Crockett Lamb Crop On Move 30,000 Shipped

Loading Pens At Barnhart Are Choked To Capacity

Crockett County lambs, the fall money crop, are on the move. Trucks have been operating night and day moving out thousands of heavy fellows from Crockett ranges to be loaded out to northern feeders, to new ranges in the area or to market centers.

Nearly 30,000 head of lambs had been loaded out of Barnhart early this week and the loading pens are operating at full capacity daily.

Monday saw 3,774 head of Crockett lambs from Strick Harvick, Boyd Clayton, Dempster Jones, and Clyde Young ranches loaded out by Elrod and Weatherly. Sherman Taylor loaded out two cars of old ewes going to Ball and Mayfield, enroute to Missouri. John Fogarty loaded out seven cars of old ewes Tuesday.

Charley and Joe Davidson will load out 1000 head of broken-mouth ewes Monday to McNeal, order buyer. The Davidson old ewes were sold yesterday at \$2.60 a round.

Texon Captures Pitcher's Duel In 16th Inning

Sunday's Thriller Was Two In A Row Off Ozona-Sonora

Ozona and Sonora baseball fans felt championship hopes rise some what after witnessing the mound work of Tommy Fingers, pitcher from D'Hanis in his first appearance for the local team in a 16-inning fracas here Sunday afternoon against the Texon Oilers.

Such hopes were conditioned, however, on a hoped-for improvement in the clutch-hitting of the Sonora-Ozona crew between now and play-off time, for it was failure to hit in the pinches that left twelve potential scores standing on the bags, to say nothing of five runners out on forced plays.

Despite the superb hurling of Fingers, the 16-inning tilt went to Texon when Herman Brown was safe on an error, was sacrificed to second by Wade and scored on Ward's single down the first base line. The Texon crew made it two in a row with the Sunday win, having taken Lefty White to the tune of 9 to 2 in Texon Saturday.

Sunday's game was 2-1 in favor of the locals at the ninth, Mangold having rapped one over the fence in the third with Heatherly aboard in the ninth frame, the first two men up for Texon were easy outs. Then Barbee, Texon backstop, proved his team's hero of the day by clouting a homer over the right field fence to knot the count. Thus it saw-sawed back and forth until the visitors scored the winning tally in the sixteenth.

The Ozona-Sonora aggregation looked anything but of championship timber in the tenth frame when they filled the bags, with nobody out, and still couldn't push over a single score. Fingers led off the inning with a stinging single to right, Ratliff duplicated. Heatherly rolled one to the infield, and Fingers was safe at third when the play was made for the advance runner. The bases full and none down, Mangold rolled one to short and Fingers was cut off at the plate. Dorley also rolled to short for a double play to retire the side. In the next two innings, five of the six hitters up lifted high fliers to deep outfield, any one of which would have been a score and a ball game in the previous inning. Wally Ritter went the route for the Texon crew.

Mrs. D. K. McMullan, Jr., has been released from a San Angelo hospital where she has been under treatment for Malta fever.

Ozona-Sonora And Crane To Play Off Game At 5:30 Today

In a game called at 5:30 this afternoon, the Ozona-Sonora team will meet the Crane Gulfers on the Crane sandpile to make up a game which was rained out on August 21.

This was the announcement made here last night. Eddie Ratliff, third sacker, who held the Cranes to one run in a game earlier in the season, is the probable selection for mound duty. One of the several McLeod brothers will fill in the infield gap left by shifting Ratliff to the pitcher's mound, and another McLeod, Paul perhaps, will receive in the absence of Byron Stuart, who left this morning to report to the Dallas Steers of the Texas League for the balance of the season.

Infant Son Of Hilton Norths Buried Monday

Funeral services were held here Monday afternoon for William Hilton North, infant son of Mr. and Mrs. Hilton North, who died Monday morning in a San Angelo hospital thirty hours after birth.

Services were conducted at the graveside by Rev. Eugene Slater, pastor of the Ozona Methodist Church. Joe Oberkampf was in charge of arrangements.

Surviving besides the parents are a sister, Mary Ann.

BRIEF NEWS

SHORT WOOL AT 30c

Hubert Buell yesterday contracted 13,000 fleeces of fall wool from the Davidson ranches at 30 cents a pound. Shearing is to start September 17.

DELIVERS LAMBS

Rob and Roy Miller weighed out 4,284 head of lambs at Barnhart Friday. Mutton lambs, 2,282 head, went to Johnny Gahr and the ewe lambs, 2,002, to Hawes and Thomp son.

BUYS BUSINESS BUILDING

A deal was reported closed during the week whereby Mrs. Ben Lemmons purchased the Bert Couch building, formerly occupied by a moving picture theatre. Mrs. Lemmons has made no announcement of her plans for the building.

CARRUTHERS IN HOSPITAL

Guinn Carruthers, manual training teacher in the Ozona High School, is recovering in an Austin hospital from a recent illness. Mr. Carruthers expected to be released from the hospital the end of this week.

MRS. PIERCE IMPROVES

Continued improvement is noted in the condition of Mrs. Vic Pierce, who is recovering in a San Antonio hospital from a recent operation for appendicitis.

ENGAGEMENT ANNOUNCED

Mrs. Frank F. Friend entertained a number of friends at her home in San Angelo Saturday to announce the approaching marriage of her daughter, Hazelle Judith (Ponk) to Earle (Red) Sudderth, civil engineer now stationed at Ozona in government survey work.

SCHOOL IMPROVEMENTS

Refinishing of floors in the primary grades and installation of fifteen new commodes in the grade school building are improvements made recently on the building to put it in readiness for school opening Monday.

PLAY IN DEL RIO

The Ozona-Sonora ball club goes to Del Rio Sunday for a double-header exhibition match with the Del Rio team.

'Housewife' Into Discard; She's A 'Neolectress' Now

Term Adopted Result Of West Texas Utilities Co. Contest

Abilene, Sept. 1—What is believed to be the first concerted effort in the nation to eliminate from usage a name the majority of women resent, "housewife," today had resulted in the substitute word, "Neolectress."

It was defined as meaning "a modern home maker alert to this new electric age" and had the approval of Dr. Charles E. Funk, noted lexicographer of New York, who selected it from more than a thousand substitute names submitted in a campaign conducted by the West Texas Utilities Company over its 40,000 square-mile territory.

Mrs. Ben D. Parker, Abilene woman and a dog fancier, submitted the word, N-e-o, she pointed out, meaning "new." L-e-c-t-r-e-s-s she said, suggests feminine usage of electricity.

The campaign was based on the theory that the word "housewife" has become obsolete due to the improved status of women.

"It is true," Dr. Funk said in announcing his selection of Neolectress, "that the facilities for the effective management of the home have, within the past few years, become so notable as to remove—let us hope, forever—much of the ceaseless drudgery formerly a con-

Fine Ranch Home On Cam Longley Ranch Nearing Completion

\$30,000 Residence Of Native Rock Being Built; Two-Story, Has 10 Rooms

Probably one of the finest and most beautiful ranch homes in the entire area of West Texas is nearing completion on the home ranch of Cam Longley, resident of Ozona nearly a half century, who ranches in the vicinity of Pumpville.

Finishing touches are now being put on the \$30,000 mansion of native rock being built on the Longley ranch 20 miles north of Pumpville. Mr. Longley, visiting here this week, said the contractor, B. L. Craighead of San Antonio, expects to have the home finished within the next few weeks.

The residence will contain ten rooms, two stories high, with base-

(Continued On Page 2)

Elimination Of Radio Noises Is Object Of Survey

W. T. U. Crew Makes Systematic Check-Up Of Equipment

A thorough clean-up of local radio interference resulting from service and highlines of the West Texas Utilities Co. serving this community is being undertaken by a crew of workmen from the company this week.

Roy Norvel, in charge of a crew of seven men, has been engaged in making a survey of company lines, transformers and all equipment of the company here for the purpose of locating and correcting all conditions that produce radio interference.

The crew uses a radio equipped car with a directional radio noise finder. With this equipment, the crew made a systematic check of all local equipment and eliminated all interference due to company lines. Reception was cleared further by the cooperation of citizens in allowing the crew to inspect electrical equipment and suggest needed repairs or tightening of connections to eliminate radio noise.

