POWELL FIELD SCHOOL TO BE DISCONTINUED

Board Takes Action In Meeting Held Here Saturday

BUS IS PURCHASED

Pupils To Be Transported To Schools In Big Lake

Abandonment of the Powell field school, which has served residents of the oil field section in the northwest part of Crockett County, effective with the opening of the new term in September, was decided upon at a joint meeting of the county and district school boards held in the courthouse here Saturday.

Pupils formerly served by the Powell field school will henceforth be enrolled in the schools of Big Lake under an arrangement perfected by school officials of Crockett and Reagan Counties.

An order for a school bus in which pupils of the oil fields area will be transported to the Big Lake schools was placed by the joint meeting of the school boards Saturday and will be delivered in time to be put in service with the opening of the new term.

The bus, a 1937 Chevrolet with 33 1/2 inch wheel base, with heavy duty tires, all metal body and safe glass throughout, will be delivered through North Motor Co. of Ozona, Chevrolet dealers. The bus has a carrying capacity of 22 pupils and the delivered price is \$470.

Under the agreement with Reagan County school officials, pupils of this county enrolled in the Big Lake schools will be accepted tuition free with payment by Crockett County of the amount of the state per capita apportionment for the new year, which will be 25% or more, according to present information.

Paul Perner was appointed by the joint school board session to have charge of the purchase of the new bus and setting it up in operation. Mr. Perner will receive bids for the position as driver of the bus and will make necessary plans for picking up children in the area each morning and their delivery in the afternoons. One driver application has already been received.

The Powell field school had an enrollment of sixteen pupils last year. However, several additional pupils living in the area served by the school, attended Big Lake schools last year. Mr. and Mrs. I. N. Adams, who had taught the school several years, resigned at the end of the term last Spring and have accepted positions in the Barnhart system.

VISIT BRITISH COLUMBIA

Mr. and Mrs. Sol Jones and family have just returned from a 6,000-mile vacation trip to California and into Canada and British Columbia. They spent several days in Victoria, B. C., and were impressed with the friendliness of the people and the beauty of the city and surrounding scenery. They were gone three weeks.

Mr. and Mrs. George Adamson and Mr. and Mrs. H. T. Rutledge left Sunday for Alabama, where they will visit with relatives.

Miss Gladine Powell is here from Colorado, Texas, for a vacation visit with her parents, Mr. and Mrs. R. F. Powell. Miss Powell, her mother and her grandmother, Mrs. J. F. Powell, spent a few days last week visiting relatives in Coryell County.

Pascal Northcutt is a business visitor in San Angelo today.

Mr. and Mrs. Wayne West and children left this week for a tour of Yellowstone National Park and other points of interest in the area.

Ozonans Contribute Valued Collection To School Museum

A large collection of arrow heads, an historic cap and ball and several interesting relics of early day travel along the Old Spanish Trail through this section are among articles placed on display recently in the Ozona High School museum, the material loaned through courtesy of Joe Pierce and Ernest Sparkman.

Some 150 arrow flints, ranging in size from the smallest bird arrows to large knives, and another collection in a glassed panel compose the arrow collection. A cap and ball pistol which was used by Mrs. Pierce's father is among the most interesting relics in the collection. A spur, probably of Spanish make, with a metal band, a hand-wrought rocking bolster clamp and metal hub sleeve from an old government wagon, and the breech part of a flint lock rifle with the flint still in place, all found on the Old Spanish Trail through the Pierce ranch south of Ozona, and a number of Indian beads found in caves there are included in the collection, which has been placed in an individual show case.

Cooler Breezes, Promising Clouds Bring Heat Relief

Rains In Abilene Area Serve To Lower Temperatures

After sweltering in temperatures that hovered at and beyond the hundred mark the last few weeks, Ozonans took on new hope this morning as they awoke to find cloudy skies and cooler breezes.

The cooler atmosphere came about as a result of rains in the Abilene section and in the Panhandle. Rainfall in these areas was reported light but highly beneficial to crops and helpful in dispelling the excessively high temperatures that have prevailed recently.

Range lands in this area, dried out in recent hot weather, is beginning to need rain badly, ranchers report, but feed is still good and livestock is not suffering. Confidence in prospects for moisture this month returned with this morning's promising clouds.

AUTO SALES UP

A barometer of better business conditions in Crockett County is the report of the Stevens Motor Co., local Ford dealers, of the sale of nine Ford units within the last ten days, a record of nearly a car a day.

Mrs. Walter Kyle spent the week end in McCamey, where she visited her son-in-law and daughter, Mr. and Mrs. Chalmers Broadfoot.

Coach White, Sojourning In Mexico City For The Summer, Writes Optimistic Note On Ozona High 1937 Gridiron Prospects

From the land of "poverty, beauty and plenty" as the coach himself expresses it comes the first note on the 1937 Ozona High School football campaign.

Coach White and "Madama" are sojourning the summer in Mexico City, where both are taking special work in the University of Mexico.

"I hope to run up to San Antonio and get in on a coaching school before coming out," Coach White writes. "As the time approaches for the season to open, I am becoming more optimistic. With the other fellow to help out, we should see a surprising improvement. The boys seemed to be rather enthusiastic in the Spring too."

That from down in Old Mexico on the football situation here, and no doubt more will be said on the subject a little later. The "other fellow to help out" will be Jake

Iraan Tightens Grip On PB Lead With Double Win

Leaders Smack McCamey; Crane Bowls Over Texon

The Iraan Oilers, riding high atop the Permian Basin League second half struggle, drew up the cinch a little tighter Saturday and Sunday and walloped the lowly McCamey Macks for a double thumping to grab a tighter hold on the league top rung.

Meanwhile, the Crane Gulfers shook off competitors with whom they were tied up for second place to grab undisputed possession of the "next" position by taking two from Roy Gardner's Texon Oilers. The Ozona-Sonora aggregation, winners of the first half title, remained stymied at 500 by virtue of being idle the week-end.

The standings after last week's struggles:

	G	W	L	Pct
Iraan	8	6	2	.750
Crane	8	5	3	.625
Ozona-Sonora	6	3	3	.500
Texon	8	3	5	.375
McCamey	8	2	6	.250

Schedule

Saturday: McCamey at Crane; Ozona-Sonora at Iraan. Sunday: Crane at McCamey, Iraan at Sonora.

Pipe Line Station Nearing Completion

The new Texas Pipe Line Pump Station being built about five miles west of Ozona is nearing completion. Five cottages to house the crew of workmen who will be in charge of operation of the station, are being built.

One of the two big Diesel engines with which the pump station is to be powered, has already been installed and the other is now being installed. Preston P. Brooks, construction engineer in charge of construction work at the station.

