## Funeral Services For John Young At Three Today

### Long Time Resident Died Tuesday Morning In Angelo

Funeral services are to be held at 3 o'clock this afternoon (Thursday) for John W. Young, 75, pioneer Crockett County rancher and active vice president of the Ozona National Bank, who died in a San Angelo hospital Tuesday morning after an illness of three weeks.

Services are to be from the Methodist Church, with the Rev. Eugene Slater, pastor, in charge of services, assisted by Rev. A. C. Nance, minister of the Church of Christ. Burial will follow in Cedar Hill Cemetery. Pallbearers will be Max Schneemann, T. A. Kincaid, John R. Bailey, Roy Henderson, W. R. Baggett, W. W. West, Houston Smith, and Scott Peters.

The body will arrive sometime Thursday morning and will be taken immediately to the church where it will lie in state until the funeral hour.

Mr. Young was born in 1863 at Plum Creek, Caldwell County, and settled in West Texas, near what is now Colorado, when he was 18 years of age. He moved to Crockett County before organization of the county in 1891 and had made his home here since.

Surviving are the widow; a son, Walter Young of San Angelo; a sister, Mrs. J. M. Townsend of Brady; three brothers, Lynn of Fresno, Calif., Sam of Creedmore, Texas, and Ben of Austin; and two grand children, Dorothy and Louis Young, children of Mr. and Mrs. Walter Young of San Angelo.

## Wilson Birthday, Fight Broadcast Party June 22nd

### Local Motor Firm To Combine Events; Refreshments

Wilson Motor Co., local Buick and Pontiac dealers, will be host to all Ozonans next Wednesday night at a combined birthday party and fight broadcast of the Lewis-Schmelling world championship bout in New York.

Sunday, June 19, the motor firm will be one year old in Ozona. It was established last summer by Lee Wilson, whose reopening in business in Ozona was a "homecoming" for him. He had operated a Buick agency in Ozona for several years up to 1931.

The Lewis-Schmelling fight is to be broadcast over a coast-to-coast hook-up by the Buick Motor Co. Fight fans are cordially invited to attend the combined birthday-fight party next Wednesday night. Refreshments will be served to all guests.

## Court Of Appeals Affirms Sentence Of Jose Rodriguez

### Mexican Alred Said "Railroaded" Here Gets Seven Years For Assault

Sentence of Jose Rodriguez to seven years in the state penitentiary on an assault, to murder charge, assessed in district court in San Angelo, was affirmed recently by the Court of Criminal Appeals in Austin.

Rodriguez, Mexican labor organizer, was sentenced to a term in the penitentiary by a Crockett County jury a few years ago on a charge of perjury in connection with evidence given in the trial of a Mexican here. He was later pardoned by Governor James V. Alford, whose statement in his pardon proclamation that the Mexican had been "railroaded" to the penitentiary caused considerable of a local furore.

## Wind Destroys Garage, At W.R. Baggett Home Damages Roofs, Trees

A small tornado which accompanied a heavy shower of rain here last Thursday afternoon up-lifted a sheet iron garage, damaged roofs of two houses and twisted limbs from big liveoak trees at the ranch home of W. R. Baggett two miles north of Ozona.

The wind was strong in town, but the center of the small storm was apparently at the Baggett ranch home. The two-car garage was apparently lifted from its foundation and hurled against a windmill tower several hundred feet away. No cars were in the garage at the time. Considerable area of the roof of the Baggett home and another house nearby was damaged. Several of the large trees around the ranch home were damaged.

## Educated Pony To Perform At Rodeo Each Day

### 'Danger' Said To Exhibit Almost Human Intelligence

"Danger," an educated pony trained and exhibited by Jeff Reavis of Big Spring, will be one of the daily featured attractions during Ozona's eleventh annual Rodeo, Race Meet, Stock Show and Sale opening Thursday of next week and continuing through Saturday.

The pony, a small black and blazed face animal, has mastered more than fifty tricks which he performs at his master's command without the use of rope or bridle. The pony performs his routine of tricks with a precision that is amazing, according to advance notices from those who have seen the animal in action.

"Danger" was exhibited at the Southwestern Exposition and Fat Stock Show in Fort Worth, where he was acclaimed as one of the greatest of the trained horses. His owner is now in negotiations with officials of Madison Square Garden in New York for an appearance there.

The trick pony exhibition is one of a large number of new features secured for this year's three-day programs of western entertainment.

### 50TH ANNIVERSARY

Mr. and Mrs. T. A. Kincaid, will celebrate their fiftieth wedding anniversary with an "open house" at their home here Monday, June 27. Reception hours will be from 4 to 7 p. m.

Miss Elizabeth Fussell is attending the State Teachers College in Canyon where she expects to get her degree this summer.

## 35 Ozonans At Family Reunion In Christoval

### Coates - Friend Gathering Attended By 150 Persons

More than 35 Ozonans, members of the Coates, Friend and Davidson families, were among 150 or more persons, descendants of the Coates-Friend families, attending a family reunion held Saturday and Sunday at Christoval.

Barbecue, served each day, was prepared by John Parker, former fire chief at San Angelo. Various games were enjoyed, dancing Saturday night and boating on the Concho River furnished diversion.

Frank Friend of San Angelo, was re-elected president of the reunion group. Miss Flossie Coates of Big Lake was named secretary. The reunion will be held again next year at Christoval the second Sunday in June.

### SHE'S 76 FRIDAY

Mrs. Laura Hoover, pioneer Crockett County resident, will celebrate her 76th birthday Friday. Mother Hoover, who was the first white woman to set foot on soil of what is now Crockett County, settled with her husband along Pecos River in 1882. From this start the couple built vast ranch holdings in that area.

## Plan For Mexican Settlement House Is Launched Here

### Methodist Women Open Drive At Once For Culture Center

A campaign for funds with which to construct a Settlement House to serve the cultural and religious needs of the Mexican population of Ozona will be launched at once under auspices of the Woman's Missionary Society of the Methodist Church, it was decided at an all-day meeting of the society Wednesday at the ranch home of Mrs. Victor Pierce.

The Settlement House has been a project of the Missionary group for several months, preliminary plans having been worked out and plans for the cultural center drawn. The campaign will be launched at once and work started on the structure as soon as possible in order that it might be in readiness for occupancy by September 1.

Miss Mary Riddle of San Antonio, deaconess from the Woman's Missionary Council of the Methodist Church, has been assigned by the council to carry on the work among the local Mexican population, it was announced. Miss Riddle has served seven years in similar work with the San Antonio Mexican Settlement House and is described as one of the most gifted. (Continued on last page.)

## A Dog His "Eyes" During Blindness In Youth, Luke Pasco's Work In Training Border Collie Was A "Labor Of Love"

Totally blind from five years of age until ten, Luke J. Pasco of New York, breeder and trainer of Border Collie sheep dogs, who will exhibit his world famous dogs each afternoon during the eleventh annual Rodeo and Race Meet here next week, was guided in his childhood of darkness by a Border Collie.

After regaining his sight, Mr. Pasco became intensely interested in dogs, especially in the breed that had been his "eyes" for five years. From this interest grew his hobby of working with and training this intelligent breed of dogs.

To gain further knowledge of the breed, a native of the Scottish highlands, Mr. Pasco made a trip to England. While there he bought several dogs, among them "Jean," now world's champion sheep dog that has thrilled millions with her brilliant performances in the show rings of the nation. Jean was but a year old when Mr. Pasco acquired her, but she showed uncanny aptitude in working with sheep and he found her an outstanding specimen of the breed.

Mr. Pasco directs the dogs in their movement by means of whis-

## Fingerprints Of L. C. Barrow Taken By Sheriff Here

### Brother Of Clyde Is Questioned On Return After Fine

L. C. Barrow, brother of the one-time Texas desperado, Clyde Barrow, was fingerprinted here Tuesday afternoon after he was taken into custody by Sheriff W. S. Willis for questioning.

