The Turning Point

At the beginning of 1922, it was evident that the peak of hard times had been passed and that the country was on the downward path to prosperity.

In the West Texas situation, however, there was one factor which caused us all anxiety, and that was—rain.

If rain didn't come, West Texas was in sore straits, even though the rest of the country might be prosperous.

For over two months and one-half, we waited anxiously for rain. Finally, it came and the parched lands drank it in. With it, THE ONLY HINDRANCE TO A GLORIOUS YEAR OF PROSPERITY HAS BEEN REMOVED.

Sheep are selling at the highest prices since the boon days before the war, and cattle are bringing good prices. Normaley has come on us with a rush.

Relying on the saying that "God helps those who help themselves," on New Years Day, 1922, we resolved to bring the business of the Roach-McLymont Company up to a million dollars by the close of the year.

In spite of adverse conditions, the January, February and March business has exceeded all previous records, and we are fully confident, now that rain has come, of REACHING OUR MILLION DOLLAR GOAL BY 1923.

This extraordinary success we owe entirely to the public of this district who have come to know that when they trade with us, they get more for their dollar than they can get elsewhere.

Preventative Medicine

The tendency of medical science s toward preventative measures. It is easier and better to prevent

than to cure. Pneumonia, one of the most dangerous diseases that

medical men have to contend

with, often follows a cold or attack of the grip. The cold pre-

pares the system for the recep-

tion and development of the pneumonia germ. The longer the cold hangs on the greater the danger. Take Chamber-

lain's Cough Remedy as soon as

the first indication of a cold ap-

pears so as to get rid of it with

the least possible delay. It is

felly to risk an attack of pneu-