ENVOY TO ERIN

John Cudahy, newly appointed minister to the Irish Free State, is shown as he sailed aboard the liner Manhattan to take up his ministerial duties. Until recently he was the minister to Poland.

CCC Enrollment Rules Modified Big Quota Is Set

Boy Who Can Not Get Comparable Training May Enroll

Liberalization of requirements for enrollment in C. C. C. camps plus a new high quota assignment for Texas now presents an opportunity to all boys in the state to enroll if they are unemployed, 17 to 23 years of age, in need, or whose parents or themselves, due to financial limitations, are not in position to secure comparable training, a recent announcement from Adam R. Johnson, State Relief Commission Director, says.

Mrs. Grace Roberts, county case worker for this county, here twice weekly, is taking applications from eligible boys. Six were enrolled early this week, she said, and all boys who are eligible are urged to see her for details, or call at the office of County Clerk

Heretofore, rules of C. C. C. enrollment did not allow boys from other groups than those receiving or eligible to receive public assistance to be accepted. This rule has now been modified so that any boy whose own or family financial condition will not provide him with a comparable training, is allowed to enroll. Such boys who have no dependents may allow 2/3 of their pay to remain on deposit and upon discharge or completion of enrollment period will receive the full accrued amount. Where boys have dependents, part of the monthly salary will be allotted for support of the family.

Kin Of Ozonan Is Attacked By Huge German Police Dog

Houston papers the past week carried an account of an attack by a vicious German police dog on Mrs. M. A. Phillips of that city. Mrs. Phillips is the wife of a cousin of T. A. Kincaid of Ozona.

The huge police dog lived up to its name of "Tiger" that paper said, when he crushed the woman's right ankle between his powerful jaws. Mrs. Phillips was attacked when she walked near where the dog was tied to his master's car. She was rushed to a hospital and the dog put under observation for rabies.

Eastern Star To Begin Activities With Melon Feast

The Ozona Chapter of the Order of Eastern Star will initiate the work of the new season tonight by observing the birthday of the founder of the order, Robert Morris.

The event will be observed with a watermelon feast on the lawn at the Will Baggett ranch home. All members and their families are urged to be present. The gathering is set for 7:30 tonight.

Crane Still In Running For PB 2nd Half Honors

Gulfers Must Win All Of Remaining Games To Tie Iraan

Bob Osborn and his Crane "Panthers" are still in the running for the second half Permian Basin League gonfalon, although at this writing it would seem that Sam Gray's Iraan crew had a slight edge and the inside track.

As a result of the week-end series, which saw the two second-half championship contenders emerge with honors even at one-all, the best the Crane Gulfers can hope for is a tie with the Sam Gray hopefuls, and to do that, the Osborn gang must take all of three remaining games.

The immediate future holds plenty of perils for the rough and tumble gang from the Crane sandhills. Next Saturday and Sunday, they must meet the inspired Texon Bloocers of Roy Gardner's and, as the Sonora-Ozona first-half champs will testify, that team is sometimes hard to beat. Should Texon knock over the 1936 champs one of the two games, it will be Iraan against the Ozona-Sonora combination in the playoff—which should provide plenty of thrills for fans of both precincts.

In the event, however, the Cranes should dump the Ripper's crew for two, there still stands one game between them and a final decision. Crane must play the Ozona-Sonora combination a rain-out game of August 21. A win, then, by the locals, would put the Cranes out of the running. Should Crane win all three, a preliminary play-off to decide the second-half winners would be necessary before the championship play-off could start. The Ozona-Sonora crew journey to Crane this afternoon to play off the rained out game.

The Iraan nine picked up two games in the win column the past week, one by beating Crane and the other by a decision of League president, George Lee of McCamey

(Continued On Last Page.)

Stuart Gets Try Out With Dallas In Texas League

Local Catcher Reports To Steers Today For 10-Day Trial

Byron (Tex) Stuart, catcher and spark plug of the Ozona-Sonora team in the 1937 Permian Basin campaigns, and the same for the Ozona Giants of two years back, left this morning for Dallas to report to the Dallas Steers of the Texas League for a try-out the balance of the season.

Stuart received a telegram from the Steer management yesterday ordering him to report today. He had had a tentative agreement for a try-out in the Spring, but was needed to plug in the last ten days of the present Texas League season.

The Dallas team of the Texas League ends its season Sept. 12 and in the ten-day period, the Ozonan will be given a trial to determine whether or not he can go with the team from the start next Spring.

Tex has been going at top form in the Permian League, said by many observers to be faster than the Texas League, and was hitting the apple at a fast clip in the waning hours of the local league play. In Sunday's game here, he rapped two singles in the first two trips up and then almost pulled the game from the fire for his team in the sixteenth when he backed the centerfielder to the fence to pick off a drive that lacked inches of clearing the fielder's glove and the fence to score two runs.

SCHOOLS OPEN FORTY-SECOND SESSION MON.

Opening Exercises To Start At 8:30 Monday Morning

FACULTY READY

Teachers To Meet At 9 Saturday To Outline Session

Ozona public schools will open doors on the forty-second annual session here Monday morning with prospects bright for a near record enrollment during the coming term.

With the possible exception of one member, Guinn Carruthers, manual training teacher, who has been ill in an Austin hospital the last week, all members of the faculty are expected to be on hand Saturday morning at 9 o'clock for a pre-opening faculty meeting. Supt. C. S. Denham announced. The faculty will outline plans for the year's work and receive instructions for the opening day's program.

Opening exercises will begin in the auditorium at 8:30. Introduction of new teachers will follow the invocation, after which the program calls for announcements by special teachers, Mrs. H. B. Tandy will sing and Rev. Eugene Slater, pastor of the Ozona Methodist Church, will make a brief opening address. General announcements will follow, after which pupils will adjourn to classrooms.

Pupils will receive text books and be enrolled on the opening day, with dismissal as soon as routine instructions and assignments can be made. Classroom work will get under way in earnest with the opening of school Tuesday morning.

Eight new teachers will take a bow with the local system at the opening of the 1937-38 term. Five of these will be in the grade school, one in high school and two in the Mexican school. The new teachers in the grades include Miss Stephena Demmer in the first grade; Miss Dorothy Spain, second; Miss Margaret Martin, fifth grade and language arts; Miss Nancy Dawes, public school music; and Eugene Hollon, Junior High principal.

Jake McCulley will be the new principal at the Mexican school, and will also act as assistant High School coach of athletics. Miss Catherine Chapman, of Ozona who formerly taught in the Mexican school, will again be a member of its faculty during the coming session. Misses Linna Parker and Christine Viles, members of last year's faculty, will again be on the job in the Mexican school.

100 New Textbooks To Be In Use With Opening Of School

Approximately 100 new textbooks have been sent in to the State Department of Education for exchange for a like number of new texts which will be in use in the local school opening Monday.

New texts include health books, new readers for the grades, biology and new texts on general mathematics, a new course to be added in High School.

The new general math course will take the place of second-year algebra, Supt. C. S. Denham explained. Heretofore pupils have been required to take algebra in the eighth and ninth grades. After this year, general math will be offered in the eighth grade and Algebra I in the ninth, with a second course in algebra not required.

WINS WRITING AWARD

A regional honor award, won by Ora Louise Cox, representing Ozona High School in the regional meet at Alpine last Spring in essay writing, is to be presented with the opening of school next week.

Malta Fever Is Reported Fairly Prevalent In Texas

Undulant or Malta Fever, a disease contracted from cattle, hogs, or sheep which are infected with contagious abortion, is being reported fairly regularly through Texas, according to State Health Officer Geo. W. Cox.

This indicates the fever constitutes a public health problem and also the necessity of its more general recognition.

"Undulant fever is so named because of the wave-like variations in temperature. The symptoms include rise in temperature, loss of weight and strength, chills, sweat and joint pains. The disease has rather a low mortality rate, but is important because symptoms may persist for a number of weeks and even months before normal health and strength are restored," Dr. Cox explained.

In Texas, the goat, horse and sow are the usual spreader of this disease. The germs of undulant fever enter the body through the mouth or skin. Therefore, care should be used in handling animals known to be infected and dairy products from the same source should be pasteurized, if used. More men acquire this disease than women and adults seem more likely to have it than children. More cases are found in the rural areas than in cities.