Barrow was fined recently on affray charges here and later was arrested on check charges. A fine imposed in the latter case, was suspended on condition that Barrow would leave the city and stay away. Upon his return here Monday, he was immediately arrested. He had returned to get a pair of boots loaned to a friend, he explained to officers, and on his promise to return to Sonora, where he has employment, he was released after fingerprinting.

The prints are to be submitted to the state penitentiary authorities at Huntsville for confirmation of Barrow's identity, the sheriff said. Barrow recently completed a term in the state prison.

## Valley Shows Secured Again For Local Show

### Company Here In 1936 Returns For Engagement Next Week

The Valley Shows, one of the largest carnival companies operating in the Southwest, have contracted to pitch tents here next week to furnish sideline entertainment for crowds attending the eleventh annual Crockett County Rodeo, Race Meet, Stock Show and Sale, it was announced this week by Wayne West, fair association president.

The Valley Shows were here in 1936 and patrons found the aggregation one of the best carnival companies ever to show here. The company carries a total of five riding devices and numerous first class carnival show features as well as the usual concessions.

The carnival company will probably set up its equipment early next week for a pre-show run for the benefit of local people and early visitors.

In 1630 America had 820 million acres of virgin forests; now, less than 150,000,000 acres.

### SUFFERS STROKE

Rev. Grady Timmons, pastor of Travis Park Methodist Church in San Antonio, suffered a stroke at his home in San Antonio Tuesday and is reported in a critical condition, according to word received here this week by friends. Rev. Timmons, former pastor of the First Methodist Church in San Antonio, was to have conducted a revival meeting here last winter but was forced to cancel the engagement because of illness. He had indicated his intention of filling the local engagement next fall.

## Abilene Man To Teach Band In Ozona Schools

### James B. Nevins First Instructor In New School Set-Up

James B. Nevins of Abilene, Texas, has been elected to the newly created post of band instructor on the faculty of Ozona High School for the 1938-39 term, according to announcement made this week by Supt. C. S. Denham, who is visiting relatives in Lubbock.

Mr. Nevins was graduated from Abilene High School in 1934 and had four years of band instruction under R. T. Bynum of that School. He is now a student at Texas Technological College in Lubbock where he will receive his Bachelor of Science degree in Band at commencement exercises of that institution in August.

At Tech Mr. Nevins studied four years under D. O. Wiley, one of the leading band instructors of the Southwest. He was president of the Tech Band for 1937-38 term, a member of Kappa Kappa Psi, national honorary band fraternity, played clarinet two years in the college orchestra and was in the college chorus two years.

Mr. Nevins has had teaching experience with private pupils in band during summers of 1934 and 1935 in Abilene and in 1936 and 1937 in Lubbock. He was also instructor in Abilene High School band school during the summer of 1937 and the Texas Tech band school this summer.

The new band instructor will become a member of the school faculty and will have charge of band instruction as a part of the school curriculum in the first year of this development in the local school program. Inclusion of band instruction in the school curriculum was ordered at a meeting of the school board shortly before the close of the 1937-38 term last month.

## B. B. Ingham To Wed McCamey Girl July 15

Mr. and Mrs. Theo W. Johnson of McCamey announce the engagement and approaching marriage of their daughter, Phyllis B. B. Ingham, Jr., of Ozona. The wedding has been set for July 15. Mr. Ingham is a son of Mrs. B. B. Ingham of Ozona and is a graduate of Ozona High School. He is now associated with his mother in the operation of the Ingham ranch on the Pecos River in this county.

## TOUGH STOCK SECURED FOR RODEO RIDERS

### Wild Steers And Salty Broncs Thrill Spectators Next Week

### EXPECT BIG CROWD

### Many Features Added To Show Program For June 23-25

Ropers and riders in the rodeo events in connection with the eleventh Rodeo, Race Meet, Stock Show and Sale, opening here Thursday of next week and continuing through Saturday night, are in for tough sledding if the rodeo stock secured for the show live up to the reputation that precedes them into the arena.

Thirty-five head of wild Brahma calves, as tough, fast and ferocious as Brahma stock goes, have been purchased for the calf roping events, it was announced early this week by Wayne West, president of the association. These calves are fresh from the range near Cotulla, Texas, and as is the usual case with Brahmas, have already made up their minds to give the would-be ropers as much trouble as possible.

Twenty head of as rough and tough a bunch of outlaw horses as ever roamed the wilds of West Texas will come from down Del Rio way to engage the attention of the broncho forkers. The herd of outlaws are from the stock of Earl Sellers of Del Rio, well-known rodeo promoter and champion roper.

For the wild mare race, a closing feature of the local show each afternoon, when cowboys pair off to saddle, mount and ride a wild mare around the race track for a fat purse, show officials have secured a herd of huge half Percheron mares that they calculate will give the cowboy teams plenty of trouble both in the saddling and riding divisions of this thrilling event.

With only a few minor details to be worked out, all is in readiness for the opening of Ozona's eleventh annual "open house" and (Continued on last page.)

## N. E. Rendall Candidate For Surveyor Post

### Cafe Operator Seeks County Office In July Primary

Norman E. Rendall, proprietor of the Green Lantern Coffee Shop, this week entered his name as a candidate for county office, asking for the position of county surveyor of Crockett County at the hands of the voters, subject to action of the Democratic primary in July.

Mr. Rendall has been a resident of Ozona for eight years, coming here as a member of the engineering staff of the resident engineer of the State Highway Department at the start of highway construction work in this county eight years ago.

On completion of the road projects in this county, Mr. Rendall opened a small cafe next door to the West Texas Lumber Company Four months later, on Thanksgiving night, 1934, the business venture was destroyed by fire. He later re-entered the cafe business, establishing in the present location in the Bunker building.

For the last several months, Mr. Rendall has been doing considerable surveying work in connection with the Soil Conservation program in this county, running contour lines for ridging work and surveying acreage for prickly pear eradication. He was born in Houston and reared in Brownsville, Texas.

THURSDAY, JUNE 16, 1938

WHY NOT ASK THE PATIENT

The other day a prominent industrial leader, speaking on business conditions, said: "We have all kinds of experiments. Why not trade experiments for experience."

After all, in all other phases of our life we call on those men who should know the most about the subject at hand. If we are ill, we call the doctor who has studied medicine and knows, more than anyone else, how to diagnose the symptoms. If we want legal advice we go to a lawyer. It seems to us that in this matter of the present depression the man in the best position to know what is the trouble and to prescribe remedies for our national illness is the man who has spent his life in business and who knows what is needed for good business.

That seems to us like an elementary idea scarcely necessary to repeat, but certainly many theorists in the last few years have failed altogether to pay much attention to it.

As this speaker put it, "In a confusion of voices, industry's voice is the only one which has not been heard."

We are now entering upon the ninth month of a discouraging depression that follows all too closely on the heels of its predecessor. Isn't it time to stop looking for a magic cure-all for our economic ills and consult those men, who by experience, are best fitted to lead up to recovery?

THREE YEARS OF FAILURE

For almost three years now the relations of the business man with his employees have been dictated by a National Labor Relations Board. This board was setup supposedly to help better those relations; to reduce the number of strikes and arbitrate any grievances. The record of the board since its establishment in July 1935 shows a result to the contrary.

Many members of Congress are already on record as saying that drastic revision of the labor act will have to be accomplished if we are to end this three-year era of violence and bickering fostered by head strong labor agitators.

Unfortunately the act could not be amended at this session of Congress, but it is to be hoped that the next Congress will be sufficiently strong and willing to balance the currently lop-sided law. It is not an overstatement of fact to say that balance will aid materially in starting business recovery, for as long as business is managed by a one-sided statute it can not move forward.

