Five-Game Series For Permian Basin Championship Between Ozona Giants And Crane To Open Here Sept. 12

Scheduled Games There This Week Won't Count On Play-Off

A five-game series to decide the Permian Basin baseball championship will open on the Ozona diamond Saturday, Sept. 12, with the Ozona Giants, first half winners, pitted against the boisterous Crane Gulfmen, second half leaders, for the West Texas baseball crown.

Efforts of local club officials to speed up the championship series by opening the play-off hostilities at Crane this week-end instead of the regularly scheduled opening game of the season failed when the Crane moguls refused to agree to the proposal.

The Osborne crew of jaw champions insist on playing the Giants scheduled and opening the series for the league flag a week later. The games the coming Saturday and Sunday can make no change in the second-half decision, the Gulfmen clinching the second-half gonfalon last Saturday and Sunday by taking two games from Snipe Conley's Texon Oilers. That was the margin necessary to put Iraan, second-place team, out of the running.

Shortening the deciding series to three out of five games instead of the usual four out of seven will put both teams on their mettle. A double loss for either team in the opening series would put that team with its back to the wall, for it would have to turn the tables in the next series and take two games to stay in the running.

The first two games on Ozona soil, the next two at Crane and if the fifth and deciding game is necessary neutral ground likely will be decided upon for the championship encounter.

The Giants' chances to cop the Permian flag appear about even with the Gulfers. The locals boast a strong pitching staff and probably the best defensive ball club in the league. The weakest department at present is at the bat. The needed punch with the stick has been lacking in a big part of the Giant batting order, but Manager Harris plans to do some intensive work on that department in the remaining days before the play-off to put the team back in top order. A little more determination and serious practice and Ozona baseball fans may realize a long cherished dream—a West Texas baseball championship.

School Head Asks Rooms For Rent To Teachers Be Listed

Members of the teaching staff of Ozona schools are beginning to arrive this week in time for the opening of the school term Monday.

Many of the teachers have not yet arranged for living quarters during the school term, Supt. C. S. Denham said. If any person who has a house or room to rent to teachers will communicate with Mr. Denham, it will simplify the problem of housing faculty members. If rooms are listed with the superintendent, teachers will be sent to quarters listed as they arrive and thus save them inconvenience and at the same time perform a service for those who have places to rent.

R. F. POWELL HURT

R. F. Powell was seriously injured Tuesday afternoon while working with Hugh Gray's well crew in cleaning out a well on the Lee Henderson ranch. Mr. Powell suffered two broken fingers and several cracked ribs when he slipped and grabbed a cable which drew his hand over a pulley. The force of the cable pull threw him into a shaft, breaking several ribs.

Giants Trim Eola 4-2 In Fast Game Sunday Afternoon

Myers' Perfect Throws From Outfield Cut Off 3 Runs

The long arm of Wallace (Hog-caller) Myers, Giant left fielder, whose throws from the outfield turned runs into put-outs at the plate, and the big sticks of Conley Cox, Fats Heatherly, Carl Dorley and Myers, whose base blows meant runs, accounted for the Ozona Giants 4-2 victory here Sunday afternoon over the Eola team from the Concho Basin League.

Myers' bell-ringing throws from left field cut off three potential runs at the plate in as many innings. The first of these throws brought the fans to their feet in the sixth. An error put an Eola runner on base and a sacrifice advanced him to second. Curley Hays smacked a single to left field and Myers heaved the pellet with deadly accuracy to cut off the runner clean a few inches from the plate.

The show was repeated in the seventh after two runs had already crossed. In that inning, a hit and a walk put runners on first and second after one was down. Peoples cracked a single to center and Weaver let the ball get through him, two scores crossing and Peoples pulling up at second. The Eola shortstop singled to left and Myers' throw-in cut Peoples off at the plate for the third out.

Again In Ninth

The Giant left fielder blasted the Eola hope again in the ninth with his golden arm. The final inning opened with singles by the first two men up. Hanna, Eola hurler, struck out for the first out. Lane, second baseman, singled in the Hogcaller's territory and he put it in Catcher Robertson's mitt again in time to snag the counter. With tying runs on second and third, then, Johnnie Lynum, pitching his first game for the Giants, fanned Oscar Peoples, hard-hitting pitcher-outfielder for the final out of the game. (Continued On Last Page)

Giants Take 4-3 Game from Sonora On Sutton Soil

Bud Smith Driven To Showers In Hail Of Base Blows

A storm of base hits greeted Bud Smith in the second inning yesterday afternoon when the Ozona Giants journeyed to Sonora to return a game that was halted here last Saturday, and when the smoke cleared in that inning the Giants had chalked up four runs and Smith had ducked to the showers.

The second-inning rally was sufficient to furnish the locals the victory margin, the Station A crew falling one run shy of a tie in the remaining frames, and the game ended with a 4-3 count in favor of the Ozonans.

The locals were loaded with alibis they didn't need. Absent from the line-up were Carl Dorley, Giants leading hitter and first baseman, and Bob Weaver, center-fielder. Greer was shifted to left field while Myers played first, Vic Montgomery was recruited for center-field duty and Al Crostwaite and Johnnie Lynum patrolled the right field garden.

Charlie Bryan and Crostwaite divided the pitching chore Bryan pitching the first half of the game and Crostwaite finishing.

Spanish Loyalists Taken to Prison Camp

Hands raised in token of surrender, a party of loyalist prisoners marched to a prison camp at Pueblo De Utrera, one of the small towns in possession of Army-Fascist rebels.

All-Star--Texon Game To Attract Many Ozona Fans

Five Giants On Team To Face Oilers In Labor Day Game

With five members of the Ozona Giants selected among the players, and Bryan (Slim) Harriss, Giant manager, chosen all-star pilot, Ozona baseball fans are expected to migrate to Texon next Monday to witness the Labor Day classic on the Texon diamond in which the Oilers of Snipe Conley will try their hand with a picked team of all-stars from the remaining teams of the Permian Basin.

The All-Stars—Oilers conflict will be the climax of Texon's annual Labor Day celebration, which includes a field meet for baseball players, a golf tournament, barbecue dinner, dance and other entertainment features.

Conley Cox, shortstop, Fats Heatherly, second base, Carl Dorley, third base, Byron Stuart, catcher, and Al Crostwaite, pitcher, are the Giant selection for the all-star team. Smith of Crane at short, Estes of Iraan, centerfield, Ray LeMeilleur of Iraan in left field, Sturdivant of Wink in right field, Scroggins of Wink in right field, Anderson of Crane, catcher, Osborne of Crane and Paige of Iraan pitchers are other selections of the squad of all-stars to meet the Oilers.

