RORRAL TALK

By Joe Cowan
Oz. Co. Agricultural Agent

the many thousands of we lambs leaving the coun week to market, we wonder or not there will be demand for good Ram breeding ewes in the future. The agent was visiting Paul ranch the other day as Mr. was shipping his lambs. Perner stated that he surely to see these top ewe lambs use he felt that the county never need a Flock Improvement Program but will need Replacement program. so many ranches using the "face" bucks, the handwriting on the wall that we will fall of good breeding ewes in the future.

So the agent asked Mr. Max Mann about such a future and found out that he is in accord with Mr. Perner's

Perner, by the way, had a successful year with his lambs. He marketed a 100 percent lamb with the lambs averaging 81 lb. pay weight. He stated that he had fed his sheep since 1934 and runs only 125 sheep to pasture. Furthermore, there is a bitterweed spring on his ranch. This is good ranch manage-

General Saturday San Angelo for Millspaugh

Member of Ozonans Died Well Known Rancher Died Friday

Funeral services were held Saturday afternoon from the Episcopal Church in San Angelo for Sidney Sanderson Millspaugh, 66, who died in a San Angelo hospital at 11 o'clock Friday. Mr. Millspaugh had been taken to the hospital last week when a heart condition became worse.

Rev. Philip Kemp, rector, officiated. Burial was in Fairmount cemetery.

in old Fort Concho March 1. Mr. Millspaugh was the late James L. and Sarah Millspaugh, pioneer ranchers of this section. Mr. Millspaugh stated his ranching career began in Crockett county as a young boy and began development of present large ranch southwest of Ozona. He was active in the Sheep and Goat Raisers' Association and the Texas and Western Cattle Raisers' Association. He was widely known in livestock circles. A sportsman and sports man, he was to be at every San Angelo sports event. He was a trustee of the Community Gym.

He was a young man he was one of the foremost steer ropers of that time. Millspaugh home is at 525 Washington. Mr. Millspaugh lived in San Angelo all his life.

Survivors include the widow; sons, Sidney S. Millspaugh, and Austin C. Millspaugh, of Ozona; three sisters, Mrs. M. Hunter, Sr., and Mrs. Frances Westbrook, both of San Antonio; a maternal Mrs. Charles W. Hobbs, San Angelo, and one granddaughter, Mrs. Millspaugh.

Among honorary pallbearers are the following from Ozona: Amb Cox, Paul Perner, Scott A. John Bailey, Boyd Clayton and John Fogarty.

Work of wrecking the Boyd home is ready to begin to way for the new home to be on the site for the Claytons. Mrs. Clayton and Mikey are on the ranch until their home is completed.

Roach of Eldorado, father of T. J. Bailey of Ozona, is seriously ill in a San Angelo hospital.

Lions Edge Out Bronte; Engage Crane Here Sat.

Locals Limber Up In Non-Dist. Play To Vie For Title

By taking advantage of a break early in the game, the Ozona High School Lions nosed out the Bronte Longhorns 6 to 0 in the opening game of the new football season here last Friday afternoon.

The blistering heat of the afternoon told on the players as the game waxed fast and furious and there was a noticeable let-up in drive as the teams tired under the withering mid-summer heat of the day.

The Bronte squad got off to a ground-gaining start when they drove down the field in successive first downs to the Ozona 15 after receiving the kick-off. But the Lion defense stiffened at this point and then the locals showed they had the stuff for a sustained march. Coates went through the line for a 20-yard gain and followed on the next play for 10 more. But the drive was interrupted about midfield and the Lions kicked.

The Bronte receiver fumbled on the kick and Cooke recovered for Ozona on the Bronte 6. Nat Read darted through tackle for the distance and 6 points. Cook missed the try for extra point and that was all the scoring for the day. There was considerable fumbling on both sides in this opening game but Coach Sikes and Parker fielded a team that showed a lot of snap and precision which is bound to improve as the squad gains more experience in play.

The Lions threatened a second touchdown in the third quarter when they began a drive on the Bronte 40 which took them to first down on the Bronte 4-yard line. But there a quarterback sneak was undertaken and Read fumbled, Bronte recovering to cut off the threat.

The Longhorns were marching down field in a determined manner in the waning minutes of the game, the gun cutting off a serious threat to the Ozona victory.

The Lions engage what is expected to be a stronger foe here Saturday afternoon at 2:30. The Crane Cranes, who beat Big Lake 12 to 6 in the season opener for the two teams, is to be the Lions' opponent this week-end. Admission prices will be 30 cents for students and 75 cent for adults.

Woman's Society Hears of Work At Community Center

The Woman's Society of Christian Service met Wednesday for an all-day session in the home of Mrs. B. B. Ingham, with Mrs. Floyd Henderson, president, presiding.

Following the executive board meeting, a covered dish luncheon was served. At a business meeting starting at 1 o'clock, Miss Mary Riddle and Miss Taylor, deaconesses at the Community Center here, spoke on their work. A hobby club and a band are sponsored by Miss Taylor for teen-age boys and girls, with about 25 members in the band.

Miss Riddle said she could use more crayolas, construction paper, paste and scissors for her kindergarten class of 70 pupils. Volunteer workers are also needed for a night class in English for adults, she said. She told of work that is being done by Mrs. Bill Conklin with 60 boys and asked for funny papers, magazines and footballs.

The executive board made several recommendations, among them that a nursery be opened each Wednesday afternoon; that a missionary service be given some Sunday morning showing where the money is used; that "open house" be held at the Community Center, sponsored by the Society, when the new building is finished. It voted to investigate the possibility of securing a recreational supervisor for the church.

