## Dorsey Hardeman To Dedicate Davy Crockett Statue

### Legislator To Speak At Program Here On June 22nd

Representative Dorsey B. Hardeman of San Angelo, a native of Tennessee, will deliver the principal address when the statue of Davy Crockett, native Tennessean who died in the cause of Texas liberty at the Alamo, is dedicated at fitting ceremonies here on June 22.

The statue, erected by the Centennial Commission of Texas with funds appropriated by the state to celebrate its 100th birthday in 1936, is carved from native Texas granite and was erected last fall in the city park as a tribute from the county which took its name from the Texas hero.

The dedication will take place as a feature of the twelfth annual Crockett County Rodeo, race meet, stock show and sale which will open on that day. C. S. Denham, superintendent of schools, and Miss Wanda Watson, who was Crockett county centennial chairman, are laying plans for the day's program. The program will follow the barbecue dinner in the park, the afternoon's rodeo program to be delayed a short time if necessary to allow time for the dedication. Full details of the unveiling ceremonies and dedication will be announced later and will be made a part of the advertised program for the three-day rodeo and stock show events.

## ONE THING and THEN ANOTHER

By FRED GIPSON

SAN ANGELO.—I can still enjoy a fishing trip. But every once in awhile I get to wishing I could take just one more trip like I used to take when I was just a cotton-chopping kid.

Papa was alive then, and he liked to fish, too. And during the summer we'd fight the weeds in the cotton and corn just as long as we could stand it and then harness up the mules to the wagon and pull out for the Llano river, some 15 miles away.

Somehow, Charlie Sanders could always tell when we were going fishing and he'd usually come stalking out of the brush with a 22 rifle over his shoulder about the time we got harnessed up. And we'd take him along and go by town and pick up Buck King or maybe Jim Brown.

And the mules would step out briskly along the road. And their chain traces would jingle. And the steel wagon tires would grind in the sand. And the wagon would bounce and lumber over the rocks and ledges. But I'd always be sitting comfortable on a bed roll spread across the fodder for the mules and having a mighty good time listening to the tall hunting and fishing tales the men were telling.

Every once in awhile I'd hop off the wagon and fill up my overall pockets with round pebbles, so I'd have ammunition for the "nigger shooter" I always carried. Then I'd run and catch the moving wagon again and climb back on and me and Charlie would take turns shooting at lizards and snakes and things we passed along the way.

Usually we'd find a big wasp nest hanging in a mesquite somewhere. And it would be full of grubs, the unhatched wasps. And Charlie would say we'd better get that wasp nest for fish bait. You can boil a nest like that and toughen the grubs, and the catfish and trout will fight each other to get on your hook. But the thoughts of going up to that big nest, black with fighting wasps, would just scare me sick.

But Papa would drive up the (Continued on Page Five)

## Gavel Made From Walnut That Grew On Farm Where Davy Crockett Born To Be Used In Dedication Of Memorial Here

A gavel to be fashioned from a piece of walnut wood which grew on the farm near Limestone, Greene county, Tennessee, where David Crockett, hero of the Alamo, was born and reared, will be used in the ceremonies dedicating the new David Crockett memorial in the city park here on June 22.

The historic piece of wood was secured by C. S. Denham, superintendent of schools, who is chairman of the committee on arrangements for the dedication ceremonies. In addition to having grown on the original David Crockett farm, the piece of wood has a history in use, having been a part of a house built 125 years ago by the great great grandfather of the present owner and occupant of the farm.

## Three Mexicans Get 2 Years On Forgery Counts

### Trio Sentenced After Pleading Guilty In District Court

Three Mexicans drew prison sentences of two years each when they entered pleas of guilty in district court here Monday morning to indictments charging them with forgery and passing forged instruments.

The trio, Raul Hernandez, Isaac Fabala and Manuel Arsol, admitted forging the name of Mrs. Eva Lena Hill, wife of Claude Hill, to three checks, each amounting to over \$20, and cashing them at various places of business in Ozona. Two of the Mexicans had worked in prickly pear eradication crews operated by Mr. Hill.

The cases were tried before District Judge W. C. Jackson, who returned to hear the cases after adjourning district court last week. The grand jury, which was dismissed after returning indictments against Garland and R. B. Kimball for theft of saddles from the Tom Owens ranch, was recalled by Judge Jackson to consider the charges against the three Mexicans.

The forged checks were cashed at the James Motor Co., C. G. Morrison Co., and Ozona Market. The money was returned to these firms.

## Funeral Rites At Del Rio Wed. For Mrs. Longley

### Wife of Glenn Longley, Former Ozonan, Died There Monday

Funeral services were held Wednesday afternoon at 4 o'clock from the Doran Funeral Home in Del Rio for Mrs. Eunice Louise Longley, 24, wife of Glenn Longley, who died in Del Rio Monday after a brief illness.

Funeral rites were conducted by the Rev. Roland Murray of Del Rio, burial following in Westlawn cemetery. A number of Ozona friends of the family attended the services.

