RELIGIOUS RIOTS CLOAK GRAVE DECEPTIONS

It is like turning the pages of history back for a quarter of a century to read of the recent anti-Jewish riots in Berlin.

To be sure, outbreaks of anti-Semitism in Germany are no new thing, these days. Perhaps we ought to be case-hardened to them by now. And yet there is something appallingly reminiscent of Czarist Russia at its worst in these accounts of uniformed bands of Nazis roaming the streets, beating men and women, spreading terror and chanting bloodthirsty slogans.

The worst thing about an outbreak of this kind is not its brutality. That is something which this imperfectly civilized human race of ours never entirely succeeds in quelling. We are born to trouble as the sparks fly upward, and getting poked on the nose now and then by our brother man is just one of those things that go with human existence.

What makes a performance of this kind especially dismaying is the fact that it represents a case of self-deception. In order to rouse yourself to the point where you want to go about the streets beating people whose religion or race is not like your own, you have to persuade yourself to believe something which obviously is not so—to wit, that the mere presence of these people in the same community with yourself is somehow a threat to your well-being.

Nor is that all. While you are giving way to this delusion, you may depend on it that off in the background, unseen, someone is getting away with something that he wouldn't get away with if you were keeping your eyes open.

The pogroms of the old Czarist government remain the classic example of this sort of thing.

Under the Czars, the people of Russia suffered so many glaring injustices that the danger of revolution was always present. But whenever public sentiment got too dangerous, the government would trot out the old Jewish bogeyman. Riots would be fomented, horrible waves of violence would sweep through ghettos, and in the blood-lust of the pogrom the people would forget how the ruling class was victimizing the entire country.

That is the sort of thing these anti-Semitic riots in Germany call to mind. By giving way to them, the people of Germany are blinding their eyes to more important issues. They are enabling their government to flim-flam them on matters of vital concern.

There is one more point. In the long course of human history one rule seems to hold good; a government which rules by terror perishes, sooner or later, in the same way. A government which foments pogroms and mass brutality is running up a dreadful bill which someone, some day, will have to pay.

TO PAY FOR ACCIDENTS

Insurance commissioners of America, convening in Seattle, are told by Insurance Superintendent R. L. Foster of Ontario that every motorist in America should be required to indemnify possible victims before being granted a driver's license.

Every motorist, says the Canadian authority, should be absolutely financially responsible to innocent victims of his negligence. Traffic hazards are so great, he adds, that some such step as this is necessary for public protection.

