## Part Work Of Construction On Community House

Block Building Serves As Education Center For Mexicans

Ground was broken Wednesday for the new settlement house for promoting the social, educational and religious advancement of the Mexican people of Ozona.

The project is sponsored by the Woman's Missionary Society of the Methodist church in cooperation with the Woman's Missionary Council of the Methodist Episcopal Church, South. Miss Mary Riddle was sent here by the Woman's Missionary Council to carry on the program among the underprivileged peoples of the community, her salary being paid by the council. Living quarters, to be built into the new settlement house, will be provided by the local society.

A gift of \$5,000 from the Robert Massie estate endowment fund for the educational and religious advancement of this section was granted by the committee administering this fund, the money to be used in construction of the settlement house. The balance needed for the construction work is to be provided by the local society.

Contract for construction of the building was awarded to Johnson Hope, local contractor. The West Texas Lumber Co. has agreed to sell materials for the structure at wholesale cost and a number of Mexicans in the local settlement have volunteered their services in the building work.

The building is to be constructed of native field stone, with shingle roof. The overall dimensions of the building will be 32 by 80 feet. The main auditorium is to be 30 by 40 feet, and living quarters for Miss Riddle will be provided in an apartment at the south end, consisting of living room, bedroom, kitchen and bath.

There are to be club rooms, an adult room which is to be used also for clinic and sewing and cooking laboratory, and shower baths for boys and girls. A stage and dressing rooms are also to be provided. The building is to face east and is to be located just northwest of the Mexican school building, on land dedicated by the E. M. Powell estate as a recreation ground for the Mexican population.

The contract calls for completion of the building within 90 days, but the contractors estimate that it will be completed before that time elapses. Meanwhile, Miss Riddle has already launched her program among the underprivileged here, taking up her work here September 1.

## Judge Montgomery Sells 16-Section Ranch To Baggett

Part of 38-Sections In Stockton Country Involved In Trade

Sale of a 16-section ranch near Fort Stockton by Judge Montgomery to Early Baggett of Ozona was announced upon completion of the deal here early this week. The ranch is a part of a 38-section place purchased by Mr. Montgomery in 1928. Upon purchasing the land ten years ago, Mr. Montgomery immediately cut it into two separate ranches, with good improvements on each. He has been leasing the 16-section place since that time, operating the remaining 22-sections, with Mark Calafarro, former Ozonan, as foreman.

The land is understood to have changed hands at a price of around \$8 an acre. Mr. Baggett plans to lease the

## New York Yankees Defend World Title

On these men, among others, the world champion New York Yankees pin their hopes for victory in the World Series. On the left is Joe DiMaggio, heavy batter and center fielder, while at right is Charles "Red" Ruffing, pitcher. Upper center, left to right: Manager Joe McCarthy and Vernon "Lefty" Gomez, pitcher. Lower center: Lou Gehrig, first baseman, and Joe "Flash" Gordon, second baseman.

## Father Of Ozona Business Man Is Dead In Sonora

R. K. James, Father Of Frank, Victim Of Heart Attack

R. K. James, 70, father of Frank James, Ozona automobile agency and filling station operator, died suddenly from a heart attack about 4 o'clock Wednesday afternoon while sitting in a chair on the front porch of his home in Sonora.

Funeral services are to be held from the home at 3 o'clock this afternoon, with the Rev. R. C. Brinkley, pastor of the Sonora Baptist church, officiating. Burial will be in the Sonora cemetery.

Mr. James, a native of Milam county, apparently was in good health. He had just returned to Sonora after a visit with his son in Ozona yesterday morning. Survivors include the widow, the son, Frank, and a step-son, Eddie de Boer of California.

Mr. James was a charter member of the Sonora Baptist church, having been a resident of that place 48 years. He was the first member to be baptized in the Sonora church. For a number of years in the early days he was engaged in hauling freight from San Angelo to Sonora. He was born August 16, 1868, in Milam county and was married July 1, 1903, to Mrs. Minnie Meinecke.

## Lions Try Comeback Against Big Lake In First Night Game Fri.

Somewhat chastened but by no means subdued as a result of the 45-6 thrashing administered them last weekend by the powerful Junction Eagles, who give promise of offering serious threat to the district supremacy of the Eldorado Eagles, Ozona's Lions go to Big Lake Friday night for a non-district struggle with the Big Lake Owls.

This will be the first contest under the lights. However, local fans are looking to them to regain their equilibrium after the Junction thumping and to account for themselves in the flurry with the Owls. The game is called for 8 o'clock Friday night.

### TO REVIEW BOOK

"Man, the Unknown," by Alexis Carrel, will be reviewed by Mrs. Evert White at the regular meeting of the Ozona Woman's Club Tuesday afternoon at the home of Mrs. Joe Oberkamp. Ruth Townsend, guest artist, will give a reading.

## Pair Of Prisoners Taken From Here To Serve Terms In Pen

Sheriff W. S. Willis late last week took two prisoners, sentenced at the last term of district court here to terms in the state penitentiary, to the state prison at Huntsville.

One prisoner was Garfield Wilson, negro, who received a sentence of two years in each of two cases, one charging theft of a car and the other burglary of Ramirez Bros. Boot Shop. The other was Pedro Lopez, who was sentenced to two years on an assault with intent to murder charge in connection with a knife attack on another Mexican in the local Mexican settlement. Wilson's two sentences were to run concurrently.

## Former Ozona Resident Dies In San Angelo

Mrs. Gifford, Mother Of Mrs. Will Gray Buried Today

Mrs. Susie E. Gifford, 76, a former Ozona resident and mother of Mrs. Will Gray, also a former Ozonan, now living in San Angelo, died at 8:50 o'clock Wednesday night at the home of her daughter in San Angelo, according to word received here by friends and relatives. Mrs. Gifford had been in failing health for several months.

Funeral services are to be held in San Angelo at 4 o'clock this afternoon. After the services there the body is to be taken to Abilene, former home of the family, for burial.

Mrs. Gifford was a native of Tennessee. She had made her home the past several years with her only daughter, Mrs. Gray, and family, and lived with the family during the time they were residents of Ozona until about two years ago when they moved to San Angelo. She was a member for many years of the Church of Christ. The Gray family resides at 516 N. Pope street in San Angelo.

