## Mrs. Hayden Griffith Honored at Miscellaneous Shower Monday

Mrs. Hayden Griffith a recent bride was honored at a happily planned affair yesterday afternoon when Mrs. Robert Currie entertained at her apartment on Main St. The crowd found diversion in friendly conversation and contests. A big box daintily wrapped, and attractively tied with tulle, was brought in by the hostess and presented to the honoree. The package contained numerous gifts from the friends of the honoree. These were passed around for all to see and admire, and they included beautiful pieces of linen, and many other useful household gifts.

At the refreshment hour the hostess served a tempting repast in a unique way. Each guest was presented a small box daintily wrapped with crepe paper and tied with tulle. Upon opening it was found that the package contained chicken salad sandwiches, olives, potato chips and ice cream. A refreshing fruit punch was also served.

Those enjoying this delightful hospitality with the hostess and honoree were Mesdames Rufus Miller, Monroe Johnson, Herbert Stanley, T. E. Johnson, Chas. Sheehy and Misses Lucille True, Valilia True, Louise Shive, Frances Sullivan, Frances Melton, Juanita Ralph, Nell Davis and Lola Belle Stewart.

## Mrs. Herbert Stanley Entertains in Compliment to Mrs. Hayden Griffith

Mrs. Hayden Griffith, a recent bride, was the honoree at a delightfully planned shower on Tuesday, when Mrs. Herbert Stanley entertained in her honor.

"Hearts" were the diversion of the afternoon, and four tables of players found interest in this fascinating game. The honoree was successful in making high score, it was revealed at the close of the play, and the hostess presented her with a large assortment of miscellaneous gifts. These were daintily arranged on a tray. All of the beautiful gifts were unwrapped for all to see and admire.

At refreshment time, the hostess served a delicious banana mousse and cake.

Those enjoying this delightful affair with Mrs. Stanley and the honoree, were: Misses Ruth Miller, Bernice Johnson, Anna Mae Freeman, Irene Knusa, Vallilia True, Mrs. Jack Nail, Mrs. Edmund Notestine, Mrs. Martin Dellinger, Mrs. C. D. Loyeth, Mrs. R. H. Miller, Mrs. Chas. Sheehy, Mrs. Florence McNew, Mrs. L. L. Freeman, Mrs. Ben Miller and Mrs. C. W. Stanley of El Paso.

Although electricity is increasing in use in Mexico, nearly 4,000 tons of candles were imported there last year.

## City Federation Will Entertain Visiting Women With Seated Tea

The members of the City Federation voted with enthusiasm to entertain the wives of the visiting newspaper men, with a seated tea, on next Friday afternoon, July 13th, while the West Texas Press Association is convening in Big Spring. The beautifully appointed affair will be given in the Community clubhouse, and Mrs. J. C. Douglas has been appointed chairman of the arrangement committee.

This, together and other important business was discussed at the regular monthly meeting of the City Federation, held in the clubrooms Tuesday afternoon at 3:30 o'clock. The meeting was set at an early hour in order that there would be no conflict with the Chautauqua, and in spite of the early hour, and the hot afternoon, more than a quorum was present.

Mrs. Douglas will appoint other committees, who will assist her in planning the tea for the visiting women. They wish to extend a most cordial invitation to the women of the town to attend the tea, and to meet the visiting women.

During the business meeting, the bills for the furnishings and fixtures for the clubhouse were presented, and they were ordered to be paid. The clubhouse is now equipped with tables, chairs, dishes, glasses, shades, lighting fixtures, etc., and is in proper shape to be rented for social functions. Those desiring to use the clubhouse must make application to the librarian on Wednesday or Saturday afternoon. This will save you confusion and delay in getting it.

There will be no August meeting of the City Federation. The regular meetings will be resumed in September.

All of the teams have raised their quotas, and the team work is completed. Other means for raising money will be agreed upon at the September meeting.

## Susanna Wesley Class Will Have Party Tomorrow at 3:30

The regular monthly social meeting for the members of the Susanna Wesley Class of the First Methodist church will be held in the church parlors tomorrow afternoon at 3:30 o'clock.

A cordial invitation is extended all members of the class to attend this happily planned affair.

Mr. and Mrs. Pete Johnson returned Saturday night from a visit with relatives in Pennsylvania and other points in the north. This was Mr. Johnson's first visit to Pennsylvania in forty-two years and great changes have taken place. He says they have a wonderful country up north but he is more than satisfied to remain in Texas.

A traveling crane has been built to work instead of steel in Germany to lift ten ton trusses into place in a new church.

## Fourth of July Celebrated With Barbecue at Kinard Home

A number of friends and their families met at the home of Mr. and Mrs. Daucey A. Kinard on yesterday to celebrate the Fourth of July. Each family brought chicken milk and a variety of other good eats, and planned to spend the day in an old time social get-together.

A barbecue pit was provided and at the appointed time, the chickens nineteen in number, were barbecued to a turn, with J. B. Woods, as chief cook. While the men cooked the chickens, the women were busy freezing ice cream and bussing. At high noon a dinner was spread under some stately cottonwood trees and needless to say everyone except the writer overate himself. Besides the barbecued chicken the menu consisted of all kinds of picnic eats, pies cakes and ice cream.

Those enjoying this delightful affair were: Mr. and Mrs. N. H. Montgomery and family, Mr. and Mrs. J. B. Wood and family, Mr. and Mrs. Wiley Blane and family, Mr. and Mrs. Epsie W. Hale and family, Mr. and Mrs. Elridge Montgomery and family, Mr. and Mrs. Joe Wood and family, Mr. and Mrs. Daucey Kinard and family, Mr. and Mrs. J. A. Kinard and family. The thirty-eight guests enjoyed the occasion to the fullest extent, especially at lunch time and like the loaves and fishes, they gathered up nearly 12 baskets full.

## Miss Una Dorothea Campbell Honored at Birthday Party

Miss Una Dorothea Campbell was the honoree at a happily planned party last Monday afternoon, when her grandparents, Mr. and Mrs. J. D. Castle entertained in her honor, in celebration of her ninth birthday anniversary. Beautiful cut flowers adorned the rooms in which the young ladies were entertained by Misses Juanita Cook and Miss Lillian Crawford who directed them in play.

At the refreshment hour, the children were led into the dining room, where a prettily decorated birthday cake, lighted with candles, centered the table. Una Dorothea blew out all of the candles, except one, which signifies that she will be an old maid.

Mrs. Harvey Dunnagan assisted Mrs. James Campbell in serving the little folk cream and cookies. Miniature cases filled with dainty candies were given to the guests as favors.

Those celebrating with Dorothea were: Willou Tripp, Wanda Nell, Betty Fay and Barbara Collins, Blanche and Louise Maxwell, Lois Read, Ruth Arnold, Juanita Cook, and Lillian Crawford, Leon Pearce, Malcolm Tripp, Gordon, Buffington, Edward Johnson, Jack Cook, James Reginald Shortes, Harold Neel, Billy Rose.

The guests presented Dorothea with some beautiful little gifts.

# Brilliant Social Function at Community Clubhouse

Mrs. T. C. Cory of Texarkana, Texas, Honored at Delightful Bridge Affair, With Mrs. Steve Ford and Mrs. G. L. Wilke, Cohostesses

Outstanding among the social gaieties the past week was the brilliant bridge affair given at the Community Clubhouse Tuesday afternoon, honoring Mrs. T. C. Cory of Texarkana, Texas, who is the guest of her sister, Mrs. Steve Ford, in this city. Mrs. Ford and Mrs. G. L. Wilke, were cohostesses at this delightful affair, entertaining nineteen tables of bridge enthusiasts.

The beautiful new clubhouse provided a setting of rare charm for this brilliant social event, and its artistic beauty was further enhanced by the fragrance and splendor of a variety of summer blossoms. Massed in vases, bowls and baskets, the flowers of the season were placed at every vantage point throughout the auditorium. Occasional tables, prettily decorated with red, white and blue crepe paper covers, in scalloped designs were placed here and there in the clubhouse, to add color and charm to the setting.

Patriotic emblems, in keeping with Fourth of July season were used in all of the party details, and a red, white and blue color scheme was featured in the decorations, tallies, table appointments and refreshments.

Interest was high in the fascinating bridge games of the afternoon and at counting time when scores were compared, high score honor went to Mrs. W. D. McDonald, and second high to Mrs. E. O. Ellington. Both were beautifully favored with vases of Roseville Pottery. Mrs. Robert W. Currie won high in the cut, and she received a lovely pair of candles. Mrs. T. C. Cory of Texarkana, received the guest prize, which was a dainty piece of lingerie.

At the refreshment hour, the pretty patriotic color scheme was brought to a climax in the dainty two course luncheon served.

The guest list to this delightful hospitality included: Mesdames: C. Fox, Robb, Cline, Edwards, Bennett, R. Gallimore, F. Phillips, Grotz, Flewelles, Less, Piner, Baxley, Montin, Stephens, C. L. Williamson, McDonald, McDowell, Mellinger, Wasp, Oakesher, Brooks, Keating, Ellington, A. Fisher, Hilliard, Cunningham, Biles, McNew, Hair, Happel, Clarke, Freeman, Ashley, Currie, S. Phillips, Inkman, O. L. Thomas, Strain, V. Martin, Everett, Jacobs, Cowden, Copeland, Pike, Whitney, Bartram, Cushing, E. E. Fahrakamp, Pitman, Battle, Frasier, LaBef, H. Rodgers, Dorn, Hagedsty, Pistole, Steve Baker, L. A. Eubanks, McLaughlin, McGrew, Hatcher, LaRue, and Misses Spencer, Leatherwood, Vesta Monteller, Eleanor Antelely. Out of town guests were: Mrs. Harvey Williamson, of Bruni, Texas, Mrs. Thomas Wood of Nowata, Oklahoma, Mrs. Fred Hopkins of Colorado, Mrs. Parish of Wichita Falls, and Mrs. T. C. Cory of Texarkana.

## Program For Sunday, East Third Senior B. Y. P. U.

3. Promises Inspire Hope—Goldie Nance.  
4. Promises of Special Importance—Thelma Smith.  
5. Some Problems of Providence—Zella Nabors.  
6. The Darkest Providence—Nellie Reid.  
Everybody welcome, come and bring a friend.