Mrs. Longley is survived by her husband, the son of Mr. and Mrs. Cam Longley, former Ozona residents, and her parents, Mr. and Mrs. N. S. Rose of Estancia, N. M. The couple had made their home on the Longley ranch near Pumpville, where the younger Longley was associated with his father in the ranch business. Mrs. Longley had been in ill health for several months but her death came unexpectedly Monday.

Mrs. Victor Pierce and Mrs. Lee Childress entertained members of the senior class with a supper in the garden at the Pierce home Wednesday night.

## Ozona Band Makes Splendid Showing At Abilene Meet

Director Norman Heath, school officials and parents and patrons who accompanied the Ozona high school band to the regional meet at Abilene last weekend came back swelled with pride in the splendid showing made by the local musical group in competition with the more seasoned bands appearing in the regional meet.

Despite the fact that the Ozona band is in its first year as a part of the school curriculum, the group placed in third division, which was in fact a rating of second place in division C competition, no first ratings being given in C division. Other bands in the C classification were rated in third, fourth and fifth divisions.

## Nelson Resigns To Become Supt. Rochelle Schools

Clarence E. Nelson, principal of Ozona high school, this week tendered his resignation from that position to accept the post of superintendent of schools at Rochelle, Texas, in McCulloch county.

Mr. Nelson was elected to the superintendency of the Rochelle schools this week to succeed M. E. Noble, who will become superintendent at Rocksprings. Mr. Nelson has been principal of Ozona schools five years, coming here from Abilene where he had taught in the public schools five years. In addition to his duties as principal, he has taught mathematics and history in the local school.

## Ozona High Principal Gets Advancement In Profession

The Rochelle high school has an enrollment of 225 this year. Grade school is about the size of Ozona's, Mr. Nelson said. A new native rock gymnasium has just been completed for the high school and plans are being discussed for a new high school building.

Mr. Nelson, after finishing out the present term with Ozona high school, plans to attend summer school at Leland Stanford University in California this summer where he will start work toward his Ph.D. degree.

## WINS BAND HONORS

Madye Jo Bailey, daughter of Mr. and Mrs. Albert Bailey of Iranan, and a granddaughter of Mr. and Mrs. John Bailey and Mr. and Mrs. J. R. Kersey of Ozona, won first place in girls' twirling in recent regional competition in which the Iranan band, of which she is a member, participated. The Iranan band won first division honors and will take part in the national contest at Abilene April 28.

## Hitch Hiker Is Held In Robbery Of Garage Till \$62.50 Snatched From Register At North Motor, Recovered

A bit of fast detective work on the part of Joe North, Dump Puckett and Sheriff W. S. Willis resulted in the recovery of \$62.50 pilfered from the cash register at the North Motor Co. at about 6 o'clock Wednesday afternoon and the arrest of a hitch-hiker in connection with the robbery.

The cash from the register was missed by Mr. North when he started the check-up of the register at the end of the day. Puckett, who was on duty at the garage, recalled having seen a man carrying a small suitcase pass the garage just as he returned from delivering a car.

Sheriff Willis was notified and the search began. A hurried run was made by officers toward Barnhart in the hope that the man had walked in that direction. Telephone wires were started humming from the sheriff's office and soon complete description and even the man's name had been secured.

A few minutes later, Mr. North saw the man enter the Hotel Ozona where he was attempting to purchase a bus ticket when Night-watchman N. P. Hokit, called in by Mr. North when the sheriff was not available at the minute, made the arrest.

The man, who gave the name of Delbert Evans, was searched by officers and all but 17 cents of the missing money was recovered. Evans admitted rifling the cash register, officers said. He was placed in county jail. Sheriff Willis will make an effort to communicate with Judge W. C. Jackson this morning in an effort to have the case disposed of by another called session of the grand jury this week, he said.

## Plan For Sodding Football Field Is Approved By Board

Approval of the plan to sod the football field at the Powell Athletic field was given by the school board in session Monday.

Supt. C. S. Denham was given authority to order the necessary grass seed and 150 feet of fire hose and fittings with which the field is to be watered.

Laying of a 2-inch water line to the edge of the field was recently completed as the first step in the plan. The grass will be planted as soon as possible in order that it might attain as much growth as possible before the season opens next fall.

## Ozona School Is Again Member Of Southern Assn.

### No Criticism Found By Membership Committee In Voting

Membership in the Southern Association of Colleges and Secondary Schools was accorded the Ozona high school for the current year through action of the membership committee of the association meeting in Memphis, Tenn., March 27 to 29, according to notice received this week by Supt. C. S. Denham.

"Action of the membership committee with regard to your school is significant in that not a single criticism was voiced against your high school," the committee wrote in notifying local school authorities of the election.

Ozona high school has enjoyed uninterrupted membership in the Southern Association, a mark of distinction in meeting the rigid standards required for such membership, since 1917.