Ozona Grid Star To Be Student At Washington Univ.

D. A. Parker, 1936 graduate of the Ozona High School and star wingman on the Ozona Lions gridiron crew the past two seasons, may get an opportunity to go places in collegiate football circles in coming seasons.

Parker left early this week for Washington, D. C., where he will enroll at George Washington University, where Buck Bailey of Eldorado, and well known in sport circles throughout West Texas, is head football coach. Parker was captain of the 1935 squad, all-district end and was awarded the Lions Club cup as the team's most valuable player in the 1935 season.

BUILDING NEW HOME

Construction work has started on a new home being erected by John Barton. The three-room house with garage connected is being built on the west side of the lot occupied by the Barton residence. Mr. Barton is to occupy the new home and rent the present residence.

Mr. and Mrs. W. N. Hannah and children have returned from a visit to the Centennial celebrations in Dallas and Fort Worth.

Mother Of Mrs. Ray Dunlap Of Ozona Buried In Rankin

Funeral services were held at 10 o'clock yesterday morning in Rankin for Mrs. Kittie C. Taylor, 63, mother of Mrs. Ray Dunlap of Ozona, who died in a San Angelo hospital Monday following a brief illness. Mr. and Mrs. Dunlap and children attended the funeral rites.

Mrs. Taylor is survived by her husband, B. S. Taylor of Rankin, four sons, William, Grim, Jasper, and Clay all of Rankin, four daughters, Miss Maggie Taylor of Rankin, Mrs. Roy Hinnant of Mathis, Mrs. Dunlap of Ozona, and Mrs. J. T. Dameron of Rankin, one sister, Mrs. J. W. Dunn of Cairo, Ill., and nine grandchildren.

Funeral rites were held from the Rankin Baptist Church, the Rev. C. G. Forrester officiating. Burial was in the Rankin cemetery.

Six Veterans On Tap For School Gridiron Squad

Coach White Has Promising Group Youngsters In Reserve

With a nucleus of six lettermen from last year's squad and another half dozen or more lads with a ground work of football knowledge gained through a season of scrimmage and junior games, Coach Ted White of the Ozona Lions High School grid crew, faces a difficult task this fall of whipping into shape this aggregation of raw talent for combat with the tough competition offered in the district.

The six veterans remaining on the squad include Joe Thomas Davidson, center on the 1935 squad, who will be shifted to backfield in the coming campaigns, James Childress, backfield, J. T. Casbeer, backfield, Haskell Leath, backfield, and Fish Powell and Fred Parker, linemen.

With eight lads in uniform, Coach White opened the fall training period Tuesday afternoon. Light limbering-up exercises were given, but training is expected to get down to serious business by the end of this week. Coach White expects about twenty-five candidates out when school opens next week. The complete schedule of Ozona's football season will be announced next week.

CHOIR REHEARSAL

Mrs. H. B. Tandy, director of the Methodist Choir, announces rehearsal for 8 o'clock Friday evening to prepare for special music at Sunday services. All members of the choir are urged to be on time for the rehearsal.

Mexican School In New Building, Enlarged Faculty

Live Oak Building Is Moved To Site; Four Teachers

A new school room and an enlarged faculty will greet pupils of the Mexican school here at the opening of the term Monday.

A new building has been added to the Mexican school equipment recently, the building being moved from Live Oak when that school was closed at the end of the past year by action of the county board. The new building has been set up on the west side of the old building, itself doubled last year to take care of increased enrollment.

Four teachers will compose the Mexican school faculty this year. Wallace Myers, a graduate of Daniel Baker College at Brownwood and a former student at T.C.U., will become principal. Miss Lena Parker of Eldorado will be another new member of the faculty. Miss Hester Bunker and Miss Christine Viles, members of the last year Mexican school faculty, will complete the new faculty.

With the enlarged quarters and faculty, all subjects are to be offered in the Mexican school this year, including high school subjects, Supt. C. S. Denham has announced.

H. E. Department Of High School Now Offers 3 Credits

A third affiliated credit in home economics has been granted the Ozona High School, raising the school's total credits to twenty-five, Supt. C. S. Denham was recently informed.

The new credit was granted in H. E. III, both divisions, sewing and cooking, giving a full year's credit. This credit raises the total in home economics courses to three in the local school. The new credit was granted on the strength of reports and exhibitions submitted by the department at the conclusion of last year's work and affects students taking the course last year.

CHILD'S HAND BRUISED IN WASHING MACHINE

Rosalie Friend, small daughter of Mr. and Mrs. W. E. Friend, Jr., suffered painful injuries to her hand yesterday morning when it was caught in a washing machine at the home here. X-Ray pictures made of the injured hand showed no broken bones, but it was badly bruised and causing the child considerable pain.

Mrs. Joe Pierce and daughter, Miss Esther Kate Pierce, spent a few days last week in Bay City and Conroe, Texas.

SCHOOLS OPEN FOR 1936-'37 TERM MONDAY

Opening Exercises To Start At 8:30 In Auditorium

START WORK TUES.

Opening Day For Registration And Assignments

After a three months silence, school bells will ring again in Ozona and other schools for the county next Monday morning, summing pupils for the opening guns of the new nine-months siege which begins on that date.

Opening exercises are slated for 8:30 Monday morning, Supt. C. S. Denham has announced. Following the exercises in the auditorium, pupils will report to their respective classes to complete registration and to be issued new books. After these preliminaries, the pupils will be dismissed until Tuesday morning, when class work begins in earnest.

On the platform for the opening ceremonies will be members of the school board, new and special teachers, Rev. R. A. Taylor, who will pronounce the invocation, and Judge Charles E. Davidson, who will deliver his annual message on the occasion of the opening of a new school term.

The program will open with the group singing "America," Miss Elitabel Tilory directing. The invocation will follow, after which Miss Tilory will play a violin solo. Judge Davidson's address will then be heard and the program will close with announcements by special teachers and general statements concerning registration and classroom assignments by the superintendent.

Four New Teachers

Four new teachers in the county system and two new teachers of special subjects in conjunction with the school program will make their bow with the opening of the new term.

