## EROSION PLAN TO BE TALKED AT MEET HERE

College Station Men Here Feb. 8 To Explain Act

## RANCHERS INVITED

Mass Meeting Slated For 2 p. m. In Dist. Courtroom

Ranchmen of Crockett County will have an opportunity Feb. 8 to hear an explanation of the plans and operations of the Department of Agriculture under the Soil Conservation Act as it may affect ranch lands of West Texas. It was announced yesterday by County Judge Charles E. Davidson.

On that date three representatives from the Extension Division of the A. & M. College will discuss the Soil Conservation program at a mass meeting of ranchmen and others interested in Crockett County. The meeting, called by Judge Davidson and the Commissioners Court, is scheduled for 2 o'clock Monday afternoon, February 8, in the district courtroom.

Representatives of the College who will be here to explain the Conservation Act are George W. Barnes, head of the division, E. T. Martin and George E. Adams. These men were here early this week conferring with members of the Commissioners Court and arranging for the conference.

Referring to announcement of the coming meeting, Judge Davidson said:

### Urged To Attend

"This subject has been discussed in Commissioners Court and also in meeting of the Ozona National Farm Loan Association and I am impressed that there is quite a strong sentiment in favor of the ranchmen of Crockett County sharing in some of the benefits of the act. I am very anxious that all ranchmen of the county be present at this meeting."

"There may not be much erosion in Crockett County," the judge continued, "but there is some bitterweed, lechegilla and undesirable prickly pear and some brush cedar that probably should warrant the cooperation of the government in its destruction or preventing its increase."

"It seems to me that the A. & M. Extension Department has given the matter careful consideration and its members are posted on requirements for different counties and sections. It is a matter requiring cooperation of the beneficiaries, and for this reason I urge that all ranchmen arrange to be present at this meeting. Should you ignore the invitation, the state may take your action to indicate a desire on your part to be let alone to work out your own salvation. Remember the time and date, 2 p. m., February 8, and be there!"

## Youth Recovers From Injury In Cage Game

Edgar Skeen, member of the Big Lake basketball team, entered in the Ozona tournament last week, was released from a San Angelo hospital Sunday after receiving treatment for a shoulder injury and scalp wound suffered when thrown to the gym floor on a tip-off play during the tournament here.

The Big Lake lad suffered a brain concussion and was unconscious for several hours.

Mr. and Mrs. N. E. Rendall returned Monday from San Antonio and Austin, where they visited last week. Mr. and Mrs. Rendall's car was wrecked between Junction and Kerrville on the way to San Antonio last week. R. F. Powell, a passenger, suffering a broken hip bone in the accident. Mrs. Rendall was painfully bruised in the crash, but Mr. Rendall escaped injury.

## AUTO STRIKE MEDIATOR

John Dewey, representative of Secretary of Labor Frances Perkins in the Detroit automobile strike area. He worked to bring together William S. Knudsen, General Motors executive and Homer Martin, international president of the United Automobile Workers union, to discuss means of ending the labor disputes.

## Ozona-Mertzon Paired To Open Range Tourney

Barnhart Meet Draws 20 Boys Teams, 10 Girls Squads

Ozona High School's basketball squad, semi-finalists in their own tourney the past week-end, and winners of the recent Eldorado tournament, are slated to open hostilities with Mertzon again—at 8 o'clock tomorrow morning at the annual Range Country boys and girls basketball tournament in Barnhart Friday and Saturday.

The Lions' first game in their own meet last Friday was with Mertzon Hornets, the locals coping the contest to shove the Iron county lads into the consolation division.

Twenty teams are entered for the boys' division of the Barnhart tourney, including Midland, Ozona, Mertzon, Rankin, Big Lake, Winters, McCamey, Forsan, Eldorado, Crews, Big Spring, Water Valley, Sonora, Garden City, Iraan, Del Rio, Lakeview, San Angelo and Barnhart.

In the girls division, teams are entered from Garden City, Rankin, Winters, Iraan, Big Lake, Sonora, McCamey, Lake View, Barnhart and Kermit.

## Art Exhibit And Tea Here Draws Over 30 Guests

An art exhibit featuring the works of more than thirty American artists of outstanding ability was enjoyed by members of the Ozona Woman's Club and guests at a tea in the Hotel Ozona ballroom Tuesday afternoon.

In charge of the exhibit was W. H. Colvin, Colorado artist, who was introduced by Mrs. George Bean, club president, gave an interesting lecture on the artists represented in the collection and their work. He represents the Rocky Mountain Artists Association.

Tea guests were greeted by officers of the club. Mrs. Joe Oberkamp poured coffee and Mrs. Evert White, tea. Assisting these were Mrs. Hillery Phillips, Mrs. Ira Carson and Mrs. George Bean. Yellow roses and jonquils formed the centerpiece for the table, which also held yellow tapers in crystal candelabra. Three groups of school children visited during the afternoon to hear Mr. Colvin's lecture.

