Says Overproduction Of Oil Problem To Narrow

CLEVELAND, March 31. (UP)-Present plans to solve the problem of overproduction of crude oil and prospects of expanding the demand for petroleum products over years ahead give promise to the outlook for the oil industry, W. T. Holliday, president of the Standard Oil company of Ohio, said today in his an-

The outstanding economic symptom of the industry for the past few years has been steady, narrowing margins between the cost of crude and prices of finished products, he

Accordingly, oil companies are faced with the necessity of reducing the marketing cost if they realize profits, he declared.
Gasoline sales of the company in 1931 were the largest in history.

#### To Set Tex. Production Limits Next Week

AUSTIN, March 31. (UP)—New production limits in the Texas fields will not be set until next week. The limits will be based on hearings yesterday by the railroad commission

Previous orders will remain in effect until then. Few changes in allowables are expected, Lon Smith, commissioner, said.

"I think hearings indicated that conditions are very satisfactory under present regulations," he said.

It was indicated that no orders for the Gulf district will be issued for several weeks.

The previous orders will remain in effect and the several several than all provided in the several several

other days of the week.

#### Old Well May Be Opened up Soon

A discovery oil well near Ojinaga, Margaret, six-year-old daughter of Mr. and Mrs. Percy J. Mims, underwent a mastoid operation Wedin early in 1900 may be opened soon The well was shut down because of lack of transportation. The building of the Santa Fe or Orient into Presidio has revived interest in the old

#### Shallow Potash Found in Well

postoffice at Midland, Texas, under the solution of the string bean shapes—no vitality—"

Susan had heard it all so many times before that she scarcely listened. She was thinking; if I press my dark blue georgette tonight I'll walk over to Rose's. Post-mortems on parties were always rather fun. Maybe the Miltons would tease her readers, 10c per line. about her catch, Ben Lampman, the young man who had seemed so smitten. That would be exciting for Susan Carey had never had a beau. Not that she liked the young man particularly. He was too dark and intense and sort of—well, sullen—to attract her. But he was a young man. A potential admirer. She was tired of having the other girls crow

over her. Even a Ben Lampman, moody and musical and taciturn, would be better than nobody!

to say goodbye to Aunt Jessie. The dishwater was making an obligato in the chipped tin pan as Aunt Jessie furiously turned on faucets and swirled an aged dish-mop. Aunt Jessie did everything energetically. suits. It was her way.

She pecked at Susan's cheek and

She was still grumbling as Susan ran down the back stairs to take a short cut to the corner where she caught the surface car. The girl sighed, clinging to a strap. Why was Aunt Jessie such a grouch? She nursed her through diphtheria during her first year in high school? Hadn't she brought her back to life when practically everybody had given her up for dead? Oh, Susan knew Aunt Jessie really cared for her but she had such a queer way of showing it. That, thought Susan shrewdly, was Aunt Jessie's generation. Uncompromising, hard on others as when practically everybody had given her up for dead? Oh, Susan knew Aunt Jessie really cared for her but she had such a queer way of showing it. That, thought Susan shrewdly, was Aunt Jessie's generation. Uncompromising, hard on others as well as themselves. They couldn't help it. "I was raised right and I'm Jessie often said grimly when the young girl complained of strictures. "Raised right," meant going to be early and rising early; having very little fun, made-over clothes, putting money in the bank, quoting "handsome is as handsome does" and thinking the devil lurked in a laready packed elevator. She said "excuse me" to an unseen male as the car shot upward. Her elbow had jammed into a vest front and she flushed scarlet with confusion as she heard a muttered a muttered to find young Mr. Dunbar at her bled out at the 11th floor she turned to find young Mr. Dunbar at her heels. "Was it—oh, it WAS you I bumped said grimly when the early and rising early; having very little fun, made-over clothes, putting money in the bank, quoting "handsome is as handsome does" of whit toth in the problem was solved for her but as the car shot upward. Her elbow had jammed into a vest front and she flushed scarlet with confusion as she heard a muttered as the young man. "It's rather stiff, the way we all stand on ceremony upstains at that dump. I know your name—and I suppose—I hope you know mine."