## Entre Nous Bridge Club Will Have Chicken Barbecue

The delightful party held at the home of Mrs. Mattie Gallimore on Thursday afternoon, when Mrs. Richard Scheig was hostess, marked the close of the six month period, for members of the Entre Nous Bridge Club at which time scores for the half year were averaged. Mrs. W. F. Cushing was declared the lucky winner of high score for the past six months and Mrs. Victor Martin made second high in the six months time. Instead of giving prizes as formerly, the club members decided that the "low" members of the club would entertain the "six" high members, with a chicken barbecue, at the new Wells. The date for this delightful outing has not been announced but will be given sometime after the close of Chautauqua.

## Mr. and Mrs. S. J. Ellis Entertain With Chicken Barbecue

Mr. and Mrs. S. J. Ellis delightfully entertained with a chicken barbecue at the New Wells Sunday afternoon in honor of Mrs. Ellis' brother, Minot Swift who is a visitor in our city.

A tempting picnic supper was enjoyed by Mr. and Mrs. Calvin Boykin, Mr. and Mrs. Houston Cowden, Mr. and Mrs. Andy Carter, Mr. and Mrs. E. J. Berry, Mr. and Mrs. J. C. Holmes, Mr. and Mrs. Roy Harris, Mrs. Fred Cromwell, Ernest Potter, Minot Swift of San Antonio, and Mr. and Mrs. S. J. Ellis.

## Mr. and Mrs. Fred Barnes Hoogrees at Chicken Barbecue

Mr. and Mrs. Fred Barnes of El Paso, who are guests in our city visiting Mr. and Mrs. C. F. Duval and family were the honorees at a delightful outing Sunday evening, when friends entertained with a chicken barbecue at the new wells. In the cool evening hours the happy crowd gathered for this enjoyable affair. The barbecued chicken and other good picnic eats proved to be the feature of greatest enjoyment. Those included on this outing were:

Mr. and Mrs. C. F. Duval, Ralph Duval, Miss Essie Duval, Jean Kennedy, Mr. and Mrs. Ralph Rix, Mr. and Mrs. Swan Jones, Montie Jones, Buster Conway, Mr. and Mrs. Fred Stephens and daughter, Mrs. J. A. Stephens, Miss Fannie Stephens, Mr. and Mrs. R. C. Strain, Mr. and Mrs. Fred Barnes.

## If You Are Interested in Renting the Clubhouse

Those desiring to rent the Community Clubhouse for entertainments of various kinds are requested to read again the rule which governs this privilege, and to abide by it, in order to save yourself confusion and delays.

The article reads: "Those wishing to rent the clubhouse should make application for the use of the building to the Librarian at the Library on Wednesday or Saturday afternoon. A deposit of one fourth of the rental amount must be paid at the time of application. His balance to be paid when the entertainment is given."

Those wishing to use the clubhouse must abide by this rule.

FLY-TOX is protecting millions of homes from mosquito invasion. The entire home can be freed from mosquitoes in two minutes. Take an improved FLY-TOX Hand Sprayer and spray FLY-TOX toward and against the ceiling until the finely atomized spray reaches every part of the room. Also spray the hangings, closets and screens. It is absolutely stainless, safe, fragrant, sure and easy to use. FLY-TOX is the scientific product developed at the Mellon Institute of Industrial Research, by Rex Fellowsip. Every bottle guaranteed.—Adv.

L. O. O. F. INSTALL OFFICERS  
Members of the Big Spring Lodge L. O. O. F. are planning on a big meeting tonight. Installation of officers is the main order of business. Visitors from the Stanton and Knott L. O. O. F. lodges are expected to attend this session.

## Mr. and Mrs. Lockhart of Luther Entertain Sunday

Sunday June 17, 1928, there were a number of relatives and friends gathered at the home of Mr. and Mrs. Lockhart of Luther, for a picnic. The majority of those present were related to Mr. or Mrs. Lockhart. The day was enjoyed all the more because of the fact that a number of those present had not met since 18 years ago when we all lived in the same small community.

About the middle of the day there was a large table spread under the trees and everyone enjoyed the dinner picnic fashion. There was an abundance of meat, pickles, all sorts of vegetables and salads, cakes and pies galore, and last but not least, plenty of iced tea.

There were 51 present and the day was greatly enjoyed by all. We do not have a correct list of those present, but among them were:

Mr. and Mrs. Will Sorrells and family, Mr. and Mrs. Fred Sorrells and family, Mr. and Mrs. Roy Barrier and family, Mr. and Mrs. E. E. Holland and family, Mr. and Mrs. Dewey Engle and family, Mr. and Mrs. J. A. Shirley and family, Mr. and Mrs. J. R. Tom and family, Mr. and Mrs. George Case and little daughter, Mrs. Barbra Barrer and family and Grandma Lockhart, who is mother and grandmother to a large number of those present. We each of us have Mr. and Mrs. Lockhart to thank for an enjoyable day.

One who was present.

## Revival Making Good Progress

Entering the second last week of the meeting, the tent revival at 307 East Third is progressing nicely. The services last night were well attended. Services will be held each night this week and Sunday morning, with general appropriate subjects for discussion scheduled for the week.

The evangelist Rev. Smith urges the cooperation of all, good citizens in helping to make the revival a great one.

### East Third Bldg. Will Be Rushed

J. W. Skipworth of Lamesa who was awarded the contract to erect a two story business building in Big Spring at a cost of \$35,000 expects to complete this structure within ninety working days.

There will be four business spaces on the lower floor and offices and apartments on the second floor

## Press Meeting Will Attract Prominent Men

It is Believed That This Press Meeting Will Be Biggest and Best

One of the outstanding features of the West Texas Press Association which meets in Big Spring on July 13 and 14 is the address to be delivered by Hon. James O. Shughessy, executive secretary of the American Advertising Agencies of New York City. Other men of outstanding prominence who have accepted places on the program are: H. W. Stanley of El Paso; Eric G. Schroeder, Dean of Journalism; Clarence E. Gilmore; Will H. Mays; Beeman Fisher. On the evening of Friday, July 13, a banquet will be given by the Press Association by the Big Spring Chamber of Commerce with Fritz R. Smith of Snyder as the toastmaster. The list of speakers included on the banquet program are State President, Joe J. Taylor; Harry Olmstead; E. H. Whitehead; H. S. Hunter; Mrs. Dan Moody; Max P. Bentley, J. M. North, Jr., and Richard M. McCarthy. Immediately following the banquet a dance will be given the visitors. On Friday afternoon the City Federation will give a bridge-club for the visiting ladies. This will be held in the Community Club house which was officially opened to the public a few days ago.

Saturday morning the program will open with a question box in charge of H. H. Jackson of Coleman. Others appearing on the Saturday program are: T. Paul Barron and Tom A. White.

An automobile tour to the Big Spring Oil Fields and to the experiment station will be of interest to the visitors. A golf tournament will also be held on Saturday on the Big Spring golf links in charge of Bill Parker and Dick Willets. A silver loving cup will be given the winner known as the Bill Parker Loving Cup.

Other prizes are to be offered by President Luther Watson and Mr. E. E. Jordan.

George W. Smith of Snyder, member of the program committee, has been working in close touch with the Chamber of Commerce and T. E. Jordan of Big Spring in arranging details for the meeting who signifies that he will be in Big Spring a few days prior to the meeting to assist in registering and receiving the guests.

### ROBINSON FOR VICE-PRESIDENT

Senator Joseph T. Robinson has worked unceasingly for years to become the standard bearer of the Democratic party.

That he has become the vice-presidential nominee is only a partial fulfillment of his ambition, but one with which he must be content.

Robinson was chosen not so much because of his strength as a candidate, but to repay in some measure the debt that his party owed to him.

When anyone was needed to bear a particularly heavy burden, Robinson was always the handy work horse ready to carry the load. In his home state, on stamping tours in other states, presiding at national conventions and acting as Senate floor leader, Robinson has been a plunger, and at all times a faithful party man. In that respect, there is a likeness between him and the vice-presidential nominee on the Republican side, Curtis.

Al Smith had no hesitancy in accepting Robinson, because four years ago at Madison Square Garden it was Robinson who prevented William G. McAdoo from getting a majority of the delegates and from running away with the nomination.

In the pre-convention campaign this year, Robinson defied many of the most powerful politicians in his own home state to throw the Arkansas delegation to Smith.

Much political expediency is involved in the Robinson selection. He comes from a state that is both solid south and border and one that is needed in the Smith column.

Robinson will fit into the farm program and be able to mix with dirt farmers wherever he goes.

While recognizing the debt owed Robinson, and the political expediency involved in his nomination, we do not feel that the Democrats have done the best they could have done in the way of a vice-presidential nominee.

Robinson is a compromiser who decided leanings toward the reactionary as expressed, for example, in his vote against the Walsh power inquiry. He is impetuously quick tempered and has lost control of himself not once but on several occasions both on and off the Senate floor.

Aman less, symbolic of the "practical party idea" would have been better. A man like Baker, Bowers or Franklin D. Roosevelt, one who typified a more scholarly and there-by a deeper conception of what the Democratic idea is all about.

### Waco Girl Found Near Dallas Road

DALLAS, July 3. (AP)—Miss LaVerne Clayton, age 20, of Waco, was found unconscious on a road near here today, bruised about the head and body and unable to tell what happened after she got into a taxicab at the home of a sister.

## Contract Let For a \$35,000 Brick Building

J. W. Allen Lets Contract For 2-Story Brick Opposite Douglass Hotel

### Develops Third Street

Another Business Building for This Fast Growing Section of Big Spring

Another modern two story business building is to be erected in Big Spring. Contract was awarded Monday and construction is to be started immediately.

J. W. Allen awarded to J. W. Skipworth of Lamesa for an estimated price of \$35,000 the contract to erect a two story brick building seventy six by ninety two feet, at the corner of East Third and Runnels St. opposite the Douglass Hotel. A dark grey brick will be used in the construction and will give the building a very attractive appearance.

Four store business spaces will be arranged on the first floor, three of these facing on East Third and one fronting on Runnels St. In the second story will be arranged several modern office spaces and an apartment for the family of Mr. Allen.

The Allen home is to be moved from the site at once so building operations can be started as soon as material can be assembled.

W. H. Dooley and Co. architects of this city prepared the plans for this modern structure.

### Progress at Sun Co.'s No. 2 Well

The Sun Company No. 2 Settles set 5 3-16 pipe and cemented at a depth of 2930 feet. This test is being made for the deep lime pay and if productive the deep area will be extended a half mile west from the Magnolia's discovery well.

The test is considered good for 1000 barrels from the 2900 foot horizon the well is located in the Northeast corner of the southeast corner of section 135 block 29 W. and N. W.