In the Junior High School, Rex F. Johnston will take up his duties as principal and teacher of arithmetic. Mr. Johnston is a graduate of North Texas State Teach-

(Continued On Last Page)

Invitation To State Centennial Building Dedication Received

An invitation, addressed to "Judge Charles E. Davidson and the citizens of Crockett County," was received here this week by Judge Davidson from the Commission of Control for Centennial Celebrations and the State Board of Control inviting people of this county to the dedication of this county to the dedication of the State of Texas Building at the Centennial Exposition in Dallas Saturday evening of this week.

The dedication ceremonies will get under way at 8 o'clock. Elaborate plans have been made for the dedication and Centennial crowds are expected to be swelled considerably by the event.

Lad Burned In Gasoline Fire Is Improving

Ernest Brownrigg, Jr., 14, who was seriously burned two weeks ago on the A. C. Hoover ranch when a container of gasoline exploded, was reported still improving this week. The boy is at his home here.

Young Brownrigg suffered deep burns on both legs and hands. He was filling the tank of a gasoline engine, used in pumping water, and the gasoline was fired from a lighted lantern nearby. The lad, who was alone at a well two miles from the ranch house, managed to remove his clothing and then walked to the ranch after extinguishing the blazing windmill tower, fired by the spraying gasoline.

THURSDAY SEPTEMBER 3, 1936

THE UNIVERSITY LANDS AGAIN

Ft. Stockton Pioneer: Again the problem of proper support for West Texas schools presents itself as an organization of these schools renew their efforts to secure fair and just taxation of University of Texas lands in their districts.

Four years ago the people of Texas expressed in a general election on constitutional amendments the belief that these same University lands should bear their share of the cost of the county governments in which they are located. In some manner, though, the privilege of taxing for school purposes was omitted from that amendment, and while the University is today carrying its share of the county tax load, many school districts in which are situated large bodies of the tax-exempt land are hard put to keep their institutions running.

Through ownership of its West Texas lands, many of which are rich in oil, the University has become one of the wealthiest in the world. At the same time, in many of these districts, the entire tax load has fallen on the shoulders of the few owners of private property and they are burdened to the breaking point to provide a half-way adequate school for their children. There seems little reason, in all fairness, why the University should not help support the school districts from which it is receiving vast revenues each year.

Efforts to secure passage of a bill submitting the matter to another vote of the people of Texas doubtless will be passed readily during the legislative sessions beginning in January. Then comes the big fight, for the amendment will probably be submitted to the people of the state in a special election of August 1937. That election is the thing which will require united effort on the part of West Texas citizens. The residents of the other parts of Texas must be educated as to the issues involved. An impression created in the campaign two years ago that West Texans were fighting the University of Texas and trying to undermine the great institution. Far from it—they were merely fighting to save their own schools and ensure the rudimentary education of future University students.

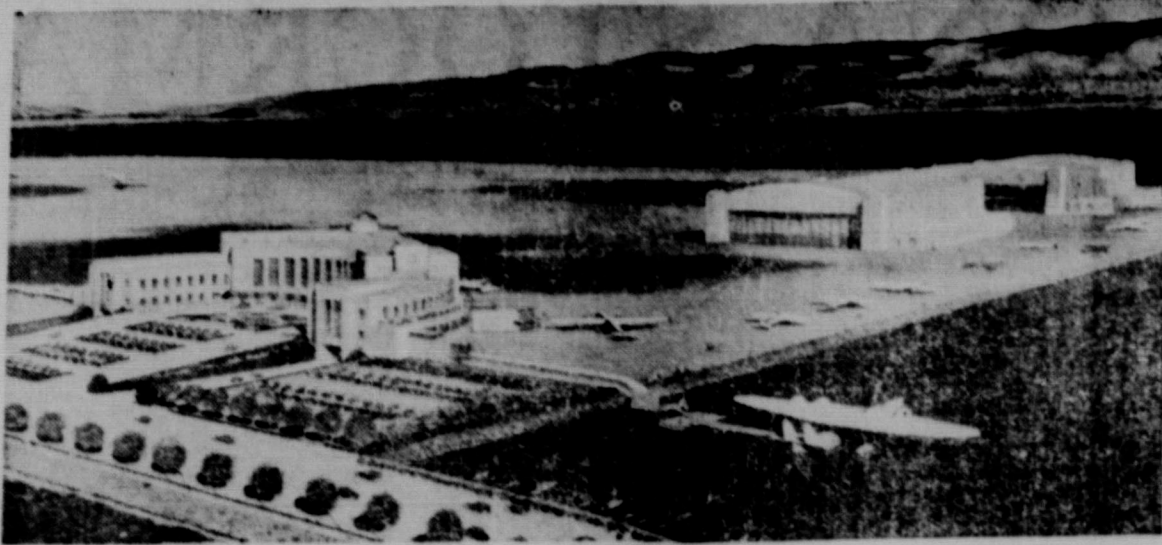

In 1937 we must let other people know what depends on the University land amendment, and enlist their aid. We must dispel the idea that we are fighting the University, and show clearly that we are interested merely in securing a fair deal for our own schools.

When a bullet is discharged from a gun it begins to fall to the ground immediately. At no time does it rise above the level from which it is fired. A bullet fired from a gun, the muzzle of which is four feet above the ground, only remains in the air as long as it would require the bullet to drop straight from the muzzle of the gun to the ground.

It's surprising how many old codgers who hated the McGuffey Readers when they were in school are enthusiastic about them now.—Burlington (Iowa) Hawkeye Gazette.

"Farming ranks as hazardous occupation." There is always the danger, in a dust storm, of being hit by a neighboring farm.—Elgin Courier-News.

Big Airport Which San Francisco Will Build

First official sketch of San Francisco's great new municipal airport, to be opened in 1940 at Yerba Buena Shoals. The 430-acre site, now under reclamation by army engineers, will be the scene of the Golden Gate International exposition in 1939. Part of the exposition program is the construction of the three permanent structures shown in this oil painting—the Administration building, embodying the most modern design and equipment of aeronautical engineering, and the two hangars. The three buildings, financed by PWA grants, will cost more than \$1,600,000.

SLANDER

Of all the mean, contemptible, cowardly sins on earth, slander is the basest and the most damnable. The thief of reputation, who strikes like a rattlesnake in the dark, is the arch robber of them all. Pollok called slander "the foulest whelp of sin." Tennyson referred to it as the "meanest spawn of hell," and also as "that foul bird of rapine whose whole prey is man's good name."

Reputation is like a magnificent temple, built by years of honest living. Yet it can be destroyed with a breath.

It is a deplorable trait of human nature that most people would rather believe evil than good. Slander is born of envy and of hate that dares not stand up and fight in the open. In political campaigns we often find slander developed to a fine art. Many a shining reputation has been blasted by "whispering campaigns" when those who sought to destroy were incapable of debating issues.