Next Wednesday, Oct. 1, the (Continued on Page Two)

Rev. M. B. Carroll

Rev. Carroll To Begin Baptist Revival Sunday

Brady Minister Leads In Week's Services Twice Daily

Rev. M. B. Carroll, pastor of the First Baptist Church at Brady, Texas, will do the preaching in the Fall Revival meeting of the First Baptist Church in Ozona which begins Sunday and continues through Sunday, October 5.

Rev. Carroll is one of the outstanding young ministers of this area and members of the local congregation feel that Ozona is fortunate in having the opportunity to hear him through the series of services.

Song services during the revival meeting will be conducted by the pastor, Rev. Glen Edwards.

Services will be held twice each day, during the week at 10 a. m. and 7:30 p. m., with the Sunday morning service at the regular 11 o'clock hour. Officers and members of the Baptist Church extend a cordial invitation to the entire community to attend any or all of these services.

Shell Seeks Midway Lane Extension

Shell Oil Co. Inc. has staked location for a proposed 7,000-foot rotary test three-quarters of a mile south of Sinclair Prairie and Atlantic No. 1-66 University, opener of the Midway Lane Ellenburger field in northeastern Crockett county.

The test will be No. 1 Chambers county in Chambers county school land survey, abstract A-1689, 660 feet south and 1,980 feet west of the southeast corner of section 30-46-U. Operations are due to start on once, Sinclair Prairie and Atlantic are drilling three tests in the area.

Rotary Entertains Teachers at Barbecue

Members of the Rotary club were hosts at a barbecue supper honoring members of the faculty of Ozona Public Schools at the fairgrounds platform Tuesday evening. Rotarians and their wives, the teachers and their wives were guests of the occasion.

Hubert Baker, club president, was master of ceremonies. Supt. C. S. Denham introduced the principals of the high school, grade school and Latin-American school, L. B. T. Sikes, Dean Chafin and John Plunkett, respectively, and the principals in turn introduced the teachers of their schools.

The group was entertained with hillbilly music furnished by a mixture of Ozona and San Angelo musical talent, including Hubert Baker, himself, Homer Good, Jake Baker, Augustin Tagle, all of Ozona, and Roy Welch, Jack Baker and the Shipman sisters of San Angelo, plus a whistling number and a fiddle breakdown done by Oran Weeks, grade school teacher.

A special Promotion Day program has been arranged for the Methodist Service at the eleven o'clock hour Sunday. All parents are especially invited. Each age group will share in the program.

Gar-Tex Vaughan Well Pumps, Flows Pipeline Oil

Strike 10 Miles North- west of Ozona San Andres Producer

On initial testing of the San Andres lime pay, penetrated less than one foot, Gar-Tex Drilling Corp. of Fort Worth No. 1 R. L. Vaughan of San Angelo was credited Monday with pumping and flowing pipeline oil steadily. It was turned to tanks at 5:20 p. m. Sunday but no gauge was reported. The oil tested only 20 gravity.

A pump was installed after plugs were drilled from 7-inch casing, which was cemented at 1,494 feet, one foot off bottom, to shut-off upper water.

The well was reported on a potential gauge after pumping an average of nine barrels hourly on a 17-hour test Monday.

No. 1 Vaughan is 990 from the south, 1,873 feet from the east line of section 86-OP-GC&SF, on a farm owned by Ted Weiner and others of Fort Worth. It is only 330 feet north of Weiner and others No. 1 Vaughan, an Ellenburger failure abandoned at 7,785 feet.

The Texas Co. No. 1-U University, northeastern Crockett county wildcat three miles south of Barnhart, recovered 120 feet of gas-cut mud on a drillstem test from 8,735-85 feet lasting one hour and 50 minutes. No oil or water were reported. Gas came to the surface in 1 1/2 hours but was not gauged.

Drilling continued to 8,848 feet and a drillstem test was scheduled with a packer set at 8,795 feet. The wildcat, with elevation 2,665 feet, was believed generally to be in the Ellenburger, top was unconfirmed. Location is the C NW NW 22-40-U, one-half mile south of the Irion county line.

In the Childress (Ellenburger) field in northeastern Crockett county, Humble N. 1 Ethel Childress Smith estate was drilling at 5,860 feet in shale. It is in the C SW SW 1-B&F, diagonal northeast offset to Humble No. 1 Mrs. Grady Mitcham, the discovery. Humble N. 2 Mitcham, C NE NW 12-AB-D&SE, half mile west of No. 1 Mitcham, had reached 2,372 feet in lime and shale.

Continental No. 1-A-13 University, scheduled Ellenburger wildcat C NE SE 13-47-U, six miles south of the east end of the Barnhart (Ellenburger) field in Reagan county, was making hole at 3,000 feet in sandy shale.

Humble No. 1-G. W. Owens, south outpost to the Clara Couch Wolfcamp pool in western Crockett was drilling at 1,300 feet in red bed sand anhydrite. It is in the C SW SW 6-GG-H&GN.

D. Harold Byrd and Jack Frost and Gulf No. 1. B. Mayberry-J. Homer Tippet, prospective discovery producer in the panhandle of northwestern Crockett from 6,295-6,399 feet, was coring from 7,361 feet in shale. It is 660 feet from the northeast and southeast lines of section 39-31-H&TC.

Funeral Services for D. I. Taylor Tuesday

D. I. Taylor, 63, Barnhart, resident for 31 years, died at 2:45 p. m. in a San Angelo hospital. He was connected with the Gulf Oil Corp. in Big Lake and Barnhart for 28 years. He retired three years ago because of poor health.

Mr. Taylor was admitted to the hospital a week ago. Funeral services were conducted at 10 a. m. Tuesday from the Cox Funeral Chapel with the Rev. Roy Shilling, pastor of the First Methodist Church in Mertzon, officiating. Burial was in Fairmount Cemetery with Masons in charge.

Mr. Taylor was born June 1, 1884 in Grandview, Texas. He was married to Miss Cora Elizabeth Ellsworth July 15, 1916 in San Antonio. He was a member of the Methodist Church and affiliated with the Mertzon Masonic Lodge.

