along to finish ripening. One suggestion is to slice the younger, greener ones and fry them for a delicious treat from your garden.

For tender plants you want to save, such as begonia, geranium, sultana and coleus, take cuttings before frost, root them and then pot them as stock plants. Another way to carry over geraniums is to dig the plant and knock off the excess dirt from the roots. Place in a cool shady spot and allow to dry for several hours. Then wrap the top and root (as is) in a plastic clothesbag and store in a cool dark basement until spring.

Other plants need to be prepared for winter, but in a different way. Remove old mulch from beds of roses and other plants susceptible to insect and disease attack. Keep these beds clean until leaves have fallen. Also keep them well-sprayed to kill as many pests as possible before they lay over-wintering eggs and produce spores. Apply a fresh mulch after the first freeze of the winter.

Keep fallen leaves raked off to allow new fall grass seedlings to grow strong and deep. Also keep lawns cut to encourage the plants to spread and become tough. Many of us do not fully enjoy the gracious fall season. This time of bright foliage and colorful mums should be transplanted into our own gardens. Now is the time to learn which of our brilliant native fall plants you want in your yard or garden. Make notes as soon as they are at their peak because the colors fade rapidly.

**BOY TO PRESTONS**

Mr. and Mrs. Richard Preston of Eldorado are the parents of a son, born Tuesday morning, Oct. 7, at 3 o'clock in the Eldorado hospital. The baby boy weighed seven pounds and four ounces, and has been named Charles Hunter Preston. The couple has one other child, Trey. Grandparents are Mr. and Mrs. Charles Applewhite and Mr. and Mrs. R. E. Preston of Eldorado.

**CALLING ALL HOMEMAKERS**

Brought to you by Lillian Brown

**QUESTION:** Can you give an idea on brightening up book shelves?

**ANSWER:** Break up the monotony of books - after-book - after-book by placing flowers or other decorative things on your shelves at intervals between groups of books.

**QUESTION:** Decorators talk about making rooms "dramatic" or exciting. Can you give one suggestion on how to start doing this?

**ANSWER:** Here are two suggestions. Try a surprising burst of color somewhere in the room, or try a piece of furniture that does not match the rest of the room, but actually accents or highlights the room.

**QUESTION:** What should I look for to be sure of getting my money's worth in good upholstery?

**ANSWER:** Number one, look for a reputable dealer. Upholstery is a long-term investment and the problem is compounded by the fact that the most important parts of your sofa and chair purchases are hidden. The real value is in the unseen construction: frame, springs, filling and the workmanship with which it is put together. For this you must rely on your dealer's recommendation.

We can help you find honest answers to all of your furniture questions and needs, and we invite you to come in.

**Brown FURNITURE**

**MISS POWERS BECOMES BRIDE**--Miss Karen Powers became the bride of Gregg Brown in an evening ceremony Sept. 20, in the First Baptist Church in Hollis, Okla. Parents of the couple are Mrs. Sue Powers of Hollis and Ray Powers of Hamilton, Mrs. Cecil Newkirk of Altus and Rex Brown of Clearwater, Fla. Attending the bride as matron of honor was her sister, Mrs. Morgan Tolle of Ozona. Miss Teresa Shaw of Ozona was one of the bridesmaids, Debbie Tolle of Ozona was junior bridesmaid, Michael Tolle of Ozona was ring bearer.

**Debra Says**

by Debra Price H.D. Agent

**SELECTING CORRECT PATTERN TYPE**

Choosing the correct pattern type can help homesewers solve many of their own fitting problems. But since several categories are available, choosing the right pattern type can be a problem.

Pattern type relates to the figure type--not age. All major pattern companies base their pattern types and sizes on the same body measurements approved by the Measurement Standard Committee of the Pattern Fashion Industry. To identify the correct pattern type for you, analyze your body build and compare it to the description for the pattern types in the back of pattern catalogs.

If you have an average, well proportioned and developed figure (5'5" - 5'6") choose "Misses" patterns. If you find that "Misses" patterns are almost right for you but too long waisted, choose "Miss Petite," designed for the shorter figure (5'2" - 5'4").

"Junior" patterns are designed for well proportioned but somewhat shorter (5'4" - 5'5") and generally more slender figures than the "Misses." For the petite junior figure (5' - 5'1"), select "Miss Petite" patterns.

