Manchoukuo Issues Warning to Outer Mongolia

Recess During OARP Probe

In close conference during a recess in the Townsend Plan hearing in Washington, Robert E. Clements, right, resigned co-funder of OARP; Mrs. Clements; and Clements' attorney, Thomas W. Hardwick, ex-Georgia senator, are shown here. Clements gave his 1935 income as \$12,585 and said that his wife had received \$1475, in addition to their travel and Washington living expenses.

Reagan County Ex-Deputy On Trial for Slaying Baby

BADOGGIO HEARS PEACE TERMS OF ETHIOP CHIEFS

Relations Between Britain, Italy Widening

ROME, April 2. (AP)—Informed sources today said Marshal Pietro Badoglio has reported the result of the first contacts with Emperor Haile Selassie's emissaries for negotiating peace outside of the League of Nations.

The details were undisclosed. Meanwhile, Fascist sources said Italo-British relations were noticeably growing worse in the last few days. Rome police prevented a mob of students from demonstrating in front of the British embassy this morning. The embassy is being heavily guarded.

A decisive Italian victory over 20,000 picked Ethiopian warriors led by Emperor Haile Selassie himself was reported Wednesday. An official communiqué said 7,000 of the Ethiopians were killed.

Italian casualties were put at more than 1,000, most of them among officers in the huge battle fought Tuesday in Northern Ethiopia.

At the same time it was announced the government had received a letter from Salvador de Madariaga, representing the League of Nations, discussing procedure to be followed for arranging preliminary peace terms.

MORATORIUM FOR FARMERS DEBTS

Payments for Reclamation Would Be Reduced By One-Half

WASHINGTON, Apr. 2. (AP)—The House Trignation and reclamation committee today approved a bill to grant a one-year moratorium on 50 per cent of the debts reclamation farmers owe the government. The bill has already been passed in the Senate.

CONDITION BETTER

Mr. and Mrs. Guy Cowden returned Wednesday night from Dallas where they accompanied Tom Patterson who is under medical treatment there. They reported that although further X-rays must be made before physicians will make final diagnosis, the Midland man's general condition is apparently better.

EDITOR HERE

Chas. W. Roberts of the Andrews County News was in town Wednesday.

Father Gives Details Of Night Before The Tragedy

SAN ANGELO, Apr. 2. (AP)—Three state witnesses, one of them the father of Jacques Woodrow Willingham, Jr., aged 2, slain at a highway resort near here last July 30, told of events leading up to the tragedy in the trial of Mack Shipley, former Reagan county deputy sheriff, who is charged with the child's death.

The trial opened Wednesday morning. Most of the day was occupied in the selection of the jury. Shipley is pleading self defense.

John L. Spurgers, cleaning plant employe, and a neighbor of Willingham, who was with Willingham and his son the night and morning of the shooting, told of being at the highway resort, of Shipley remarking he would like to take a punch at Willingham's jaw and of the defendant's attempt to strike Willingham.

After Shipley's attack on Willingham, Spurgers testified, Willingham said he was going to take his boy home from the trouble. Willingham then started his car and drove off, the baby asleep in the rear seat. Spurgers said Shipley went to his car, then walked back to the middle of the highway and fired point blank toward the fleeing auto.

Louis Fowler, pipeline worker, another witness to the shooting, said that Shipley came to his table at The Well and introduced himself to Fowler's woman companion as the "sheriff of Reagan county," and asked for the next dance. The woman refused, Fowler declared, and Shipley left. He said he saw Shipley strike at Willingham and then shoot at Willingham's car.

Willingham told of drinking whiskey with Spurgers, Shipley and E. S. Barfield, Shipley's companion at the Lone Wolf Inn, another resort prior to the shooting. He said he had no previous trouble with the defendant and met Shipley for the first time the night of the shooting. His son, he said, was asleep in the back of the car when the shot was fired but in a second or two began crying and as he reached back to determine the trouble discovered the child had been shot in the back. He took his son to a local hospital where he died 20 minutes later. Willingham is employed by an oil distributor here.

PTA WILL MEET

Members of South Ward PTA will meet at the school building Friday afternoon at 3:15 o'clock for a business session. Mrs. Albin Schneider, president, announced Wednesday.

GREENE BETTER

Jimmie Greene, who is in a Midland hospital for treatment, was reported better and was expected to return to his home this afternoon.

FROM ODESSA

Mrs. R. Henderson Shuffler of Odessa was a visitor in Midland yesterday.

40 FEARED DEAD AS TORNADO HITS SOUTHERN STATES

300 Reported Injured While Damage Is Over Million

DORDELE, Ga., Apr. 2. (AP)—Storms and winds killed an estimated 40 persons and caused million dollars worth of damages today in Georgia, Alabama and South Carolina. Rescue agencies were rushed to aid here, where 33 were reported dead and the injured estimated at more than 300.