PAST CONTRACT DEPTH

Superior Oil Co., and others No. 1 Massie unit test on the Todd ranch in this county had drilled past the contract depth of 7,500 feet this week and was still drilling in gray lime. No shows had been reported in Ordovician formations.

STARTS STATE WORK

Mr. and Mrs. W. E. Friend, Jr., left this week for Alpine for the start of a tour of inspection of Soil Conservation operations in the territory assigned Mr. Friend. Mr. Friend was recently appointed a state re-check man in the conservation program. E. B. Baggett, Jr., has been named to succeed Mr. Friend as local range inspector under the Soil Conservation program.

McCulley, star athletic from Daniel Baker College, who will succeed Wallace Myers as principal of the Mexico school and assistant High School coach. McCulley lettered three years in football and basketball and two years in track at Daniel Baker. He was picked for all-conference forward in basketball two years.

Coach White, in his letter, describes a severe earthquake experienced recently in Mexico. "The lights swayed about enthusiastically, the walls rocked backward and forward, as much as eight or ten inches, and a telephone pole out in the front yard waved like a wheat straw standing alone in a breezy field," he wrote. The description concluded with, "It was about the most enjoyable and amusing thing that has happened since we came to the land of bare feet and cathedrals."

New Teachers For Ozona Schools

Miss Dorothy Spain of Bowie, Texas, and Eugene Hollon of Comanche, Texas, were appointed to the faculty of Ozona school system last week to complete the teaching staff of the local schools for the 1937-38 term opening next month. Miss Spain will teach the second grade, succeeding Mrs. Henry Smith, who was Miss Frances Northcutt until her recent marriage. Mr. Hollon succeeds Rex Johnston as grade school principal and Junior High athletic coach.

That Fish Was, O-o-o-o, That Long!

The "big ones" didn't get away from a quartet of Ozona fishermen on a trip to Devil's River the past week. The party returned with the "evidence" in the form of about 200 pounds of fish early this week.

Composing the party were Bob Weaver, Charley Butler, Buster Augustine and Howard Capps. The biggest catch of the trip was a yellow cat weighing fifty pounds. Another weighed forty, two balanced the scales around thirty and others were from twenty on down.

The story gets worse as it goes along. Not only were two and three pounders and smaller "used as bait," but fish that were taken from lines "skinned from gills to tail" as the big ones tried to swallow the smaller fewwols afool the fisherman's hook.

Crew Moving In For Deep Test On Perner Land

Loffland Bros. Drilling Co. To Sink Ordovician Test

Crews of Loffland Bros., Tulsa drilling contractors, were moving in this week in preparation for spudding Moore Bros. No. 1 Perner, scheduled Ordovician test to be drilled on the Paul Perner ranch in this county. About fifteen men, ten or twelve with families, are expected to move in for the operations. Ben Barlow, who has already established residence here, is head tool pusher for the drilling contractors.

Moore Bros. Corp. of Midland will drill the Perner test to a contract depth of 8,000 feet unless production or sulphur water is encountered at a lesser depth. Location is in the center of the north west quarter of section 37, block 2, I&GN Ry. Co. survey on a farm-out from the Standard Oil Co. of Texas.

Cramped housing conditions here is making it difficult for these new residents to find living quarters. However, efforts are being made by business men and other residents to hunt down all available rooms and apartments and they are being placed as they arrive.

MOVING TO TERRELL

Miller Robison, who has been ranching on his father's place north of Ozona, is moving this week to the Robison ranch in Terrell County, near Sanderson, where he will be in charge of operations. Mrs. Robison is staying here this week while Mr. Robison is having repair work done on the ranch house preparatory to moving his family there.

Walker-Robison Wedding Rites Here Saturday

Ozona Girl Becomes Bride Of Oklahoma Man

The impressive double ring ceremony, performed in the Church of Christ here Saturday morning by the Rev. Luther G. Roberts, minister of the San Angelo church, united in marriage Miss Blanche Robison and Clifton Walker.

The bride is a daughter of Mr. and Mrs. P. T. Robison, Crockett County ranch couple. She was given in marriage by her father. Her bridal gown was lace over satin in princess style, with a train. The long illusion veil was fastened with orange blossoms to a cap of lace with a halo of seed pearls. She carried shell pink roses and lilies of the valley, and wore an heirloom brooch as ornament.

Miss Totsy Robison, only sister of the bride, as maid of honor wore yellow chiffon and carried a bouquet of talisman roses. Miss Carolyn Montgomery, bridesmaid, wore orchid chiffon. Her bouquet was of yellow roses. The bride's mother wore black chiffon with a corsage of pink roses.

R. V. Hardegree of Winters acted as best man. Miller Robison, the bride's brother, and Eugene Miller a cousin, were ushers. The altar was decorated with greenery and large baskets of gladioluses. White tapers burned in flood candelabra.

Mrs. Earle Chandler sang "All For You" and "I Love You Truly" before the ceremony. Mrs. Neal Hannah accompanying. Mrs. Hannah played the wedding march and "Traumerie" during the ceremony.

After the nuptial rites, a reception for close friends and members of the wedding party was staged at the home of the bride's parents.

Mr. and Mrs. Walker left during the reception for a wedding trip, after which they will make their home in Lueders, where Mr. Walker will teach next school session.

Mrs. Walker is a graduate of Abilene Christian College, class of 1936. Mr. Walker, a son of Artie Walker of Carter, Okla., is also an ex-student of A. C. C.

Out-of-town guests here for the wedding were Mr. and Mrs. W. D. Burke and Mrs. Benton Teal of Mertzon, Mr. and Mrs. Claude Owens of Fort Stockton, Miss Evelyn White of Brownfield, and Miss Marie Wills of Killeen.

Mrs. Helen Taylor has returned to her home in Houston after a visit here with her mother, Mrs. W. H. Augustine.

Miss Ethel Childress has returned after a visit with friends in Houston.

MORE LAMBS SOLD HERE AT 8-CENT PRICE

10,000 Head Bought By Gibbons Bros. During Week

MARKET HOLDS UP

Demand Still Strong Over Area For Feeder Orders

The lamb market in West Texas continued strong during the week, with additional sales at the 8 cent price level, established last week reported, and additional reports of refusals by some ranchmen with choice lambs of offers of 8 1/4 and 8 1/2 cents a pound.

Gibbons Brothers of Richland Spring, Texas, bought an approximate 10,000 head of Crockett County lambs the past week at eight cents. Sellers were Hillery Phillips, Tom Smith, Judge Montgomery, Stephens Perner, and Bob Bissett. The sale was for September delivery.