## Many Ranchers Not Signed On Range Program

### Saturday Is Deadline For Participation For 1939

A number of Crockett county ranchmen have not yet signed up for participation in the 1939 soil conservation program of the AAA, according to reports this week from the office of C. J. Van Zandt, county agent.

The deadline for signing up applications for participation in the 1939 program is Saturday of this week, April 15, it has been announced from state headquarters. Operators who plan to carry out any of the approved practices in 1939 must have their applications signed up by that date.

All participants in last year's program have been notified of the deadline, the agent's office reports, but between 20 and 25 have not yet signed up for the new year. Only actual operators of ranches may participate in the 1939 program, it is pointed out.

## WOMAN'S CLUB MAKES PLANS FOR CLEAN-UP

### Cooperation Sought In Making Campaign 100 Per Cent Effective

### LIMITED HAULING

### Remove Trash Only for Those Unable To Do So Themselves

Cooperation of the entire citizenship of Ozona is sought by the civic committee of the Ozona Woman's club next week in making effective a city-wide clean-up campaign which that organization is sponsoring through its civic committee.

No trucks are to be furnished this year for general free hauling of all accumulated trash, it was announced by Mrs. Scott Peters, chairman of the civic committee. However, a limited amount of free hauling will be done in case of persons who are not able to have their own hauling done. Heretofore, the county has furnished the trucks for hauling off trash during the annual clean-up campaigns of the Woman's club. This year, however, it was decided to abandon this practice and to encourage residents who are able to have their own trash hauled and to make arrangements for frequent removal of trash rather than allowing its accumulation through the year, or at least for several months, waiting for the free hauling in the spring clean-up.

In order that the clean-up may be 100 per cent effective, however, arrangements have been completed for hauling trash for those families unable to have the work done themselves, and these families are urged to have trash gathered and available without their premises by Wednesday of next week. Mexicans of the Lima settlement will furnish their own trucks for a clean-up of the Mexican settlement.

Anti-War Bill

It seems that the senators and representatives who are supporting the new bill which, in event of war, would tax the profits out of war-time business, and put the country on a partial pay-as-you-go basis, made a slight mistake. They have proposed such extreme income tax rates that some people would not have enough money to pay their taxes, much less buy a little protection from hunger and the elements. The scheme proposes the practical confiscation of higher corporation and private incomes without taking into consideration the obligation to pay state and local taxes. A recent defense of the bill by one of its authors in the House revealed that he was influenced in his thinking by the Federal report on incomes. It was released through the National Emergency Council, which is the official New Deal propaganda agency. In this report the higher incomes were given before taxes were deducted and the lower incomes were given without regard for the value of time which people spend in working for themselves. The report has been denounced as the most deceptive public document ever issued by the government. Conclusions based on its misleading statistics can, of course, be no more reliable than the statistics. The bill is being boomed as a war-deterrent measure. It would set up a powerful incentive to second thoughts about war. But if, in spite of the penalty, the country had to go to war, its worst enemy would be not the armed foe, but the violence to its internal political, social and economic organization. The advantage of striking a quick and decisive blow with the vast new defense mechanism would be lost in getting out of this economic strait jacket. Chief Justice Marshall said that the power to tax is the power to destroy. The authors of this scheme seem to think that it is also the power to commit national suicide.—Indianapolis News.

GET THOSE FEET OUT OF HIS FACE

Waste

The queer charge is made in Washington these days that there is great waste in the WPA, not meaning graft, but just incompetence and squandering. Representative Woodrum of Virginia, advocate of reduced relief appropriations, blasted the WPA for waste last week in Congress. Of course there is waste in the WPA. The whole basic principle of relief is waste, if you consider it strictly as business. It would have been much cheaper to let millions die from want and exposure than to feed them and make work for them. And when you begin to make work to feed millions, you no longer move in the sphere of business economy. You are just wasting—wasting everything but human sympathy, wasting everything but the eternal pity in the heart of Christian man that cannot live in the presence of suffering. When men can do that they have become beasts. So of course there is waste in the WPA. And until the wise ones in this land devise some other way than charity, disguised as public work to feed the hungry, and to shelter the cold, there will be waste. Government never will solve this problem of economic waste. It must be the brains of business, and if business lacks the brains of business—the heart and the brains—God help America.—Emporia Gazette.

Cheaper Than Dirt

After all, it's a cheap triumph over some very small countries that the Nazis are enjoying.—Detroit Free Press. "A \$44,000,000,000 debt is not a good rampart for national defense."—Charles L. Gifford, U. S. Representative from Massachusetts.