### Stuarts Have Daughter

Mr. and Mrs. Byron Stuart are the parents of a daughter born Friday in Midland. The youngster weighed eight pounds and ten ounces and has been named Carolyn Rae. Mr. and Mrs. Ray Dunlap, Mrs. Stuart's parents, were in Midland over the weekend to see the baby.

Bryan McDonald was taken to San Angelo Tuesday for medical care. He will be there about a week.

## Assault Charges Filed After Girl Struck By Rock

J.E. Evans, Daughter To Face Court As Lois Phillips Hurt

A charge of assault to murder was filed in justice court here Wednesday morning against J. E. Evans and aggravated assault charges were lodged against his daughter, Elizabeth Evans, as an outgrowth of an incident at the Evans home late Tuesday afternoon when Lois Phillips, a daughter of Mr. and Mrs. Charlie Phillips, suffered a brain concussion from blow on the head with a rock.

The Phillips child was unconscious throughout the night Tuesday night, regaining consciousness about eight o'clock Wednesday morning. Due to the fact that the injured child was unable to appear in court, the preliminary hearing on the two charges was postponed pending her recovery.

Conflicting reports were received by Sheriff W. S. Willis, who investigated the case, resulting in the filing of charges against both Evans and his daughter.

## Feed Stored In Trench Silo On Bitterweed Range

Experiment Station Is Set To Test Feeding In Area

Furthering its experiments for combatting bitterweed, the ranch experiment station on university land between Ozona and Barnhart has already completed filling a trench silo with approximately 72 tons of silage, according to W. H. Dameron, director of the Ranch Experiment Station near Sonora and also of the Ozona station.

The trench silo is 100 feet long, with an average of about ten feet in width and six feet in depth, dug for the most part in solid rock.

"The cost of the job was \$320, but I feel that such an expenditure is worth while in a bitterweed country, if it requires that amount to get the job done," Mr. Dameron said.

"From past experience at the Sonora station, and of neighboring ranchmen," Dr. Dameron continued, "it looks as though sheep may be successfully run on bitterweed range if they are given

(Continued On Last Page.)

## P.-T. A. Carnival Slated For Next Thursday Night

Horned Frog Race, Red Lemonade, Games To Feature Frolic

Chunking stands, bingo games, fortune tellers, wheels of fortune, pink lemonade, peanuts and popcorn and the din of carnival barkers will be the setting on the school grounds Thursday night of next week when the big P.-T. A. Carnival is slated.

Opening with a featured horned frog race, scheduled to get under way at 6 o'clock Thursday afternoon, the carnival will get into full swing and continue into the night as long as customers remain on the ground.

Eighteen booths will line the midway, with the largest bingo game ever offered to center the grounds. There will be an assortment of games and side show attractions—all in the interest of raising funds for the purchase of uniforms for the high school band.

The curtain raising frog race will be for a purse of 20 per cent of the entry fees received. The entry fee for each racing frog will be \$1 and committees will be busy the next week among the sport fans of the community lining up entries in this event. The more the entries the larger the purse. The racing circle will be drawn on the street in front of the school building and the race run, the first frog to cross the line to be the winner of the 20 per cent purse.

Boys may now make some spending money chasing down horned toads. Each frog turned in will be worth five cents, and as many as are offered will be purchased at that price. C. S. Denham, superintendent of schools, will be in charge of receiving the racing frogs.

## Big Delegation Ozonans To Big Lake Zone Meet

Interesting Program Is Arranged For Missionary Session

A big delegation of members of the Woman's Missionary Society of the Ozona Methodist church is expected to attend the Zone Meeting of the society to be held in Big Lake Friday, October 14. Mrs. Scott Peters of Ozona is zone chairman and Mrs. Joe Pierce of Ozona is zone secretary.

The topic for the day's program will be "Our Dollars at Work in Foreign Lands." The program will open at 10 a. m. and continue into the afternoon. After a quiet music program and a hymn, the devotional will be led by the Rev. J. A. McDaniel of Big Lake. An outline of the work in Africa will be given by the Barnhart society. Brazil and the islands will be discussed by the Rankin group, and "Plans for Fall Study" will be outlined by Mrs. Jeffers of Rankin.

A vocal solo will be presented by a Big Lake artist and the McCamey group will discuss Japan and Korea. Committee appointments will be made before the lunch hour. A sing-song will open the afternoon program. Miss Mary Riddle, deaconess from Ozona, will lead the devotional and will discuss the community house project here. An outline of the work in Mexico and Poland will be given by the Big Lake group and the Sixtieth Anniversary celebration will be discussed by Mrs. Kenneth Hemphill of Menard. The Ozona delegation will be charged with a presentation of an outline of the work in China. A business session will precede adjournment.

The meeting next week will be the last zone session of the present conference year.

## Two Men Who Set Fire To Prairie Taxed \$50 Fines

Pair Threw Matches From Truck, Starting 7 Blazes

Two men from Roosevelt, Texas, who threw lighted matches and cigarettes from a truck to start seven separate grass fires along the Barnhart road recently, were assessed fines of \$50 and costs each in Justice W. M. Johnigan's court Monday when they entered pleas of guilty to a charge of setting grass fires, an offense covered by a specific statute.

Employees of the state highway department maintenance crew working on the Barnhart road discovered the first fire shortly after it started and extinguished the blaze before it had made much headway. Looking down the highway they saw another fire and hastened to extinguish it. They followed down the highway and in all extinguished seven fires.

Ahead of the string of blazes was a truck, and the highway workers took down its number. Ad Harvick, Crockett county rancher, on whose lands the fires were started, saw the truck parked in Ozona last Saturday, a week after the series of blazes were discovered. He questioned the occupant of the truck and the latter admitted being in the truck on the occasion but put the blame for starting the fires on his companion on that occasion. The man was taken into custody by Sheriff W. S. Willis, who went to Roosevelt to bring the other here to face charges.

The men were Hoyt Truelove and Chinton Surber. Surber made a statement confessing the offense and involving his partner. Both were fined \$50 and costs.

