Official Ballots Ready For Voters In First Primary

Absentee Voting Now Under Way; One Is Cast Here

Official ballots for the first Democratic primary election, to be held July 23, were printed and delivered early this week to the county clerk's office.

The order of names of candidates as they appear on the official ballot was determined by lot at a recent meeting of the county Democratic committee in the office of Houston Smith, county chairman.

Absentee voting started Sunday over the state. However, the first (and to date only) absentee ballot was cast here Tuesday. Persons who expect to be away from their voting precinct on July 23 are allowed to cast their ballots absentee.

The ballot shows a slate of thirteen candidates from which voters are to be called on to select a governor. The name of W. Lee O'Daniel, Fort Worth flour dealer, leads off the list of candidates for governor. The name of Ernest O. Thompson appears in seventh place, William McCraw in eleventh place and Tom F. Hunter last. The other lesser known candidates are scattered through the long list.

Coke R. Stevenson of Junction, representative from the 86th district and now a candidate for lieutenant governor, drew first place in that race, with Nelson, Davisson, Smith, Brooks and Mead following order.

In the district race for representative from the 86th district, C. H. Gilmer of Rocksprings drew first place in the list for that office, with Dent Taylor of Kerrville and Marvin E. Blackburn, Jr., of Junction following in order. Judge Joe G. Montague drew first place over W. A. Hadden in the race for Judge of the 112th district court.

Only one race for Crockett County office will call for a decision of county voters. This is the race for county surveyor in which N. E. Rendall is opposing the incumbent, W. P. Conklin, for reelection. In the drawing for places, Rendall's name came up for the top slot and Conklin for the bottom position. Unopposed county candidates include Judge Charles E. Davidson for county judge, Geo. Russell for county and district clerk, W. S. Willis for sheriff, assessor and collector of taxes, N. W. Graham for county attorney, W. M. Johnson for justice of the peace, Precinct 1, and the County Commissioners, Rob Miller, Precinct 1, Charles Black, No. 2, J. W. Owens, No. 3, and E. R. Kinser, No. 4.

A sample ballot, or copy of the official ballot, appears complete on page 6 of this issue of The Stockman.

Pipe Line Employees Guests Of Company At Stockton Picnic

Employees of the Texas-New Mexico Pipe Line Company in the western section of the line enjoyed a picnic as guests of the company at Fort Stockton Saturday, July 2. The picnic was held in Fort Stockton park with all employees, their families and guests invited.

Softball games, programs presented by different groups of the company personnel, swimming in Fort Stockton pool and other activities furnished diversion during the afternoon. A chicken barbecue supper with all trimmings was served from 6:30 to 7:30 p. m., followed by informal dancing at Fort Stockton pavilion, Jed Tarver's orchestra furnishing the music.

Members of the personnel of the Texas-New Mexico Pipe Line station 8 miles west of Ozona attended the picnic, with several local guests, including Mr. and Mrs. Frank James, Mr. and Mrs. Slick Miller, Miss Clara Mae Dunlap and others.

Princess Beatrix Makes Her Bow

Princess Juliana and her consort, Prince Bernhard, proudly display their infant daughter, Princess Beatrix, who may one day rule the Dutch empire, at a reception at Soestdijk palace in The Hague for aged persons residing in the surrounding district. Many of these had an opportunity to see the little princess.

FHA Officials To Explain Program In Meeting Here

Interested Citizens Invited To Meet Set For July 26

An explanation of the new provisions of the Federal Housing Act and the new program of FHA as applied to this community will be heard by members of the building trades and interested citizens at a meeting to be held here July 26 at which a group of representatives of the San Antonio insuring office of FHA will be present.

This information is contained in a notice received recently from the San Antonio FHA office. The local meeting is one of a series being held over the state to explain the new FHA amendments and to promote the nationwide program of building under the FHA insured loan plan.

C. T. Macleod, District Manager, B. V. Buchek, Chief Underwriter, and J. R. Wallace, Title 1 Field Representative, all from the San Antonio office of FHA, will compose the party of officials to visit in Ozona. A meeting has been arranged, with these officials directing the discussion, in the district courtroom at the courthouse here starting at 8 o'clock Tuesday evening, July 26.

The discussion will be centered on local activities covering an educational program to be launched here under the new amendments. Round table discussion will be held at the close of the meeting, covering preparation of applications, financial arrangements and local activities.

Harvicks Hosts To Party Girl Campers

Mr. and Mrs. Strick Harvick entertained a group of 38 girls from Camp Waldemar at Kerrville with a picnic luncheon in the city park here at noon Wednesday when the party stopped off here during the noon hour on their way to Carlsbad Caverns.

Mr. and Mrs. Harvick were assisted by a group of former Waldemar girls, including Mrs. Jake Miller, Mrs. Joe Sellers, Pierce, Miss Ora Louise Cox, and Miss Billy Jo West, and by Misses Catherine Childress, Mary Alice Smith, Betty Lou Coates, and Dorothy Hannah, Mrs. Scott Peters, Mrs. Lee Childress and Mrs. Wayne West.

Among the girls from the Kerrville camp was Miss Mary Louise Harvick, daughter of Mr. and Mrs. Harvick, who is attending this summer's camp. There were 38 girls in the party, traveling by bus.

Drug Store Taking Straw Vote On Race For Texas Governor

It's the popular thing to do—this business of taking straw votes to try to get an inkling of how the voters are going to decide the question of who is to become the next governor of Texas.

So, the management of the Ozona Drug Store installed a ballot box in its store several days ago and invited customers to cast their ballots on their choice of the field of thirteen candidates for the highest political office in Texas.

Voting has been strong, according to I. G. Rape, proprietor, and considerable interest is being manifested in the scheduled opening of the box next Saturday evening. Free drinks and cigars are promised those interested in the returns who are on hand at the opening. Subsequently, the box will be opened each Wednesday night, until the week of the election. Mr. Rape announced.

Bank Shows Over Million Deposits Held By Ozonans

Healthy Financial Condition Revealed By Statement

Despite the low price of wool and the quantity of fiber from Crockett County ranches still in storage awaiting a better price, deposits in the Ozona National Bank continue to stand well over the million dollar mark, according to the statement of condition issued by the local financial institution as of the close of business June 30.

Total deposits were listed at \$1,011,211.70, which is an increase of \$106,252.80 from the last previous statement, issued at the close of business March 7, 1938. The total deposits declined \$39,000 from a high mark reached in the statement of December 31, 1937.

Loans outstanding at the statement date totalled \$549,572.05, a steady increase in this item from the first of the year indicating a healthy optimism in business circles served by the institution. The loan account was up from \$504,443.90 on December 31, and from \$535,360.76 in the March statement. The surplus and undivided profits items in the bank's statement have also shown steady increases in the period. A \$10,000 dividend, or \$10 a share, was recently voted by the directors and paid July 2.

Ozonans Pick Own Brand Diversion For 4th Of July

Shift Of Show Dates Leaves First Open Date For 4th

For the first time in the memory of perhaps the oldest old timer of Crockett County, folk of this community had to look elsewhere for their Fourth of July entertainment in this year of 1938.

Since the early days of Ozona, cowboys of the area have gathered in Ozona, and visitors from surrounding counties, to take part in a Fourth of July rodeo and barbecue. In 1926, this annual July gathering was placed on an organized basis, and for a three-day instead of a one-day celebration and entertainment. In that year the Crockett County Fair Association was organized, the present fair grounds tract acquired and grand stand and other equipment built.