BERATING AMERICA

That the Nazis care to engage in an anti-American press campaign probably is of little or no concern to this country, but how such tactics are expected to ally the American dislike for Fascism is not clear. Both the Italian and the German dictatorships have been disturbed over the growing unpopularity of Fascism in the United States, yet they pursue policies which by no stretch of imagination could be expected to win the admiration of the American public. In Berlin the propaganda ministry apparently has overruled the foreign office in renewing for domestic consumption its anti-American campaign. The foreign office said some progress was being made in adjusting difficulties, but the propaganda ministry through its newspapers "dis-

SO NEAR AND YET SO FAR

turbs international relations." Criticisms of Nazism here are explained there on the ground that "the United States has engaged in rearmament of proportions both grotesque and unjustified by the real danger." Probably the people of the United States do greatly resent the aggressions which make it necessary for them to rearm. The Fascist group could check the rising tide of antipathy by making a genuine contribution to world amity and encouraging a scaling-down in armament burdens. But what they choose to do and say seems never to flow out of spirit of conciliation. What kind of governments other peoples choose does not greatly concern Americans. Any number of small countries endure dictatorships without stirring any particular feeling on our part. But the aggressions against Ethiopia, Austria, Spain, China, and menacing demands upon Czechoslovakia and the meddling of Fascists and Nazis in South America constitute threats against international peace and justice and against the rights of nations and peoples to choose their own forms of government. Thus they become matters of concern to the entire family of nations, and legitimate subjects of discussion in lands where freedom of conscience and of opinions and the right of discussion are still guaranteed. — New Orleans Times-Picayune.

POLITICAL INTERLUDE

The President's swing through the West and Southwest will be frankly political, a personal and radio appearance from the rear platform of his special in defense of his policies. That these are apparently dearer to his own heart than to an increasing number of Americans who view lending-spending with dire foreboding is reason enough for Mr. Roosevelt to couch his lance.

He is aware that he retains a majority of the American people behind new deal projects, a condition that exists for two reasons. He or his successors regardless of basic principles will always have the support of the new deal pay roll, the direct and indirect beneficiaries of largess under a spending program never equaled in the same history of the United States. The other reason is that there are few dissenters to the idealistic ends of the new deal, but only a limited number of thinking Americans who refuse to link idealism with an impracticality that threatens to plunge the Nation into fiscal chaos.

The President is naturally anxious to retain support. When the new deal loses a supporter, he stays lost, but the safety of political mathematics is in delaying as long as possible the loss of enough support to become an election upset.

Mr. Roosevelt, driving west to Ohio and southwest through Tennessee, Kentucky, Oklahoma into Texas, will bring the persuasive and seductive towns of his magnificent baritone to the Pied Piper strains of the new deal dance. At the same time, it is inferred that the presidential accolade will be bestowed openly where it may do the most good on some faithful yes men, men like Barkley of Kentucky whose race against Governor "Happy" Chandler is not regarded as anywhere near in the bag.

Obviously Mr. Roosevelt is going to do a lot of hard work on this tour but it happens to be the sort of work that is a vacation for most at home when speaking political war horse who is typically—the new dealers all hope persuasively—to "my friends, my fellow countrymen." — Dallas News

Say "I saw it in the Stockman."

UNPOPULAR BULLIES

Though Adolf Hitler is a bachelor and wears snappy uniforms, he has made Germany the most unpopular of all countries in the opinion of American women as expressed in a Ladies' Home Journal survey. That Hitler's bullying policy toward minorities at home and weak nations outside his frontiers is responsible for this dislike is suggested by the fact that the next most disliked nations are, in order, Japan and Italy. The women named England as the country toward which they felt most friendly.

There was little indication, however, of any eagerness to push this country into an overseas war to aid England or punish Germany. Ninety one per cent of the women questioned expressed the belief that in the World War we failed to achieve the objective of making the world safe for democracy, and 70 per cent viewed the war as a mistake into which the people were led chiefly by Wall street. Eighty four per cent were flatly opposed to fighting for our commercial interests abroad, and 36 per cent said they would rather see their sons go to jail as pacifists than to go marching off to war.

If Hitler is as smart as some say he is, he will attach more significance to the American dislike of bullies than to the American disinclination to fight. In 1914, the United States was as neutral and as pacifistic as today. But if Hitler sponsors aggravations and atrocities comparable to those given by the Kaiser's forces, he may find that a war fever can be whipped up here almost as easily as it was in 1917. — Dallas News.

KIDNAPING'S MAINSPRING

Two recent kidnaping cases, in which the criminal killed his victim after obtaining the ransom money demanded of frantic parents, have raised again the matter of prohibiting by federal law the payment of ransom.

The argument for such a statute is that making the crime unprofitable would quickly erase it from the criminal's handbook.

This argument is a bit defective because it confuses the enactment of a law with obedience to it,

which is an error we often make in this country.

There is no doubt that kidnapings would be fewer if people did not pay money for the restoration of the victims of kidnapings. But there is also no doubt that a law forbidding payment of ransom would be ignored by distressed parents, and that juries would refuse to convict parents who did so.

The history of most recent kidnapings may give encouragement to the social conscience of parents who may be faced with the awful decision whether to yield to a kidnaper's demands in the hope of saving the life of the child or to reject those demands in the hope of saving the lives of other children who might be marked by kidnapers.

The kidnaper is such a loathesome beast as not to be amenable to the ordinary decencies of human conduct. Having obtained ransom money under promise to restore the victim, he will not hesitate to kill his helpless captive if his craven alarms lead him to imagine he has a better chance of escape thereby.

By paying ransom people most often fail to save the life of the captive, and at the time they help perpetuate a murderous criminality which must crush other victims.

That is the rational attitude toward this crime; but it is too much to expect parents harrowed by fears for a child to be rational.

Our reliance for stamping out kidnaping must still be placed upon relentless pursuit and swift and condign punishment of the criminal when caught. — Ft. Worth Star-Telegram.

KEEPS ONE BUSY

A fellow has to be a contortionist to get on these days, says a philosopher. First he has to keep his back to the wall and his ear to the ground. Then he must put his shoulder to the wheel, his nose to the grindstone, keep a level head and have both feet on the ground.

Taxes paid in 1937 by a large radio manufacturing company were more than double the amount paid to holders of common stocks in the firm.

We sometimes think that a people so lacking in common sense as not to see the impending danger in the wastefulness and extravagant spending of public money, deserve to lose their liberties. — Republican, Rockville, Indiana.

A patent has been issued for an antiseptic paint which keeps walls sterile at all times. The paint slowly gives off a vapor deadly to germs.

Man wants but little here below, according to the poet, whereas the unemployment figures certify to the contrary. — Dallas News

The new deal era may be recalled as the one that developed red figures, red fingernails, and seeing red conservatives. — Dallas News.

**ONE-MINUTE STORIES OF 100 TEXANS**

By W. T. Carley

**Charles Goodnight**

Colonel Goodnight was born March 9, 1836, three days after the signing of the Texas Declaration of Independence. From the cradle to the grave his strenuous life was the complete personification of the turbulent spirit of the old frontier. A spirit that never rested on today's laurels, but ever guarding its loins for strength to embrace the opportunities and responsibilities of the morrow.

At nine he was riding bareback from Illinois to Texas. At 13 was hunting with the Caddo Indians far beyond the frontier. At 20 guide for the hardy Texas Rangers. At 30 was blazing new cattle trails more than 2000 miles in length. At 45 was completely dominating almost 20,000,000 acres of grazing lands in the interest of law and order. At 60 was the most scientific breeder of range cattle in the Golden West, and at 90, an international authority of the general economics of the range industry.

On the morning of December 12, 1923, at saddling-up time, with a cup of strong black coffee to guide him Across The Bar, his majestic soul headed for The Roundup In Glory—where there's plenty of fat cattle, no sheep, no alkali, no dry water holes, but plenty of wood and good horses—Cowboy Heaven.