Prevention of undulant fever is based upon the detection of the disease in live stock and the eli-

mination of the infected animals from the herds. Dairy herds should be tested for Bacillus abortus. This is a task that cannot be accomplished in a short time. Pasteurization of milk will prevent the spread from this source. Frequently, there is much alarm in a community when undulant fever is recognized there. However, there is little cause for apprehension, as many people are not susceptible to the infection. The disease will probably never appear in Texas as an epidemic; however, to the unfortunates who contract it, it is a most discouraging experience both from the standpoint of the patient's well being and the family economics.

MRS. MASSIE WEST IS CONTRACT HOSTESS

Mrs. Massie West was hostess to her contract club at her home Tuesday afternoon. Mrs. Roy Henderson held high score and took the traveling prize. Mrs. Jake Short held second high. Mrs. Bill Swearingen was also presented with a gift. Others present were Mrs. Chas. E. Davidson, Jr., Mrs. Sherman Taylor, Mrs. Jack Holt, Mrs. Evart White, Mrs. Hubert Baker, Mrs. Boyd Clayton, Mrs. H. B. Tandy, and Mrs. J. A. Brashear.

Miss Elizabeth Coose, daughter of Mr. and Mrs. Steve Coose, a graduate of Ozona High School last Spring, will act as office assistant to Supt. C. S. Denham this year.

Mussolini's Young Fascisti Pass in Review

Italy's soldiers of the future, some of the 4,500 children who took part in the great physical culture program in the Mussolini forum in Rome, march with chests bared and bayonet-fixed rifles across their shoulders past Il Duce and high government officials who witnessed the display.

Will Rogers Shrine Of The Sun Atop Cheyenne Mountain In Colorado To Be Dedicated In Ceremonies September 6

Granite Spire Honors Memory Of 'Greatest American'

Colorado Springs, Colo., Sept. 2.—Dedication of the Will Rogers Shrine of the Sun to the everlasting memory of Will Rogers will take place at 11 a. m., (MST) Sept. 6 on Cheyenne mountain.

The feudal castle spire of native granite pierces the heavens high up on the backbone of America where the celestial spirit of Will Rogers reaches the humility of mankind in the sanctuary conceived and built by Spencer Penrose, Colorado Springs sportsman.

As the chimes and vibrabarp in the "singing tower" of the shrine play "Empty Saddles," a saddled, but riderless horse will lead a procession of statesmen, actors, aviators, cowboys, Indians, and other friends up the switchback road on the face of Cheyenne mountain. When the procession approaches the tower at the "end of the trail," the Men of the West, NBC comboy quartet, will sing "Old Faithful," the favorite of Will Rogers and the song that was rendered at his funeral.

U. S. Senator Ed C. Johnson of Colorado will introduce Thurston J. Davies, president of Colorado College, whose brief eulogy will dedicate the shrine.

With the singing tower accompaniment, the comboy quartet will sing "Home on the Range" as the magnificent oversize bust of Mr. Rogers is unveiled on its granite pedestal just outside the memorial. With a smile twitching at his lips, and his hair partly over his right eye, Will Rogers looks off to the southwest — across the plains that roll off into his native Oklahoma. This unveiling privilege will go to three of Mr. Roger's kin; former senator W. M. Gulager of Muskogee, a cousin; Gunter Lane, Okmulgee, nephew who looks almost exactly like Will Rogers, and Mrs. Lasca Lucket,

niece who has been hostess at the shrine this summer.

Christening of the memorial will be by Fred Lookout, son of Chief Lookout of the Osage tribe in Oklahoma. The Lookouts were close friends of Mr. Rogers, who was proud of the Indian blood in his veins.

Thrilling climax to the solemn occasion will come as the famous Cowboy band of Abilene, Texas, plays the Star-Spangled Banner. As the crowds stand in the mid-day sun a squadron of airplanes circling above will dip to the shrine and drop flowers—tribute from Rogers' friends of the sky.

Cowboys of the world will have their own manner of memorializing Mr. Rogers, as will the Indians. They will gather Sept. 4, 5 and 6 for a big three-day reunion and rodeo such as Will Rogers enjoyed so much in his lifetime. The Will Rogers Memorial Rodeo will be held on the Broadmoor hotel polo grounds just below the shrine. The rodeo contests will be held the three afternoons. There will be a mammoth parade Saturday morning; big cowboy ball at the Broadmoor hotel Saturday night and Indian ceremonials and dances Sunday night in the Broadmoor hotel riding academy.

Garrison Returns From Successful Meet At Rio Hondo

Rev. I. V. Garrison and family returned this week from Rio Hondo, where Rev. Garrison recently completed a two-week revival meeting. The meeting was concluded August 22, the minister and family spending the next week visiting relatives at Bandera and Mrs. Garrison's parents at Waco. The Rio Hondo meeting was very successful, the Ozona minister reported, resulting in fifteen professions of faith, fourteen additions to the church by baptism and a large number of reconsecrations.

Devout Immersed in Mass Baptism

By ones, twos, threes—even by entire families—87 believers were baptized in a mass immersion at the non-denominational Immanuel temple at Los Angeles. An elderly convert, wringing wet but happy in her religious fervor, is pictured above. The believers were baptized by Rev. A. Earl Lee (right), pastor of the church.

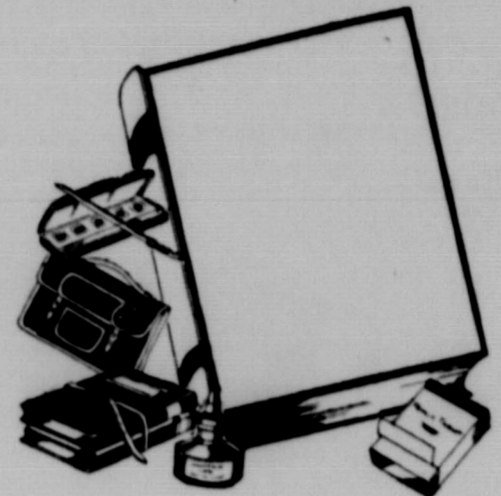

Fine Ranch Home— (Continued from Page One.)

ment, and will be modern in every respect. Electric lights and electric appliances will be operated from current supplied by a generating plant, and tank gas will furnish fuel for heating, cooking, etc.

Stone used in constructing walls of the residence were picked up on the Longley ranch. Sand and gravel used in concrete, plaster-

ing, etc. were also available on ranch. Mr. and Mrs. Longley and their two sons, Glenn and Longley, operate the ranch. Another son, Cam Longley, Jr., graduate of the United States Military Academy at West Point is now commissioned officer in regular U. S. Army.

Mrs. Ruth Ellis and son, Jimmie of Arizona are here for a visit with her sister, Mrs. Clay Montgomery, and family.

Practical Cookery

Dept. Home of Economics
Texas State College for Women

Denton, Aug. 31—Frothy cream puffs stacked high in bakery displays have made more than one person get window-smashing ideas and any housewife who craves popularity with the family can win it by learning to make these pastry triumphs.
To make them pleasantly surprising, one can try various kinds of fillings. The original cream filling is always a favorite, but variety never hurt any one.

The Puff

1/2 c. butter, 1 c. and 2 T. pastry flour, 1 c. boiling water, 3 large eggs. Boil the water and butter together in a saucepan. Add the flour all at once and stir until the mixture leaves the sides of the pan. Remove from the heat and cook for five minutes. Stir in one beaten egg at a time. Butter a baking sheet. Set mixture in rounds about 2 inches apart. Bake at moderate temperature of 350 to 400 degrees F. for 40 to 45 minutes. When cold, split puffs on side and fill.

Plain Filling

Whipped cream seasoned to taste may be used for the filling. Cooked fillings include English cream filling, coconut cream filling, or chocolate filling. For English cream filling use 2 c. milk, 1/2 c. sugar, 1/4 t. salt, 1/4 t. vanilla, 1/2 c. flour, 2 eggs or 4 yolks, 1/4 c. sugar. Scald milk. Sift dry ingredients, except the 1/4 c. sugar, and add scalded milk, gradually stirring constantly. Cook in double boiler, stirring constantly, about 10 minutes. Beat eggs, add the 1/4 c. sugar and beat. Stir this into the hot mixture. Cook, stirring constantly, until thick. Cool. Add flavoring. Use in puffs.