Survivors include: the widow, a brother, C. S. Taylor, San Angelo; and a sister, Mrs. Ammie McMurtrey, Nashville, Tenn.

Installation Of Third Pump Assures City Water Supply

Installation of casing and pump equipment in the new water well recently completed on water works hill raises Ozona's potential water supply to a figure which will be adequate to take care of the town's needs for many years to come.

The job of installing the pump in the new well was completed shortly before 1 o'clock Sunday afternoon and the pump was run for a short time to test its capacity.

The pump, powered by a 75 horsepower electric motor, pumped 590 gallons a minutes in the preliminary test, through an eight-inch lead pipe flowing into the swimming pool. The new equipment has not yet been turned into the mains, a new electric switch being awaited to complete the electrical connection. Pipe from the pump will be connected into the city main and the pump will be ready to augment the water supply when needed. Two other wells, also equipped with electric pumps, are capable of delivering about 700 gallons per minute, all three wells pumping from the same bountiful supply of underground water, found at about 417 to 419 feet.

Formal Opening Of Saunders Flower Shop Held Here Saturday

Alan Saunders, proprietor of Saunders Nursery and Flower Farm, officially opened Ozona's first flower shop in connection with his nursery business Saturday.

A stock of cut flowers was on hand for examination of callers in the large new refrigerator box. An orchid corsage, offered to the oldest lady calling during the opening, went to Mrs. Jones Miller.

To publicize the formal opening of his flower shop, Mr. Saunders, a former World War II flier, with the aid of E. R. Kinser of the Kinser Flying Service and a couple of Army officers stranded here with the disabled C-47 transport plane which recently landed at the airport, put on an air show over the football field during the between-halves period in the Ozona-Bronte game Friday afternoon.

In three planes, the fliers circled the field in formation after firing several signal rockets and flares, then Mr. Saunders dipped to the field and scattered purple and gold zinnia petals, the flower petals missing the field and landing just outside the park to the north. His aim was better, however, in sprinkling the field with several hundred miniature corsages done in the OHS school colors of purple and gold.

Eastern Star To Stage Tom Brenneman Breakfast Saturday

Members of the Ozona Eastern Star chapter will sponsor a "Tom Brenneman" breakfast, after the fashion of the famous morning radio program "Breakfast at Sardi's," in the Will Baggett garden Saturday morning, September 27, at 9 o'clock.

A dollar a plate and a lot of laughs promised with Hubert Baker in the role of the famous radio MC is the score for the party and a telegram was received by the chapter Wednesday from Tom Brenneman himself in Hollywood, California, advising that he was shipping party kit for the breakfast by air express.

Prizes for the "Good-Good Neighbor," selected from letters to be written and left at Smith Drug Store by Friday night — an orchid to the oldest — a wishing ring for the wish of the day — a prize for the most original hat, and maybe ther prizes are offered. Proceeds will go to the chapter's piano fund, and everybody is invited. Tickets are on sale at Smith Drug.

Carbon paper for all purposes at the Stockman office.

Ozona To Play Eola Sunday In Season's Finale

Unbeaten Locals Need One More To Cinch Championship

Baseball for the 1947 season, will come to an end so far as Ozona is concerned next Sunday afternoon when the Ozona nine engages the Eola crew on the Eola diamond in the Concho Basin League season finale.

Ozona took a game last Sunday by forfeit from Maverick, the Maverick team folding before the season's end.

Next Sunday will bring to a close the 1947 Concho Basin series, and if the Ozona nine wins, it will be an undisputed championship for the locals by virtue of winning the championship of both the first and second half split schedule. A loss for Ozona would mean a tie between Ozona and Veribest for the second half, provided Veribest wins their final game in Bronte Sunday.

The Ozona-Eola game is scheduled for 3 o'clock Sunday afternoon. Eola, by the way, is in Concho county, out from San Angelo on the Wall-Van Court road and on a cut-off road north half way between that highway and the San Angelo-Point Rock road.

District President Of Women's Clubs Speaks At Ozona Club

Mrs. W. E. Cantrell of Lometa, president of the Sixth District, Texas Federated Woman's Clubs, was the speaker at a meeting of the Ozona Woman's Club Thursday at the home of Mrs. N. W. Graham. Members of the Junior Woman's Club and the Literary Club were guests.

Mrs. Cantrell stressed the district's theme for this year, "Unity," and urged that clubs work in closer harmony among their own membership and in connection with other federated clubs of the state and nation, and all civic minded organizations.

Guests and members present included Mrs. J. M. Pettigrew, Mrs. Cleophas Cooke, Mrs. Alan Saunders, Mrs. Byron Stuart, Mrs. Cleophas Cooke, Mrs. Alan Saunders, Mrs. W. V. Guidroz, Mrs. A. F. Krause, Mrs. John A. Lamun, Mrs. Ted Pilcher, Mrs. Fred Parker, Mrs. Arthur Phillips, Mrs. C. O. Walker, Mrs. Ele Hagelstein, Mrs. Bill Bissett, Mrs. Fred Hagelstein, Mrs. P. L. Childress, Mrs. W. T. Stokes, Mrs. Stephen Perner, Mrs. Wil Baggett, Mrs. Hubert Baker, Mrs. Bert Couch, Mrs. Joe Pierce, Mrs. Hillery Phillips, Mrs. Charles Williams, Mrs. P. T. Robison, Mrs. Lowell Littleton, Mrs. John Bailey, Mrs. A. C. Hoover, Mrs. W. E. Friend, Mrs. O. L. Sims, Mrs. Evert White and Mrs. N. W. Graham.