"Half size" patterns are specifically designed for fully-developed but shorter waisted figures (5'2" - 5'3"). For larger, more fully mature figures (5'5" - 5'6") "Women's" patterns are best.

"Young Junior Teen" is especially designed for the developing preteen and teen figure. These patterns, regardless of size, do not allow for much bust development, but if bust allowance is needed,

larger sizes in this category should not be substituted for pattern sizes unavailable in other pattern categories.

Once you have identified your pattern type, select pattern numbers from that category in the size closest to your measurements. A few alterations may be needed to allow for figure irregularities, but fewer changes to obtain a perfect fit will be needed within the correct pattern category.

**FREE SEWING CLASSES**  
A Beginners and Advanced Sewing Class will begin Tuesday, November 4, at the Ozona Community Center. All homemakers wanting to learn to sew, or learn new sewing tricks are welcome to attend. The workshop will be each Tuesday night 7:00 to 9:00 p.m. Home sewing crafts, bazaar, and Christmas ideas will be on display (with complete instructions) during the workshop. Call the County Extension Office (2-2721) or Myra's Fabric Store (2-2535) to enroll in the class.

**BUMBLE BEE BREAD**

Good for morning coffee break! 3 cans of biscuits, cut in quarters and arranged in tube pan.  
Bring to boil:  
1-1/2 cups brown sugar  
2 sticks margarine  
2 tablespoons cinnamon  
Pour over cut up biscuits.  
Bake in 350 degree oven for 20-25 minutes. Cool 10 minutes before serving.  
May add 1/2 cup pecans to recipe if desired.

**YESTERDAY TODAY and FOREVER**

Christopher Columbus had trouble recruiting sailors for his early voyages. Men were afraid, but the bravest enlisted and sailed off to the wonders of a new world.  
Most of us are afraid of the unknown. We have our qualms and doubts about a new job, moving to a strange city, beginning a marriage, or simply facing the uncertainties of tomorrow. We do not know what lies ahead, and we worry about being able to cope with it. In this ever-changing world, we instinctively yearn for that which does not change.  
Whatever tomorrow brings, we can have the peaceful conviction that the love of God for His children is trustworthy and everlasting.  
Discover an abiding security. Worship this Sunday.

GOVERNOR DOLPH BRISCOE proclaims the month of October as "Texas Immunization Action Month" in State Capitol ceremonies. In signing the proclamation, the Governor said, "Surveys indicate that approximately 25 percent of the nearly 1.5 million pre-school age children in Texas are not protected properly from polio, measles, mumps, rubella, diphtheria, pertussis (whooping cough) and tetanus." Present at the ceremonies were Mrs. Briscoe and Dr. Fratis Duff, Director of Texas Department of Health Resources.

## Screwworm Cases To Peak This Month

Texas' peak number of screwworm cases for the year may come this month, says a U. S. Department of Agriculture (USDA) veterinarian. There were 11 confirmed cases in Crockett County during the month of Sept. September's 3,705 laboratory confirmed cases of this livestock parasite from 94 Texas counties brought the state's nine-month total to 9,381. This tally ranks 1975 second only to 1972 in severity of infestation, says Dr. David A. Mitchell.

The acting veterinarian in charge of the Animal and Plant Health Inspection Service (APHIS) Screwworm Eradication Program says October has been the month with the year's most cases in seven of the past 13 years. September has never, so far,

been the month recording the highest number of screwworm cases.

Screwworms are larvae of the primary screwworm fly. Adult flies deposit their eggs on the edges of wounds in warm blooded animals. The eggs hatch in about 12 hours and the emerging larvae immediately burrow into the wound where they feed on living flesh.

South Texas, where many ranges are experiencing a heavy ear tick infestation, has contributed the biggest share of the state's 1975 cases. Wounds made in ears by ear ticks pre-dispose animals to screwworm infestation. However, ear ticks are expected to slack off in October.

Increasing numbers of screwworm infestations are expected in the sheep and

goat rearing areas of the Hill Country, Trans-Pecos, and Big Bend region during October. Shearing season, and its concurrent cuts and scratches, is underway in the area at this time of year.