Gossip is the ugly little sister of slander. Gossip is often aimless without motive. Slander is a monster that seeks to kill. Thieves and murderers are punished severely. Slanderers usually go free although they have stolen the most precious possession on earth and have killed with poison arrows of the tongue. And he who repeats gossip or slander to destroy a good name is a party to the crime.

An old-fashioned motto and a good one is the anonymous jingle quoted by Edwin Booth:

"If for tranquil mind you seek, These things observe with care: Of whom you speak, to whom you speak.

And how, and when and where." —Hubert M. Harrison in East Texas Magazine.

NOISE AND NUISANCE

Christian Science Monitor—The circus calliope and the political band wagon of yesterday have become the sound truck of these noisy times. Unfortunately, today's blatant motorized wagon, with its glaring posters and shining loudspeakers, blares its message the year round.

Anybody's soap, your neighborhood theatre, and "contests of skill" shriek their allurements from the sound truck for all but a short period at election time when political pleadings crowd them out. Raucous recordings are broadcast to the skies and the ears of the passer-by are assaulted with pep talks designed to sell anything from shoe polish to dentistry.

Some day peace-loving citizens of the towns and cities are going to rise in their wrath and tear the sound wagon's body from its chassis. Already the efforts of noise abatement committees in many communities have been instrumental in banning these untiring publicity pluggers from the streets.

The aura of romance that surrounded the old-time band wagon might be traceable to its picturesque-ness—and its infrequent airing. But the sound truck fears neither wind nor rain, nor darkness, nor shuns the most tranquil country road or quiet residential street.

The sound truck is a nuisance. It should be quickly consigned to the limbo to which it rightfully belongs.

Everything in school supplies at our store. Shop here and save. C. G. Morrison Co.

Mrs. Carl Pettit spent last week here visiting her parents, Mr. and Mrs. George F. Davis. Mr. Pettit came Saturday and the couple returned Sunday to their ranch home near Snyder.

The best and most complete line of school supplies may be found at C. G. Morrison Co.

OUSTED FROM MEXICO

Gen. Nicolas Rodriguez, leader of the Gold Shirt movement in Mexico, which was officially banned recently by the government, shown on arriving at the International boundary at El Paso after being transported by plane from Mexico City. The political luxury predicted the possibility of a civil war similar to that raging in Spain.

BABY SCREEN STAR

Youngest actress on record to have an option taken up by a Hollywood studio is nine-months-old Beverly Firestone, shown here with the screen actress Claire Trevor.

UNIVERSITY OF TEXAS TO OPEN SEPTEMBER 18

AUSTIN, Texas, Sept. 2—Opening of the 54th annual long session of The University of Texas has been announced for Friday and Saturday, September 18 and 19. Classes for the fall semester will begin Monday, September 21. Old students will register Friday, while new students attend a series of convocations designed to acquaint them with the campus, the staff, the courses of study, and various University traditions, customs and regulations. After this orientation process, new students will then register on Saturday.

Mr. and Mrs. Frank Wyatt are visiting relatives in Burnet this week.

THE NEXT WAR

Dallas Journal: If you will begin a little scrapbook of your own, clipping as they appear all news items having to do with the preparation for the next war, you will be startled by what these items show. The foreign policy of every European country today seems to be dictated by fears or intentions involving the next war.

Russia frankly expects a war, the only doubt in the minds of her leaders being whether trouble will break in the east before it does in the west. From the Philippines to Germany, the whole world is getting ready as fast as it can for a gigantic clash of arms. There is no other explanation of the spy scare which grips the American army and navy. There is no other justification of the fact that Japan, Britain, Germany, Italy and the United States are announcing heavy programs of naval construction. There is no other interpretation to be put upon sputtering conflict in Asia, Africa and Europe. Sheet lightning that plays over the whole international situation is likely at any moment to concentrate in a mighty bolt that will split the world asunder. The one and great preserver of peace today is the poverty of governments bankrupted by the last war.

Dorothy Nell Garrison, small daughter of Rev. and Mrs. I. V. Garrison, is recovering at her home here from a tonsilectomy Saturday.

Dr. McCarty is back in Ozona. Fitting glasses and doing Watch work. Located at Pettit Barber Shop.

DON'T FORGET TO VISIT US SATURDAY! There will be a treat for all—you might win the basket of groceries—and certainly you can save money on the day's SALE SPECIALS. With thanks for your past favors and your future business which we hope will give us the volume to enable us to give you the low prices we anticipate. J. H. Williams & Sons GROCERY — MARKET

Scenes and Persons in the Current News

1—Crews of two Japanese warships paying their respects at the Tomb of the Unknown Soldier in Arlington cemetery. 2—King Edward VIII of England, vacationing in Yugoslavia, enjoying a motorboat ride with Mrs. Ernest Simpson, one of his guests. 3—Generals Goded and Burriel, captured Spanish rebels, at the court martial that resulted in their conviction and execution.

WHEN GRAND FATHER CAME TO TEXAS

"Cable Bill" in Sterling City News-Record.

In these days of wind, gas, steam, electric motors, we take it as a matter of course, that motors were always thus. We rarely ever wonder what kind of motive power our grandfather used when they first came to Texas.

When grandfather got ready to leave Alabama and come to Texas, one of the most necessary things he packed away in his ox wagon was the little hand corn mill on which the corn was ground into meal for the family bread. Had he forgotten this most necessary machine, he would have been forced to dig out a mortar in a log and pound his corn into meal with a pestle, or boil it in a kettle, for there was no meal for sale in Texas, and as for flour, it was a luxury one heard about but never saw.

When he landed in Texas, he found others had preceded him a few years and had made crops of corn, and he found that he could buy a few bushels for the family bread until a crop of corn could be made on the rich, virgin soil. While the work of opening a farm and building a cabin was in progress, each day some member of the family had to turn the little hand mill to make meal for the daily bread.

By and by, as time went on, time got to be valuable. It took time to turn the mill by hand, besides it was a hard and tiresome job. Grandfather began to think up an easier way to turn the mill. If he lived on or near a running stream, he would build an overshoot, undershot or breast wheel and harness the water to turn the mill. On every running stream in those days were to be seen crude water mills on which the corn of the settlements was ground.