Texas Co. No. 1-U Recovers Free Oil In Drillstem Test

The Texas Co. No. 1-U University, northeastern Crockett county wildcat three miles south of Barnhart, drilled ahead Tuesday after recovering 150 feet of free oil and, below it, 48 stands of drilling mud on a two-hour drillstem test of the Ellenburger from 8,785-8,849 feet.

Gas appeared at the surface in seven minutes and was estimated to rate 35,000 cubic feet daily. Flowing pressure was 200 pounds, hydrostatic pressure 4,900 pounds.

Top of the Ellenburger still was unannounced but was believed to be around 8,700 feet. Elevation is NW 22-40-U, one-half mile south of the Irion county line.

Mr. and Mrs. Joe North are building a garage apartment which they will occupy while their new home soon to be started, is under construction. The present North home has been purchased by Frank James and will be moved to a lot in the south part of town.

first study course of the series, "Committed Unto Us," will start with Rev. Horace M. King as the teacher. Everyone is urged to attend these classes, taking credit if desired.

Those present for the meeting were Mesdames Monroe Baggett, Will Baggett, Bill Cooper, Ted White, Willard Deaton, Floyd Henderson, Scott Peters, J. A. Fussell, Chas. Williams, Lee Childress, S. M. Harvick, B. B. Ingham and Miss Taylor and Miss Riddle.

BOYCE HOUSE GIVES YOU TEXAS

Did you ever hear of "dropping the pigeon?" Back in Memphis, Tenn., when I was a young reporter, "dropping the pigeon" was frequently reported to the police. How the name was derived, I don't know, but it was a swindle in which the sharpsters and the victims were negroes. The scheme worked in this way:

A cotton picker, with his season's earnings, alighted from a train and as he entered the railroad station, a well-dressed negro perceived from the new arrival's clothes and his gawking at the sights that he was a greenhorn so he stepped forward and said, "Judge Brown, when did you

get to the city?" and then he said, "Ah begs yoah pa'don, sub, but you looks so much lak muh friend, Judge Brown, de distinguished lawyah from Grenada dat Ah mistook you."

Of course, the rustic was flattered at having been mistaken for so distinguished a personage and then his new friend said, "Ah'm gin' to walk up to town; ef you would care to accompany me, Ah'd be glad to point out de sights," an invitation which was accepted.

They had walked only a block or two when the city man stooped down quickly and picked up a billfold, then jerked his companion into a doorway, saying, "Let's git in heah befo' somebody sees what we found." In the billfold was a fifty-dollar bill. "Huh, no name er address; we can't return it, so it's ouahs," said the finder. "You has brung me luck so I'll split it." But he didn't have change. The visitor however produced \$25, so his friend pocketed this and handed him the fifty dollar bill. A few minutes later, the finder of the billfold shook hands with him cordially and told him goodbye. When the country negro made a purchase, he learned that the bill was counterfeit. The billfold had of course been dropped by a confederate of the smooth talker.

During a trial for theft, the defendant suddenly changed his plea to guilty. The jury came back in a little while with a verdict of "Not guilty." The judge said, "But the defendant confessed." "Pshaw, judge," replied the foreman, "we all know Bill and we know what a big liar he is."

SHIELD EXPERT HERE

H. M. Shevnan, widely known expert of Chicago, will personally be at the Cactus Hotel, San Angelo, Friday only, Oct. 3, from 9 a. m. to 4 p. m.

Mr. Shevnan says: The Zoetic Shield is a tremendous improvement over all former methods, effecting immediate results. It will not only hold the rupture perfectly no matter the size or location but it will increase the circulation, strengthen the weakened parts, and thereby close the opening in ten days on the average case, regardless of heavy lifting, straining or any position the body may assume. A nationally known scientific method. No under straps

or cumbersome arrangements and absolutely no medicines or medical treatments.

Mr. Shevnan will be glad to demonstrate without charge. 6509 N. Artesian Ave. Chicago 45 Large incisional hernia or rupture following surgical operation especially solicited.

Lights and Brakes Necessary Under New Texas Traffic Laws

By Col. Homer Garrison.

Fix your lights so that you can be seen by the other fellow and your brakes so that you can stop, and you'll be all right under the new traffic law, which went into effect Sept. 5.

You must have two burning headlamps and a burning red tail light. The only thing which every motorist has to have after Jan. 1 1948, which he may not have now is a little white light over the rear license plate. Formerly, reflectors were enough on trailers of all kinds, but after Jan. 1 a burning red tail light is required for any vehicle whatsoever on the road. Trucks and busses over 80 inches wide must have in addition to other lights a stop light and two red reflectors on the rear.

Trucks or busses over 80 inches wide having an actual or registered gross weight in excess of 3,000 pounds must have the following lights besides the headlamps, tail light, license plate two red reflectors; amber clearance light at front outermost top corner on each side; red clearance light at front outermost top corner on each side; red side marker rear on each side; amber side; amber side lamp near front on each side; red side lamp near back on each side.

When disabled on the highway, all types of trucks, busses and trailers must have three properly spaced warning devices such as pot flares, electric lanterns, etc.

All brakes must be capable of stopping the vehicle going 20

miles per hour within a distance of 30 feet on a smooth, level surface and must be maintained in good working order so as to be applied evenly on all wheels. Any type trailer having an actual or registered gross weight in excess

of 3,000 pounds must have a separate set of brakes thereon.

A new gray Stetson hat, worn at the Rotary barbecue Tuesday evening, is at the office of Supt. Denham awaiting the owner.

A CORDIAL WELCOME AWAITS YOU

Ten Little Servants

Ten little servants, waiting in a line. Call on one to do the wash—and still you have nine!

Nine little servants, working long and late. Ask one to cook your meals—and still you have eight!

Eight little servants—working like eleven! Call on one to clean for you, and still you have seven!

Seven little servants—you don't need candlesticks. When this one lights the house for you—and still you have six!

Six little servants, electrically alive. This one sews a handy seam—and still you have five!