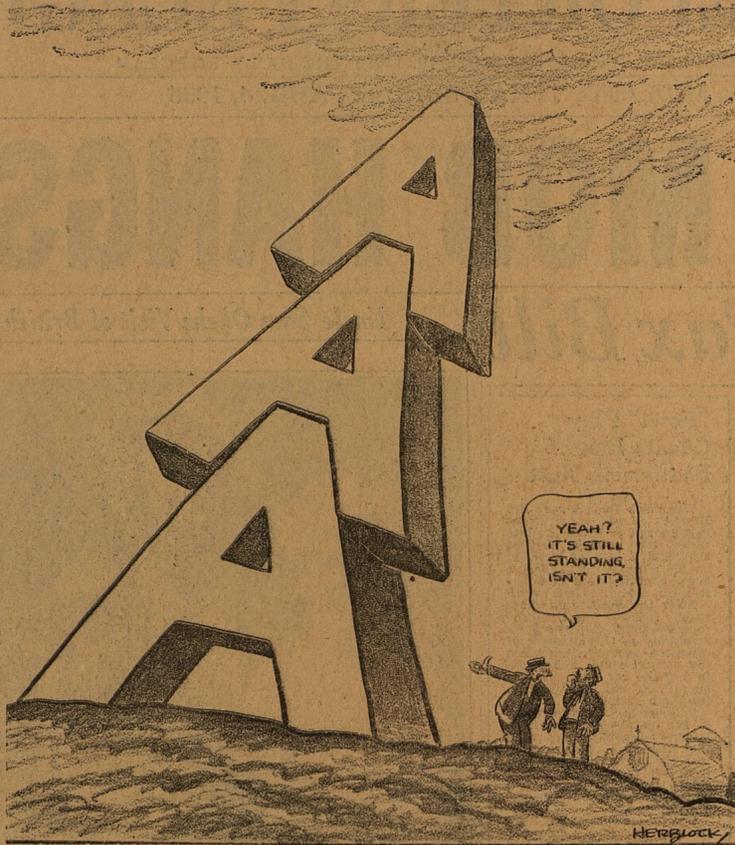

One's first reaction to the idea is that it would be a swell thing for the insurance companies. Nevertheless, it has much to recommend it. The least the innocent bystander has a right to expect is that, if his car or his person is injured through no fault of his own, the man who caused the accident will be able to pay for it.

Failure of parts of the body to grow in all directions in the same proportion is called "anatomic lag." This is for the information of those who thought it was a dance.

Reports that Germany is trying to get rid of its Jews are malicious falsehoods. In view of the recent Berlin beatings, how could the Nazis enjoy life without the Jews?

HEALTH HASH Cooked by MRS. ADDISON YOUNG

(The recipe for this particular hash includes: A liberal portion of N.E.A.'s report on "Health Education," plus a pinch of "Hygia," plus a pinch of "Clearance," a health tabloid, and seasoned with most anything you might like.)

Mental hygiene, "mental health," "psychology," and "behavior," are words which a good many of us are using more and more frequently, and which to many of us are still a little unfamiliar.

All this new interest in mental health is the outcome of a gradual change on the part of medicine as to what is included under the term health. Formerly the functions of that part of the body above the eyebrows belonged to the province of the teacher and the preacher, and all below that to the province of the doctor. Today we are beginning to think of the individual as functioning as a total personality—the mind and body so integrated that each person acts as a total unit.

to send them to the hospital has been demonstrated by the London Institute of Medical Psychology. Last year its experts treated 264 unhappy children afflicted with various depressions and mental illnesses, in each case restoring the child its lost health as well as happiness.

Sympathetic understanding is the basis of every cure. If the teachers in the school and the parents in the home would take more trouble to understand the difficult child, and help him to adjust himself, we should soon find a decrease in our mental disease rate.

Would Ask Business Ambassador for US In Foreign Land

PORT LAVACA (U.P.)—Business ambassadors, empowered in official capacities to stimulate American foreign trade in a globe-circling enterprise, will be asked of the congress.

Charles L. Grander, cotton and compress man of Cuero and Victoria, is the originator of the plan. He would create "business ambassadorships" in all foreign countries with whom the United States has business, or with whom business might be obtained, he told the Port Lavaca Chamber of Commerce in the "kickoff" of his scheme.

"All of the present American consular system would actively cooperate with the central business head of the foreign country under my plan," said Grander. His plan, outlined briefly, "The immediate creation of business ambassadors to be sent to foreign countries where we may have business, or with whom we can get business."

Demonstrations by Authority on Foods Will Be Given Here

Miss Gladys Kimbrough of the educational department of Ball Brothers Company will be here this week to conduct series of demonstrations in canning and food preservation for women of Midland County.

Her general foods experience includes teaching home economics both in rural and city high schools; working several years as home demonstration agent; managing a school cafeteria and later a large commercial cafeteria; acting as foods editor for a magazine; broadcasting tested recipes of southern cooking; and serving five years as educational director for a national organization of millers.

She is generally known as an authority on cookery—particularly on southern cookery—though she disclaims the term "expert" which is frequently applied to her, holding that such a term should denote a state of perfection which she has not reached.

Miss Kimbrough's schedule of demonstrations follows:

Aug. 6—Willing Workers Club of Valley View community at home of Mrs. W. S. Hudson at 2 p. m.

Aug. 7—Blue Bonnet Club of Prairie Lee community at 2 p. m.

Aug. 8—Cotton Flat community club at home of Misses Elsie and Clara Campbell at 2 p. m.

