Fulmer Resigns Pastorate Here

Baptist Minister Accepts Post In Jackson, Tenn.

Rev. M. M. Fulmer, who has been pastor of the First Baptist Church of Ozona the last seven years, tendered his resignation to the congregation of the church Sunday night.

Rev. Fulmer has accepted a call to the pastorate of Calvary Baptist Church in Jackson, Tennessee, where he attended school in his youth. He preached in the church while a student in college at Jackson, Tenn. It now has a membership near 1,000 in a city of more than 25,000 population.

The church congregation voted to accept Rev. Fulmer's resignation, which is to become effective August 5, when he will leave with his family for a short vacation before reporting to his new charge on August 15.

Much has been accomplished by the local church during Rev. Fulmer's seven years at its head. The greatest accomplishment, of course, was the construction of the beautiful new brick building at a cost of approximately \$40,000. The church building debt has been reduced to around \$9,000.

Relief Workers Who Turn Down Jobs Are To Be Cut Off Rolls

The Texas Relief Commission is seeking information from employers regarding persons who refuse to accept jobs at the prevailing wage scale.

At a meeting in Austin last week-end, the Commission adopted a resolution urging all employers in the State to make a prompt report of instances where clients on the relief rolls have refused to accept employment.

Employers have been asked to report to the county relief office giving the name and address of persons who refuse a job; also the type of employment offered, the wage offered and the date on which the refusal was made.

Relief officials pointed out that recipients of relief are no longer eligible for either direct or work relief after they have refused to accept a job.

GOV'T. CATTLE BUYING IN FULL SWING IN COUNTY; 6,202 HEAD SIGNED UP

Out of 902 head of cattle appraised by government appraisers on Crockett County ranches up to Tuesday night, 613 head had been accepted for shipment, and 298 head, or 32 per cent, had been killed on the spot in the government's cattle buying program in the drouth stricken area now in full progress in this county.

A total of 6,202 head of cattle have been signed up by 53 Crockett County ranchmen for inspection and appraisal, according to records in the office of J. S. Barlow, in charge of the office records for the local program. Inspection and appraisals since last Saturday have been going at the approximate rate of 250 head a day on four to five ranches. At this rate the program will require nearly a month for completion in this county.

Culls Are Killed
The Crockett County cattle buying program was launched here Saturday afternoon when a group of ranchmen met at the Hotel Ozona with W. R. Nesbit, with the A. & M. College, and a former resident of Crockett County, as director for Sutton and Crockett Counties, in charge. Louis Stewart is appraiser in this county and Dr. C. C. Young, veterinarian, Dan Willis is assisting the crew in locating the ranches and in the inspection work.

Cattle that are diseased or too poor to stand shipment or too young are killed on the ranches. Condemned animals are paid for at the rate of \$12 a head for two-year-olds and up, \$10 a head for yearlings and \$4 a head for calves. If the animals are passed and accepted as suitable for shipment to canneries, they are paid for at the rate of from \$12 to \$20 a head for the grown animals, \$10 to \$15 for yearlings and \$4 to \$8 a head for calves.

Ranchers Deliver Cattle
The animals accepted for shipment are to be delivered by the ranchman to designated shipping points, for this county either at Barnhart, Big Lake or Rankin. The local relief director, R. O. Smith, is charged with the duty of receiving the cattle at the shipping pens, the government and the railroads being responsible for delivery to the destination after being received at the shipping point.

None of the meat from the slaughtered animals may be sold, but it can be given away and many Ozona families have gone to the scene of the killing and brought home fat calves that were too young for shipment. Mexicans of the local settlement have also been stocking up on the edible animals, hauling them here by the truck loads. Ranchmen are permitted to skin the dead animals and to sell the hides. Salvaging of the hides will add from a dollar to two dollars to the amount received, according to estimates.

Five Holes Open At Lions Course

Golfers Limbering Up As Play Starts On Baggett Links

Five holes of the nine-hole Lions Club golf course, located on the W. R. Baggett ranch, four miles north of Ozona, were opened to play yesterday and a number of members have been out to try out their shots and learn the directions and distances.

The five holes already finished are Numbers 1, 2, 3, 6 and 9. These were finished first so that play could start while the rest of the course is being finished. These five holes form a circle back to the starting point with a minimum of jumps between greens and tees over the holes omitted.

Work of completing the other four holes will be temporarily suspended until a few additional members sign up. A number have indicated their intention of taking memberships but members of the golf committee in charge of the membership campaign have been busy recently and the required quota has not been reached. Enough have already indicated a desire to sign up, however, to insure completion of the course. The annual membership fee now is \$30, those signing up before completion of the course being entitled to thirteen months playing privileges on their first year's membership.

Del Rio Cowboys Rap Giants For 2

Locals Drop Twin Bill To Border Lads In Combat Sunday

The jinx still rode high on the necks of the Ozona Giants Sunday afternoon when they received a double plastering from the Del Rio Cowboys in a double header league bill on the Val Verde lot. The scores were 9-4 and 4-2.