The going to see you are the same," Aunt bled out at the 11th floor she turned to find young Mr. Dunbar at her heels.

"Was it—oh, it WAS you I bumped saily; having very little fun, made-over clothes, putting fundation as the mattered way we all stand on ceremony upstains at that dump. I know your name—and I suppose—I hope you know mine."

The girl nodded. "But I must wait for Helen," she protested half-heart edly. The tall young man shrugged. "Don't you do that every day?"

Susan caught her lower lip better the young man, "It's rather stiff, the way we all stand on ceremony upstains at that dump. I know your on the young man shruge

The Corsicana Sun made the statement that modern friends would have urged Job to have his teeth and tonsils out.

hould come out

A woman told me the other day that she had a dog that wouldn't growl. I told her that was remark-able and asked the reason. "Simple enough," she said, "he wasn't trained by a man."

She pecked at Susan's cheek and muttered: "You'll be late, sure's you are born. Never did see such a sleepyhead. You take after your mother's folks, that way"

She was still grumbling as Susan such a lighted and began swiftly to she alighted and began swiftly to walk east. It seemed good to be alive ran down the back stairs to take a rand women the back stairs to take a rand women the back stairs to take a rand women the seemed good to be alive randown the back stairs to take a rand women the seemed good to be alive randown the back stairs to take a rand women the seemed good to be alive randown the back stairs to take a randown the seemed good to be alive randown the back stairs to take a randown the back stairs to take a randown the seemed good to be alive randown the back stairs to take a randown the seemed good to be alive randown the seemed

little fun, made-over clothes, puiting money in the bank, quoting "Tandsome is as handsome does" and thinking the devil lurked in a swineglass. Well, maybe they were right but Susan thought there must be more in life than just that. She hoped so, anyway.

Her heart sank when she thought of the day before her and she flipped the pages of her book as she swayed and jerked to the uncertain rhythm of the street car's progress, "Up in front there, up in front," droned the conductor as more and more passengers crowded in at every corner.

It promised to be a warm day. The freshness of the morning was vanishing as they neared the downtown district. The odors of asphalt under sun, of gasoline fumes, of human bodies and cheap scents mingled together. Susan hated it. She wondered how that fastidious looking young man, Robert Dunbar, rode into town. Probably on a comfortable suburban train with roomenough to stretch his long legs and fread his morning newspaper. She envided him, He seemed to be a visitor from another sphere with his fine linen, his well fitting loungefrowning. It wouldn't do to permit.

However, that wouldn't have been so far out of line. I heard yesterday that a Midland physician was called to examine a Midland woman and, after going into an analysis of her ailments, told her that her teeth should came out. "Okay," she said, reaching in her mouth and taking them out.

about everything without taking a stand on anything.) ing was because people gamble on

it. This morning I saw him stand for an hour watching a group of fellops play one of these marble boards, and there wasn't less than two bits a shot played on the board. That same man could sit in the grand stand and watch horse races, see some real sport and never know any money was changing hands.

There are some people who bet on everything that has chance to it, the weather, high school athletics and baseball games all the way from the Bushers to the World Series. It isn't the sport that is wrong, it's the betters. And, some of them don't see anything wrong when they win anything wrong when they win.

A high brow once said that people who have been to college get much more out of their travels, but I knew a college boy who didn't get much but a collection of hotel tow-

## "Not bad," indeed! She was for the DETAILS OF NEW FORD AUTOMOBILE first time in her young life within ANNOUNCED HERE BY COWDEN-EPLEY

Complete details of the new V-8 ber insulation and the newly decylinder Ford car were made here signed shock absorbers. today by J. Homer Epley of Cowden

dealer. lic double-acting shock absorbers.