But if Grandfather happened to settle too far away from a running stream, he would use his horses and cattle to furnish power for his mill. He would build a large "bull wheel" with cogs on its outer perimeter to mesh with smaller pinions to transmit the power to the mill. This wheel was set upright in a gudgeon and was made to revolve horizontally after the manner of a top. Levers were attached to the upright shaft of the wheel and a yoke of oxen or a span of mules or horses was hooked to the lever and they were driven round and round in a circle to make power to turn the mill. When more power was required, the number of levers was increased. I have seen as many as four pairs of animals hooked to the mill.

Another form of the "bull wheel" was the incline tread wheel. Like the other wheel described, the tread wheel had a tall center shaft with a horizontal cogwheel. To this upright shaft was built a wide circular floor which had an angle of about 30 degrees from the shaft and was usually about 30 feet in diameter. This big wheel had a brake attachment on the outer circle so that it could be stopped when desired. It had stails and

hitch racks, so that when the animal to be worked was driven up on the floor of the wheel, he could be tethered to the hitch rack with his head pointed up the incline. When all was ready, the brake was released, the weight of the animal on the incline plane started the wheel revolving. The animal had no choice but to start walking and keep it up until he felt exhausted or the brake was applied.

The incline tread wheel had the advantage of being operated without harnessing the animals. The favorite animal for this purpose was a large wild steer, horse or mule. No matter how wild he might be, if he could be gotten on the floor of the wheel—and they usually found ways to get him there—he would do the work whether he wanted to or not. The more he reared, pitched and cavorted, the more power he gave, and that was what they wanted. One mill that I used to carry corn to, lost its popularity because the boys who operated it would go out and round up the neighbor's milch cows to work on the treadwheel when they couldn't find wild steers to work.

By and by, settlers began to invade the prairies far away from timber and water, but where the wind blew most of the time. They harnessed the wind to grind their corn. The first windmill I ever saw was on the edge of the prairie in Hunt County, near Greenville in the fall of 1861. The tower was built of massive hewn logs and about 30 feet high. The windmill which gave the motive power was very unlike the trim, graceful wheels of today. This wheel was a large contraption with sails made of canvas, not unlike the windmills of Holland often the subject of an artists dream. The corn mill was in the tower below the windmill that was so geared that whenever the wind blew the mill ground the corn, even though the miller might be asleep.

The trim, neat and powerful motors of today, operated by gas and electricity, make us forget the crude motors made by our grandfathers. But we must not forget that Grandfather was a genius in his day, and necessity forced him to do wonders. Can you find a man today who can go out into the forest with his ax, saw, auger, square and chisel and construct one of these wheels which I have described out of the trees that he fells with his ax—all out of wood?

Can you find a man today who can cut a screw out of a log 15 to 18 feet long for a cotton bale press? Not only this, cut a nut out of two logs to perfectly fit this screw.

Can you find a man today who can go into the woods and build one of those huge, squawking sorghum mills entirely out of logs?

Can you find a man who can go into the woods today and bore out long logs with a hand auger for piping for a water pump?

You may know how to adjust the wiring on a battery, or regulate a carburettor, but could you rive clapboards from bolts with a fro?

You may know how to saw a piece of dressed lumber to a mark made by the boss, but could you—or your boss take a ten inch broadax and overhanded hew to a black line on a 20-foot scored log without leaving an ax mark? Grandfather could do all these things and then a lot more.

These arts are no longer required and of course they are among the things that were. How many of you would know what a glut is, a maul, a broadax, a fro, a shuttle, a warping bar, a cut, a thrum, a skein, a sleigh, a weaver's harness, a hank, a quill, a broach, a roll, cards, sizing, weaver's knot, a chicken head knot, warp, filling, a trivet, dog iron, crane bellows, tuxere iron, auger, rifle follower, friz iron

TEXAS BUILDING SHOWS GAIN OVER JULY, 1935

AUSTIN, Texas, Sept. 2—Building permits in Texas during July were moderately below those of the preceding month but were sharply above those of the corresponding month last year, the University of Texas Bureau of Business Research has found. Reports to the Bureau from 34 representative Texas cities show aggregate permits of \$4,549,078, which was a decrease of 15.3 per cent from June, but an increase of 83 per cent over the like month last year. All but nine of the reporting cities showed gains in total permits over the corresponding month last year.

Truett McClure, son of Mr. and Mrs. J. H. McClure of Ozona, has accepted a position as salesman for the San Angelo branch of Sears-Roebuck & Co.

C. J. Watts is having his home repainted here this week.

gun dog and the many other things which were necessary to the well being of our pioneer Grandfathers and Grandmothers? Our Grandfathers and Grandmothers knew a thing or two in their day, that even we, with all our learning do not know. Many of us would starve and go naked if we had to take our chances in the wilderness which our ancestors conquered with their superb knowledge of their environments.—Uncle Bill.

C. J. Watts, Jr., suffered a head wound last Saturday when he was thrown from a horse at the Parker Dairy.

Mrs. Watt Turner has been visiting friends and relatives in and near Kerrville.

James M. Camp, former minister of the Ozona Church of Christ, and now in the insurance business in San Angelo, was a visitor here Tuesday.

Mr. and Mrs. Pink Beall were visitors to Langtry Sunday.

INSTALL telephones . . . and for the last few weeks I've been mighty busy. Folks here in West Texas are realizing how much a telephone means . . . how it brings the doctor when baby's sick . . . calls the store for more groceries when company comes . . . and lets you talk to friends any time you please."

If you don't have a telephone, you're missing something. It gives pleasure and protection . . . for only a few cents each day. Have one installed in your home . . . now.

LONGER NON-SKID MILEAGE

SAFETY AT LOW COST FOR YOUR HOLIDAY TRIP

FEW car owners realize how easily an otherwise perfect Labor Day trip can be spoiled by tire trouble. Now Firestone makes it possible for you to equip your car with four new tires that will give you blowout protection, non-skid safety and long mileage — at prices remarkably low.

Ever since the introduction of the new Firestone Standard Tire the Firestone factories have been running day and night to take care of the demand. Car owners were quick to recognize the outstanding safety and economy of this remarkable new tire. The extra values in the new Firestone Standard Tire are made possible because Firestone saves you money five ways—buying better raw materials at the source, controlling every step in processing the raw material, more efficient tire manufacturing, volume production and more economical distribution.

OZONA Phone 219 TEXAS

In this column answers will be given to inquiries as to Texas history and other matters pertaining to the State and its people. As evidence of good faith inquiries must give their names and addresses, but only their initials will be printed. Address inquiries to Will H. Mayes, Austin, Texas.