Although the excessively hot weather the past few weeks has dried out the range considerably, feed is still good throughout this county and growers are still in a commanding position. Rain would be most welcome in the month of August, but most ranchmen in this area declare that with the range in as good condition as it is now, lambs will deliver out of this section in fine condition in September with little or no additional moisture.

Party Planned As Opening Feature Of Piggly Wiggly

Hubert Baker Stages Formal Opening Friday and Saturday

A week-end "party" will be a feature of the formal opening plans of Ozona's new Piggly Wiggly grocery store, which will be formally opened for business Friday morning.

The new business is being opened by Hubert Baker, salesman the past sixteen years for Martin-Glover wholesale grocery of San Angelo, who recently purchased the Flowers Grocery. Mr. Baker took charge of the business with the end of the selling period Saturday and the store has been closed all week while new fixtures are being installed, the interior refinished and rearranged and new stock placed in the shelves.

Mr. Baker is sole owner of the store, adopting the Piggly Wiggly franchise for the sake of the convenience afforded by the system in serving customers and other advantages to the connection, he announced. The store will be operated much along the same lines as it was under Mr. Flowers' management. Mr. Baker said, with plenty of clerks to assist customers in shopping and individual service in serving the trade.

The stock of the store has been brought to full capacity with purchase of a full line this week. The store will open with a complete new, fresh stock.

The opening days party will include serving of free sandwiches to all store visitors. A cordial invitation is extended people of this section to visit the store on these two days and to get acquainted with the new manager and the new system. A list of opening-day specials is carried in the Piggly Wiggly ad in this issue of The Stockman on page six.

Hubert Baker, owner of Baker's Piggly Wiggly grocery, which opens formally here Friday morning, with Mrs. Baker and their daughter, are making their home temporarily with Mr. and Mrs. Will Adams, aunt and uncle of Mrs. Baker.

THURSDAY, AUGUST 5, 1937

159 DEAD IN JUNE IN TRAFFIC ACCIDENTS

Nearly 50% of the drivers involved in fatal accidents have no one to blame but themselves! Figures compiled by the Department of Public Safety for the month of June show 142 fatal accidents resulting in 159 deaths.

Again the demon SPEED ruled supreme.

Half of these deaths were non-collision and fixed object wrecks caused by speeding and reckless driving, losing control of the car and plunging off the road. Cars crashed into culverts and fences, and draped themselves around trees; often sending the driver or one of his passengers through the windshield to be picked up by an ambulance a crushed, mangled, inert heap. In several cases hours elapsed before the tragedy was discovered.

The temptation to relax and let the car loose on a good road when there is nothing in sight is hard to resist. Skid marks measured by patrolmen tell the story all too well. An unexpected curve, a wheel off side, a sudden swerve and it is too late to do anything about it.

It is no longer considered smart to be able to brag over how short a time one took from here to there. This type motorist is considered not only a bore, but a public menace. The smart driver is the careful driver!

Camp Fawcett Open To Concho Scouts

Scouts in the Concho Valley Council are looking forward to the summer session at Camp Fawcett starting August 8th.

Camp Fawcett is located near Barksdale on the Nueces River. It has been used as a camp ground for Scouts and other youth organizations for a good many years. It is ideally located for a Scout camp. Low mountains lie in every direction of the camp and nearby caves are an interesting feature.

Scouts from the southern part of the Council will be joined by Scouts from the northern section for the three weeks camp session. The program will be directed by Scout leaders from the Val Verde, Winter Garden and Uvalde Districts. Sterling P. Fly, superintendent of Crystal City Schools, has been invited to be Camp Director. He will be assisted by Field Executives Fredrik E. Isely and L. M. R. Rogers. Others on the camp staff will include Vern Leonard, who will teach archery, Bill Hixon, Camp Doctor and marksmanship, John Pike, leathercraft and camp kinks and Bill Cleghorne, waterfront director. The same cook for Camp Fawcett, experienced camper, will be selected to make up the Junior Staff.

Mr. Getzendaner, Chairman of the Board of Trustees at Camp Fawcett, reports that the camp has been in use a good part of the summer by 4H Club and Scout organizations from other Councils. The Scouts from the Comanche Trail Council with headquarters at Sweetwater are at camp 159 strong this week. The camp is being directed by A. J. Stiles, Scout Executive.