The People Wait

It is not surprising that recent polls of public opinion show that the great majority of the citizens of this country are hopeful that the two major labor organizations, the A. F. of L. and the C. I. O., will get together and reconcile their differences under some plan that is fair to both vertical and horizontal unions. These polls likewise indicate that warfare between labor groups, as well as warfare between labor and management, whatever the cause and no matter who is at fault, definitely retard economic recovery. The United States is plenty big enough to hold two big unions, living side by side in sensible revision of laws governing the relation of employer and employee. The national labor relations act is a case in point. This act was undoubtedly inspired by honest and praiseworthy motives—but, in actual practice, it has served to further foment, rather than reduce, labor difficulties. It has actually harmed the cause of honest unionism, not helped it, by encouraging labor racketeering and excesses on the part of union officials. During this century, we have seen the passage of much good

Texas Business On Even Keel For Year

AUSTIN, April 5.—While the nation's business has been experiencing wide swings, Texas has remained on an even keel for more than a year. Dr. F. A. Buechel, University of Texas economist, pointed out today. A change of only a fraction of

one per cent occurred in the University bureau of business research index for February, he said, dropping to 94.1 from 94.3 in February of last year. In comparison with January, the composite index declined from 95.6.

"It still is expected that this year the normal seasonal rise in business will occur," he said. "Among the factors giving rise to this expectation of further business improvement are increasing residential construction, auto-

mobile production, railroad purchases and governmental spending."

RANCH TALK

By SUNSHINE MATTHEWS

From Headquarters of

Texas Sheep & Goat Raisers' Association

Fit for the Queen—and made from Texas wool. Byron Wilson, secretary of the Wyoming Wool Growers, writes about the wool dress to be presented to England's Queen: I saw the goods for the Queen's dress. She sent over a sample of the type of goods she wanted and the color it is a pastel shade of blue—almost gray. They made the patterns they are sending her from a 2-ply yarn made from Texas 80's wool—believe it or not! Julius Forstmann was quite delighted with the fabrics made from this wool, as he did not believe we could get as fine a wool as that in this country!"

C. W. Cunningham, secretary of the Texas Sheep & Goat Raisers' Association, in Washington to attempt to secure a 10-cent raise on the government mohair loan, has found on this trip to the capitol that much more information is available there on the Angora than on his previous trips. In preparing for his trip Mr. Cunningham collected records of mohair sales for the past 30 years from five Texas warehouses. In conference at Washington he found his figures checked very closely with figures government officials had secured since last year. The Angora—perhaps because the biggest part of that family is in Texas, pretty far from the capitol, and because he is an unassuming cuss—has been an almost unknown quantity as far as Washington is concerned.

Considerably more interest in government wool loans has been shown over the ranch country the past ten days than heretofore. No word has been received as to appraisers for 1939 wools, however, and final mechanics of the loan are being worked out at Washington. According to reports, several warehouses that did not handle government loans last year will enter the field this year.

From western wool country: Fallon & Tilton made several purchases of wool in California in the San Joaquin Valley country, including the Olaho & Urrutia clip of 2,500 fleeces at 23 1/4 cents and the St. Esteban Bros. clip of 3,500 fleeces at 22 1/4 cents; from the Sacramento valley they got the Howard Brady clip of 4,000 fleeces at 26 cents, the J. J. McPherrin 3,000 fleeces at 23 cents, and the B. Dunlap 2,000 fleeces at 25 cents.

In Wyoming: Dr. E. T. Lauzer of Rock Springs contracted his clip at 22 cents. Idaho wools have been sold at 22 to 22 7/8 cents, with one pool reported contracted at 23 cents. Some contracting is reported in Montana at 20 to 22 cents and wool from the western slope of Colorado has been con-

tracted at 20 to 22 cents. A Placer county, California, clip of 7,000 fleeces was reported sold at 25 cents per pound f.o.b. shipping point.

Horace Bolt Maddux, Kimble county 4-H club range flock demonstrator, marked up a 100 per cent lamb crop, according to Dick Homann county agent. It was remarked further that he had to knock a couple of lambs in the head to cut his crop to 100 per cent—47 lambs from the 45 ewes used in the demonstration.

Clay Holland of Junction had better luck than 90 per cent of the Angora men with his goat shearing. His kids sheared one pound over three pounds around and his does averaged 4.36 pounds.

Albert Bartley of Junction bought a small bunch of registered yearling nannies from Marvin Skaggs, Kimble county Angora breeder, at \$15 around. There aren't too many goats over the Hill country for sale. Jim Carpenter of Junction says. A few mutton goats are selling at \$2.25 and \$2, but the supply is the highest in some time. Carpenter recently purchased a few grown nannies, registered stock, from Jack Turner of Junction at \$12.50 around.

Estimates on the total lamb crop for Kimble county this year range from 60 to 65 per cent. A five per cent loss has been reported due to milk colic—which has caused losses over considerable territory this spring.

Terry Jetton of Junction bought from Arnold Grosenbacher 57 purebred Angora does at \$10 around—that price for purebred stock upping the opinion of a number of goatmen on their property.

Gus Hartgrove of San Angelo sold a string of 3,500 mutton lambs in the wool to Al Dumain at cents a pound. The lambs were delivered the last of the week.