## Barn And Contents Destroyed By Fire On Miller Ranch

A quantity of Johnson grass hay, several bags of mohair and four or five saddles were burned when fire of undetermined origin destroyed a barn on the Jones Miller ranch south of Ozona early last Saturday morning.

The fire was discovered while the family was at breakfast. The mohair belonged to Sam Wills and was stored in the barn. The hay had been harvested from a field on the ranch and stored in the barn.

### SELLS EWE LAMBS, BUCKS

Mrs. B. B. Ingham recently sold her ewe lambs, about 1500 head, to Morris Dudley at \$3.50 a head. Mrs. Ingham also sold 20 head of bucks the past week to Marshall Montgomery.

## Taxpayers Get Notice Of Tax Due For 1938

Collector Makes Effort To Speed Up Tax Payments

Crockett County taxpayers were reminded this week of their tax obligations to the county through notices mailed from the office of Sheriff and Tax Collector W. S. Willis.

Collector Willis and Deputy Claude Russell are making an effort to keep taxpayers informed of the taxpaying period and to remind them of savings that can be effected through prompt payment. The collector has also outlined an ambitious program of making as near a 100 per cent collection this year as possible.

Sol G. Jones, who recently sold out his ranch holdings in this county and purchased a new outfit near Alpine in Brewster county, is the first to pay 1938 taxes, the collector reported.

The Japanese are said to be ready for a war with the reds, although they seem to have their hands full just now trying to beat the yellows.

Home Owners Are Advised To Check Sheet-Metal Work

Home owners and prospective home owners should give serious thought and careful attention to the sheet-metal work on their houses.

Under the heading of sheet-metal work come the gutters and leaders, or downspouts, the flashing around chimneys, windows and doors, and in valleys and on ridges, and the ducts for heating and ventilating.

The flashings are most important. As they are built into the structure, they should be made of metal which resists corrosion.

Chimney flashing should be a thorough job. To be effective, the flashing should go through the chimney and turn down inside the fine lining.

Flashing for the valleys of a roof must extend far enough on each side to keep water from working back under the roof covering and getting under the metal.

All sheet-metal work should be inspected from time to time. If it is a type that needs painting, it should be kept well painted.

Funds to repair or replace sheet-metal work may be obtained from private lending institutions qualified by the Federal Housing Administration under its property improvement credit plan.

### Behind The Scenes American Business

By John Craddock

NEW YORK, Oct. 3.—BUSINESS— Virtually unnoticed the month because of complete domination of the news by the European crisis, business in America has quietly climbed a steady upward climb spring's low levels. Steel operations have returned to 75 per cent of capacity, and men look for a rate of 60 per cent before the end of October. Managers say incoming orders from wholesalers and retail manufacturers reflect confidence that consumer purchasing power will continue to gain. The Federal Reserve's business summary for August reported last week, indicates for September the board's index of nationwide industrial production rose above 90 for the first time in 11 months. Based on 25 as 100, such an index figure would compare with 88 in August, 83 in July and 76 in May.

WASHINGTON — With scrutiny of the nation's tax structure scheduled to be a major undertaking of the next Congress, a call for a national labor tax council, by L. P. Marcianite, New York federation of labor president, is viewed here as highly significant because of the strong feeling labor has in national state affairs. Marcianite made a national tax council proposal a receipt of a Florida Federation of Labor committee's report which urged labor and industry to cooperate in effecting revision of the nation's "dangerously patchwork" tax structure.

Though recognizing that government expenditures may require additional tax revenue, the Florida report warned that "the success of the recovery program depends on the fairness of new tax plans" and charged that "the high cost of living is unmasked as the high cost of hidden taxes that fall inequitably on the wage earner, and nullify labor's wage gains." Marcianite proposes that tax study committees formed by A. F. L. units in New Jersey, New York, Connecticut, Massachusetts, New Hampshire and Vermont work together in a joint program, looking to a national council "giving united effort and force to aid solution of tax problems as they affect labor."

**THINGS TO WATCH FOR**—Tooth cleaner in liquid form . . . Vegetable ice creams, developed by a New Jersey dairy; its line will soon include tomato, spinach, pea and lima bean ice cream . . . Increase of armament purchases by U. S. government as result of war scare . . . A carbon monoxide detector being offered by an insurance company; simple to install, the device is said to guard against accidents resulting from breathing enough of the fatal gas while driving to cause headaches and excessive fatigue . . . A paint-stripping tool that works like a fountain pen; it will lay single, double or triple lines of uniform width and thickness at any desired spacing by a simple adjustment of guides . . . Another movie like the hit "Mr. Deeds Goes to Town" if produced, it may be called "Mr. Smith Goes to Washington."

**BAD WEATHER AHEAD?**—A one-year accumulation of rain "deficits" in America makes it an odds-on bet that this fall and winter will see plenty of downpours and flooded cellars, business an-

## Central Europe's Trouble Spot

Map shows Czechoslovakian districts inhabited by other racial groups. The areas shown in black are largely occupied by Germans and would eventually be ceded to the German Reich under the Anglo-French proposal for dismemberment of Czechoslovakia.

### When Gen. Syrový Formed New Czech Cabinet

PRAGUE, Czechoslovakia.—Radio photo shows General Jan Syrový (right), Inspector General of the Army and new Premier of Czechoslovakia, conferring with President Eduard Benes in the Presidential Palace after presenting a new Czech cabinet.

Analysts declare after a study of weather bureau statistics. Though as a rule rain is detrimental to retail trade, merchants handling galoshes, overshoes, non-skid tires and umbrellas may expect to be in for a good year.

In the nine years since 1929, when \$12,303,000 worth of rain coats was manufactured, production has averaged only slightly above \$3,000,000 annually. This low inventory situation plus new fabrics such as a silk garment "duranized" by the application of what scientists call koroseal should help to make the coming season a banner year, increasing sales and employment in both the manufacturing and retail divisions of the rainwear industry.