Five little servants to help with every chore. One breathes a little breeze—and still you have four!

Four little servants—such activity! One can iron all the shirts—and still you have three!

Three little servants—if you're feeling blue. One will entertain you—and still you have two!

Two little servants, whose work is never done! One keeps the food fresh, and thinks it's rather fun—

One tells the proper time from sun to setting sun. (Dependable electric service makes these servants run—and saves you lots of elbow grease. Suppose you had none?)

Yes, electricity is always ready to take the work out of housework. And it costs so little! Matter of fact, if yours is the average family, you're getting twice as much electricity for your money as you did 20 years ago. What other item in your budget does so much for so little?

man of all is Doc Hollister—on
call, morning, noon and night.
Funny thing, Doc's favorite pre-
scription to his patients is: You
ought to have fun. The pace of
modern living, even on the farm,
demands some relaxation.
And as Doc says—fun is a per-
sonal thing. For the mellow it may
mean a movie or a good book; for
Dad, a mellow and refreshing glass
of beer; and for the kids, parchesi
or the radio. Doesn't mean every-
body has to like the same thing—
so long as they relax, have fun, to-
gether, in the home.
Doc doesn't have much time him-
self. After a hard day, he'll relax
before the fire with a glass of beer
—and wait for the phone to ring
again. And from where I sit, Doc
deserves each well-earned minute
of that relaxation.
Joe Marsh

**WHY long distance
lines are so busy**
Long distance telephones are carry-
ing a heavier traffic load today than
even in wartime. Business men in
search of merchandise, manufactur-
ers and builders in need of equip-
ment, naturally use the telephone
as the quickest way to reach
suppliers. Our long distance
lines are still overloaded, so
telephone "traffic jams"
occur. If you have a few
minutes' wait when call-
ing long distance, please
be patient. Today, as al-
ways, telephones carry a
lot of important business.

Six Intersectional Games To Feature Week's Broadcasts

As the football season swings into high gear, Humble Oil & Refining Company broadcasting crews will travel to both coasts and points in between to bring fans the six big intersectional games in which Southwest Conference teams feature this week end. The program leads off Fri-

day night with the game between Baylor and Miami University. The broadcast, piped from the Orange Bowl in Miami, starts at 7:05 p. m., with Ves Box at the microphone, and will be heard over stations WFAA-WBAP (750 Kc) Dallas-Ft. Worth; KABC, San Antonio; KTHH, Houston; and KWTX, Waco. The T. C. U.- Oklahoma A&M broadcast will go on the air from T. C. U. stadium, Fort Worth at 2:20 p. m. Saturday. Fred Kincaid

will report the play-by-play, with Bill Newkirk handling color. Air ing the game will be stations KFJZ, Ft. Worth; WRR, Dallas; K-GKL, San Angelo; KCRS, Midland. Veteran Humble announcer Kern Tips will travel all the way to Portland, Oregon, to bring fans a play-by-play account of the game between Texas University and Oregon University from Multnomah Stadium. The game will be heard at 3:50 p. m. over stations KTBC, Austin; KPRC, Houston; WFAA-WBAP (820 Kc) Dallas-Ft. Worth; and WOAI, San Antonio. The broadcast of the S. M. U.- Santa Clara match at San Francisco goes on the air at 4:20 p. m. Saturday with Charlie Jordan at the mike, and will be carried by stations KRLL, Dallas; KTRH, Houston; and KTSA, San Antonio. At 7:50 p. m. the Texas A & M Texas Tech game goes on the air from Alamo Stadium in San Antonio. Jerry Doggett will be at the pay-by-play mike while Eddie Barger fills in on color. The game

will be heard over stations KTSA, San Antonio; WFAA - WBAP (570 Kc) Dallas-Ft. Worth. The Rice-L.S.U. game, beneath lights at Baton Rouge, will be broadcast at 8:05 p. m. Play-by-play announcer Bill Micheals and color man Alec Chesser will share the announcer's booth, with stations KABC, San Antonio; KFJZ, Ft. Worth; WRR, Dallas; carrying the broadcast.

THE LION'S ROAR

Published Weekly by the Student Body of Ozona High School

OZONA, TEXAS, THURSDAY Sept. 25, 1947 No. 1

THE FACULTY

Parker, new assistant returned to Ozona after being away for eleven years. Mr. Parker moved to Ozona Bronte and lived here 26. He played football all years in high school, and played football all four years attending Hardin Simons. He played with George for one year and then year playing with the Rangers. Probably the most exciting ever took part in," Mr. told us, "was one which while I was playing for Brooklyn Dodgers. The game was played between the Dodgers and the New York Giants on the grounds in New York on December 7, 1941. The Brooklyn won by a score of 14-7, good game."

Five days after this game, Parker joined the United States Army and spent the next years playing and coaching ball. He became a civilian on January 18, 1947. He went to U. C. L. A. for the semester in 1947. Mr. Parker chose Ozona, "the biggest town in the world," in which to live down and help Mr. Sikes the Lions. Mr. Parker also teaches general mathematics in high school. We are glad to have you with us again, Mr. and Mrs. Parker.

CLASS ELECTIONS

The elections to decide the class officers for Ozona High were held Sept. 4.

The people's choice for president of the senior class was Bernard Lemmons, with Bob Bissett as vice president. For secretary, Lillian Schneemann was chosen; and for treasurer, Mary K. Flowers. At the same time, Miss Mildred North was elected senior sponsor for the second straight year.

The Juniors chose Armond Hoover to be class president, Frank Parr as vice president, and Billy Ray Graves as secretary-treasurer. Miss Frances Williams is the Juniors' home room teacher and sponsor.