Since that time, with the exception of two years in the period in the depth of the depression, the annual three-day entertainment has been staged, each time to embrace the Fourth of July. And even in those years when the fair officials considered "times too hard" for attempting the annual show, there was the traditional barbecue and baseball games and other strictly local entertainment.

This year, however, the show dates were set up to the fourth week in June, with the idea of spreading the summer entertainment events out more evenly for West Texans, and avoiding a first-of-the-week show date. And a very successful show was staged two weeks ago.

The Fourth of July, then, left Ozona residents free to attend rodeo and race programs in other cities, to go fishing, to start vacation trips, to visit friends and relatives or just to loaf. And Ozona citizens perhaps did all of these things. Certainly a goodly portion spent the two-day holiday weekend on the river attempting to lure the "big ones" and others went to other show centers to enjoy the traditional West Texas brand of Fourth of July entertainment—the rodeo—and some just loafed.

Income Livestock Producer Holds Up In General Decline

Austin, July 6—As computed by the University of Texas Bureau of Business Research, farm cash income in Texas during May was \$25,823,000 compared with \$29,923,000 the preceding month and \$31,022,000 during May last year. Normally there was a decline in farm cash income for the state as a whole from April to May, so that the increase in May this year over April caused a sharp increase as a whole after adjustment is made for seasonal variation.

The decline in income as compared with May last year was primarily the result of the drop in farm prices. In the districts in which livestock are relatively important farm cash income held up well. During the first five months of the year the computed farm cash income for the entire state—exclusive of government payments—was \$99,229,000 compared with \$112,138,000 during the corresponding months last year. It is estimated that the computed figure is about 90 per cent of the actual.

RAM BRINGS \$100

Sale of a Rambouillet range ram for \$100 by Walter Augustine who ranches in Terrell County southwest of Sheffield, was reported here this week. The ram was purchased by Col Coates of Fort Stockton.

Mrs. W. E. Friend, Jr., and her infant daughter, Wesley Carol, born recently in a San Angelo hospital, have returned to their home here.

Walter Childress Bitten By Rattler

Walter Childress, former Ozonan, now ranching near Balmorhea, was bitten on the finger by a rattlesnake late Wednesday afternoon, according to word received here by a daughter, Mrs. Bob Weaver.

Mr. Childress was rushed to Pecos, where he was given antivenom serum and reports received this morning indicated that the treatment was effective and that he was recovering satisfactorily.

Grub Worm Causes Damage To Grass On Range Lands

Experiment Station Officials Investigate Newest Pest

Investigation is being made by the Ranch Experiment Station near Sonora of a white grub worm which is thought to be responsible for destruction of large patches of grass and other vegetation on ranch lands east of Ozona between here and Sonora, according to W. H. Dameron, director of the experiment station, who was a visitor here Wednesday.

The investigation resulted when ranchmen reported large areas of grass dying without apparent cause. Digging in the affected areas produced the grubs which were sent to College Station for examination. The same grub is common over the state and has produced considerable damage further east in the state, but according to Mr. Dameron, this is the first time they have been discovered in numbers sufficient to cause damage to ranges this far west.

No fear is felt by Station officials that the grub will spread to cause any considerable damage. However, the matter is to be given special study and full information will be available at the Farmers Short Course at the College this month.

Control methods have not been worked out in the event it is thought advisable to take measures to stamp out the new range pest, Mr. Dameron said, but that the worm could not doubt be destroyed with some method of poisoning. It is probable, however, he said, that its natural enemies will take care of the situation before any action is necessary.

Crockett Lambs Sell For \$6.75 On K. C. Market

Fred Hagelstein Consigns 633 Head; Market Favors Seller

Kansas City, Mo., July 6—A consignment of 633 head of spring lambs, owned by Fred Hagelstein of Crockett county, to the Kansas City market last week cashed at \$6.75 per cwt. The springers averaged 60 pounds.

Sellers were in a favorable position at the Kansas City stock yards last week when receipts were inadequate to supply the demand which sent buyers into crisp competition for supplies. As a result of the competitive demand, cattle prices reached a new high of \$10.75 for the year, and the average advance on all classes of killing cattle was placed at 50 cents. Good to choice grain fed the advance.

Lamb prices shot upward 50¢ to 75¢ and lamb buyers found a situation similar to that faced by cattle buyers when lower lamb receipts put supply in a better position with demand which resulted in a price trend favoring the shipper.

Hog prices remained steady with the previous week and receipts (Continued On Last Page.)

ZONE MEETING OF MISSIONARY SOCIETY HERE

50 To 60 Expected At All-Day Program Friday

NOON LUNCHEON

All Women Of Church Are Invited To Day's Meet

Between fifty and sixty visitors from surrounding counties are expected to be in Ozona tomorrow, Friday, as guest of the Woman's Missionary Society of the Methodist Church for the quarterly Zone Meeting of the organization.

The Zone Meeting will be an all-day session at the church, with a covered-dish luncheon to be served in the basement of the church at the noon hour by the local society. All women of the church are cordially invited to the zone meeting sessions and luncheon.

Mrs. Scott Peters of Ozona is president of the zone organization this year. She will preside over the business session of the group scheduled as the closing feature of the day's program.

Mrs. H. E. Hays of Rankin is to be the program leader. As special speakers on the program for the day will be the Rev. Kenneth Hemphill of Menard and the Rev. and Mrs. Ennis Hill of Junction. Mrs. Hill is district secretary of the San Angelo District, Woman's Missionary Society of the Methodist Church.

The day's meeting will get underway at 10 a. m. The following program has been announced by the local committee:

Leader: Mrs. H. E. Hays, Rankin.

Prelude.

Meditation with Instrumental: Mrs. Alvin Harrell.

Hymn: "We've a Story to Tell to the Nations"—Hymn 465-501.

Devotional: Barnhart Group.

Prayer: Rev. Eugene Slater.

World Peace: Rev. Kenneth Hemphill, Menard.

Discussion: How can we promote world peace in our communities?

Solo: Mrs. Joe Pierce, Ozona—"My Faith in Thee"—By W. Wells. Citizenship and Law Observance—Big Lake.

Discussion: Health and crime in our communities. What can we do about it?

Solo: Mrs. H. B. Tandy, Ozona—"The Penitent"—Van de Water.

Industrial Relations: McCamey Group.

Discussion: Laboring conditions of women and children. What can we do about it?

"A Sharecropper Speaks"—Mrs. Ennis Hill, Junction.

What can we do about it?—Rev. Ennis Hill, Junction.

Hymn: "All People of the Earth"—508.

Benediction.

Lunch

Hymn: "In Christ There is No East nor West"—507.

Inter-racial Relations: Mrs. Kenneth Hemphill, Menard.

Impersonation of Mexican: Sonora Group.

Discussion: How can we improve living conditions in our communities? What have we done about it?—Sonora Group.

Business Meeting.

Reports.

Benediction.

MRS. MEX HARRELL DIES

Mrs. Mex Harrell of Sanderson died Monday in an El Paso hospital, according to word received by friends here. Mr. Harrell is a nephew of Mr. and Mrs. George Harrell of Ozona. Funeral services were held in Sanderson Tuesday, with a number of Ozona friends attending.

Joe T. Davidson was taken to a San Angelo hospital several days ago where he is under treatment of physicians.