**REAL HIGH COST LIVING**—Americans who grouse about the high cost of living, ought to live in Germany awhile. Latest reports from that country show some startlingly high prices for certain foods. A few typical examples are, per pound: beef tenderloin, 68 cents; hamburger, 33 cents; chicken, 45 cents; butter, 58 cents; coffee, \$1.08; sugar, 14 cents; a dozen eggs, 60 cents. These prices are for the German worker whose basic wage is between \$17.50 and \$26.50 for a 44-hour week.

**HEADLINES IN NEW YORK**—More than 4,000 U. S. corporations have profit-sharing, bonus or pension plans for employees, Senate Committee finds . . . New record high established in gold shipments to U. S. during war-scare flight of capital from Europe . . . Grain movement now adding to traffic and revenue of western railroads . . . Gasoline consumption may establish new record this year . . . Automobile tire sales rose 22 per cent in August over July.

### Huge Finger Print File Is Built Up By State Police

AUSTIN, Sept. 28.—State police identification officials reported today that 149,834 fingerprint records had been received from police of Texas and the nation since the bureau was created three years ago.

Fiscal year reports showed that 244,982 personal fingerprint records were in the state police files and have been instrumental in the identification of 227 civilians otherwise unknown. The remainder of the records relate to criminals and are kept apart from the personal identification files.

Included in the reports were records of the thefts of 11,347 automobiles in the three-year period and notices of 2,083 other property thefts. Automobile losses decreased 25 per cent the past year when 3,295 were reported stolen. Photographs of criminals numbered 22,319 and criminal records received from the federal bureau of investigation at Washington totaled 111,836.

Early last year, the director said, a single fingerprint system was installed for the identification of criminals who leave their fingerprints at scenes of crimes. In this particular file there are 23,750 records.

The records stated that 980 examinations of questioned handwriting and typewriting documents were made by experts of the bureau. Identifications of fugitives increased 314 (cq) per cent

during the past fiscal year.

The state identification bureau serves as a centralized clearing point for peace officers of Texas and has furnished identifications of hundreds of fugitives captured in Texas and other states providing less expensive means for transmission of information and quicker identification than were had before its installation.

### Practical Jokers' Victim Spends A Night In Hospital

NEW BRITAIN, Conn.—Prankish friends of Joseph Covaleski, aware of his fear of snakes, killed a poisonous copperhead and draped it over the gear shift lever of his automobile.

Covaleski fainted when he slipped behind the wheel and saw the viper. When efforts to revive him failed, the funsters became frightened and hustled him to a hospital nearby. It was necessary for him to remain all night to recover from shock.

### FELINE FAMILY KEEPS FOUR-EARED TRAITS

ASHTABULA, Ohio.—Toots, the four-eared cat, may have her title as the only genuine four-eared cat voided—and that, too, by her very own offspring.

She has a son and daughter, Punch and Judy, who have two extra fuzzy tips alongside their regular ears.

### POLICE 'GUARD' MURDER RELICS FOR 37 YEARS

WASHINGTON, D. C.—Mementoes of murder and mayhem bulge from trunks of police department here.

For 37 years the department has been saving up all the weapons and tools of killers, thieves and rioters.

The collection includes a knife that pierced the heart of Mary Brown one summer evening. The knife, still stained with the blood of its victim, is stored away carefully with clothes of other victims of violence.

The oldest item in the collection is a piano stool that was used to bludgeon the life out of a blonde school teacher 37 years ago. Policeman Steve Goggins, caretaker of the weapons, cannot remember the name of the victim, but plans to keep the piano stool another 37 years in hope of taking it to court someday to convict the teacher's murderer.

Goggins still keeps the mattress on which Beulah Limerick was found shot to death seven years ago. Three persons have been held to the grand jury and one man tried for Miss Limerick's murder. None was convicted. But Goggins is keeping the mattress just in case.

From the ceiling in one room hangs a nail-studded club carried by a veteran during the bonus riots. The great prosperity and easy flowing money era are represented by assorted loud speakers, by dice cages and other gambling equipment.

One of Goggins' prizes is the shoe of one Robert Taylor—not the movie actor. The shoe was the first one Washington police ever fitted into the plaster cast of a footprint found at the scene of a burglary. Because of the shoe, Taylor was convicted.

### CHILDREN ARE FOUND AFTER FIFTEEN YEARS

SEATTLE, Wash.—Fifteen years ago Mrs. Roselba Englehart became separated from her three children. Search for them was unsuccessful until through an advertisement in a newspaper she found Cody, 21, a student at Lewiston, Idaho.

She found the other two, one at Asotin, Wash., and one at Troy, Idaho.

### Urges Statewide Observance Fire Prevention Week

AUSTIN.— Stressing the importance of continued vigilance on the fire prevention front, Marvin Hall, fire insurance commissioner, today urged statewide observance of the annual fire prevention week scheduled for October 9 to 15.

"Fire uncontrolled is one of the most serious problems that confronts us today," Hall said. "Each year its heavy toll in life and property is a black mark on the proud name of Texas. Only by constant and relentless vigilance of the part of every Texas citizen can we hope to reduce, and finally to eliminate the costly destruction of this economic enemy number one."

"Active participation in fire prevention week by every Texas citizen will go far toward curbing losses and saving lives, and, since fire losses have a direct bearing upon the fire insurance rates, there are other practical benefits accruing from effective fire prevention."

"Fire prevention week is designed for every Texan interested in performing a distinct service to his state, to his community, and to himself," Hall said. "If we remember that the fire that never starts will never get out of control, and keep that thought before us each day of every year, then we will rightfully say that the practice of fire prevention pays big dividends in human lives and happiness."

### Kerr Veterans Plan Armistice Day Celebration

#### Patriotic Program To Attract Crowds From Southwest Area

KERRVILLE, Oct. 5.—Veterans' organizations of Kerrville extend an invitation to the citizenship of South and West Texas to attend their annual Armistice Day celebration.

The November 11 events of the Kerrville organizations have always attracted large crowds.

Encouraged by the successes of other years, the veterans are this year incorporating a number of special features including the 20th annual roll call of Kerr county veterans; flag dedication, army dinner at noon, a more spectacular and longer parade, a home talent carnival in progress throughout the day and into the night, dancing afternoon and night, and a number of special stunts with extra prominence given to the sweeping of the streets by the losing team in a membership drive being carried out by Garrett-Baker Post, American Legion.