For the sophomores, the home-room teacher and sponsor is Mrs. Ed Hallmark. The class president is Charles "Long Legs" Cunningham, with vice president, Kenneth "Sleepy" Perdue, and secretary-treasurer, William Meinecke. The "fish" (freshmen to you) elected Hallie Kinser class president; Jerry Carl Lonen, vice president; Doris Armentrout, secretary; and June Perner, treasurer. The freshmen have Wayne Matthews as home room teacher and sponsor.

BAND STAND

The Band has elected Sam Perner for its new president. Sam is a student this year and he is a good student as well as an active student in extra curricular activities. For vice president the band elected Chris Perner, Edith Lou Piner was chosen secretary-treasurer. The Band and Pep Squad are very proud of their new uniforms which the Parent Teachers Association gave them this year. They displayed them for the first time at the game last Saturday.

The Band is scheduled to give its first concert on Thursday of this week at assembly.

FADS AND FASHIONS

Everyone is getting out her fall dresses. We have been seeing longer lengths and brighter colors. Betty Jo T. really did look nice Sunday in her new plaid fall dress trimmed in black velvet. Mary Kathryn F. has been to San Antonio to shop for the latest fashions. Some people call it advertising but it is a cute novelty; Mak K. has a white handkerchief with her name embroidered on it. Ted Mankin looks very nice in his khaki shirt. There is only one thing wrong with it, it is that it

hung down to his knees.

What are J. G. and Armond doing? Perhaps you have seen or heard J. G.'s loud socks. Armond has a red and green striped pair.

Lillian is wearing one of the new, full, accordion-pleated, plaid skirts of longer length.

Joan and Rosalie are wearing some pretty plaid cotton dresses of a longer length, too.

Girls, have you noticed the clever green clothespins Patsy Cook wore to school Friday to hold her pigtails in place?

PEPPER BOX

Miss Williams: Give the definition of a home.

Sam P.: A place to go when there isn't any other. And also a place where part of the family is waiting for the use of the car.

Doctor: You have absolutely no hearing in one ear.

Kenneth Perdue: Oh dear, then I've been washing it every other day for nothing.

Mary K.: Has anyone seen Rosalie?

Sue M.: No, why?

Mary K.: I'm looking for Bob.

Chris P.: What has more lives than a cat?

Armond H.: I don't know. What?

Chris: A frog. He croaks every night.

Joe B. was crouched in the corner crying when Mr. Denham saw him.

"What's the matter, Joe?"

"Mr. Matthews hit his thumb with a hammer," sobbed Joe.

"You shouldn't cry over that. Why didn't you laugh?"

"I did laugh," whimpered Joe.

NEW HOMEMAKING BOOKS AID COURSE

Two textbooks, "Art in Home and Dress" and "The Girl and Her Home" now make it clear that the Homemaking course taught in high school is more than cooking and sewing. The book, "The Girl and Her Home" covers five phases of the homemaking program: 1. Child Care and Management; 2. Health and Home Nursing; 3. Housing and Home Furnishing; 4. Consumer Education; and 5. Family Relationships.

The book "Art in Home and Dress" thoroughly covers the subject of art and color. In the field of clothing and grooming the book thoroughly discusses design and color selection, grooming and selection of accessories. The section on "Home Furnishing and Interior Decoration" covers flower arranging, selection of china and silver, selection of wall paper and draperies and arrangement of furnishings.

"Foods," covers all phases of "Food and Nutrition" such as meal planning, food preparation, table service, food preservation, table service and food for the sick.

The addition of these new textbooks make it possible for a girl to realize more values and advantages from a course in Homemaking. Also since each girl can have her own book it will be easier for her to study her assignments.

We would like to thank the P. T. A. for the wonderful service they have done for us in securing those good-looking band and pep squad

THE O.H.S. Band and Pep Squad

THE GRADES

The First Grade, now divided into two groups, is to begin a safety unit the latter part of this week. The purpose of this unit is to acquaint the children with the safety rules of the school and to stress safety precautions in the home.

The unit will consist of making experience charts, learning traffic signals, observing rules and making safety posters.

The Second Grade is studying a unit on Safety Every Day. In art they are making safety posters and room decorations of tear out flowers.

The Third Grade has an enrollment of 31 pupils: 17 boys and 14 girls.

We are enjoying "Farm Life" in Social Studies. Our farm scenes on paper are making art a great deal of fun also.

Roy Glenn Sutton shot a dove and ate him for dinner.

Gail Garlitz and Melton Allen have skinned noses, which just proves that we do like our new football.

Mrs. Marley came to visit our class last week. She brought a lovely arrangement of flowers. We enjoyed having her visit us, and we loved the flowers.

The Fourth Grade is studying "How the Indians Lived." They have decorated three rooms with free hand pictures of Indian life along with tepees, tomahawks, (Continued On Last Page)

Feedlots Are Food Factories

Now, with the approach of fall, the endless streams of cattle and lambs flow down out of the high summer pastures. Last spring's pigs soon will be on the way to market. The sorting lots and corrals will soon be busy.

In the valleys and plains the feedlots begin to fill. They dam back some of this fall flood of animals. . . . You who feed livestock know well how important this is. You realize that it helps avoid periods of glut and scarcity, by stretching out, over months, the time of marketing. You know, too, how such year "round marketing serves to lessen big "feast-or-famine" price fluctuations. And who should understand better than you how the feedlots of America add millions of pounds to the nation's meat supply?

Feedlots save for the land much of the fertility which the selling of grain crops and hay would take out of the land. For example, you sell a steer that has gained 500 pounds in your feedlot. You are selling off your land only about 12½ pounds of nitrogen, 3 pounds of phosphorus, 1 pound of potash, which his body has absorbed out of your feeds. But suppose you were to sell as cash crops the grain and hay which you put into that steer. Then you would deplete your soil of about seven times as much nitrogen, four times as much phosphorus, and twenty times as much potash.