Aug. 9—Busy Bee Club at home of Mrs. S. D. Wimberly at 2 p. m.

Aug. 10—Council meeting at the courthouse at 2 p. m.

This food authority does not believe that cooking and canning are inspired arts. She holds that good material, plus proper equipment, simple recipes, and sound instruction should always get good results. Her presentations support this theory. She begins by defining the terms and principles. Next she describes and defines the proper material by illustration. She describes each process before it is done and then visualizes every physical act. She tells how and shows how in simple words and clear ways.

FEMININE FANCIES

BY KATHLEEN EILAND

France, we are told, erected statues to her specialties of food and drink. The woman who invented Camembert cheese has a monument to her memory in a Norman village. Cheese, Normandy cider and other delicacies have a statue erected in their honor in that province. In all, France has six "gastronomic monuments."

We wonder what six foods would be commemorated in our country if a poll of the citizenship were taken. Our nominations: hot dogs, apple pie, double dip cream cones, baked beans, corn pone, coca cola.

Our idea of the cattiest description of towns is "People just live there for spite."

Time seems to be turning backward in its flight. Something, an exclusive millinery stylist in New York is showing a "Pantle Button" hat among his early fall models. It is a black felt hat trimmed with several rows of pantle buttons in vivid colors and is accompanied by a belt made of rows of the same buttons, also brightly colored.

Some traveler tells us that among the pigmies of a certain tribe, a prospective bridegroom has to show his nimbleness by dodging arrows shot by his future in-laws before the ceremony. The trial is supposed to show how well he may be able to sidestep whatever dangers the future life in the jungles may hold for him.

Thinking along the same lines, we suppose that bridegrooms in America would be asked to demonstrate their ability to skip nimbly among cars in heavy traffic. Most people who can escape being hurt in car accidents seem to have a pretty good lease on life.

Good taste may be a positive force for better things in the material realm of life, as most people will admit. Perhaps we think less of it as a force in the spiritual things of our lives.

We think that Helen Welshimer describes its importance rather neatly in a recent article.

Good taste is inherent in love and marriage as in anything else. Consideration, courtesy, thoughtfulness, sympathy, companionship, understanding, a community of interests and a mutual sharing of problems and applause—these are the stones in the foundation of lasting marriages.

A dozen rules telling you to be in when you are out, and away when you are wanted so you can be missed, are not only useless but are based on dishonesty, which in itself is a defeat. To follow your own natural pattern will bring the only real results. Pretending to like avocado pears, when you really hate them, will do nothing at all to help.

Girl Scouts Have Luncheon at Lewis Home on Friday

A number of Girl Scouts of Chaparral troop who are working on second class tests at the home of Mrs. L. G. Lewis, 714 W. Kansas, for lunch Friday noon. Each girl brought a dish she had prepared herself to fulfill the requirement of the cooking test.

Lunch was followed by song practice under the leadership of Mrs. Jack Hawkins.

Later the group adjourned to the courthouse where, in the jury room Mrs. Addison Young, serving as county health nurse in the absence of Miss M. Elizabeth Wilson, gave instructions in the proper care and making of beds.

The following girls were present: Nell Ruth Bedford and Mary Jane Harper of the Rattlesnake Patrol, Jessa Lynn Tuttle and Jane Boudin of the Tumbleweeds, Cleo Tidwell and George Ann Farley of the Coyotes.

Chaparral troop now has a membership of 22 girls. Two of the new members are just completing tenderfoot requirements, and the remainder are working on second class tests, with two girls having completed them during the past month.

Regular meetings are held every two weeks on Wednesday during the summer. Weekly meetings on Saturday mornings will start at the opening of the school term next month.

There's lots of room in the FORD V-8

EVERY ONE who steps into the Ford V-8 for the first time is surprised at its roominess. There's exceptional seat room, leg room and head room in all body types—the whole car gives you a feeling of substantial size.

Many a car selling at a higher price does not give you as much interior room as the Ford V-8.