The Del Rio park is shallow, the fences closer to the infield than the outfielders' positions on the local park and balls that are called high flies in the local park were home runs there. Cowboy batsmen rapping out four in the first fracas and one in the second. Carl Dorley, Giant third sacker and relief pitcher, relieved James in the pitcher's box in the first game and rapped out two home runs for the Giants, one in each game.

A DISGRACE TO TEXAS

Marshall Morning News: For the last 30 years the dominant political party in Texas has declared that it favored the adequate housing and attention to the unfortunate insane of our State. We have heard many candidates for the governor's office declare their election would mean that the disgraceful situation of having insane persons in jail would cease. Yet today the situation is more than it has ever been. John H. Wallace, member of the State Board of Control, in a recent statement says these institutions are in a most deplorable condition. In one such institution, the one located at Austin, there are 285 overflow patients who are sleeping on the floor and there are more than 700 applications for admission to the Austin institution alone. Mr. Wallace says that the jails throughout the State are filled with such unfortunates. He says he knows of one jail in which there are 59 insane persons. Mr. Wallace says: "Our institutions are so filled and so many insane are in jails that the Legislature should adopt a policy either of caring for all the unfortunates or stop pretending to do so. The situation is getting worse every day, as the waiting lists increase and no new accommodations are being provided. There are a few less than 20,000 wards in the various institutions and the Legislature must make room for several thousand more or we will fall utterly in our obligations to society and the unfortunates."

That is a severe indictment Mr. Wallace brings and the horror of it is that it's a true indictment. That this rich State with all its wealth should allow such a condition to exist is unthinkable. Will the people with heavenly compassion in their hearts allow it to continue? There unfortunate ones can not vote which places them in the category of the "forgotten man," or we might better say the "forsaken ones." If we are to continue to claim to be a civilized people, this situation should be changed. We can not conceive of anything of equal importance.

Miss Sarah Whitley of Cushing, Texas, has returned home after a ten-day visit with Mrs. Charles Williams.

ADVERTISING A REAL HELP TO SUCCESSFUL MERCHANTS

The ideas that prevailed about advertising some years ago are dying fast and the future will see a pronounced trend to institutional advertising. Rather than try to persuade the buyer that he is giving away something the new merchant will only try to convince her that he is honestly and competently serving her convenience in the field of merchandising.

Buyers have sense. They know that it is impossible for a business man to keep going except through making a legitimate profit on his trade. When he gives efficient service, buying wisely and selling at reasonable prices, the local merchant is doing his part in promoting the welfare of this city.

Naturally, one should not lose sight of the fact that hundreds of young people become of age every year, and find it necessary to establish their own business connections. Few of them know business men personally. They will naturally trade with the firm that has sold itself to them, which suggests good will advertising in the newspaper and most of them read. Advertising will do for merchants in this city exactly what it has done for successful business everywhere. It will not sell inferior goods or make up for rotten service. It will serve as an invitation to buyers, keep them thinking of a business and impress them with the firm's efficiency. However, it must be carefully done. For this reason, the Stockman invites all merchants to make use of its helpful advertising service, which is freely placed at their disposal.

This newspaper does not intend to try to hold up business men, or to fool them into spending money foolishly. In the long run such a policy could not help us. Our business must grow as our advertisers profit—only through their gains will we make progress. Hence there is absolutely no temptation to overload a business with advertising. We seek results for our advertisers and solicit their business because we know, and so do others, that advertising is profitable to advertisers when used correctly.

Del Rio Evening News: If the NRA, PWA and other intialted bureaus are remembered for nothing more, they at least will have done a good service for crossword puzzle makers.

WHAT MAKES WOMEN BUY

It is well known by all live merchants, and by husbands as well, that practically all buying for the home is either actually done by women or directed by them. For this reason the merchant's greatest problem is to attract the favorable attention of women to his wares.

Women are alert to grasp opportunities to secure merchandise at a bargain and they are more discriminating buyers than men, as a rule. They read advertisements and act upon the information obtained thereby.

In order to determine just what advertising mediums have the greatest influence on women's buying a survey recently made by a Los Angeles advertising club, developed some interesting facts. Replies from 1,000 women of all classes were obtained in answer to a questionnaire listing the various advertising mediums and asking what form of advertising influenced them most.

Newspapers were credited with the greatest influence by 36 per cent of these women, magazine advertising 22 per cent, street car advertising by a fraction over 4 per cent, announcement cards and program advertising by less than 4 per cent, while booklets, pamphlets, and circular letters in-

fluenced less than 2 per cent. Thus again is demonstrated what every wide-awake merchant must have already observed—that newspaper advertising is the most potent medium for reaching women buyers. And this applies with equal force to men buyers, too.

A 21-YEAR FIRE

Galveston Wharf Magazine: Incredible as it may seem, a once disastrous fire has been raging in Dubuque, Iowa, for 21 years. In 1911, fire ravaged the 40 acres of ground by the Mississippi River front on which the Knapp-Stout lumber mill, the Standard Lumber Co., the Leisure Mill and a large paper factory stood. The fire raged for days and caused a loss which, estimated in today's values would exceed \$7,000,000.

