BUICKS FOR 1927 NOW ON DISPLAY

New Standard in Looks
and Performance
Claimed.

On August first the Buick Motor Company introduced its new models for 1927.

Many features never before found in cars of its price class are included in the new Buicks, and several important engineering developments are introduced as being exclusive Buick features.

Chief among these is the Buick valve-in-head engine, which is said to be absolutely without vibration periods and very silent at all speeds. This result is obtained, Buick engineers say, through a combination of counter-balanced crankshaft and torsion balancer, with light, cast iron pistons and a heavy flywheel.

A new crankcase ventilator and thermostatic water control prevent crankcase dilution and make a complete change of oil necessary only four times a year.

Silence and the elimination of closed car rattle are also claimed for these cars. These results come from rubber engine mountings at all three points of suspension, a silent transmission and rear axle, and a muffler and exhaust system which eliminates unpleasant noise.

Among the many attractive features of the new Buicks are balanced wheels, which prevent wheel bobbing and chatter and aids in smooth riding.

Upholstery and trim is of the best in all models, mohair plush being used in the closed cars and genuine Spanish leather in the open models. New color combinations are in Duco. Tires and rims are jet black, adding much to the appearance of the cars. Attractive lines and several entirely new models feature the line. Prices are no higher, in spite of the many improvements.

King Honors Proofreader

In recognition of his fifty years' work as proofreader and stereotypor at the British National Institute for the Blind, John Andrew Ford, who has been blind since youth, has received a message of greeting from King George. To Mr. Ford belongs the proud record of having written the whole of the Bible in Braille by hand—a task which involved some 21,000,000 blows with a hammer.

Great Personages of the Bible

By
REV. LEONARD A. BARRETT

Mary the Virgin

MARY THE VIRGIN was of royal descent from David. She was also a blood relative of Elizabeth, who was the wife of Zachariah, the priest. It was an unwritten law that all members of the royal families were permitted to unite in marriage with the priests. Though of royal blood she was poor. Evidence for this is seen in that Joseph was a carpenter which trade did not bring large financial returns and also from the fact of the gift Mary and Joseph offered as a sacrifice when they brought Jesus into the temple. The sacrifice consisted of a pair of turtle doves and two young pigeons, a small gift compared with those of the wealthy class of her day.

One of the most interesting episodes in the biography of Mary was her attitude of mind and heart when she was informed by the shepherds of the important place her son would occupy in the future history of her nation. To her the information came as a great mystery. She could not comprehend why she should be regarded with such special favor. The writer of her biography informs us that instead of giving expression to her feelings in wild excitement and unrestrained nervous tension, she remained eloquently silent. Mary kept all these sayings, pondering them in her heart. No one but a mother knows the secrets which she hides away in the sanctuary of her heart.

Not only was the prophecy concerning Jesus locked up in Mary's heart, she also treasured there the mystery which surrounded her child Jesus. She could not altogether adjust herself to His dual nature. Truly He was her son, but He was also the Son of God. Pathetic is the incident for Mary when she discovered that after leaving the temple she had lost her Son. She sought for Him diligently, but nowhere could He be found. Upon returning to the temple, hoping that she might find Him in the crowd, imagine her consternation when she discovered that Jesus, though but thirteen years of age, was occupying a distinguished place in the temple. He was arguing with the intellectual men of His day upon matters of the law. Even more mysterious was the reply of Jesus when Mary spoke to Him about His absence. "Knew ye not that I must be in My Father's house?" After this incident, He returns to the humble home in Nazareth, but Mary, perplexed and bewildered, "kept all these things in her heart."

Another Million

Another million mark in Ford production was passed on July 21 when Motor No. 14,000,000 came off the assembly line at the Fordson plant of the Ford Motor Company.