The Ford gives you extra body room because of the compact design of the V-8 engine—an exclusive Ford feature at a low price. This V-8 engine takes up less space in the hood and permits more of the car's length to be used for passenger comfort.

Rear seats are wide and restful . . . three people can ride comfortably in the front seat of the Fordor Sedan, Fordor Touring Sedan, Convertible Sedan and Phaeton, and in the Coupes and Roadster. The seat of the Ford V-8 Roadster is 52 inches wide.

A ride in the Ford V-8 will show that it combines unusual body room with fine-car performance, safety, beauty and riding comfort.

HUGHES GOES INTO LEAGUE LEAD WITH 7-2 WIN OVER GULF

WELLEN GIVES UP ONLY THREE HITS TO LOSERS

The Hughes Tool softball team took undisputed possession of the top place in the league when they defeated the Gulf Refining team by a score of seven to two Friday night.

The Gulf never had a chance as Wellen pitched the best game he has ever delivered this season, allowing the hard hitting Gulf team only three hits, one a triple by Adamson after two Gulf men had walked, to produce their only runs.

The Hughes team took a two run lead in the first inning when Miles, first up, got a base hit, Taylor walked, Burris forced Miles at third and Parrott scored Taylor and Burris with a rousing double.

The winners increased their margin to six runs in the third when they mixed six hits, one a home run by Miles, along with some poor mental plays by the Gulf for our runs.

Their last run came in the fifth when Burris doubled, went to third on an infield out and scored when Straughan reached first on an infield error.

The Gulf made their runs in their last of the fifth after Parrott and Pogue had walked, Adamson came through with his three base hit.

The Gulf made three errors beside some mental errors that hurt their chances of winning while the winners played errorless ball.

Miles, with a home run, triple, and single led the righes in their last attack of pitching of Adamson, Parrott and Burris each ran up two hits out of three trips to the plate.

The losers hits were divided equally between R. Parrott, Pogue and Adamson.

League Publishes Centennial Material

AUSTIN—The desire of the Inter-scholastic League of the University of Texas to enter into the spirit of the Texas Centennial project has resulted in the preparation of a bulletin of declamation material centering around the history and progress of Texas in the last 100 years, according to a statement by Roy Bedichek, chief of the Inter-scholastic League Bureau, who is editing the bulletin, expected to be ready for distribution in September among the 6,000 Texas schools who take part in the league declamations.

RUPTURE SHIELD EXPERT HERE

H. M. SHEVNAN, widely known expert of Chicago, will personally be at the Settles Hotel, Big Spring, Wednesday only, Aug. 7, from 9 A. M. to 5 P. M.

Mr. Shevnan says: The Zoetic Shield is a tremendous improvement over all former methods, effecting immediate results. It will not only hold the rupture perfectly but increase the circulation, strengthen the weakened parts, thereby closes the opening in ten days on the average case, regardless of heavy lifting, straining or any position the body may assume no matter the size or location. A nationally known scientific method. No under straps or cumbersome arrangements or absolutely no medicines or medical treatments.

Mr. Shevnan will be glad to demonstrate without charge or fit them if desired.

BY JESS RODGERS

At last we can say: "We Told You So." Lookit at what team is on top of the mushball league.

Hershel Howard evidently forgot to call officials of the Mollinger team of Big Spring Friday and find out whether they would be here for their scheduled game or not. They did not show up and a large crowd was more than mildly disappointed. However, the game between Hughes and Gulf took some of the bad taste out of the spectators' mouths after they had spent an hour and a half waiting for the visiting team to show up.

With Wellen once more pitching in his old time form the Hughes team is going to be double tough for the rest of the season.

If anyone is positive of how the league standings should be we would like for them to tell us.

"Curly" Cowden is certainly accommodating. After we dropped a fly in center field the other night he very obliging brought us a basket.

Don't try to tell Hershel Howard that we cannot hit.

Fletcher Currie may be number one arbiter in the Permian Basin League but he was just another "Blind Tom" to Fred Girdley Friday night.

Jimmy Adamson is going to have to develop a curve or change of pace before he wins many more games. The hitters are on to his straight hard one.

