King George of Great Britain gave a ceremonious approval of the application of sanctions against Italy.

Thirty-six Italians were killed and 81 wounded, mostly native Askari, in the northern advance.

Conceding the loss of Makale, Ethiopian officials asserted that the Italians hardest task was ahead with Ethiopians massing in mountain positions 15 miles south of Makale.

A Rome communique reported the capture of an Ethiopian detachment between Aksum and the Takazze river.

Fascist officials have ordered vigilance committees to stop press and public anti-sanctions demonstrations.

### Proclamation

The annual Roll Call for the Midland county chapter of the American Red Cross will begin on Armistice Day, November 11, and end Thanksgiving Day.

Workers who helped in the Roll Call last year lost no time in turning from their solicitation to carry on the year's program of relief for victims of accident, disaster and disease.

They come to us now to remind us that our memberships which will finance the work of another year are due. Since our Red Cross asks so little from the community, and contributes so much, I urge a speedy response again this year.

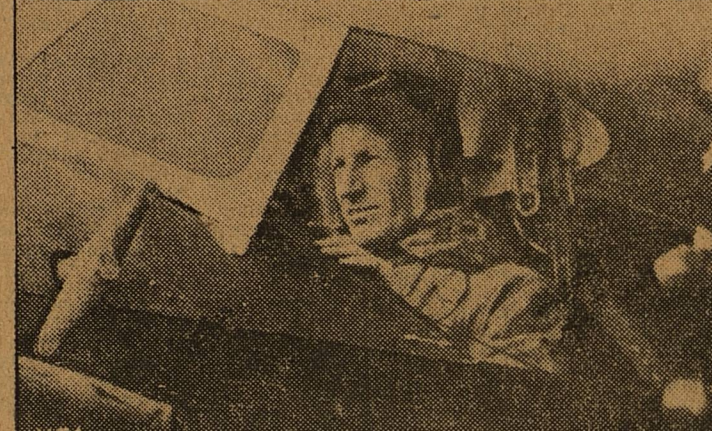

The Red Cross is recognized by city officials as a potent factor in meeting present needs, and as an agency of incalculable value in the event of possible emergency.

I, therefore, as Mayor of the city of Midland, hereby set aside the designated period as the time when all past members are asked to renew their memberships and those who have not before been members add their names to the roll of honor in Midland county.

M. C. ULMER, Mayor.

### PERKINS MAKES ARMISTICE TALK

**Program at High School Is Opened by Local Lawyer**

Col. John J. Perkins, principal speaker Friday afternoon at the high school Armistice program, paid high tribute to Will Rogers as an ambassador of goodwill. The speaker drew a lesson for everyone, to make a good impression at all times rather than to create ill will or fail to take advantage of creating good will.

In his speech, Col. Perkins referred to the Will Rogers Memorial campaign now in progress, asking public response to the local committee's request for voluntary contributions.

Marcelline Wyatt, high school student, also paid tribute to the life of Will Rogers as a patriot and dedicated the high school's Armistice program to the late humorist. The girls' trio sang, "Old Faithful," and the boys' quartet sang, "Home on the Range," favorite songs of Rogers.

Band numbers, readings, choruses and a play also were on the patriotic program.

At the same hour, Armistice programs were given in the junior high school and the north and south elementary schools, with high attendance and interest shown at each.

### PLANE ABLE TO REMAIN AFLOAT SEVERAL DAYS

**Flier and Co-Pilot Last Seen Over Bengal Bay**

**SEARCH IN VAIN Ships and Planes Are On Lookout for The Men**

SINGAPORE, Nov. 9. (AP)—Desperate aerial searchers for Sir Charles Kingsford-Smith, missing for nearly two days on an England to Australia speed flight, today refused to abandon hope.

The plane could remain afloat indefinitely if forced down. With co-pilot Tom Pethybridge, the noted flier was last seen over the Bay of Bengal where he was fighting a monsoon.

Planes and ships have searched fruitlessly for the men so far, however.

An exchange telegraph correspondent at Singapore reported to London that James Melrose, last person to see the plane, said Kingsford-Smith and Pethybridge were battling a monsoon.

Flames appeared to be shooting from the exhaust of the ship, the correspondent reported. The pilots were seen to be about 150 miles from shore and flying at an altitude of 200 feet.

Sir Charles, a veteran blazer of air trails in the western and eastern hemispheres, left Lympstone, England, Wednesday in an attempt to regain speed records for the distance long held by him.