Some idea of the present enormous production of Ford cars is obtained when it is recalled that it was only a little more than two years ago, June 4, 1924, that the Famous Ten Millionth Ford was produced, an event which was celebrated by driving the car across the country from New York to San Francisco on the Lincoln Highway. In the twenty-five and one-half months elapsing since that time Ford output increased 4,000,000.

The first Model T Ford was turned out on October 1, 1908, and it was not until seven years later, December 10, 1915, that the first million was reached.

Sheep Outlook

Continued good returns in the sheep industry are seen by the United States Department of Agriculture in its July sheep and wool outlook report issued recently.

A 10 per cent increase in the 1925 lamb crop is reported, but with the present demand outlook lamb prices during the next 12 months may average only slightly lower than during the past 12 months.

With regard to wool, the department says that while prices may continue near their present levels for some time, there are no present indications of a return to the very favorable market of the end of 1924.

Factors that department economists believe may influence unfavorably the outlook for marketing the 1926 lamb crop are the indicated increase of 10 per cent in the size of the crop; a probable increase in hog supplies next spring, and a possible slackening in business activity. Factors

favorable factors are the prospective reduction in cattle slaughter for the next twelve months and high hog prices through 1926.

Consumption of wool in the United States is at a very low point, and domestic wool prices are so low in relation to London prices that it is not likely they would be unfavorably affected by minor changes in world prices. Any increase in mill taking in this country would strengthen the domestic situation.

Lambs Increase

Ideal seasonal and lambing conditions over nearly all of the west is responsible for a tremendous increase in the lamb crop of the United States this year, according to information compiled by the United States Bureau of Agricultural Economics. The bureau places the increase of lambs in thirteen western States where are located 68 per cent of all the sheep of the nation, at 19 per cent or 2,350,000 lambs. Part of the increase is due to an increase of nearly a million breeding ewes in the range flocks.

The lamb crop in the 13 western States is about 88 per cent of ewes of breeding age on January 1, 1926. In 1925 it was estimated 79 per cent lambs were saved or docked compared to 82 per cent in 1924. The number of lambs saved or docked this year is placed at 16,879,000 compared with 14,420,000 in 1925. There will be some loss from docking time until fall delivery, so that the final number raised will be less than the number docked.

The western States had 27,563,000 sheep on January 1, 1926 and of these 25,201,000 were stock sheep and 75.8 per cent of the stock sheep or 19,105,000 head were ewes of breeding age and 4,206,000 head of ewe lambs, coming yearlings. On January 1, 1925, there were 26,339,000 sheep of which 24,075,000 were stock sheep, 65.2 per cent of the stock sheep were breeding ewes, making 18,199,000, and there were 4,031,000 head of ewe

lambs, coming yearlings.

Range conditions during the past year have been unusually favorable, resulting in light losses, and the losses for the first six months of 1926 were placed at 3.3 per cent compared to 4.4 per cent for the same period in 1925. Sheep losses in 1924, 1925 and the first half of 1926 have been below normal.

Lambs over the western country are reported to be in very good to excellent condition. Lambs have made good growth and the late lambs from the Southwest will be heavier than last fall. Dry conditions in the region west of the continental divide has resulted in earlier curing of the feed and this will result in the possibility of earlier marketing with lambs a little lighter than last fall and a larger feeder end.

Kerrville Chosen

The final act of the Texas Sheep and Goat Raisers Association late Thursday afternoon was the selection of Kerrville as the 1927 convention city. Kerrville was named in a nominating speech by Judge Coke R. Stevenson of Junction.

T. J. Kincaid of Ozona was re-elected president by acclamation there being no other man placed in nomination. The nominating speech was delivered by Senator Julius Real of Kerrville and seconded by Coke R. Stevenson. In his address of seconding the Kincaid nomination Stevenson said that he made money out of the sheep business and then used it for the purpose of practicing law with. When T. A. returned to the presidents desk he was given an ovation.