**I GIVE YOU TEXAS**

By Boyce House

Winds from the Gulf have caused the trees on the scenic drive between Galveston and Port Arthur to grow slantwise. It is odd, when not a ripple of air is stirring, to see the trees bent westward. Of a similar sight, Adelaide Crapsey, the poet, once wrote: "Is it as plainly in our living shown, By slant and twist, which way the wind hath blown?"

A nomination for the unusual names' department: The Pep Hotel in Jasper.

The late Flo Ziegfeld, Broadway producer of musical shows, was famous as one who "glorified

**Personalities in the World News**

1—Konrad Henlein (second from left), leader of the Sudeten Germans of Czechoslovakia, as he appeared during funeral ceremony for two of his followers shot down in political disorders recently. 2—Sen. Guy M. Gillette of Iowa who was successful in a campaign for renomination, defeating the New Deal "elimination committee" candidate, Rep. Otha D. Wearin. 3—Professor Albert Einstein (left), who delivered the principal commencement address at Swarthmore college.

American womanhood." In Tyler, there is a stand that advertises, "Glorified hamburgers."

Also in Tyler is the Boomerang ice cream stand. The explanation of the name is, "The customer always comes back."

Another unusual name: On the Jasper-Marshall highway, the Chat-and-Chew Cafe.

The region around San Augustine is known as the "red lands" but one who has never seen the soil just after the spring plowing can not realize its intense crimson. The ground is as blushing as so many acres of red roses. Visitors to the Grand Canyon say the hue of the rock walls is not mere vermilion. And the banks cut away for the highway are so bright a red that it would scarcely be a poetic exaggeration to say that the earth seems freshly wounded. Included among the spring pilgrimages along "dogwood trails" and "bluebonnet trails" should be an excursion to see the inconceivably vivid soil of historic San Augustine.

A sign on a Houston drug store advertises, "Rum-soaked crooks." (They are cigars).

And on the same store front appears the sign, "Razor blades at cut prices."

**METHODIST CHURCH**  
Eugene Slater, Minister  
Calendar of Services

Sunday School 9:45 a. m.  
Morning Worship, 11:00 a. m.  
Evening Worship (In Park) 8:30 p. m.

Attendance at all services thus far through the summer has been fairly good. We are trying to interpret the worship services not as a burden to be borne but as a life-giving, liberating, enriching experience to be enjoyed. You are invited to share in the services of your Church through the summer months.

The Rev. Clyde Childers will be the preacher at the evening park service this Sunday. Good congregations, pleasant surroundings, and unity of spirit have marked our meetings together. We hope that more and more of the folk of Ozona will come together to enjoy these evening services.

**HUMBLE CREW GUESTS AT SUPPER**

Judge and Mrs. Charles E. Davidson and Miss Dixie Davidson entertained members of the Humble geophysical crew stationed here with a buffet supper at the

Davidson ranch home Tuesday evening, honoring Mr. and Mrs. R. P. Warren, who have been transferred to another crew.

Various games were enjoyed after the supper. Present were Mr. and Mrs. Warren, Mr. and Mrs. Rockwell, J. C. Porter, Mr. and Mrs. Frank Feagin, Gayle Mercer, Jack Wilson, Mr. and Mrs. Jack Loise, Miss Totsy Robison, Don

Griffith, Beal Brashear, Mr. and Mrs. Frank McMullan, Mr. and Mrs. C. E. Davidson, Jr., Mr. and Mrs. Joe T. Davidson and Houston Smith.

Dr. H. B. Tandy left early in the week to join Mrs. Tandy and children in Abilene where they have been visiting for several weeks.

*In the Buick-Pontiac Business In Ozona*

On June 19, 1937, the WILSON MOTOR CO. was established in Ozona with agency for two outstanding General Motors Cars—the BUICK and PONTIAC.

It has been a year of real pleasure for us to become again permanently associated with the people of Crockett County. As we round out the first year of our business life in Ozona, we would pause to express our sincere appreciation for the splendid business we have enjoyed in that time. We have made it our business to strive always to serve you to your satisfaction and we sincerely hope that we have succeeded in that aim in every instance.

We are proud of the record Crockett County folk have helped us to make our first year. In that time our records show sale of

**English Child Refuses Stardom**

Mauri Lehane

CHRISTOPHER LEHANE, an obscure English schoolmaster, has declined the offer of an American film company to star his blonde, five-year-old daughter, Mauri, in motion pictures.

The proffer of stardom for little Mauri came after her picture had appeared on the cover of the June issue of Good Housekeeping Magazine. Mr. Jack Warner, head of the Warner Bros. Studios, saw the cover and decided that the child was the "new Shirley Temple" he needed for the principal role in a new film.

The aid of the artist, Jacques Gaffron, famed Scottish painter, was enlisted and the baby located in her modest home in provincial England.

When a talent scout from Warner's London office arrived at Mauri's home he found her sick in bed with chicken pox. Informed of the refusal of the girl's parents to permit her to enter pictures, Mr. Warner said, "I did not know the little girl was English. I would rather have an American child, anyway, so we will simply find another girl that looks like the magazine cover and she will serve as well as the original model."

# HOME BUILDERS' PAGE

## Five Years Of HOLC History Shows Many Homes Saved Owners

Million Borrowers Benefitted, Most Of Them Well On Way To Home Ownership

Washington, D. C.—With more than 750,000 borrowers "making satisfactory payments"—borrowers who a few years ago were faced with the almost certain loss of their homes—the Home Owners' Loan Corporation reached its first anniversary Monday with a great part of its work accomplished.

Looking back to the troubled days when the HOLC granted its loans, when the average borrower was two years delinquent in both principal and interest on his then existing mortgage and far in arrears in taxes, General Manager Charles A. Jones revealed records which show three fourths of the million harassed persons who sought aid are on the road to debt free home ownership. More than 100,000 others still are being aided in their struggle, while more than 30,000 already have paid their loans in full.

The records of those borrowers not only brought from Mr. Jones a tribute to men and women who could fight their way back from the worst depression in American history, but an endorsement of the present housing drive and its offer of the most liberal terms to encourage home ownership.

"The home owner has been proved good security," said Mr. Jones. "Many arguments are being offered the home buyer today—arguments that he should take advantage of the best terms and the lowest interest rates ever offered. Those arguments are true. At the same time, it should be pointed out that American home owners have shown they deserve and can be trusted to carry out those liberalizing contracts. The records of the HOLC are adequate proof."

Revealing that HOLC borrowers already have paid back \$395,358,795, or 12.6 per cent of their principal indebtedness, Mr. Jones declared collections had been "remarkable" even in recent months. In March they were 97.5 per cent of billings; in April, they dropped to 87 per cent, but figures for May still incomplete, show another upswing.

"The experience of the HOLC not only has shown that present home owners are determined to keep their properties, but that there is a renewed desire for home ownership," said Mr. Jones. "This has been brought about by the new conditions for which HOLC has been largely responsible."

"It is true that the Corporation has acquired about 85,000 homes," said Mr. Jones, "and it will be forced to take over more. But the

Homes of outstanding beauty, so many of them that many first time visitors fairly gasp for breath, are to be found in numbers in Ozona. A building boom which started here in the early twenties and persisted at varying rates until the darkest days of the depression, has been revived in recent months until today there are five new homes under construction and at least two others to start soon.

Pictured here are two of the most imposing homes in Ozona—top, the recently completed native stone residence of Mr. and Mrs. Floyd Henderson. Below is the brick home of Mr. and Mrs. Roy Henderson, completed a few years ago. Both of these homes are show places along the Old Spanish Trail highway through the city.

## Ozona City of Beautiful Homes

million loans granted by HOLC were to distressed people. Their plight did not end with the day their loans were granted; many of them have struggled for years for a normal living and many of them lost their fight.