Chocolate Cream Filling

1 ounce of chocolate, 2 T. water, 2 T. sugar, pinch of salt. Make a syrup of the above and add to English Cream filling.

ally. One tabulation shows that enough is grown to furnish cereal every day for every breakfast table in the state over a two-year period. In other words, a little matter of 3,245,447 bushels were harvested in 1934, with the majority of this crop coming from the southeastern counties of Wharton, Matagorda, Chambers, Colorado, and Liberty.

Even with the amount of territory to be covered, the transportation problem in Texas should not be a difficult one. Not only does this state rank first in railroad mileage with 17,000 miles of main line tracks, but a 1930 census shows that there is an automobile for approximately every three families. Texans believe in going places.

Industrial Inspiration

Armadillos may be objects of laughter to some people, but to a farmer in South Texas they are means of a livelihood. An accident was responsible for his discovery. He killed and skinned one of the queer-looking animals one day, put it in the sun, and the heat caused the shell to curl up in the form of a basket. Struck with the idea, he fastened the tail around to make a handle, lined the basket with colored silk, and offered it for sale. Tourists liked them, and the idea has grown into a large and remunerative business.

METHODIST CHURCH

Eugene Slated, Minister
Calendar of Services

Sunday School 9:45 a. m.
Morning Worship 11:00 a. m.
Evening Worship 7:45 p. m.
Mid-Week Service, Wednesday, 7:45 p. m.

The Sacrament of the Lord's Supper will be administered at the morning service this Sunday.

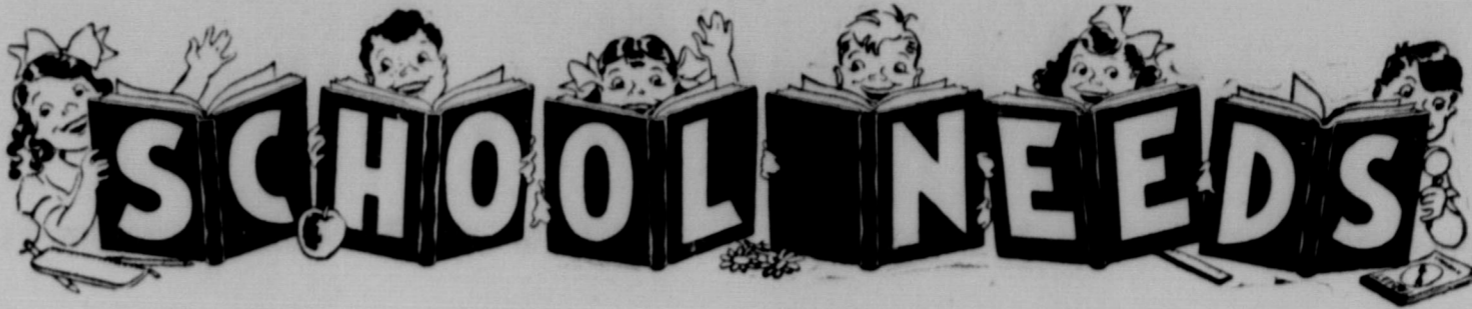

The Board of Stewards will meet at the church Sunday afternoon at 2 o'clock for its first meeting of the fall. Mr. Paul Perner, chairman of the board, urges all members to be present.

We are glad that our people are moving back to town for the opening of school. Plan to begin attending Sunday School and church on Sunday! This church welcomes to its services all who will come.

PRESENT CERTIFICATES

Certificates of excellence in arithmetic, won by Bobby Lemmons and Billy Jo West, seventh graders last year, in Inter-scholastic League competition, have been received and will be presented these pupils with school opening next week, Supt. C. S. Denham announced yesterday.

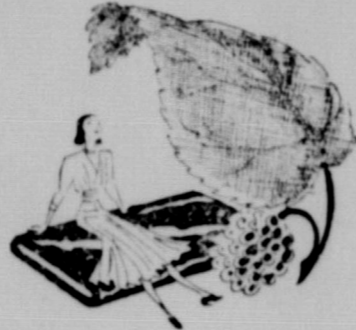

BACK TO

Next Monday school children will take the trail back to the class room, and in a few more days, the older boys and girls will be off for college campuses in every direction. For this event and for the near Fall and Winter season, we have assembled a splendid line of new merchandise, up to the minute in style—choice selections from world's leading markets. We have complete outfits from kindergarten to college for both girls and boys—and for grown-ups, new styles no end. Come in now and see the new Fall Styles.

Ozona Girl Wins Many Honors At Camp Waldemar

Hunt, Texas, Sept. 1—Miss Mary Louise Harvick, daughter of Mr. and Mrs. S. M. Harvick, returned home this week-end from Camp Waldemar for girls, near Kerrville. She returned with her mother who arrived at the camp on Friday and was on hand for the final banquet that evening.

Miss Harvick won numerous honors during her entire summer at Waldemar. During the first term she won the all-star award for meeting team requirements and this week she received a silver bracelet for similar achievement.

In the final horse show held Friday morning on the wide athletic field, Miss Harvick rode in the high senior Western horseback events, and she recently received an American Red Cross swimmer's button for passing required tests in swimming.

During her stay at Camp Waldemar, Miss Harvick was one of a large group of girls making the annual sight-seeing excursion to Monterey. This trip is one of the high points in the Waldemar program and takes the girls on a three day trip to the Mexican tourist city.

Miss Harvick was a member of the Tejas tribe whose chieftan, Miss Anna Munger of Houston, was voted the Ideal Girl at the camp.

Miss Lillian Baggett has returned from a visit with her sister, Mrs. Jerry Pace, in Austin. Miss Posey Baggett will remain in Austin until the last of the week.

Mrs. L. B. Adams is sufficiently recovered from a recent illness to visit her sister, Mrs. Fred Montgomery, on her ranch near Sanderson.

 (The Boss)

Conley Cox Back After Fine Season On Palestine Club

Conley Cox, former shortstop with the Ozona Giants, and son of Sam Cox, hurling standby of Ozona teams of the early day, returned to his home here Monday after a successful summer at shortstop for the Palestine team of the East Texas League.

Cox played with the Palestine club on a farm-out from the St. Louis Browns. He was selected on an all-star team of the East Texas circuit in mid-season and won honorable mention in another all-star selection at the end of the season. His season hitting average for 121 games was .242, but the last six weeks of play he was batting well over .400, having come out of a 30-game hitting slump in fine fashion. Observers expect to see him on a regular berth with San Antonio team in the Texas league next season or with the Meridian, Miss., both farms for the Browns.

We're on the sidelines for the Lions. Ozona Drug Co. 1c

POWER PLUS

Although her skill and technique deserve full credit for Jadwiga Jadrjowska's recent victory over Alice Marble, American tennis champion, in the tennis finals at Rye, N. Y., the power and determination of the Polish star, demonstrated graphically in this picture, were the major weapons in her armament. Here, too, is evidence of the great stamina that enables Jadwiga to maintain a killing pace in the pinches.

Indian Relics, Lava Sample, New Items For School Museum, Gift Of W. R. Baggett

Indian Wampum, From Pacific Coast Tribe, Lava, Brought From Colorado Trip

Several interesting museum pieces, picked up on his recent trip through Colorado, were donated the past week by W. R. Baggett to the Ozona High School museum.

One of the most interesting of the contributions was a piece of wampum, a material used by the North American Indian for money and for ornamental pieces. The material, which resembles pink celluloid, came from a tribe on the Pacific Coast.

Mr. Baggett also added to the museum collection, a piece of lava taken from the Malpais beds near Socorro, N. M.

A Winchester rifle of early make, with large bore of the type of early day gun, was another item brought by Mr. Baggett. The gun was the gift of Jack Dixon of Bronte, Texas.

A "mano" or Indian grinding rock, found by Mr. Baggett on the Rufe Everett ranch, was another gift to the museum. The mano is about three inches thick and shows evidence of considerable use.

J. A. Sparks was in San Angelo Wednesday at the bedside of a brother, who underwent an operation for appendicitis.

Mrs. W. E. Friend, Jr., is in San Antonio to be with her sister, Mrs. V. I. Pierce. Mrs. Pierce is still in a hospital following an operation two weeks ago.