The Magnolia's No. 8 Roberts offsetting the Sun No. 2 Settles drilling at 2465 feet was about four feet in the top of the 2500 foot pay. The fluid was standing about 300 feet up the hole. The Marland and Texon's No. 1 Settles is pumping 300 barrels daily from the 1300 foot pay. Cosden and Company No. 1, Roberts located in the center of the south line of section 129, set 8 inch casing at 2000 feet and cemented. They will standardize at this depth. The line was topped here at 1900 feet, which is reported a little high. Cosden's No. 2 Roberts in the southeast corner of section 129 is drilling just below 1800 feet with Rotary. The Amerada No. 1 Stewart in the southeast corner of section 130, and offsetting Cosden's No. 2 Roberts had drilled nine in. hole to 2000 feet and Saturday afternoon was reaming below 1,800 feet. This test will be carried below 2,200 feet before the 8 inch casing is run.

### Mrs. Coolidge Has Quiet Birthday

SUPERIOR July 4 (AP)—Answering to the Chief Executive's own wishes today was set aside at the summer White House for the quiet observance of Mrs. Coolidge's 56th birthday. With only his family about him and abandoning the custom of past years of having more or less of the public, he expressed the desire to spend the day in absolute privacy.

### GOP Will Avoid The Main Issue

CHICAGO July 4 (AP)—Prohibition and the equalization fee phase of the farm relief will be subordinated by the Republicans under campaign plans announced by Dr. Hubert Work, chairman of the Republican national committee. The wet and dry issues, said Work, who stopped off here on his way back from Wisconsin to Washington, would bring more votes to the Republicans than the Democrats. The need of farm relief, he thought has been greatly overplayed.

### Bank Call Issued As of June 30

WASHINGTON July 3 (AP)—The Comptroller of Currency today issued a call for the condition of all national banks at the close of business on June 30.

A call for the condition of state banks at the close of business, June 30, was issued today by State Banking Commissioner James Shaw.

### Stove Explosion Fatal to Woman

DENVER July 3 (AP)—Mrs. W. E. Pope, age 34 died here today from burns received yesterday from the explosion of a kerosene stove in her home southwest of here. Failure to turn off the fire before refilling the stove caused the blast.

# Hour after hour over any road -and every mile a pleasure

No matter how long the journey or how varied the highway, every mile at the wheel of the Bigger and Better Chevrolet is a pleasure.

At every speed, this amazing car holds the road with a surety that is a revelation—for it is built on a wheelbase of 107 inches, and the body is balanced on four long semi-elliptic shock absorber springs, set parallel to the frame. It steers with the weight of a hand—for the worm and gear steering mechanism is fitted with ball bearings throughout. And it sweeps along at high speeds for hour after hour without the slightest sense of forcing or fatigue—always under the complete control of its big non-locking 4-wheel brakes.

Only a demonstration can reveal the full performance superiority of the Bigger and Better Chevrolet. Come in today!

### Atlantic Pipe Line to Cross Roberts Field

Will Offer Another Outlet for Oil in South Howard County Field When Completed

The Atlantic Pipe Line Company has just completed purchasing the right of way through Howard Co. for a pipe line, according to J. P. Howdeshell of the land purchasing department of that concern.

The proposed pipe line will run from the Atlantic Oil Company's tank farm at Midland to Beaumont and will pass through the southern part of Howard county according to the purchases for the right of way. This will give the Roberts pool another outlet for the oil that is being developed and should offer a big inducement for the rapid development of the field.

The actual construction work will begin on the line Howdeshell said, when the right of way has been purchased for 100 miles or more. This should not take more than thirty days more at the very latest it is pointed out.

### Atlantic Pipe Line to Cross Roberts Field

Howdeshell said that the line will enter the county on the V. E. Phillips land in the S. W. quarter of section 43, block 34 and then run across the following property: H. O. Phillips, W. F. Fahrnkamp, I. S. McDowell, J. W. Smith, O. G. Kirkin, C. E. Webb, W. R. Cotter, R. C. Coffee, Edith K. Fisher and W. T. Settles.

### Paving Starts On East Third

The curb along three blocks on East Third Street from Johnson to Austin Streets, was completed last week and paving is to be started at once.

The stretch of Third, between Johnson and Nolan was blocked off Monday and grading this portion is now going forward with paving to follow in rapid order.

It is necessary to detour around this portion of Third St. at Johnson on the West and at Nolan on the East until this paving has been completed.

The three blocks of paving on this street are to be completed just as quickly as possible since this is a portion of our busiest street and highway.

In laying the curb and gutter, the contractors laid 800 cubic feet the first day and 900 cubic feet the second day.

Miss Virginia Thompson who underwent an operation for appendicitis Sunday is reported to be getting along nicely.

### Green Oil to Drill 2 More

The Greene Oil and Refining Co has completed arrangements to drill two additional tests on their eighty acre lease in the southwest quarter of section 127, block 29, W. and N. W. Ry. survey. They are now rigging up their No. 2 well in the southwest corner of this lease. Their No. 3 well is about midway between their No. 1 and No. 2 and will be a deep test.

Marland is rigging up for an offset to Greene No. 1 and Midwest and Dunnigan holding offset acreage will also be compelled to start work soon. The Empire Company owns offset acreage to Greene No. 2.

At a test Monday the Greene No. 1 gauged 153 barrels of oil in eleven hours, thereby proving it is going to be good for more than 300 barrels per day.

Nat Shick and Fred W. Phillips recently sold to William Charles Dunn the popular tourist auto camp, known as the Cathey Camp located one mile west of Big Spring.

### CALL MONEY DROPS TO NORMAL

Call money which jumped to ten per cent Monday, went back to five per cent this morning.

PLANE FATALITIES

Commercial airplanes, operating on regular schedule, covered about 380,000 miles for every death in 1927, members of the American Railway Association were told in Atlantic City the other day. That is a remarkable record.

Seven persons were killed last year in commercial airplane accidents. Six of these were pilots. Planes on fixed schedule flew 2,650,000 miles last year, and light commercial planes covered more than 19,000,000 miles.

The aviation industry has come to a point where the demand for planes exceeds the supply. About 4000 planes will be built this year and twice that many could be sold if they were obtainable.

This gives the railroads a problem. If they do not take up air transportation they face even greater losses than they were forced to take through rival bus operation. The air industry is on its way, and unless the railroads co-operate and use planes, they must suffer.

DISBAR THE SHYSTER LAWYERS

The writer in the Saturday Evening Post, under the heading "Cures for Crime Waves" suggests the disbarment of shyster lawyers. He refers to that class of lawyers who devote their time and talents to getting criminals out of trouble. In many of our cities lawyers are retained by criminals on a stipulated fee to defend them in times of trouble, and they resort to every known subterfuge to defeat justice.

According to the writer of the Post article Charles Francis Coe, organized crime is proving powerful enough to influence government and judiciary officers in many of our cities, and take a toll of \$1,000,000,000 annually from the people, not counting the loss of lives and the cost of maintaining the police forces, other law enforcement officers, and the courts. The very lowest estimate of the total cost exceeds \$6,000,000,000 every year.

These figures have reference to the cost of crime. They do not take into consideration the cost of litigation in civil matters, nor does the writer say anything about the shyster lawyers, some of them posing as leaders in their profession, who practice altogether in our civil courts, or who sit back in their offices and scheme to rob the heirs of some deceased person who has left an attractive estate.

The legal profession is in disrepute throughout the Nation notwithstanding the fact that there are many honest, honorable gentlemen actively engaged in the practice of law. The reputation of the profession will continue to get worse instead of better until these honorable gentlemen come out in the open and stage a real fight for a reform in our court procedure and in our practices, and pass laws that will disbar the shyster and put him in the penitentiary where he belongs. Any system of court procedure which permits a lawyer to delay and drag a case, civil or criminal, through the courts from year to year until the last dollar available has been absorbed, is not a good system.

Citizens who have honest differences, others who have suffered injury in property and have had the rights guaranteed to them by the Constitution and the law ruthlessly trampled upon, fear to defend themselves or seek justice of the excessive cost imposed by our methods of practice and rules of procedure. Indeed, the majority of citizens cannot afford to ask for justice, because the price is beyond their reach.

There is a move on for court and procedure reform in Texas. The next Legislature will have no opportunity to consider a constructive program. Are the men offering for office in your district in favor of reform, or will they stay with the lawyer legislators and defeat it, if elected? Every voter has the opportunity and the right to know how candidates stand on this question.

YES AND NO

A parliamentary candidate in a rural district made the following remark in the course of his address: "There is no question in the world which I cannot answer with just 'Yes' and 'No!'"

An old farm laborer jumped up and said: "Please, maister, might I ask 'e a question?" "Certainly, my good fellow," said the candidate.

"Well, then, maister," said the old farm hand, "what's the time?"

Smokers caused 1,282 fires in the United States during 1926.

We called on a Republican friend last night and found out that his radio has not been in working order since the night Claude Bowers made his keynote speech at Houston.

We hope by the time that airplanes get as numerous as the present day light cars, Big Spring will begin to plan an air field. We are missing much in the way of publicity and money that visiting airmen would spend here by not having a landing field.

The vacillating man is as disgusting as the egotistical one. When you make a stand on a question, know where you stand, and then stand still.—Speed Up.

Could half the world understand the problems of the other half, there would be built a bond of sympathy unbreakable.

The man who is big enough to take orders and has in his heart the spirit of obedience is a sure winner.

The American flag is the second oldest flag in use on earth today.

It is up to the citizens to encourage the officers to see that all laws are enforced. No wide open town is desired.

A petrified forest has been found in the Mojave Desert in California.

THE NEW GOLD RUSH

Beginning with the famous Klondike rush of 1896, when millions of dollars worth of gold was mined, the bright metal was the making of Alaska. The peak year was 1916 when \$48,000,000 worth of minerals was taken from the earth and streams.

Just 10 years later, in 1926, salmon exports from Alaska were valued at \$48,000,000, while mineral production had fallen to \$17,658,000. The salmon has become a "goldfish."

Of course, 1926 was a big year for salmon. In 1927, a normal year, the value of the salmon crop was \$27,000,000. Even at that, however, the salmon is a more valuable asset to Alaska than her mines.

The board of directors of the Chamber of Commerce have gone on record as favoring a bonus of \$10,000 to encourage some one to erect an office building in Big Spring. And now comes a party of citizens willing and ready to start work on a five-story office building just as soon as the bonus is raised. It naturally follows that we should get busy and raise the bonus in jig time if we are half as anxious to secure this office building as we make out that we are. Its a case of put up or shut up about an office building, and we think our citizens should put up.