"Out of those million persons whose homes the HOLC salvaged, about 620,000 today are either entirely current or less than three months in arrears. About 138,000 more are meeting all current bills and making regular monthly payments on their arrearages in addition. Far more than 100,000 others still have a chance to save their homes. There were, of course, thousands who just couldn't make the grade—and some who wanted something for nothing.

"HOLC foreclosures still are far below the rate of comparable private lending groups. HOLC had to take bad risks; it was doing an emergency job. On the other hand private lenders now are being approached by home seekers who can be regarded as good credit risks, persons with jobs and futures. If 80 per cent of HOLC borrowers are 'coming through', with the difficulties they had to overcome, the only conclusion to be drawn is that the home owner is the best kind of security."

Work was resumed this week toward completion of the new residence and garage-apartment being built for Mr. and Mrs. A. W. Jones. Fred Sargay is contractor on the job.

## FHA Asked To Insure 96 Million In Loans During Month Of May

Washington, D. C.—Home financing operations under the Federal Housing Administration's program during May exceeded the figures for the corresponding month of 1937 by a wide margin, Administrator Steward McDonald said today.

Mortgages selected for appraisal in May totaled \$96,111,000, a new high record and 64 per cent ahead of last year. This compared with \$94,100,000 during April and with \$58,233,000 in May, 1937.

Mortgages accepted for insurance during the month amounted to \$61,677,000, a gain of 38 per cent over the 1937 period. The May total compared with \$63,250,000 in April and with \$44,387,000 in May, 1937. These commitments to insure include only those mortgages on which the individual borrower has been approved by the FHA and do not include conditional commitments issued to operative builders on homes being constructed for sale.

At the same time, the Administrator said, the proportion of new homes in current business continued to show marked gains over all preceding figures. In April, 71 per cent of mortgages accepted for insurance represented new homes, either to be built under FHA inspection or constructed within a year of the insurance. This ratio, which compared with 56 per cent for the calendar year 1937, was expected to be maintained in May.

New home mortgages have continued about two thirds of the home mortgage insurance business of the FHA since the passage of amendments to the National Housing Act in February, Mr. McDonald pointed out, compared with only slightly more than half before that time. It is estimated that about 40 per cent of the mortgages accepted for insurance during the last few months are eligible for 90 per cent mortgage financing under the terms of the amended Act 22277.

Total business done since passage of the February amendments approached the \$400,000,000 mark at the end of May. About \$327,000,000 of this comprised mortgages selected for appraisal, \$34,000,000 consisted of modernization and repair loans reported, and the balance represented mortgages on large scale rental housing projects.

## BAN STRIKES IN SLUM CLEARANCE PROJECTS

Washington, D. C.—Resolutions aimed at preventing stoppage of work because of labor disputes or a reduction in wages during con-

## Building Figures Best Since July

New York, N. Y.—Rising to the highest dollar total since July, 1937, construction contract awards for May in the 37 states east of the Rocky mountains amounted to \$283,156,000, the F. W. Dodge Corporation announced today.

The figure was an increase of 28 per cent over April and an increase of 16 per cent over May of last year.

"While the increase was largely in the heavy engineering classifications," said the Dodge survey, "residential building also showed a decided increase over the preceding month and compared more favorably with the corresponding month of 1937 than has any preceding month this year."

Privately financed work of all kinds was reported to be only 8 per cent less in dollar volume than in May of last year, while publicly financed work increased 55 per cent.

struction of slum clearance and low rent housing projects built with loans from the United States Housing Authority have been adopted by 23 local Building Trades Councils of the American Federation of Labor, according to reports received today by Nathan Straus, Administrator of United States Housing Authority.

**O. Henry Home In Austin Is State Shrine**

The modest four room cottage that housed William Sidney Porter (O. Henry) when the young man was then unknown to fame and employed in the general land office, has been converted into a museum by admirers of the worlds greatest short story writer, and is ready a state shrine. The city of Austin keeps a curator in charge and this interesting museum now draws visitors from all parts of the world. The payrolls of the land office during the '90's, when Porter was employed as a mechanical draftsman, is kept in easy access for the many interested visitors to this department by the present land commissioner, William H. Mc Donald.

**Four Students of University Scale Heights**

In the spring of '37 four young Texans finished working their way through the state university, received their law degrees, and went their separate ways.

Less than 30 years later these four bosom friends were serving simultaneously as senior senator from Texas, junior senator from Texas, governor of Texas, and attorney-general of Texas.

The four, in the order named, were: Morris Sheppard, Tom Connally, Pat M. Neff, and Walter A. Beeling.

**Princely Land Grants Handed The Railroads**

Some commentators now bemoan the fact that three million acres of land are given in exchange for our state capitol, and due to the fact that these lands are now valued roughly at a hundred million dollars, we thus have the costliest capitol building in the world.

But records show that thirteen times as much land was given to Texas railroads to hasten railway construction. That prior to 1892 exactly 38,826,880 acres of the public domain had been so awarded.

Thus, a billion dollar land bounty was handed to our railroads by the people of Texas, on a proverbial silver platter.

**Electric Crews Do Speedy Repair Job In Storm Torn Town**

The job of rebuilding the picturesque little town of Clyde, struck last Friday by a tornado which took a toll of 14 lives and nearly \$100,000 in property damage includes construction of many blocks of electric distribution lines, according to Arthur Mitchell, local manager of the West Texas Utilities Company, who said speedy restoration of light and power in the unstricken portion of the village had been cited as "greatly facilitating rescue work."

Despite the tangled mass of poles and lines, uprooted and hurled into the jumble of splinters from some 20 homes and 19 freight cars, lights were on again in Clyde only 32 minutes after the storm first struck the company's \$6,000-volt line a few miles north. The "juice" was cut off almost instantly so that there was no danger from "live wires" when the tornado swirled into the residential section.

**\$15,000 Hereford Bull**

Rotan, Texas, June 16 — New Hereford history was made this week when John B. Stribling, Hereford breeder of Rotan, Texas, announced the sale of a one-half interest in the herd bull, Advanxiety, to Drs. W. J. and J. L. Jinkins, physicians of Galveston, Texas, who maintain a Hereford breeding establishment at Normangee, in Madison County, Texas. This sale not only establishes a new record for the sale of partial ownership in a herd bull, but sets a new high in Texas herd bulls when the \$15,000 value was established.

The bull has held the attention of Hereford breeders throughout the nation since his birth three years ago. At four months of age he gave such promise of being outstanding that Stribling announced him as a future herd bull and inaugurated a naming contest which resulted in more than 3,000 suggested names by Hereford breeders of thirty-six states, the Dominion of Canada, Australia, and Hawaii. The chosen name, Advanxiety, coined by adding to Anxiety the first three letters of the calf's sire, Advance Domino, thus deriving Advanxiety, pronounced "Advang-zee-tee." Originally selected by Stribling because of his individual merit and illustrious ancestry, his development has been closely followed by Hereford breeders.

At Stribling's second sale, held in 1936, the bull, as a yearling, sold for \$1,425, the top price of the sale, to Winston Brothers of Snyder, Texas. During the ensuing year the bull, while in service, was shown by them at six major livestock shows. Though not highly fitted he placed well up in the money each time. Stribling noted the outstanding individual merit of the calves sired for him by the bull prior to his sale and repurchased him from Winston Brothers for service in his own herd. Shortly after the repurchase of Advanxiety, his first son, Advanxiety Jr., a six-months-old calf, sold in Stribling's 1937 sale for \$1,325.

This great young bull is of line bred Anxiety 4th breeding and combines the blood of two great sires, Advance Domino and Superior Anxiety Jr., through the well-known Pretty Lady cow family.