The day's events will open with a parade at 9:30 followed by a speaking program and flag dedication on the courthouse lawn.

The flag will be turned over to the Kerrville Boy Scouts who will be charged with the duty of raising the flag at Veterans' Memorial Park on special occasions.

Col. L. H. Webb, manager of Veterans' hospital, Legion, will preside at the flag dedication and speaking program.

The entire citizenship of Kerrville is cooperating with the veterans' central council in arranging for the November 11 events.

J. C. Boddinfield is general chairman.

The council consists of Louis Halphen Post, No. 379, American Legion; Garrett-Baker Post, No. 13, American Legion, and auxiliary; Disabled American Veterans, Regular Veterans' association and Veterans of Foreign Wars, No. 1480, and auxiliary.

Mr. and Mrs. T. A. Kincaid have returned from San Angelo, where they have been visiting for the past ten days. Mr. Kincaid was there on business.

### Heads of German War Machine

Field Marshal Hermann Wilhelm Goering (right), chief lieutenant of dictator Hitler, is shown in conversation with Inspector Dr. Todt, in charge of the construction of fortifications on the western front of Germany and chief of the German super-highways. The picture was taken during the Nazi party congress at Nuremberg.

### August Shows Slight Gain For Industry, And Trade In Texas

AUSTIN, Texas, Oct. 5.—Industry and trade in Texas during August gained slightly over the preceding month after adjustment has been made for seasonal influences, it was pointed out by Dr. F. A. Buechel, assistant director of the Bureau of Business Research, University of Texas, in his recent survey of business conditions. There still remains, however, a substantial margin of decline from August last year, he said. The gradual improvement in business conditions in the North and East may be expected in time to exert a strengthening influence on the prices of Texas raw materials, and this situation in turn will have a salutary influence on general business in the state.

Of the factors entering into the situation, department store sales made by far the best gain. Runs of crude oil to stills also gained substantially over July and moderately over August last year. This condition is in marked contrast to the declining tendencies which have prevailed for some months in petroleum refining in

other sections of the country. Since oil refining is so important in Texas the high operating rate in this industry has contributed greatly to the maintenance of employment and payrolls in the state. The only factors which were lower in August than in the preceding month and the corresponding month last year were miscellaneous freight carloadings and electric power consumption.

Dr. and Mrs. John Sherburne have returned from a 10-day vacation trip to Oklahoma and Kansas. They also visited relatives in Iowa.

### Lily Pons To Make Two Appearances In Concerts In Texas

DENTON, Oct. 5.—Preparations are under way for the arrival of Lily Pons, star of opera, concert, radio and screen, at Texas State College for Women Tuesday night, Oct. 11, for one of her two Texas concerts this year. She will be accompanied by Frank La Forge, famous pianist and teacher.

Since the enlarged student body fills the regular auditorium space, seats will be placed on the stage to accommodate townspeople and guests from surrounding cities.

Miss Pons, whose only other appearance in the state is scheduled for Beaumont on October 8, will come here from Georgia and Alabama and will continue her tour through Oklahoma, Nebraska and Colorado. At its conclusion she plans to be with the San Francisco and Los Angeles Opera companies for a time, and will sing at the Chicago Opera company in late November. Returning to the Metropolitan in mid-December, she will probably be starred in the "Barber of Seville."

### ATTEND SONORA MEET

County Agent C. J. Van Zandt and Bright Baggett attended a meeting at the Ranch Experiment Station near Sonora Wednesday morning when further discussion was had on the topic of adequate bookkeeping system for the ranching business. The A. and M. extension service is making an effort to develop a system that will be suitable for the ranch industry and is seeking the advice of ranchmen in a series of meetings over the section.

#### Eugene Slater, Minister

Sunday school, 9:45 a. m. Morning worship, 11 a. m. Young People Meet, 7 p. m. Evening worship, 8 p. m. Woman's Missionary Society Wednesday, 3 p. m. Mid-week service, Wednesday, 7:45 p. m. Choir rehearsal, Thursday, 7 p. m.

In a day when human life is so cheap and when totalitarian states demand the unswerving loyalty of its citizens the Christian church keeps on saying that personality is sacred and that men have been created after a Spiritual Pattern.

You are invited to help your church to bear this kind of witness to a society that in many ways is pagan. You are invited to help place the gospel into the framework of our modern world. This will not be possible unless you place that Gospel into the framework of your own life. This is the pressing and immediate obligation of every member of the church.

J. W. Henderson Home Scene Of Tea and Shower Honoring Miss Ethel Childress

Mrs. J. W. Henderson, Mrs. Scott Peters and Mrs. Joe Sellers Pierce III, entertained Saturday afternoon at Mrs. Henderson's home with a tea and shower for Miss Ethel Childress who is to be married to Neil Smith of Kansas City next Saturday.

Mrs. Joe Pierce greeted the guests at the door. Mrs. Henderson, Mrs. Peters, Mrs. Pierce, Miss Childress, Mrs. Eula Montgomery, and Mrs. Grady Mitcham composed the receiving line. Mrs. Bright Baggett and Mrs. Lee Henderson presided at the tea table the first hour and Mrs. Floyd Henderson and Mrs. Roy Henderson, the second hour. Mrs. Bob Weaver and Mrs. Joe Clayton assisted in the dining room.

Mrs. Jean Tupper, Mrs. Dempster Jones, Mrs. Boyd Clayton, Mrs. Chalmers Broadfoot and Mrs. George Bunker presided over the guest book and showed the gifts. Mrs. Joe Clayton, Miss Dixie Davidson, Miss Mildred Morris and Miss Ruth Graydon presented piano and violin selections.

The tea table was laid with silver service and decorated with silver candelabra and white gladioluses in a pewter basket. White flowers graced the buffet. White lillies stood on the piano and bouquets of other white flowers were used in profusion. White button chrysanthemums were given as favors.

Mrs. Eula Montgomery of Houston, Mrs. Grady Mitcham, Mrs. Louis Hall and Mrs. Frank Cargile of San Angelo were out-of-town guests.