Not having complete figures for the season it is not known who is leading the league in hitting but Miles, Hughes first baseman, can't be far from the top. He is hitting .540 since games of the second half started.

Rumor has it that the Colts will sign up a darn good pitcher from Colorado. James is the name and he has quite a reputation there. He pitched for Mineral Wells last Sunday and beat Vernon three to one.

The Colts made seven runs in the first inning of their game with Big Spring last Sunday but lost 17-10 when they had no pitcher that could retire the home team. Estes and Huist pitched for the Colts.

There is a swell story about softball in last issue of Colliers.

Wants Boy Company To March At UCV Amarillo Meeting

PLAINVIEW, (P)—A company of youths, marching as did the southern boy soldiers of more than 70 years ago, would revive memories of the war between the states better than a march of the aged veterans thinks W. K. Elkins, 88-year old veteran of Plainview.

It is his hope to organize, equip and train a boy company to perform at Amarillo as Plainview's contribution to the 45th annual reunion of the United Confederate Veterans September 3-6.

"The sight of sixteen youths, carrying wooden muskets, wearing Confederate caps, and marching to old Southern tunes, will do more to revive the memory of the days of '61 in the hearts of the boys who fought for the 'Stars and Bars' than anything else in the world could," he said.

In excellent health, Elkins thinks nothing of walking several miles, chopping weeds or working in his garden. Using his cane, he goes through the manual of arms with snap and precision.

With other youths of his community, Elkins joined the North Carolina Junior Reserves at the age of 17. After a training period at Camp Holmes, he saw active duty in North Carolina and Virginia.

If any members of his company are at the Amarillo reunion, Elkins believes he will know them. He can call off without hesitation the names of all of the officers and many of the privates in the company. There are "Colonel Anderson, Major Beasley, Captain Carter, Lieutenant Shinn," and others.

Elkins has been a resident of Texas since 1871 and of Plainview for eight years.

Asked to what he attributed his longevity, Elkins replied: "Behaving myself, sir, and living like a gentleman."

Free Gardens Help Feed Amarillo Poor

AMARILLO, (P)—Needy families are being supplied with mustard greens, onions and spinach from Potter county's relief gardens.

Several thousand pounds of spinach, 6,000 pounds of mustard greens and 5,200 bunches of onions have been distributed recently.

Squash and carrots were expected to be available soon, and corn, beans, beets, okra, white potatoes, sweet potatoes, cabbage, tomatoes and turnips later.

The fresh vegetables are allocated to needy families over and above regular relief budgets. The surplus which cannot be consumed fresh by relief clients will be canned in a relief cannery to open soon.

The relief gardens are irrigated with water from the city supply, as much as 325,000 gallons being used in a single day. As soon as each 160-acre plot is cleared, it is replanted.

Million Dollar Hall of State is Feature of Centennial Exposition

Central unit of the Texas Centennial Exposition, the Texas State Building, will cost \$1,200,000. Designed by a committee of Texas architects, the building will be a massive structure of Texas limestone with a frontal width of 488 feet, a depth of 238 feet and 80 feet high at its center, where the Niche of Heroes will be located. The two front wings will be occupied by regional rooms, devoted to the four geographical divisions of the state—East, West, North and South—while at the extreme ends will be the Halls of 1836 and 1936.

Forming a third wing, extending to the rear from the Niche of Heroes, will be the Great Hall of Texas. This hall will be a large room with six semi-circular bays in which will be displayed flags of the six governments that have ruled Texas. At one end, silhouetted against stained glass windows, will be a heroic statue symbolic of Texas. On the floor will be outlined a map of Texas with bronze markers showing historic places and old pioneer trails. Murals will decorate the bays and walls of the regional rooms. Below the great hall will be an auditorium.

The walls of the Niche of Heroes, behind its columns, will bear in relief heroic figures of the major heroes of Texas, while under the windows in the side colonnades will be placed smaller figures of other historic Texas characters. The interior of the Hall of 1836 will be a replica of a Texas mission, while that of the Hall of 1936 will be modern.