BLACK OUTLOOK FOR BLACK

It is somewhat surprising to find an Alabama newspaper still attacking appointment of Hugo Black of that state to the U. S. Supreme Court.

Without reservations, The Selma Times-Journal says "Hugo Black Should Resign."

The Alabama newspaper explains its position, saying "it has become increasingly plain that Hugo Black is out of place among men with the intelligent acumen necessary for judicious interpretation of laws which safeguard our national integrity."

The newspaper cites an article by Marquis Childs, widely known journalist, in Harper's Magazine in which Black's conduct on the bench is said to have caused colleagues, including both liberal and conservative justices, "acute discomfort and embarrassment" because of "a lack of legal knowledge and experience, deficiencies in background and training."

Such a knowledge of court procedure, the article says, has led Black "into blunders which have shocked his colleagues on the high court."

A New Deal supporter, Columnist Raymond Clapper, is quoted as saying, "I have no doubt in my own mind that the essential material which reflects upon Justice Black came from within the court itself."

"From now on," the Selma news paper says in summing up the situation, "he can expect only to be tolerated as a legal weakling and misfit by more learned members of the court, and it is hardly probably that his position will ever bring him the satisfaction that comes from knowledge of distinguished accomplishments. He has been given an opportunity far beyond his merits to achieve a great place for himself in this nation, and so far he has failed miserably."—S.A. Times.

GETTYSBURG SPEECH

It would be a bold man, perhaps an untaught man, to attempt an epochal address on the field where in 267 words Abraham Lincoln left a model for all times. Mr. Roosevelt's courage has never been in question. His tact is far more thoughtful than is his judgment at moments. So his own Gettysburg address made no effort to attain immortality. Nor will it.

You find yourself surely in agreement with the President's assertion that attempt to reason out what the leader of one age would do in terms of another time and place is futile. Acts, as Mr. Roosevelt so clearly asserted, must be fitted to new conditions.

Mr. Roosevelt made no reference to principles. When the full Roosevelt record is considered, he could not do that in all candor. For it is principle that the present President would alter, the single principle on which the gentlemen who dominated the constitutional convention depended to assure an unbroken continuance of the people's rule which they put into effect.

No leadership, those men knew so well, can be trusted against itself. No leader, however honest, however devoted, however firm in his own conviction that he speaks for the whole people and perhaps for the Almighty, can be given control of a democratic government. The leadership of the American people, the convention said and the Constitution proclaims, must be so checkmated that it can not, in good conscience or bad, substitute personal or popular government. The executive, legisla-

NEWS ITEM:— U.S.S.R. FACTORIES ORDERED TO ADOPT AMERICAN INDUSTRIAL METHODS

...tive and judicial branches must be interrelated. Our leadership must be armored against itself and against the unreasoning haste of swayed popular opinion.

Mr. Roosevelt does not believe that. But only so can we assure that "government of the people, by the people, and for the people, shall not perish from the earth."

—Dallas News.

HIGHWAY EROSION

Farmers are not the only ones who have erosion problems. The Highway Commission approved a project at its June meeting providing for wind erosion control on U. S. Highway 60 in Hemphill and Lipscomb Counties. The project was made necessary when winds badly eroded "cuts" made through blow sand in the construction of the route. The eroded areas will be reworked and sodded or treated to hold the soil on the slopes of the cuts. Estimated cost of the work is \$17,000. The project will extend from junction of Highway 83 to Higgins.

Ignorance Of Rules Right-Of-Way Cause Of Many Accidents

Austin, July 6—State police today urged drivers to study laws relating to right of way after analysis of 771 recent accidents showed that one or more vehicles involved in 123 or 16 per cent of the crashes were not in their right positions.

Unless intersections are controlled by local regulations, police pointed out, vehicles approaching from each driver's right have the privilege of entering the intersection first.

Drinking on the part of a driver or pedestrian was listed as the cause of 101 of the 771 accidents, with speed ranking third. Fifty-

four collisions were caused when automobiles moved too close to the center of the highway or were driven on the wrong side.

Other facts revealed in the study showed that 48 accidents were caused by pedestrians running into paths of vehicles, 40 by improper left turn, 31 by disregard of traffic control signals, 30 because drivers did not signal intentions of making turns or stops, 27 by improper passing, and 19 by drivers' lack of attention.

State safety officials warned drivers of motor vehicles to use more courtesy at intersections and places where other vehicles or pedestrians may possibly move into their line of travel. Through courtesy, they explained, hundreds of crashes can be prevented each year and many lives may be saved.

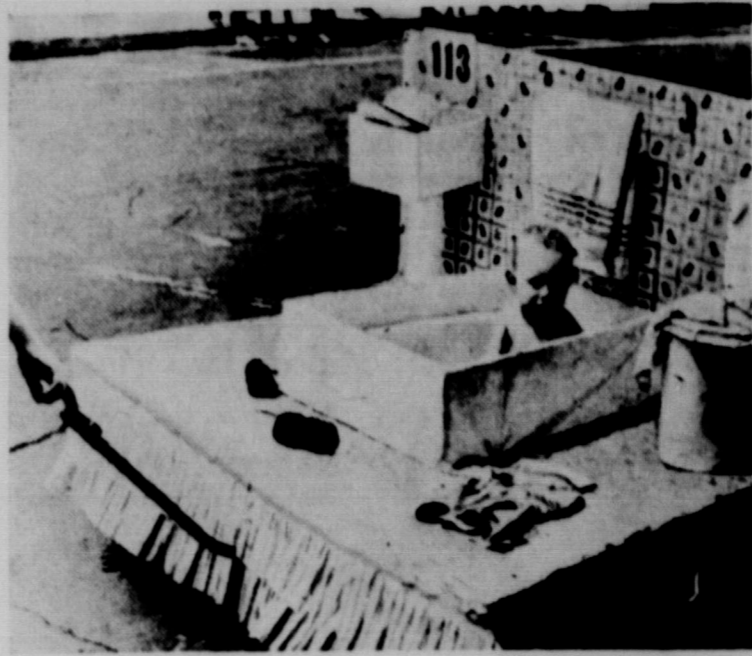

Aside from the continued heavy death toll on Texas highways the safety officials were encouraged by the continued reduction in violent traffic fatalities. A general nine per cent decrease has been reported for the first five months of this year, despite a nine percent increase in travel.

ENTERTAINS FOR GUEST

Mrs. T. A. Kincaid, Jr., complimented her house guest, Miss Frances Williams of Houston with a bridge-luncheon at her ranch home Saturday. Mrs. H. B. Tandy was awarded high score prize and Miss Williams was presented with a gift. Other guests were Mrs. Lowell Littleton, Mrs. Marbury Morrison, Mrs. Jake Young, Mrs. Clinton Glover of Ballinger, Mrs. Evart White, and Mrs. Sherman Taylor.

Mr. and Mrs. Jake Short, Dick Henderson and the latter's guest, Ralph Cameron, Jr., of San Antonio, visited Carlsbad Caverns over the week-end.

Gold-Fish Bowl Bath

One of the most public baths ever taken was the one by this youngster shown here in a bath tub in the baby parade held during the annual Rhododendron festival at Asheville, N. C., recently. The young entrant doesn't seem to mind making his ablutions a public affair.

Stevenson Warms Up Campaign For Lieutenant Gov.

