CORRAL TALK

By Joe Cowan
Ozona Agricultural Agent

Only a short time from now (ox warbles) will start appearing in the backs of cattle. Following a good control program owners will find it pays big dividends in the future. Experiments show that grubs in the milk production of dairy cows will be saved in milk in a short time. Experiments show that beef cattle an animal having 15 percent more feed to fatten an animal free from

million animals are slaughtered for beef in Texas each year. It shows that 42 percent of this or, 860,000 animals are raised at the stockyards as grub-infested. In these grubby animals the cuts of leather from the carcasses are destroyed and an average pound of meat must be removed from the carcass and condensed.

With the loss of 25 percent of an additional 15 percent of feed, the loss of leather 42 percent of animals slaughtered and 40 percent of meat per animal, or 600,000 pounds of meat annually, enough loss in dollars for the livestock producer to think seriously about the control of

How can we control the grub, must know the life history of the insect. The grub is the larvae stage of the heel fly. The heel fly lays its eggs on the side of the animal around the heel. In 48 hours after the egg is laid a minute larva hatches and crawls into the leg at the hair follicle. From here a migration up to the back starts.

This migration of the larvae for 9 months before reaching the back. After getting to the back the animal, the larvae employs hooks on its body and cuts through the hide. The larvae remains at this location, forming a cyst for about 35 days (depending on the weather conditions). After this 35-day stay in the back, the grub falls to the ground and develops into the pupa (cocoon)—then emerges from the ground into an adult heel fly after 30 days in the ground. Larvae of rotenone powders have proven the most effective control measure for this pest.

Equal parts of sulphur and 5 percent Derris powder as a dust very effective and practical for family milk cow or just a few. This dust should be applied to the back and brushed into the hair with a strong, stiff brush. To control and treat a larger herd use 10 pounds wettable sulphur, 10 pounds Derris powder in 100 gallons of water, sprayed under heavy rain to the cow's back.

Day For Road Signs Under New Law, Garrison Says

Col. Homer Garrison, Director Department of Public Safety, the new Texas traffic law, going into effect Sept. 5, will make things rough for those people who are the only ones on the

the person who drives up in the middle of the road, or wanders from one side to the other, will be liable to arrest. So will the person who passes one vehicle when another is coming to meet

driver must stay on the right side of the road when passing, when driving on a one-way thoroughfare, or on the right side of the road is required.

the middle lane of a three-lane highway is to be used only for passing and for making left turns, then only when nobody is using the other direction.

the vehicle may not pass another when they are at, or approaching an intersection or railroad crossing; when approaching a grade, viaduct or tunnel; or when in a designated No Passing zone, marked by a broken stripe or any other means.

Ozona Beats Veribest For League Lead

Locals Win 4-1 Before Capacity Crowd At Colt Stadium

Ozona ascended to the undisputed leadership of the Concho Basin League in second half standing Sunday afternoon when a team, fortified by the return of Shortstop Conley Cox to his position and the addition of Eddy McMillan to the outfield, beat Red Weatherford's Veribest Cultivator Jockeys 4 to 1 before a capacity crowd at the new Colt Stadium in San Angelo.

The win broke a tie for the top positions between the two teams, Veribest dropping to second place standing and Ozona taking the lead with six straight wins and no losses to date. Eola is tied with Veribest for the second place slot, each with five wins and one loss. Eola will be the last team the Ozona club will face in second half play, the game slated in San Angelo on September 28.

The Veribest team took the lead in the fourth stanza when a brace of errors and a lone hit was good for one tally. Lefty Shelton had allowed the Jockeys but one hit to that inning and allowed but six for the entire nine frames, scoring five strike-outs and walking only one batter.

The Ozona crew used the score in the fifth when Vic Montgomery, after two were out, was on when hit by a pitched ball. Montgomery stole second and was over the plate on a ringing single by Sheffield. McMillan flew out to center to end the rally. But the locals went on the offensive again in the sixth when Cox, first up, singled, Stuart coming along next with another single. Buddy Homer, who proved the "find" of the season for the Ozona team, and who not only sparkled at second base on defense but also rapped out a total of three hits for the day, got his second one at this point to score Cox and Montgomery.

Conley Cox, who has been playing big-league style baseball for the Alpine Cowboys at the national baseball tournament in Wichita, Kans., flew to San Angelo from Wichita to play in Sunday's game. And his presence was one of the deciding factors in the ball game. Cox racked up three hits in four trips to the plate, handled eight chances without a bobble and on at least one occasion waltzed back deep into left center to rob a Veribest slugger of a hit.

Ozona fielded what is probably the best performing combination Ozona fans have seen this season, with Lefty Shelton on the mound, Stuart behind the plate, Sheffield on first, Homer on second, Cox at short, Beecher Montgomery at third and Vic Montgomery, Tom Ed Montgomery and Eddy McMillan in the outer gardens.

The locals chalked up a total of eleven hits for the afternoon, three each for Cox and Homer, two each by Stuart and Sheffield, and one for Beecher Montgomery. Only two strikeouts were registered against Ozona batters.

Standing of the clubs in Concho Basin league to date is as follows:

Club	W	L	Pct.
Ozona	6	0	1.000
Veribest	5	1	.833
Eola	5	1	.833
Bronte	3	2	.600
Miles	3	3	.500
Sonora	3	3	.500
Robert Lee	2	3	.400
Ellis Parts	2	3	.400
Maverick	2	4	.333
Lowake	1	2	.250
Dodgers	1	5	.167
Eldorado	0	5	.000

Last Sunday's scores:
Ozona 4; Veribest 1.

Mr. and Mrs. J. M. Baggett attended the Bloys Encampment near Marfa recently.

Carmen Childress, infant daughter of Mr. and Mrs. James Childress, is in a San Angelo hospital under treatment for a recurring fever.