Aldred Rendall, brother of N. E. Rendall, Ozonan, now in a Chicago hospital under treatment of physicians, is to be here today for a visit with Mrs. Rendall and Norman Rendall, Jr.

Phone your news to the Stockman.

MRS. PIERCE HOSTESS TO FRIDAY BRIDGE CLUB

Mrs. Joe Pierce was hostess to the Friday club at her home last week. Mrs. V. I. Pierce and Mrs. Sherman Taylor held high score and were given pieces of pottery decorated in the Mexican manner. Mrs. Wayne West, Mrs. Eula Montgomery, Mrs. Early Baggett, Mrs. W. E. Smith, Mrs. Evert White, Mrs. Massie West, Mrs. W. B. Robertson, Mrs. Horace Friend and Mrs. Carl Colwick were the other guests.

Judge Chas. E. Davidson and Chas. E. Davidson, Jr., returned yesterday from a bull sale in Whitney, Texas.

MRS. WEST NAMES BRIDE-TO-BE AS HONOREE AT BRIDGE

Mrs. Massie West entertained at bridge in her home here last Thursday to compliment Miss Ethel Childress, who is to become the bride of Neil Smith of Kansas City next Saturday.

The bridal motif was used in appointments and pink gladioluses and white chrysanthemums furnished decorations. High score prizes went to Mrs. J. W. Henderson and Mrs. Scott Peters. Miss Childress was presented with a gift.

Guests besides the honoree were Mrs. Sid Millsbaugh, Jr., Miss Mildred North, Mrs. Joe Sellers Pierce, III, Mrs. Peters, Mrs. Eula Montgomery, Mrs. Henderson, Mrs. Joe Clayton, Mrs. Richard Flowers, Miss Totsy Robison, Mrs.

MORE BUICKS SOLD

Lee Wilson, manager of the Wilson Motor Co., reported the sale of two more of the 1939 Buicks this week, a "61" sedan to T. A. Kincaid and a "41" sedan to Mrs. N. W. Graham. C. C. Montgomery purchased a 1939 Pontiac coupe from the Wilson Motor Co.

17 Per Cent Decrease In Traffic Fatalities

AUSTIN, Oct. 5.—Vehicular travel increased nearly 281 million miles this year over the same period of 1937, while 224 fewer persons were killed in traffic mishaps, state safety officials said today.

Through a strict enforcement and educational program Texas traffic guardians have managed a general 17 per cent decrease in street and highway fatalities since January 1. With the mileage increase taken into consideration the death drop would have reached 21 per cent, experts estimated.

Kay Kirby, small daughter of and Mrs. Doug Kirby, underwent a tonsilectomy in a San Angelo hospital Wednesday.

H. O. Word was in town yesterday on business.

Ele Hagelstein is in a San Angelo hospital for treatment for a stomach ailment.

Billy Rae Oden celebrated his sixth birthday Tuesday with a party for members of the kindergarten and a few other playmates.

THE HERO

"Did I ever tell you how I tried my jujutsu on a burglar?"

"No?"

"Well, I got hold of his leg and twisted it over his shoulder. Then I got hold of his arm and twisted it round his neck, and before he knew where he was I was flat on my back."

Passenger elevators started in 1868.

Scout Notes

By MILES PIERCE

The meeting of October 4, was opened with the Scout Oath, which was followed by the pledge of allegiance to the Flag of U. S. A. The roll was called and there were 30 scouts present.

Mr. Wayne West visited the troop meeting and the patrol meetings. All the scouts thanked him, for the books that he gave us, by

the Boy Scout Method, which is a great big "how."

After the patrol meetings were adjourned, the senior patrol gave the Fox patrol a snipe hunt. When the Fox patrol got back from the Snipe, they didn't ever want to see a snipe.

All the other organizations of Ozona are doing their bit toward helping the Music club convention, which is to be held here on November 4 and 5. The boy scouts are going to give the Junior Music club a "chuck-wagon" luncheon, Saturday, Nov. 5.

Next week as a guest we hope to have Mr. Houston Smith. He will make a talk on the subjects that he can help scouts with, in attaining their merit badges.

Ad Harvick recently sold his ewe lambs to Len Mertz, manager of the Texas Production Credit Corp., in San Angelo.

The air brake was patented in 1869.

Our Telephone is never "busy" now except when we are using it. We changed to a single party line.

Four-party and two-party subscribers should call or come to our business office for further information. It costs little to change from party line service.

Plymouth First to Present New Models For 1938

Here's the first of the new 1939 automobiles, presenting an impressive array of added features for greater comfort and luxury in the lowest price field. The latest models now on display at Plymouth showrooms here confirm the forecasts that stronger "eye appeal" would highlight new auto designs for 1939. Inside and out, this newest Plymouth is completely restyled. Headlamps and tail lights are streamlined into the fenders, and a new Vee-type windshield adds

more than six inches to body length above the belt. Built on a longer wheelbase—now 114 inches—brand new features include softer-riding coil springs of Amola steel; new high-torque engine performance; remote control gear shift up on the steering post, and a new "safety-signal" speedometer that flashes traffic lights right under a driver's eyes. The new Plymouth rides better, handles easier—and prices are still lower this year, the factory just announced.

## Check Your Home Now For Needed Repairs

Here are the vital points which make all the difference between an old house and a modern home. Look over your property now with a critical eye. Prompt attention to repairs will help maintain property value and prevent large "emergency" bills later on. Funds with which to repair, alter, or improve properties may be obtained in amounts up to \$10,000 from private financial institutions qualified under the Federal Housing Administration's Property Improvement Credit Plan.