## E. Deland, Jr. Gets Appointed To City Job

Earl Deland, Jr., Ozona native, presently of Beaumont, has recently been appointed Director of Public Works in that city.

Deland has been city engineer in Beaumont since 1973. He was appointed to the post by City Manager Howard McDaniel, who said, "He has demonstrated very exceptional engineering talent and has strong organizational skills and I feel he had the maturity and perspective to effectively direct the public works department."

Get the most "freeze" for your freezer!

There's probably no more efficient household servant than your electric freezer—think of the variety of healthy, frozen meals it helps serve up to your family! Make sure you're getting the most "freeze" for your freezer by following Raddy's consumer tips.

Don't overfill! Efficient freezing calls for adding no more unfrozen food at one time than 2 or 3 pounds per cubic foot of your freezer's capacity. This ensures unfrozen food will freeze within a healthy 24 hours and that your freezer isn't overworked.

Take advantage of sales! Avoid overpacking with commercially frozen food that's already available. Use your freezer as your own bargain counter and store foods in convenient sizes. But do allow space for short time frozen goods, leftovers and special party foods.

Lock in flavor! Use moisture and vapor proof materials especially designed for freezers to wrap your foods. Tightly sealed, these lock in flavor and moisture and prevent "freezer burn" (surface drying) on foods. Don't use wax paper, lined paper or regular cellophane for freezer foods.

Label packages! These aid identify freezer packages so if you don't remember a lot of mysterious shapes and if you're able to pack one food that have been in the freezer longer.

Remember Raddy Supplies the energy—but only YOU can use it wisely!

## Arthritis Cure Diets Will Not Cure Pain

Trying "arthritis cure diets" won't help the arthritis sufferer feel any better, Mrs. Mary K. Sweeten, a foods and nutrition specialist, says.

No special diet or specific food will cure arthritis—because no food causes it, she said.

Mrs. Sweeten is with the Texas Agricultural Extension Service, The Texas A&M University System.

"Arthritis is a chronic inflammatory process of unknown origin which causes discom-

fort and pain of the joints.

"And extensive research has failed to show that the absence or presence of any food or vitamin will either cause or cure any form of arthritis," she explained.

Trying to alleviate the pain, many arthritics fall victim to food faddists or self-appointed "arthritis experts" who advocate bizarre diet plans for quick, miraculous cures, she said.

"And even though medical authorities say these diets

are ineffective, one survey revealed that almost 2.5 million people have tried some special diet or miracle food to relieve their pain.

"Estimates show that Americans spend over \$250 million each year on quick remedies for arthritis."

Mentioning specific so-called "arthritis cures," Mrs. Sweeten said that one claim has been "you can eat your way into arthritis and then eat your way out again." She said this is as absurd as saying that by eating oysters a person can increase his sexual potency.

Other claims advocated using cod liver oil with orange juice and honey with vinegar.

"Careful examination of people claiming arthritis cures by fad diet reveals that they were only self-diagnosed arthritics who never had the disease to cure," the specialist said.

An arthritis sufferer can save himself much disappointment and frustration if he will accept the basic nutritional fact that no special diet or vitamin will cure arthritis.

"It is true that patients with arthritis, particularly the rheumatoid type, often do have decreased plasma levels of vitamins—as do patients with many other chronic diseases. And vitamin supplements will correct this deficiency, but this has no effect on the disease itself.

"Many experiments relating vitamin levels with arthritis—especially Vitamin A, C, B-complex, D and E—have been performed. All show that no anti-rheumatic vitamin is necessary for the arthritic patient, because a nutritionally-balanced diet provides all the essential nutrients and energy any person needs," she said.

## Sen. Snelson Appointed To Committee

Lieutenant Governor Bill Hobby announced today the appointment of Senator W. E. "Pete" Snelson to serve on the Agriculture and Rural Development Committee of the Southern Legislative Conference of the Council of State Governments.

The Southern Legislative Conference of the Council of State Governments is made up of the 15 Southern states, and serves as a resource to state government and its official leaders.

The Agriculture and Rural Development Committee membership is composed of key appointees from the legislatures of each of the 15 states. Each state's Commissioner of Agriculture serves as an ex officio member. The committee studies problems facing agriculture and the agricultural economy, and with the assistance of the Council's research assistants, prepares recommendations for action by the states and federal government.