Reports of monsoonal weather along his route have caused a belief he may have been forced down by lack of gasoline caused double anxiety.

Prior to Melrose's report, Kingsford-Smith had last been reported from Akaby, Burma.

"Dispatches yesterday said he left Allahabad, Northeast India, at 6:25 p. m. Thursday — 8:45 a. m. Eastern Standard time. Then he was only 167 minutes behind the time of C. W. A. Scott and Tom Campbell-Black—winners of last year's Melbourne air derby."

It was estimated that the flier was flying about 200 miles per hour when he crashed. He was not carrying any passengers or mail. The ship did not burn.

**THE FORGIVENESS OF NATURE**

Many West Texas newspapers, since the abundant rains which again have enriched western pastures with sufficient grass to provide livestock with winter feed, have published tributes to "grass." Probably the best ever written was by the late Senator John J. Ingalls of Kansas who said:

"Next in profusion to the divine profusion of water, light and air, those three physical facts which render existence possible, may be reckoned the universal beneficence of grass. Lying in the sunshine among the buttercups and dandelions of May, scarcely higher in intelligence than most tenants of that mimic wilderness, our earliest recollections are of grass; and when the fitful fever is ended, and the foolish wrangle of the market and the forum is closed, grass heals over the scar which our descent into the bosom of the earth has made, and the carpet of the infant becomes the blanket of the dead.

"Grass is the forgiveness of Nature—her constant benediction. Fields trampled with battle, saturated with blood, torn with the ruts of cannon, grow green again with grass, and carnage is forgotten. Streets abandoned by traffic become grass-grown, like rural lanes, and are obliterated. Forests decay, harvests perish, flowers vanish, but grass is immortal. Beleguered by the sullen hosts of winter it withdraws into the impregnable fortress of its subterranean vitality and emerges upon the solicitation of spring.

"Sown by the winds, by wandering birds, propagated by the subtle horticulture of the elements which are its ministers and servants, it softens the rude outlines of the world. It invades the solitude of deserts, climbs the inaccessible slopes and pinnacles of mountains, and modifies the history, character, and destiny of nations. Unobtrusive and patient, it has immortal vigor and aggression. Banished from the thoroughfare and fields, it hides its time to return, and when vigilance is relaxed or the dynasty has perished it silently resumes the throne from which it has been expelled but which it never abdicates. It bears on blazonry of bloom to charm the senses with fragrance or splendor, but its homely hue is more enchanting than the lily or the rose. It yields no fruit in earth or air, yet should its harvest fail for a single year famine would depopulate the world."

The student body was reminded of the penalty of two demerits and one of the highest grade for being late to class.

**ANNUAL QUEEN ON PARADE**

A flash ladies and gentlemen—I have just interviewed the candidates in the Annual Queen race! First let's look in on Cornelia Campbell, our beautiful sophomore, who insists on being called "Chick." In order that she may live up to her reputation, she spends a great amount of her time in the beauty parlor using Angelus, lip-rouge and Cotey's face powder. She drinks 400's regularly so that she may keep that trim figure. Her favorite pastime is playing golf and dancing. Miss Campbell believes in seeing America first. She has traveled over the United States and Canada. "Chick" finds her host of admirers very boring, so she prefers a steady who must be tall, dark and handsome. She plans to get married when she is sweet sixteen.

Oh here comes "Beffy" Bedford. She's the girl with dark brown hair and laughing eyes. When the Bulldogs lose, she always cries. "I can't do much about my looks," says Anna Beth, "but I use lifebouy and listerine to prevent unpleasant odors." She is 5 feet and 2 inches tall, weighs 115, and wears size 4 shoes. "Fish" is all the time in the gym trying to convince her father that she is right. She likes to dance and ride horses, but she thinks most boys are afraid. Miss Bedford works for very honored and thrilled if she were chosen queen.

Now we come to the tall, slim, blond fish, Freda Fae Turner. Indeed her hair is not dyed and she uses no make-up but depends on what mother nature has bestowed upon her. Miss Turner like all the boys, but she is especially interested in a tall, dark eyed, curly headed boy. Freda says that she would be overcome if she won the queen race. Let's take a peek at our beauty. Betty then forgot her name. The girl who spent half of her time getting her hair curled? Not Joanna! She has a hard time getting her curls to stay put.

Her advice on beauty is to consume plenty of milk and spinach, but "by all means never go to bed early. Get up as late as possible and rush to school without any breakfast." In this way she keeps slim. She is very enthusiastic about the

football games, and about a blond boy who often plays. Jones said that it would be very nice to be queen.