## MOVED TO SAN ANGELO

Mr. and Mrs. C. W. Barbee have moved to San Angelo where they will make their home in the future. Mr. Barbee has operated the Cosden Service Station near Johnson Draw bridge on Highway 27 for several years. The station is now in charge of C. C. Luther.

## CONTRACTS ON CROCKETT CO. HIGHWAY LET

McKinney of Nacogdoches, Zachry, Laredo Successful Bidders

Contracts for paving of the last unpaved section of Highway 27 through Crockett County were awarded Friday and Monday by the State Highway Commission in session at Austin.

Low bids accepted by the commission on the two adjoining projects call for expenditures amounting to \$155,906, for caliche and crushed rock base and double asphalt surface treatment on approximately 18 miles of the highway from nine miles west of Ozona to the big hill.

The successful bidder on the long section of highway from a point 30 miles west of Ozona, joining the pavement at the top of the big hill, laid by the maintenance department, to Bachler Hill, a little over ten miles, was H. B. Zachry of Laredo whose bid on the project was \$100,756. This project includes installation of several additional drainage structures.

R. W. McKinney of Nacogdoches was the successful bidder on the stretch of road from Bachler Hill to join the completed pavement extending nine miles west of Ozona, a distance of about 7 1/2 miles, his bid being \$55,150.

### Pecos Project Let

Paving of another section of Highway 27, in Pecos County, was also provided at the Friday session of the Commission. This contract, awarded to Hannah Construction Co. and L. P. Reed of Waco on their bid of \$187,110, provides for grading and bridges, caliche and limestone base course and double asphalt surface treatment on twelve miles of highway.

The new construction work in this county will be under the supervision of E. E. Pittman, resident engineer for the State Highway Department, and his staff, who recently established offices here in the courthouse. The resident engineer's staff includes besides the resident engineer himself, George J. Smith, assistant engineer, Sam Fowler, Walter Kyle and Lacey Noble. The engineering crew is now engaged in setting stakes on the highway in preparation for start of the work.

Contractors will be from three to six weeks in moving in to start work on the job, Mr. Pittman said. He estimated the road work would continue until mid-summer.

## J. B. Moore, Early Day Sheriff Here, Claimed By Death

Rancher, Business Man, Pioneer Of Del Rio, Buried Wed.

Funeral services were held yesterday in Del Rio for Jeff B. Moore, 75, one of the big ranch operators in Val Verde County and an early-day sheriff of Crockett County, who died at a hospital in Temple Monday night. Services were held from the First Baptist church in Del Rio yesterday afternoon. Among Ozonans attending services were Mrs. B. B. Ingham and Mrs. Hugh Childress.

Mr. Moore was elected sheriff of Crockett County in 1899, serving six years in that office. He was one of the organizers of the Texas Sheep and Goat Raisers Assn., helped organize the Central National Bank in San Angelo and served that institution as cashier for four years. He also assisted in organizing the Del Rio Wool and Mohair Co. and served it six years as president and general manager. Mr. Moore was the last living charter member of the First Baptist Church in San Angelo. Four children survive him.

## THIEVES STRIP PARKED CARS IN LOOTING FORAY

Tires, Gasoline, Accessories, Guns Taken In Series Of Thefts Here Saturday

A systematic canvass of parked automobiles, trucks and trailers in Ozona was made by a thief or thieves Saturday night with the result that some half dozen tires, two guns, a quantity of gasoline, groceries left in cars and other articles were missing.

Kay Black lost a spare tire and a quantity of groceries which had been left in his car parked near his home. W. C. Brock discovered the loss of a spare tire from his truck, and D. F. Parker, dairy operator, was short two tires from his trailer, the vehicle having been rolled from his home to a point near Johnson draw and stripped of its tires.

George Cox and Gene Fowler, representatives of the state Liquor Control Board, who were visiting in the home of Mr. and Mrs. M. Wilkinson, lost a pistol and rifle, which had been left in the car parked in front of the Wilkinson residence. W. E. Friend, Jr., discovered the keys to his car missing and a quantity of gasoline taken. Dr. Sellers Moore's car, parked in front of his residence, was stripped of its windshield defroster and other accessories. An attempt had been made to remove a heater from one of his cars and a radio from the other, the thieves being unsuccessful in each instance.

The thieves left a cold trail, officers said, but a few meager clues are being followed down in an attempt to trace the pilferers.

## Dance Program To Feature Assembly Hour Program Today

The program is being directed by Miss Norine Allison, with Miss Sophie Haug and Miss Merle Draper of Sonora assisting. Announcements on the school's public address system will be made by Ele Bright Baggett.

The program includes ten numbers: "How-do-you-do, My Partner," by the kindergarten; Colonial Minuet by second graders; Sailor Clog by Lurline Townsend; Irish Dance by a group of eight girls; Highland Fling by Nan Tandy and Mary Louise Perner; Dutch Dance by ten couples; Japanese Dance by ten girls; La Costilla by Dick Lee McDonald and Muggins Davidson; El Jarabe Tapatio by Ele Bright Baggett and Ora Louise Cox and Lass and Lassie Dance by the kindergarten.