James L. Daniel of Eden is mailing out invitations to his annual warehouse fiesta, dated April 14 this year.

Menard county range looks nearer normal than most of the neighboring counties. A three-quarter inch rain fell over the county a couple of weeks ago, followed by a fair rain. Most of the ranchmen have quit feeding and reports on the lamb crop point to a 65 per cent average. There are very few yearling cattle left in the county for sale, ranchmen say.

It is street talk around that the Mexican government will call a halt to allowing breeding cattle to be taken out of the country af-

er the 15th of this month. Calves, steers, and heifers under two's can be brought out, it was said, but the ban is on the breeding stock.

Floyd Bierschwale of Junction sold a couple of Delaine rams, registered, to L. A. Schreiner of Kerrville at \$150.

The Lampasas Stampede Rodeo is scheduled for April 21 and 22 and will officially open the new rodeo arena. The arena, described by a number of rodeo men as one of the finest in the state, is equipped for night shows.

Following the April Stampede, Lampasans will begin work in earnest for the July celebration—the Lampasas Race Meet and Rodeo and the Texas Angora Goat Breeders' Association goat show and sale on July 19, 20 and 21. Pete Gulley, Angora breeder from Uvalde, has been in Lampasas several times recently for conferences on the sales catalog and premiums. Lampasas is to put up \$500, matched by the association's \$500, for prize money.

Work is under way at present on remodeling of a number of old buildings around the fairgrounds, to provide ample space for stock to be brought in. A new auction ring is to be erected.

E. H. (Blacky) Johnson is manager and arena director of the Lampasas Rodeo Association. Other officials are Sam Harkey, president; S. R. Adams, vice president; J. V. Hammett, secretary and C. A. Northington, treasurer.

Hardy Farmer of Junction recently shipped out Kimble county's milk lamb crop for 1939. Between five and six thousand lambs usually go out of the county in that classification in the spring. R. E. Homann, county agent, said, but this wasn't the year for it. Of Farmer's shipment, 120 lambs averaged 57 pounds and brought 8 1/2 cents a pound. The lambs had been creep fed on the open range, a fairly new practice in the county.

Roy Murr of Junction sold to Walston of London 10 registered Delaine ewe lambs at \$12 and a ram lamb at \$40.

Attendance at all services last Sunday exceeded all our records of the past two and one-half years. A young boy said of the attendance, "Wouldn't it be fine if we had this many people at Church every Sunday?" It surely would be fine! The organist, the choir director, the choir, the stewards, and the preacher are all working to make the services of every Sunday as helpful and as inspiring as the services of Easter Sunday. We cordially invite you to make attendance at church a regular habit of your life.

District conference will be held at the Methodist church in Menard, April 19-20. road apiece, so the wasps wouldn't maybe sting the mules and make them run away. And we'd wait and watch Charlie ease up to that wasp nest and carefully pull it down. And the wasps would be swarming all around him, black and angry. And I'd be nearly choking, I'd be so scared. But they never would sting Charlie. I don't know why yet. Charlie was the only man I ever knew who could go right up and take down a wasp nest and not get stung. Then we'd move along, and di-

rectly Charlie would drag his 22 rifles out of the bedroll and allow he ought to get a little fresh meat for dinner. And he'd step down off the wagon and slip off through the brush, and we wouldn't see him again for maybe a couple or three miles. And I'd always be afraid he'd get lost or maybe we'd go too fast and leave him. But he'd always show up in the road ahead of us after awhile, with four or five squirrels and maybe a couple of quail hanging to his belt.

And finally we'd roll down to the river and pitch camp in the shade of the big pecan trees. And Papa would unhitch the mules and toe them to the trees away from camp apiece and then holler for me to bring them their corn and fodder. And I'd drag out the sacks of corn and shuck a few ears for them and think how much better I liked to feed the mules here on the river, where there were no chickens that had to be minded away from their food, like at home.

And it wouldn't be long until Charlie would have the squirrels and the quail fried over a campfire. And he'd lift the lid off a skillet that had a hot cake of brown cornbread inside. And we'd all fall to and eat like we'd never tasted such grub before.

Then, quick as our dinner settled, the men would rig up their poles with hooks and lines. And Papa would fix one for me and show me how to roll up the line on the pole, so I wouldn't always be hanging it in the brush on the way to the river. Then Charlie would dip his wasp nest in boiling water for a minute or two, and we'd be ready to snag the fish.

And we would snag them, dozens of them. And when one hit my line, lots of times I'd get so excited that I'd fall in the water, and Papa would have to fish me. pole, fish and line all out, if the fish were still hooked. And the men would all laugh and I'd be terribly ashamed for getting so excited. And then I'd forget it the moment my cork went under again.

And we'd fish and fish, and the wasp nest bait would finally play out. And we'd seine for minnows, then, I liked to seine for minnows. We always caught so many other queer creatures, like perch, and little green snakes, and turtles and helgramites and gars. Then, too, I could fall down and get wet and splash around and Mama wasn't there to raise a row about my messing up my clothes.