MRS. BOB WEAVER LAS AMIGAS HOSTESS

Mrs. Bob Weaver entertained Las Amigas Club at her home Tuesday afternoon. Miss Card Montgomery held high score prize. Mrs. Richard Flowers took traveling prize and Mrs. H. Childress, Jr., the bingo prize. Other guests were Mrs. Cliff Brooks, Mrs. Marshall Montgomery, Mrs. Bill Conklin, Mrs. D. Kirby, and Mrs. Joe Sellers Pierce III.

Mrs. Gertrude Perry came home Tuesday after recovering from operation in a San Angelo hospital.

That
 Are Good

1936 Dodge Truck — Still "as good as new." Motor in first class condition, and body sturdy and showing little use. A buy worth the money **\$450**

1936 Ford '85' Coupe — Motor runs like a new one. Body in good condition, good paint and good tires. Here's a coupe that you will be proud to own **\$450**

1932 Studebaker Sedan — A few years old but still worth the price asked. The mileage is still in her. Take it for only **\$150**

1935 Dodge Pick-Up — Here's something you may have been on the look-out for. If you need a good pick-up for all round use, you will not find a greater bargain in a week's search **\$325**

1935 Chevrolet Pick-Up — For the ranch car, here's a dandy. Lots of good service for a little money. Take it with you for only **\$300**

1933 Ford V8 Tudor Sedan — Has new motor. Sturdy body of the model together with the new factory motor, insures a lot of good mileage for only **\$325**

1932 Chevrolet Coupe — Something cheap? If you want a good running car cheap, here's your chance to fill the bill **\$125**

1931 Ford Coupe — Plenty of that Ford stamina left in this old timer. A good one yet, if we do say so **\$125**

1929 Ford Coupe — Another one experienced on the highways, but still kicking off the miles in typical Ford "trouble free" Service **\$85**

1929 Chevrolet Cabriolet — The rumble seat model. She was a honey in her day, and is still able to do a day's work. A bargain at only **\$125**

1930 DeSoto Sedan — The value is in this one. You won't make a mistake taking this one at **\$100**

Texas Livestock Still Moving To Market In Volume

Austin, Sept. 1—Shipments of Texas livestock to Fort Worth stockyards and interstate points continue fully to maintain the wide margin of increase over last year which has been noted in these reports for several months, the University of Texas Bureau of Business Research has reported.

Total shipments of all classes of Texas livestock for July was 120,236 cars, against 2,659 cars last year, an increase of 125 per cent. Cattle shipments amounted to 41,448 cars, an increase of 160 per cent; calf shipments, 869 cars, an increase of 89 per cent; hog shipments, 414 cars, an increase of 4 per cent, and sheep shipments, 498 cars, an increase of 146 per cent.

"As in previous months a large part of this sharp increase in forwarding was destined for the Fort Worth market," the Bureau's report said. "Especially was this true for cattle, calves, and sheep."

GOOD NEIGHBORS

A tale of the good neighbors: Sutton County doesn't have any trouble controlling the liquor business, Deputy Sheriff Cassius Taylor explained here at a dinner given for officers by the State Liquor Control Board.

"We have a dry county on one side and a dry county on another side," he said. "They keep our wet pretty well drained, and so we officers don't have any trouble at all." From Windmill Column—E A Times.

Mrs. Bill Swearingen and sons, Billy Scott and Bobby, are leaving for their home today after a weeks visit with her parents, Mr. and Mrs. Scott Peters.

Mrs. A. W. Jones and grandson, Gilbert Noakes, Jr., left for Corpus Christi Tuesday. Mrs. Gilbert Noakes, Mrs. Jones' daughter, is still at her home in Corpus Christi.

ONLY THE FLAG
 Halfpast against an alien sky,
 A length of bunting slowly waves
 Above the honored dead that lie
 Neath crosses white, in lonely
 graves.

Sever for them the night, the day,
 The bugle call at set of sun,
 Returned to earth insensate clay,
 Life finished, when but just begun
 The friendly greetings on the way
 Familiar fields they loved to roam
 Are lost to them for ere and aye.
 The flag is all they have of home.
 — Mattie Lee Wadsworth,
 Breckenridge, Author of
 Mirage at Dawn

HE LOVED BEAUTY
 My father loved all flowers.
 He spaded the soil, planted the
 seeds,
 With hose supplied the showers,
 Carefully tended, cut out the
 weeds.

The small green shoots came up
 at last,
 Lifted their heads to the sky,
 Love made them grow so fast,
 With promise of bloom by and by.

He sleeps now 'neath the sod,
 Roses bloom o'er his lowly bed,
 He loved all nature so, O God,
 I cannot think of him as dead.
 — May Stevens Isaacs, Canadian

A THOUGHT
 We are of the earth—
 The earth can heal our woes.
 There is no peacefulness like that
 which comes
 From delving in the sod.

We are of the stars—
 The stars can lift our hearts,
 There is no ecstasy like that which
 comes
 From looking up towards God.
 — Josephine Baird, Laredo

Just will, Wisdom and
 Love may rift the dark clouds of
 Unreality
 That overhang mortal life,
 Enshrouding the real with gloom.
 — Margie B. Boswell, Fort Worth,
 Author of The Upward Way

\$40,000 Hambletonian Stakes to "Shirley Hanover"

* First heat of the \$40,000 Hambletonian stakes run recently at Goshen, N. Y., is pictured above with Twilight Song leading the field around one of the turns. An outsider, Shirley Hanover, owned by Lawrence Shepard, upset the dope and won both heats to capture the coveted prize.

Japan Is Topic At Meeting Of Baptist Missionary Society

Members of the Baptist Missionary Society met Wednesday afternoon at the church for a short business session and missionary program. "Japan" was the topic for discussion.

Mrs. J. S. Whatley opened the

program with scripture reading. "Beautiful Japanese" was the topic developed by Mrs. S. L. Butler. Mrs. W. A. Kay discussed the subject, "From Eastern Traditions to Western Civilization." "The Religions of Japan" was discussed by Mrs. I. V. Garrison, and Mrs. Clyde McCaleb talked on "Forty-seven Years of Southern Baptist Missions." "News Flashes from Japanese Baptists" were offered by

Mrs. George Inlow and "Doll Ambassadors" by Mrs. Jim Patrick. Mrs. Whatley and Mrs. Inlow served refreshments.

The next meeting of the Baptist Missionary group will be at the home of Mrs. Will Adams on August 8, for a Bible study.

More power to the Pep Squad. Ozona Drug Co.

JAMBOREE TOAD DIES OF A BROKEN HEART

A Scout from the Concho Valley Council sold a New Yorker a Horned toad at the National Jamboree. The Yonkers Scoutmaster prized the representative of West Texas highly and showed it to all of his friends. He became quite attached to his Jamboree souvenir, which was a constant reminder of the great southwest.

In a careless moment, he left the prized pet on a window with a southern exposure. There the toad died, apparently of the intense heat.

The Scouts of West Texas are quite sure that it was not the intense heat but the longing for the sunshine and mosquito of West Texas that caused his untimely demise.

The New York Scoutmaster was so attached to his pet that he has requested the Scouts in the Concho Valley Council to send him a more sturdy-hearted toad.

Miss Louise Henderson, who has been on a European tour, landed in New York Monday. She will be home in about two weeks after a trip through the eastern states.

Miss Linora Dudley and Miss Jane Longmore of Fort Worth are visiting Mrs. B. B. Ingham and family on the ranch.

Betty Jane Ingham, daughter of Mrs. B. B. Ingham, returned last week from Kamp Kickapoo, at Rockano, N. M., where she spent the summer. She will leave soon to attend school in Fort Worth during the coming session.

FIRST PRIZE
 Super-Duty Frigidaire

Mrs. Ben D. Parker
 of Abilene

(See Photo Right)

Happy but almost speechless was Mrs. Ben D. Parker, 2124 Grape Street, Abilene, when shown the super-duty Frigidaire her entry in the "name-a-housewife" contest had won. "I need it, too," she told Harold D. Austin, who made the presentation. Thoughtful of Mr. Austin, who sells the refrigerator, she obligingly added: "Every woman needs a Frigidaire!"