Austin, July 6—Four great sections of Texas were visited in four days this week by Coke Stevenson in his campaign for Lieutenant-Governor. Beginning the week at Marquez in East Texas, he visited Taylor the same day; Brenham and Cuero Monday; Stamford Tuesday and Brady Wednesday. At Stamford he rode in the parade staged in connection with the Cow Boy Review.

In several addresses Stevenson said that as presiding officer of the Senate, the Lieutenant-Governor is somewhat like a judge and ought to keep himself in a frame of mind to give fair consideration to all matters of legislation proposed for every section of the state.

As evidence of his qualifications, he recalled that he served four years as Speaker of the House and in all that period none of his rulings was appealed. The duties of the Speaker he added, are identical with those of the Lieutenant-Governor.

As a member of the House Stevenson wrote the law creating the office of State Auditor. In its original form this bill provided for the appointment of the Auditor by the Legislature. He also wrote the laws modernizing the Comptrollers office and the State Treasurer's office, and was the author of the measure under which one-fourth of the gasoline tax is now being used to pay off county road bonds issued for building state highways.

In his campaign Stevenson frankly states his opposition to the proposal for a unicameral legislature which, he declares, would abolish the House of Representatives and transform the nature of the state government.

Stable Market Assured By Plan

Many of the benefits that accrue to both borrower and lender under the Federal Housing Administration's Insured Mortgage System are generally known and understood by all interested in home ownership.

There is one safeguard, however

that is not so commonly recognized and yet is a strong point in favor of the Mutual Mortgage Plan. This plan not only offers an inducement to lenders to make loans on proper terms and conditions through the additional safety which such insurance gives them but it provides a system designed to make unnecessary another H.L.C. should general loss of earning power or other factors ever again bring about sudden and extensive liquidation in the mortgage market. This is effected through creation of a mechanism by which foreclosed properties can be kept off the market during times when such a procedure seems wise in the interest of orderly liquidation.

Consider . . .

These Seven Forms Of "Advertising" . . .

- Billboard • Circulars • Newspapers • Direct Mail • Magazines • Radio • Theatre Screen

ADVERTISING that is OBJECTIONABLE to the prospective customer is costly, no matter how cheaply it may be bought. If an advertisement OFFENDS by the medium used to present it, then it will not bring Friendship, Good Will or Business to the advertiser.

Most objectionable forms of advertising are well known to the public and should be equally recognizable to the advertiser. If the method used is such that it "forces down the throat" such advertising, to the boredom, disgust or displeasure of the customer, then it obviously is harmful and wasteful to the advertiser.

Recurrence Of Dread Infantile Paralysis Predicted By Dr. Cox

Austin, July 6.—"Infantile paralysis can be expected to occur more frequently during the next three or four months," predicts Dr. Geo. W. Cox, State Health Officer. "This disease is always more frequent during the hot months. The germ responsible for infantile paralysis is so small that it escapes detection even with the most powerful microscopes. The first symptoms are usually vomiting, headache, fever, stiffness of the neck, pain in the legs, irritability and drowsiness. Complete recovery may follow such an illness. In the more severe cases, the germ penetrates the nervous system, resulting in paralysis of nerves controlling one or more groups of muscles. Some remarkable recoveries have been noted. Flies or other insects have not been demonstrated to play a part in the spread of this disease. Infection spreads from person to person with the droplets transmitted by coughing and sneezing. Children and grown people that are healthy may be carriers of the germ. When present in epidemic form, about one child in each hundred is apt to suffer an attack. "Early recognition and diagnosis are essential. The use of immune serum may be a factor in preventing paralysis. A period of complete rest is essential for muscles that are affected.

Final Plans Made For Camp Allison Barbecue July 13-14

Sonora, July 6.—Final arrangements are being made by Alton Hightower, Sonora business man, for the biennial Camp Allison Barbecue and Celebration on the attractive Llano River, thirty-five miles east of Sonora, Wednesday and Thursday, July 13-14.

For many years people of West Texas have tramped to this 2-day political-year fun event. Alfred Schwiening, Sutton county ranchman and city commissioner of Sonora, for many years has been in charge of the "get-together."

This year Hightower is in charge of all entertainment features and promotion of the affair while Schwiening has responsibility only for the free barbecue the second day, July 14 (noon). There will be platform dancing each night.

A number of candidates have indicated that they will be present for the celebration and it is likely that they will be given time in the afternoon one or both days to speak to the West Texas people who gather for the celebration that has been arranged for them every two years for such a long time.

Boston had the first high school in 1820.

Boy Topples Into 150 Foot Canyon

Globe, Ariz.—Little Billy Self, 9, reached into infinity for his lunch pail. The youngster toppled into a 150 foot canyon as he stooped to retrieve the object which he had dropped while walking home from school. He died instantly.

SHERIFF'S SALE

THE STATE OF TEXAS, County of Crockett:

By virtue of a certain Execution issued out of the Honorable District Court of Tom Green County, on the 14th day of June 1938, by C. W. Barnett, Clerk of said District Court against R. R. Hoover for the sum of Eleven Hundred, Fifty-One and 33/100 (\$1151.33) Dollars together with interest thereon from November 9, 1937, at 6% per annum, and costs of suit, in cause No. 10,747A in said Court, styled West Texas Lumber Company versus R. R. Hoover and placed in my hands for service, I, W. S. Willis, as Sheriff of Crockett County, Texas, did, on the 27th day of June 1938, levy on certain Real Estate, situated in Crockett County, described as follows, to-wit:

ABST.	CERT.	SURVEY	BLOCK	GRANTEE	ACRES
4177	1313	25	MM	T. & St. L. Ry. Co.	640
4178	1314	27	MM	"	640
4179	1315	29	MM	"	640
4214	1316 E 1/2	55	MM	"	320
4612	1313 E 1/2	26	MM	W. W. Wilkins	320
5323	1313 W 1/2	26	MM	Brock Hoover	320
5412	1317	58	MM	M. F. Richardson	568
5418	1312	24	MM	Lon Sapp	640
5420	1310	20	MM	"	640
5537	1314 N 1/2	28	MM	W. P. Hoover	320
					5,048

and levied upon as the property of said R. R. Hoover by virtue of said levy and said Execution.

And in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in the Ozona Stockman, a newspaper published in Crockett County.

Witness my hand, this 6th day of July, 1938.

W. S. Willis, Sheriff Crockett county, Texas. By C. Russell, Deputy. 14-3t.

Waiter Gets Award; Tripped By Peg Leg

Binghamton, N. Y.—An unusual variation of the apparently endless theme of mishaps has befallen Margaret Mavnix, 32 year old waitress, who was awarded five weeks compensation for tripping over a diner's wooden leg "in course of employment."

The woman, in following instructions on a compensation form to "state in the patient's own words how the accident occurred," wrote thus:

"I was tripped by a man with a wooden leg. I fell and he fell over me striking his wooden leg against my left knee joint, scratching my right elbow."

Campus Ghost Writer Exposed

Robert Greenlees Pearson is among the upper 10 per cent of the graduating class at the University of Kansas this year, but he won't be electe to Phi Beta Kappa, honorary fraternity, because he admitted in a magazine article that he had been a "ghost writer" for students at many schools. He had clients at Northwestern university, Wellesley college, the Universities of Wisconsin and Woming. He guaranteed his work—a "B" average or no pay. Pearson is shown talking on the telephone to a prospective customer.

CARD OF THANKS

We are grateful, dear friends, for your presence, your kind thoughts and kind deeds in our loss and sorrow, and take this means of expressing our appreciation to those we have not seen.