Observers estimated the winds reached a 90-mile velocity. Fifty persons were reported injured when two large school buildings were wrecked.

The storm struck nearby communities, and in Alabama, where two persons were killed. Torrential rains swelled the Southeastern rivers to flood stage.

National guardsmen are now patrolling this city to aid in rehabilitation and to prevent looting.

The weather bureau warned that floods were to be expected along the rivers in Georgia, South Carolina and North Carolina.

G. T. HARDIN DIES SUDDENLY TODAY

Funeral Arrangements Are Pending Arrival of Daughters

G. T. Hardin, 69, dropped dead at his home, 311 W. California, this morning at 7 o'clock. He had been a resident of Midland for about 12 years.

Funeral services will be held Friday afternoon. It was learned, but final arrangements are pending the arrival from Oklahoma of daughters of the Midland man.

France Asks Nations Refuse Hitler Plea

PARIS, Apr. 2. (AP)—France today demanded Britain, Belgium, and Italy reject Adolf Hitler's drastic proposals to settle the Rhineland crisis.

RUSSIAN, JAPAN RELATIONS NEAR BREAK IN NATIONS

Manchu Insists Upon "Provocations" Stopping PROMISE ACTION

"Immediate Steps" to Be Taken Unless Mongols Act

By Associated Press

Manchoukuo, sponsored by Japan, today warned Outer Mongolia, under Russia's wing, that unless Mongolia "takes immediate steps to terminate all kinds of provocations against Manchoukuo's frontiers, relations of the two countries are threatened with most serious contingencies."

The Manchoukuoan note charged the pitched battle Wednesday was a clear case of Mongol aggression. Soviet dispatches from Ulan Bator nearly today said Mongolians had recaptured all territory invaded a statement by the Japanese troops, pushing the invaders back in to Manchoukuo with heavy losses.

Fighting lasted all day Tuesday and until day break Wednesday when the Mongolians recaptured the outpost of Adyk-Dolon, said the accounts from the capital of the Outer Mongolian Peoples republic.

The end of the pitched battle, bringing a grave crisis in Russo-Japanese relations, caused relief here.

Dispatches from Ulan Bator term it a statement by the Japanese army command in Manchoukuo that the conflict was provoked by a bombing raid of Mongolian planes a "shameless lie."

In the course of the day and night of fighting, the dispatches added, the invaders failed in several attempts to capture Tamsukbulak, 30 miles inside Mongolia. No casualties were mentioned.

The Japanese army general headquarters at Hsinking, Manchoukuo, said the fighting took place inside Manchoukuo.

Belated Cold Wave Brings April Lows

Science Seeks to Conquer Desert

Reclamation of vast man-made desert a section of which is shown in the upper photo, is the aim of the U. S. Forest Service, and the progress it has made in seeking satisfactory trees and shrubs that will help restore lost fertility to the land is indicated in the lower photo. The area of 8000 acres, known as the Ducktown basin, in the heart of the richly forested Southern Appalachians in Western North Carolina and eastern Tennessee, was denuded by lumbering operations and gases from copper smelters, which also have affected to a lesser degree nearly 50,000 acres adjoining the basin.

Below Freezing Is Felt Over North And West

By Associated Press

The coldest April weather in many years shivered mercuries below freezing in Northwest Texas this morning, while bitter winds chilled other parts of the state.

The temperature dropped to 14 at Amarillo, the lowest April reading since 1920. Dallas felt a low of 31, the coldest April since 1914. The strong norther apparently had thwarted frost damage to crops in the South.

Borne on a 36-mile wind, that in gusts touched 45 miles per hour, chill weather returned to Midland late Wednesday afternoon and night.

The mercury fell 38 degrees during the period between four p. m. and seven a. m. today, dropping from 77 to 29. Much ice was to be discovered in exposed places early this morning.

The spring norther apparently had hit throughout the area, the mercury starting downward around six o'clock. The driving winds carried large quantities of sand, intensifying traffic problems in and around the city.

The temperature had climbed to 38 at 10 this morning and warmer weather was forecast for tonight and Friday.

Children Leave for Funeral of Mother

Mr. Pearl Parrot, accompanied by his brother, Pete, two sons, Donald and Ralph, Charles Parrott, Mrs. Dolida Parrot and Miss Mildred Acker left Wednesday for Hominy, Oklahoma, to attend funeral services for his mother, Mrs. Mary L. Parrot, 75, who died at that place early yesterday morning.

Mrs. Parrot, for several years a resident of Iraan, has been ill for a long period and was taken to the home of another son at Hominy in the hopes that her health would improve but death came to her after being there only about one week.

Funeral services for the aged lady will be held today.