## Farm Loan Group Officers Named To Another Term

Judge Charles E. Davidson was re-elected president of the Ozona National Farm Loan Association at a meeting of directors of the institution held Saturday in the office of N. W. Graham. J. M. Baggett was re-elected vice president, N. W. Graham continued as secretary-treasurer and Hugh Childress, Jr., assistant secretary-treasurer.

The loan committee, examiner and alternates were all re-appointed. The loan committee includes J. M. Baggett, P. T. Robison and George Harrell, with N. W. Graham as examiner. Alternates are D. A. Willis, W. R. Baggett and Rob Miller.

Bob Billington, Scout Executive for the Concho Valley Council, and Frederick B. Isely, newly appointed assistant executive, visited in Ozona the first of the week, conferring with local Scouters.

## McCAMEY COPS SIXTH ANNUAL OZONA TOURNEY; DESCRIBED AS MOST SUCCESSFUL IN HISTORY

Grandfalls Comes Thru For Consolation Trophy; Lions Fall Before Del Rio, Runners-Up, in Semi-Finals

McCamey's Badgers, guarding with desperation the last few minutes of championship play to hold their one-point margin to a victory nosed out the snappy Del Rio quint Saturday night to win Ozona's Sixth annual Basketball tournament trophy. The final score was 17 to 16.

The tournament, described by local school officials, as the most successful in the history of the local meet, was staged Friday and Saturday, with fourteen teams, full capacity of the meet, entered.

The stands in Ozona's handsome gymnasium were packed for each session of the two-day meet, and a check-up this week indicated that from a financial standpoint also the tourney was a decided success.

A team from Grandfalls, named Los Vaqueros (The Cowboys), slashed their way to the consolation trophy, beating down a fast Sanderson team in championship play Saturday night for the consolation honors. The score in this game was 35 to 18.

Evenly Matched Throughout the champion-deciding Del Rio-McCamey game, neither team was ever more than two points ahead. At the half the score stood nine-all, and throughout the last half it was nip and tuck the whole distance. With the Badgers just one point ahead for the last four minutes of play, the Del Rioans took a dozen or more long shots at the basket, missing many by inches, while both teams loosed a fast and furious brand of play that had fans breathless when the final whistle sounded.

Coach Ted White and his host team, the Ozona Lions, advanced to the semi-finals, beating Mertzon 23-17 in the opening round, and taking Alpine 28 to 14 in the second round. Del Rio eliminated the locals in the semi-finals 24 to 20 in a game Saturday afternoon that went for an extra period, and a game that was every bit as thrilling as the Del Rio-McCamey championship bout. Del Rio made it to the finals by defeating Grandfalls 31 to 14 in the opening round, drawing a bye in the second round and nosing out the Lions in the semi-finals.

THURSDAY, JANUARY 21, 1937

THE OFFICE IS NECESSARY

If a political machine of the Tammany Hall variety found that it had to deal with an office like that of Comptroller General of the United States, its most sensible procedure would be to abolish it. No office that stands in the way of petty politics, of joker contracts, of grafting officials, of all the covetous rodents that prey on public treasuries can prove acceptable to politicians. Congress intentionally gave the office a character that has tended to make the post independent and incorruptible. From his long experience John R. McCarl, the former Comptroller General, is right in believing that President Roosevelt is badly advised in his proposal to jettison the office itself.

The same impression will remain with anyone who delves into the long series of McCarl decisions between July 1, 1921, and July 1, 1936, and recalls that their rigid independence and fidelity to public as against individual interests antagonized all the presidents from Harding to Roosevelt. Democrat and Republican alike must be convinced that the Comptroller General proved to be non-partisan. Well meaning administrators object to strict rules that hamper their efforts but they forget that only so is the public guarded against those who are not so well meaning.

Here is what the Comptroller General does. He passes on every expenditure of Government funds with final judgment on its ac-

cord with the authorizing legislation. He says whether the pay roll is correct or not. He lays down set rules for travel and other expenses on Government business. He passes on the performance of Government contracts, excluding pay for all work not in accord with authorization. He passes on private claims, so effectively that the Court of Claims and other tribunals almost invariably accept as final his findings of fact. He has auditors in every department and is responsible to Congress only.

The Democratic administration has already made one mistake in connection with the Comptroller General's office. The Roosevelt Congress exempted specifically both RFC and TVA from his authority, a policy that may rise to plague the party whenever it passes out of power. It would be a fatal error now to abolish the office. This is practically the recommendation of the reorganization committee. The President's substitute would provide a household pet instead of a pugnacious watchdog of the Treasury. — Dallas News.

Brother Of Mrs. Armond Hoover Dies In Temple

Rev. Jewell Matthews, Pastor Christian Church There

Mrs. Armond Hoover of Ozona attended funeral services Sunday afternoon for her brother, the Rev. Jewell Matthews of Temple, who died there Saturday from an attack of pneumonia. The following account of Dr. Matthews' death is taken from the Temple Daily Telegram:

One of Temple's best loved ministers, the Rev. Jewell Matthews, died quietly at his home at 11:15 o'clock Saturday morning. He had been seriously ill since Oct. 3.