The Jinkins brothers, co-owners of Advanxiety, physicians at Galveston, Texas, have been consistently building a Hereford herd for the past two years. Addition of Advanxiety to their herd marks a long step forward in advancement of a herd already numbering many outstanding individuals, including a number of the better females of the Stribling 1937 and 1938 sales. A week prior to the purchase of Advanxiety the Jinkins brothers purchased the heifer, Blanche Mis chief 44th, at the Mousel Brothers' sale at Cambridge, Nebraska.

many of them in the past four years. His 1937 sale, with an average of \$605 set a new all-time high on Texas Herefords at auction. A bull in that sale sold to Jack Frost, Blackwell, Texas, for \$6,000, a new breed high for a Hereford bull at auction since 1923. His March 1938 sale holds the year's record to date with an average of \$540 on fifty-seven head.

**MRS. CLAYTON HOSTESS AT BRIDGE-BREAKFAST**

Mrs. Boyd Clayton was hostess to members of her bridge club at a bridge breakfast at her home here Tuesday morning. Mrs. Sherman Taylor was awarded high score trophy. Mrs. Clay Adams, second high, and Mrs. Gertrude Perry, low.

Other guests were Mrs. Massie West, Mrs. Evart White, Mrs. Charles E. Davidson, Jr., Mrs. Roy Henderson, Mrs. Jake Young, Mrs. J. W. North, Mrs. Jimmy Blaylock, and Mrs. J. A. Brashear.

Mr. and Mrs. W. E. Friend, Jr., are in San Angelo this week.

In this column answers will be given to inquiries as to Texas history and other matters pertaining to the State and its people. Address inquiries to Will H. Mayes, Austin, Texas.

**Q. In what way did conflicting claims arise between Spain and France as to ownership of the Texas territory?**

A. When Cortez discovered and conquered Mexico in 1519, Spain claimed the entire territory bordering the Gulf of Mexico, but did little to extend its discoveries north beyond the Pausco River or to assert its ownership. When La Salle, in 1682, made his way from French owned Canada down the Mississippi to its mouth, he laid claim to the entire valley and everything beyond for France and named the country Louisiana. Thus both Spain and France claimed vast territories without any definite bounds between.

**Q. How did La Salle happen to establish a fort on the present coast of Texas?**

A. Returning from France in 1685 he was looking for the mouth of the Mississippi to make his way to where he had left his companion, Tonty, in 1682, with a view to establishing a fort and trading point there, but missed the river's mouth and finally landed in what is now Matagorda Bay. The erection of Fort St. Louis on Garcitas Creek gave France an additional claim to Texas, formally made by La Salle, and disturbed the Spanish claimants.

**Q. Where were the first strong tribes of Indians seen in Texas?**

A. After Coronado's expedition crossed the Pecos in 1541 en route to Quivira, Indians were found who were described as intelligent

## Gandhi Visits Northwest Frontier

Mahatma Gandhi, who was given an enthusiastic reception by thousands of people during a recent visit to the Northwest Frontier Province of India, is shown addressing students of King Edward's college at Peshawar, India. On Gandhi's left is Rev. A. M. Dalaya, principal of the college, and on his right is Khan Abdul Ghafar Khan, who is known as the "Frontier Gandhi."

strong, and brave. Coronado called these Queveros, said to be the old Comanche name of the Tonkawas, and also believed to have been the Apaches of the plains, afterward so well and so unfavorably known to Texans.

**Q. What three different motives international in character, prompted the settlement of Texas?**

A. The Spanish developed new countries for exploitation, especially in mining, treasure seeking and quick acquisition of wealth; the French sought largely the extension of trade territory; the English and most other Europeans and Americans were home seekers and home builders—frontiersmen in the fullest sense. Many frontiersmen, however, regardless of nationality, were individualists actuated by various motives.

**Q. What was the issue at San Jacinto that was deeper even than the injustices that Mexico had imposed on Texans?**

A. It was a contest between aggressive Anglo American development of civilization and listless Spanish-American satisfaction

with luxurious ease, as was exemplified in the active attack of the Texans while Santa Anna and his forces were indulging in the comforts of the siesta.

**Q. During what period were the Cherokee Indians most active in Texas?**

A. From 1818 to 1838, during most of which time they were friendly and helpful to the colonists of east Texas, due especially to the influence of Sam Houston, who had lived among them and knew how to get along with them.

**Q. What two Indian tribes were found by Cabeza de Vaca and his companions on Galveston Island and the adjacent coast country in 1528?**

A. They were known as the Capoques and the Hans, the two tribes speaking different languages or dialects. Both tribes were of excellent physique and were expert archers.

**Q. Were any large tribes of Indians encountered by Cabeza de Vaca along the Rio Grande on his way to the Pacific coast?**

A. He met numerous small tribes or camps of Indians on his journey across southwest Texas, speaking different languages, such as the Quevenes, the Meramees or Jaranames, but no large tribes or confederacies that could be identified with the strong, warring Indians that later occupied Texas.

dians in morals and intelligence but fierce and powerful in physique.

**Q. When and how was Santa Anna captured at San Jacinto?**

A. On the morning of April 22, Colonel Ed Burtleson with thirty or forty men went to Vince's Bayou in search of straggling Mexicans. Near Vince's a scouting party composed of James A. Sylvester in command, Joel W. Robinson, A. H. Miles Charles P. Thompson, S. R. Bostick, and Joseph Vermillion separated from the main body and in a short time found Santa Anna who was not immediately recognized, hiding in the tall grass and took him to the Texas camp.

**Q. Which of the group captured Santa Anna?**

A. Sergeant Sylvester afterward stated that he had separated from the others in an effort to kill a deer when he discovered Santa Anna, and this appears to be confirmed by his service record, his captain, William Wood, having said that he "was the individual who took the person of Santa Anna." The Telegraph and Texas Register of December 19, 1837, however, in an obituary to A. H. Miles, gave Miles credit for the capture, and a claim has been also made that S. R. Bostick, who afterward lived at San Saba and is buried there, was the real captor.

**Q. Who was James A. Sylvester, the reputed captor of Santa Anna?**

A. Sylvester was born in Baltimore in 1807, and came from Kentucky to Texas after enlisting in Louisville with Captain Sidney Sserman's volunteers, December 18, 1835. He preceded Sherman's company to Texas and on February 29, 1836, was given a captain's commission in the Texas reserve army. He was a sergeant at San Jacinto and the bearer of the only Texas flag in the battle. Houston gave him a captaincy at San Augustine, August 3, 1836, and he was with the army until June, 1837. He was a member of the Somervell expedition of 1842 and moved to New Orleans the next year, where he died April 9, 1882. He was a printer and was never married.

**Q. What was the name of the cannibalistic tribe on the Gulf coast that caused much uneasiness among early settlers?**

A. The Carankawas or Karankawas, who were said to have been the lowest among all Texas In-

members of the Hanani or Caddo confederacy?

A. Though much like them in appearance and customs, the Aias Indians were not closely confederated with other Texas tribes. They were indolent and inferior, eager to accept gifts, but irresponsible to civilizing influences.

And a bedroom telephone gives a reassuring sense of security at night, should emergencies of any kind arise.

## ATTENTION TAXPAYERS

### Second Half Tax Payments

### Must Be Made In June To Avoid Penalty

Persons who paid 1937 first half taxes on the split payment plan are reminded that the last half payment must be made on or before June 30.

Effective July 1, a heavy penalty (8½%) will apply on delinquent amount—with added interest at the rate of ½ of 1% per month until paid.

### SAVE ON DELINQUENT PENALTIES— PAY THIS MONTH

If your taxes for 1937 are already delinquent, pay this month to avoid the sharp increase in penalty which will apply after July 1.

Tax Assessor and Collector, Crockett County

## Texans To Save 2 1/2 Millions By Insurance Cuts

Near 10 Percent Reduction Effective June 15th

Austin, June 15—Marvin Hall, state fire insurance commissioner, today announced reductions in fire insurance rates in Texas that will save the insurance buyers of this state some \$2,500,000 annually.