A 1928 FISH STORY

A Missouri paper tells of two men who soaked a fish worm in made-in-the-barn whiskey, stuck it on a fish hook and cast it into the creek. At once the water was beaten into foam, and the two men began to haul in their catch. Imagine their surprise when they saw the worm with a death grip on the throat of a 6-pound bass, which was nearly choked to death.

You can believe it or not—a "worm will turn."

IMPOSSIBLE

The Scotchman treated the Irish family to a tune on the bagpipe. When he had finished he looked around and remarked with pride. "Eh, man, but that's verra deefficult."

"Difficult, is it?" remarked Pat. "Be jabbers, Oi wish it had been impossible."—London Tit-Bits.

It is well to teach children the meaning of thrift, and to see that they practice it. Such lessons learned in childhood are invaluable. Take them while their minds are plastic—open to receive impressions for good or ill, and nine times out of ten you will have laid the foundation for their permanent success in life.

A man who works hard often gets credit for being a genius. The reason more people do not actually get credit for bright ideas is because so many are unwilling to study and think out a proposition; they shy away from the mental-labor pains with which great ideas are born.—Henry L. Doherty.

The candidate that promises this and that is very much like the office foreman who would pass by a manufacturing plant, take a peep, and then propose to the board of directors that he could step in and eliminate half the machinery and overhead and produce double dividends.

"Every man needs for his own upgirding the thought that if he fails, he imperils not himself alone but many others, and if he conquers, he wins not for himself alone, but also adds strength to other lives as well."—Henry Churchill King.

"The strength of the strong character is very often directly due to the fact that its possessor has only a few guiding principals which he unwaveringly applies to each appropriate situation as it arises."—W. W. Charters.

Refining Company getting things shaped up to build pipe lines to the West Texas oil fields it is easy to guess that the big companies have decided that oil development in West Texas is just getting under good headway.

It's a cinch we are going to have a safe and sane Fourth in Big Spring, and the stay-at-home's will have just about as much enjoyment and a whole lot more money than those who go to other points to celebrate the Glorious Fourth.

You just must drive in all sections of Big Spring if you desire to ascertain just how the old town is spreading out. The growth is a most healthy one, too. At the rate we are now going, we can soon count our population around the 10,000 mark.

Other counties are having soil surveys, industrial surveys and they find it pays. We would like to see Howard county have a survey made etc determine the extent and value of her potash, gypsum, silica, lime rock, clays, glass sand and other mineral deposits.

With the Texas Company and Atlantic A couple of weeks after a man is nominated as candidate for the presidency, he is notified of the honor. You'd think he'd almost find it out for himself in that time.

I have ceased to suspect my neighbor of insincerity for my failures are not attributable to my insincerity, but to my indifference.

The Bible is not an end—it is a means.

The carpenters and mechanics are about the only ones who succeed by knocking you can't compete with them, so boost your town.

Watermelon rinds are going to prove a nuisance and help the flies thrive—from this date until frost unless we take some action.

"Here Comes the Bride"—Modern Version

Drumright Road Petition Signed

The petition praying to Glascock county commissioner's court to construct a road from the South Howard-North Glascock county oil fields west crossing Highway No. 9, the Glacier to Gulf artery, at New Drumright, already has more than the required number of signatures necessary, under the law, for filing.

The northeast Glascock county citizens have been agitating this movement for some time owing to the public demand for a direct road from the oil field to Garden City, the Glascock county seat.

The Big Spring-Garden City highway is four miles west of Highway No. 9 at New Drumright and the new road will run two miles east of the new oil field town, giving the oil field area a good and direct road to Big Spring.

The new road, as petitioned, will run the south section lines of 22, 23, and 24, block 33, Glascock county and will cross the W. R. Settles ranch to the oil fields. Mr. Settles has gone on written notice to the commissioners that he will donate the right of way across his ranch.

This will put the oil field town of New Drumright on an east and west road as well as on the north and south highway.

Texas Man Killed in Okla. Crash

ENID Okla., July 2 (AP).—M. B. Carrol, believed to be from Spearman Texas, was almost instantly killed in an automobile accident near here yesterday.

WARRANTY DEEDS RENDERED

Mr. and Mrs. M. C. Henry sold to C. E. Carter lot 2 in block 12, in McDowell Heights addition.

M. J. Stewart sold to Forsan Townsite Company, all of blocks 1 to 64 inclusive, in the town of Forsan in Howard county—save and except lot 14 in block 29, lot 15 in block 28; lot 22 in block 27, lots 1 and 2 in block 38, and lots 21 and 22 in block 30.

Mrs. W. J. Warren sold to T. R. Hall one acre out of section 46 in block 31, townsite 1 north.

Mr. and Mrs. Fox Strippling sold to A. M. Runyan lot 7 in block 50 in the original town of Big Spring. M. J. Stewart sold to G. T. Hall and A. D. Neal lot 15 in block 28 in the town of Forsan.

AIRPORT SHELTERS OVER 100 PLANES

Since the opening of the Midland Airport February 1 over 100 ships have been sheltered or re-fueled there, Hall DeGarmo, manager, stated yesterday.

All types of planes, from the old Jenny to the tri-motored 14-passenger Fokker monoplane, have been serviced there.

The average of ships per week will be brought up considerably when the national air race entries stop there in September, bringing with them a large number of ships to be exhibited in the airplane show on the coast.—Midland Reporter.

Smith to Tell Committee How To Make Race

National Committee To Listen He Dictates Method of Making the Race

NEW YORK, July 2. (AP)—Governor Alfred Smith was here today for some informal conferences in which he will trash out details of his campaign for the presidency with a few close friends. The first meeting of the national Democratic committee will not be held until July 11, but it is generally believed that before that time the governor will have decided exactly what course he will follow and will merely inform the committee of his decision. These close to the governor say that he intends to decide all important matters relative to the campaign himself and that the national committee will follow his directions rather than act in an advisory capacity.

INJURED MAN IN COMA

William Ross 23 was in his 11th day of unconsciousness at All Saints hospital Saturday.

Ross was shot by House Detective Tom Knight at the Metropolitan hotel after he is alleged to have given Knight a severe beating when Knight was sent to Ross' room to quell a disturbance.—Fl. Worth Press.

This shooting took place during the West Texas Chamber of Commerce Convention at Fort Worth.

MOM'N' POP

Oil Field Man Dies Suddenly

Harry W. Metzger, aged about forty-five years, dropped dead at the Greene Oil and Refining Company, about sixteen miles southeast of Big Spring at 2:45 o'clock Sunday afternoon.

Mr. Metzger who was a 'rigger' for the Greene Oil and Refining Company was seemingly in the best of health Sunday, and his death came as a shock to his friends. He ate a hearty breakfast and dinner on that date, and had asked someone to get him a paper so he could put in the afternoon reading, and as he started to leave the bunkhouse at 2:45 p. m. he fell forward, and was dead when those nearby reached him. Death was due to heart trouble.

Mr. Metzger was born near Wheeling, W. Va., and had been identified with oil field work practically all his life. He was a skilled workman and was held in high esteem by his employers and his fellow workmen.

Funeral services will be conducted at the parlors of the Eberly Undertaking Company at 10 o'clock Tuesday morning by Rev. W. H. Martin, pastor of the Episcopal church and interment will be made in Mt. Olive cemetery.

Deceased is survived by a son, who resides in Wheeling, W. Va., but he was unable to come here for the funeral.

GOOD PROPERTY FOR CITY TO ACQUIRE

A move to have the City Commission purchase the Central Ward school property is now on foot and in our estimation this should prove a wise move for the city.

There are several reasons why the City should acquire this property.

In the first place the county needs additional room for some of the county offices and it has been suggested that the present City Hall be purchased for this purpose.

In the second place the City has need for larger quarters. Take the space devoted to house the fire department it is far too crowded. It is necessary to waste much time getting the equipment out of the building when needed to fight fires. It is only a question of time until we will need fire stations at two or three points in our city.

Then some day we will want a city hall and auditorium which will be a credit to a greater Big Spring and the site of the Central Ward school is the logical location for such a structure.

There is sufficient building material in the Central Ward building, when salvaged, to build the needed fire station for our city; but for the present the building could be used as a City Hall. The city might arrange to let the county have the use of the upper story of the City Hall and retain the lower part for use of one of our fire stations.

The members of the City Commission want the citizens to consider the proposition and if it be the wish of his majority that the City acquire this property.

\$5,000,000 FLEDGED FOR BROADWAY OF AMERICA

EL PASO, Tex., June 30.—The El Paso Chamber of Commerce today pledged \$5,000 to the Broadway of American Highway Ass'n. This is on the work program of the current year and is in addition to a like sum spent by the El Paso organization in organizing the association and carrying it through the early stages of its formation since August, 1927.

"We recognize in the Broadway of America one of the greatest enterprises that touches the South-west. H. L. Birney, president of the El Paso Chamber said in making the pledge.

"We believe that in a short while the Broadway of America will be carrying the bulk of transcontinental traffic from coast to coast, and know that we have made a wise and sound investment in this work." Birney continued.

Plans are rapidly being formed for a concerted drive for memberships in the Broadway of America Association throughout the entire length of the highway. It was stated at the headquarters here today.

H. W. Stanley, manager of the association is making plans to go over the entire highway within the next few days and assist the local directors and Chambers of Commerce in securing the memberships in their cities.

Reagan County's Deep Test

Group One Oil Corporation (Texas Oil and Land Company subsidiary) No. 1-B University in which Reagan County field which at 8,262 feet attained a greater depth than the earth has ever been penetrated before, had drilled to 8,402 feet in black lime. Special heavy six-inch casing is set at 8,200 feet and the open hole is standing up satisfactorily. So long as it remains in good condition drilling will continue, unless production is obtained. Carl Cronwell, superintendent, announced. The well is carrying oil from 8,250 feet, the third day.

Louis Hutto attended the base ball game in San Angelo, yesterday.

Galveston Comp Killed at

DALLAS July 2 (AP).—Goodman 64, and his wife here today when their automobile was struck by an automobile.

Native Texan W. O. W.

Dr. C. J. Koerth, physician of the two military Woodmen of the World Memorial hospital at San Antonio, has been appointed rector of the hospital, succeeding the late Dr. H. Phil Hall.

Announcement was made Koerth's appointment by Commander W. A. Priddy.