140,000 Texans Are Eligible for Work

AUSTIN, August 1.—There are 140,000 employable Texans on the Works Progress Administration projects, it has been revealed by the Texas Relief Commission. Of these, 115,000 are men and 25,000 are women. The job of transferring these from the Emergency Relief Administration rolls to the WPA rolls where they are expected soon to obtain work on projects created through the \$4,800,000,000 works fund, \$50,000,000 of which has already been allocated to Texas, is now in full swing throughout the state, Mrs. Val M. Keating, social service director has announced. Twenty district supervisors are in the field assisting county administrators in certifying the employables and coordinating the transfers. Certification of employables to the WPA rolls is expected to be completed in about a week, giving a pool of 140,000 persons for the WPA to draw from for its projects. A person eligible for employment on WPA projects is defined as one who is now on the relief rolls and is registered with the U. S. Employment service. Mrs. Keating has directed the 20

Softball Pitcher Over 50 Years Old

CANADIAN. (AP)—Playing in his first game of ball in 50 years, "Judge" H. F. Hoover, who is in his early seventies, pitched for a team of men each of who was more than 50 years of age, in a recent softball game here.

His team lost, 12 to 7, to a team of girls. Aided by a home run from the bat of County Judge W. L. Helton, the men led until a last-inning rally put the girls ahead.

About 2,000 persons saw the game, which was played at night.

The U. S. government distributed more than seven billion fish fry and eggs during 1931.

Young Director Youth Movement Is From Texas

WASHINGTON, August 3. (AP)—Texas, the largest state, has the youngest director of the administration's national youth movement.

Lyndon B. Johnson of Johnson City and secretary to Representative Richard M. Kleberg, of Corpus Christi for four years, is 26 years old but when he goes to Austin to establish his new headquarters he will take with him more experience than some men much older.

"Lyn," as his close friends call him, was debate coach in Sam Houston high school in Houston before coming to Washington and he preceded winners. Two of them—L. E. Jones and Gene Lattimer—he brought to Washington and put to work as his assistants and Jones will be in charge of the Austin office until Johnson reaches the capital. A dozen others he has "placed" in government departments.

Johnson was born in West Texas, taught school in east Texas, and has been the right-hand man of a Kleberg devotee his time primarily south Texas representative. While to legislation, Johnson systematically handles the office "routine" and knows "Mr. Dick" so well that he has been of valuable assistance to the congressman even on legislative matters.

He rules the office with a firm but kindly hand and "the boys" call him "the chief."

One of the Texas' freshman congressmen who has studiously avoided the more spectacular House careers others have sought is puzzled. "Cousin Nat" Patton of Crockett, a former state senator, can not understand why anyone should accuse him of fawning doing for accepting a box of cigars from a friend, John W. Carpenter, president of the Texas Power and Light Company.

"I can't figure out what they think they've got on me," Patton said when the Senate lobby investigated that Carpenter name the congressman who had been in his room. "I've never done anything wrong like that in my life. Sure I went to his room but I didn't take anything out of there but that box of cigars."

His family is also dismayed but all are satisfied everything will "come out all right in the end," as Mrs. Patton put it.

Within 24 hours after he had completed his voluntary testimony, practically all of the Texas House delegation had called to tell him not to worry about the incident. Several sat down with him and offered their services and assistance. Telegrams of sympathy came from many sections of Texas and several caused Patton to weep for a moment.

"Cousin Nat" is going right "thru this thing to the end" so that any implied blame may be removed from his shoulders.

Fred Astaire to Sing

That master of hoofology, the gay Fred Astaire, has a new assignment. He will make merry on the Lucky Strike "Hit Parade" that hits the ether on Saturday evenings on the NBC Red Network. This engagement will commence on August 10th when Fred will swing into all the newest songs from his forthcoming picture, "Top Hat." It should be a gala occasion, most fans opine; especially since Fred will entertain the "Hit Parade" audience with samples of his dancing that will be broadcast to them over the ether.