The new Ford is large, long, roomy, One, a thermostat control which

Numerous mechanical advances lencer, automatic spark control, fuel pump and rear fuel tank. Other impump and rear fuel tank. Other improvements include a newly-designed rear spring, thermostatically-controlled Houdaille double-acting hydraulic shock absorbers, large four-wheel brakes, newly designed electrically welded steel-spoke wheels with large hubs and hub caps and large tires. The chassis and running grar are cushioned by rubber insulg.ar are cushioned by rubber insulators in the spring shackles and shock absorber links. The body is insulated from the frame by rubber

The new bodies are fresh and modern from the gracefully rounded V-type radiator to rear bumper. The air-flow lines are carried out by the long hood with its rustless steel center that the lasting the lasting of the last rustless and lasting the lasting the lasting the last rustless and last rustless are the last rustless and last rustless are lasting the last rustless are last rustless are resulting the last rustless are resulting the last rustless are resulting and rustless are rustless a ter strip, the slanting safety glass windshield, and rounded roof line. The convex lamps, full-crowned fenders and long, low running board harmonize with the balance of the

Body interiors are roomy and richly furnished. Seats are of new; style, designed for utmost comfort. Driver seats in all closed cars are adjustable. A large ventilator is provided in the cowl. The oval instrument panel is in engine-turned finment panel is in engine-turned imish and has a rustless steel mounting strip. Inside sun visors, which fold out of the way when not in use, are provided in all closed cars.

The new Ford V-8 engine is remarkably free from vibration. Frequent and overlapping impulses deliver the power in a smooth con-

liver the power in a smooth, con-stant flow. The engine is of the 90-degree Vtype, developing 65 brake horsepow-er at 3400 r. p. m. The 65-pound crankshaft is of the 90-degree type,

to each other. to each other.

The crankshaft is statically and dynamically balanced, and its throws counterbalanced. The crankshaft, connecting rods and pistons are also in balance so that the engine operates with remarkable smoothness at all speeds. Pistons of all minum allow have three rings the

aluminum alloy have three rings, the lower acting as an oil-control ring, Cylinder blocks and crankcase are cast in one solid unit, giving exceedingly rigid engine construction. New type, one-piece valves, which eliminate tappets, operate directly from the camshaft without pushrods.

Connecting rods from opposite pistons are placed side by side on each 90-degree crankshaft throw. These are mounted on new floating steel bushings, babbitted inside and out which serve to give the benefit of the full crankpin bearing area to each connecting rod thus affording

pump are mounted on this cover.

The gas is preheated in the intake manifold by a hot spot created by hot exhaust gases surging back and forth through a small passage in the manifold cover plate. Exhaust ports are on the outside of the engine blocks, the left exhaust pipe being carried around the front of the engine.

The distributor operates directly from the front end of the camshaft, eliminating the use of interposing gears. Spark control is automatic. Crankshaft and pin bearings are lubricated by pressure as are the main bearings of the camshaft. The pistons and valves are oiled by spray and splash.

The latest chapter play, "The Air he country, in a 12-chapter serial, opens Saturday.

#### At Prairie Lee

Enrollment of the Prairie Lee chool reached a new high Monday with an enrollment of 75. Three new students enrolled. The school is directed by Principal M. Bryant, Oswald Raggett and Miss McMillan.

Prairie Lee basketball team clashed with the Stokes team Friday evening, Stokes won the game with a score of 22 to 15. The girls' playground team won from the Stokes girls by a score of 2 to 1.

Students of Miss McMillian pre-sented an Easter program following Sunday school. The Rev. Walter Smith of Big Spring gave an Easter address. Two hundred attended an egg hunt in the afternoon.

Leon Griffith entertained the younger set with a birthday party Saturday evening.

Miss Lillie Mae Wadkins of Midand was a guest of Mrs. Oneal early this week.