The War Memorial hospital is one of the finest medical institutions of its kind in the world, specializing in the treatment of tuberculosis. It is operated by the Woodmen of the World Life Insurance association. It was built in memory of the thousands of members of W. O. W. who served during the World War.

At this modern hospital, on an excellent and beautiful site in San Antonio, affiliated with the Woodmen of the World, given free treatment for tuberculosis and other diseases.

May, 1923, when the hospital opened, over 3,500 patients had been treated and hundreds had been restored to health and usefulness.

Dr. Koerth, who is a Texan, is 32 years of age, a graduate of the Jefferson college of Philadelphia, received his bachelor of science degree from Texas A. & M. college in the medical field, a member of various medical associations, including the American Medical association. He is a member of the Woodmen of the World.

Floral Confections

In the West Indies, where plants are as plentiful as water, floriculture takes the form of all classes. A crown of banana blossom delights the natives, and resident Europeans have been known to express their admiration.

Odd Breakfast Menu

Among breakfast dishes the Romans in the time of moderns we find: A dish of bones, a dozen larks on a silver platter with hot sauce, hens' eggs.

Laws Legal 'Said'

The Great Lakes possess essential characteristics of a decision of the United States Supreme court, October term. It was held that the Great Lakes are in a legal sense a term.

Thin Substance

If spread out, the cortex of a man's brain would cover more than two square feet, and was found to contain 1,200,000,000 cells, weighing altogether less than half an ounce.

No Humor

Probably no one in this old world of tears and laughter has a sense of humor that is as careful as that of the State Journal.

World's Oldest Novel

"Genji Monogatari," by the great woman writer Murasaki Shikibu, is considered the oldest novel in the world. It was completed in 1004 and is one of the classics of Japan.

Mammoth and Elephant

The mammoth of prehistoric times was about the same as the Indian elephant of today, differed in that it had a long, hairy coat and upward-curving tusks.

Wouldn't It?

This country would be a very uncomfortable place if everybody were awake and clear for what he conceived to be rights.—Public Ledger.

Uncle Eben

"You can't believe all you've said Uncle Eben. 'Mighty do' is as good as what do' announcer says."—Washington Star.

Golden Virtues

Remembrance is the reward of life: kindness is the living golden chain that holds us together.—Van Amburgh.

### Italians Try Ocean Flight

ROME, July 4. (AP)—Two Italian airmen are presumed to be speeding westward today in an attempt to make the first non-stop flight from Europe to South America. Captain Arturo Ferrarin and Major Carlo Delprete hoped to reach Pernambuco, Brazil, 4,635 miles from Monticello Field, Italy, soon after dawn tomorrow. If successful, they will break the long distance flight record of 3,900 miles set by Clarence Chamberlin and Charles Levine, last year. The aviators took off late yesterday.

A Stefani dispatch from Gibraltar said the plane flew over the strait of Gibraltar this morning, flying through a heavy fog.

Mr. and Mrs. T. W. Ashley and Mr. and Mrs. J. P. Watkins attended the league ball game in San Angelo yesterday.

### Surveying Starts For Pipe Line

Surveyors are now busy mapping out the route for the pipe line which is to serve the refinery to be built in the western part of the city by Groff, Peterson and others. This line will deliver oil from the Big Spring oil field sixteen miles southeast of Big Spring. Work on pipe line and refinery are to be rushed. A 4000 foot switch is now being built from the Texas and Pacific tracks to the refinery site.

### State Highway Engineers Here

Two engineers of the State highway department are now here to go over State Highway No. 1 and No. 9 in Howard county and prepare an estimate of the amount necessary to convert these two important state and national highways into first class hard surfaced highways.

It is planned to ask for a bond issue to carry out the work which will be approved by the Highway Commission.

### ABBOTT MADE MEMBER OF AERONAUTICAL COMM.

SUPERIOR July 3 (AP). Charles Abbott secretary of the Smithsonian Institute was appointed today by President Coolidge to be a member of the National Advisory Committee for Aeronautics.

## BANKS SHOW INCREASE IN BOTH DEPOSITS AND TOTAL RESOURCES

Deposits Show an Increase of Over \$500,000 Since Statement of February 28th

The condition of the banks are the best indication of the general condition of the section they serve, so it is most evident that the Big Spring country is on the top wave of prosperity. The bank statements as of June 30th in this the dullest season of the year, are the best in their history. A big increase is noted in deposits, cash on hand and total resources.

The deposits of the three banks of Big Spring show an increase of more than \$500,000 over their total in February 28; the cash on hand about \$225,000 more; and the total resources show an increase of more than \$600,000.

The total deposits of the three national banks in Big Spring on June 30th amounted to \$4,050,888.90 cash on hand \$1,223,593.11, and total resources \$4,699,620.15. Here is the way they were divided:

First National Bank: deposits \$1,147,842.36, cash on hand, \$202,127.99, total resources \$1,384,138.62; State National Bank, deposits \$1,334,541.80; cash on hand, \$242,237.67, total resources \$1,536,585.29; West Texas National Bank, deposits \$1,479,911.61 and demand deposits \$88,593.03, cash on hand \$779,227.45 total resources \$1,774,896.24.

### Four Concerns Want Supervise Viaduct Erection

A meeting to decide which party is to be in charge of the construction of the viaduct across the railway tracks on Gregg street is going to be necessary to get things straightened out. The railroad company and the State Highway commission want to be in charge of the construction and the city and county are going to insist on the job being let to the lowest responsible bidder.

### The right way to pop corn

is to put a little in the popper at a time. Then each kernel will pop out fluffy and tender. Hills Bros., by roasting their coffee a few pounds at a time by a patented, continuous process, secure a marvelous, uniform flavor in every pound—a flavor that no other roasting method can equal.

### HILLS BROS COFFEE

### Paint your walls for lasting beauty

Walls painted with LOWE BROTHERS MELLOTONE, an oil paint that dries without lustre, are lastingly beautiful. Their original beauty can easily and quickly be restored with soap and water or Lowe Brothers Cleaner. Mellotone comes in all the popular shades and tints.

FREE—"The Art of Color in the Home," a new book containing a chart from which hundreds of color combinations can be chosen. Come in and get a copy.

Burton-Lingo Co. Big Spring, Texas

### Western Union Puts in Automatic Machine

Puts Big Spring in Class With Larger Cities and Increases Efficiency of Service

Step by step Big Spring continues its advancement towards the big city class.

The latest move in this direction is contained in an announcement made by members of the Western Union that the Telegraph Company is planning to install an automatic receiver in the local office. This type of equipment is only used in the larger offices where the traffic over the wires is such as to demand the ticker type of receiver.

This automatic machine simplifies the sending and receiving of messages and is also more accurate in the reception. The sending machine has a keyboard similar to a typewriter and the operator merely hits the proper keys and the machine sends the letter corresponding to the key pressed. The message can be sent at a very rapid rate, many times the speed of the key system.

The receiver gets the impulses from the transmitter and prints them on a continuous tape, without any attention from an operator and when the message is completed an office employee cuts the paper tape and pastes it on a regular telegram blank. However should the operator not be free to clip the tape at the time the message is finished, this will not interfere in any way whatever as the next message will continue to come and the tape will continue to pass from the machine. The employee may then clip the tape between each message and put them on separate blanks. This system lessens the chances for mistakes.

### Schedule West Texas League

The Big Spring team of the West Texas League will play 21 games at home between now and the close of the season, according to the present schedule. The first of these games will be July 9, 10 and 11 when they play Abilene here.

They will play in San Angelo today and tomorrow going from there to Midland for three games before returning here for the series with Abilene.

The Big Spring team will meet the following West Texas League teams at Big Spring during the balance of the season:

Abilene on July 9, 10, and 11. Midland on July 12, 13 and 14. Coleman on July 15, 16 and 17. San Angelo on July 21, 22 and 23. Lubbock on July 30, 31 and Aug. 1st.

Midland on Aug. 5, 6 and 7th. Coleman on Aug. 8, 9 and 10th. Abilene on Aug. 11, 12 and 13th.

The Big Spring team plays the following teams out of town on the dates named:

At San Angelo July 4 and 5th. At Midland July 6, 7 and 8. At Coleman July 18, 19 and 20. At Abilene on July 24, 25 and 26. At Coleman on July 27, 28 and 29. At San Angelo on August 2, 3 and 4.

At Midland on August 14, 15 and 16.

At Lubbock on Aug. 17 18 and 19. Now that this city is in the West Texas League, Big Spring folks ought to loyally back the home team. The first league games to be played on the home grounds will be with the Abilene team on Monday, Tuesday and Wednesday, July 9, 10, and 11.

### Narrowly Escapes Serious Injury

Malcolm Patterson, son of Mr. and Mrs. L. S. Patterson who was painfully injured Monday afternoon is now getting along nicely. Malcolm was working with the construction crew putting in the automatic block system on the T. and P. railway company and his leg was caught between two of the three ton concrete base blocks while one was being raised by a crane. At first it was feared the leg was broken but later it was ascertained that he suffered a severely bruised leg.

### Many to Witness San Angelo Game

A dozen or more fans accompanied the Big Spring team to San Angelo this morning to see them in action against San Angelo at 3:30 o'clock this afternoon.

They play at Angelo Thursday afternoon at 5 p. m. and the game will be broadcast play by play over the San Angelo broadcasting station.

## The Most Important Announcement Of the Season

Following the Acorn Stores' Policy of Never Carrying Over Season'sandise, From One Season to Another, Beginning Saturday, July 1, select your choice of our entire stock of Ladies' and Children's Ready-to-Wear and Millinery at 25 per cent off the regular prices.

This is an opportunity that comes only twice a year, and it will while to make the most of it. When you remember that the Regular, Everyday Prices, are as low, and in many cases lower, than called, Sale Prices, you can appreciate the importance of this event.

We never mark our merchandise up at the beginning of a season able to offer you absurd reductions later. You will find 25 per cent Acorn Store, will mean Bigger Savings to you than one-half price where. Remember, the merchandise offered you is our Regular Acorn Quality, not job merchandise bought especially for sales purposes.

This event comes at a most opportune time, just when you are things for Vacation Wear. By supplying your wants at the Acorn Store, you will have more to spend on your Vacation. Just glance at these

### If you are looking for mileage, the name is COCO

MOST gasolines look alike; but there is a vast difference in their actions. Right now you are probably most interested in the gasoline which will deliver maximum mileage... and it's easy to get it. Just look for the pumps that display the familiar Continental Soldier trademark. These pumps are the extra miles dispensers. They are the power houses for motorists who want to reduce motoring costs. If you want extra miles, you want Conoco.

