Some people favor laws requiring cats to be licensed and tagged. But you might have to call out the National Guard to enforce such a law. Still, there is no question that the cats do kill a great many birds thus destroying the guardians of our food crops. Put a bell on Kitty during the nesting season is a good principle.

## PRICE

## Isn't All There Is In The Grocery Business

Come ously or otherwise you look for more than price in dealing with your grocer. Of course, you naturally want to buy as cheap as possible and sell as high as possible. That's human nature.

But in your day-to-day dealings with your merchant, whether grocer, butcher, druggist or what, you are not entirely satisfied with price alone. There is something about a store that makes you want to trade there or not want to trade there. Maybe it's the careful, pleasing displays; maybe the courtesy of the clerks; maybe the scrupulous honesty of the management.

There is no competition in price any more in the grocery business. The market price is fixed. The cost of doing business is about the same. Competition would force a parity of price if none were forced otherwise. But in addition to meeting competition in price, we have been striving thru the years to build up that other something, that something that makes you want to trade with us. Our displays, our courteous, satisfied clerks, our fair and honest dealing, our constant effort to give you just a little more in service than othersthese are the avenues over which we have attempted to lead your desire to trade with us. What headway we have made, you are the judge. We shall continue our efforts in the same direction,

# Groceries

# Of High Quality.... Low Price....

When we say you can save money-plenty money-on your grocery bill by getting in your car and driving over to "MIKE NO. 1," just west of the Johnson Bridge, it is no idle boast. We know you can save money because we are selling groceries within fractions of cents of the wholesale cost- just enough margin to pay the low operating cost.

Why are we doing this, you ask! It's simple - some Ozona grocers have misled the public about prices making unwarranted cuts on an unimportant item to sell another at a handsome profit. Futhermore, outof-town wholesalers in the retail business in competition with their own customers—the other grocers—is as intolerable as it is ridiclous, and we, for one, intend to give our friends, the people of Ozona, the benefit of a "new deal"-a more advantageous buying plan plus a negligible margin for overhead cost- in other words, groceries at actual cost here. Hundreds of Ozona people have found the savings possible at MIKE'S NO. 3 and the list is growing. Now, let's see somebody beat or even equalthe prices we are offering.