And finally night would come on and we'd all go in and sit around the campfire and fry and eat fish and the men would tell some more tall tales. And the river smell would be in the air. And the big frogs would be croaking and the little frogs piping and the locusts whirring in the pecans and the sound of the water gurgling and

singing over the rocks would grow louder.

And pretty quick I'd be so full and sleepy that I couldn't keep my

attention on the yarns the men were telling, so Papa would spread out the bed roll and I'd pile in and drop right off to sleep, never not-

icing the rocks and sticks that made lumps in my bed.

I'd like to take a fishing trip like that again.

The members of the Senior class of '39 will go on their annual senior day trip to San Antonio and Austin on April 27. They will leave Ozona at 12 on Thursday. They will arrive in Austin about and go to see a show. At 7 o'clock Friday, they will start a tour of Austin. Two hours will be spent on the campus of the University of Texas.

At 4 o'clock Saturday, the class will leave Austin for San Antonio. The night will be spent there and about 1 o'clock Saturday they will start home.

The cost of the senior holiday will be about \$10 per person.

### AN EDITORIAL

As has been stated before, "the students of Ozona high school have too much money to spend." This statement is true and can very easily be proved so. How many successful college students have graduated from Ozona? There are a very few, and these few have found that they had to learn how to study and work after they had entered college. The fact that a person has money is no sign that he doesn't work, but most of the students spend a great deal of their time out of school running around in automobiles or going to movies. They don't know what studying means until they enter college and have to write long themes, read several hundred pages, and spend two or three hours in a laboratory, inside a day's time.

Another fact that verifies this statement is that the largest percentage of college graduates are students who have worked their way through college and have had to burn many gallons of "midnight oil" in preparing the lessons for the next day.

The people in this community also overdo the senior activities. They think that it is the most wonderful thing that could happen if "Johnny" or "Mary" gets his diploma. What is a diploma anyway? It is only a piece of paper that says that someone has spent four years in high school and is now ready to enter college. If a person has learned how to study and work out his own problems, he has gained something from high school. Otherwise, he hasn't. The senior class of this year is going to have many social activities given in honor of them because they will get their diploma. But what good will a diploma be in working out future problems of life?

## Montgomery-Kirby Win Singles In Tourney

### Boys To Go To Fort Stockton Friday

The first annual singles tournament of Ozona high school has been in progress for the past two weeks. After many hard games William Beecher Montgomery and Tommy Kirby emerged as victors in the boys' division and girls' division respectively.

Beecher Montgomery defeated George B. Armentrout in the boys' finals 6-4, 6-1. By his smashing drives and brilliant net play, Montgomery kept his opponent on the run during the entire match as he did his other opponents of the tournament. In his march to the finals Montgomery defeated two members of the tennis team to be sent to the district meet, H. Lemmons, 6-1, 6-3 and D. Wilson, 6-0, 6-3. He will be the third man of the team. Armentrout won his way to the finals by trouncing in successive sets B. Lemmons, Robertson and Carson.

Other contestants of the boys' tournament were Schneemann, J. Colquitt, Chapman, S. Lemmons, Escue, Williams, Hannah, Dudley and Hubbard.

In the girls' division there were many more close matches than in the boys' division. After a long, exhausting battle in the hot sun Tommy Kirby defeated Billie Gene Linticum in the finals 4-6, 6-2, 6-4. By winning her way into the finals Miss Kirby vanquished Dorothy Hannah and Eloise Carson. The steadiness of her play finally wore down each of her opponents. Billie Gene Linticum had previously eliminated Billie Jo West and Johnnie Boyd before meeting her superior.

The other girls who participated in the tournament were George Ann Kirby, Jean Drake, Noma V. Miller, Posey Baggett and Mary Bess Parker.

As has been mentioned before in this writing, three boys from Ozona go to Fort Stockton next Friday and participate in the district tennis tournament. These three boys are William Beecher Montgomery, Howard Lemmons, and Donald Wilson.

The second annual doubles tournament of Ozona high school will begin some time this week. P. C. Ferner and William Beecher Montgomery won this tournament last year in the boys' division, and Dorothy Hannah and Billie Jo West are the defending champions in the girls' division. This tournament promises to be a very closely contested one. The general public is invited to drive out and see these games.

### Students Need To Start Cramming Now

The students of Ozona high school are all beginning to wonder whether they are going to pass the year's work. We have six weeks left to learn about how little we really know and how much cramming we are going to have to do in order to pass. Most of us think that we know nearly everything that we have studied so far, but then the night before the last big test we get cold feet and study all night, or nearly all night.

Be wise and start your cramming six weeks before, and the tests won't seem so hard.

We will all hate to see the seniors go, but then we all know that leaving is what they have been preparing for the last eleven years. After so much preparation they should not be sad when they graduate. Some people say that their high school days were the best, but we can't seem to see it that way. Look back at your high school days and see how many times you had and how easy it is to remember them.