### Dallas Man Dies In Gas Explosion

DALLAS July 3 (AP).—George Braley 26, one of three men injured in a gas explosion at a service station here last night, died today without regaining consciousness.

Police and federal officers are making an investigation into the cause to determine whether last night's explosion has any connection with the recent destructive acts when in one day more than fifty filling stations were damaged through the breaking of glass casings on oil pumps.

Herald want ads get results.—use them.

### Democrats Said More Than GOP

HOUSTON July 3 (AP).—During the Democratic convention here approximately 8,620,000 words of press matter was sent by wire from the two telegaph stations in Sam Houston Hall, a check made by officials showed here today. This exceeded the news handled by companies in Kansas City by more than 500,000 words it was said.

Mr. and Mrs. E. E. Fahrkamp attended the ball game in San Angelo, yesterday, between San Angelo and Big Spring league teams.

H. L. Fogleman Talks Success At Club Lunch

Joint Meeting of Luncheon and Rotary Clubs Hear Splendid Talk of Expert

Mr. Fogleman, who is one of the outstanding men of his profession in Texas, said "You have the prospects of a great oil field here and I believe that it will develop into one soon, but whether the most of the play will be for the deep or shallow pay I do not know."

He was accompanied by S. A. Judson, geologist. Paul C. Murphy is general manager of the concern.

According to information reaching this city, the father and mother had gone to the field to work and had left the children asleep on the bed, with an old man to watch them.

The funeral services were conducted Saturday morning the remains being buried in the Mexican cemetery.

Big Spring will build a 12-inch water main from the reservoir to the residential section on the south side according to an announcement by W. V. Montin, city manager.

This construction is along the lines recommended by Major Hawley for the Big Spring water system. It will serve a dual purpose to the residents of the city.

Work on the new main will start as soon as the pipe arrives and is expected to be completed about the first of August Montin said.

J. A. Kinard has just returned here from Waco, where he has been with the weights and measures division of the Department of Agriculture of Texas.

Howard County will likely have a Home Demonstration agent and a County Agent this fall. A petition containing names of 135 farmers and 95 merchants was presented to the Court in Big Spring on Monday afternoon.

Noted Geologist Says Local Field Has Good Future

F. Julius Fohs, the geologist who made the location for Humphries that discovered the Mexia field, that refused to state what plans he had or the purpose of his trip here.

Mr. Fohs, who is one of the outstanding men of his profession in Texas, said "You have the prospects of a great oil field here and I believe that it will develop into one soon, but whether the most of the play will be for the deep or shallow pay I do not know."

SYRACUSE, N. Y., July 3. (AP)—One man was burned to death and eight storage tanks, containing 100,000 gallons of gasoline and 10,000 gallons of high grade oil were destroyed today, when a spectacular fire followed an explosion on the Sun Oil Company property here.

Howard Is To Vote Bonds For Highway Work

Highway Number 9 and Some Lateral Roads to be Surfaced

A bond election is rumored to be called in Howard county at an early date for the voting on a bond issue to pave forty three miles of State Highway No. 9 which traverses the county from northwest to southeast and a series of lateral roads in the county.

Engineers from the State Highway Department are to survey this highway and make an estimate of the cost thereof.

It is believed the bond issue will be voted for the county has made too great progress in the past year to fall short of seizing upon any opportunity that will bring about continued developments and our county is so situated as to appreciate the value of paved highways.

Then too most of our folks are satisfied that State Bond issue to build a connected system of permanent highways and the gasoline tax to pay off the bond issue and the issues heretofore made by the counties is going to be assured, so we are merely securing our permanent highway a year or two ahead of the less progressive counties.

Stage Strikes Culvert, Hurts?

What came very near being a serious accident was narrowly averted Friday afternoon late when one of the big stage motor buses was forced into a ditch near the Shady Rest Filling Station in the west part of the city.

According to accounts of some of the passengers, the driver was attempting to pass a car and was sounding his horn to pass when the car swerved out towards the center of the highway. The driver was either forced to hit the car, he said, or run into the ditch. He turned into the ditch in order to avoid the collision and cleared the highway with the front wheels, but the rear wheels struck the abutment of a concrete culvert and torn the rear axle and wheel entirely from the bus.

The jar and impact when the rear axle was torn out caused some of the passengers to get severe bruises and cuts. The two passengers who were injured the most were a man, who suffered a cut on his neck, and a woman who was badly bruised. None of the names were obtained.

Big Spring May Obtain Needed Office Bldg.

Offer of Bonus for the Desired Structure Interests Men Who May Build

According to an announcement from Secretary C. T. Watson, of the Chamber of Commerce, two men are here now ready to build Big Spring an office building.

The offer hinges, he said, on the recent decision of the directors of the Chamber of Commerce to offer a bonus of \$10,000 for the erection of an office building here. The prospective builders announce that they are ready to start the structure and put up a five-story building with the foundation built so that two more stories may be added, if the local conditions demand.

Farmers Gin to Soon be Ready

Four well located lots have been purchased machinery will be purchased in Dallas next Thursday, and actual construction work on the Farmers Gin Co.'s modern gin plant will soon be underway.

The four lots are in the north part of the city, near the corner of Pine and Houston Streets, about two blocks west and one block north of the Southern Ice and Utilities Co. big ice plant.

All the money will be paid in next Wednesday and the equipment for a five stand 80 saw gin will be purchased. This plant will be motorized throughout and the most modern gin machinery which can be purchased will be installed.

This gin is a cooperative proposition throughout and should have a most successful career. Chas. H. Gordon who has been manager of the Gultar gin here the past two years or more has been secured to manage the new gin for the Farmers' Gin Company.

TUNNEY TRAINING HARD FOR BATTLE WITH HEENEY

SPECTACULAR, N. Y., July 3. (AP)—Apparently in top form, Gene Tunney yesterday put in the best workout thus far of his training preparations for a heavyweight title match against Tom Heenev, New Zealand challenger, at New York, July 26.

Tunney extended his ring sparring to six rounds, three each with Harold Mays, heavyweight, and Bill Vidabeck, a 175 pounder. The champion was in great shape. He has dispensed with the services of two welterweights brought here to speed up his footwork.

Tunney also punched the light bag for two rounds and the heavy bag for two rounds. In the morning he got in eight miles of roadwork. After the day's grind the champion sealed 195, close to what he expects to weigh when he battles Heenev.

Smith Delivers Patriotic Address NEW YORK July 4th (AP). Governor Smith Democratic nominee for the presidency, delivered a patriotic address at Tammany Hall today at 129th annual Independence Day celebration of the Society of Tammany. When the Governor mentioned his nomination, the crowd jumped to its feet and gave him a long ovation. The speech was purely patriotic and a good part of it was spent in the defense of the Society of Tammany.

Notice to the public SUPPOSE you are today paying 50c a tube for your tooth paste (and there are many very good dentifrices selling today at that price).

Suppose, like most people, you buy about twelve tubes during a year. Now if you knew that you could buy as good a dentifrice as can be made and still save each year the price of 25 loaves of bread or 60 bars of soap or 40 pounds of sugar or a box of fine cigars—could you conscientiously fail to take advantage of such an opportunity?

That is exactly what you do when you buy Listerine Tooth Paste at 25c for a large tube. Figure it out for yourself. LISTERINE TOOTH PASTE Large Tube 25c

OAKLAND, Calif. July 4.—The girl Hickman is the title police here have bestowed on Miss Erna Janoschek, 17-year-old high school girl who is being held on charges of first degree murder.

Erna a rather pretty, intelligent, young flapper, strangled to death a year-old baby, Diane Lillencrentz, for whose parents Erna worked as a maid and nurse. She told about it with flip unconcern.

"I strangled the baby because I felt her mother wasn't supporting me in managing her other child, and because I felt they were working me too hard."

"At this point the girl interrupted her explanation to laugh.

"I have to laugh when the impulse comes over me," she said. "When things like this happen I have to laugh."

Which remarks help to explain why the police call her "the girl Hickman."

Some criminologists here see an amazing similarity between Erna and the young Los Angeles murderer.

Neither in looks nor psychological makeup does either one bear any outward sign of abnormality or degeneracy. Both were bright students in school, apparently desiring to do creative things—Erna's room contained scraps of poetry she had scribbled. Each surrendered abruptly to the impulse to kill, and displayed no remorse or grief afterward.

Dr. and Mrs. Guy Lillencrentz, for whom Erna worked, had gone to San Francisco where the young doctor a recent medical college graduate, is a hospital interne. While they were gone Erna calmly called up the police to tell them to tell them she had killed the baby.

"I'd rather face the police than Mrs. Lillencrentz," she explained.

She told how she brooded alone in the house with baby Diana and little Francora, aged 3, over her supposed overwork. Suddenly came the impulse to kill. She did not harm Francora; she was fond of the child. Instead she seized the smaller child from the crib, wrapped a towel about its neck and killed it. Then she summoned the police.

At the police station she told of having had the impulse to kill other children who had been left in her care. Always before she said, she had overcome it.

She insists however, that a desire to be revenged in Mrs. Lillencrentz was her sole motive in this crime.

### Trade Trips are Being Planned

The trade extension committee is making plans now for several trade trips to be made this summer.

The committee plans to arrange several of these trips through the adjoining territory into the rural communities and towns in the Big Spring trade territory. The trips will be made during the summer months with enough time in between the trips that they will give the ones making the trips an opportunity to recover from one trip before making another one.

As soon as all of the details have been worked out by the committee, a complete schedule will be published.

Subscribe for the Daily Herald.

### BUILD REFINERY AT BIG SPRING

Groff & Peterson Contract Oil From Merrick and Bristow

A new outlet for the oil field in southeastern Howard county is to be provided in a refinery to be erected two and one half miles west of Big Spring by Charles R. Groff and William Peterson of Dallas. Material is being assembled and construction of the plant, which will have a capacity of 5,000 barrels daily will be begun early in July.

Groff and Peterson have contracted with Merrick and Bristow for crude to supply the refinery, and a 4 inch line will be laid to the refinery from the field about sixteen miles southeast of here. Merrick and Bristow have five producers on their Hooks lease and one each on the Roberts and Clay tracts that make a total of around 2,200 barrels daily.—San Angelo Standard.