DON'T FILL YOUR FOUNTAIN PEN

UNTIL YOU SEE THE TERRY Penfiller
The amazing inkwell that fills fountain pens Automatically

Once you've seen the amazing ease, speed and cleanliness with which the Terry Penfiller fills your fountain pen, you'll never go back to the inefficient hunt-the-bottle, pull-the-cork, ink-your-fingers method. Not a smudge of ink anywhere, not a moment lost when your thoughts are flowing freely. Just reach out, press the pen point into Penfiller... and go on writing. You've never seen anything like it. The Terry Penfiller fills your fountain pen cleanly, instantly and automatically. And what it does in the way of cutting down pen repair bills and saving ink means you are losing money without it. Come in and demonstrate the Penfiller yourself.

\$100,000 Premium List Announced For Dallas State Fair

Dallas, July 6 — Listing more than \$100,000 in premiums for livestock, agriculture, poultry, culinary, textile, hobbies, and many other classifications, the premium list for the Golden Jubilee Celebration of the State Fair of Texas is now being distributed, it has been announced by Otto Herold, president of the state fair.

Premiums in Livestock and Poultry have been increased, and competition has been taken out of the county agricultural exhibits. Instead of having counties compete, each county exhibiting will be given \$125. This will enable Texas counties to present the most complete picture of agricultural possibilities of the state ever seen. The premium list contains premiums which will be awarded individual farm exhibits, as well as 4-H Club boys and girls exhibits and Future Farmers exhibits.

Many new classifications are included in the premium list, such as the Hobby Show, the first annual All-Southwestern Newspaper Contest, the Flower Show, the Cold and Mule Show, and others.

Now YOU CAN BUY A
Firestone
Gum-Dipped Tire
FOR AS LITTLE AS \$7.60

FIRESTONE cuts the cost of Tire Safety just at the time when you need a new set of tires. At this time of the year you should replace tires that are worn and smooth for greatest safety during the summer driving season. Tires may look alike on the outside — but inside they are different. The name FIRESTONE on a tire is your assurance of extra safety and long mileage because only Firestone Tires are built with these patented and exclusive construction features:

Gum-Dipping, the Firestone patented process by which every fiber of every cord in every ply is saturated with liquid rubber, counteracts tire-destroying internal friction and heat which ordinarily cause blowouts. Nine extra pounds of rubber are added to every 100 pounds of cord.

Two Extra Layers of Gum-Dipped Cords under the tread, another patented Firestone construction feature, protect against punctures.

Scientifically-Designed Non-Skid Tread made of tough slow-wearing rubber, assures safer stops and longer non-skid mileage.

Now that Firestone gives you all of these safety and economy features at these low prices, you cannot afford to take chances with unsafe tires this summer. Come in today and join the Firestone Save-A-Life Campaign by equipping your car with a set of new Firestone Convoy Tires—the safest tires that money can buy at these low prices.

Look at these LOW PRICES

HOME BUILDERS' PAGE

Conventional But Commodious

FIRST FLOOR PLAN

SECOND FLOOR PLAN

SCALE 0 5 10

The two-story colonial house shown above is situated in Columbus, Ohio. It was appraised for mortgage purposes at \$6,150 and financed by a \$4,500 loan insured by the FHA. The dwelling is featured by the exceptional size of the major rooms and the unusually large closets that serve every room. The Williamsburg type dormer windows give the house character.

Light System In Home Should Be Planned

The old fashioned telegraph pole was unsightly, but for years it was tolerated because it served a purpose. Then engineers worked out a system for concealed telegraph and telephone lines, and the appearance of some cities was greatly benefited. Old fashioned lighting systems in the home often had as little claim to beauty as a telegraph pole, but likewise they were tolerated because they served a real purpose.

Today there are the concealed and indirect lighting systems as well as those in which all fixtures are exposed.

Not so many years ago the lighting of a house was not considered a problem to be studied carefully and the needs ascertained accurately. The lights were placed without much regard as to whether they were in the best place possible to furnish the most light. The term "footcandles" was not known and the amount of light a matter of little moment or not known.

Today the special uses of a room are taken into consideration, as are other factors, and lighting is arranged to fully service the need. In planning a home today the services of an illuminating engineer are often recommended. He will inform the owner as to the needs and arrangement for a simple, effective, and efficient wiring system.

Carter Glass, 80, of Virginia, is the oldest United States Senator.

CRIBBING UTILIZED FOR GARDEN WALLS

A recent innovation in landscaping is a cribwork garden retaining wall.

Cribbing, which is generally used to hold railroad embankments in place, is usually composed of creosoted logs. In the garden retaining wall the material was precast concrete logs. Logs were placed 5 inches apart and had 4-foot headers spaced from

4 to 6 feet on centers between the rows of logs.

YOUR \$20 RENT CHECK GROWS TO \$8,838 IN 20 YEARS

IF you're paying out \$20 a month in rent, your checks with 6 per cent interest added will pile up a total of \$8,838.51 for your landlord in twenty years. That's enough to pay for a fine \$5,000 home of your own, and leave a balance of \$3,800 besides.

THOSE same rent checks, under the financing plans made possible by the federal housing program, will build a modern home for you right now, and will pay the loan on it, together with interest, taxes and insurance, in twenty years. Loans may be obtained up to 99% of appraised value of house and lot.

WHY keep on paying for a home and not get it?

WEST TEXAS LUMBER COMPANY

Serving West Texans

Texas Wildlife Notes— Mountain Sheep Subject Of Study Being Made In West Texas By Game Division

Austin, July 6—Texas hunters who want to bag a Mountain Sheep must go to other states to the North and West. In Texas the animal is protected by a closed season the year round.

They are found in the Guadalupe, Beech and Sierra Diablo mountains north of Van Horn, but not much is known of their occurrence, numbers, or the factors that have prevented their increase.

To gather such information the Game, Fish and Oyster Commission has sent Robert Snow, experienced field naturalist, to the Big Horn country to make a thorough study of the animals.

Accompanied by Dr. Walter P. Taylor, senior biologist of the Texas Cooperative Wildlife Service at A. M. Snow and his party made their first reconnaissance recently. They saw only seven Bighorns, most of them in the Beech and Sierra Diablo mountains. Few signs were seen in the Guadalupe.

Factors limiting the numbers and increase of the Bighorns remain to be determined. Residents nearby blame the Mountain Lion and more especially the Golden Eagle. Snow and his party saw few signs of Mountain Lions, but many eagles.

Dr. W. B. Davis, head of the Department of Wild Game at A. & M. College, plans to join Snow for several weeks work in the Guadalupe and adjoining mountains during August and September. It is hoped the Bighorn study can be made cooperative so as to include not only the Texas Game, Fish and Oyster Commission, but also the New Mexico Game and Oyster Commission, the U. S. Forest Service, and the U. S. Biological Survey. It is planned that the study will be carried forward on both sides of the New Mexico-Texas line.

Snow trailed four Bighorns in the Guadalupe mountains three days, after locating them on a high semi-barren ridge, reached after a two-hour climb. He said their sure footedness in leaping from crag to crag was every bit as remarkable as veteran hunters picture it. The Bighorns became excited only once—when a band of Eagles circled over them. Then they ran together as if for protection.