### THE VOICE OF EXPERIENCE

By A. SENIOR

Is it advisable to accept last minute invitations from men?

Don't be insulted if you get a last minute invitation. After all, most men don't like to plan in advance, preferring to do things on the impulse. When this type of man discovers you're ready for anything at any time, he'll ask you more frequently.

## Ozona Band Attends Regional Contest In Abilene

### Band Places In Third Division

The Ozona band went to Abilene to participate in the regional band contest last weekend. The band won third division in sight-reading, marching and playing. No first divisions were given to the class C bands.

The final ratings of the class C bands were: Bronte, 4th; Santa Anna, 3rd; De Leon, 2nd; Forsan, 4th; Ozona, 3rd; Coahoma, 4th; A. C. C., 2nd; Megargel, 5th; Knox City, 4th; Loraine, 3rd.

Miles Pierce won 3rd division with a cornet solo; Doris Bunger won 3rd division in the French Horn solo. Joe Max Word won 2nd division with a clarinet solo. Billy Hannah and Jim Ad Harvick won 4th division in baritone and trombone solos.

Marching was held at 6 p. m. Friday at the Hardin-Simmons field. The band played as a whole at 3:30 Friday afternoon in the municipal auditorium. Thirty-five hundred witnessed the marching.

The sight-reading contest was held immediately after the band stopped playing. Ozona had to sight-read one march and an overture. We placed third division in this.

The division I winners are eligible for the national regional contests to be held in Abilene on April 27, 28 and 29. New Mexico, Oklahoma and Texas first divisions will compete.

The rest of the band year will be spent practicing for one more chapel program, one more public concert, and reading through new music. The band will not disband until the rest of the classes are dismissed.

### OH PROFESSOR!

The absent-minded professor called his biology class to order shortly after the lunch hour. "This afternoon we are going to do some laboratory work," he announced. "We shall dissect a frog and study its circulatory system. I have a frog in my pocket here, which we shall use for the purpose."

As he spoke, he reached into his side coat pocket and drew out a small paper sack. Inverting it, he shook its contents out upon the table. Out rolled—not a frog—but a sandwich, in its waxed paper wrapping.

The professor gazed at it silently, in evident perplexity. Presently he scratched his head and muttered, "That's strange—very strange—I distinctly remember eating my lunch."

Drake and Lemmons

Shorty, I don't know who is the worst—you or J. K. Who ever is not the worst one is running a close second.

Bettie Lou, did your date go to sleep on the night of a date? If so, consult Jean Drake for advice on waking him up.

Tommy, why is it that you never remain at the dances longer than you do? Do you have to "hurry home" and "get some shut-eye"?

Ora Louise was lacking one friend at the dance. If this one should have been present, Cox would have had a "full house."

Mary Bess, on her second date in the same night, finally made it to the dance.

Bettie Lou must have been learning something about Texas University Sunday night. I don't know what else she could have been doing.

Joe W., instead of taking bending exercises after the dance (an old custom with Joe), went out for cross-country running. What was the reason, Joe?

Billie Gene was taking time about over the weekend. Nice way to handle your affairs, Bill.

Joe W., Bobby and Jim were out looking for some kind of mischievous trick to pull Sunday night. When these three are together, people had better watch out.

Tincy, why were you so happy Tuesday evening? Helen, you seemed to be happy, too.

Joe W., I want to congratulate you for being so lively after Monday night. It was swell while it lasted, though, wasn't it?

We are going to have to get Bess a front seat, or some will get the wrong idea.

Joe, I wonder why you liked to have so many conversations during dress rehearsals?

Phillip, who was your drag Tuesday night? You might ask J. K. what a drag means.

I wonder how many seniors passed the test Tuesday morning? Crystelle, you forgot to tell us why you went to Abilene. Now Crystelle, that's not what you told me?

Could any of you people that stayed on the 11th floor in Abilene tell me who the guy in the uniform was? Roy, help us out a bit.

Pat, how many times did you go up the stairs? Byron, how many girls passed by in the hall when you were locked out of your room?

Naomi, what did the little note say that you received Friday night?

### WORDS OF WISDOM

The best things are hard to come by.—Proverb.

Many words which are now in disuse will revive, and those which are now vogue will fall into disuse, if custom so wills, in whose power are decision and the law and the rules of speech.—Horace, De Arte Poetica.

A tame tongue is a rare bird.—Proverb.

As it is the mark of great minds to say many things in a few words, so it is that of little minds, to use many words to say nothing.—La Rochefoucauld.

He who can explain himself may command what he wants. He who cannot is left to the poverty of individual resource; for men do what we desire only when persuaded.—George Henry Palmer.

Nothing is rarer than the use of a word in its exact meaning.—Whipple.

Every word we use comes to us colored from all its adventure in history.—G. K. Chesterton.

Mark Twain said once, when asked for advice—"Always do right. This will gratify some people and astonish the rest."