### DID YOU EVER STOP TO THINK?

By EDSON R. WAITE Shawnee, Oklahoma

Joseph Huckins, Jr., of Oklahoma City, president of the Huckins Hotel Company, and one of the leading hotel men of America, says:

THAT THE "SEE AMERICA FIRST" movement is of utmost importance to every American. He owes it to himself as an educational factor, to his state and to his country to be able to converse intelligently on America and its wonderful places of beauty in north, east, south and west.

Particularly is it of importance to the masses of American people, and no traveler should visit abroad who cannot boast of a knowledge of the beauties of his own country.

Think what America has to offer! Of course the National Parks of the great northwest have taken their rightful place as the scenic keystone of the United States. Areas upon areas of spectacular, colorful scenery that both charm and astound, await the visitor.

California with its wealth of its beauty and variety in mountains and canyons alluring and enchants people. Utah holds many scenic marvels in mountains and canyons. The eastern coast and the northern lakes are, of course, well known for their beauty.

Our own Oklahoma offers many picturesque spots of interest. The Kiamichi Mountains near Poteau, the Arbuckles, Turner Falls, Mt. Scott across Lake Lawtonka in Comanche county, Pennington creek with its banks of channeled rock, located near Tishomingo, have not failed to enrapture the visitor. Masterpieces of granite mystery hold a peculiar interest for every lover of natural beauty. And then the Ozarks near Miami hold much interest to the tourist. The ruins of Old Fort Washita in Bryan county are of much historic appeal, as are many of the old Indian fortresses, located in and about Muskogee.

Know your own state and country first, then travel abroad.

Mr. and Mrs. R. L. Evans are spending a few days in San Antonio.

### Comm. May Build Drumright Road

A petition is being circulated by some of the citizens of Northeast Glasscock county, according to reports received here today, asking the Commissioners Court of Glasscock county to open a highway from the oil fields west crossing the Big Spring-San Angelo Highway No. 9 at New Drumright and extending west from New Drumright five miles to the Garden City highway.

Glasscock county will have a big increase in the assessed valuation in the northeast part of the county on account of the oil development. "It is our intention," said Commissioner Childress, "to give the oil men and the public a good road from the oil field west to Highway No. 9 and across to the Garden City highway. There is a big demand for it now," he said.

### COTTON LETTER

NEW ORLEANS, La., June 28.

The cotton market experienced a considerable advance during the past week due to a continuation of unsettled weather in the cotton belt unfavorable growing conditions and evidence of increasing weevil activity. Although the government weekly crop review, for week ended June 26, was construed as being favorable than otherwise, it had very little effect on the market other than causing a slight decline which was soon regained, due to the fact that the secretary of agriculture has lessened the value of these reviews by prohibiting the inclusion in them of any mention of weevil activity. In addition to this, private crop reports do not indicate that conditions are as favorable as the government review reported, while the cool showery weather which has prevailed over almost the entire cotton region leads to the conclusion that the weather was favorable for weevil in every state in the belt, and not only in Louisiana and Oklahoma as stated by the government.

### FOSTER'S WEATHER

WASHINGTON, June 30.

July crop weather will be the most important of this season and will average a generally favorable crop-weather month. After the expected cool and wet period June 28 to July 6, Jupiter will change his influence from that of cool and wet to that which will cause periods of moderately hot and dry weather. Average rainfall of northern hemisphere was expected to decrease after June 25, but this decrease will hardly be noticeable until moderate storm wave expected to center on July 5 has passed. Temperature changes during July are not expected to be severe nor of unusually great departures from normal, but will go to greater extremes above than below normal, causing month to average a little above normal temperatures for the continent. Principal rainfall of July will occur in eastern half of continent and mostly during first half of month. Principal decrease in rainfall will be expected on northern slopes and just east of Rockies. July often brings severe hail and frost damage to northern fields—I expect July 1928 to be unusually free from killing frosts in Canada, but that some hail and high winds will be probable near 4 and 11 in western and near 12 and 25 in eastern part of section No. 1, which includes the Prairie Provinces. Coolest weeks of month will be expected to center on 4 and 24; warmest weeks centering on 10 and 19. Moderate storms will center on 18 and 24. Storms centering on 5 and 11 will cause most severe weather and the most precipitation of month in cotton belt, moving fairly well to the south; these two storm waves are expected to cause dangerous storms in central south Europe and severe cold wave in Argentina. The Warm waves during mid-July are expected to be very favorable to insect breeding and growth, especially in central and eastern part of continent, Great Lakes to Gulf of Mexico.

Forecast for western belt is for partly cloudy to unsettled weather with thundershowers in Arkansas, Oklahoma and northwest Texas, for eastern belt, partly cloudy with showers in all states.

Two private estimates released to day made condition of growing crop 68.7 per cent of normal against 70.0 per cent a month ago and 76.7 last year, figured on a basis of a 5 per cent in acreage, the other making condition 65.2 per cent against 76.1 last year and 68.8 a month ago estimating increase in acreage at 9 per cent and the crop at 13,365,000 bales.

Heaters weevil statistics were moderately bullish but no importance was attached to them, as statistics are not being given much consideration at present due to the very unfavorable condition of the growing cotton crop.

### PROGRESS OF COTTON CROP

Dallas News says: Progress of the Texas cotton crop has been considerably retarded last week with practically all north, northeast and east reporting excessive rain and grassy fields. Farmers unable to work fields, weevils and other insects spreading. Large areas have been visited by destructive hail. The lateness of the crop holds some elements of danger later in the season. Those areas which two weeks ago had heavy rain are now suffering from high winds, which in some counties are reported as being hot and causing wilting of the plants and shedding fruit. The official report of weevil infestation shows increased infestation in several south and central Texas counties. More rain in areas which now suffer from excessive moisture may bring critical condition shortly. All northeast Texas reports condition poor as do thirteen northwest counties. Northeast last week had an average of 4.42 inches of rain for stations reporting which has put many fields under water.

### WEATHER FORECAST

Louisiana—Generally fair to night, partly cloudy Saturday, continued warm. Arkansas—Partly cloudy to unsettled with scattered thundershowers in north portion. Oklahoma—Unsettled, possibly thundershowers. East Texas—Part cloudy, warm. West Texas—Partly cloudy, scattered showers in north portion.

### COTTON REPORT

Compared with last year, stock on shiboard yesterday was, at Galveston 39,000 vs. 50,000, at New Orleans 17,000 vs. 26,000, at Houston 28,000 vs. 20,000. Southern spots yesterday were 11 to 55 up, at Texas points 35 to 40 up. Sales all told were 11,356 against 10,761 Wednesday, and 6,643 last year. Weather, weevil, private condition estimates, weekly statistics, etc., to be received with today.

### COTTON OPINIONS

S. B. Chapin—The market has had such a big advance lately, it is now subject to sharp reactions of a profit taking or technical character, especially when the present rainy weather in most sections of the belt gives way to settled clear conditions. Williams and Travers—We feel that the advance of nearly \$13 per bale in less than three weeks has gone a long way toward discounting the unfavorable production outlook and that purchases should be confined to easy periods. Hubbard Bros.—After the sharp advance this week a good reaction is in order especially as there will naturally be some realizing before the holidays. Wade Bros.—While further reactions may be looked for, prefer buying side on all dips. Hirsch Lillenthal—We believe higher prices are more than probable and should be bought on declines. HB

### SETTING 10 IN. CASING

IN C. D. READ NO. 1 Setting ten inch casing in the Laurel Oil Company's C. D. Read No. 1 on the C. D. Read ranch six miles north of Clahoma, is in progress today. This test is now down to a depth of 2070 where the line

## Mrs. Wilmans Not Charges Filed To Support Al In Car Accident

DALLAS, July 2. (AP)—In a signed statement here today, Mrs. Edith Wilmans, Dallas candidate for governor, declared that she would not support Governor Smith, the Democratic nominee for president. She is against the New Yorkers' stand on prohibition.

### FOSTER'S WEATHER

July often brings severe hail and frost damage to northern fields—I expect July 1928 to be unusually free from killing frosts in Canada, but that some hail and high winds will be probable near 4 and 11 in western and near 12 and 25 in eastern part of section No. 1, which includes the Prairie Provinces. Coolest weeks of month will be expected to center on 4 and 24; warmest weeks centering on 10 and 19. Moderate storms will center on 18 and 24. Storms centering on 5 and 11 will cause most severe weather and the most precipitation of month in cotton belt, moving fairly well to the south; these two storm waves are expected to cause dangerous storms in central south Europe and severe cold wave in Argentina. The Warm waves during mid-July are expected to be very favorable to insect breeding and growth, especially in central and eastern part of continent, Great Lakes to Gulf of Mexico.

Forecast for western belt is for partly cloudy to unsettled weather with thundershowers in Arkansas, Oklahoma and northwest Texas, for eastern belt, partly cloudy with showers in all states.

Two private estimates released to day made condition of growing crop 68.7 per cent of normal against 70.0 per cent a month ago and 76.7 last year, figured on a basis of a 5 per cent in acreage, the other making condition 65.2 per cent against 76.1 last year and 68.8 a month ago estimating increase in acreage at 9 per cent and the crop at 13,365,000 bales.

Heaters weevil statistics were moderately bullish but no importance was attached to them, as statistics are not being given much consideration at present due to the very unfavorable condition of the growing cotton crop.

### PROGRESS OF COTTON CROP

Dallas News says: Progress of the Texas cotton crop has been considerably retarded last week with practically all north, northeast and east reporting excessive rain and grassy fields. Farmers unable to work fields, weevils and other insects spreading. Large areas have been visited by destructive hail. The lateness of the crop holds some elements of danger later in the season. Those areas which two weeks ago had heavy rain are now suffering from high winds, which in some counties are reported as being hot and causing wilting of the plants and shedding fruit. The official report of weevil infestation shows increased infestation in several south and central Texas counties. More rain in areas which now suffer from excessive moisture may bring critical condition shortly. All northeast Texas reports condition poor as do thirteen northwest counties. Northeast last week had an average of 4.42 inches of rain for stations reporting which has put many fields under water.

### WEATHER FORECAST

Louisiana—Generally fair to night, partly cloudy Saturday, continued warm. Arkansas—Partly cloudy to unsettled with scattered thundershowers in north portion. Oklahoma—Unsettled, possibly thundershowers. East Texas—Part cloudy, warm. West Texas—Partly cloudy, scattered showers in north portion.