Neatness in Care Of Cosmetics Is Really Important

By ALICIA HART
NEA Service Staff Writer

Neat habits in regard to your cosmetics and the way you use them really are more important than they sound. Replacing the cover on your powder box, the lid on the rouge jar and tight corks in your lotions and perfume bottles after you have had them open not only keeps the contents clean but prevents evaporation and general deterioration.

There isn't much sense in carefully cleansing your face and throat if you are going to cover them with dusty rouge and powder, applied with pads that have been shifting around in the bottom of a drawer.

Use a fresh piece of cotton each time you put on a preparation and keep the large roll in its original wrappings. If you like, you can get cotton packed in a can that has air in the cover. Simply pull out a little whenever you need it, leaving the rest untouched and perfectly clean.

If you prefer powder puffs to cotton pads, have several on hand and wash them frequently. Never borrow anyone's puff and don't lend your own.

Rouge puffs in compacts seem to be neglected more than any other beauty item. You can get ones at any drug store so there really is no excuse for using the same rouge pad as long as you keep a certain vanity case. See that lipsticks have caps that snugly keep out small particles of dust and flakes of tobacco that collect in the bottom of your purse.

Your creams, of course, must be covered for economical as well as sanitary reasons. In hot weather, particularly exposure to the air may make them rancid. If you buy huge jars, better divide the contents, keeping a little on your dressing table and storing the rest in a cool place.

Loans Available to Automobile Dealers

ST. LOUIS, Aug. 3.—Working capital loans from Federal Reserve Banks are available to automobile retailing dealers, and, according to one of the chairmen of the Industrial Advisory Committee, W. K. Norris, president of the McQuay-Norris Manufacturing Company of St. Louis, chairman of the Industrial Advisory Committee of the Eighth Federal Reserve District, "certainly more dealers should be taking advantage of these facilities."

In the current issue of the official bulletin of the National Automobile Dealers Association, which has headquarters in St. Louis, Mr. Norris makes the following statement:

"With this year's revival of automobile buying, undoubtedly some dealers whose reserves have been squeezed out by the depression years, find themselves without the necessary working capital to expand operations and take care of prospective increased business."

"It is fortunate that a supply of working capital is now readily available. Everywhere in the business ought to know just how to make use of these funds."

"On June 19, 1934, Congress passed Section 13b of the Federal Reserve Act to meet the demand for new supplies of credit for the medium sized man in industry and in commerce. This law provides that the Federal Reserve banks may cooperate with other banks and financing institutions in making loans to furnish working capital to established industrial and commercial enterprises. In exceptional circumstances, when the other banks are unable to make the loans, the Reserve banks may make the loans direct."

"These loans may be made for maturities up to five years. They may be of practically any size. In fact, they range from \$100 lent to a Texas cut glass manufacturer to the \$6,000,000 furnished a Detroit automobile manufacturer. A sum approximating \$300,000,000 have been available in the Federal Reserve System. Up to the end of last May loans totaling about \$90,000,000 have been approved, and the actual advances and commitments amounted to around \$50,000,000. Incidentally, of this last sum nearly \$12,000,000 had been loaned to automobile and accessory manufacturers, and \$340,000,000 in 33 loans to dealers. Certainly more dealers should be taking advantage of these facilities."

"Now as to how to go about it: First go to your own banker and see whether he will or give you the recommendation you need. His reason for not lending to you might be unwillingness to tie up his funds for as long a time as you need them, or he may not have sufficient funds available. Then ask him if he would be willing to participate with the Federal Reserve Bank of the district in making a 13b loan. If he does not know all about it, ask him to inquire of the Federal Reserve Bank. The participation arrangements are very flexible. The Reserve bank will make a commitment to take over any part or all of an approved loan from the participating bank on demand, and besides thus furnishing liquidity, it will assume an agreed percentage of any loss not exceeding 80%. It is really good business for the participating bank. If he does not know all about it, ask him to inquire of the Federal Reserve Bank. The participation arrangements are very flexible.