Q. How many and what have been the Capitols of Texas? T. E. Anderson.

A. Eight since American colonization began: San Felipe, Washington-on-the-Brazos, Harrisburg, Galveston, Velasco, Columbia, Houston and Austin. The first capitol of the territory that includes Texas was Adea, for about 40 years, under Spanish rule; then San Antonio; and Saltillo, Mex., under the government of Republic of Mexico. Adea was in the present state of Louisiana about 10 miles from Natchitoches.

Q. Where is Dawson Monument and what does it commemorate? D. S. Kerrville.

A. On the courthouse square at La Grange, erected to the memory of Capt. N. H. Dawson and his command, massacred at the battle of Salado Creek, near San Antonio, September 18, 1842.

Q. I see frequent mention of the "Rio Grande Valley," the "Lower Rio Grande Valley," and "The Valley." Are they the same and how does one reach there from the Texas Centennial at Dallas? G. H. G. Evansville, Ind.

A. Usually such references are to the lower counties of the Rio Grande Valley in Texas—Hidalgo, Cameron and Willacy—noted for their citrus fruit and winter vegetable production and famous for semi-tropical climate. The route there from Dallas is through Austin and San Antonio, almost directly south. Get road maps and information at Dallas for that and other attractive roadways.

Q. Is there any law in Texas against cousin marriages? W. J. S. Houston.

A. No.

Q. Where was the town of Nashville, Texas? Tell me something about it. R. G. O., Big Spring.

A. It was founded in 1834-35 by Sterling C. Robertson as headquarters for his colony; named for Nashville, Tenn.; on the Brazos about three miles below the mouth of Little River; first county seat of Milam county; once a prosperous town of some 2,000. It was gradually abandoned after Cameron became the county seat in 1846.

Q. Who did the printing for the provisional government of the Republic of Texas? S. D. Henderson.

A. Gail and Thomas H. Borden, New Yorkers who came to Texas in 1829 and were publishing the Telegraph and Register at San Felipe when the Texas revolution

SAGA OF AN EMPIRE AT TEXAS CENTENNIAL

DALLAS, Texas. —The Cavalcade of Texas, saga of the building of a mighty empire from a "wild and barbarous land," recreates the splendor, courage and faith of the past at the Texas Centennial Exposition. Top from left to right, Phil Lorner as Stephen F. Austin; the landing of the Cavalier Le Sieur de La Salle at Matagorda; Sam Houston, Texas Liberator, played by Paul Moore; second row, grand finale on the largest stage in the world; stage coach of the early pioneers; bottom row, the Battle of the Alamo; John Christopher Columbus Hill before General Ampudia at the surrender of Mier Expedition; and Neila Goodelle, singing star, going native on the Cavalcade set with a Chief of the Tejas Indians.

began in 1835. When Santa Anna's army approached San Felipe, they escaped with their plant to Harrisburg, where they were captured March 14, 1835, and imprisoned by Santa Anna, and their press was thrown into the river. They escaped to Galveston Island and later bought another press and began publishing a paper at Columbia, August 2. Gail Borden became world famous for his discovery of a process for condensing milk and for canning meats and other foods.

Q. Who was William Motley? U. D., San Angelo.

A. A physician, born in Virginia, in 1812, educated in medicine at Transylvania University, Ky., came to Texas in 1835, youngest member of convention that framed Texas Declaration of Independence, aid de-camp to Secretary of War Thomas J. Rusk, one of the nine Texans killed at Battle of San Jacinto, and was buried there.

Q. You state that England, France and the United States established embassies or consulates in the Republic of Texas. Did any other countries formally recognize the Republic? S. F., May.

A. Yes; Holland and Belgium.

Q. When and why was Texas placed under a provisional State government? E. H. C., Tyler.

A. Texas having withdrawn from the Union early in the War Between the States, President Andrew Jackson appointed A. J. Hamilton provisional governor to "organize a civil government in

and for the State of Texas." Hamilton issued his first proclamation as governor July 26, 1865.

Q. Where are the armadillo shells obtained from which fancy baskets are made? E. G. H., Norfolk, Va.

A. The wild armadillos are captured in the western part of Texas. There is an armadillo farm or ranch in Kerr county where they are grown for the purpose of making novelties. This is said to be the only farm of its kind in the United States.

Q. When did Sam Houston die and at what age? T. R., Big Spring.

A. He died July 26, 1863, at Huntsville, at the age of 74.

Q. When did Sam Houston die and at what age? T. R., Big Spring.

A. He died July 26, 1863, at Huntsville, at the age of 74.

TOURING TEXAS OVER OLD ROADS

A sketchy booklet of information about Texas, past and present. Sixty pages of description of Texas heroes, historic places and points of interest, written to give much about Texas in small space and to encourage readers to desire to know more.

It has the endorsement of the Texas Centennial Commission and Daughters of the Republic of Texas as to accuracy and interest. Foreword by Profs. H. P. Gambrell of Southern Methodist University and Wylie A. Parker, of Forest Avenue High School, Dallas.

This booklet mailed postpaid for 25 cents. Send all orders to Will H. Mayes, Austin, Texas.

Will H. Mayes, 2610 Salado Street, Austin, Texas.

I enclose 50 cents in coin, securely wrapped, for a copy of "A Century of Texas Cattle Brands."

THIS WEEK IN TEXAS HISTORY

(By T. S. College for Women)

WEEK OF AUGUST 30

1835—Stephen F. Austin returned from his long imprisonment in Mexico on August 31 and told the people that the time had come for war.

1836—A general election was held throughout the Texas Republic on September 5 which resulted in the election of Sam Houston as president, the adoption of the constitution, and the request for annexation to the United States.

1839—On August 31 President Lamar authorized Col. John H. Moore to raise 200 mounted troops for a campaign against the Indians.

1841—On August 30 President Lamar entered into a contract in pursuance of an act of Congress with W. S. Peters for the introduction of 600 families into Texas within three years. The effects of immigration and improvement were visible over the country.

1844—Anson Jones was elected President of the Texas Republic on September 2. He succeeded General Sam Houston.

CHIEF OF BANKERS

Henry Verdell of Minneapolis who was selected without opposition as president for 1936-37 of the American Institute of Banking, at the convention of the institute held in Seattle. The institute is a division of the American Bankers association and is devoted to the education of bank employees.