The following numbers and list of items correspond to the numbers in the cross-section view of the home above: (1) Exterior trim; (2) attic ventilation, attic room; (3) flashings; (4) chimney masonry, cap, etc.; (5) roof; (6) rafters, studding; (7) roof sheathing; (8) dormers; (9) weather-stripping; (10) lath; (11) garage, tool space, workshop, etc.; (12) walks and drives; (13) exterior walls; (14) sheathing and insulation; (15) window frames and sash; (16) blinds, shutters; (17) porch bench, transom, door column, etc.; (18) steps, brick, wood, concrete, tile, etc.; (19) drain tile; (20) footing; (21) foundation walls; (22) basement floor; (23) recreation room, laundry, workshop, etc.; (24) heating plant; (25) grading and landscaping; (26) gutters, downspouts; (27) a modern kitchen; (28) built-in bookshelves, cabinets, cupboards, etc.; (29) joists and subflooring; (30) fireplace, mantel, flue; (31) paint, wallpaper, interior decoration; (32) interior trim; (33) stairways, treads, rails, balusters, etc.; (34) electric fixtures; (35) doors, hardware; (36) plumbing and fixtures; (37) outlets and wiring; (38) flooring, finished lumber, tile, linoleum, etc.; (39) wallboard, plaster, etc.; (40) closet space, shelves, etc.

### Seat Built In Window Space Handy Feature

A feature frequently encountered in small houses today is a combination built-in window seat and bookshelf. It is particularly well suited for recessed windows. The seat has a height slightly greater than that of a chair, the cushion being usually level with the window sill. Beneath the seat is a one-shelf bookcase, with a storage drawer below. The space behind the shelf is utilized for a hide-away. It is an inexpensive improvement by any good carpenter.

Coal was considered worthless until 1908.

### NEW TYPE FLOORING DESIGNED FOR HOMES

Compound wood flooring so designed that it can be laid over any type of wood underflooring or can be laid in mastic is offered home builders by several companies. The flooring is laminated and is said to reduce expansion and contraction to a minimum. The laminations are bonded with a glue which will kill rats, mice, and other rodents if they attempt to gnaw through the flooring. The flooring is also moisture-resistant.

### LEAKY WALLS

Leaky foundation walls in a home make cellars damp and increase the fuel bill. Water-proofing properly applied will help.

### SCREENS SHOULD BE STORED CAREFULLY

October marks the end of the screen season in almost every section of the country. After making necessary repairs, screens should be stored in such a way that the frames will not be warped.

In order to prevent warping, screens should either be stood up in racks or be laid flat. If they are stacked, it is important that the surface on which they are stacked be level and that each screen be placed squarely on the one below it. Improper storage may damage the wire cloth or warp the frames.

If screens and window sills have not already been numbered, this is recommended so that when the screens are put in use in the Spring they may be easily sorted and placed in their proper openings. Small duplicate brass number tags may be obtained for this purpose.

### IMITATION TILE WALLBOARD FOR KITCHENS

Old kitchens may be modernized in appearance by covering the walls with one of many varieties of wallboard that simulates tile. These are easy to erect and add bright, cheerful color to the kitchen. Wallboard is easily cleaned.

### CURVED WALLBOARD

A recent innovation in the building material field is a lightweight fiber wallboard that may be used on curved surfaces. The material may be painted or lacquered, if desired, and is available in smooth or rough finish.

The Elks were founded in 1868.

Our Work Speaks For Itself

Any Job—Large or Small Done Right

### Basement Room Has Many Uses In Modern Home

The basement of a home is receiving more attention now than ever before. In years past it was only a place for waste materials and broken furniture, with the furnace providing virtually the only reason for its existence.

Today the basement is becoming one of the most popular rooms in a home, due to alterations which amount to the addition of a room. A "rumpus room" for the children, an entertainment center for the young folks, or a recreational place for the entire family are now feasible in the basement through the judicious use of modernization.

### FALL PLANTS

Fall is shrub-planting time for many home owners. The added beauty of a property improved through transplanting of healthy new shrubs can hardly be measured in dollars and cents.

### WELL BUILT STAIRS ADD TO HOME SAFETY

Firm railings and stair treads, plus well-placed lights and switches, may prevent many painful and expensive accidents in the home.

### CRACKING A HARD ONE

Teacher: "Can anyone tell what causes trees to become petrified?"  
Bright Student: "The wind makes them rock."

## Lions Victims Of Powerful Attack Of Junction Team

### Visitors Swamp Locals By 45-6 Count In District Opener

Coach Ted White's Ozona Lions were helpless before the powerful attack of the Junction Eagles in the district opener here Saturday afternoon, the visiting Kimble clan running rough shod over the local crew for the lopsided count of 45 to 6.

But the sensational manner in which the Lions hung up that lone touchdown for six points in a measure compensated local fans for the afternoon's slaughter. It was in the third quarter when Beecher Montgomery, fleet quarterback for the Lions, received an Eagle kickoff after touchdown on a lateral from Wilson and behind perfect blocking raced down the sidelines 99 yards to the pay dirt. Montgomery outdistanced two Eagle defenders in the last 30 yards of his sensational run.

The Lions opened up in the first quarter and through that period seemed masters of the situation. In that frame, Montgomery tossed a pass to Lemmons for a 25-yard gain, taking the ball into Junction territory.

In the second quarter, however, the visitors organized and things began to happen. Taking the ball on their own 23, it took but two plays to ring the bell, McKay carrying over for the first touchdown. After that they came thick and fast. A few moments later it was Baugh over for another marker, and in the same quarter two more by McKay, two extra points raising the score at the half to 26 to 0. Another bright spot for local fans, however, was a 38-yard run by Montgomery just before the half ended.

Early in the third quarter it was McKay over again for the fifth touchdown, and it was after this marker that Montgomery turned in his 90-yard dash for the lone Lion tally. The final chukker saw the Lions give further ground under the heavy shelling of the invading enemy, with Baugh taking the oval over for two more touchdowns in that quarter to bring the total count to 45.

The game summary shows Ozona penalized for only five yards while the Eagles drew 30 yards in penalties. Ozona punted nine times for average of 33 1/2 yards and Junction kicked only three times for an average of 35 yards. The Lions tried 15 passes, completed 2 for 35 yards and had two intercepted. Junction passed 11 times, completed five for 91 yards.