Antelope are increasing steadily in some portions of western Texas. Game Warden W. D. Stubblefield, stationed at Ysleta, estimates there are from 2,500 to 3,000 in Hudspeth county, where range conditions are good and the attitude of the landowner favors the protection of this fleet-footed animal.

Along the Rio Grande Valley be-

low El Paso, however, Stubblefield reported extensive clearing operations. Clearing the vegetation will be detrimental in that section not only to Antelope, but to Gambel Quail and Ring-neck Pheasants, he said.

Investigators have reported some unusual records in Colorado county. One Roadrunner didn't show a bird's instinctive fear of dogs or cats; it successfully raised three young in a farmer's yard within 10 yards of a dog kennel and a whole family of cats.

A Quail nest is being incubated by a male Quail.

A Jackdaw built its nest on the top of a Dove nest containing young Doves.

One Jackdaw is incubating Dove eggs as well as her own.

Jackdaws, known to naturalists as Grackles, not only eat many Dove eggs but devour many of their own eggs as well. In fact, Grackles are their own worst enemy at nesting time.

Judge Passes Corset Issue; Is A Bachelor

Cleveland, Ohio — Municipal Judge Lewis Drucker, who is a bachelor, blushed when asked to inspect the fit of a woman plaintiff's corset.

The request was made by Mrs. Mary Scanlon and Mrs. Mary Meyers. They are owners of a corset shop.

Mrs. L. W. Dubois filed suit against the shop.

She desired to recover \$10—the price of a corset she alleged "broke down."

It was not so much the fact that the corset failed, but the occasion on which it gave way that embarrassed Mrs. Dubois.

She was at a concert. The corset "broke."

Mrs. Dubois said she was forced to leave in considerable haste with her coat wrapped tightly around her.

In court, Mrs. Scanlon and Mrs. Meyers contended the corset fit perfectly.

They suggested they retire to the judge's chamber. They wanted him to examine the corset on Mrs. Dubois. Then he was to give a verdict on the fit.

This was just too much for

Anti-Freckle Helmets Baffle Sun

Prepared to repel the effects of too much sun are these five mermaids on the beach at Atlantic City, N. J. The oil-skin beach helmets are designed to protect them against freckles. From left to right the girls are: Betty Lewis, Peggy Murland, Helen Rink, Helen Price and Jean Cowan.

Judge Drucker. So he continued the case.

African Scion Of Lobenfula Keeps Silence

Buluwayo—Ngubowenga, one of the two surviving sons of Lobenfula, former King of the Matabele, has hardly opened his mouth for 25 years—and nobody knows why.

He appears to be suffering from no known disease, and is well educated. He matriculated at Cape Town, completed his studies in England and returned in 1909 to Rhodesia.

Then Ngubowenga went to live in Cape Town with friends and ever since has steadfastly refused to speak except to make known in court words his immediate wants.

The mystery behind his silence appears insoluble. Visited by a United Press correspondent at his brick cottage, four miles from here, he gave no sign of hearing what was said to him. The whole time he sat in pajamas on his bed, head bowed upon his broad chest. From all accounts, he must now be about 55 years old, and has never married.

His people say he understands well enough, and that sometimes when someone passes a humorous

remark, a smile will flit across his face.

Whatever the reason for his very strange silence and nameless grief he seems determined to carry it with him to the grave.

Tree Weighed "As It Stands" At 2,000 Tons

Fresno, Calif.—Without so much as placing a twig on a pair of scales, foresters have found that the greatest tree in Sequoia National Park weighs 4,299,851 pounds, or more than 2,000 tons—probably the heaviest tree in the world.

Careful measuring and weighing of parts from other living trees were used as a basis for the computations. Foliage and root volumes were found by measuring the leafy portions and root system of fallen trees.

The weight of the foliage was found to be 15.15 pounds per cubic foot of closely packed leaves and twigs. The wood of another tree of the same species—sequoia gigantea—was found to weigh 57.96 pounds per cubic foot. The bark weighed 23.8 pounds, and the roots 6.8.

By multiplying the estimated cubic footage of the trunk, branches, bark, roots and foliage with their respective weights, the total was reached.

The Philippines are dotted with 7,083 islands.

WALL LINOLEUM

Linoleum wall coverings are recent innovations in house interiors. When properly installed they have the advantage of high durability and are easily cleaned.

Ten inches of snowfall equal an inch of rain in water content.

ON FARM AND RANCH

• In Texas, farmers outnumber city folks 2 to 1—there are about 4,000,000 men, women and children on Texas farms and ranches. These people contribute heavily to the material and cultural welfare of the state; our traditional Texan is a man of the open spaces, a man intimate with the soil, the sun, the blue Texas sky.

The Humble Company, as a Texas institution, values highly its twin privileges of association with the farmers and ranchers of Texas in the development of Texas' greatest natural resource, and of supplying them with the motor fuels, motor oils and lubricants they use.

Made by Texans from Texas crude oils, these Humble products evidence their quality with day-in-day-out dependable performance in actual use. Try them—you'll find a product for every farm need, a price for every purse.

ONE-MINUTE STORIES OF 100 TEXANS

By W. T. Carley

R. E. B. Baylor

Judge Baylor was born in Bourbon County, Kentucky, in 1791, and died in Washington County, Texas, in 1873. He was buried, according to request, on the original campus of Baylor University, at Old Independence.

Before coming to Texas in 1839, Judge Baylor had served in the Kentucky legislature and two terms in the national congress from Alabama. He served in the Texas Congress, in campaigns against Mexicans and Indians and in the constitutional convention that paved the way for Texas to enter the American Union in 1846.

When President Anson Jones solemnly proclaimed that the Republic of Texas was no more. When tear-dimmed eyes watched the Lone Star Flag of Texas pulled down for the last time and supplanted by the sacred folds of Old Glory, it was Judge Baylor that invoked divine blessings for the newest member of the Federal covenant.

After statehood he served as a district judge for 15 years and usually preached wherever he held court. He presided over the first court in the city of Waco and preached the first sermon that was ever heard in that city.

He gave Baylor University its first thousand dollars, when money was really scarce, and the school was fittingly named in his honor. He was never married. His only children are the noble sons and daughter of Baylor University—upon whom the sun never sets!

Trick Box As Package Lets Shoplifter Down

Cincinnati, Ohio — Proof that there are tricks in every trade was furnished here recently when James Hanks, 34, was arraigned in police court on a charge of shop lifting.

As evidence against Hanks a detective displayed a cardboard box that was seized when the man was arrested. The box was neatly wrapped and tied to resemble a regular package. However, one end was cut so that it could be opened. A rubber band was attached to the camouflaged "door" so that it snapped shut.

The detective said Hanks would place the box against the counter in a store, open the door and shove in merchandise.

Hanks was fined \$200 and also sentenced to serve thirty days in jail.

Bishop Praises China's Spirit

"The spirit of war-torn China is akin to the spirit of revolutionary Christianity. I think China will demonstrate to the world today arms are not necessarily supreme." These were the words of Right Reverend Logan H. Roots, bishop for 34 years of the Protestant Episcopal church of Hankow, as he arrived in the United States after retiring from his duties in China.

Chivalry Loses All It's Luster For Young Man

Lynn, Mass.— After trying to return a young woman's pocket-book, Geo. McCann believes the age of chivalry is past.

McCann met Miss Margaret McCollough, and according to police, they argued. As he tried to step her from leaving he was left with Miss McCollough's pocket book in his hand.