STARS OF CENTENNIAL'S LABOR DAY GAME

The Southwest's brightest stars will shine at the Texas Centennial Exposition the night of September 7 as the Chicago Bears of the National Professional league meet the Centennial All Americans. Shown here are some of the Southwest's most scintillating gridiron luminaries. Top left: Jim Lee Howell, University of Arkansas, end; center, Harry Shuford, sensational Southern Methodist University halfback; upper right: Ike Poole, University of Arkansas, end; lower left: Louisiana State's brilliant Abe Mickal, a triple threat halfback, and lower right: J. C. (Iron Man) Wetsel, Southern Methodist University, guard.

Ballots Received Advance In National Presidential Poll

Individual ballots have been mailed to voters of Ozona and other communities in a new Literary Digest poll of over 10,000 persons to ascertain who will be the next President of the United States. The votes were distributed by the Post Office locally in a few days.

Ballots from Texas in this 1936 poll will be tallied as a unit and may be compared with tallies in other states, it is announced.

The ballot asks the voter's choice of the seven officially nominated candidates and for whom he voted in the 1932 election to reveal the general drift of the party to another.

This is announced as the fourth biennial national Presidential poll conducted by The Literary Digest. The three previous polls are forecast the Presidential election with "uncanny accuracy."

HEADS TRUCKERS

Austin, Sept. 2—Several hundred truck and bus operators from all parts of West Texas will gather in Odessa, Sept. 10, to honor Henry English of Lufkin, newly elected president of Texas Motor Transportation Association, pictured above.

The Association's county chapters in Midland, Ector, Ward, Howard, Loving, and Winkler Counties are sponsoring this district assembly, and they have invited every truck and bus operator in West Texas to take part in the celebration.

Increased Diabetes Presents Problems

AUSTIN, Sept. 2—The increasing of diabetes presents a serious problem to the physician and the average citizen, according to Dr. John W. Brown, State Health Officer.

"Ordinary diabetes, that is diabetes mellitus, which is often referred to by many persons as a disease of the kidneys, is not a kidney disease, but a disease of the pancreas in which there is deficient production of insulin," Dr. Brown said, "and this mistaken idea that diabetes is a kidney disease probably results from the fact that the insulin deficiency causes large amounts of carbohydrates (sugars and starches) to pile up in the body. The result is that the patient drinks large amounts of water, and because of this, large amounts of urine containing sugar are passed."

"The pancreas is a vital organ located in the upper abdomen behind the stomach. It has a double function; it supplies the most powerful digestive juice in the body, known as the pancreatic juice, which it pours into the intestine through special ducts developed for the purpose; and it makes another substance, called insulin, which goes directly into the blood, and is essential for the use of sugar in the body."

"Obesity and heredity overshadow all other factors in the causation of diabetes. Most diabetics are fat. Not every fat person, of course, gets diabetes. Heredity seems to be the most important link in the chain of diabetes from generation to generation. In the adult, however, obesity brings out the predisposition to the disease. "Early diagnosis of a competent physician, with consequent proper treatment, enables the diabetic patient to live a useful life, and retards the development of complications."

Typewriter ribbons at the Stockman office.

Morris Miller, son of Mr. and Mrs. Will Miller, who underwent an emergency operation for appendicitis in a San Angelo hospital recently, returned to his home here Tuesday.

Sa, "I saw it in the Stockman."

Clyde E. Harris, prescription clerk at the Smith Drug Co. here the past several months, resigned his position and left the first of this week for San Angelo, where he is to take a similar post in the Myers Drug Store.

Busy School Days Ahead!

The greatest aid to progress of the school child is a typewriter available for "home work" and practice writing. It not only speeds up completion of the required work but will actually raise grade averages in most instances. A typewriter will also encourage the pupil to do more than assigned work simply because he enjoys writing on the typewriter and thus will broaden his education.

Giants Trim Eola—

(Continued from page 1)

game.

The Giants scored one in the first when Cox tripled and Heatherly singled to bring him home. Another was chalked up in the sixth when Dorley cracked a double to left field and scored on Myers' single. The Cox-Heatherly-Dorley combination was good for two more tallies in the eighth, successive singles by this trio doing the trick.

Dorley hit safely three times out of three trips up for a perfect afternoon. Heatherly and Cox got two each out of four times up, and Myers, Weaver and Lynum accounted for one each.

Lynum had the Eola hitters under control for six innings, allowing but three bingles in that many frames. But three hits and a walk in the seventh resulted in two scores. Three more hits were garnered off his offerings in the ninth, but Myers' perfect throw from outfield and a timely strike-out with tying runs on the bags relieved the tension.

Rain Saturday afternoon broke up a good ball game between the Giants and the Sonora Station A team. The count stood one-all when the game was called at the end of the first half of the fifth inning, the Sonorans having failed to score in their half of that frame.

SPEECH AND DRAMATIC ARTS CLASS OPENS SEPT. 14

Mrs. A. W. Jones will begin her classes in Speech and Dramatic Arts Monday, September 14. Classes or private instruction for both school and adult pupils will be offered. Special attention will be given and insisted upon in clear enunciation, correct pronunciation and posture.

In order to develop poise and stage presence, one-act plays will be featured before both private and public audiences. All departments of the drama will be studied including acting, make-up, costuming and directing.

Terms for either class or private instruction \$6.00 per month in advance. For enrollment phone 242 or meet Mrs. Jones in her studio from 8 a. m. through the day, grammar school building, Monday, September 14. Itc

You will find everything you need for school at C. G. Morrison Co. Itc

Miss Elizabeth Fussell has returned from the West Texas State Teacher's College at Canyon, to resume her work as primary teacher in the Ozona schools. Joe Williams met Miss Fussell in Lubbock and the two spent the weekend in Dallas at the Centennial.

Mr. and Mrs. R. O. Pearson of Haskell, Texas, are here for a visit with Mr. and Mrs. J. O. Lusby.

Minnesota Farmers Fighting Forest Fires

Farmers are shown fighting a fire which swept over hundreds of acres near Markham, Minn. Orchard sprayers were used to prevent the flames from sweeping across meadows and stubble fields and wiping out more farm homes in the area, in which fifty farmers were burned out.

Miss Bernice Bailey And Brock Jones Are Married In Pretty Church Ceremony

Young Couple To Be At Home In Houston After Sept. 15

Miss Bernice Bailey, youngest daughter of Mr. and Mrs. John R. Bailey, prominent Crockett County ranch folk, became the bride of Brock Jones of Houston at an impressive wedding ceremony at the Ozona Methodist Church Tuesday morning. The nuptial rites were spoken by the Rev. R. A. Taylor in the presence of a large group of friends of the young couple.