FORMER OZONAN RECEIVES DEGREE AT NTSC

DENTON, Tex. (SPL) — Clementena Parker Hannah of Ozona received her master of science degree in summer commencement exercises at North Texas State College Tuesday night, Aug. 26.

A total of 433 degrees were awarded in the ceremonies by Dr. W. J. McConnell, president of NTSC. Of the total, 305 were bachelor's degrees, and 128, an all-time high, were master's degrees. The largest previous number of master's degrees conferred at one time was 126 in 1941, according to Dr. Jack Johnson, dean of the NTSC Graduate School. This summer's degree list exceeds the 271 count for last summer by 162.

Byrd-Frost Well On Tippet Rates 538 Bbls. Daily

Devonian Strike Third Crockett Pool Opener In Month

Credited with being the first Devonian lime strike in Crockett County, and the third pool opener in the county within a month, D. Harold Byrd and Jack Frost of Dallas and Gulf Oil Corp. No. 1 J. B. Mayberry, J. Homer Tippet flowed 89.79 barrels of 39.8 gravity oil in four hours as the well opened.

Production, at the rate of 538.20 barrels daily, was on a five-hour drillstem test from 6,309-99 feet, with gas-oil ratio 1,601-1. Drilling had reached 6,455 feet in time, said to be the Montoya, upper Ordovician, and is scheduled to continue to the Ellenburger.

The well is in the panhandle of northwestern Crockett County, 660 feet from the northeast and southeast lines of section 39-31-H&TC. It is 1 7-8 miles northeast of the Pecos river, 5 5-8 miles southwest of the Crockett shallow field, six miles northwest of the Yates field in Pecos County and 11 miles southeast of McCamey.

On the drillstem test from 6,309-99 feet, through a 5-8-inch bottom-hole choke, air blew the first four minutes, gas came to the surface in 43 minutes oil-cut mud in 55 minutes and clean oil in 60 minutes. Production to storage was 16.56 barrels of oil the first hour, 2,484 barrels the second hour, 23.46 barrels the third hour and 24.84 barrels the fourth hour. There was no water. Recovery when all the drillpipe was broken down was 1,836 feet of clean oil.

No. 1 Mayberry-Tippet was credited with entering the Devonian at 6,293 feet, 4,033 feet below sea level. It first indicated production in showing an estimated five to 10 million cubic feet of gas daily and recovering 200 feet of oil and 100 feet of gas-cut drilling mud on a 30-minute drillstem test from 6,295-6,345 feet on Aug. 11. The well deepened to 6,376 feet, drillstem tested with a packer set at 6,293 feet and unloaded oil for 45 minutes at the rate of 25 barrels hourly. Final recovery was 300 feet of heavily oil-cut mud.

Byrd and Frost secured from Shell two 80-acre tracts for the drilling of the wildcat: The northeast 80 acres of the northeast 320 acres of section 39-31-H&TC and the southwest 80 acres of the northeast 240 acres of section 41-31-H&TC. Gulf took a half interest in the test and in the two 80s, which are separated by section 40. Shell retained the lease on all section 39 except the northeast 80 acres. Gulf holds the northeast half and Standard of Texas the southwest half of section 40. Stanolind has the lease on section 38, adjoining section 39 on the west.

J. Homer Tippet of San Angelo owns land immediately north of the well, scrap file 4, consisting of 199 acres. B. C. Mann of San Angelo and John M. Hills of Midland hold leases and approximately 700 acres, in the area, tracts nearest the discovery being one of 50 acres, another of 100 acres out of the Wooley estate to the north.

Mr. and Mrs. Arthur Phillips, Corinne and Diane, are in Dallas this week. Brock Jones is under treatment in a San Angelo hospital.

Schools Open Monday Morning; Staff Complete

Opening Exercises at 9 Monday Morning; Faculty Meet Sat.

With faculty complete and buildings in readiness, Ozona schools are scheduled to open for the 1947-48 term next Monday morning, Supt. C. S. Denham announced this week.

Opening exercises will begin at 9 o'clock Monday morning, with Supt. Denham presiding. Routine announcements, introduction of teachers and brief opening program will occupy the opening exercises, with student registration and assignments to follow. Students will be dismissed by mid-morning with first classes called for Tuesday morning.

A faculty meeting has been called for 9 o'clock Saturday morning, Mr. Denham said, for the purpose of discussing the coming year's program and assigning teachers to their respective duties.

The faculty for the local system this year was announced by Mr. Denham as follows:

Latin-American School: Miss Catherine Chapman, Mrs. Nell Smith, Mrs. Lowell Littleton, Miss Ruth Barbee, Miss Helen Mayes, Mrs. T. J. Bailey, Mrs. Janie Hull, Miss Dora D. Mitchell, Mrs. Thad Tabb, Mrs. G. L. Worthington and John Plunkett, principal.

Elementary school: B. H. Gibson, principal, Mrs. Green Mankin, kindergarten; Miss Janice Coorrel, first grade; Miss Mable Brookshire, second grade; Mrs. D. A. Parker, third grade; Miss Jacqueline Theis, public school music; Oran Weeks, social studies and Miss Mary Pearl McWilliams, language arts.

In the High School, L. B. T. Sikes will be principal and will teach science and mathematics; Mrs. Ed Hallmark, commercial; Miss Frances Willms, home economics; Miss Mildred North, history and English; Miss Marie Gistad, English; Wayne Matthews, manual training; G. A. Rhoads, band and D. A. Parker, assistant coach and mathematics. Mrs. W. H. Chandler, will serve as secretary to the superintendent.

School board members who will supervise operation of the schools include Max Schneemann, president, Ray Piner, secretary, Bill Bissett, Ashby McMullan, C. O. Walker, Charles Coates, and Chas. E. Davidson, Jr.