The starting lineups:  
 Ozona Position Junction  
 Langford, LE Meredith  
 West, LT Barrow  
 Coates, LG Barker  
 Schneemann, C Collier  
 Couch, RG Couser  
 Thurman, RT Smith  
 Escue, RE Kirkpatrick  
 Dudley, LH McKay  
 Williams, RH Whitworth  
 Montgomery, Q Baugh  
 Lemmons, F Coffey

Mrs. H. B. Tandy will be in Abilene Friday for a meeting of the state board of the Federated Music Clubs of Texas.

## U.S.C.-Ohio State Game Draws Attention

Limelighted in the coming weekend's football schedule is the intersectional tussle Saturday, Oct. 8, between Ohio State university and the University of Southern California, at Columbus. Above is U. S. C.'s new backfield combination, expected to see action during the game. Left to right: Boyd Morgan and Bob Hoffman, halfbacks, Granny Lansdell, quarterback, and Ambrose Schindler, fullback.

### Feed Stored—

(Continued from Page 1.)

a liberal amount of ensilage with a small amount of cottonseed meal sprinkled over it each day.

"So far it is the only feed we have found that lends encouragement to this kind of livestock management on bitterweed range. It should be borne in mind, however," he said, "that trench silos of the dimensions as that dug at the Ozona station will not cost more than \$25 to \$50. We were unfortunate in encountering too much rock."

### Zone Meeting Of Missionary Society In Big Lake Oct. 14

The Woman's Missionary Society of the Methodist church met Wednesday afternoon at the church for a devotional and business session. The missionary program was devoted to a study of Africa, under the leadership of Mrs. Welton Bunger. The scripture lesson was read by Mrs. B. B. Ingham and Mrs. N. W. Graham. Mrs. Stephen Perner discussed the topic "Our Work In Africa." The business session was conducted by the president, Mrs. L. B. Cox. It was announced that the zone meeting is to be held in Big Lake on October 14. Report was also made that work had started on the settlement house for the Mexican community. Plans were laid for the stunt-night program to be sponsored by the society during the district Music club convention next month.

Present were Mrs. L. B. Cox, Mrs. Carl Golwick, Mrs. Stephen Perner, Mrs. John Henderson, Mrs. J. A. Fussell, Mrs. Mary Flowers, Mrs. V. I. Pierce, Mrs. B. B. Ingham, Mrs. W. R. Baggett, Mrs. Madden Read, Mrs. Scott Peters, Mrs. Minnie Crumley, Mrs. Charles Williams, Mrs. N. W. Graham and Mrs. Bright Baggett.

Mrs. Floyd Henderson is home after spending two months in Colorado.

### J. A. Brashear Sells Out Livestock To Hicks And White

J. A. Brashear, who has been ranching on the W. E. Friend, Jr. place east of Ozona, has sold out his stock of sheep and goats to Evert White and Johnnie Hicks. Mr. Brashear will turn the place back to Mr. Friend November 1, the latter to restock the ranch with yearling ewes purchased from T. A. Kincaid's Rankin ranch. Mr. Brashear has not announced his plans for the future. Hicks and White have moved the stock, consisting of about 1600 head of sheep and 400 head of goats to the 13-section Bates ranch near Sheffield, which they have leased from N. W. Graham, who recently purchased the land from F. C. Bates. Four hundred head of yearling ewes, purchased from Morris Dudley, are to be added to the flock upon delivery next week.

Mr. and Mrs. Alfred Cooke and family have moved into the George Harrell house in the south part of town.

Mr. and Mrs. Massie West and daughter, Ann, left Monday for Dallas where doctors will remove the cast from Mr. West's leg, broken about two months ago.

Mr. and Mrs. James Baggett and infant daughter, Elizabeth Ann, have returned from San Angelo.

### July Marriage Of Ozonans Announced In San Angelo Sun.

Mr. and Mrs. J. H. Russell of San Angelo announced Sunday in that city the marriage of their daughter, Juanita, to Harlan Claude Townley which took place July 10 in Walters, Okla.

The bride, who has been connected with the West Texas Utilities Co. for the last year and a half, and in the Ozona office as cashier since the first of this year, is in San Angelo to spend two weeks with her parents.

Mr. Townley, son of Mr. and Mrs. W. V. Townley of Henrietta, Okla., is employed by the Texas-New Mexico Pipe Line Co., and is with the pump station west of Ozona.

After graduating from San Angelo high school, Mrs. Townley attended San Angelo college two years before entering the business world. She was secretary of Beta Sigma Phi when the sorority was first organized in San Angelo. The young couple will make their home in Ozona.

### Daughter To Beans

Mr. and Mrs. Ed Bean are the parents of a daughter born Monday in San Angelo. The child's name is Jan Isabel.

Miss Thelma Dobbs visited Sunday with a sister in Crane.

### FRENCH AND GERMAN BORDER DEFENSES

This map illustrates the Maginot line and the Siegfried line, border defenses of France and Germany respectively, where military activities have been rife lately and where two armies await the outcome of the Czechoslovak crisis. French officials have placed much credit on reports that Germany's Siegfried line at the border is only her first defense. Her second or Hindenburg line, the French heard, ends about 10 miles back from the northern frontier. A third and nameless defense line is supposed now to be under construction on the northern banks of the Rhine.

### Mrs. Kincaid Grows Huge Pomegranates

Mrs. T. A. Kincaid, Sr., brought two clusters of pomegranates to the office of the Stockman from the fruit that grew on a hedge in her yard. The trees produced an unusual amount of fruit this year. Mrs. Joe Pierce has one tree in her yard, which bore a good crop of large pomegranates this year. The tree is a semi-tropical one very ornamental plant with a

bright orange red flower that blooms in the spring.

Mrs. J. W. Henderson is leaving this week end for Dallas to be with her sister, Mrs. Charlotte Fisher, who is to undergo a serious operation.

Mrs. Clarence Nelson is expected home today after having been in El Paso since Sunday at the bedside of a brother who is critically ill.

### The Old Country Doctor

Faithful to his duty he traveled the country, as patient and willing in his service as the old horse Nellie that hauled his buggy. General practitioner he was... the affectionately remembered forerunner of the modern doctor. He, too, just as the physician of today, knew the value of the reliable prescription pharmacy. He knew that professional accuracy in compounding prescriptions was just as vital as in his own conscientious work.