### COTTON REPORT

Compared with last year, stock on shiboard yesterday was, at Galveston 39,000 vs. 50,000, at New Orleans 17,000 vs. 26,000, at Houston 28,000 vs. 20,000. Southern spots yesterday were 11 to 55 up, at Texas points 35 to 40 up. Sales all told were 11,356 against 10,761 Wednesday, and 6,643 last year. Weather, weevil, private condition estimates, weekly statistics, etc., to be received with today.

### COTTON OPINIONS

S. B. Chapin—The market has had such a big advance lately, it is now subject to sharp reactions of a profit taking or technical character, especially when the present rainy weather in most sections of the belt gives way to settled clear conditions. Williams and Travers—We feel that the advance of nearly \$13 per bale in less than three weeks has gone a long way toward discounting the unfavorable production outlook and that purchases should be confined to easy periods. Hubbard Bros.—After the sharp advance this week a good reaction is in order especially as there will naturally be some realizing before the holidays. Wade Bros.—While further reactions may be looked for, prefer buying side on all dips. Hirsch Lillenthal—We believe higher prices are more than probable and should be bought on declines. HB

## Mrs. Wilmans Not Charges Filed To Support Al In Car Accident

DALLAS, July 2. (AP)—In a signed statement here today, Mrs. Edith Wilmans, Dallas candidate for governor, declared that she would not support Governor Smith, the Democratic nominee for president. She is against the New Yorkers' stand on prohibition.

### FOSTER'S WEATHER

WASHINGTON, June 30.

July crop weather will be the most important of this season and will average a generally favorable crop-weather month. After the expected cool and wet period June 28 to July 6, Jupiter will change his influence from that of cool and wet to that which will cause periods of moderately hot and dry weather. Average rainfall of northern hemisphere was expected to decrease after June 25, but this decrease will hardly be noticeable until moderate storm wave expected to center on July 5 has passed. Temperature changes during July are not expected to be severe nor of unusually great departures from normal, but will go to greater extremes above than below normal, causing month to average a little above normal temperatures for the continent. Principal rainfall of July will occur in eastern half of continent and mostly during first half of month. Principal decrease in rainfall will be expected on northern slopes and just east of Rockies. July often brings severe hail and frost damage to northern fields—I expect July 1928 to be unusually free from killing frosts in Canada, but that some hail and high winds will be probable near 4 and 11 in western and near 12 and 25 in eastern part of section No. 1, which includes the Prairie Provinces. Coolest weeks of month will be expected to center on 4 and 24; warmest weeks centering on 10 and 19. Moderate storms will center on 18 and 24. ### WINTER DAIRYING IN THE SOUTH

Cold weather in the Northern dairy sections reduces production even though farmers and dairymen have made large investments in order to keep their cows in comfort. In addition to expensive barns, they are forced to use expensive feeds, for there are no pastures. Low production results in advanced prices.

In the South the hot summer months and insect pests reduce production, but the high yields in Northern sections keep prices down during that period. Conditions are almost reversed in the two sections of the country. In the South it is possible to have pastures during most of the winter. While shelter from occasional north winds and cold rains is essential, such shelter can be constructed for a trifle as compared with the cost of the big barns in the North. In Northern sections the esilo is used to store succulent feed for winter months. In the South a well-filled silo would be valuable during our hottest periods when pastures are dry.

The cow produces best during seasons when it is neither too hot nor too cold, and this has suggested to many the possibilities of winter dairying in the south. Breeding of course, cannot be arbitrarily controlled. Yet specialists believe that if more attention were paid to it, a much larger number of cows, could be caused to freshen in late fall months in the South, thus increasing production during the months when there is low production in the larger dairy sections. By developing winter dairying in the South, Southern dairymen and farmers who keep cows as a side line would get into the market during the season of high prices.

### "Inside" Information

Don't wrap ice in a paper or cloth blanket. It is true that you will save ice by so doing, but you will not save food. In order to reduce the temperature in the refrigerator, the ice must melt.

The Big Spring Insurance Agency is now located in their new space in the upstairs of the West Texas National Bank Building, in Room 6.

The bit is pounding away. By the time you read this we will be about 3375. We are getting near—it means only a few days of work and we will be down to the big pay that was found in the General Oil Company's well No. 4. If Bob Helms is correct; and he believes he is, we are bound to get an oil well when we reach the 3782 foot depth.

The log of our well is checking right in line only a little higher. Bob feels there is not a doubt he is going to penetrate the big pay when the above depth is reached.

It has been a hard struggle for a small company—but we are putting it over in a big way.

The World Oil Company, 1 1-4 miles northeast of us are drilling at about 500 feet—this gives us a double play.

The Major Companies are paying from \$25 to \$45 an acre for leases around us. Six months ago they wouldn't have them at any price—they are buying on what we have shown them in our well.

We need your financial support—we are in position to give you the biggest run for your money you ever had. Why not place your money with the people who are doing something and who have the best chance in the world to make you some big money on a small investment. We believe we have one of the best speculations in West Texas—we can convince you of this if you will phone us and give us an opportunity.

It's less than an hours drive to our well—drive out and look it over. It won't be long now—you will have to hurry.

### Highway Men to Be Here Soon

Secretary C. T. Watson has received a letter from Bib Gilcrest of the State Highway Department stating that Messrs. Early and Van London of Abilene will be in Big Spring soon to make an estimate on the paving of the Bankhead and No. 9 highways. Their estimate, he writes, will be forwarded to him and checked over and the final estimate forwarded here for the bond issue.

A survey of the highways will be made by an engineering party of the State Highway Department, who are now in Winkler county.

### KING CHEVROLET COMPANY DOES BIG JUNE BUSINESS

The King Chevrolet Company now located in their handsome new home at the corner of East Third and Johnson street, handled the biggest business in their history, during the month of June, according to L. B. Dempsey, sales manager. 45 new cars were retailed during the month, and 40 second-hand cars were sold. It was necessary for the Chevrolet sales force to bring cars from distant points, in order to make prompt deliveries on same. Cars were driven here from Hamlin, Lubbock, Midland, Post, and other points on the plains, and delivered to Chevrolet customers in this city. May was also a banner month for the King Chevrolet Company.

The local Chevrolet dealers lead practically every town in West Texas in the sales for the month. They did more business, than Sweetwater and Colorado agencies combined, and even lead San Angelo and Abilene, in the sale of Chevrolet cars during the month of May.

The Chevrolet Company is enjoying a good business and they strive always to please every customer.

### NEGRO JOY-RIDERS WRECKED

An auto party found two negro men and three negro women pinned beneath an overturned Ford, between here and Coahoma, late Sunday afternoon and after digging the five out of the wreck brought them to the Big Spring hospital to have their injuries treated. One of the negro men said, "he jes' knew he was dead until he could hear himself talkin'." Their injuries proved to be slight and they were sent to their home. They could not account for their plight other than that a Chrysler car had hit their Ford and turned it over. They said the "Chrysler didn't even hesitate after hitting them."

### 600 Type Engines Are Now in Use

The large 600 type of Texas and Pacific engines are now in use in hauling the oil trains from the Winkler field and trains of one hundred cars are to be noted. About four oil trains per day are now transporting oil from the West Texas fields.

### Paving on West Third to Start

The work of construction curb and gutters along West Third St. as the preliminary step in a paving program, was started today. Third street paving is the first to be completed on the thirty to forty block paving program now getting underway.

### HOWARD COUNTY PROBATE HEARING SET FOR JULY 18TH

AUSTIN Texas July 2.—A request by operators that the Howard county oil fields be placed under state proration and conservation rules similar to those in Winkler and Pecos counties will be heard by the railroad commission July 16, it was announced today.

Proponents presumably will plead waste and over production as grounds for state intervention.

### LAMESA CLUB BOY IS HERE TO GREET WATSON

Leon Ranson of Lamesa is here today enroute home from Washington D. C. where he has been on a trip proffered two club boys of Texas. Leon was formerly a club member under the guidance of C. T. Watson and was a member of the team from Lamesa that won both the stock and grain judging at the A. and M. College on year. Young Ranson also had the distinction of winning a trip to Chicago.

### F. B. METCALF HERE IN INTEREST OF CAMPAIGN

Penrose B. Metcalf is in Big Spring today working in the interest of his campaign for State Representative of the 91st district. Metcalf, a prominent ranchman of San Angelo. He says, incidentally, that his golf is suffering because of the more pressing business of the campaign.

### HOUSTON July 3 (AP). —A. H. Drew, 25, of Houston was killed today when an automobile he was driving crashed into a concrete bridge on the Baytown road. T. F. Stone, his companion, was badly hurt.

**UNCLE SAM IN GOOD SHAPE FINANCIALLY**

WASHINGTON, July 1. — Announcing a surplus of \$398,000,000, a public debt reduction of over \$900,000,000 and a tax cut of over \$250,000,000, Secretary Mellon today declared that the fiscal year which closed Saturday at midnight "has witnessed a further improvement in the financial position of the Government."

**GHOLSON WELL BELOW 4,225 FEET**

Last report from the Midland county test, Gholson-Disney No. 1 Morelan, was that a depth of 4,225 feet had been passed with the hole still holding up fine. No water had been encountered and there is a strong belief that there is still a chance of picking up the lime.

**SAN ANTONIO, July 3 (AP). —** Francisco Castillo 30, died here today in a hospital shortly after police found him in a vacant lot with a bullet through his head. A pistol lay beside him.

**SEES METEOR FALL NORTH OF BIG LAKE**

Saturday afternoon while on his way to town from his ranch J. A. Queen saw a meteor or something of that nature fall. It appeared like a large ball of fire and the tail, some thirty to fifty feet in length, appeared as a blue flame. This occurred during the very warm part of the afternoon and he and a friend with him had ample time to follow its course until it struck the ground just over the hill east of the road. Mr. Queen signified his intention of making an investigation to see just what he could find but made no further report to the Wildcat.

The Wildcat hopes that the object may be found and that further and more interesting account may be given next week. —Big Lake Wildcat.

**DENTAL FIRM SECURES TRAINED DENTAL ASST**

Drs. Ellington and Hardy have secured Miss Marie Schor of Chicago as their dental assistant. Miss Schor is a graduate nurse having finished her course in Berlin, and has had three years in a dental college in Berlin. She has also had one year's course in pharmacy and is well qualified in every respect to hold the position she has secured in our city. She has also served as dental assistant to some of the leading dentists in America and Europe.

**GETTING READY FOR REFINERY**

A grade for the 2500 foot switch to the oil refinery site in the western part of the city has been completed and track laying is to start at once.

C. R. Groff, R. S. Peterson and others interested in the refinery expect to have machinery and equipment rolling towards Big Spring in short order.