The reductions, effective June 15, 1938, average something in excess of ten per cent, and apply on those classes of property which effect the greatest number of people and provide the largest part of the premium volume of the state. These include dwellings, mercantile buildings and stocks of merchandise, farm property, garages, public buildings, churches and others.

In connection with the publication of this order, Commissioner Hall said: "The current reductions, together with others previously ordered in 1936 and 1937 have the result of reducing the premium level in the state by approximately \$4,000,000; or, in other words, insurance in the next twelve months will cost the premium payers of Texas some \$4,000,000 less than they would have paid for the same protection eighteen months ago. The extent of the reduction may be visualized when it is noted that no actual increase in the number of dollars collected

has resulted from the enormous amount of new construction and new values created."

During 1937, the first year of Hall's term, the cost of dwelling insurance was reduced by about \$1,000,000 per year by the removal of some charges in the rating schedule. "These reductions are still in effect and the premium payers still receive the benefit of them. Adding those to the reductions effective June 15, the net re-

sult is a reduction of twenty per cent in the cost of fire insurance to home owners in two years," Hall said.

"Also, in March, 1937, and again in March 1938," Hall pointed out, "orders were issued increasing good fire record credits in various cities and towns of Texas to produce a reduction in premium cost aggregating \$500,000."

"In the current order reducing fire insurance rates, a reduction

of ten per cent or more is made in wind storm or tornado insurance on dwellings in the Seacoast territory. The good experience there, due to the absence of a hurricane in the last few years, has justified the reduction," Hall said.

"It is too often overlooked," he said, "that insurance rates depend entirely on the losses sustained for which the insurance is paid. When losses are reduced it is possible for rate making authorities

## Exciting Moment in English Motorcycle Race

It isn't a spill. The sidecar passenger is leaning over to keep the balance of the machine as they take a difficult turn during the Sydenham Vase race for motorcycles with sidecars at London's Crystal Palace.

to reduce rates, but when the losses are high the rates must be correspondingly increased.

"The present reductions, which are a result of a public hearing recently held, are based largely on the favorable fire loss record in the state during recent years. The work is not complete, however as many other phases of the rate problem still are being studied by the board."

## Chuck Wagon Gang Gives Program Here

The local Piggly Wiggly grocery was host to a large crowd Tuesday night when the radio entertainers known as Bewley's Chuck Wagon Gang were presented in a half-hour program from their loud speaker truck parked in front of the Piggly Wiggly store. A local flavor was given the program when Miss Adelia Willis, daughter of Sheriff and Mrs. W. S. Willis, sang several numbers with the Church Wagon Gang accompanying. Miss Willis sings in a 15-minute program each Saturday after-

noon from the San Angelo radio station.

... Stands for "Kilowatt",  
Stronger than a mule,  
Always on the dot,  
Workin' like a fool!

... Stands for "Idleness",  
A word he does shun;  
Reddy must confess  
To him work is fun!

... Stands for good old "Light",  
(Pennies pay the bill),  
Makes your home so bright,  
Yuh got zbeer to spill!

... Stands for "Obsolete"  
As kitchens do seem  
'Less Reddy, so fleet,  
Appears on the scene!

... Stands for your bank "Wad";  
The savings stack high  
Like peas in a pod—  
If Reddy's near by!

... Stands for fast "Action";  
With Red on the job,  
Fear no infraction!  
There is time! Love Bob!

... Stands for "Time-Saving";  
See? Reddy will do  
All the slime-slaving  
That's left up to you!

... Stands for "Together,  
Divided we fall"—  
Makes not a dither ...  
Reddy's got the ball!

## Your Electric Servant

"Folks, I'm Reddy Kilowatt, Your Electrical Servant. I don't want a formal introduction. But I do want to get on such friendly terms with you that I can say, 'Howdy, Bill,' and 'Howdy, Mary.' I want you to invite me in, see? I won't be any trouble. In fact, I'll do all the work you've been doing. That's my specialty. While my name is new right here in West Texas, you've had the benefit of Electric Service all the time. My entrance into the picture merely gives personality and a warmer touch to it. Too, I can tell you more ways in which to use the West Texas Utilities Company. Make 'em work for you! Their rate of pay—well, let's say 'My Rate of Pay'—is so small you'll be positively flabbergasted at the work I do for a few pennies. I'll be with you from now on ... in the papers, in the show windows, and—I hope—right in your home and business. You see, folks, I'm Your Electric Servant!"

### Souvenir Gifts for the Children

Visit us Friday! A Reddy Kilowatt balloon and pasteboard cut-out figure will be distributed to children, accompanied by one or both parents, visiting our showroom Friday, June 17.

### Missionary Circles Meet In Groups For Bible Study Program

Members of the Woman's Missionary Society of the Baptist Church met in Circle sessions Wednesday afternoon, each group continuing the study of the missionary topic, "Famous Women of the Old Testament." Mrs. S. L. Butler led the study at the Nelson Circle meeting at the home of Mrs. J. T. Patrick. Others present were Mrs. Leslie Nance, Mrs. John Patrick, Mrs. Cleophus Cooke and Mrs. J. S. Whatley.

The Lottie Moon Circle met at the home of Mrs. Charlie Butler, who led the study. Others present were Mrs. Harvey Collard, Mrs. Hartley Johnigan, Mrs. Chester Schwalbe, Mrs. Clyde Childers, Mrs. T. H. McLaughlin, Miss Maybelle Taylor, Mrs. Will Miller and Mrs. O. W. Smith.

Next week, both Circles will meet at the home of Mrs. Clyde Childers. At that session the study of the topic of famous women will be concluded. Mrs. Leslie Nance will direct the study.

### No Scabies Found In May Inspections Thru Angelo Area

There was employed in the San Angelo district for the month of May, two state men and six county men who spent their entire time in an effort to eradicate scabies infection, and a total of approximately \$290 was expended by this department in its regular Eradication Program.

One hundred eighty-three herds and a total of 109,230 sheep, goats

### CAMPAIGNS HERE

Dent Taylor of Kerrville, candidate for State Representative from the 86th district, visited Ozona late last week meeting local voters and promoting his campaign. Mr. Taylor was accompanied by Bob Bennett, Kerrville editor.

and cattle were inspected or dipped, none classed as exposed or infected.

The Livestock Sanitary commission of Texas will continue the work in the San Angelo district in an effort to protect the livestock in this district from imported infection, and affording the necessary scabies certificates demanded by other states on live stock moving from Texas.

The above work was conducted under the supervision of H. H. Cosper, Supervisor of Scabies Eradication Work, San Angelo, Texas.

### Plans For—

(Continued from Page 1.)

ed workers under Council supervision. She will take up the work here beginning September 1.

The deaconess, who will carry on a broad program of cultural and religious education among the Mexican population, is furnished by the Missionary Council, her salary being paid by that branch of the church. All that the local society needs to furnish is living quarters for the worker. It is the plan of the local group to erect a structure of native stone which will serve as living quarters for the deaconess and an auditorium for assembly purposes. A lot has been donated by the county west of the Mexican school building as a site for the structure and a number of leaders among the local Mexican population have offered to furnish trucks and some labor for hauling all sand, gravel and rock needed in the construction work.

Mrs. Sam Roberts, case worker for the Texas Relief Administration serving Crockett, Sutton and Schleicher Counties, who was a guest of the society at yesterday's meeting, outlined the conditions under which the building might be erected with WPA labor and indicated that she would take the matter up with the proper authorities for a decision.

A devotional program opened the meeting at the Pierce ranch home Wednesday morning, with Mrs. Charles Williams as leader. "Building the Kingdom of God in Japan" was the day's study topic. Mrs. Floyd Henderson gave the Scripture lesson and Mrs. L. B. Cox and Mrs. Madden Read gave talks on the study topic.