"Well, let's see how Luella Guffey is getting along in the world. Luella is spending a lot of her time reading and playing the piano with the hope that she might sometime give a concert. She says that she likes Midland better than any other place she has lived. "Guffey" is thrilled to pieces over being paper leader. The only objection is that it does not help her reduce her excess weight. Luella said she would not consider any boy other than Joe Midkiff to be her king if she became queen.

Jessa Lynn Tuttle, who is considered by many the cutest "kid" in school likes to dance and go to the movies. She just loves history, Spanish, and algebra and gets a big thrill out of the pep squad. She spends a lot of her time playing the piano, and she likes dancing. Jessa Lynn thinks the upper class boys are pretty swell, but she prefers a little ratty fellow. She has a blue eyed fish to them all.

La Moine Sindorf spends most of her time chewing gum to make her lips more shapely. She says that she doesn't take much much with her looks, but leaves it up to her mother and the beauty parlor. Miss Sindorf likes all her teachers, a fact which is very unusual. How- ever, she thinks the boys in M. H. S. are silly, but that's just because she is so "wrapped up" in someone out of school. La Moine said she has a million dollars in the bank.

Bett Minter thinks being a preacher's daughter and being called the little preacher is very nice. She keeps her hair in a bun and she uses Richard Woodnut lipstick Cotey's face powder, and Woodbury's soap; thus she keeps herself beautiful. You will find her in Betty's day-dreaming over Paul Kelly or laughing over what Joe Penner said. The man that Betty married must be tall, dark, and handsome, and by all means be a millionaire. Miss Minter would like very much to be queen of the "Catio."

Marcelle Scarborough would eat anything up who thought she used anything to keep her hair blond. She doesn't want to be blond and used nothing but soap and water on her hair. She likes to be all around the eye of the boy that one interested only in sports. The boys in M. H. S. in general are O. K. by her. Tangee Lipsick and Arnold are the boys she is the secret of her beauty. She keeps her slender figure not by any strenuous exercise or strict diet, but by eating proper food—her mother says to her diet. She has a mania for pretty clothes, an dthe thrill she would experience from being queen would come from wearing a pretty dress. She thinks wearing a pretty dress is her dream of school.

The reporter was unable to secure an interview with Willie Merle Caffey because of her being out of school on account of illness.

**ANNUAL STAFF MAKES MONEY**

The Midland High School annual staff made \$63.90 on the program given in the Midland High School auditorium by Mel-Roy, the Magician, Thursday afternoon and evening, November 7, 1935. The program was sponsored by the annual staff for the purpose of raising money for the annual fund. The afternoon program was for the ward schools and junior high students. The evening program was for the community who wished to attend. Every one was held spellbound for an hour of most unusual entertainment at both programs.

**VACANCY IN ARMISTICE PLAY CAST FILLED**

Due to the sudden illness of Willie Merle Caffey a place was left vacant in the cast of the Armistice play "Armistice Day." On very short notice, Mary Elizabeth Newman was selected by Miss Cummings and Mrs. Douglas to take Willie Merle's place. She was selected because of her acting and singing ability because she took the part of a prima donna in the play.

**EVERYDAY**

I see Willie Merle had a date last Saturday with her very good friend, the milkman, if you know what I mean.  
A certain freshman girl, whose initials are G. S., was seen riding around with Gerald the other night; but after further investigation, I find that she had a date with John.  
And then there was that one about the guy that sent his girl two letters a day for two years. She finally married the postman.  
Which one will it be, Dorothy? You know you can't have "Stink" and L. H. both, or maybe I'm wrong. If I had a million dollars I'd buy Wimp's hair.  
The Midland High band a brass-fiddle.  
Take it easy.  
Take a trip around the world for a couple of days.  
I would like to know the object of Betty Minter's affection.  
You should have seen the look on Mr. Bearden's face the other night when he walked into the drug store and saw Miss Matlock with another date. (I can't hurt my history grade after last week's column).

Do you know two boys who have very serious heart interests in Odessa?  
Habitual woman hater: Newnie Ellis.  
Joe Seymour tells me that girls are the bunk.

Me hate him, me hate him  
Me wish him were dead  
Him told I him loved I  
But darn him, him led.  
So long  
P. S. The fog is getting thicker.

**SOLUTION TO PROBLEM**

The editor is informed by reading the daily papers that the youth of the country is headed fast for ruination through the common pastime of promiscuous "necking."  
While looking through numerous family albums there has occurred to this editor a cure very easily effected for the evils of this art. Simply insist that all the boys (that can) grow beards. Can you imagine any tender young thing leaning log and soulfully on lips upholstered with bristles?