Hundreds of his friends today will go to his church, the First Christian, where the body will lie in state from 1:30 until 3 p. m.

At 3 o'clock this afternoon, funeral services will be held, conducted by the Rev. John Wright Holsapple, a former pastor of the church. Assisting will be the Rev. F. W. O'Malley, also a former pastor of the church, and the Rev. J. B. Dobbins, rector of Christ Episcopal church.

Active pallbearers will be John Ellis, Philip Grazier, Sid Nelson, Lester Ludwick, Emmett Watson, Frank Hay, O. Richards, and L.

Son, Grandson of Ministers

Honorary pallbearers will be the official board of his church, members of the Men's Bible class he founded and conducted each Sunday, the Masonic lodge, all local ministers, who will sit in a body on the platform during the services, the woman's council of the church and his friends in the medical profession.

Born in Paradise, Texas, Oct. 7, 1893, Dr. Matthews was the son and grandson of Texas ministers. His grandfather, Dr. Mansil W. Matthews, a noted pioneer preacher and patriot, was personal physician to Sam Houston at the battle of San Jacinto.

The Rev. Matthews took his education at Texas Christian University, the University of Virginia, and Chicago University. His first pastorates were at Weatherford and McAllen. During his seven-year service at McAllen, he organized and developed a men's Bible class of more than 2,000 members.

From McAllen the Rev. Matthews went to the First Christian Church of Richmond, Virginia, and was called here in September, 1931.

He was a Mason, an Odd Fellow, a Captain, Chaplain, in the Organized Reserve Corps, U. S. Army, president of the Bell county chapter of the Sons of the Republic of Texas, chairman of the Temple Family Welfare society, past president of the Temple Pastors' Association, and held other offices.

A student of world affairs and a writer, his column "The World Do Move," which ran in the Telegram until he became ill, was widely quoted.

Surviving are his wife; four children, Jewell, Jr., Marcia, George Mack and Charlotte; and four sisters, Mrs. J. G. Powell of Cleburne, Mrs. Armond Hoover of Ozona, Mrs. Blanche Prather of San Angelo, and Mrs. Willis Johnson of McCombs.

The first Bible Conference for the San Angelo District will be held at First Church, San Angelo, from Sunday, January 24 through Wednesday, January 27. The sessions will begin at 7:30 each evening. Dr. Wesley Davis, Professor of New Testament in the School of Theology at S. M. U., will be the lecturer. The Bible Conference differs from the Training School in that there are no required readings, no written papers, and no credit given for attendance. We hope that a number of our people will plan to attend at least one session of this conference.

The growing attendance at all services of the church is a commentary on our hunger for an increasing fellowship with the Unseen. Some of the leaders of religious life and thought throughout the world have expressed the belief that we are approaching an

era of unprecedented spiritual awakening. The late Charles Steinmetz and the late Thomas Edison, both men of science, declared that the significant progress within the next fifty years would be in the realm of spirituality. What a marvelous prophecy! And it is our privilege to have a share in that progress.

WE APPRECIATE THIS LETTER

From One of Nation's Largest Users of Newspaper Advertising

CAMPBELL-EWALD COMPANY, Advertising General Motor Building H. T. Ewald, President Detroit, Michigan, Trinity 2-4300

Stockman, Ozona, Texas, Gentlemen:

December 31, 1936

I was thumbing through a copy of Ralph Waldo Emerson the other day and I saw a phrase which started me thinking about my many years of friendly association with advertisers and publishers and which prompts me to write you this letter of greeting.

The phrase was as follows: "The silence that accepts merit as the most natural thing in the world is the highest applause."

Now, that sentence may be perfectly true. It certainly expresses the attitude which almost all of us have taken in the past toward many people and many institutions that we admire and appreciate the most. But I believe that the troublous years which we have now happily put behind us have altered that attitude and made all of us a bit more ready to think of the other fellow and to applaud the job that he is doing, not just silently, but out loud so that he can hear and know!

And so I am writing to you and to a number of other publishers throughout the country today to congratulate you on the splendid job which you have been doing and to thank you for the fine contributions which you have made to the growth and prosperity of the Campbell-Ewald Company and its clients.

All advertising media are important, of course, but Campbell-Ewald Company has always considered the newspaper the most vital factor in influencing the local market for a national producer, and we and our clients continue to hold this same conviction today.

Our largest individual client, the Chevrolet Company, has just completed the most successful year in its history. It has sold 1,125,000 1936 Chevrolets, taking first place in both passenger car and truck sales for the seventh time in the past ten years. It has also sold more than 2,000,000 used cars, breaking all previous sales records in that important field as well. All of which, you will agree, is a magnificent selling achievement.

In that achievement, the newspapers of America—your newspaper—have played an important part, and I want to thank you most sincerely on behalf of the Chevrolet Motor Company and my own organization.