Crockett Favors Regan, Approves Bldg. Amendment

Very Light Vote Is Cast In Special Election Sat.

Crockett county voters took little interest in the special election last Saturday in which the nineteen counties composing the 16th Texas congressional district elected a congressman and the issue of the college building amendment was decided on a state-wide basis.

Only 62 votes were cast in the election in this county. Voters, however, favored a winner in the congressional election, Casting 35 votes for Ken Regan of Midland, whose election to the office vacated by R. E. Thomason, has been conceded by Woodrow Wilson Bean of El Paso, his nearest opponent in the 7-man race.

Ord Gray of El Paso received 10 votes in this county, Bean 9, Judge Gilbert and Pat Hargrove 2 each and Fail and Metcalf none. The college building amendment which at last reports was carried by a narrow margin over the state, was favored in this county by a vote of 35 to 24.

Mr. and Mrs. Arthur Phillips, Corinne and Diane, are in Dallas this week.

Ozona Plays Colts In First Game Under Lights In Stadium

Ozona's baseball team, leading the Concho Basin League, has been invited—and has accepted the invitation—to play the San Angelo Colts, C. West's semi-pro team, in the inaugural game under the newly installed lights at the new Colt Stadium in San Angelo.

The invitation, extended Tuesday of this week, was originally for next Monday night, but Mr. West called Ozona baseball managers later to call a postponement due to difficulties encountered in the present work of installing the lighting system.

To this morning no definite date for the night game opener had been set but Mr. West indicated that probably all would be in readiness by mid-week. The game hour probably will be set at 8 o'clock, it was understood here.

Humble Spots Third Outpost In Childress Pool

Location Half Mile W. Of Discovery; Drill 2 1/4 Miles South

Humble Oil & Refining Co. filed application Tuesday for a permit to drill the third outpost to its opener of the Childress Ellenburger field in northeastern Crockett County.

Humble's latest operation in the Childress field, the second staked in two days, will be No. 2 Mrs. Grady Mitcham of San Angelo, 660 from the north, 1,980 feet from the west line of section 12, block AB, D&SE survey, Jay Montague original grantee. It will be 2,644.2 feet west and 150 feet north of No. 1 Mitcham, the discovery, which was finalized Aug. 16 with a natural daily flowing potential of 487.6 barrels of 41 gravity, pipeline oil through casing perforations at 8,092-8,105 and at 8,112-22 feet.

Drilling with rotary is due to start at once, projected to 8,500 feet unless oil, gas or water are encountered in the Ellenburger shallower. Elevation is 2,490 feet.

Humble Monday spotted No. 1 Ples L. Childress estate, slated Ellenburger test, C SW NE 5-CD-D&SE, 2 1/2 miles south and 3-4 mile east of No. 1 Mitcham. Humble No. 1 Ethel Childress Smith estate, diagonal northeast offset to No. 1 Mitcham, in the C SW SW 1-BS&F (G. B. Crouch), was running 10 3-4-inch casing before drilling ahead at 595 feet in shale.

John I. Moore No. 1-E A. C. Hoover, proposed 7,000-foot wildcat in western Crockett County, had reached 5,560 feet in hard lime. Corrected location is 2,023 from the south, 669 feet from the west line of section 1-GG-HE&WT. It is 40 feet north of the original location and is the site of George Atkins' No. 1 Hoover, with elevation 2,360 feet, which was drilled in 1943 to 1,972 feet and was abandoned.

Moore cleaned out the old hole, deepened it to 2,264 feet, cemented 8 5-8 inch casing there and drilled ahead. The wildcat is 2 1/2 miles southeast of Cities Service Plymouth and Humble's No. 1-B J. W. Owens, the Clara Couch Wolfcamp discovery, and 1 1/2 miles northeast of the nearest production in the Clara Couch shallow field.

John I. Moore No. 1-D A. C. Hoover, scheduled 8,000-foot wildcat in the Shannon field, C NE NE 17-1-GC&SF, was drilling at 5,956 feet in lime.

Honolulu Oil Corp. and Signal Oil Co. filed application for a permit to plug and abandon, dry, their No. 1 J. W. Henderson, a wildcat, at 1,070 feet. The project is 1,500-foot, cable tool operation 18 miles southwest of Ozona, logged sulphur water at 730-55 feet, a rainbow showing of oil at 780-82 feet, 1,400 feet of sulphur water at 988-95 and a gradual increase in water to 850 feet at 995 to 1,070. Location was 330 feet out of the northeast corner of section 8-M-

Saturday Night Deadline For Paving Sign-Up

No Street Can Be Surfaced If Not Signed Up This Week

Whether or not Ozona launches its projected street paving program will depend on action in the next two days to complete the sign-up of property owners along unpaved streets to qualify these streets for inclusion in the present program.

September 1 was set as the deadline for completion of the sign-up drive and County Judge Houston Smith this week reiterated the stand of the county commissioners court that no block or street which has not been signed up and reported by that date will be included in the engineering survey and subsequent paving program.

Tom C. Harris, general chairman of the drive, announced this week that preliminary reports from street captains indicated that there will be a number of streets ready for inclusion in the paving program. However, Mr. Harris urged all street captains to contact him Friday or Saturday of this week and to turn in final reports not later than Saturday afternoon. Street captains who have not yet seen all property owners along their streets are urged to make special effort at once to contact all prospects so that all may have an opportunity to express their wishes on the paving plan.

The county will do the base work on the paving, property owners paying only for the surfacing and curb and gutters, estimated at \$1.85 per front foot for a 36-foot street. The county, however, can not assume any obligation for the property owner's part, Judge Smith pointed out, and contracts can be let only on those streets where property owners have signed up the agreement blanks and have placed the money in escrow for their part of the footage.