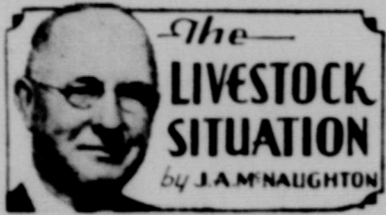

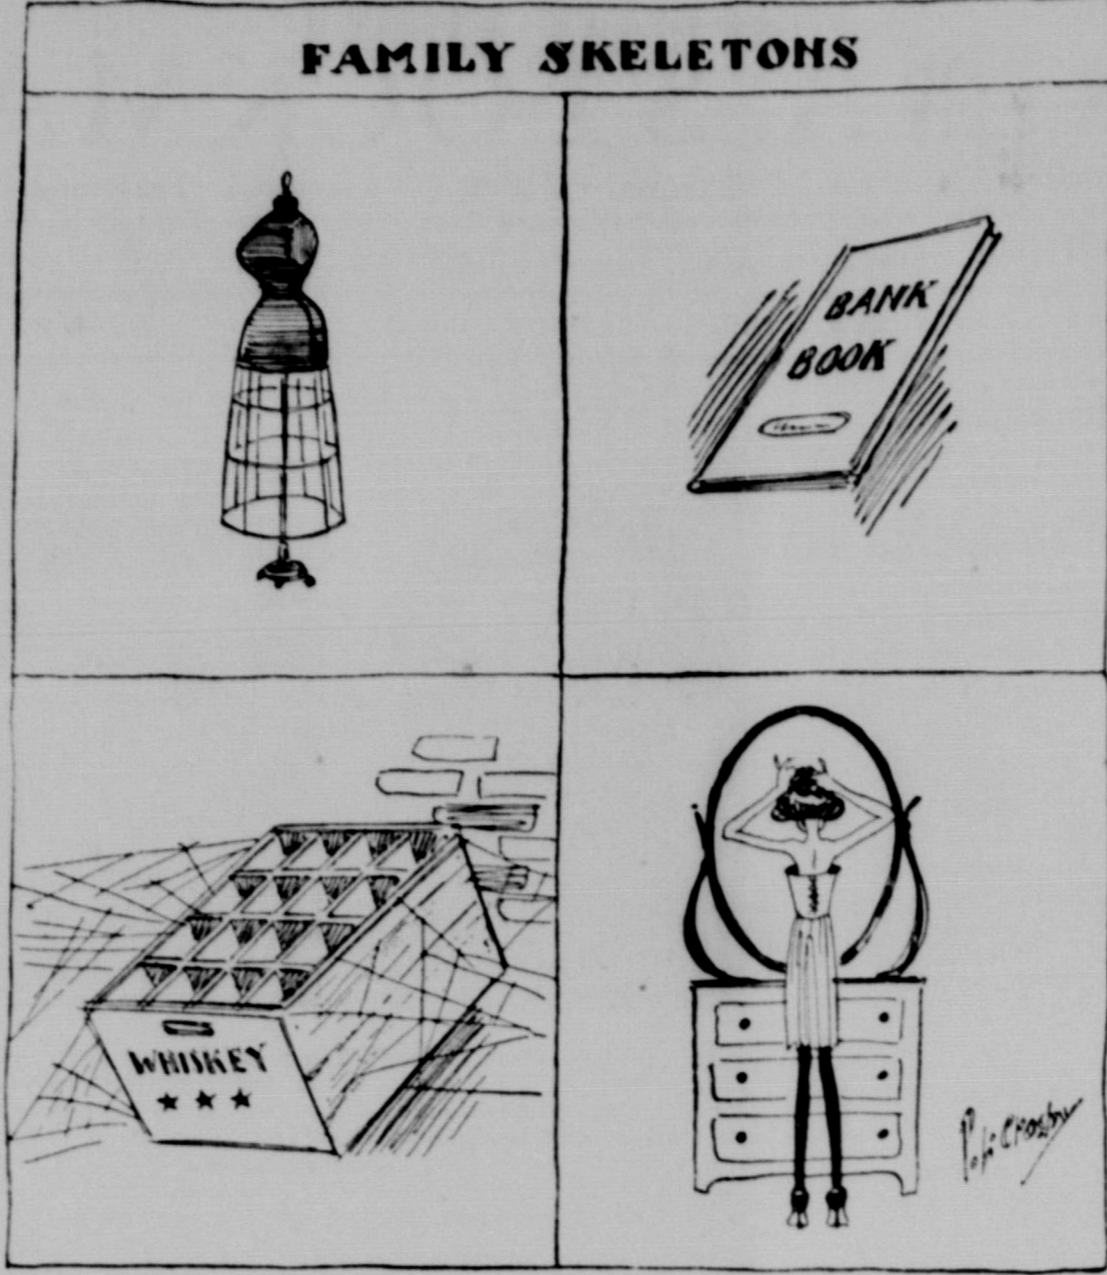

Save on lawn furniture at Joe Oberkamp's this week.

Barbara Bowers, 8-year-old daughter of Mr. and Mrs. John Bowers, has been seriously ill during the past week.

FAMILY SKELETONS

The LIVESTOCK SITUATION by J.A. McNAUGHTON

Los Angeles Aug. 4—With cattle prices now \$2.50 to \$3.00 per cwt. higher on the Los Angeles market than a year ago, the undertone of the cattle trade is regarded as very firm by members of the trade. Cattle markets all over the country are in very strong position and prices are generally right around the levels attained in the late twenties. With every indication of a bumper corn crop in the middle west this year, it is expected that farmers will compete actively with packers for available supplies of cattle. With this idea in mind, many observers believe that the fall markets may even be higher than the present summer levels.

Middlewest cattle feeders are already looking out in the far west for replacement cattle to go into their feed lots. It is reported that a good many Kansas grass cattle have been contracted by feeders at \$12.00 a cwt. Despite predictions of lower feed prices in the fall when the corn harvest gets underway, many market observers are of the opinion that feeder cattle prices are on a dangerously high level. They look for greatly increased marketing of fat cattle in the early months of 1938 and a probable decline in prices.

On the other hand, there are many who view the cattle market with a strong degree of optimism. They point out that business and industrial conditions over the country are very favorable and of course, this means greater consumer buying power. They argue

that if the rank and file of consumers have the money with which to buy, there is little danger of a burdensome supply of fat cattle next year.

The country is consuming a tremendous tonnage of beef. The slaughter of cattle under Federal inspection in June of this year was 11% above the five year average and the second largest number of cattle in all history were slaughtered under Federal inspection. The slaughter of calves was the largest on record during June. That this tremendous amount of beef has been absorbed by retail trade gives rise to the impression that the market is on a strong foot ing.

Of course, one of the factors that makes it possible to market a tremendous volume of beef at satisfactory prices, is due to the shortage of hogs. Government estimates call for a lighter marketing of hogs this fall than a year ago which means a light crop for the market next spring. Thus continuous light supplies of pork seem inevitable and there are many who believe that the 1938 cattle market will be on a satisfactory footing despite high cost of feeder cattle.

The southwest range cattlemen are looking forward to satisfactory prices for their calves and yearlings this fall. They look for strong competition between Pacific Coast cattle buyers and the middle west, and the likelihood of the highest scale of stocker and feeder cattle prices in many years. Reports from the southwest country indicate that cattle are in good condition but in most sections rain is badly needed to assure a good crop of fat calves and yearlings in the fall. The intermountain country is in excellent condition and a good many fat cattle

are expected to start moving out of that section within the next thirty days. Probably a good many of these cattle will go into feed lots.

With cattle and hog prices at the highest level since 1929, the western livestock industry is in prosperous condition.

Dress up your lawn now with new, modern lawn furniture at money-saving prices. Turn to Joe Oberkamp's sale announcement—Page 3 this paper.

The Poetry CORNER Edited by Elsie Parker W.M.T. TARDY. This column consists of Southwestern poetry. Contributions welcomed. Enclose return postage. Address: W.M.T. Tardy, publisher, Liberty Bank Building, Dallas.

HE IS A POET

(To Hilton Ross Greer) And to be a poet is no single thing To look deep into one's own heart and write The music for its surging words—to sing Them ever clear and true—to lift the white Flaming torch of passion that will burn Like some high beacon on a windy hill Long after the hand has failed, when at some turn The voice of the singer suddenly grows dim.

To be a poet is no easy thing: To speak authentically that others may Become aware that a hand has reached to fling Their hearts' door wide, and startled, each will say: "I, too, am a poet—I have known for long That burning flame—the substance of the song!" —Grace Noll Crowell, Dallas Poet Laureate of Texas

EARTH COLORS

I cannot wear Thy colors, Lord. Here on the earth. But there awaits extravagance With never dearth Of changing color hung for me, Lord, in Thy house. No drab, nor dun of mole, No gray of mouse, But apple green and morning pink Sea blue, sun red, The smoky purple of the hills, Gold of bee-bread, In ranks and rows! No paradise It were, unless

Thou give Thy children Their daily dress! —Sunshine Dickinson Houston, author of Moon

ECSTASY The flowering peach tree fruit: It only has a flower: But, oh! what joy to give the world Such beauty for an hour! —Minnie Roberts Dreesen las, author of Green Dues

State College for Women

Name Please?