### STUDENTS TYPING PERFECT TEST RECEIVING MILKSHAKE

Miss Mildred North, the typing teacher, promised a milkshake to the students who could type a fifteen minute test perfectly. So far, she has paid off a few of her promised milkshakes. Elton Smith has typed three fifteen-minute tests with no errors. Mary Alyce Smith typed a perfect test paper this week. Billie Jean Linticum also made a perfect test. We find that Miss North really means what she says, because she has paid off. Joe B. Chapman types a perfect test, too.

The winners of the Crockett county meet for typing were Billie Jo West, first; Tommy Kirby, second and Oleta Casbeer, third.

### Wall Area Is Increased By Recessed Unit

Much additional wall space for arrangement of furniture can be obtained by recessing radiators into the wall, and it is usually advisable to do this when the warm weather starts and the heat can be turned off.

The radiator need not be placed under a window, as tables, low desks, or chairs may be placed in front of radiator grilles without interfering with the heating of the room.

### Screen Doors Necessity In Warm Weather

Screen doors may not qualify as objects of beauty in the home, but with the approach of warm weather they become a necessity, and, if wisely chosen, they need not mar the home's outward appearance.

The front door screen can be specifically designed to blend with the doorway and be constructed of aluminum, copper bronze, or other metals. When good materials are used doors should not sag, warp, rust or become discolored. With proper off-season treatment they should last for a number of years.

### Modern Blinds Valued Device In Decoration

A new factor in interior decoration has been provided by recent models of venetian blinds which feature wide slats and give the effect of widening narrow windows and doors.

The new type blinds give broad horizontal lines to the window and are especially valuable in achieving the modern wide-window treatment. Slats in the new blinds are about three inches wide, and this difference is reflected in the wider bands of light reflected. Obtainable in all sizes, the blinds are made in many colors of tapes, cords, and slats.

The New Jersey lake country is the setting for this attractive two-story brick-and-frame dwelling. Containing no startling architectural innovations, the home is nevertheless unique in that it presents an attractive and pleasing appearance at a modest figure. Arrangement of the rooms is a lesson in practicality, with the living room, dining room, and kitchen on the first floor, while the second floor is given over entirely to the three bedrooms and one bath. ### New Life Is Given Homes By Painting

Spring is the season for painting, and few modernization projects achieve so great an effect as a complete interior and exterior paint job.

Dingy woodwork and paneling detract from the beauty of a room, regardless of how well decorated it may be. A thorough repainting will work wonders with the appearance of the interior and do much to set off attractive furniture, rugs, and drapes.

Besides giving the outside walls a strong coat of protection, paint imparts an effect of "newness" to the house.

Nance, minister of that church, recently resigned, however, and Rev. Slater has consented to deliver the address. The baccalaureate service will be in the high school auditorium.

### Woman's Club—

(Continued from Page One)

ers are available here and the club is urging all residents to arrange for regular hauling of trash in order that premises be kept clean at all times. The club calls attention to the practice of some persons in dumping trash in draws and along the highways. This practice is strongly condemned by the civic committee, which seeks the aid of all residents in stopping such practice.

All owners of vacant lots are urged to make a thorough clean-up of such premises during the next week and to keep such areas clean through the summer months. Tall weed growth on vacant lots in the city present a fire hazard during the late summer months besides being unsightly, it was pointed out.

Another suggestion for beautification of the city is made by the club's committee, that of planting shrubs and vines to cover unsightly places about the premises. Preservation of wild flowers in open spaces in the city and nearby areas, placing of trash and garbage containers where they will not be visible from the street, and donation of unwanted shrubs, flowers, vines or other plants to persons who will use them are among other suggestions for improving the general appearance of Ozona.

"We have the biggest little town in the world," declares Mrs. Peters, speaking for her committee. "Let's make it the cleanest little town in the world." Associated with Mrs. Peters in directing the clean-up campaign as members of the civic committee are Mrs. Joe Pierce and Mrs. Hillery Phillips. Other special workers will be named by Miss Elizabeth Fussell, president of the club, to assist the committee in the clean-up campaign.

### Plans Speech Arts Class Here In Fall

Mrs. R. J. Adams, who has had extensive training in speech arts and dramatics, plans to open a studio for child training in speech arts and dramatics with the opening of schools next fall, she announced this week, and is now engaged in contacting parents with a view to lining up a class for opening on time.

Mrs. Adams received her training under Mrs. Flo Hutcherson, head of the speech department at Weatherford Junior college, and while a student there was a part of the cast that won first place in the state one-act play contest. She also taught private work in Crosby county three years. She is a former student of Texas Tech. She has recently done extensive review work under Mrs. Gladys de Silva Bates and Mrs. Carl G. Edwards of San Angelo.

Mr. and Mrs. Phil Hynes of Corpus Christi were here last week for a visit with Mr. and Mrs. C. W. Taliaferro. Mrs. Hynes is Mrs. Taliaferro's sister.