Martha Logan's Recipe for SAUSAGE AND LIMA BEAN CASSEROLE

- 1 pound pure pork sausage
- 1½ cups dried lima beans (3½ cups cooked)
- 3 cups hot water
- ¼ cup chopped onion
- ¼ teaspoon dry mustard
- 1 teaspoon salt
- ½ cup tomato juice

Soak beans in hot water for 8 to 10 hours. Simmer about 1½ hours in the same water in which they were soaked. Brown off half of the sausage and the onion, stirring lightly. Drain off excess fat. Combine cooked beans, browned sausage, onion, mustard, and salt. Place in a one-quart casserole. Make ten small balls from remaining sausage meat. Place on top of hot bean mixture. Pour tomato juice over beans. Bake in a covered casserole in a slow oven (325° F.) for 45 minutes. Uncover. Bake 15 minutes longer to brown sausage. (6 to 8 servings)

WINTER FEEDING AFFECTS SUMMER GAINS

Summer gains made by yearling steers on grass vary with the amount of gain made during the previous winter, according to new data reported by the Oklahoma Agricultural Experiment Station.

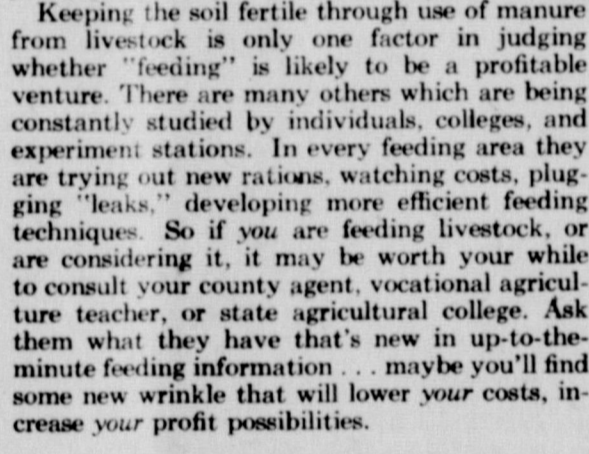

The experiments conducted by the Department of Animal Husbandry there were designed to find an answer to this question: "How much should calves gain during the winter months in order to make the best use of grass the following summer?"

Six lots of choice calves were used in the test. They were fed to gain at three different rates—high (1.3 pounds per head daily); medium (about 1 pound per head daily); and low (about ½ to ¾ of a pound per head daily).

The report of the experiments indicates: (1) that steer calves which gained at the medium to low rates made the most economical use of grass during the early part of the winter grazing season; (2) that combined profits from wintering and early-season grazing were in favor of the lots wintered at medium and low rates of gain; (3) that, of four lots of steers which were continued on grass during late summer and early fall, the ones which had been fed at the lowest rate of winter gain (.69 pounds per head daily) continued to make the greatest gain on grass; (4) that there is definite evidence that calves wintered on grass and cake to gain ½ to ¾ of a pound a day will produce desirable feeder yearlings at a greater profit than those which gain from 1 to 1½ pounds per day in winter.

This interesting experiment is reported in detail in Oklahoma A. & M. College (Stillwater), Miscellaneous Publication No. MP-11.

OUR CITY COUSIN

Keeping the soil fertile through use of manure from livestock is only one factor in judging whether "feeding" is likely to be a profitable venture. There are many others which are being constantly studied by individuals, colleges, and experiment stations. In every feeding area they are trying out new rations, watching costs, plugging "leaks," developing more efficient feeding techniques. So if you are feeding livestock, or are considering it, it may be worth your while to consult your county agent, vocational agriculture teacher, or state agricultural college. Ask them what they have that's new in up-to-the-minute feeding information. . . . maybe you'll find some new wrinkle that will lower your costs, increase your profit possibilities.

How many Meat Packers?

Here's an interesting thing to note. There is, on an average, more than 1,000 miles between the point where livestock is raised and the point where the meat products are eaten. Largely because of this 1,000-mile gap, national meat packers came into being. The small meat packers buy livestock locally, slaughter and sell meat in the territory surrounding their plants. In addition to this service, nationwide organizations are equipped to do another big job—and do it economically. They perform the service of moving dressed meat the long distances from areas of production to large consuming areas where relatively little livestock is produced. These areas of great meat consumption and small meat production depend upon nationwide meat packers, like Swift & Company, for a large part of their meat products. Livestock-producing areas also depend on the large meat packers, as an outlet for the livestock their immediate market cannot consume. Most livestock producers market their livestock at only one market. So they come in contact with only a few livestock buyers. Dealing with such a small number of firms leads farmers and ranchers, naturally enough, to the thought that there is only a small number of meat packers in the United States. Actually, according to the latest figures available, there are approximately 4,000 meat packers and about 22,500 other commercial slaughterers of livestock. Some slaughter millions of head per year. Others kill thousands of head annually, and still others only hundreds.

NUTRITION IS OUR BUSINESS—AND YOURS Right eating adds life to your years—and yours to your life

New "Slant" Saves Pigs

Farrowing pens with sloping floors are the answer to clumsy sows that step or lie on baby pigs. The slant of the floor takes advantage of the natural tendency of sows to lie with their backs uphill, while the tiny baby pigs tumble downhill safely out of her way. Used extensively in Kentucky, sloping floors have cut baby pig losses to only one out of thirty, according to W. P. Garrigus of the University of Kentucky. He writes:

"Crushing or crippling by brood sows is the chief cause of pig losses. Normally, one out of every five new-born pigs is doomed to be mashed or severely crippled by clumsy, awkward brood sows the first day or so after farrowing. This loss to the swine industry adds up to a staggering total. According to the United States Department of Agriculture, each pig killed at farrowing represents a loss of 140 pounds of the feed consumed by the sow during the gestation and suckling periods. Figuring two pigs killed to the litter, this loss in one year alone, 1944, cost hog men 75 million dollars.