All of our other clients, in many other lines of business, have likewise enjoyed a highly successful and profitable year, as has the Campbell-Ewald Company itself.

In the achievements of these organizations also the newspapers of America—your newspaper—have played a leading role and I want to thank you on behalf of these clients for the fine support and co-operation which you have always given to them and to us.

This has become a rather long letter, but that line of Emerson's did start me thinking and did cause me to decide to make my appreciation evident.

My thanks to you again and my best wishes for a Happy, Prosperous New Year in 1937.

Sincerely, H. T. EWALD President, Campbell-Ewald Company.

### Animal Parasite Control Brings Growers Profit

#### Experiments Of A & M Experts Show Improvement

West Texans are becoming more and more convinced that control of animal parasites will bring additional profit. This fact is reflected in the reports sent in by various county agricultural agents.

An unusually wet fall in Bandera county has increased the stomach and intestinal worm problem, but ranchmen who have carried on a systematic drenching program estimate that the practice will bring them a 15 per cent increase in their lamb crop.

Goat lice have taken a large toll annually in the quality of mohair, and ranchmen are turning to the wettable sulphur dip as a means of improving the clip and eradicating this pest. The county agricultural agent of Brown county, in cooperation with a specialist from A. and M. College, recently dipped 244 goats on the Bob Low Ranch, 345 on the J. D. Nabors Ranch, and 317 on the C. H. Grady Ranch. The demonstrations were repeated 16 days later, and a marked improvement in the condition of the mohair and general condition of the goats was seen.

In spite of the worst infestation of internal worms in recent years, Oscar Nuemhoffer of Kerr county recently finished marking up 300 fall lambs which he says are the strongest, most vigorous group he has had in the 16 years he has been practicing fall lambing. Nuemhoffer has drenched his ewes regularly every 30 days since April and lost only 3 lambs.

### No Flu Epidemic Feared In Texas, Says Health Head

Austin, Jan. 20—Reports to the State Department of Health indicate a seasonal increase in influenza, but there are no indications of an epidemic in any such degree as that which swept the nation with such disastrous results during the World War, is the assurance given Texans by Dr. George W. Cox, State Health Officer.

"The number of cases reported for the first two weeks in January is not in excess of those reported for the same period last year," he said, "and the situation does not call for alarm, such as is likely to arise in the minds of the people because they recall the terrible destruction wrought by influenza in 1918.

"Influenza is an acute, contagious and highly infectious disease, occurring in epidemic and isolated form and often characterized by ache, marked prostration and a suddenness of onset, fever, headache, marked prostration and a tendency to severe complications of the lungs. Practically everybody is susceptible to it. No matter how many times you have had the disease you may contract it again.

"Attempted preventive measures fall naturally into two groups—first, everyone should try to avoid exposure to the disease by avoiding overcrowded places, and stay away from persons ill with the disease; and, second, every person should form such health habits as will keep the resistance

of the body at a maximum, so that when they are exposed the body will be able to resist invasion of the germs.

"Sufficient rest, cleanliness of hands, mouth and teeth, fresh air while at work and at sleep, regulation of meals and bodily functions, wholesome food and freedom from anxiety will increase bodily resistance and go a long way to avoid contracting the disease.

"The complications of influenza are far more important than the disease itself. Pneumonia all too often follows influenza. Don't neglect your 'cold.' If you have the slightest suspicion of fever, go home, go to bed immediately, and call your physician. Stay in bed until he tells you that you can get up, and follow his advice explicitly."

### Know Texas News Bureau Texas State College for Women

Denton, Jan. 20—Have you ever noticed just how flat your food tastes when salt is omitted? It's really surprising how a few tiny grains of the crystal will bring out a flavor, and how necessary it is to daily life.

Salt is found in natural brines and in rock formation. The industry in Texas is rapidly taking a foremost place in mineral production. Large areas, including the coastal region and plains of West Texas are underlaid with a thick stratum, and there are surface outcroppings in a number of places.

Principal production in Texas is from Grand Saline in Van Zandt County, where a national salt manufacturing company operates a large mining and manufacturing industry. There is an extensive mine in the rock salt stratum 700 feet beneath the surface of the earth.

Palestine in Anderson County also boasts a large salt producing industry which has been in operation for a long period of time, and a salt enterprise was opened at Houston several years ago. There has been a small commercial production in recent years from the salt flats north of Van Horn. This great surface deposit was a source of supply for a large area in the early history of West Texas, and it was the attempt of private interests to effect a monopoly through obtaining mineral rights that caused the so-called "salt war," in the '80s.

### 1936 FAILURES 32.1 PERCENT UNDER 1935

Austin, Jan. 20—Ten commercial failures occurred in Texas during December, 1936, a drop of 41.2 per cent from the month before and 61.5 per cent from the like month last year, the University of Texas Bureau of Business Research has announced. For the entire year 1936 there were 178 failures, 32.1 per cent less than for the preceding year. Liabilities of the bankrupt firms totaled \$155,000 in December, 28 per cent under the previous month and 66 per cent below December, 1935. For the entire year liabilities, \$2,134,000, were 46.6 per cent less than for 1935. These figures were compiled by the Bureau from statistics gathered by Dun and Bradstreet, Inc.

