Better Lighting Will Ease Your Budget Worries

There are budgets that really will work... budgets that will show how to bring expenses within income! But they weren't created at a dark and gloomy desk... they were the result of calm and intelligent analysis under the cheering atmosphere of good light.

It's surprising what a difference adequate lighting makes! . . Troubles take on a less terrifying aspect when subjected to the clear, eye-soothing brilliance of the modern electric light. It's not only much easier to work, but the absence of eve-strain keeps your mind clear and alert.

Next time you sit down to plot out the month's expenses, or to write a letter, be sure your light is adequate. You'll find the difference amazing!

A trained employe will be happy to inspect your home-lighting arrangements. There's no obligation, of course . . . and chances are that a simple reurrangement of your present fix-tures, or adjustments giving you adequate sized lamps where they're needed, will be all that's necessary.

Do you know that your secressed use of Electric Service is billed on a impeningly low rate schooled . . . and adds only a small amount to your total bill?

Let's Try Tuggin' at our own bootstraps

For many weary months we have been waiting for a turn in the business tide. We have been looking hopefully on the efforts of the Reconstruction Finance Corporation. We have been watching interestedly the progress of the many relief measures which have been attempted or proposed to boost stagnant business.

Any one or several of these agencies combined, may eventually pull us out of the doldrums.

But-in the meantime-while we're watchfully waiting for the tide to turn; why not take a tug at our own bootstraps? Why not see what we-OURSELVEScan do to lift Ozona to a better business level?

Here is something concrete and common sense which we can start RIGHT NOW:

> We can start spending more Ozona made dollars here in Ozona. We can start buying more of everything we need for our homes and businesses from Ozona stores. We can start patronizing more Ozona professional men. We can start using more Ozona products. We can hire more Ozona labor.

> When we turn our eyes from far away fields to those here at home, we'll be surprised to find them every bit as green or perhaps a little greener. We'll be surprised to find Ozona bargains just as those in San Angelo. We'll be surprised to discover that most of Ozona services are just as good as any we can find.

> Finally we'll learn a lot more about Ozona than we ever knew before-what she has to offer US-what she really IS. And we'll appreciate our home city more because we've had a hand in helping her along.