Engineer Julian Montgomery of Austin is expected to arrive late this week or early next to begin the survey of all streets included in the program, Judge Smith announced. This survey can be made only on those streets which have been signed up for inclusion and unless street captains turn in their reports before the deadline, their streets may be left out of the plan. Thus, Judge Smith and Mr. Harris both issued urgent pleas to street captains to complete their canvasses and to report promptly and property owners who desire that their streets be paved are urged to check up on developments and aid their street captains if the canvass has not been completed.

Football Squad Set For Opening Practice Sept. 1

Season Opener Against Bronte Here On September 19

Ringling of the school gong Monday morning, September 1, will be the signal for opening of the football season in Ozona and Monday afternoon Coaches L. B. T. Sikes and D. A. Parker will call squad men of the 1947 Ozona Lions to the practice field for the first work-out of the new season.

And a colorful season it promises to be, with the Lions "macked out" in new uniforms, with a band and Pep Squad also in new uniform. The Lions will be defending champions in District 7B and a squad of 13 letter men, 19 reserves and four freshmen prospects will constitute the "war party" to be sent on the field to defend.

Returning lettermen include Lee Armentrout, Bob Bissett, Don Cooke, Jack Coates, Charles Harrison, Don Hoover, Lin Hicks, Bernard Lemmons, Chris Perner, Sam (Continued On Last Page)

Dancing Teacher Plans To Open Classes In Ozona

Mrs. Wilma Bingham of San Angelo, who conducts a school of dance in San Angelo, plans to spend one day a week in Ozona during the school term if there are enough pupils interested to warrant the venture.

Mrs. Bingham has notified Supt. C. S. Denham of the Ozona schools that she will be here for the opening exercises of the schools Monday morning and at that time will contact interested parents and pupils and investigate the possibilities of securing a studio here.

Mr. and Mrs. E. B. Baggett, Jr., have moved into their home which they recently purchased from Mike Friend, after having the interior refinished.

Mr. and Mrs. Boyd Clayton and wife returned Tuesday from a vacation trip to Colorado.

STACKS OF MONEY—ALL BAD . . . Deputy United States Marshal Doris Brown embraces the mountain of bogus \$10 bills found on highway south of St. George, Utah, and brought to Los Angeles by secret service agents. The pile of counterfeit bills was estimated to represent about \$150,000 at face value.

Miss Schwalbe Is Honored At Parties

A gift tea honoring Miss Patsy Schwalbe, who became the bride of Will Milton Colquitt in a ceremony in San Angelo Tuesday morning, was given Friday afternoon in the home of Mrs. J. M. Baggett with Mrs. N. E. Smith, Mrs. Elton Smith, Mrs. Will Baggett and Mrs. John Bailey assisting Mrs. Baggett as hostesses.

In the receiving line were Mrs. J. M. Baggett, the honoree, her mother, Mrs. E. C. Alford, her grandmother, Mrs. Harry Friend, her sister, Mrs. Ruben Whitehead, and Mrs. Lee Wilson, mother of the groom.

Others in the house party were Ann West, Corinne Phillips, Dale Clendenen, Benny Gail Phillips and Betty Jane Schwalbe. Mrs. Bill Friend was in the gift room. About a hundred guests called during the tea hours.

Friday the bride was honored at a luncheon give by Corinne Phillips, Ann West, Benny Gail Phillips and Dale Clendenen.

A coke party and kitchen shower was given Wednesday, hostesses being Sag Owens, Mrs. Phillip Schneemann, Mrs. Kelly Amthor and Mrs. Vic Montgomery.

Mr. and Mrs. L. B. Cox, Jr., are in Dallas where they are visiting their daughter, Mrs. Ed Reynolds, Jr., and family.

Miss Ann West is in Ballinger this week to ride in the horse show at the Ballinger rodeo. She is riding a horse belonging to Bill Hall of Ballinger.

\$50,000 spent between 1920 and 1932 on soybean research has since resulted in a total crop value of several billion dollars.

Miss Patsy Schwalbe Will M. Colquitt Are Wed In San Angelo

Miss Patsy Schwalbe, daughter of Mrs. E. C. Alford of Ozona and Sid Schwalbe of Big Lake, became the bride of Will Milton Colquitt, son of Mrs. Lee Wilson of Ozona in a double ring ceremony performed at 8 o'clock Tuesday morning in the San Angelo Church of Christ, the Rev. J. E. L. Harrison, pastor of the Ozona Church of Christ, performing the ceremony.

The bride wore a dark brown faille suit, with brown and gold accessories. Her bouquet was of talisman roses.

Mrs. Roy Coates of Ozona was bridesmaid and wore a navy blue crepe dress with white accessories. Roy Coates served as best man.

The church was decorated with baskets of yellow gladioli placed on each side of the altar.

Mr. and Mrs. Lee Wilson entertained the wedding party and families with a wedding breakfast in the English room at the Cactus hotel. The table was decorated with yellow gladioli and fern. The wedding ring cake was centered with yellow rose buds.

The couple left on a wedding trip to South Texas after which they will be at home in Ozona.

The bride is a 1947 graduate of Ozona High School and attended Branley Draughon Business College in Fort Worth. She is secretary to County Judge Houston Smith in which position she will continue.

Mr. Colquitt is a partner in the Wilson Motor Co. here. He served three years in the Army, two years in overseas duty in England and France, with the rank of

sergeant. Attending the wedding were the bride's grandmother, Mrs. E. C. Alford, her mother, Mrs. Harry Friend and Miss Betty Schwalbe, sisters of the bride. Mr. and Mrs. Bill Friend, daughter, Nancy of Ozona, Mrs. Roy Coates of Ozona, Mrs. W. Beeman of San Angelo, Mrs. Mrs. J. K. Colquitt of Ozona and Red Wright of San Angelo.