"Very little of this tremendous loss needs to be tolerated. Three years of experimentation and observation of herd tests in Kentucky show that sows farrowing on sloping floors raised from one to four pigs more than when they farrowed on level floors. On 49 Kentucky farms where records have been kept, with 385 litters, an average of only one pig out of 30 farrowed has been crushed on sloping floors."

The College of Agriculture, University of Kentucky, Lexington, Ky., has detailed information on sloping floors for farrowing pens, instructions for building, etc.

Soda Bill Sez: . . . it doesn't take much of a horse to pull a load downhill.

Track Down the Facts

If you ever see tracks like this in the snow, dust, or mud, you'll know there's been a white-tailed deer around. An experienced hunter can tell from the tracks how long since they were made, the approximate size of the deer, and whether it was in full flight or quietly going about its business. Deer tracking is considerably out of our line here at Swift & Company. But we do have a staff of trained fact hunters. Their job is to track down the facts which control our business operations. They study the U. S. Department of Agriculture figures on livestock supplies. They "track down," too, the demand for meat . . . what weights and grades housewives everywhere are asking for . . . what cuts they prefer.

Our "fact trackers" know full well that the price of livestock is determined by what the meat packer can get for the meat and by-products.

LION'S ROAR—
(Continued From Page 5)

moccasins, and Indian chiefs. This week we plan to weave, make Hopi dolls, and mold pottery jars. The Fifth Grade is working on an Indian unit. We are divided into two groups. One group is studying the Tejas Indians and the land where they lived. Another group is studying the Shoshone

and Mandan Indians. This group is following the journey that Lewis and Clark made from the Mississippi River to the Rocky Mountains and from the Gulf of Mexico to Canada.

In Art we have made free hand drawings of tepees, Indian designs, Indian dolls, and fire prevention posters.

JUNIOR HIGH PEP SQUAD

The girls in the Sixth and Seventh grades have organized a pep

squad to support the Junior High football team. Alena Faye Powers and Billie Jacqueline Chandler have been chosen as cheer leaders. The twiflers are Wanda Carden, Leona Cunningham and Jeannene Thompson. The girls will wear blue and white uniforms.

The Eighth Grade now has eighteen enrolled, which is five more than were enrolled last year. There are ten girls and eight boys.

All the boys are taking Junior Manual Training and several of the girls are taking Junior Home Economics. The boys in Manual Training are studying woodwork. The girls in H. E. are studying clothing.

The Junior Class this year, as in years before, has the opportunity to sell refreshments at a home games in order to raise money for the Junior-Senior Banquet. We would appreciate your support at all times.

The Junior Class

WELCOME, FROSH

We, the upper classmen of Ozona High, extend to you our heartiest welcome. We hope you will work with us to make this school year bigger and better than ever before.

The Football Team, Basketball Team, Pep Squad and Band need all the support and co-operation you can give them.

Although the Freshmen are usually referred to as being green, we are relying on you to keep up the good work we have started. We also expect you to make high school as nice a place for the Freshmen after you as we have tried to make it for you.

Keep up the good work and sportsmanship you've shown in the past three weeks so that the good opinion we have of you won't have to be changed.

FOOTBALL NEWS FROM THE INSIDE

Chris and Armond

The whistle blew, the drums rolled and a long kick sailed deep into the Bronte territory only to go right back down the field in a series of hard running plays by the Bronte Longhorns, resulting in four first downs before the Longhorns were stopped.

The Lions took over, and after three futile tries to gain yardage, they got off a beautiful punt deep into the coffin corner. Just as the ball was caught by a Bronte back, the Lions were on him. The ball was fumbled and Ozona recovered. Then, in one quick play, the Lions went over for a "T. D." and six points. The try for the extra point failed leaving the score 6-0. Ozona kicked off to Bronte and both teams battled all over the field during the second quarter.

At the half, a colorful exhibition was put on by the Saunders Flower Shop. Flares were fired from the planes and purple corsages tied with gold ribbon were dropped on the field. Mr. Saunders was having his official opening that day.

Bronte kicked to Ozona to start the second half. The kick was run back to mid field where it stayed for most of that half.

Both pep squads and the Ozona band gave grand support to the teams. The sun was unmerciful

and the heat affected the boys noticeably.

Bronte recovered a Lion fumble in the last minutes of the ball game and were steadily driving toward their goal when the whistle blew. As the Lions walked off the field, one could tell that this is going to be a very interesting season. Their once fresh and

glistening uniforms were covered with dirt and sweat. They were very tired but they were very happy. Don't forget to give those Lions a lot of support next Saturday when they take on those Cranes on Powell Field at 3 o'clock. Be down to help those Lion "Beat Cranes"

JAMES MOTOR CO.

DODGE - PLYMOUTH Sales and Service

WARNING

To Sellers and Buyers of Used Motor Vehicles

A new law is now in effect in Texas which requires the transfer of current motor vehicle registration papers and properly assigned certificate of title at the time of sale of any used or second hand motor vehicle.

The law also requires the new owner of such vehicle to make application at the office of the tax assessor and collector within ten days after purchasing the vehicle for transfer of title to his own name.

The new law provides a penalty of a fine up to \$200 for failure to deliver registration papers and assigned certificate of title at the time of sale and assesses a penalty of \$5, to be collected by the tax collector, against the new owner for failure to make application for transfer of title within the prescribed ten-day limit. A fee of 50 cents is provided by the law for transfer of license plus the regular fee for new certificate of title.

Since the tax assessor-collector is required by this law to collect the \$5 penalty against new owners of used cars who fail to apply for transfer within ten days, and since the sale of a used vehicle without surrendering registration papers and title certificate is a misdemeanor, punishable by fine, we urge all who sell or buy a used motor vehicle to see some member of the sheriff's force if you are not certain that you have complied with all the terms of the new law.