For weeks flames pecked out of the ruins, and for months smoke poured out of the area. Then firemen began to have repeated fire calls to the vicinity, where flames burst out of the ground. These calls have continued to the present day. The explanation is that the original fire penetrated under hundreds of tons of sawdust and rubbish strewn on the area, and could not be reached by water. There it has smoldered while babies then unborn grew old enough to vote. The records of the

Dubuque fire department show that scores of calls have been made to the vicinity in all seasons. Veteran firemen say that it is entirely possible that some day, when air penetrates into the underground vacuum, it may flare out anew.

Say "I saw it in the Stockman."

Give Your Body A Rest As Well As Mind On Vacation

AUSTIN, Texas, July 11.—"It perhaps would be better for many thousands of vacationing adults, were it possible to extend the same type of rational supervision to them as their children receive in the so-called recreational camps. Judged by the results of the fortnight's outing, a great number of persons do not receive physical benefit from their stay but are even worse off on their return than when they went away," states Dr. John W. Brown, State Health Officer.

"Most certainly the mental stimulation of 'going places and doing things' out of the usual run is in itself of value. Merely to get out of the rut, visit a new locality or revisit an old one, where new faces and friends are to be found is of decided advantage.

"On the other hand it is not reasonable to become so enthusiastic concerning the well-earned freedom from the daily routine as to permit oneself to get out of bounds. While it is perfectly natural to want to crowd as much pleasant activity as is possible into the two weeks' change, it most decidedly does not pay to do this at the expense of one's health and vitality, yet this is precisely what many foolish persons do. It is therefore a slight wonder that many men and women who have left for a vacation with that 'tired feeling' come back home even more tired.

"While these facts are not furnished to take the joy out of the annual sojourn, it might be well for adults to figure a little physical benefit on the proposition rather than to specialize on fun and devitalizing allurements. The body, as well as the mind, needs consideration. The wise vacationist will see that it gets it."

IT WAS NEWS TO HIM

William A. Roberts, who is people's counsel for the District of Columbia, was informed the other day that he was a candidate for Vice President of the United States in the 1932 elections on the ticket of the National Association Opposed to Rigid Laws. This was the first he heard of it. A letter from Rosa K. Black of Paris, Va., chairman of the executive committee of the association, broke the news. He said he thought the candidate for President, Leland Barton, had informed Roberts, but had learned differently.

IS THERE ONE?

Alpine Avalanche: A unique feature is to be provided for the parade which will be held here on the morning of July 4 in connection with the annual Old Settlers Reunion and Cowboys Round-Up, according to W. H. Terry, general chairman in charge of arrangements.

For the first time in history of this part of the country a steer not covered by a mortgage will be exhibited. The animal will be given a place of honor in the parade, said Mr. Terry, by reason of his unusual status.

Just who would furnish an animal bearing this remarkable distinction was not explained by Mr. Terry.

WHOOPIING COUGH SUNDAY SCHOOL WHOOPING SUCCESS

Fort Stockton, July 10.—When Sunday School attendance is reduced to a mere shadow of its former self by an epidemic of whooping cough there is only one remedy. That is, organize a Sunday School restricted to whooping cough victims.

Such a Sunday School started here at the home of a cough infected family is the best attended Sabbath session in town; it's a whooping success.

Don't Wait for the Ball, Step Up and Meet It!

The late John McGraw was not only one of the greatest baseball strategists the game has ever seen, he was also quite a philosopher and an astute observer of human nature. Somebody once asked him the difference between a great major league batting star and the bush league hitter. "THE BIG LEAGUER STEPS FORWARD TO MEET THE BALL, and the bush leaguer WAITS UNTIL THE BALL GETS TO HIM," was McGraw's answer.

It seems to me that McGraw's definition of a big leaguer applies very much to selling merchandise. Those of us who are waiting for the ball (business) to get to us are going to be disappointed. Any business which starts our way is likely to be intercepted by some big leaguer who "steps forward to meet it."

Now that business is rather definitely on the upgrade, we are confidently looking forward to better sales and a more profitable operation. But there is one fly in the ointment for some of us: Have we lost sales, lost ground and lost business generally, ENTIRELY because of unfavorable conditions?

This much is certain: we'll have to meet the upturn at least that wasn't really the fault of conditions at all. It was our own fault.

Now the thing for us to do is take a little time out to decide how much of our past losses and misfortunes were due to conditions and how much were due to the fact that we wanted to lay back and wait for the ball instead of stepping into it.

This much is certain: we'll have to meet the upturn at least half-way if we expect to capitalize its full possibilities. Let's remember what John McGraw said about the DIFFERENCE between a BIG LEAGUER and a BUSH LEAGUER.

A KISS FOR THE WIFE

Longview News: Those Oklahoma City husbands who formed a Husband's Gratitude Club seem to have struck upon a pretty sound idea for promoting happy marriages.

Each member took this pledge: "I solemnly pledge myself daily to embrace my wife, kiss her and tell her I love her." "I promise to compliment her at least once each day on some particular part of the menu she prepares." "I promise to perform at least one kind and unexpected deed for her daily."

Reducing it all to a formal pledge may sound a bit odd, of course. But it does set forth a course of action which points, most decidedly, in the direction of a successful marriage.