Mr. and Mrs. Jim Miller spent the week-end in Dallas.

### Dist. Representative To Assist Employers With Security Forms

Austin, Jan. 20—A. R. Epperson, special representative of the Texas Unemployment Compensation Commission, will be stationed in San Antonio to assist employers of the surrounding district during the next few weeks, Chairman-Director R. B. Anderson announced today.

Epperson's headquarters will be in the San Antonio Chamber of Commerce and all employers of that district are urged to go to Epperson for help on problems arising under the Texas Unemployment Compensation Act, Anderson stated.

The district for which San Antonio will be headquarters consists of the following counties:

Crockett, Schleicher, Menard, Mason, Sutton, Kimble, Val Verde, Edwards, Kerr, Real, Bandera, Kendall, Kinney, Uvalde, M. D. Ackerly, Zavalla, Frio, Atascosa, Dimmit, Wilson, Gonzales, Guadalupe, and Bexar.

### HIGH PRICED CARS LEAD IN DEC. REGISTRATIONS

Austin, Jan. 20—A total of 7,548 new passenger cars were registered in fifteen representative Texas counties during December, an increase of 10.1 per cent over November, 1936, and 29.2 per cent over November, 1935, the University of Texas Bureau of Business Research has reported. For the entire year 1936 sales in these counties totaled 76,776, an increase of 22.4 per cent over the year before.

"The sharpest gains in December were made in the two highest price brackets, thus continuing a tendency toward more liberal expenditures which has been noted for a number of months," the report added.

Audrey Wardeman, who won the Pulitzer prize for the best poem of the year says, "A poem is like an egg; it is either good or bad." Think he is right, but a large majority of the eggs are good, while most of the poems are bad.—Neosho (Mo.) Miner and Mechanic.

"BE IT RESOLVED: That I will make use of the Electric Servant in 1937."  
 One of the best New Year's Resolutions  
 -a really MODERN kitchen!

The West Texas Utilities Company long ago resolved that it would bring the West Texas housewife the maximum in service at a minimum cost. This vow has been kept to the letter. As proof, it reminds you that the average housewife today enjoys thrice the comforts of electric service known less than a score of years ago.

on an incentive rate (discount) schedule that amounts to much less than 5 cents a kilowatt hour. There are 1,000 watts in a kilowatt—1,000 watts of energy for one house for 5 cents.

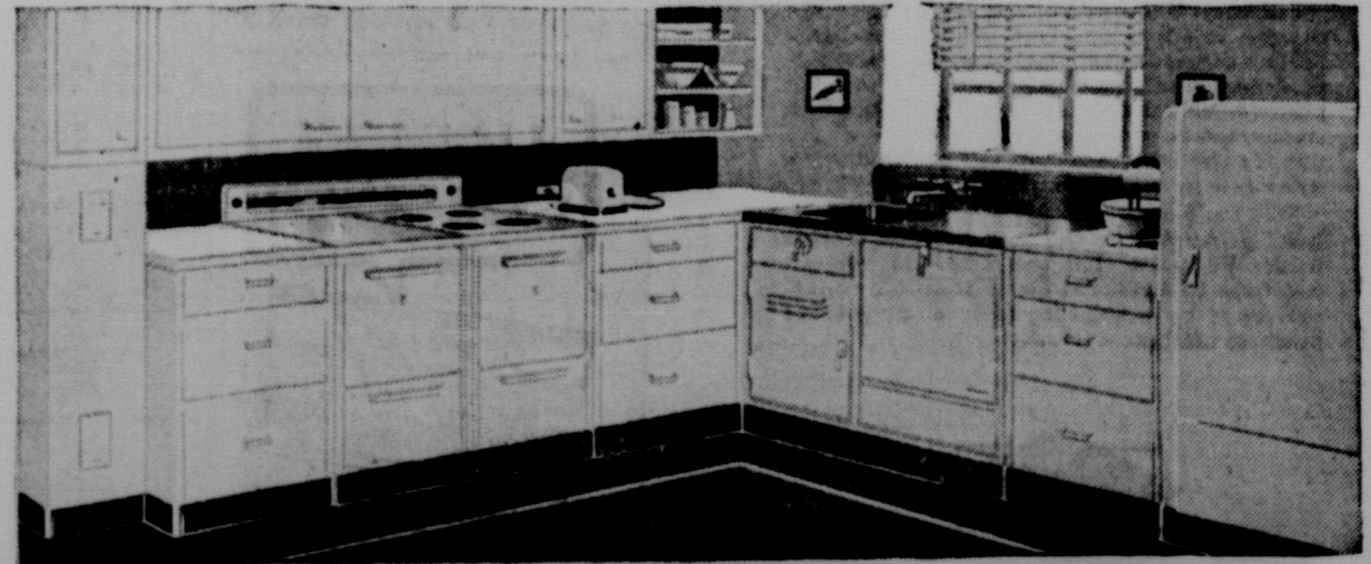

Yes, this policy of giving the housewife her money's worth, which has reduced the net average rate per kilowatt hour from as much as 20 cents to 5 cents, today makes electric service the cheapest commodity in the average home.