Advertising Manager
 West Texas Utilities Co.,
 Abilene, Texas.

Dear Sir:

The purpose of the contest that your Company arranged is one that should appeal to every American woman, for it is true that the facilities for the effective management of the home have, within the past few years, become so notable as to remove -- let us hope, forever -- much of the ceaseless drudgery formerly a concomitant of that necessary field. Science and invention, I am sure, will shortly find ways to eliminate the few remaining onerous duties. It is, therefore, indeed high time that the term formerly synonymous with household drudgery be relegated to the limbo of forgotten things.

Accordingly, I have examined with the greatest interest all the entries that you sent me by airmail. I can not be certain, naturally, that any of them would become the one term that will be received by American women as a permanent and acceptable substitute for the outmoded term housewife. I think, therefore, that your plan to offer a selected list of prize-winning terms is the wise procedure, thereby suggesting possible lines which may lead to a term -- perhaps altogether new -- that may be generally accepted.

I regret that a great many of the entries seemed to me altogether too flamboyant and fanciful for even brief consideration. Others, tho the contestants may not have realized it, were terms already employed in our language with far different meanings. Others were altogether dependent upon the correct pronunciation for their significance.

My search for the winner of the contest led me to seek a term that was not only new in every respect, but that would be formed with due regard to etymology and with a recognition of the fact that the chief agency in the relief of household drudgery is electricity. This word I found in Neoelectress, coined by Mrs. Ben D. Parker, of Abilene, Texas.

For second choice, I have selected the entry of Mrs. F. B. Probandt, of San Angelo, whose word is Domestician. My third choice is the entry of Mrs. W. B. Bourland, of Oklaunion, whose word is Homologist. The remaining selections, in the order of my preferences, are attached hereto.

Very truly yours,
Charles Earle Funk
 Charles Earle Funk.

Do you like "Neoelectress"? Neo means new. Elec-t-r-e-s-s has the feminine ending and suggests electricity. Taken together, the word suggests a modern home maker alert to this new electric age. Dr. Funk, in his letter, says "the chief agency in the relief of household drudgery is electricity." Thus, we define "neoelectress" as meaning "a modern woman freed of kitchen drudgery by Electric Servants." The name is being copyrighted with that definition.

The contest was successful because it attracted attention to the improved status of West Texas women. A thousand women specifically said they dislike the name "housewife." However, it is more difficult than we at first thought to find a suitable substitute. But we like "Neoelectress" better the more we think about it. We hope you will. To all entrants we express sincere gratitude for their help. We only wish there could have been prizes enough to go all the way round!

SECOND PRIZE

West Texas Utilities Company

In this column answers will be given to inquiries as to Texas history and other matters pertaining to the State and its people. Address inquiries to Will H. Mayes, Austin, Texas.

Q. What was the first name given the city of Victoria?

A. Mexicans called it Las Sabinas, which American settlers translated into Cypress Grove. The county and city were renamed Victoria by Martin de Leon, the empresario, in honor of Guadalupe Victoria, an assumed name for Juan Felix Fernandez, first president of the Republic of Mexico.

Q. Are all Indian mounds in Texas Indian burial places?

A. Many mounds that are supposed to be Indian burial places prove, when opened, to be kitchen middens, where Indians piled bones, trash, ashes, and refuse of all kinds, which they covered with dirt to keep down offensive odors. Midden is an archaic word to describe these refuse heaps.

Q. Where was the Austin site of the first mansion of the Republic of Texas?

A. The Austin mansion of the Republic was on the block north of the present Seventh Street and east of Brazos, the lofty site now occupied by St. Mary's Academy. The block belonged to the Republic and later to the State until 1854 when it was sold to former governor H. P. Bell, then a member of the U. S. Congress, who bought it at a public sale.

Q. How did St. Mary's Academy acquire ownership of the block on which the school is located at Seventh and Brazos Streets, Austin?

A. The former Governor Bell was given a patent for it when he completed his payment of \$3,500 for it, Aug. 28, 1858, and in February, 1859, sold the block to Francis T. Duffau, for \$5,400, who occupied it as his home. It was bought by D. J. Spillard, Nov. 22, 1882, in trust for St. Mary's Academy, to which Spillard deeded it, Dec. 10, 1886.

Q. How can sawdust, that is now wasted, be utilized to advantage in the building industry?

Scenes and Persons in the Current News

1—Mayor Fiorello LaGuardia of New York shaking hands with Thomas E. Dewey, the young racket-smashing special prosecutor who is running-mate as candidate for district attorney on the Republican ticket with the mayor. 2—Panoramic view of Shanghai's famous Bund which was rocked by explosions of bombs during the attack on the city by Japanese troops. 3—James Mattern (left), famed aviator who flew from California to Alaska to join in the search for lost Russian polar flyers, shown conferring with his navigator.

A. Sawdust from southern pines, hickory and maple, when mixed with certain chemicals, makes an excellent pliable plastic that can be molded into wallboard, floor tile, table tops, and other products at about the same cost level of lumber.

Q. What country was the leading producer of sulphur before the Texas-Louisiana sulphur deposits were discovered?

A. Forty years ago Italy was the chief producer of sulphur, but now more than 75 percent comes from the Texas Gulf Coast section. This is due largely to the practically unlimited supply and to the new methods of sulphur mining, in which superheated water is run through pipes into the sulphur deposits, melting the sulphur and forcing it in liquid form to the surface through other pipes. Texas sulphur, thus produced, is 99 per cent pure.

Q. What was the 1936 petroleum asphalt production in Texas?

A. The U. S. Bureau of Mines places it at 39,994 tons, or 8.5 per cent of the output of the United States. Texas also produces natural asphalt in appreciable quantity.

Q. What is the size of Longhorn

Cavern State Park, and how much of the cavern has been developed?

A. The state park surrounding the cavern contains 2,032 acres. About 8 miles of the cavern has been developed, largely by CCC labor, and reports are that explorations are as yet in the beginning stage, the park and cavern giving promise of becoming one of the most popular resorts of the country.

Q. Where was Camp San Elisario?

A. San Elisario, a former military camp, and now a town on the Rio Grande River about 22 miles below El Paso, between Ysleta and Fabens, was established as a Spanish presidio in 1718, and in 1850 was garrisoned by U. S. troops but was abandoned after a few years and reoccupied by the California Volunteers in 1862.

Q. What was the name of the large pleasure boat on the lake of Austin prior to the destruction of the Austin dam, and what became of it?

A. Ben Hur, the boat being dashed to pieces in the flood on April 10, 1900, that destroyed the dam. The Ben Hur could accommodate several hundred passengers and was the scene of many dances and other brilliant entertainments that attracted people from all parts of Texas.

Q. In what battle did Indians inflict the most humiliating defeat upon white troops?

A. In the Battle of Little Big Horn, in 1876, in which Gen. Custer's U. S. troops were mercilessly slaughtered.

Q. Where does the Pecos River rise, what is its length through Texas, and what is its flowage into the Rio Grande?

A. The Pecos River rises east of the Rocky Mountain range, in Mora County, New Mexico, and flows in a southeast course approximately 260 miles into the Rio Grande near Langtry, Texas. Its

annual flow into that river is 405,000 acre feet.

Q. Where is Lake Nasworthy, what is its size, and for what is it used?

A. Lake Nasworthy is a utility-owned industrial water supply on the Concho River just above San Angelo, with a surface slightly in excess of 1,000 acres and capacity of 10,500 acre feet of water. A contemplated raising of the height of the dam would increase the area of the lake to 10,000 acres and the storage capacity of 200,000 acre feet, the surplus water to be used for irrigating 10,000 acres in the Concho Valley.

Q. What Centennial markers have been placed in San Patricio County and what do they memorialize?

A. There have been four such markers placed in the county, all commemorating the founding of the McMullen-McGloin Irish colony that settled in the county in 1836. These are at Round Lake on "Old Constitution Square," now the site of the San Patricio school house; at the old McGloin home; at the cemetery, and on the west fork of Agua Dulce Creek.

Q. What three persons were most outstanding in the founding of San Saba Mission, near Menard, in 1757?

A. Father Giraldo de Terrero, who was in charge of construction and funds; Don Pedro Romero de Terrero, cousin of Father Terrero, a rich pawnshop owner of Mexico, who financed the undertaking, and Col. Don Diego Parilla, commander of the military troop of 100, and explorer for the site.