The editor is informed by reading the daily papers that the youth of the country is headed fast for ruination through the common pastime of promiscuous "necking."  
While looking through numerous family albums there has occurred to this editor a cure very easily effected for the evils of this art. Simply insist that all the boys (that can) grow beards. Can you imagine any tender young thing leaning log and soulfully on lips upholstered with bristles?

**Letter to Quack**

We had a colored maid at one time who believed in dreams. She had a dream book and believed in it thoroughly. I had an occasion to go into the kitchen one night and found her pouring over it industriously. It seemed that she had dreamed of a white horse coming down the hill and the animal drank at a spring of green water after which it raced through flimsy clouds, then it shook its mane and out of the mane came a lot of golden coins and hundred dollar bills. A beautiful maiden gathered up the coins and hundred dollar bills and put a pavement washer. It washed the dirt off of the pavement at some points and on to it at others.

Over in New Mexico they have laws governing cases of "assault with insult." Here in Texas, you can't assault anyone without insulting him.

Will Rogers was out with some folks who were shooting a rifle. "Will," one of them said, "there's a jacksrabbit over there on the side of the hill. Take this rifle and see if you can hit it."  
"No," he said, "that jacksrabbit has never done nothing to me."

Experts over the United States are saying that the Texas brand of football is just about the toughest in the whole United States. We just naturally grow boys that are just as naturally tougher and harder and stronger down here.

Magazine stories, where tough opponents are needed for the hero's team are playing up the teams from Texas as the villains.

This leads to a story about an old Texas boy who went back East with one of the Texas football teams. It was back at Harvard after the Texas team had badly beaten the Harvard team he was invited out by one of the Harvard players.

The old Texas football player and the Harvard football player were walking along the sidewalk together and a woman ran out in the street and found herself right in front of a big truck that was roaring down upon her. The Harvard player was closest to her and he

**BULLDOG BOW-WOW**

Mr. Lackey, Coach Baumgarten, and the team had a special meeting Wednesday morning, in which the members of the team were given an opportunity to express their opinion of the Stanton-Midland game by making a short talk.

David Wafford, after talking about five minutes to get straightened up to the height of six feet and four inches, said that he never played against the Bulldogs, but I am looking forward to the time when the team members get in there and work together, we will beat the Bulldogs to pieces.

Woodrow Adams, the man mounted left tackle, said in a timid way, "I know that Stanton boys will play good, clean football."

Sam Bryant, captain of the Bulldogs, made a fine talk in which he said, "If Stanton happens to beat us, it will be a disgrace to the team, because we will win this game to uphold their honor."

# HEAVIER MIDLAND TEAM OUTCLASSES STANTON FOR 39-7 WIN

## Biggest West Texas Game Of Year In Big Spring Monday

### EARLY LEAD NEVER THREATENED BY THE VISITING CLUB

Coming to life with a burst of scoring power that has remained dormant for most of the season the Midland Bulldogs Friday night overpowered a hard fighting Stanton team by a score of 39-7.

The Bulldogs made a touchdown early in the initial period, and despite the score at the half being 13-7 in their favor they were never in serious danger of losing their lead.

The Stanton team fought hard all during the game but their disadvantage in weight, lack of experience, plus a lack of capable substitutes was too much of a handicap for them to overcome.

The Midland team looked better than they had since an early season flash of brilliance, and despite the fact that the coach used all men that he had in uniform, the Stan-

ton team never had a chance. The Bulldogs took an early lead when Wofford crashed over the center of the line for three yards and a touch down and increased their lead to 13 points early in the second period when Bryant, Midland end, intercepted a Stanton pass and raced for a touchdown.