August 4 — The first telephone exchange was opened in Galveston, August 21, 1879, at Galveston. Anyone who used the phone for his party by name, not number. In 1883 the first long distance line was constructed between Galveston and Houston. According to 1935 figures, there are 1,135 exchanges over the state and 553,928 telephones.

Texas Silver Mine

Although Texas does not contribute much to the gold supply of the nation, from the little town of Silverton comes \$300,000 to \$400,000 worth of silver annually. The mine, which is located in the Permian section near the Mexican border, has been in operation since the middle of the 19th century. It was closed in 1930 to 1932, but has been operating regularly ever since.

Speaking of Harvests

Over a million dollars worth of peanuts! That's a lot of money to be made with the often-scorned "peanut," but the 134,550,000 bushels of peanuts produced in Texas in 1935 are valued at that amount. The peanut crop is centered in Eastland, Brown and Comanche counties and branches out to the East Texas and west cross-timber belts.

Practical Cookery

Dept. Home of Economics
State College for Women

August 4 — Meal planners are usually tearing their hair out this time of the year, when almost every kind of summer dish has already been presented to the family and the weather refuses to demand more of the type of menus. Yeast breads are a way out of the difficulty. They can vary any meal a great

Glenn Martin (upper right), last of the still active trail-blazers of aviation, built Pan American Airways' famous Pacific flying boats like the China Clipper (center). He is now at work on a ship five-times bigger, designed to ferry the story of how Martin started building airplanes soon after the first planes. At the left, Martin is "gassing up" one of his first planes.

Yeast Bread
(1 lb. loaf or 24 rolls)

1/4 c. lukewarm water, 1/2 c. compressed yeast cake, 1 c. hot milk and water, 2 t. sugar, 1 1/4 t. salt, 1 to 3 t. shortening, 3 c. or more of flour. Soften yeast with lukewarm water, pour hot liquid over sugar, salt and shortening. If milk is used, scald it. Cool liquid to lukewarm temperature before adding yeast. Add yeast and flour to make stiff batter and beat well. Add enough more flour to make firm but not stiff dough. Knead until light and elastic and until dough does not stick to board (15 minutes).

Place in lightly greased bowl. Keep between 80 to 85 F. When doubled in bulk, let rise again to double bulk. Cover. Shape into loaf or rolls, grease top lightly. Let rise again to double bulk. Bake in moderately hot oven (45 to 60 minutes for loaf). Cool.

Orange Rolls

Use the yeast bread recipe given above, using maximum shortening and sugar. Add 1 egg and 1 t. grated orange rind. Substitute 1/2 c. orange juice for part of the liquid. Make in same shapes as yeast bread.

Sweet Orange Rolls

Place a lump of sugar dipped in orange juice in the center of each roll just before baking.

Sweet Yeast Bread

1 c. scalded milk, 2/3 c. of butter or substitute, 1/2 c. sugar, 1/2 yeast cake, 3/4 c. whole eggs or 1/2 c. whole and 1/4 c. yolks, 1/2 t. lemon extract, 4 3/4 c. flour. When milk is luke warm add sugar, fat, salt, and yeast cake, eggs, and enough flour to make a stiff dough. Knead well and set in warm place to rise. When double in bulk mix and let rise again. When double in bulk knead and shape into Swedish Braid, Tea Ring or Hot Cross Buns.

Swedish Tea Ring

Put on an unfloured board and roll as thin as possible. Spread with melted butter, sprinkle with sugar, and chopped blanched almonds or cinnamon. Roll like a jelly roll, cut a piece from each end and join ends to form a ring. Place on a buttered sheet, and cut with scissors. Let rise, brush over with yolk of one egg, slightly beaten and diluted with 1/2 T. of cold water, and sprinkle with finely chopped almonds. Bake in moderate oven.

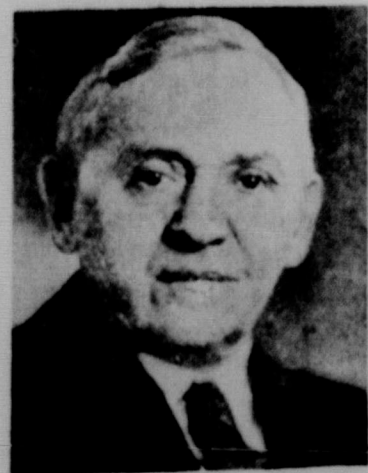

Swedish Braid

Cut off three pieces of mixture of equal size and roll, using the hands, in pieces of uniform size; then braid. Put on a buttered sheet and proceed as with the Tea Ring.

Hot Cross Buns

Add 1/4 t. cinnamon, 1/4 c. seeded raisins, cut in quarters or 1/4 c. currants to above recipe. Let rise as for Tea Ring. Shape in forms of large biscuits. Place in pan one inch apart, brush over with beaten egg, and bake 20 minutes; cool and with ornamental frosting make a cross on top of each bun.

EDUCATOR RETIRES

Dr. William Low Bryan, who recently retired as president of Indiana university. Dr. Bryan, who spent 53 years on the faculty of the university, was its president for 35 years, holding the record for the longest service among presidents of state universities. The seventy-seven-year-old educator is a firm believer in the average student—the one who is neither too brilliant nor too dull—who will keep everlastingly at his job. Such a student, he believes, has the best chance of making good in later life.