J. A. Whitten of Eldorado was named first vice-president and Robert Real was second vice president both by acclamation.

Thursday afternoon Nat Parks livestock agent for the Southern Pacific Railway, stated in an address that his company lost two million dollars in Texas last year as the result of the drouth but thought that conditions would be better this year. He

said that the Southern Pacific was only able to make money when the producers were successful.

Other addresses were delivered by Roseue Runge, member of the Legislature from Mason and J. M. Jones, head of the animal department of A. and M. College. Jones made a plea for a short course in wool at the college.

Judge L. J. Wardlaw of Fort Worth spoke of the increase in the value of land in west Texas since the sheep and goat industry had grown so much. He also thought that we should have some woolen mills in this section and said that there was enough power going to waste on Devils River to run six mills.

Resolutions were passed in honor of L. A. LaCrosse who until his death was owner and publisher of the West Texas News and another resolution expressing sympathy to Judge C. C. Belcher of Del Rio who has been ill and unable to attend the convention.

Kerrville was determined to have the convention and Monday morning a delegation of prominent men from that city and section arrived in a special coach. Word had already come from San Angelo that the people there favored Kerrville for the next meeting in honor of Capt. Chas. Schreiner, venerable citizen and frequently referred to as the father of the sheep industry in Texas.—Val Verde Co. Herald.

Expert Coming

Hon. Scott Turner, Director of the Bureau of Mines, Department of Commerce, Washington, D. C., will arrive in West Texas shortly to begin an exhaustive investigation of potash deposits.

While he will spend much of his time on University lands he will go to all drilling sites in his efforts to locate the real source of this mineral.

These investigations are being made under the act passed at the recent session of Congress authorizing determination, extent and mode of occurrence of potash deposits in the United States and to make laboratory tests.

Dropping Engine To Chassis

BUICK valve-in-head engine is being added to the chassis in the picture above. Previous to this step in assembly, the chassis started as a bare frame. Body brackets and running board brackets were riveted on, axles, torque tube, cantilever springs, etc. were fastened in place by automatic tools, as the chassis moved slowly forward along the assembly line on an endless conveyor.

The engine is fastened to the frame at three points. This type of suspension, with the single, automatically lubricated universal joint, takes up

stresses and torsional twists and delivers the power directly to the rear wheels. Here the torque tube comes into play, taking the strain of driving away from the rear springs so that the engine is in effect pulling the car along.

As the car moves forward after receiving the engine, other important parts are added. The wheels are placed on the axles and the four-wheel brakes adjusted. The radiator is put into place and connected. The front fenders, mud guards and running boards are fastened to the chassis.

A mother's pride and confidence in her son is beautifully portrayed through an incident which occurred in Cana. The occasion is a wedding feast and the refreshments which were furnished for the feast had given Mary interceded with Jesus in behalf of the guests and the embarrassment was relieved by the first miracle which Jesus performed. The confidence which Mary had in her Son is expressed in her command to the servants: "Whatever He saith unto you, do it."

Upon another occasion Mary, motherly, desired to speak with Jesus, doubtless upon a subject of vital concern to herself, but which Jesus felt was not as important as the work of preaching and healing. While Jesus was speaking to the crowds of people, Mary stood outside waiting for an opportunity to speak with Him. When Jesus was informed of her wish, He made a reply to His followers which was a frank declaration of His spiritual mission. Motherlike, Mary again "kept all this in her heart."

At the crucifixion, the concern which Jesus had for His mother is very beautiful and tender. He provides for her future care and gives her a parting assurance of His love and devotion. But Jesus, her Son, whom she perhaps never did thoroughly understand, was being crucified. Again, the only place where Mary could safely hide her sorrow and her pain was in the sanctuary of her heart.

This attitude of Mary, of hiding things in her heart, stands out as a very unique characteristic of her life. The only safe place of sure retreat is the human heart.

The wisdom of the heart is many times more valuable than the wisdom of the mind. "Out of the heart are the issues of life." The lamps of sympathy and strength are lit within the temple of the heart. The real man is always "the hidden man of the heart."