Trying to return her property at the home of her cousin, McCann got into another argument with the result that he was treated in a hospital.

He tried the home of another of the girl's relatives, and believing Miss McCollough to be there, tried to return the purse. He was arrested and charged with destruction of property.

Arriving at the police station, he found that the young woman had already sworn out a complaint against him for larceny of the pocket book.

Mrs. Frank Denker and Mrs. W. A. McDonald of Odessa and Miss Isabel Hutchinson of Kermit were guests Wednesday of Miss Dixie Davidson.

FOR SALE— Used Underwood portable typewriter. For quick sale only \$15. Inquire at Stockman office.

Eskimo pies came into use in 1922.

Buick Climbs From 6th To 3rd Place In Natl. Auto Show

Buick's forward strides in sales during the past year have resulted in the award to this manufacturer of choice of third position in the allotment of space at the 1938 National Automobile Show in Grand Central Palace, New York, according to word received today by Lee Wilson, local Buick dealer, from W. F. Hufstader, general sales manager.

"When the annual automobile show opens this Fall, the spotlight will be on Buick because of this distinction," Mr. Wilson said. "According to the information from Mr. Hufstader, choice of space is granted by the Automobile Manufacturers' Association, which sponsors the New York show, on the basis of the dollar volume of sales by members of the association during the 12 months ending May 1. By virtue of having achieved the third greatest dollar volume during the period, Buick wins the right to one of the choicest display spaces in the great exposition hall."

The Buick shift to third position will constitute the major change in arrangement of displays at the National Automobile Show this year. Buick climbed to its present place from sixth position last year.

'Red Tape' Irks Man, 113, Trying To Be A Citizen

Sheboygan, Wis. — "Dawggone all red tape" is Bill Stanton's attitude regarding this business of becoming a citizen when one is 113 years old.

But Stanton believes in taking care of himself in his old age, so he has applied for citizenship papers to be able to qualify for old age pension.

Stanton always thought he was a citizen. Didn't that 1885 list of voters say he was able to vote? "Course it did. Why, he had lived in this country since 1830 and that ought to be citizenship enough for anybody.

But no, he has to go through this "red tape" now.

Some scoff and say that Stanton is only 93, but he won't hear of any such derision. He was born in Ireland on July 4, 1824, he'll have

Good Kids Get Free Sodas

What a kid will do for an ice cream soda was illustrated by the experience of Charles Balaban, druggist at Camden, N. J. Balaban let it be known he would give a free soda to every boy and girl who received an "A" in deportment on their report card. Between 100 and 150 pupils of the Yorkship public schools came in with "A's." Balaban said and the rush got so great he had to withdraw the offer until further notice. Here are some of the good pupils sipping their sodas.

you to know, and came to this country when he was 6 years old, stopping off in Milwaukee on his way to the North.

Stanton worked in the great Michigan woods when he was only 15.

"Them really was the days," he says reflectively. "Paul Bunyan? Shucks, never heard nothin' of him in those days. Say, I worked in the woods long before his time," he'll tell you.

Oregon passed the first gasoline tax in 1919.

Surgery Makes Over Receding, Jutting Chins

Philadelphia, Pa. — An operation used by dental surgeons to correct jutting or receding chins was described at Temple University Dental School at a program celebrating the school's 75th anniversary.

Dr. James R. Cameron, professor of oral surgery, said that the operation was known technically as resection of the ramus, the

short "handle" of the lower jaw which locks with upper jaw in front of the ear.

The ramus is cut horizontally, and the jaw moved forward or backward as much as a half inch, then the teeth are wired together until bones are knit, according to Dr. Cameron.

Originally the operation was used to help the chewing position of the jaw, he said, but the improvement in appearance effected for persons with unsightly chins is now another reason.

The expression "O. K." was brought into popular usage by President Woodrow Wilson and is derived from the Choctaw Indians.

Home study courses were first offered in 1878.

Real Facts of Texas Public School System

Oran M. (Pay as you go) Roberts became Governor of Texas in 1917. His administration marked the passing of the last dark cloud of reconstruction and the first light of public education.

School System Today

We have 48,311 teachers that are paid \$48,765,846 per year for the instruction of 1,564,118 children. We have 305,149 high school students and 1,160 high schools that enjoy complete affiliation with schools of higher learning.

Moderate Decline In Shipment Live Stock To Ft. Worth

Austin, July 6.—Livestock shipments to the Fort Worth Stockyards and interstate points from Texas farms and ranches during May were moderately below those of the corresponding month last year, it is reported by the University of Texas Bureau of Business Research.

Cattle shipments, 6,788 cars, declined 15 per cent from May last year; shipments of calves, 844 cars, declined 4 per cent; hog shipments, 615 cars, declined 1 per cent, and shipments of sheep, 2,061 cars, were down 6 per cent.

COMPLIMENTS VISITOR AT BRIDGE

Mrs. Scott Peters entertained with a bridge party at her home last Thursday afternoon complimenting her daughter, Mrs. William Swearingen of Lockhart, who with her two sons, spent several days here visiting Mr. and Mrs. Peters.

Mrs. J. A. Brashear was awarded high score trophy and Miss Ethel Childress took low. Mrs. Swearingen was presented with a gift. Other guests were Mrs. Jake Short, Mrs. Evert White, Mrs. Clinton Glover of Ballinger, Mrs. Albert Bogness of Austin, Mrs. J. V. Blaylock, Mrs. Melvin Brown, Mrs. Sherman Taylor, Mrs. Chas. E. Davidson, Jr., Miss Wayne Augustine, and Mrs. Grady Mitcham of San Angelo.

Townsend shown as they opened the third Townsend plan convention at Los Angeles, Calif., recently. 3—Crown Prince Mohammed Riza of Iran, who will be married to Princess Fawziyah, sister of King Farouk of Egypt.

From Concho Valley Council

New Troop At Millersview

A new Boy Scout troop was organized in Millersview this week. Troop 48 of the Concho Valley Council made application for charter with five Scouters and 13 Scouts. They adopted the Troop Budget plan, and each Scout receives a subscription to Boys' Life with his registration.

Camp Fawcett

On July 10, Camp Fawcett near Barksdale, Texas, will open for two grand weeks of Scout camping. Troops from Sabinal, Uvalde, Crystal City, Carrizo Springs, Eagle Pass, Quemado, Del Rio, Comstock, Bracketville, Junction, and Sonora have indicated that they will attend.

219 Scouts and Scouters Attend Emergency Mobilization

At 8:00 o'clock Wednesday June 29th, call was sent out from Bracketville, Texas, that a tornado had swept away the southern section of town. One hour from that time

the first carload of Scouts arrived at the scene of the mock emergency disaster. In less than three hours, 189 Scouts and 39 leaders were present. The mock tornado had been laid out on the Bracketville school grounds and surrounding lots. Some 40 patients with broken arms, legs, cuts, and other injuries were placed in the buildings, under bridges, and in the surrounding territory.

Different troops were assigned areas to clean up, temporary first aid stations were set up, communication line to headquarters and the business district of Bracketville were set up. In about three hours, all patients had been given first aid treatment, were moved to the central headquarters some eight blocks away. After the tornado had been cleaned up, Bracketville was host to the Scouts at a barbecue at noon, then Capt. Chalker took the Scouts on a tour of Fort Clark. Later the Scouts were entertained with a horsemanship display by the soldiers of Troop F. The day was climaxed by a swim in the Ft. Clark pool. Val

SHEIKISH ENVOY

With every Royal Portable a handsome carrying case is included at no extra cost, also Royal's exclusive Instant Typing Chart which shows you at a glance how to type properly.