Shipment Of Texas Livestock In June Shows Big Increase

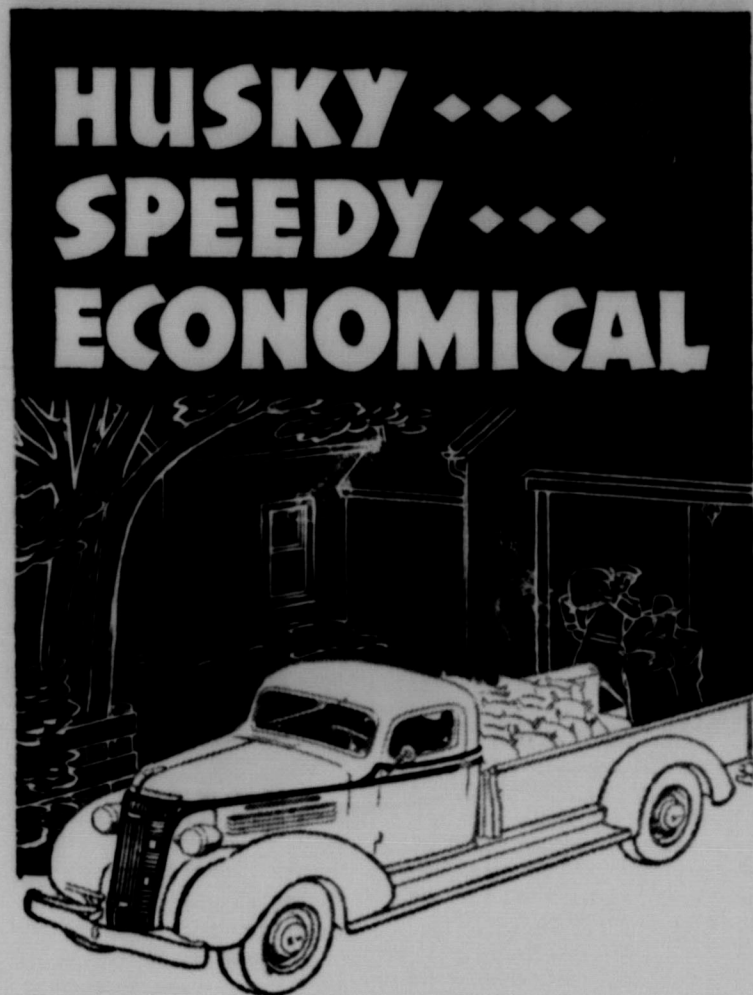

Austin, August 4—Shipments of all classes of Texas livestock during June totaled 8,177 cars, compared with 4,321 cars last year, an increase of 90 per cent, according to a report from the University of Texas Bureau of Business Research.

Cattle shipments of 5,786 cars increased 112 per cent over June last year; calf shipments 758 cars, increased 33 per cent; and sheep shipments, 1,221 cars, increased 136 per cent. Hog shipments totaled 412 cars, a decrease of nearly 20 per cent.

Aggregate shipments of Texas livestock during the first six months of the year were 46,681 cars, against 32,748 cars during the corresponding period last year, an increase of 40 per cent.

Shipments of cattle to the Fort Worth market were more than double those of June last year and shipments of sheep to this market increased 67 per cent over a year ago.

WE ARE ONE OF OUR OWN BEST CUSTOMERS

In its various departments, the Humble Company operates more than a thousand passenger cars and trucks. This equipment, put to much harder use than the average car or truck, serves as a laboratory for testing Humble motor fuels, motor oils, greases and automobile specialties. As one of our own best customers, we agree with thousands of other Texans who say of Humble products, "They're definitely second to none."

Certainly, we leave no stone unturned to keep Humble motor fuels and Humble motor oils in the front rank—not with sporadic improvement from time to time, but with continuous improvements from day to day. But you, as a user, are even better qualified than we to pass judgment. We invite you to try Humble motor fuels and motor oils in your car. Make your own decision regarding their quality. We think you'll agree with all of us customers—that continuous improvement keeps Humble ahead.

JOE OBERKAMPF

In this column answers will be given to inquiries as to Texas history and other matters pertaining to the State and its people.

Q. When did the first steamboat reach Houston?

A. In January, 1837, soon after the townsite had been laid off and a few tents and cabins erected.

Q. Who organized the 200 volunteers that routed about 1,000 Indians at Plum Creek in August, 1840...

A. When they learned that Indians to the number of 1,000 or more had murdered families in the Victoria and Linnville communities...

Q. What was the 'Peters Colony' and in what part of the Republic was it located?

A. 'The Texian Land and Emigration Company,' better known as 'Peters Colony'...

Q. What were the expenses of the Texas Old Age Assistance Commission and the Liquor Board compared with the total income from liquor, beer and wine in the month of February?

A. According to the Texas Tax Journal, expenditures of the Old Age Assistance Commission...

Q. What is the average annual rainfall in Texas, the highest and the lowest?

A. Average annual rainfall is 31.08 inches; highest, 55.31 in Newton County; lowest, 9.16 in El Paso County.

Coach Meyer Plans Horned Frogs' Campaign

1937 FOOTBALL SCHEDULE table with columns for date, opponent, and location.

'We're sweating now in the hope that we will be able to keep a little cooler next fall,' says Coach Dutch Meyer of T. C. U. as he diagrams a Horned Frog grid play...

Q. To whom is credit given for conceiving the construction of what is now the Southern Pacific Railway and what were his plans?

A. Andrew Briscoe, a resident of Harrisburg, in 1839, revealed his dreams of a railway that would eventually extend from Harrisburg to San Diego, California...

Q. Are commercial failures in Texas increasing or decreasing?

A. Commercial failures in Texas in 1936 averaged slightly fewer than 15 a month...

Q. What is the longest river in the world contained wholly within one political division?

A. The Brazos, with a drainage area of 41,100 square miles, lying wholly within Texas.

Q. When was Denton County organized, for whom named, and what was the first county seat?

A. Denton county was organized in 1846 from Fannin County, with Alton, on Hickory Creek, about 6 miles from the present town of Denton, the county seat.

Q. With what bandit gang was Sebe Barnes connected and what became of him?

A. He was with Sam Bass in most of the Bass gang stage and train robberies in Texas and was killed with him at Round Rock where they had gone to rob a bank.

Q. When did the 'Greenback' party attain its greatest political strength in Texas?

A. In 1882, when G. W. (Wash) Jones, of Bastrop, the party's candidate for governor, received 102,000 votes against 150,000 cast for John Ireland, the Democratic candidate.

Q. How many Texans served in the United States-Mexican war of 1846-48 and under whose leadership?

A. The number is not definitely known, but was about 8,000 with Gov. J. P. Henderson as major general of volunteers.

T. C. U. Coaches Prep For Opener Against Ohio State Sept. 25

Fort Worth, Aug. 4—Football practice in the Southwest Conference starts Sept. 7. But for Coaches Dutch Meyer and Mike Brumbelow of Texas Christian University it has already started.

The Horned Frogs play Ohio State University (coached by their former mentor, Francis Schmidt) at Columbus Saturday, Sept. 25.

'And that means we have to have everything ready to get the most out of the few days' practice we'll have before we entrain for Columbus,' Coach Meyer observed.

He and Brumbelow are laboring several hours every day over elaborate charts of the plays they plan to use in the toughest opening game T. C. U. has ever scheduled.

Their job is made somewhat easier with the knowledge that

PROUD BARTELLS

Dick Bartell and his son Skippy are all smiles as they pose with the statuette presented to the Giants' fiery shortstop by admirers recently during the celebration of Bartell day at the Polo grounds.

give a pretty good account of ourselves, even if the schedule is a tough one.'