The committee's next meeting will be held in New Orleans on November 20-21.

**Fall Lawn Care Chores Important For Weed Care**

After six months of mowing and watering lawns, most homeowners will be glad to see their lawns turn brown after the first hard frost. But, to insure weed-free winter lawns and complete recovery of the grass next spring, a few chores remain.

"Fall fertilization is the key to prolonging green color and promoting early spring recovery of turfgrasses," says Dr. Richard L. Duple, turfgrass specialist with the Texas Agricultural Extension Service. "It also helps to produce a dense turf which discourages the invasion of winter weeds."

Duple recommends applying a balanced fertilizer (one which contains nitrogen, phosphorus and potassium in equal proportions, such as a 12-12-12 or 8-8-8) at a rate of one pound of nitrogen per 1,000 square feet. This means 8 pounds of a 12-12-12 fertilizer or 12 pounds of an 8-8-8 fertilizer per 1,000 square feet. High nitrogen fertilizers should not be applied to St. Augustine lawns in the fall since they increase the susceptibility of the grass to brown patch, a fungus disease.

"If winter weeds have been a problem in past years, apply a preemergence herbicide for additional protection against weeds," suggests the Texas A&M University System specialist. Materials containing atrazine, benefin, bensulfide and dacthal provide preemergence control of many winter annual weeds. Some preemergence herbicides are available in formulations with fertilizers, which simplifies the application procedure.

"Be sure to follow label instructions in regard to grass species and rates of application when using herbicides," cautions Duple. "Materials containing atrazine should not be used around trees and shrubs."

The turfgrass specialist advises applying a fungicide on St. Augustine lawns to prevent damage from brown patch. Not only is brown patch unsightly, but weeds generally emerge where the disease has weakened the grass. Also, spring recovery is delayed in areas damaged by brown patch.

Fungicides containing PCNB (Terraclor, Ortho Lawn Fungicide), benomyl (Benalate, Tersan 1991) or chlorothalonil (Daconil) provide control of brown patch when applied according to label instructions.

"Another fall task for homeowners is to remove excess accumulations of grass clippings or tree leaves from the lawn. The excess debris from these sources increase thatch accumulation and create a favorable habitat for insects and disease organisms," points out Duple.

So, for the homeowner to maintain an attractive lawn in the fall and to insure good spring recovery, there are still a few tasks at hand. Fertilization and the use of preventative pesticides together with weekly mowing will help assure a beautiful lawn next spring.

**National 4-H Week Being Observed**

4-H is as American as baseball or apple pie! This American educational program for youth had its beginning around the turn of the century, in fact, it followed on the heels of a Corn Club organized in Jack County, Texas in 1908, and 4-H has flourished ever since.

During National 4-H Week which is October 5-11, 4-H members throughout Texas and the nation will reflect on the proud heritage of the 4-H program and will look toward the future with anticipation, points out Billy Reagan and Debra Price, county agents for the Texas Agricultural Extension Service.

Theme of this year's observance is "4-H--'76... Spirit of Tomorrow". The nation boasts a total of some 7.2 million 4-H youth between the ages of 9 and 19. More than 215,000 of these are Texans. Youth enrolled in the 4-H program in Crockett County total 165, notes the agents.

The 4-H program continues to grow throughout the state and nation. National enrollment last year increased almost 37 per cent over 1973.

Adult volunteer leaders are a valuable asset to 4-H as they give freely of their time and talents in assisting in the educational efforts of the 4-H program. There are about a half million 4-H volunteer leaders across the country and more than 21,000 of these are in Texas. Crockett County is proud to have the leadership of 40 volunteers who contribute much to the overall success of 4-H.

The 4-H program also receives widespread financial support from various businesses, corporations and foundations all over the nation. In this state the Texas 4-H Youth Development Foundation garners support from the private sector, both individual and business, to support many 4-H activities. Locally the 4-H clubs and members appreciate the support of businessmen, individuals and ranchmen.

National 4-H Week provides an opportunity to look back at all the success that the 4-H program has enjoyed in the past, points out the agents. It also is a time when the groundwork must be laid to face the challenges that lay ahead. And challenges there are plenty, as 4-H strives to assist youth along the road of life and to prepare them to be the leaders of tomorrow's America.