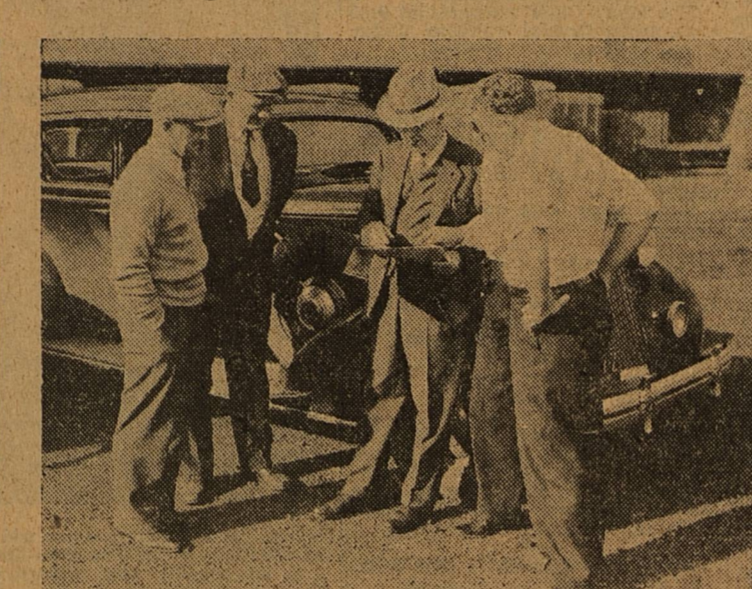

Henson made the lone Stanton score when he skirted his own left end late in the second period for 30 yards to pay dirt. The same man then plunged through the line to add the extra point.

The Midland boys turned on the steam in the third and fourth quarters and made two touchdowns in each. At the beginning of the second half the weight disadvantage of the home team, plus a steady run of fresh men, completed the downfall of the Stanton team, and the play for the rest of the game was generally in Stanton territory.

The Midland team made 12 first downs to six by the visitors but competition in the first half was close, being five to four in favor of the Bulldogs.

The Midland touchdowns were divided between six men, Wofford, Bryant, Willis, Rettig, Cowden and Midkiff, each chalking up six points. Willis, Midland guard, made his points in the third quarter when he covered a Stanton punt behind the line after it had been blocked by Taylor.

### Brought Goodyear Fleet Here

Midland was visited early Saturday by the Goodyear test car fleet, stopping at Lowe's Service Station, Goodyear dealers in this territory, while en route to Litchfield Park, Ariz., for winter test operations. The fleet makes approximately 11,000 miles each 24 hours, with drivers alternating and driving approximately 333 miles each. In the

group here are shown, left to right, Art Halley, Red Jacobs, M. D. Scott (incharge of the fleet), G. P. Mathews and Jack Greenleaf (veteran test pilot). In the fleet were one Chrysler, two Packards, two Chevrolets and one Hudson.

### CHAMPIONSHIP OF DISTRICT THREE IS TO BE DECIDED

The "biggest game of the season in West Texas" will be played in Big Spring Monday afternoon when the Big Spring Steers and the San Angelo Bobcats tangle in a game that is generally conceded to decide the eventual winner of district three.

San Angelo, through an undefeated and untied record, will reign as heavy favorites to win the game, but the Steers have been put through two weeks of grueling practice preparatory to the tilt and without doubt will make things highly interesting for the visitors before they succumb—if they do.

The backers of the Angelo team are confidentially offering six and 12 points to those who will bet on the Steers, and are finding plenty of takers.

The weights of the teams are evenly balanced, each starting lineup averaging 163 pounds. The Big Spring team will have a seven pound per man advantage in the backfield but this will be countered by a heavier Bobcat line.

The Big Spring team will be relying on Ole Cordill, all-state back, to bring them victory, while the Bobcat hopes are placed on Harry Hays, triple threat back, and Herb

Smith, deluxe pass catching end. The game will start at two o'clock Monday afternoon, and indications are that the 6,000 seating capacity of the stadium will be sold out before the day of the game.

### 'She Couldn't Take It' Lively Ritz Comedy

George Raft and Joan Bennett battle their boisterous way through laughs, thrills and romance in Columbia's "She Couldn't Take It," now showing through Tuesday at Ritz.

Headed by the stellar pair and cast with a long list of excellent players, the picture relates the color-

ful tale of an ex-gangster who undertakes to manage the social affairs of the socially prominent Van Dyke family, whose escapades and front-page scandals have kept them tabloid-headlines for a half-score of years.

Raft, of course, is the ex-racketeer, Ricardi, who is commissioned by the elder Van Dyke, Walter Connolly, to "rough 'em up, and tame 'em down!" His greatest problem is the madcap Miss Bennett, whose escapades, marriages, divorces, and police engagements have been the major source of scandalizing publicity.

Then, too, there are James Blakeley, whose only outlook on life is through the bottom of a whisky tumbler, and Billie Burke, collector of posts, bogus titles and other objects masculine.