ROYAL PORTABLE WITH TOUCH CONTROL

"Lonesome? NOT AT ALL!"

Convalescence is much less tiresome when you have an extension telephone in the bedroom, for you can then talk with many more friends than could possibly come to see you. Convenience is another reason you'll want one... an extension telephone saves many steps each day. And privacy... so you can have personal conversations without the embarrassment of having others overhear. And a bedroom telephone gives a reassuring sense of security at night, should emergencies of any kind arise.

Crockett Lambs—

(Continued from Page 1.)

were moderate. Steers and yearlings sold at \$10.25 to \$10.75; good to choice fed steers, \$9.50 to \$10.25; grass fat steers, \$8.50 to \$9.25; cows and heifers were in active demand at 50¢ higher. Prime heifers sold up to \$10, establishing a new high for the year. Mixed yearlings also reached a new high, going to \$10.25. Choice cows sold up to \$7. Bulls and veals were strong.

Prices paid for good quality 160 to 250 pound hogs ranged from \$8.75 to \$9; 260 to 325 pounders brought \$8.50 to \$8.90; packing sows \$7.10 to \$7.65.

The best fat lambs sold from \$8.75 to \$9; fair to good kinds, \$7.75 to \$8.75. Shorn yearlings, \$5.25 to \$5.75; fat ewes, \$2.50 to \$3.75.

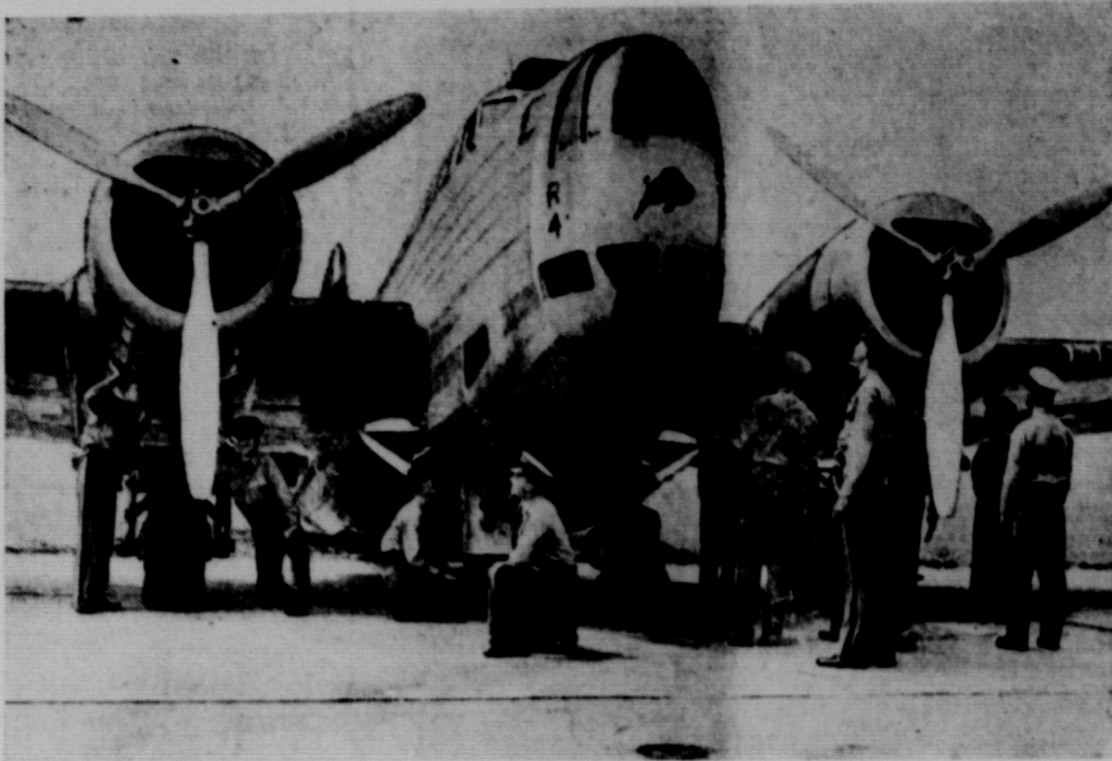

Demand, running ahead of supply, was generally credited as being the cause of the upward price trend noted at Kansas City last week. Competition was keen in all divisions.

\$9,569 In Purse; 70 Cent Bill Is Refused

Boston, Mass.—A Back Bay restaurant manager notified police an inebriated patron refused to pay a 70 cent check. When police booked him for drunkenness, they found more than \$9,500 in his money wallet.

"You will never have much money if you part with it too easily," the play boy solemnly advised Lieutenant Maurice Murphy when questioned about not paying the check.

West Pointers Learn About Army Bombers

A group of cadets of the new first class at the United States Military academy inspecting one of the new Douglas bombers at Mitchell field, N. Y., where the class spent a week studying aviation methods as part of their regular summer training.

Small Schools Are Interested In Six Man Grid Team Plan

Austin, July 6— Proposal of the Texas Interscholastic League to organize 6-man football districts is meeting with approval among smaller schools of the state, according to R. J. Kidd, athletic director of the University of Texas. Demonstrations in 6-man football are being given in the summer physical education courses of

the following institutions: North Texas State Teachers College, Stephen F. Austin State Teachers College, Texas Technological College, and at the University of Texas, Kidd, said.

"We are confident that at least one hundred small high schools will experiment with this game as a fall sport this year," Mr. Kidd predicted. "It is hoped that the sport will prove worthwhile for schools that do not have enough boys to play 11-man football, and still have a sufficient number of boys of the football type to make up a six-man squad. It has the additional advantage of being a relatively inexpensive sport."

Five hundred and fifteen Americans had an annual income of more than a million in 1929; now only 33 Americans are enjoying this princely income.

Frankie Frisch has played in 50 world series games.

BEACH QUEEN

Esther Walker, eighteen-year-old beauty of Oceanside, Calif., won the title of "Miss Queen of the Beaches" at a contest at Oceanside in which more than 100 comely maidens from all parts of Southern California participated. Miss Walker seems happy with her trophy.

Business Curve In Texas Levels Off; Fall Upturn Seen

Austin, July 6 — Activities in Texas industry and trade continued to slacken during May although the rate of decline was even less pronounced than the moderate decline which occurred in the month immediately preceding, according to Dr. F. A. Buechel, assistant director of the University of Texas Bureau of Business Research. Present indications point to a leveling of the Texas business curve during the next two months and an upward tendency early next fall, he added.

The Texas business indexes for May and the two comparable periods, compiled by the Bureau, are as follows:

	May	May	April
Composite	92.42	99.02	93.16
Employment	86.58	92.47	87.67
Pay Rolls	92.76	95.24	91.52
Mis. Freight			
Carloads	61.42	81.18	56.19
Runs of Crude			
Oil to Stills	177.50	167.28	183.06
Dept. Store			

Sales — 93.96 99.76 102.20
Elec. Power
Consumption 113.56 116.78 118.20
Two of the six factories making up the composite index actually showed an improvement during May—pay rolls and miscellaneous freight car loadings, Dr. Buechel pointed out. The remaining four were less favorable than in April, but the decline in the composite index was less than 1 per cent.