All 5 4-H Clubs in Ozona met Monday night.

The main item on the agenda was the planning and preparation of the Annual 4-H Achievement night. This year's event will be a free barbecue for 4-H members, leaders, parents, and guests at the Civic Center on Saturday, October 25 at 7:00 p.m.

Each club will provide 5 minutes of entertainment for the program. Awards will be presented to outstanding 4-H members and the Gold Star Girl and Boy will be announced.

**SAFETY TIP**

When a young woman is selecting her engagement ring, she should be sure to give the stone—usually a perfectly cut, perfectly clear white diamond—all the protection this valuable token of love deserves. This means that the ring should be strong as well as beautiful. How can a diamond be forever if the ring which holds it isn't?

Since platinum is stronger than other fine metals, it can hold the precious stone most safely and securely. Besides, it's so tough it resists nicks and scratches and it doesn't need polishing, ever. The canny bride-to-be should know, further, that platinum is about the same price as gold, and will enhance her diamond like no other metal. After all, choosing the diamond is only half of choosing the engagement ring. The right setting is always needed for saying "I love you."

**Exhibition Boxing Matches To Be Held**

Exhibition boxing matches will be held at the Catholic Parish Hall Sunday, Oct. 12, at 2 p.m. The public is invited and a fee of \$1 for adults and 50¢ for youngsters will be charged. The proceeds will be used to purchase boxing equipment for the boys taking part in the boxing club.

Boys taking part range in age from 8 to 15, and any boy wishing to take part may contact Coy Tambunga or Santiago Ybarra, assistant coaches. Coaches for the boxing are Golden Gloves Maximo Perales and Robert Cheda of Del Rio.

The top ten boxers in the matches Sunday will compete with other boxers at the Del Rio Boy's Club in November. Matches with other out of town clubs are being planned.

Boys presently taking part include Blas Varga Jr., Mike Sanchez, Robert Flores, Jr., Roy Tambunga, Randy De Hoyos, Gino Tambunga, Ricky Rodriguez, Santiago Ybarra, Jr., Adolfo Rodriguez, Abel Rodriguez, Rudy Martinez, Jr., Johnny Rodriguez, Jr., Adam De La Garza, Jesus De La Garza, Harvey Huereca, Albert Sorrego, Desi Tierina, Kim Tambunga, David Tierina, Alfredo Cerda, Robert Tambunga, Dennis De Hoyos and Tino Cerda.

**Shell To Drill Outpost**

Shell Oil Co. will drill the No. 15 Mitchell as a 3,000-foot south outpost to production in the Crockett County portion of the JM (Ellenburger gas) field, 37 miles southwest of Ozona.

Location, exception to Rule No. 37, is 691 feet from the north and 100 feet from the east lines of 8-Q3-TCR. Contract depth is 14,850 feet.

**Miss Walker Is Married To Mr. Coulthurst**

Mr. and Mrs. L. B. Taylor announce the marriage of their daughter, Patricia Lynn Walker, to Mr. Neil Stuart Coulthurst in a ceremony last Saturday in Dallas.

The bridegroom's parents are Mrs. Flora Arkill and George Coulthurst of England. Following a brief wedding trip to New Orleans, the couple will be at home in Dallas. The bride is a 1968 graduate of Ozona High School.

**Ozona Garden Club To Meet**

The Ozona Garden Club will meet Monday, Oct. 13, at the Civic Center at 1:30 p.m. Hostesses will be Mrs. J. W. Howell and Mrs. Starley Lenamon.

The program "Preparing and Arranging With Weathered Wood," will be presented by Mrs. John Willingham, well known flower show judge of San Angelo. Mrs. Willingham presented this program for the District IX Judges Council in El Paso last month and was praised for her information on methods of treatment of the wood and her creative designs.

By Marti Robinson

**KEEP UP-TO-DATE.** Some women who wouldn't go to bed at night without knowing what went on in the world that day can be as much as ten, twenty or even thirty years behind the times in the way they look.