Q. What was the size of the San Saba (San Luis de las Amarillas) presidio, and what were its general characteristics?

A. The original walls, of thick, fort like construction, enclosed 12,000 square feet, with a bastion on each of the four corners, barracks, for the soldiers along the north and west walls and stables along the east walls. There were

Mrs. A. W. Jones Studio Of Speech And Dramatic Arts Opens Monday - September 13

In order that pupils may have their schedules completed during the first week of school, I will open my studio of Speech and Dramatic Arts on Monday, September 13.

It has been my rare good fortune during the past six months, through "The Theatre Arts" of New York, to obtain an extension course in Directing, Dramatic Art and Play Production, from the "Moscow Arts Theatre" under personal supervision of the great director, Constantin Stanislavski of Moscow.

Stanislavski knows how, through the printed page, to project his thoughts, experiences and aims, as if one were with him in person. Brooks Atkinson, dramatic critic of the New York Times, says of him: "The Moscow Arts Theatre has created the best acting in the world, because it has been led by those great men who realize that fine acting comes from within, greatest among whom is Constantin Stanislavski."

From Edw. Sheldon, Playwright: "Stanislavski's method does not diminish the miracle of a great performance, but shows the seed and roots from which a great performance springs."

From Porvel Markov, Literary Director, Moscow Art Theatre: "The problems of acting technique are inseparably related to the problems of contemporary culture. Stanislavski's principle is 'not the theatre for the actor, but the actor for the theatre.' Love the Art in yourself and not yourself in Art."

The pupils in Dramatic Art will do group work—not to ex-

ceed eight groups. Two 45-minute periods a week—extra time if new problems arise. These groups will be thoroughly trained in all of the speech arts as well as in the production of plays. Scenes from new copyrighted plays will be given, including: "A. B. Wilderness," "June Moon," "The Last Mile," "Dinner at Eight," "Wednesday's Child," "The Cradle Song," and over 60 other current plays. I have made arrangements for these royalty plays—in part—to be given royalty-free for student actors.

After the first six weeks of study, one group will be presented either in private or public appearance each two weeks.

Private Speech pupils will have two 30-minute periods each week—besides the play production. These pupils will be trained in all Speech fundamentals, reading and monologues. As posture, grace and poise are necessary to any public appearance, all girls above the fifth grade will be given one 30-minute or two 15-minute periods each week in body culture. This will be absolutely required of all girls taking either private or group work.

All pupils under the fifth grade will be given special training in rhythmic expression and dramatization of poems; also stories and story telling.

Group Work—\$5 per month.

Private Pupils—\$6 per month. All tuition in advance unless arranged for at time of registration. Textbook used above sixth grade—"Fundamentals of Expression."

—Mrs. A. W. JONES.

Help yourself to better service...be slow to hang up when calling...be quick to answer when called.

stora-houses about the compound and a tunnel under the south wall to the river for water. At one time about 500 people, mostly women and children, lived within the compound.

Q. Where and when was the first battle fought in Texas in which Indians defeated Spanish soldiers?

A. At Taevayo, near Montague County, in 1759, in which Gen. Don Diego Parilla led 1,000 soldiers and Indian allies on a punitive expedition against Indians of the Red River settlements, only to be met and defeated by well-organized Indian tribes officered by Frenchmen.

Q. What effect has the repeal of prohibition had upon the manufacture of non-alcoholic drinks in Texas?

A. Apparently none, as production and consumption are increasing in about an equal ratio with the state's increase in purchasing power. Texas has more manufacturing plants of non-alcoholic drinks than any other state in the Union, turning out 14,379,000 cases in 1935, and leading all others in quantity production.

Q. Was William B. Travis a member of the convention that met at Washington-on-the-Brazos and adopted the Declaration of Independence, March 2, 1836?

A. He was elected a delegate to the convention, but remained at the Alamo, determined to do all that he could to save his fellow citizens or die in the attempt.

Q. What flag flew over the Alamo during the siege and at its fall?

A. While some historians state that the flag was that of the Provincial Government of Texas (the red, green and white flag of Mexico) with the numerals "1824" substituted for the Mexican eagle, other flags were in evidence and it is probable that, according to the custom of the period, each company floating its own banner.

Q. From what states were the defenders of the Alamo?

A. From Texas, South Carolina, Tennessee, New York, Louisiana, Mississippi, Georgia, Pennsylvania, Kentucky, Massachusetts, and Iowa, as well as from England, Wales, Denmark, Scotland, and Ireland.

Lemmons Dry Goods Co. will be closed all day Monday, Sept. 6, in observance of a Jewish holiday.

Classroom Supplies for School Days

School kids will be back on the job Monday morning, and we extend a cordial welcome to returning teachers and pupils.

You will find us, as usual, with a complete stock of all the needed school supplies — from notebooks to fountain pens.

Buy Quality materials at no higher prices.

Joe Oberkamp

THE REST OF THE RECORD

By James V. Allred
Governor of Texas

Several months ago, when the industrial North and East were paralyzed with sit-down strikes, I issued a statement that we were not going to have any confiscation of property in that fashion down here in Texas. I said I was convinced that the sit-down strike method did not represent the desires of an overwhelming majority of organized labor in our state; and that while I was and had always been friendly to organized labor, it was "un-American and unlawful to sit down on somebody's property and try to restrain it." If a man wants to get a job, or strike, he has a perfect right peaceably to do so; but after quitting, he has no more right to sit down on property or premises without permission than he would have to sit down in a private home uninited.

The people of Texas approved of my statement because it represented the sentiments of an overwhelming majority of them. We haven't had any sit-down strikes in Texas and have had very little labor troubles as compared to other states.

Now another unfortunate situation has developed. Recently in Dallas a man who was trying to show a pro-labor picture in a public park was kidnapped and taken out into the country by a bunch of hoodlums who tarred and feathered him. Another labor organizer was kidnapped and beaten so brutally that he was laid up in the hospital for over a week. Other outrages of a lesser nature were perpetrated and threats were free being made as to what was going to be done with labor organizers.

Everyone concedes that labor has a right to organize and to select organizers and leaders of their own choosing. The freedom of speech and the right to assemble peaceably are guaranteed by both State and Federal Constitutions. The brutal treatment accorded these men in Dallas is indelible. I recall a few years ago when the unfortunate Ku Klux epidemic broke out and many men were taken from their homes at night and flogged because they had violated the laws. The people of Texas

as rose up in their might and took the position that even if a man had violated the law he was entitled to trial in a courthouse and not in a creek bottom. Today it isn't even claimed that the men who were kidnapped or tarred and feathered were violating any law. All that was said by those who perpetrated the outrages was that the men belonged to the CIO. It isn't a violation of the laws of our country for these men to belong to the CIO, regardless of what we may think of that organization.

In my opinion, it is just as important to protect people from outrages of this kind as to prevent the taking of property from the rightful owners by the sit-down strike or other unlawful method. Because I didn't want to see the thing get started again in Texas I immediately sent twenty-five members of the State police to Dallas with instructions to protect men in their right to speak freely and to assemble lawfully. These officers are instructed not to take sides in any controversy but simply to prevent violence on either side.

I was surprised to get a bunch of inspired telegrams apparently approving the treatment given these organizers, they were members of the CIO. I don't care to what organization they belong. If they violate any law they ought to be prosecuted for it; but no set of men has the right to take the law into their own hands and kidnap, or beat, or tar and feather, these men. I think the people of Texas are backing me up in this stand.

Since the State police went to Dallas these troubles have practically ceased. I am very hopeful that the situation will adjust itself without any further trouble.

I really wish the general public could know in detail the many fine things that have been accomplished by the Public Safety Department. I am particularly proud of the intelligence branch. In this division we have fingerprint, handwriting and ballistic experts. This has been a great help to local officers everywhere and, of course, has materially assisted the state in dealing with the more hardened type of criminal.

Just as illustrative of what has been done in the one field of ballistic work: As perhaps most of you know men from this department can take a bullet that has been fired and trace it to the gun that fired it by markings on the bullet. They have done this in many instances and solved cases that might otherwise have gone down as "perfect" crimes.