Ozona Music Club To Open Year's Programs October 3

The Ozona Music Club will open for the opening program of the year on Thursday, October 3, at 8 o'clock.

The scheduled opening meeting of September 4 has been postponed and will be supplanted by an evening program to be arranged sometime during the year, it was announced.

The executive board of the club will meet on Thursday, September 4, at 3:30 o'clock in the home of Mrs. Alice Baker. All members of the board are urged to be present.

SON TO HARPS
Sheriff and Mrs. Bruce are the parents of a son born Tuesday afternoon. Sheriff Bruce had picked out a pretty name for a pretty girl and now needs to relocate the claim.

Bill Hasnah will leave Saturday for Abilene where he will receive Abilene Christian College and participate in early football practice.

a fireplace with a log fire, provided the fireplace is also equipped with gas.

Guess you noticed where Fred Allen, Red Skelton and Bob Hope were faded off the air when they said something that a network vice president didn't like. Well, I'm on the air—in fact, have two programs a week, the newest one being at 12:15 noon each Tuesday over KFJZ, Fort Worth. I wish some vice president would fade me off the air; I need the publicity. Fred, Red and Bob don't.

I noticed a sign the other day, "Dirt for sale." I suppose it is "dirt cheap." Or has inflation raised the price there, too?

TEXAS BUSINESS FAILURES

AUSTIN, TEXAS — The University of Texas Bureau of Business Research reported 4 business failures in Texas during July compared to 4 in June and 2 in July last year.

These four failures bring the 1947 total, January through July, up to 24 compared to only 3 for the same period last year.

The average liability per failure was \$98,000 in July compared to \$67,000 in June and \$17,000 in May, indicating that the size of businesses undergoing failures is larger each month.

**Life After Forty
More Complicated.
Health Problem-Cox**

AUSTIN, — From a health standpoint, life after forty generally begins to be more complicated for the average individual, than it was in his earlier years. According to Dr. Geo. W. Cox, State Health Officer, the principal foes confronting people in middle life are heart disease, cancer, kidney disease, high blood pressure,

hardening of the arteries, apoplexy, diabetes, and arthritis.

Middle aged people of today are healthier than were those of preceding generations, and the present generation, when they reach middle age, should enjoy even better health than their parents of today.

"Medical care in middle life has two important phases," Dr. Cox asserts "The first is going to the doctor at regular intervals for a complete checkup, whether or not there have been symptoms that suggest the need for medical attention. The second is prompt attention to any illness, since this may mean the difference between complete recovery and prolonged invalidism. It is difficult to say

which of these phases is the more important."

It has been found that men and women who faithfully pursue the habit of regular health examinations and who follow their physician's advice arising from them, tend to live longer, more satisfactorily, and freer from disease than those who simply take a chance and go to the doctor only when pain or disability forces them to give up their normal activities.

It is also a fact according to the

State Health Officer, that many diseases of middle age respond to treatment in early stages whereas if neglected until later, they often cause chronic invalidism or even death.

"A good manager figures all the angles in his business dealings. Your ranch or home loan, placed with Mitchell Mortgage Company, 612 Brady Building, San Antonio, Texas, will yield a dividend that might surprise you." 21-tfc

**WHY long distance
lines are so busy**

Long distance telephones are carrying a heavier traffic load today than even in wartime. Business men in search of merchandise, manufacturers and builders in need of equipment, naturally use the telephone as the quickest way to reach suppliers. Our long distance lines are still overloaded, so telephone "traffic jams" occur. If you have a few minutes' wait when calling long distance, please be patient. Today, as always, telephones carry a lot of important business.

WEEKLY SWING OF SOUTHWEST FARM MARKETS

(USDA) — Lower prices for cotton and some livestock and vegetables marred otherwise steady to strong prices for southwest farm products last week, according to the Production and Marketing Administration, U. S. Department of Agriculture.

Most grains advanced steadily last week, influenced by continued dry weather in much of the corn belt, and by anticipated large export requirements of wheat. No. 1 hard ordinary wheat reached \$2.50 per bushel Friday at Fort Worth and Galveston and white corn rose to \$3.05 to \$3.09. No. 2 milo sold at \$3.42 to \$3.47 per 100 pounds. Oats gained some, but yellow corn and barley changed little.

In irregular feed markets, cottonseed meal sold \$5 to \$8 higher while bran and shorts lost \$3 to \$5. Alfalfa and Johnson grass hays rose to higher levels in the southwest. Showers slowed South Texas peanut harvest, but other areas need rain. Mohair contracting got under way, but wool buying awaited Australian fall auctions.

Most cattle classes sold strong to higher last week, but grass steers and yearlings lost 50 cents to a dollar at some places, and beef cows weakened at Fort Worth and Houston. Good beef cows brought \$13 to \$15.50 at Houston and San Antonio, \$15.50 to \$17 at Fort Worth and Wichita, and up to \$19 at Oklahoma City and Denver.

Sheep markets remained largely about steady to a little stronger but spring lambs dropped 50 cents at Wichita and \$1.00 or more at Denver. Medium to good spring lambs brought \$18 to \$20.50 at San Antonio, \$19 to \$22 at Fort Worth, \$18 to \$21.50 at Oklahoma City, \$21 to \$22.50 at Wichita, and \$23 at Denver.

New GMC Pick-Up On Display Here At Taliaferro Garage

Models of the new light and medium duty line, recently announced by GMC Truck & Coach Division of General Motors, are now on display at Taliaferro Garage according to C. W. Taliaferro local GMC dealer.

Featuring radical appearance changes and revolutionary cab construction, the new models are characterized as being "better looking, better riding, better built" and incorporate many improvements developed from GMC's experience in producing nearly 600,000 military vehicles.