Unless you heard your dresses from past years and still wear them, you can't be dated in your fashion too much, for any shopping you do will necessarily be the clothes in current style. There are those women, however, who are clinging to their mini skirts. While it's true this hemline shows off good-looking legs, the time has come to give up the short-skirt skirt. Women are no longer slaves to the dictates of designers, and today we pack out the skirt length we like best — but I haven't seen a really well-dressed woman in an extremely short skirt for quite some time.

Women date themselves most when they fail to keep up with changing hair-styles and make-up trends. For instance, some one who still wears the bouffant, beehive, hairdo ages herself now that softer, less teased hair is so attractive.

I feel that women with out-of-date looks are either clinging to the style that once suited them best or are afraid of change and experimentation. Or perhaps they are simply neglecting themselves and their potential to be as fashionably pretty as possible.

Are you out of style? If you're not sure, take a look at the way average women dress, wear their hair and make up in movies with a modern setting. Look at fashion magazines. Of course, some of the "looks" will be exaggerated, but you can adapt certain styles of makeup and hair to suit you.

Keeping up-to-date doesn't mean imitating one woman who is highly fashionable. What looks good on her may not be right for you at all. My point is that to look your best you must change with the times while still retaining your individuality.

Today's look is frankly made-up, yet natural. Skin tones should be vibrant and colorful. You could begin to experiment, for instance, by using Merle Norman's Bronze Tinted Makeup Texturizer under your powder base. It gives your complexion a golden cast. The "concealer look" is very new and very flattering, and a variety of makeup is available in shades from very light to dark — something for everyone's tastes.

Don't look as dated as last year's newspaper. Glow, shine, sparkle. Do it with the help of the marvelous beauty aids on the market today. Compliments never hurt anyone, and you'll find them coming your way with a new beautiful you.

Dear Mrs. Robinson:  
My hair is curly and I love wearing it straight. I blow dry it and that helps straighten it a bit, but that still doesn't get it as smooth as I'd like it. Is there anything else I can do?

C.L.  
After a shampoo, instead of immediately blowing your hair dry, wrap strands of hair tightly around your head and secure them with hair clips or bobby pins. Partially dry your wrapped hair, then blow dry each strand — pulling hard with your brush during the process.

**Rifle Club To Meet**

There will be a meeting of the Ozona Rifle Club Tuesday, October 14, at 7:30 p.m. in the Border Patrol Office. The meeting will be to elect officers and plan shooting activities for this fall. All members and prospective members are urged to attend. The public is invited to attend.

Potatoes refrigerated for a week may develop a sweet taste because some of their starch changes to sugar. To improve flavor, store them at a higher temperature for one or two weeks before using.

**CANCER Answerline**  
American Cancer Society

**Question:** "Is X-ray treatment effective for all kinds of cancer and is it safe?"  
**ANSWERline:** X-ray or radiation treatment is only one of several ways to control cancer. Other methods include surgery, treatment with drugs and hormones. Indeed, radiation is often combined with these other methods for best results. Radiation is used or not used, depending on the type and location of a cancerous growth. When it is administered by a specially-trained physician (called a radiologist), it is safe and valuable.

**A reader asks:** "Is it true that the Russian author Boris Pasternak died of lung cancer? I thought that was our problem?"  
**ANSWERline:** Yes, it's true. But it is not true that lung cancer is strictly an American problem. It is worldwide, including Russia. The British Isles, the Netherlands, Finland and Japan have higher lung cancer death rates than we do.

Recently the American Cancer Society hosted a World Conference on Smoking and Health in New York with delegates from 53 countries because this is truly a global problem.

**A senior citizen asks:** "Does a sudden unexplained pain mean cancer — is it like a heart attack?"  
**ANSWERline:** Pain is usually a late sign of cancer. Cancer is not a sudden disease, it takes time to develop. That's why regular checkups are a wise idea. Naturally, when you feel recurring pain, you should consult a physician.

**A business man notes:** "I have heard that there is a kind of do-it-yourself test for bowel cancer. Is that correct and is it enough?"  
**ANSWERline:** There is a test for hidden blood in the stool. If the test is positive, further investigation is necessary because it could mean early cancer or other

**Question:** "In a state the size of Texas, how many people will get cancer?"  
**ANSWERline:** According to the American Cancer Society, some 32,000 Texans will get cancer this year. The size of the state doesn't matter, the size of the population does. For example, there will be just 300 cases in all of Alaska.