A SURPRISE !

Keep in touch with me. I will have constant surprises that will please you. One day it may be a baked chicken ready for your table. Next day it may be a line of vegetables not to be found anywhere else. Or an attractive price on feed stuff. Watch us and keep in touch with us.

Why go to San Angelo?
Let Mike bring San Angelo
to You

M. C. Couch

Have your advertised it yet?

Editorially speaking, we seldom have anything to say.

Mosquitos are becoming so numerous as to become a trial to the residents of the town, who find their sleep broken at night by the bites and buzzings of the pesky things. As a means of ridding the town of the insects, we suggest that all woods be cut from around the premises, see that all stagnant and standing water is either removed or a film of oil poured over it, and see that all cesspools and sewers are not harboring the insects. With removal of the breeding places the mosquitos will cease to exist, and your rest, and mine, will be better at night.

The Stockman has been handicapped by lack of competent help and mechanical facilities. We need another printer, but as yet haven't been able to locate one. Our typesetting machine is a nervous wreck, has laid down on the job, and we have been compelled to handset the paper for some months, which takes time, temper and trouble. As a means of bettering the paper, a new typesetting machine will be acquired, another printer hired and new type faces acquired for advertising purposes. All this will take time and money, but we hope to have it done before the end of the year.

Only a short month remains of the vacation period, and school will soon open again. With the opening of school, many families who have been spending the summer on the ranches will move back to town to stay during the winter, and business should increase accordingly. We know of at least two business houses in Ozona whose total sales per month this summer has totaled more than ever before, and they should show a further increase through the winter. These two business firms have been persistent and consistent users of this paper's advertising space. You can draw your own conclusions, but if we were running your business, a certain per cent of the profits would be spent in Stockman advertising. If your business has been showing a fair profit without advertising, haven't you wondered how much more it would be with Stockman advertising?

Latest returns from the recent election by the Texas Election Bureau indicate that Dan Moody has a majority of some three thousand votes over the other five candidates in the race, and does away with the necessity for a run-off primary. Our guess as to the political situation, while considerably better than that of Jim Ferguson, fell far wide of the mark, and our prediction that there would be a run-off primary did not materialize. We are glad that it is so. Dan Moody, in receiving one of the largest votes ever given a candidate in a Texas primary election, has shown that he has the confidence of Texas voters, and we believe that he is honest enough not to abuse the confidence placed in him. Judging from his past record, he should make a splendid executive. At least let us hope so. Texas has been in a turmoil for a decade. Silly campaign issues, mudslinging and crooked politicians have made the State a joke to the rest of the world, and Dan Moody has the chance of a lifetime to earn the respect of Texas people by giving us a couple of real administrations of State affairs free of shady deals and questionable policies. Four years of the right kind of executive control will go a long way toward restoring the State to its former prestige.

Moody Wins Out

Dallas, Aug. 2.—Dan Moody won the Texas gubernatorial nomination in the recent primary by a majority of 1,013 votes over his five opponents complete and revised unofficial returns to the Texas Election Bureau show tonight.

Returns to the bureau from 252 out of 252 counties in the State all complete, showed the following totals for candidates for State offices: Governor—Moody, 411,390; Ferguson 281,939; Davidson, 123,025; Zimmerman 2,910; Wilmons 1498; Johnson 1,006.

When returns from Fisher county the last county reporting were tabulated tonight the total vote for Governor stood at 621,767 raising Moody's majority to the new figure.

Miss Lucile Brieger is visiting in Taylor, Texas.

John Bailey was a Sunday visitor to Del Rio.

Born—to Bascomb and Mrs. Cox on July 29, an 8 1-2 pound boy.

Dan Wills and wife left this week for a visit to Killeen and Granger.

FOR SALE—
House off the lot.
Roy Parker

Clay Montgomery and family left Thursday for Comanche to visit relatives.