Radiator grilles, hood, fenders and cabs of the trucks which make up the light and medium duty classification have been entirely redesigned both from the standpoint of good looks and added stamina, strength and safety. Grilles are exceptionally sturdy and massive, with heavy vertical bars welded to an encircling bar, top and sides, of heavy bumper stock which projects forward to protect both the grille cross bars and the front fenders. In addition, the whole grille assembly is rigidly mounted to the frame instead of to the sheet metal.

Fenders are wider and heavier, with more clearance, and the headlamps and parking lamps are mounted in them. The hood, of the alligator type, is sleekly streamlined and blends with the grille and fenders to provide a front-end design that is at once rugged and sturdy and highly attractive in appearance.

Even more significant are the changes that have been made in

the cabs provided for these new GMC models. Now all-steel, with no wood used anywhere in their construction, they are longer and wider and mounted in 3-point suspension with rubber stabilizers to cushion against road shocks or chassis movement.

Beyond the underlying improvements of all-steel construction and 3-point suspension mentioned above, all of the three cab designs offer many other new comfort, safety and convenience features. In over-all dimension, they are longer and wider than prewar, providing increased leg room together with seating width sufficient to comfortably accommodate driver and two passengers.

The seat has also been wholly redesigned. It is now mounted on a sturdy tubular frame which is adjustable forward and back over a travel of three and three-eighths inches. Seat cushions have 73 coil springs in contrast to the prewar 40 and each is individually wrapped, assuring a uniform seating surface of exceptional comfort and long life qualities.

In powerplants, the new light and medium duty lines offer three GMC-built engines of valve-in-head

design with 228, 248 and 270 cubic inch displacements. In addition to such long-outstanding GMC features as Turbo-Top-pistons, full pressure lubrication and completely cooled cylinder barrels, the new engines have Tocco-hardened crankshafts, Moraine bearings, positive crankcase ventilation, two-piece exhaust valves and deep sump oil pans.

Cottonseed Products Increase In June

AUSTIN, TEXAS — Cottonseed production jumped from 6,377 tons in June to 22,465 tons in July to more than triple production during the month, the Bureau of the Census reported to The University of Texas Bureau of Business Research.

July's heavy gain carried the Bureau's index of cottonseed crushings 37 per cent above prewar levels and 50 per cent above

July 1946 production. The significant advance is more than a seasonal one, as evidenced by the fact that July 1946 production was only half of the prewar (1935-39) figure.

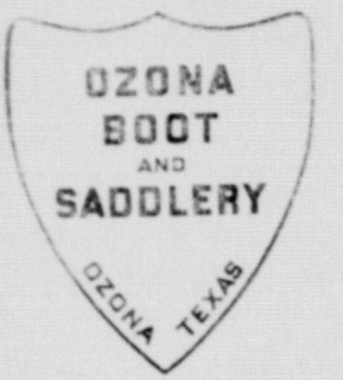

Receipts at Texas mills multiplied many times during the month to reach a staggering 59,370 ton total for July.

15,000 Children To Attend Overseas Service Schools

WASHINGTON D. C. — Approximately 15,000 dependents of school age will attend Army sponsored "Overseas Dependents Schools" in occupied areas during the next school term, the War Department has announced. These schools are operated on a basis

to meet requirements of the highest standards. The highest academic curriculum includes English, Science, Mathematics, Subjects and Languages. Schools are financed by tuition charges levied on service personnel benefiting the schooling. Army wives, War Department dependents, are hired by contract in the States, and some local States aid the language course, which prides the faculties in teaching. Americans today eat the same amount of fat and grain products and produce fruits, vegetables and dairy products.

WANTED: USED TIRES
The last 1000 miles are the danger miles
... don't drive past the danger point

B. F. Goodrich Silvertowns that outwear prewar tires ... now at less than prewar prices!

FORAER PRICE \$16.10 PLUS TAX
Now \$14.40
6.00-16 PLUS TAX
LESS A BIG ALLOWANCE FOR THE OLD TIRE OFF YOUR CAR

We have a big market for sound used tires. On your car, it is impossible to detect the exact condition of a tire. But we have the experience and equipment to examine them thoroughly, to detect flaws and to select casings suitable for repairing, recapping or reconditioning. This knowledge is extra money in your pocket, because we can give you a bigger allowance if your tires can be made safe for further use.

And this allowance comes off the already lower-than-prewar price of most popular-sized B. F. Goodrich Silvertowns that outwear prewar tires. This new tire has a wider tread that runs flush-to-the-road, gives greater road contact, firmer footing, more even wear, more road grip. Finer, sturdier cords and more of them give the tire greater strength and suppleness to resist the road pounding of high speeds.

So don't be satisfied with less than the best when the tire that outwears prewar tires costs so little.

\$1.50 DOWN \$1.25 A WEEK
PUTS A NEW 6.00-16 B. F. GOODRICH SILVERTOWN ON YOUR CAR

**Betty Cooke
Wed At Gift Tea**

Miss Betty Cooke was the guest of honor at a gift tea given at the Baptist Church Saturday afternoon. Mrs. Elton Smith was the hostess. The afternoon was spent in honoring Miss Cooke, daughter of Mr. and Mrs. J. H. Cooke, who will become Mrs. Garland Allen in a few days. The tea was given at the Baptist Church Saturday afternoon at 10 o'clock.