For instance, recently in one Texas town a man was murdered at night as he slept. He was not robbed and officers were at a loss for a motive. They did, however, find shotgun shells of a certain type. They picked up every gun of this caliber in the little town and fired some test shells from them and sent these test shells together

with the ones found on the ground in Austin. The fired shells from each gun had been numbered and the experts in the Public Safety Department shortly advised that the shell with a certain number on it was from the same gun as that which fired the shells found at the scene of the crime. It was no trouble to trace the ownership of this shotgun and it led to a negro in the community who promptly confessed the crime. This is just one of a number of similar cases that illustrate how

quickly the department can assist your local officers.

Some time ago I had occasion to use the handwriting experts. The State of Illinois had asked for extradition papers on a prominent citizen of this state on a charge of forgery alleged to have been committed in Illinois. The notary public who took the acknowledgement in Illinois identified this citizen and in an affidavit asserted that he had seen him sign the instrument in question. While I was hearing the case I had the hand-

writing expert from the Public Safety Department to go over the alleged forged deed and compare it with samples of the defendant's handwriting; and before I could close the hearing these experts reported to me that without any question the defendant had not forged the deed. You can imagine how grateful these people were to our Department of Public Safety for the service, which cleared the name of a good citizen of Texas.

A Safety Tip FOR YOUR Labor Day Trip

TAPPING RUBBER TREES ON FIRESTONE PLANTATIONS IN LIBERIA
From the Firestone plantations in Liberia comes an ever-increasing supply of the world's finest rubber. Money saved here and in manufacturing and distribution enable Firestone to sell a safer, best-quality tire at lower prices.

Here's Why FIRESTONE STANDARD TIRES GIVE YOU MORE FOR YOUR MONEY

DON'T take chances on your Labor Day trip. Protect yourself and family by equipping your car with a set of new first-quality Firestone Standard Tires. Firestone builds extra quality and extra safety into these tires and sells them at lower prices because Firestone controls rubber and cotton supplies at their sources, manufactures with greater efficiency and distributes at lower cost.

YOU GET EXTRA PROTECTION AGAINST BLOWOUTS—eight extra pounds of rubber are added to every 100 pounds of cord because every fiber of every cord in every ply is saturated with liquid rubber by the Firestone patented Gum-Dipping Process. This counteracts the internal friction and heat that ordinarily cause blowouts.

YOU GET EXTRA PROTECTION AGAINST PUNCTURES—because there are two extra layers of Gum-Dipped cords under the tread.

YOU GET EXTRA PROTECTION AGAINST SKIDDING—because the tread is scientifically designed.

YOU GET LONGER NON-SKID MILEAGE—because of the extra-tough, long-wearing tread.

You need all of these features to make your car tire-safe on your Labor Day trip. Firestone gives them to you at lower cost. Join the Firestone SAVE A LIFE Campaign today by equipping your car with a set of new Firestone Standard Tires—today's top tire value.

DON'T RISK YOUR LIFE ON SMOOTH WORN TIRES!

DO YOU KNOW THAT last year highway accidents cost the lives of more than 38,000 men, women and children? THAT a million more were injured? THAT more than 40,000 of these deaths and injuries were caused directly by punctures, blowouts and skidding due to smooth, worn, unsafe tires?

Sound Local Banking
—helps the Community and the Nation
NO one understands the business needs of his Community so well as the banker who lives and does business there. At the same time he keeps informed as to national business developments and their effect on local conditions. No one is more deeply interested than he in the success and prosperity of his neighbors, for their business welfare means safe, lucrative employment for his loanable funds.
This bank, typical of the American Banking System, is a constructive force in the business life of this Community. It is engaged with many of its neighbors in playing a part in the nation's business by capable management of local enterprise. We invite more of our neighbors to come and discuss their plans with us.

NEWS NOTES

From The Soil Conservation
And County Agent's Office

By C. J. Van Zandt
County Agent

Receipts are to be required on all work completed under the range program. The exact measurements of land put under improvement practices is not as important as a statement or affidavit to the effect that the money has been paid by the rancher and received by the contractor for a stated number of acres.

Starting work now on the 1938 program will not be permitted until further instructions have been received. Some ranchers who have completed the allowances for 1937 have asked for permission to start work now under next year's program. Instructions on this point must come from state authorities.

Compliance or performance receipt blanks have been received by the local office and will be filled out as soon as range inspector's reports have been sent in and approved. Many of these reports have not yet been signed by ranchers and can not, therefore, be sent in. Quotas will not be determined until these reports are in. The receipt forms make no demands on the land owner nor tenant, nor do they in any manner encumber the property. They contain a simple statement that the specified improvement practice has been carried out in accordance with approved methods.

Inspection or re-check work in this county has been approved by W. E. Friend, Jr., state re-check man.

The county agent will attend a meeting of all county agents of the state to be held at the A. & M. College all next week.

Local offices of the county agent and soil conservation officials have been moved into new quarters in the courthouse. Offices are now located in the room formerly occupied by Dr. J. A. Fussell.

Rev. and Mrs. Eugene Slater are in Kerrville this week on business.

We're pulling for the Lions and the Pep Squad. Ozona Drug Co. 1

Becomes Bride Of Ozonan Sunday

Above is Miss Mary Geniece Hardberger, daughter of Mr. and Mrs. R. E. Hardberger of Lubbock, who will become the bride of Pleas L. Childress, Jr., of Ozona in a wedding ceremony to be solemnized at 5 o'clock Sunday afternoon in the Presbyterian Church at Lubbock. Mr. and Mrs. Childress will be at home on the ranch north of Ozona following the wedding trip.

Stuart Gets—

(Continued from Page One.)

Stuart will be back in time to take part in the Permian League play-off series. In the event Crane drops one of its three remaining games, throwing the championship to Iraan, he will leave the Dallas team two days ahead of the close of its season in order to be here for the play-off openers Sept. 11 in the event a play-off series is necessary between Iraan and Crane, however, he will remain until the twelfth to see the Steers through.

Crane Still—

(Continued from Page One.)

awarding the Iraan team a game played August 6 against the Ozona-Sonora team.

Iraan protested the Ozona-Sonora win on that date on the ground that the umpire allowed the tying run to come in in the last half of the ninth inning on a "balk" called on the pitcher in violation of the rules. The ball had been fouled from the park and a new ball had not been thrown out to the pitcher. The pitcher, Manager Sam Gray himself, unable to attract the attention of the umpire and catcher, stood on the mound and waited. Finally, the conversation behind the plate ended and the umpire called "play." Having no ball, Pitcher Gray indulged in a bit of horse play, winding up as if to throw. The umpire called a balk and Carl Dorley, on third, was allowed to score the tying run.

President Lee quoted the rule which states that a ball hit foul and not caught is dead, and play is suspended until the ball is returned to the pitcher. On that ground the game was awarded to Iraan.

The present standing of the clubs is as follows:

	W	L	Pct
Iraan	10	4	.714
Crane	7	4	.634
Texon	6	6	.500
Ozona-Sonora	6	7	.462

'Housewife'—

(Continued from page 1.)

comitant of that necessary field. "My search for the winning name (neoclectress) led me to seek a term that was not only new in every respect, but that would be formed with due regard to etymology and with a recognition of the fact that the chief agency in the relief of household drudgery is electricity."

Winner of second prize in the contest was Mrs. F. B. Probandt, of San Angelo, who entered the word "domestician." Third place was awarded Mrs. W. B. Bourland of Oklaunion, with the entry, "homeologist." Decisions of Dr. Funk also were based on letter explaining usage of words.

Mrs. Parker's reward for her first place entry will be a super-duty Frigidaire; Mrs. Probandt receives her choice of a Hotpoint electric dishwasher or a Thor washing machine; and Mrs. Bourland will be presented with a Sunbeam Mixmaster.

Honorable mention and choice of smaller electric appliances will go to ten women; Mrs. Lee White, Dalhart; Mrs. O. R. Bodeen, Childress; Jane Yeager, Rochelle; Mrs. R. C. Roberts, Vernon; Mrs. W. N. Pipkin, Matador; Mrs. S. G. Jones, Abilene; Mrs. J. Dexter Eoff, Ballinger; Anna Mick, Mason; Mrs. R. H. Bounds, Stamford; and Mrs. R. R. Trimble, San Angelo.