Mr. and Mrs. Warren Clayton and Dr. and Mrs. A. W. Clayton are visiting in Corpus Christi.

Mr. and Mrs. Jones Miller and granddaughter, Miss Vivian Miller, left Monday for the Nolanville camp meeting at Killeen.

Miss Nettie Word and Mrs. D. O. Leary will sail Saturday from Galveston for a trip to New York and Canada.

Miss Elizabeth Funkhouser of Fort Worth has been visiting in Ozona with relatives, the Montgomerys.

Mrs. Early Baggett and Scott Peters entertained the Forty-Two Club last Tuesday night at the Baggett ranch.

Wise Owens and wife are to visit in Hamilton county and attend the Nolanville camp meeting at Killeen.

Mrs. Virginia Canaday and children returned to their home at San Antonio Sunday after visiting several days with Mrs. W. H. Grannis.

Mr. and Mrs. R. M. Bell and son Roscoe returned Sunday from a week's visit with friends and relatives at Wichita Falls and other points in that section.

Jerry Phillips, who some three years ago was manual training instructor in the Ozona High School, was a business visitor in Ozona this week, from Tyler, his home.

Rowdy Hoover was painfully burned Monday night by the explosion of a gaso-line lantern near which he was working. The burn was dressed by Dr. Coates and is healing nicely.

The infant of Mr. and Mrs. John Patrick, which died at birth was buried in the Ozona cemetery last Sunday afternoon, after being brought from San Angelo by the Robert Massie Company.

Misses Rebekah Baggett, Daxie Davidson and Floy Friend gave a shower at the home of Mrs. Monroe Baggett in honor of the bride to be, Miss Jessie Lou Kersey, Tuesday evening.

Persons who water flowers at the cemetery are asked to be sure the water is turned off when they leave. Several times lately the water has been run out of the tank by leaving one or more hydrants turned on.

TRUE ARTISTS

will not cease striving until the very best has been created or accomplished. This is true in any line of endeavor, whether a professional man or the poorest paid laborer.

In our business, we have put stress on Service. Of course, we have quality, good prices, cleanliness, and many other features without which our grocery store would not be a store. But above all, we take pride in the service we give. Courteous clerks, immediate attention to phone or personal calls, and speedy delivery service are some of the results of our efforts to make our service the best in Ozona. We are striving continually to better our service, and to that end we can always truly say

San Angelo, Texas

QUALITY AT LOW COST

Young At 60,
Or Old At 40?
Diet Decides

Some are as old as an eagle at 60 years of age. A woman may look at sixty years or old at forty if all depends on her physical condition. Youth and beauty have a foundation in sound health. And food is the most important item in health. In giving consideration to the subjects of diet and beauty, women

should not forget the food essentials that make for the preservation of teeth, hair, figure and complexion. Blame for round shoulders, flat chest and poor teeth among women is due in large measure to faulty diet, or, specifically, to a lack of lime and phosphorus. Milk, or evaporated milk, which is simply cow's milk with 90 per cent of the water taken away, is especially rich in lime. Because of the concentration of evaporated milk, which is regulated by government standards, it is of double the richness of ordinary market milk, as is shown in the following table:

Ordinary Milk	
Fat	3.5 to 4 per cent
Sugar (lactose)	4.5 to 5 per cent
Proteins	3.5 to 4 per cent
Minerals	0.7 to 0.75 per cent

Evaporated Milk	
Fat	7.5 to 8 per cent
Sugar (lactose)	10.5 to 10 per cent
Proteins	7.5 to 8 per cent
Minerals	1.4 to 1.4 per cent

A quart of milk a day for adults is recommended by doctors not only because of its high mineral content, but for the reasons that it helps keep the digestive tract in proper condition, strengthens the body to resist disease, and gives proper balance to the diet. Salads also play an important part in the dietary. Some sort of a salad, lettuce, tomato, fresh fruit, cabbage or vegetable, should be eaten at least once a day. Neither is the daily menu complete without a generous quantity of coarse, leafy vegetables, valuable for their high vitamin content. Fruit juices also have very beneficial properties. If a woman follows out the rules of diet, birthdays to her will be nothing more than an excuse for a celebration.