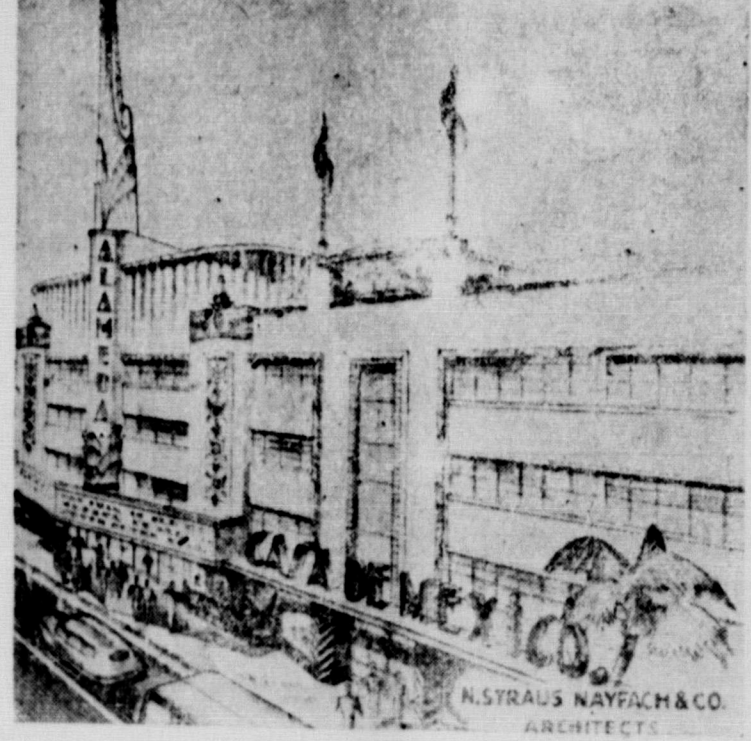

Mrs. Smith as hostess had Mrs. H. W. Maris, Mrs. J. H. Cooke, Miss Merle Senne, Miss Rosalie Friend, Miss Betty Jane Schwalbe, Miss Jo Thompson and Miss Louise Goodson. About 25 guests called during the afternoon. The guests were Mrs. J. H. Cooke, her mother, Mrs. Cooke, Miss Patsy Cooke

her sister, and Mrs. Bertha Allen of Lubbock, mother of the groom-to-be.

Mrs. Maris and Mrs. Williams were in the gift room and Betty Jane Schwalbe was at the guest book. Assisting in serving were Misses Rosalie Friend, Merle Senne, Louise Wood, Betty Jo Thompson and Eda Louise Goodson.

Dr. and Mrs. H. B. Tandy and Mrs. Mills returned Tuesday night from a vacation trip which took them through New Mexico, Colorado, Wyoming and into South Dakota and Iowa. They returned through Denton where they picked up their son, Bland, a student at North Texas State, who has been attending summer school, and who plans to return next month to enroll for the long term.

Texas' New International Building

San Antonio's Casa de Mexico International Building, first structure in the nation built specifically to house firms doing business with Latin American countries, now is in final stages of completion. Consul General of Mexico was the first tenant.

**Miss Louise Bean
Becomes Bride Of
Carl L. Appel**

The First Baptist Church in San Angelo was the scene for the wedding of Miss Vada Louise Bean, daughter of Mr. and Mrs. George J. Bean and Carl L. Appel, son of the Rev. and Mrs. C. L. Appel, of Brenham.

The wedding took place at 5 o'clock Saturday afternoon and a prelude of nuptial music was rendered by Mrs. A. W. McMillan, organist and Dallas Goss, soloist. Mrs. McMillan played "Serenade" by Schubert, "At Dawning," "L'Argo," and "Sweet Mystery of Life." She accompanied Mr. Goss who sang, "I Love Thee," and "O Promise Me." The organist also played the traditional wedding marches.

Given in marriage by her father the bride wore a wedding gown of white brocade satin fashioned with sweetheart neckline, full puffs at the shoulder and long pointed sleeves. The full skirt was gathered onto scallops of the bodice and extended into a long graceful train. Her headdress was a flat band of cross network pearls caught to a chapel length veil of illusion. For something old, she wore a granite ring belonging to her mother, and for something borrowed, a strand of pearls belonging to her sister, Doris. She carried a bouquet of orchids, gladioli and stephanotis.

Miss Doris Bean attended her sister as maid of honor and Mrs. Boyd B. Baker of Ozona, also a sister of the bride, was matron of honor. Bridesmaids were Misses Sue Stamper of Houston, Mary Beth Sanders of Houston, and Jean Lumbley of Lake Charles, La., and Mrs. John P. Sutherland of

Lawton, Okla. They all wore identical dresses of aqua chiffon taffeta fashioned with off-the-shoulder neckline, fitted bodice and full skirt with bustle back. Their headdresses were of braid and net and shoulder length veils of matching color. The attendants carried semicolonial bouquets of white gladioli designed with aqua net and satin ribbon.

Vernon Appel of St. Louis, Mo., attended his brother as best man and groomsmen were Frank Lucas of Houston, and Ralph Simon of Waco. Ushers were Joe Bean, brother of the bride, Joe Reynolds of Austin, Olen R. Shackelford of Dalton, Ga., Bill Klein of Dallas and Boyd Baker of Ozona.

Following the ceremony a reception was held at the Bean home 218 Hobbs St. The dining table was centered with a four-tiered all-white wedding cake encircled with white rosebuds and gladioli. Miss Betty Bean presided at the guest book.

Others in the house party were Mrs. Floyd Henderson of Ozona, Mrs. Jud Montgomery of Fort Stockton, Mrs. Enslie Oglesby, Mrs. Stephen Perner of Ozona, Miss Jackie Stephens, Miss Betty Bean, Miss Dorothy Appel, Miss Ruth Appel, both of Brenham; Mrs. Dean Chenoweth, Mrs. G. C. Magruder and Mrs. R. L. Vaughn.

The bride is a graduate of Ozona High School, and William and Mary College, and received her degree from Baylor University where she was a member of Alpha Omega, Beta Beta Beta, and Psi Chi. The bridegroom is a graduate of Brenham High School and a graduate of Baylor University where he was a member of Beta Beta Beta. He served 36 months in the Army, with the 33rd Station Hospital as medical technologist.