The new electrified home should be the model West Texas American home under these conditions. There is nothing prohibitive about the cost of operating any electric appliance. They have become staple products, recognized as standard for comfortable, modern homes—as much a fixture as the rug on your floor.

The modern home is equipped with many appliances that use but relatively few watts of electric energy per hour. Electric refrigerators, electric ranges and electric water heaters operate

Modern housewives will pass a resolution today to modernize their homes in 1937, using the Electric Servant to eliminate drudgery and to stimulate the happiness that electricity served up to you has made possible in this great area.

You can secure your modern Electric Kitchen step by step. As you add each major electric appliance—refrigerator, range and water heater—you automatically receive the benefits of low incentive (discount) rates.

### Deaf Mute Girl Hears by "Vibrations"

So that a little child may enjoy the beauties of life—Four-year-old Joan Higgins, blind, deaf, and mute since birth, puts her fingers on a phonograph detector, while her instructress, Tertis Hart, speaks through a microphone. The child feels the vibrations through her fingertips.

In this column answers will be given to inquiries as to Texas history and other matters pertaining to the State and its people. Address inquiries to Will H. Mayes, Austin, Texas.

**Q. Who were the first of Austin's 300 colonists to settle on the Brazos River? H. E. B.**

A. When Abner, Joseph and Robert Kuykendall, brothers from Arkansas, reached the west bank of the Brazos at the crossing of the old La Bahia road late in November, 1821, they found that Andrew Robinson's family had preceded them a few days and located near the present site of Washington. Abner Kuykendall located about 10 miles west of there on January 1, 1822, on "New Year's Creek" and about the same time Josiah Bell settled about five miles below the La Bahia road, several other families having reached the settlement in December.

**Q. Who were the first Austin colonists to locate on the Colorado River? H. E. B.**

A. Robert and Joseph Kuykendall, and Daniel Gilleland, left the Brazos about Christmas, 1821, and settled on the Colorado River near the present town of Columbus, the first settlers there. Austin stated that on March 3, 1822, there were 50 men on the Brazos and 100 on the Colorado building cabins and planting corn for the coming of their families in the fall, though he knew of but eight families already arrived.

**Q. What is the value of commercial dairy products in Texas? What county leads in production? T. E.**

A. The annual market production is approximately \$60,000,000, Hopkins county leading with valuation in excess of \$1,000,000 a year.

**Q. What became of the Kiowa chief, Santanta, for whom the town of Santa Anna was named? G. S.**

A. He was sent to the Texas penitentiary for depredations and the killing of several teamsters near Fort Belknap in 1871 and was paroled after a few years. He was soon convicted again and sent to the Huntsville prison, where he suicided in 1878 by jumping from the second story of the barracks.

**Q. Is "Mukewater" a creek in Brown county, an Indian name? T. G.**

## Nazi Gunners Practice for Naval "Engagements"

Gunners aboard the "pocket battleship" Koenigsberg are shown manning the guns during a gas mask drill. With international incidents occurring over shipping in Spanish waters, the German navy is preparing itself for possible eventualities.

**A. The creek was named for Mukewaka, an Indian chief, "Mukewater" being the Texan version.**

**Q. What is meant by a "running brand" used by some early cattle men? H. L.**

A. A "running brand" was one made with a small rod, the letters, figures, signs or symbols being written on the animals with the red hot end of the rod, instead of being stamped on with a red hot design.

**Q. Why was Midland so named? K. B.**

A. Because of its location midway between Fort Worth and El Paso, being by rail exactly 307 miles from both places.

**Q. Where is Quemado Valley and what does the name mean? U. K. L.**

A. It is in Maverick County. Quemado is a Spanish word meaning "burnt". There is a tradition, due to appearance of the soil, that the valley was "burnt" over in a volcanic eruption many centuries ago.

**Q. Why was Austin selected to command the "Volunteer Army of Texas" of 1835? H. L. B.**

A. There was much rivalry and jealousy among leading Texans best versed in military affairs, who were seeking their own advancement, and while he admittedly knew little of such things, and wholly without experience, Austin was selected to keep the greatest harmony in the "Army".

**Q. What were the original counties of the Republic of Texas? R. U.**

A. Austin, Brazoria, Bexar, Sa-

bine, Gonzales, Goliad, Harrisburg, Jasper, Jefferson, Liberty, Matagorda, Mina, Nacogdoches, Red River, Victoria, San Augustine, Shelby, Refugio, San Antonio, Washington, Milam, Jackson, Colorado.

Denton, Jan 6—Meat soups are valuable in the menu, not because of their great nutritive value, but for the purpose of stimulating the appetite. They also add variety to our meals and they make an attractive beginning to a meal where no meat is served.