Raft and Bennett turn in superb performances in the starring roles, lending a piquant charm to their robust, actionful comedy. Walter Connolly and Billie Burke are ex-

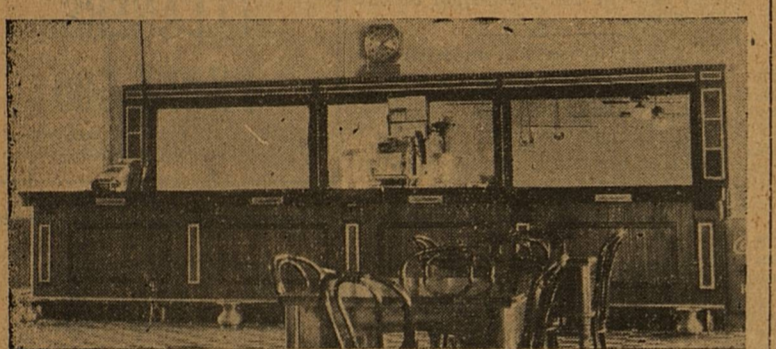

cellent, as usual, while Blakely, Wallace, Ford, Lloyd Nolan and Donald Meek do splendidly in supporting parts.

## Showing at The Yucca

Never has a picture been so widely heralded as Metro-Goldwyn-Mayer's spectacular new melodrama, "China Seas" which brings to the Yucca screen the triumphant trumvirate of Clark Gable, Jean Harlow and Wallace Beery. With Gable and Miss Harlow, the screen's greatest love team, supplying the romance, and Beery giving one of his most exciting portrayals as a sinister villain, the new picture, produced by Irving Thalberg and directed by Tay Garnett, is hailed as the outstanding highlight of the current cinema season. It is now showing through Tuesday at the Yucca Theatre.

**MRS. NICHOLS ADDRESSES STUDENTS**  
Tuesday morning, Miss Wilson, the county nurse, and Mrs. Nichols, head of the state tuberculosis organization in Texas, visited the chapel program, after which Mrs. Nichols gave a talk on the prevention of tuberculosis. Mrs. Nichols is engaged by the government and has her office in Austin.

She was head of the essay contest last year, in which Mary Kinneweb won second prize for our school. She expressed her joy in awarding the prize, and in the help the high school gave. During her talk, she gave the following statistics: "In 1904, 200 out of every 4,300 p. m.—Junior and Intermediate Endeavor

100,000 died of tuberculosis. These show the decrease in the number of deaths. However, tuberculosis still causes more deaths between the ages of 15 and 45 than any other disease." Mrs. Nichols explained how a person having the disease could have it cured by going to a state institution, where one can learn how to cure and to prevent tuberculosis.

She mentioned that Midland was doing nice work, and that great strides were being made in the prevention of tuberculosis in Texas.

All work in Texas, she explained, is paid for by the sale of Christmas seals, and in closing she expressed a desire for the pupils of high schools to buy Christmas seals and thus help in the prevention of tuberculosis.

Seasonal moving of the Midland cattle country's calf crop, November 1, has been at its height for the past several days and will continue through November 16. Estimates of the calf crop for the current year run as low as 50 per cent and no higher than 60. In normal years there are sold by cattlemen of the territory immediately surrounding Midland from 20,000 to 25,000 head of calves for November delivery. Some years even more are handled.

This year, it is doubtful if more than 10,000 to 12,000 are being sold and delivered, although the price received is the best for several years. Of that total, approximately half of the calves are being shipped and the other half being transferred to ranchmen of this section who need the cattle to restock their well grassed pastures, or who desire to speculate on the calves through the winter.

Steer calves have been selling at from \$30 to \$35 for average quality stock, with tops selling by the pound and bringing as high as \$50. Heifer calves of average quality have been bringing from \$27.50 to \$32.50. There have been few cow sales, although some good two-year-old heifers have sold at around \$35 and some full grown cows at around \$50. Those prices are low considering the high price of calves and local cattlemen are expecting either a rise in one or a reduction in the other, at least a proportionate adjustment.

The small number of buyers, especially from the corn belt, this season has been of some concern, although it is generally conceded that they realize the necessity of paying a high price for calves and are staying out of the business for the season. On the other hand, it is pointed out that there is a known scarcity of beef, especially of feeder cattle, and the price has a strong chance of staying up.

Sale of 800 Cattle To Farr Announced

Sale of 800 head of heifer yearlings by the Scharbauer Cattle Co. and Scharbauer & Tidson was reported Saturday. Lewis Farr Jr., of San Angelo was the buyer and he will receive the stock November 20. Tom Nance also was reported to have sold 100 head of two-year-old heifers to a San Angelo buyer through the Mann Commission Co.