MAYBE it's travel you want—in exotic foreign lands. Or thrilling adventure along new frontiers in electronics, aviation, medical science. Perhaps the chance to learn a useful, modern skill.

If you are 18 to 34 (17 with parents' consent) and otherwise qualified, you can get them all in the Regular Army. Yes, it's true: only 3 out of 5 applicants are good enough to make it. That means you'll serve your country with an outfit you can be proud of.

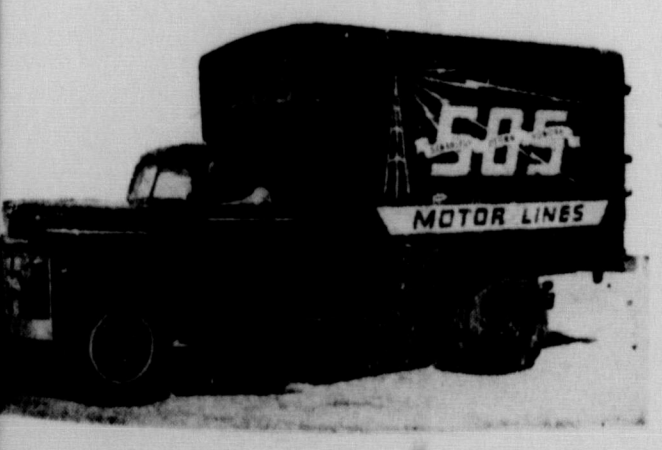

Study the pay chart below. That pay is clear. You don't pay a cent for food, lodging, clothing. Sound good? Then—get the full facts today at your nearest U. S. Army Recruiting Station.

RANK	MONTHLY RETIREMENT INCOME AFTER:	Starting Base Pay	
		Per Month	Per Year
Master Sergeant or First Sergeant	\$165.00	\$107.25	\$1285.63
Technical Sergeant	135.00	87.75	151.88
Staff Sergeant	115.00	74.75	129.38
Sergeant	100.00	65.00	112.50
Corporal	90.00	58.50	101.25

Football—

(Continued from Page One)

Perner, Ray Piner, Nat Read and Kerry Tandy.

Reserves include Glen Capps, Eddie Chapman, Frank Parr, Charles Cunningham, Armond Hoover, J. G. Hufstelder, Tommy Laxson, Bill Meinecke, Frank

Chapman, Charlie Davidson, Albert Yancy, Tom Mitchell, Norman Satterwhite, Kenneth Perdue, Ted Mankin, Jim Cooper, Charles Mankin, Buddy Phillips and Bill Melton.

Freshmen prospects are Alton Smith, Jerry Lonon, Kenneth Parker and Joe Albert Brown.

The Lions will open the season against Bronte in a non-conference

game on the home field on Friday afternoon September 19, with Crane, another non-conference opponent slated for Saturday afternoon of the following week, September 27. The first district game will be here on Saturday, October 4 against the Reagan Owls of Big Lake.

The complete schedule for the Lions is as follows:

- Sept. 19 — (Fri.) - Bronte in Ozona.
- Sept. 27 — (Sat.) - Crane in Ozona.
- Oct. 4 — (Sat.) - Reagan Co. in Ozona.
- Oct. 10 — (Fri. Nite) - Ozona in Menard.
- Oct. 18 — (Sat.) - Ozona in Rocksprings.
- Oct. 24 — (Fri. Nite) - Ozona in Junction.
- Oct. 31 — (Fri. Nite) - Ozona in Eldorado.
- Nov. 8 — (Sat.) - Sonora in Ozona.

Traffic Laws—

(Continued from Page One)

other means. The question of right-of-way is clearly defined in the new law. The vehicle that gets into an intersection first has the right-of-way. If two vehicles get there at the same time, the one on the right has the right-of-way. In other words, if the other car is on your right, you must let it go ahead. If the other car is on your left, it should let you go ahead.

When you are making a left turn at an intersection, you must not cut in front of other vehicles so as to create a hazard. But you may turn ahead of opposing traffic after you have signalled for your turn and let the cars by that are in, or right at, the intersection.

Observance of rural stop signs—whether on highways or county roads—has never been enforced, because the old law did not actually make it a violation to run a rural stop sign. But it's a different story under the new law. These stop signs now mean STOP. Furthermore, after stopping, you must be careful not to start up again in such a way as to interfere with other traffic, thereby creating a hazard.

Hay-wagon turns are outlawed. To make a left turn, you must start the turn from the position nearest the right side of the street or road. Turns should be short, not on a wide angle such as one must make when he's driving a hay-wagon with a double span of horses.

Definite signals must be given before a driver turns, slows down, or stops.

Most of us will use the prescribed hand-and-arm signals. But busses and trucks will have to be equipped with electrical or mechanical signalling devices if they are built so that hand-and-arm signals cannot readily be seen. Owners of farm trucks with wide, blind bodies or narrow cabs should

check up on this matter away. Hand and arm signals are given in this manner: the hand and arm are extended out and up for right turn; straight out and up for left turn; straight out and down for slow or stop.

Will you be the GOAT

—ten years from now?

Why should you be the goat, and risk your present and future reputation, when it's a demonstrated fact that unless new homes are wired for ELECTRIC RANGES they're not modern now and will be even farther behind the times ten years from now. Survey after survey proves that!

Protect your reputation by building houses that are truly modern. Avoid kick-backs by including wiring for an Electric Range.

An Electric Range requires only: 3-wire service from point of cut-in to the distribution panel; a minimum of two No. 6 wires and one No. 8 wire; a 60-amp. switch with overload protection and a 3-wire circuit from the distribution panel to the range outlet in the kitchen. Make this your minimum wiring specification.
