One of those "believe it or a few days ago when a set of buggy harness was brought to the Jones Saddlery here for repairs, A. W. Jones, whose first leather work was mostly harness making and harness repairing, had to dust off the almost forgotten tricks of his trade to satisfy this customer.

"It's a pretty set of harness," said one old timer, a little wistfully, perhaps as he recalled the days of his courtship. One of those "dude" harness sets in its day, it now sees service, not on a well groomed buggy horse, proudly drawing a shiny new buggy while some stiff-collared swain goes ga-ga with a shy little maid, but on a ranch animal, pulling a ramshackle cart, hauling salt, feed, windmill parts and doing other chores on the Boyd Clayton ranch. Such is evolution-but still, as the old timer said, "It's a pretty set of

To meet the admission charges by a competitive show house six months ago, we reduced prices from 15 and 35 cents to 10 and 25 cents. We lost money consistently while the opposition was in operation. When the management of the competitive house folded up and we purchased assets of the concern, we decided to continue the lower prices to determine the question of whether or not one show could be made to pay its way at such prices. Our books will show that it cannot be done. One of two things was left to be done-to close the show entirely or raise the admission prices back to the former level.

Believing that the people of Ozona want a theatre, we have decided on the latter course. Were it possible to continue operation at the lower price, we would have been most happy to maintain that level. But others have experimented and failed; every theatre in West Texas save one, to our knowledge, has found it necessary to charge at least 35 cents admission to stay in business, and we believe that any fair minded person who will give the subject any study or thought will readily see the justice of our position.

Break Out In 9th The Giants uncorked a batting spree in the ninth inning of the opening game Sunday to widen

their lead by four more runs crossed in the final frame. To that inning the locals led by one tally, scoring three in the third while the Refiners pushed one over in the fifth and one in the eighth. Ozona took the lead in the third

frame when Heatherly and Dorley walked and scored on Myers' triple. Stuart then singled to score Myers, In the ninth, Fisher was safe on an error, Greer popped to the catcher, Lenz singled, Russell was out to short. Heatherly singled, scoring Fisher. Carl Dorley, Giant first sacker, hit one far into the sand flats for a home run, scoring Lenz and Heatherly ahead of him, and salting away the game.

In the second game, the third inning was again the lucky frame for the locals. In that inning, after one was out, Heatherly singled, Dorley drew a pass and on a double steal, Heatherly scored while Dorley was being put out in a hot box.

In the fourth, the J. Fisher man, first up, connected with one of Johnson's offerings square on the nose for one of the longest hit balls ever seen in the West Texas circuit. It took two throws to get the ball back in the territory of the outfield. The locals counted another one in that frame when Greer, who had singled, scored when the right fielder bungled the throw-in of Harriss' single.

QUESTIONS THAT ARE ASKED ABOUT BANKING

"Am I asking a favor when I seek a Bank loan?"

A LOAN is a business transaction. It is no more of a favor for a bank to lend you money than it is for a property-owner to rent you a house. Both make a fair profit when the business is on a sound basis.

This bank welcomes loan applications-for this is one of the ways we make money. You do not have to say "please" or "thank you" when you borrow here. Your application is judged strictly on its merits like any other business matter. If we think your loan is a proper investment for our depositors' funds we shall approve it promptly and appreciate getting it. If your application does not meet our requirements of sound banking we shall tell you so frankly together with our reasons.

This bank is actively seeking good loans.

Considering how fine this railroad transportation is nowadays, you can't travel any cheaper. Fares lowest ings on round trip tickets. So why not take the train? It's safer. It's more dependable.

You can't beat the improved travel comfort in coaches and sleeping cars. It's a good thing movies don't have such restful seats - most folks would sure fall asleep.

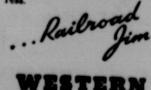

Ever hear about the new Free pick-up-and-delivery of less than carload freight? It's a great convenience to shippers and re-ceivers alike. Western railroads pick up at the door, ship by fast freight, and deliver to door at no extra charge.

Railroad trains are running on faster schedules these days. Seems like the iron horse wants to show these new streamlined. diesels that he can step out, too. Both passenger and freight schedules have been speeded up.

What's more, the railroads believe in "safety first." Last year not one passenger was killed in a train accident on western railroads.

Talk to your local railroad agent. He's full of information about traveling and shipping.

We are proud of railroad achievements, appreciate the public's good will and increased patron-

MOTHER! Here are Facts!

To guide your purchase of a Refrigerator!

DON'T CHOOSE BLINDLY

FOR HEALTH_Your refrigerator must maintain safety food temperatures below 50° all the time. Before you buy, be sure it will do this in the hot hours of the summer time,

FOR CONVENIENCE_Your refrigerator must be able to freeze ice quickly-must have a high degree of usefulness. Before you buy, be sure it will produce fresh ice during the hot hours of the day.

FOR ECONOMY -Your refrigerator must maintain the above performance at low over-all cost. Before you buy, be sure.

AN ELECTRIC REFRIGERATOR

• If you buy a refrigerator that cannot provide satisfactory, economical performance, all the time, you are wasting your money. It is inconvenient to own a refrigerator that cannot freeze desserts or plenty of fresh ice quickly during the hot hours of the day. It is wasteful to own one that has a high initial cost, though little to operate, if it cannot provide satisfactory performance, all the time . . . under all conditions.

Remember this when you buy. All refrigerators cannot provide all three of these basic requirements. Tests prove this to be true by actual use in the home. So don't buy on claims alone. Ask for and be sure you get convincing evidence of value. Only then can you be certain you are getting your money's worth. Choose carefully and you will choose a modern electric refrigerator.

* MODERNIZE . . . CHOOSE AN ELECTRIC REFRIGERATOR *

Do you know that your increased use of Electric Service is billed on a surprisingly low rate schedule . . . and adds only a small amount to your total bill?