Meat soups contain extractives which give flavor, mineral matter in small quantities, soluble protein and gelatine—with fat in varying amounts, but this is usually removed before serving. For soup-making the much-used muscles are best. They contain more juice and are cheaper than those portions which are tender cut.

[QUESTIONS THAT ARE ASKED ABOUT BANKING]

*"Are my banking affairs kept confidential?"*

It is an unwritten law observed in this bank that no employee shall discuss the affairs of our customers with anyone except properly authorized persons. This is one of the first rules every employee of this bank understands and respects.

Banking, like medicine or law, is a confidential relationship. Not only must bank officers respect a customer's confidence when that customer gives information about his business or personal finances, but all other employees do not discuss customers' affairs outside the bank—and in the bank only insofar as is necessary.

\* Strict adherence to this policy is one of the basic principles in the management of this bank. We know that the only way we can continue to merit the confidence of our customers is by respecting fully their private business matters with us.

NOBODY'S BUSINESS

Austin—Swinging slowly into session, the 45th legislature during its first week took no hasty action upon the score of highly controversial subjects tossed into the arena by Gov. James V. Allred's message, but manifested a disposition to acclimate itself to the Austin atmosphere, and delay serious business until after the inaugural festivities this week.

Reaction to the governor's message was varied. Most members viewed the governor showed commendable courage and frankness in outlining the state's need for more than \$12,000,000 a year of additional tax revenue. Some were critical, because Allred had confidently assured the state that there would be no need for new taxes, and only nominal need for increases in existing taxes.

Reaction of his "asking" he will achieve more.

NO TEST YET

The first week brought no test of sentiment in either house, and it is much too early to make any predictions about final legislative action. Harry Graves, of Georgetown, an administration friend, threw into the hopper a resolution to investigate expenditures for "public relations" by the Texas Gulf Sulphur Co., and Roy Miller, its vice president in charge of public relations, and politician extraordinary. The resolution is said to have the support of many university friends, who resented the abortive "red probe" of the last session, said to have been inspired by resentment of attacks by certain political-minded students on Miller's Democratic political activities.

OIL PEOPLE WORRIED

Allred's call for more taxes on crude oil caused considerable worry to both independent and major oil spokesmen. They had hoped the increase imposed by the special session to pay pensions would satisfy the governor, but it evidently didn't. They are concerned with re-enactment of the present proration laws, and independent producers are considerably upset because of delay in posting by crude buyers of the expected increase in price. Oil production has become so widely spread in Texas that over half the legislators have some in their districts. Carl Estes, the dynamic East Texas publisher, is here to observe, and aid in re-enacting the proration laws and keeping down petroleum taxes, as a representative of East Texas independents.

LOBBY IS ACTIVE

The tax recommendations in the message threw the lobbyists into a furor, strongly in contrast to the last special session, when representatives of various special interests accepted the omnibus tax bill without resistance, in the hope that would ward off further revenue demands at this session. The message put them on notice, however, that Allred seeks much more tax revenue, and they immediately began forming their battle lines to keep the taxes down. Many observers here believed the governor has taken a leaf from the book of Roosevelt, the master, and is asking many times more than he hopes or expects to get, on the theory that if he gets a

NAMES AND NEWS

Election of Bob Calvert, Hillsboro lawyer, as speaker by unanimous vote, was a real triumph for the American fable of success. Calvert worked his way thru Texas U. law school, running an elevator in the capitol, and working as a nightwatchman. Five freshmen solons, all under 28 years old, have prepared an "omnibus natural resource tax bill" with an increase of eight cents per barrel on oil, \$2 a ton on sulphur and 1/2 cent per 1000 on natural gas, and other rates in proportion. Signers are Prescott of Santa Anna; Jones of Lufkin; Beckworth of Gilmer; Holland of Belton and Harris of Archer City. It will cost the state \$2,225,000 a year for its share of teachers' pensions under the enabling act offered by Van Zandt and others. The teachers' bill is backed by a powerful lobby, which also is supporting a minimum \$20 per capita apportionment from state school funds. Bob Callan, of the Kaufman Herald, and Nolle Sewell, of the Midlothian Argus, are two freshmen members recruited by the voters this year from the country newspaper fraternity. As usual with newspapermen, both are doing lots of listening and very little talking. Judge Ben Cathey, of Quitman, a former member, who is back, brought on the first test on the liberalization of pensions, when he offered a resolution to permit county commissioners courts to help investigate applicants, and fought vigorously, but unsuccessfully, to keep his resolution from going to committee. "Red" Harris, of Dallas, bravely offered a bill to legalize dog racing, right in the face of the governor's plea for repeal of the horse-race-betting law. Harris is reported to have notified horse racing supporters that he will fight horse racing if they jump on his dog-race bill, which they probably will. Herman Jones, of Decatur, came right back with his corporation franchise tax measure, backed this time by Gov. Allred, who made a strong plea for such legislation in his message, citing specific examples of how little tax some large-profit earning concerns pay to the state for the right to do business here.