Chevrolet Produces Millionth 1937 Car; 13 Millions Total

The year 1937 takes its place as the third successive year in which Chevrolet has produced more than one million units and the sixth time in the history of the company that more than one million cars of any one model have been built.

The millionth 1937 model Chevrolet was completed at the company's Flint, Mich., assembly plant two weeks after the production of the 13-millionth car since the founding of the company 25 years ago.

The first year in which Chevrolet produced more than a million units was 1927. In 1928 and again in 1929, the company built more than a million cars and trucks. Production passed the million mark again in 1935, repeating the achievement in 1936. Chevrolet

led the entire automobile industry in sales during eight of the past ten years.

THE REST OF THE RECORD'

By James V. Allred Governor of Texas

There are times when public official wishes he could lay before the people all the facts in a current controversy, so that the people themselves might judge whether his acts were just.

School Criticism Unfair It's a strange thing when public officials are criticized for reducing taxes — for reducing taxes without detracting one iota from public service. Yet, believe it or not, that is exactly what is happening in the current controversy over the state's public school apportionment.

Because State Comptroller George Sheppard and I cut the property tax rate for school purposes from 20 cents to 7 cents, we are accused by other public officials—who should be as deeply concerned as we are over the average man's tax burden—of taking something, somehow, from the school children of Texas.

I tell you flatly, that is not true. In their best, these statements give you but a part of the record, and a very distorted part, at that. Every informed school official knows that since I have been governor, the schools have received more aid from the state than ever before in the state's history.

Record Friendly For parents in general, who are not apprised of the mechanics of

Marriage May Reunite the House of Bourbon

Prince Alvaro of Bourbon, Orleans, and his bride, Carla Delfino Parodi, just after their marriage in the Church of San Roberto Bellarmino in Rome. The wedding brought about the first formal appearance in six years of former King Alfonso and former Queen Victoria of Spain, stimulating reports that they are considering a reconciliation. They served as patrons for their cousin, Prince Bourbon-Orleans.

state aid, this explanation is in order: The state helps support schools through two means. First, there is the available school fund, which is divided among the districts on the basis of registered children of school age.

Then there is the "rural aid fund" or the "equalization fund," so-called, which is an additional grant to poorer rural districts.

Rural aid has jumped two and a half million dollars each year I have been in office! When I was inaugurated, it totalled three million dollars; today it is five and a half million. The present controversy isn't over rural aid; it is concerned with the available

school fund, distributed on a basis of so much for each child—the state "per capita."

Now this fact is undisputed: During the first year of my administration, the state contributed \$19 per student in the per capita apportionment toward the education of each of approximately 1,500,000 Texas children—and this payment likewise was the highest amount in Texas history!

But here is the fact which the critics want you to forget: the per capita this next year will be even greater—at least \$20, and perhaps a little more—and at the same time property tax payers will get a tax reduction! The revenues will come from other sources than a valorem tax on property.

Does that sound like taking anything from anybody?

Tax Reduction Stand

Upon what are the critics basing their charges? Well, here's how it all happened:

The law says the per capita shall be fixed by the State Board of Education, on or before August 1st. At this time, the Comptroller shall furnish the Board of Education with an estimate of available funds. The Board is then required to do a simple problem in arithmetic—divide the total anticipated revenues by the total number of pupils—and the answer is the per capita.

Now another law says that the Automatic Tax Board, of which Mr. Sheppard and I are members, shall meet by July 20th and set a

property tax which will insure enough anticipated revenues to pay \$17.50 per capita.

I construe these two laws to mean that the tax board must meet first find out how much money will be available for schools, and vote enough property taxes to make up the difference. Last year, that's what we did. We found we could reduce the school tax from 35 cents to 20 cents, and still pay the schools \$17.50. Not a soul objected. Happily, revenues from other sources were greater than expected, and a per capita of \$19.00 was possible.

But this year, for some mysterious reason, the Board of Education met first, and presumed that we would continue the 20 cent tax, regardless of need. Why they so presumed is as deep a mystery as why they met before they possibly could know what the revenues would be—for they couldn't know until after the tax board met.

With the 20 cent tax rate, they could make a per capita apportionment of \$22, or expressed another way, an increase of \$4,680,000 over last year.

I firmly believe that certain people thought they saw a way to tie the hands of the Tax Board and force Mr. Sheppard and me to yield to political expediency at the expense of the taxpayers—who certainly ought to be entitled to some consideration. Everybody knows how burdensome read estate taxes have become.

Right here I want to say George Sheppard showed unusual courage. Most everybody knew how I felt on the matter; so they concentrated on him and he was deluged with telegrams, letters and personal visits to play politics. He is a fine public official, and I suggest if you approve his course, you drop him a note. He will appreciate it.

Mr. Sheppard and I saw eye to eye on the matter; we believe that the law makes it mandatory on us to see that the schools get \$17.50 per capita. We did that and they're going to get \$20; and at the same time, the taxpayers are going to get a tax reduction.

As a final citation of the record, concerning the attitude of public school teachers: In February of this year, one of the heads of the Teachers Association told a legislative committee that if they could "hold the \$19 and maybe get \$1 more they would be tickled to death." By that statement, the teachers have reason today to be plenty happy.

The Government of Mexico has invited Mrs. Allred and me to visit that country. We are leaving Sunday, August 1, by train, and next week I hope to have something interesting to tell you about our neighbors. This will be our first real vacation and we are looking forward to a lot of sightseeing.

Mr. and Mrs. Bob Birchfield of Wellington, Texas, were here over the week-end for a visit with Mrs. Birchfield's brother, Bryan McDonald and family. Mr. and Mrs. Birchfield were married last June and have been attending summer school at the University of Texas this summer.

Rev. James F. Black, who resigned as minister of the Ozona Church of Christ recently, was up from Del Rio on business yesterday. Rev. Black is making his home with his family in Del Rio, preaching in nearby churches.

Archaeologists Speed Excavation Of Ancient Indian Camp Grounds Before Inundation By Colorado River Dams

Austin, August 4 — The camp debris of Indians who lived hundreds of years ago at the mouth of Falls Creek, some twenty miles above Buchanan Dam on the Colorado River, is being excavated today by Works Progress Administration laborers, under the supervision of J. E. Pearce, professor of anthropology at the University of Texas, and director of a research project sponsored by the University and the WPA.

Last January, Professor Pearce began a project of exploration of all Indian campsites located above Austin in the lake beds. A survey of the territory by A. T. Jackson, University field foreman in archaeology, located fifty important sites on the west side of the Colorado above Buchanan Dam. Of these, a five-acre tract at the mouth of Falls Creek was selected for excavation first and is still being worked. Other sites will be excavated as rapidly as possible in order that as many specimens as possible can be secured before the inundation of the lake beds upon completion of dams on the Colorado.