Luncheon was served by Mrs. Pierce and the afternoon was devoted to the business session, which was featured by discussion of the Mexican Settlement House plans. A zone meeting of the society will be held in Ozona July 8, it was announced.

Members present for the meeting were Mrs. Charles Williams, Mrs. W. E. Smith, Mrs. Eugene Slater, Mrs. Scott Peters, Mrs. Minnie Crumley, Mrs. W. R. Baggett, Mrs. L. B. Cox, Mrs. Madden Read, Mrs. Joe Pierce, Mrs. V. I. Pierce, Mrs. Arthur Mitchell, Mrs. Carl Colwick, Mrs. Mary Flowers, Mrs. M. A. Runnion, Mrs. E. B. Baggett, Mrs. Floyd Henderson, Mrs. Strick Harvick, Mrs. Taylor Word, Mrs. Jake Miller, Mrs. N. W. Graham, Mrs. Sam Roberts, and Mrs. John Henderson.

### EDUCATOR DEAD

Death Saturday claimed Dr. Bradford Knapp, 67, president of Texas Technological College at Lubbock and an outstanding Texas educator. He had been in ill health for several weeks. A heart disease was the cause of death. Dr. Knapp had been president of Texas Tech since 1932.

### MRS. HAGELSTEIN LUNCHEON HOSTESS

Mrs. Ele Hagelstein entertained with a bridge luncheon Tuesday noon at her ranch home for members of her bridge club and a few guests.

Mrs. Jake Miller took high score trophy and Mrs. Hugh Childers, Jr., won the bingo prize. Other guests were Mrs. Doug Kirby, Mrs. Alvin Harrell, Mrs. Al O'Field, Mrs. Bill Littleton, Miss Carolyn Montgomery, Miss Totsy Robison, Mrs. Dempster Jones, Mrs. Joe Sellers Pierce, Miss Wanda Watson, Miss Mildred North, Miss Ada Moss, Miss Wayne Augustine, Mrs. Richard Flowers and Mrs. Joe Clayton.

Mr. and Mrs. Joe Clayton, Mrs. A. W. Clayton of San Angelo and Gene Williams enjoyed a vacation trip to Corpus Christi last week.

Dr. F. T. McIntire of San Angelo, formerly of Ozona, left the end of the week for San Francisco to attend the annual convention of the American Medical Association. The convention will be in session all this week.

A new Buick coupe was delivered recently by the Wilson Motor Co. to Mr. and Mrs. Hillery Phillips.

### Meet 'Reddy Kilowatt' Your Electric Servant

With the announcement in today's issue of The Stockman, introducing "Reddy Kilowatt", officials of the West Texas Utilities Company, made this explanation of the new addition to the company's staff:

"For a number of years, we've been seeking some way in which electric service could be pictured to the public. Practically everyone knows about electricity. But to many persons it is a mysterious force which they believe comes out of the sky. In fact, however, it must be generated at a high voltage, then subduced and more or less served on a platter in homes and business where it may be safely used at a mere turn of a switch.

"In Reddy Kilowatt we believe we have a figure which illustrates electric service in an unmistakable manner—one which immediately suggests electric service."

In order to help acquaint WTU customers with "Reddy", Arthur Mitchell, local manager, said that free balloons bearing Reddy's picture and small pasteboard cutout figures of the little fellow will be presented to all children, accompanied by an adult, who visit the local office Friday.

300 ANGORA NANNIES 1 to 6 years old at \$3. Delivered Aug. 25 in the hair. Also 180 kids at \$2.50 in the hair, same delivery date. See or write Lewis Hersey, Big Lake.

### Brighter Outlook For American Business

By John Craddock

New York, June 15—A better feeling prevailed last week in business and agricultural circles. Farmers, especially in the west, were cheered by the fact that the price of wheat which two weeks ago dropped to 67½ cents a bushel, was back to the 75-cent level. With America's wheat crop estimated at one billion bushels, this rise means \$80,000,000 more for farmers. Cotton rose too, more than \$2 a bale, on reports of heavy rains damaging the crop. Great Britain ordered 400 airplanes from U. S. firms, practically assuring capacity operations in this industry for at least two years. Auto manufacturers said that it may not be necessary to close Detroit plants for two months this

summer, as previously expected. Renewal of confidence is seen in the fact that railroads last month ordered 6,114 new freight cars. In April only three were ordered.

Washington—While retail business promises to be dull this summer, there is good reason to look for a sharp expansion in the fall. President Roosevelt has asked the PWA to prepare a list of projects costing about \$600,000,000 which can be begun by the end of the month. Once the government program gets rolling, it is believed that an average of \$100,000,000 a month will be spent for the balance of 1938. Opinions differ as to the ultimate value of such a program for achieving lasting recovery, but there is little doubt that temporarily it will greatly stimulate mass buying power and therefore retail trade.

### REALLY EATING IT

"Only last year in India," boasted the club bore, "I suddenly found myself face to face with a man-eating tiger."

"And only last week," murmured the quiet little man in the corner, "in a restaurant, I found myself face to face with a man-eating fish."

### TOUGH STOCK—

(Continued from Page 1.)

West Texas' featured western show. The annual Rambouillet sheep show will take place Wednesday morning before the opening of the regular show Thursday. The annual sheep sale will be held each morning during the three days starting at 9 o'clock, and continuing until noon.

The afternoon programs will get under way at 1:45 with the parade of entrants in all events before the grand stand. After that the show will be unfolded in rapid fire order, with many brand new features in store for spectators this year.

An outstanding feature of this year's entertainment program will be the daily performance of the trained sheep dogs of Luke Pasco, nationally famous breeder, importer and trainer of Border Collie sheep dogs. Mr. Pasco has exhibited his famous dogs, topped by "Jean", many times national champion sheep dog, at the nation's outstanding livestock exhibitions including the International at Chicago, the American Royal at Kansas City, Southwestern at Fort Worth and many others.

### 1915 NEWS ITEM TELLS OF WEDDING OF OZONA COUPLE

A news item from the San Angelo Standard files of June 13, 1915, appearing Sunday in the "Yesteryears" column of the Standard-Times, was of particular interest to one Ozona family. The item told of the marriage of Mr. and Mrs. Max Schneemann of Ozona. The news note was condensed as follows:

"On Wednesday morning at 8 o'clock, a quiet wedding occurred at Ozona, uniting in marriage Miss Phil A. Perner, daughter of Mrs. M. L. Perner, and Max Schneemann, son of Mr. and Mrs. Wm. Schneemann of this city. Rev. M. B. Read of the Methodist Church, spoke the marriage vows. The bride and groom left for the Schneemann ranch for a short visit before coming to San Angelo to visit the groom's parents."

## I LEARNED HOW TO CONTROL SKIDS IN ONE MINUTE

**STOPS QUICKER**  
When brakes are applied, the "do-skidless" U.S. ROYAL MASTER cuts go into action, hundreds of sharp gripping edges bite through the slippery surface film, enable the flexible tread units to solidly grip the pavement.

TRY IT YOURSELF. SEE IN AN AMAZING DEMONSTRATION HOW U.S. ROYAL MASTERS STOP 4 TO 223 FEET QUICKER		
4 FEET QUICKER	73 FEET QUICKER	46 FEET QUICKER
75 FEET QUICKER	111 FEET QUICKER	223 FEET QUICKER

**CONTROLS SIDE SKIDS**  
When the weight of the car suddenly shifts to the side, in turning corners, passing cars, etc., the sharp lateral edges of the seven continuous ribs go into action, instantly bite through the film and gain a direct positive foothold on the road.

Come in! Make this sensational one-minute test today. Discover new safety from skids... learn how to make safer, quicker stops. No obligation.