Mr. and Mrs. A. C. Matlock and son, Troy, have returned from Son-ora where they were house guests of Mr. and Mrs. Thursman Swails. Mrs. Swails is their daughter.

J. D. O'Neal has returned from New Mexico where he visited his Until Autumn father, Berry O'Neal.

Several farmers have been planting part of their feed crop this week. Others are waiting until after the first rains in April.

· W. T. Bryant and son, Marvin, and daughter, Vergia, have gone on a business trip to Gaines county.

The Prairie Lee health club meets at the school Thursday afternoon at 3:30. Miss Martha Bredemeier, county nurse, teaches the class. Thirtyive members are enrolled.

#### Increase in Other Crops Seen in Tex.

AUSTIN, March 31. (UP)-Increased planting of crops other than rice and cotton was predicted in a survey of Texas crops today by Carl Robinson, statistician of the United States department of agriculture

No figures were given on cotton as the federal law prohibits this. Increased acreage in other crops might Winner at Ritz be taken as an indication of reduction in cotton planting, he said.

#### Harvester Company Makes Unique Offer

CHICAGO, March 31.- Higher prices for wheat, corn and cotton are guaranteed by the International Harvester company in an offer to this year's purchasers of certain important crop-producing and harvesting machines. The higher prices guaranteed are 70 cents a bushel, Chicago, for wheat, 50 cents a bushel, Chicago, for corn and 8 1-2 cents a pound, New Orleans, for cotton.

George A. Ranney, vice president in charge of sales, said today: "We are convinced that the reluctance of farmers to buy implements needed for the economical production ed for the economical production and harvesting of their wheat, corn and cotton crops is due to the pres-ent unsatisfactory prices of these commodities, and we believe that if they were assured of higher prices for their products they would not hesitate to purchase the new cost-reducing machines that they need. "In order to meet this situation "In order to meet this situation and to evidence our faith that prices

of farm products must soon improve, we are now offering growers of wheat, corn and cotton assurance wheat, corn and cotton assurance of higher prices with which to pay notes given hereafter and maturing this year for purchases of certain machines most vitally needed in making and gathering these crops. "The list of machines to which this offer applies includes farm tractors, harvester-threshers or combines, windrow-barvesters and stationary and st

bines, windrow-harvesters and sta-tionary threshers. The higher prices

tionary threshers. The higher prices which these new terms guarantee are 70 cents a bushel, Chicago, for No. 2 hard wheat, 50 cents a bushel, Chicago, for No. 2 yellow corn, and 8 1-2 cents a pound, New Orleans, for middling cotton.

"On notes maturing in 1932, given hereafter in payment for the machines listed and representing not more than 40 per cent of the purchase price, there will be endorsed the equivalent number of bushels of wheat or corn or pounds of cotton computed at the prices named. If the average market quotation for the 5-day period prior to and including the maturity date of the note is less than the price named, the purchaser will be credited with the purchaser will be credited with an amount representing the price differential multiplied by the number of bushels or pounds endorsed on the note.

"For example, if the note due in 1932 amounts to \$420, it will require 600 bushels of wheat at 70 cents, Chicago, to meet the obligations. Should the price of wheat at maturity be less than 70 cents, say 60 cents per bushel, Chicago, the pur-chaser's note will be accordingly re-

duced \$60.
"I take this opportunity of reiterating that the company said in its recent annual report for 1931—that the present abnormally low prices To Appear at Ritz of farm products could not long prevail; also that only a slight improve-The Midland appearance of John Lomax, eminent preserver of owboy songs and poems, will be at the Ritz theatre Monday between the evening shows.

## The visit of Lomax in Midland is being sponsored by the Fine Arts club which will start the sale of tickets Saturday. No advance in the regular theatre prices will be made. The visit of Lomax in Midland is now passing." Scouts Getting to Be Good in Cool Be Good in Cooking