The camp debris of the Indians is being uncovered in order to reconstruct the Indian life of Central Texas. Labor for the excavation of campsites is provided thru a \$9,000 WPA grant and must be from the relief rolls. Professor Pearce has made use of Mexicans and works the men in relays. Since only half-time work is allowed, two squads of fifteen men each work alternate periods of two weeks. A. M. Woolsey is project supervisor.

When the material collected has been cleaned and catalogued, Professor Pearce will write a report on his findings to be published by the University of Texas. The specimens will be the property of the anthropological societies throughout the world. The Australian Anthropological Association has already requested an exchange of specimens.

Musician, Composer Visitor To Ozona

Mrs. Alice Mayfield Brooks, one of Texas' outstanding musicians and composers, and now Director of Music at Texas Military Institute in San Antonio, spent several days here during the past week visiting her husband, Preston P. Brooks, who is supervising engineer in charge of construction of the Texas Pipe Line Co. station a few miles west of Ozona.

Mrs. Brooks is a pianist, teacher and composer, having studied in the principal schools of music

in this country and the Royal Conservatory in Leipzig, Germany. Among her best known compositions are "Honey in de Comb," a negro walk-around, "Mah Little Tater Blossom," and two special violin quartet numbers, "Bagatelle" and "Barcarolle." She is prominent in San Antonio and Texas Federation of Music Club circles.

PINCH HITS FOR SONORA UTILITIES CO. MANAGER

J. O. Lusby, local manager for the West Texas Utilities Co. here, is pinch-hitting this week and next for N. T. Poindexter, manager at Sonora, while he and Mrs. Poindexter, also employed in the Sonora office, are on vacation. Mr. Lusby is acting cashier in the Sonora office during Mr. and Mrs. Poindexter's vacation. He will visit the local office at intervals during the period, leaving John Bowers, cashier and bookkeeper, in charge. Mrs. Lusby accompanied her husband for the Sonora stay.

FORMER OZONANS GROW FINE WHEAT IN IOWA

Judge and Mrs. Charles E. Davidson received a letter this week from their daughter, Mrs. Bill Grimmer, former Ozonan, now living in Winfield, Iowa, describing splendid crop conditions on the Davidson Farm near Winfield, which Mr. Grimmer is operating. The farm harvested 73 bushels of wheat to the acre on a 70 acre patch. Mrs. Grimmer wrote. Livestock is in splendid condition and other crops are in fine condition.

Gordon Rendall has returned from a stay of several weeks on the Freeman ranch near Buena Vista.

Mrs. A. W. Jones returned last night from a visit in Corpus Christi with her son-in-law and daughter, Mr. and Mrs. G. F. Noakes.

Miss Ola Ruth Currie, daughter of Mrs. Albert Currie, is here to spend a ten-day vacation with her mother. Miss Currie is in nurses training school at Fred Roberts Hospital in Corpus Christi.

Betty Lou Coates of Ozona is in El Paso this week for a visit with her aunts, Misses Lena and Ruby Cole of that city. They have just returned to El Paso after a visit to Florida, Alabama, Mississippi, Louisiana and South and East Texas.

NEW SENATE LEADER

Senator Alben Barkley of Kentucky, who was elected majority leader of the senate to succeed the late Senator Joseph T. Robinson of Arkansas. He received 38 Democratic votes in a close contest with Senator Pat Harrison of Mississippi, who received 37. The Kentucky senator who served as assistant to Senator Robinson, was keynoter at the 1936 Democratic national convention at Philadelphia.

Reliable business firm desires business building in Ozona. If you have or will have vacancy in near future answer by letter to "Business" care The Stockman. It

Mrs. Will Miller, Mrs. Glyn Cates, Miss Louise Zaner and Miss Gladys Thornberry visited Carlsbad Caverns over the week-end.

There's money to be made by reading the ads in this paper.

WHATLEYS HAVE GUESTS

Mrs. C. G. Hoehn and two sons, Charles, Jr., and Carl, of Dallas, daughter and grand children of Mr. and Mrs. J. S. Whatley of Ozona, and Mrs. S. A. Mantooth of Morris, Okla., mother of Mrs. Whatley, left Sunday to return to their homes after a visit here with the Whatleys. Mrs. Whatley accompanied them as far as Temple, where they visited her brother, Enroute, they visited relatives in Lometa and Kempner. Mrs. Whatley returned to her home here yesterday.

Baptist Missionary Holds Bible Study

Mrs. G. O. Inlow directed the Bible study of the Baptist Woman's Missionary Union which met in regular session yesterday afternoon at the home of Mrs. Jim Patrick.

After the program, Mrs. Patrick served refreshments to Mrs. D. H. Byrd, Mrs. Martha Young, Mrs. Leslie Tuel, Miss Maybelle Taylor, Mrs. H. C. McCaleb and Mrs. J. T. Keeton.

The group will meet next week at the church for a business and social session.

Mrs. Gertrude Perry and son, Joe Perry and Miss Mildred North spent Sunday visiting on the Collins Coates ranch near Sanderson.

Mrs. Mary Flowers is having a room added to her home, a new roof and other improvements made.

Mrs. Charles E. Davidson, Jr., and two children, Muggins and Charley Boy, left Friday for a visit with relatives in Temple.

METHODIST CHURCH

Eugene Slater, Minister
Calendar of Services

Sunday School 9:45 a. m.
Morning Worship 11:00 a. m.
Evening Worship 8:30 p. m.
Mid-Week Service, Wednesday, 8:30 p. m.

We have been more than pleased with the interest in the Vacation Church School. The enrollment has been around 35, and most of these children will receive certificates of credit for attendance upon at least four sessions. We believe that this initial venture will merit a careful consideration of the fine values in this type of work. The foundations should be laid for a two-weeks school next year that will include the Beginners and Intermediates along with the Primaries and Juniors.

The Menard Institute has come to be an established institution for the Intermediates and Young People of the San Angelo District. The courses of study, the recreation, the worship, combined with the camp life make this one of our most attractive assemblies. The date is August 16-20, and the registration fee is \$3. All who are interested in going should register at the church within a day or two.

Mr. and Mrs. Gus Love, who ranch on the Sol Mayer land between Ozona and Sonora, were Ozona visitors yesterday, calling by The Stockman office to order the paper sent to them. Mrs. Love is a sister of Rev. Ira V. Garrison, pastor of the Ozona Baptist Church.

Joe Whatley, Jr., and Blake Brown are spending this week in Dallas.

LOST—Two 10-gallon Gulf oil cans, Reward for return North Motor Co.