Announcement Party

Mr. Albert Bailey announced the engagement of his sister, Miss Jessie Lou Kersey, to Robert Austin of Fort Worth, at a lawn party Tuesday afternoon from 6 to 8. Numbers of vari-colored balloons hung from the trees and gave the party a note of individuality. Covers of blue and white crepe paper were placed on the tables and refreshments of cream and rosettes were served to the guests.

Mr. and Mrs. Will C. Easterling for many years residents of Ozona, have moved to Alpine, where they will make their future home. They left the first of the week. Ill health of Mrs. Easterling and the desire to be near her aged mother were cause for them to move from Ozona. Greene Cooke purchased home on West Broadway occupied for many years by the Easterlings as their residence. Our citizens will regret to learn that Kuzma Klem and Bill will not be counted as residents of Ozona any more.

Herein Fail Not, but of this Writ make due return within twenty days from the date hereof, showing how you have executed the same. Given under my hand and seal of said Court, and issued at Ozona, Texas, this the 23rd day of April, 1926. (Seal) Tom Nolen, Clerk of the District Court, Crockett County, Texas.

Notice—All members of the Eastern Star are asked to be at the Masonic Hall each Tuesday night for practice meetings. Mrs. Elmer Graves, W. M. W. H. Holcombe, athletic coach and instructor in the Ozona High school last year was a business visitor in Ozona the first of this week from his home near Antonio. Former pupils of Mr. Holcombe were glad to see him again.

It's Easy to Kill Mosquitoes
Zzzzz! Sleep! But in a few seconds he's back again. Slapping at mosquitoes worries you more than it does them. And you could be entirely rid of them so easily! Simply close doors and windows and blow Bee Brand about the room. Bee Brand Insect Powder will kill every one and it's easy and safe to use. It's a powder. It can't explode. It can't stain. It's harmless to everything except insects. You can use it in a puffer gun, or blow it in the air from a piece of paper. You can blow it in the room. It kills Ants, Flies, Fleas, Roaches, Water Bugs, Bed Bugs, Moths, Lice, Fleas, and many other house and garden insects. Get Bee Brand in red airing top cans at your grocer's or druggist's. Household sizes, 10c and 25c. Other sizes, 50c and \$1.00. Puffer gun, 10c. If your dealer can't supply you, send us 25c for large household size. Give dealer's name and ask for free booklet. "It Kills Them," a guide for killing house and garden pests. McCormick & Co., Baltimore, Md.

Livestock Quarantine

Be it remembered that on the 8th day of July, 1926, the Honorable Commissioners Court of Crockett County met at the Court House in Ozona in special session, all the members of said Court being present, whereupon the following order and judgment was duly passed by said Court and spread upon the minutes. "Ordered by the Commissioners Court of Crockett County, Texas, that whereas this county has two resident cattle and sheep inspectors duly commissioned by the State Livestock Sanitary Commission and have heretofore been instructed by this Court zealously to protect the livestock of Crockett county from infection by foreign livestock, and, whereas, it has come to the notice of this Court that stomach worm, a malignant disease, now exists among some of the domestic animals in certain counties in West Texas, and also that anthrax exists in a mild form among some domestic animals in West Texas, the said inspectors are ordered to inspect all sheep and cattle entering Crockett county, and to issue written permission to enter all found clean and free from scab, fever tick, stomach worms and anthrax, but to refuse entrance of any animals, flocks, herds or droves of livestock found infected with one or more of such malignant diseases. No further business appearing, the Court adjourned sine die." Chas. E. Davidson, County Judge. Attest: Tom Nolen, Clerk.