The bride, who was given in marriage by her father, was attended by Miss Tommy Smith as maid of honor and Mrs. Worth Odom, her sister, as matron of honor. Bridesmaids were Misses Carolyn Montgomery and Louise Henderson. Henry Meadows of Midland acted as best man and Albert Bailey, a brother of the bride, and Charles Sherfesse of Tyler, ushers.

The altar was banked with ferns, with large baskets of gladiolus in pastel shades at either side. Crystal bowls of white clematis added to the decorations. Tall candelabra stood on each side of the altar.

At the piano, Mrs. Bright Baggett played "Hearts and Flowers" for pre-nuptial music and accompanied Mrs. Bascomb Cox, sister of the bride, who sang "Sweetest Story Ever Told" and "All For You."

The bride wore an Alix model of glamorous satin brocade in bridal white, featuring the new direttore back influence, with a row of self-buttons and loops run-

ning down the back, ending in a short flowing train. A stitched Queen Anne collar was held by an old gold brooch, a family heirloom, worn by the bride's maternal grandmother. The short tulle veil in coronet style was held by orange blossoms. She carried a bouquet of lilies.

The maid of honor wore a princess gown of blue taffeta, with a large matching hat, and carried peach gladiolus. The other attendants wore taffeta gowns of the same style, the matron of honor in ashes of roses and carrying peach gladiolus, and the bridesmaids in green with orchid gladiolus.

Following the wedding, a reception was staged at the home of the bride's parents for members of the bridal party and close friends. Mrs. Albert Bailey, assisted by Misses Madye Jo Bailey and Ora Louise Cox, presided over the table in the dining room, which was decorated with the three-tiered wedding cake and crystal candle holders. Coffee and the wedding cake were served.

After throwing her bouquet to her bridesmaids, which was caught by Miss Tommy Smith, maid of honor, the bride slipped away to change to her going-away costume, a tunic suit of wine sheer wool with navy accessories. Amid congratulations, showers of rice, old shoes and tin cans the bride and groom left for a wedding trip to El Paso and various parts of New Mexico. After September 15, they will be at home in Houston.

The bride is a graduate of Ozona High School, also a graduate of Westmoorland College in San Antonio, and received her B. M. Degree from Southern Methodist University in June. She is a member of Zeta Tau Alpha Sorority and also was a member of the Student Governing Board.

The bridegroom is a son of Mr. and Mrs. S. M. Jones of Houston and is a graduate of Houston High School and the University of Houston. He is a member of the civil engineering staff of the Humble Oil and Refining Company, stationed in Houston.

Out of town guests included the bridegroom's mother, Mrs. S. M. Jones, and his two sisters, Miss Mary Jones and Mrs. G. Neal Madeley of Houston; Mr. and Mrs. Harry Stamper and small daughter of Midland, Miss Elizabeth Ake of Taylor, Mr. and Mrs. J. O. Taylor and Jake Mayfield of Del Rio, Mr. and Mrs. Albert Bailey, Madye Jo and Bob Bailey of Iraan, and Mr. and Mrs. Worth Odom and children of Iraan.

WELL IS COMPLETED

An abundant supply of water was encountered at a depth of 265 feet on the residence lot of Dr. Sellers Moore here yesterday. The well was drilled by Hugh Gray. Dr. Moore plans to set a windmill over the new well.

ers College at Denton and holds an M. A. degree from the University of Texas. Miss Eunice Johnson of Clarendon, Texas, will assume the post of teacher of English in the Junior High grades. Miss Johnson is a graduate of the University of Texas with the class of 1936, and has had three years teaching experience.

Two new teachers have been added to the Mexican school here. Wallace Myers, hard-hitting, straight throwing outfielder with this year's Ozona Giants, a graduate of Daniel Baker College and

HOURS FOR STUDENTS

For the information of parents, Supt. C. S. Denham has announced the assembly and dismissal hours for the various grades in the local school system.

Pupils of the fifth, sixth and seventh grades will be due in classrooms at 8:25 a. m., and all others at 9 a. m. The first grade is dismissed at 2 p. m., and all other pupils up to the junior high grades at 3 p. m. and Junior High pupils get out at 4 p. m. each afternoon.

a former student of T. C. U., will act as principal of the Mexican school, Miss Lena Parker of Eldorado, student of Sul Ross at Alpine the past summer, is the other addition to the Mexican school faculty. Both the new teachers in this school hold high school certificates. Miss Hester Bunker and Miss Christine Viles, teachers in the Mexican school last year, will complete the faculty.

New Arts Teachers

New additions to the field of special teachers will be Mrs. Ruth Hill of McKinney, teacher of piano, and Mrs. A. W. Jones of Ozona, who will conduct classes in speech and dramatic arts. Others of the fine arts teaching staff are

Mrs. Neal Hannah, piano, and Joe Haddon, band and orchestra. All of these teachers will have studios in the grade school building, with the exception of Mr. Haddon, whose studio has not been selected.

Nearly all members of the faculty of local schools spent the past summer in various colleges and universities over the country. Miss Elizabeth Fussell, first grade teacher, attended the West Texas State Teachers College in Canyon. Miss Frances Northcutt, second grade teacher, was a student at the College of Arts and Sciences in Kingsville. Miss Norene Allison received her B. A. degree from the University of Texas the past summer, and Mrs. C. S. Denham, fourth grade teacher, took her bachelor's degree from Texas Tech in Lubbock the past summer. Miss Elitabel Tilory, music and spelling teacher in junior high, attended Texas Tech. Supt. Denham was also a student at Tech

this summer.

Guinn Carruthers, manual and science teacher, C. E. son, principal of the High School and Miss Myra Bishop, high English, were students at University of Texas summer session. Miss Mildred North, commercial department head, and Hester Bunker, teacher in Mexican school, attended the University of Colorado at Boulder. Mr. and Mrs. I. N. Adams, who were enrolled at North State Teachers College in Denton for the summer.

Miss Sophie Haug, kindergarten teacher, spent the summer at home in Marlin. Mr. and Mrs. White remained in Ozona. Miss Ada Moss, home economics instructor, Miss Christine was at home in Colorado City.

Why Gulf is the gas for your Labor Day trip

PACK A PICNIC BASKET, get in your car, and go places over summer's last big week-end. But be sure you use a gas specially refined for current weather in this locality. Otherwise part of the fuel you pay for blows out the exhaust unburned, wasted. For top mileage you need that Good Gulf—it's "Kept in Step with the Calendar" so that all of it goes to work, none of it goes to waste. Fill up at the Sign of the Orange Disc for a thrifty Labor Day trip.