FHA EXTENDING SECTIONS OF ACT

OUTLINE SALIENT FEATURES INCORPORATED IN EXTENSION

FORT WORTH, April 2. (Sp.)—The Federal Housing Administration District Office in Fort Worth has announced the extension of Title I of the National Housing Act to April 1, 1937 and outlined some of the salient features incorporated in the extension as recently passed by the Congress.

The financing of movable equipment or machinery is no longer permitted for any type of property where the loan for same is less than two thousand dollars.

In the future the borrower must either own the property to be improved or hold it under lease—termining at least six months beyond term of loan.

In the future loans under Title I—or the modernization and repair section of the Act can be made for improved property only—thus eliminating construction under the first section of the Act.

Approved financial institutions will be insured against loss up to ten per cent of total advance instead of twenty per cent.

Total liability which Administrator may incur for insurance reduced from two hundred million to one hundred million dollars.

New contracts of insurance, copy of new regulations and text of bill will be mailed to financial institutions within a few days.

In a statement made today by the Director for the Northwest District of Texas it was stated that under the new provisions of the Act that the repair and modernization of both business and residential properties would be stressed this year under Title I and the building, refinancing and purchase of homes would apply to the regulations covering Title 2 or the Single Mortgage plan as the long term mortgage program is called.

INACTIVITY MARKS DAY AT AIRPORT

Only One Landing Made At Sloan Field This Morning

A slackening of activities at the airport this morning followed a busy period of the last few days, with only one landing reported. This was made by Lieut. S. R. Stewart, in an O-43, flying from Brooks Field, San Antonio, to Lubbock.

Two additional landings were made late Wednesday, bringing the total to 14 for yesterday. They were a P-12 flown by Lieut. Losey en route from El Paso to Barksdale Field, Shreveport, La., and an O-3-U navy plane piloted by Lieut. Pirie on his way from El Paso to Hensley Field at Dallas.

RETURNS HOME

H. G. Bedford returned to his home today from a Midland hospital where he has been under treatment for pneumonia.

HAS TREATMENT

Mrs. W. C. Wales is in a local hospital for treatment.

Rotary Chief

W. R. Upham, head of the Upham Furniture Co. here, was elected president of the Midland Rotary Club at its annual election today. He will assume the office July 1 next, serving for one year. He succeeds Elliott H. Barron.

UPHAM IS ELECTED NEW PRESIDENT OF THE ROTARY CLUB

Office Will Be Taken By New Officer July First

W. R. Upham, retail furniture dealer, was elected president of the Midland Rotary Club, at the annual election of officers today, to take up the duties at the beginning of the fiscal year, July 1. A new system was adopted by vote of the membership, whereby the outgoing president automatically becomes vice-president, thereby making E. H. Barron, who has held the presidency for the current year, that office. W. L. Pratt was re-elected secretary-treasurer.

Directors elected, in addition to the officers named above, were J. Harvey Fryar, Edw. P. Harrison, John Perkins and R. V. Lawrence.

The officers and directors were elected upon report of Clint Lackey of the nominating committee.

R. Henderson Shuffler, Odessa editor, addressed the club, describing interesting historic spots in this section. Included were the meteoric crater five miles southwest of Odessa; Blue Mountain with its Indian art to the northwest; Castle Gap mountain, Horse-head Crossings and others.

Shuffler wove much western lore into the description, especially with reference to Indian drawings in a cave at Blue Mountain.

The president increased the committee in charge of the candidacy of Fred Wemple for Rotary district governor, making O. A. Thomas chairman, aided by Percy J. Mims, Winston F. Borum, W. I. Pratt and T. Paul Barron. The group also will be charged with getting up a large delegation to the district conference at Fort Worth May 3-4-5.

The luncheon next week will be on Friday, held jointly with that of the Lions club and with the delegation attending the convention of hospital managers here. Speakers from the hospital group will present the program.

PLANS BEGUN FOR BOY SCOUT BLDG.

Committee Will Be Named Soon by Howe

Appointment of a committee by John P. Howe to report on the possibility of a site, plans and approximate cost of building a Boy Scout headquarters was voted at a meeting of chairmen of the various Scout committees at the Hotel Scharbauer Wednesday evening. The committee will be appointed by Howe, general chairman of the Midland district, this week and will report to him in 30 days, according to last night's decision.

It was also voted to buy a stop-watch for the use of the two Boy Scout troops.

A. C. Williamson, Buffalo Trail scout executive from Sweetwater, made a report and Howe presided over the meeting.

Nearly a dozen committee chairmen were present.

HAS OPERATION

Mrs. Verne Stevens, who underwent an operation at Waco Tuesday night, was reported doing well Wednesday morning, relatives said. Mrs. Stevens formerly lived here having moved away only recently.

ILL WITH FLU

Mrs. Bertha Kenney, who is ill with flu at her home here, is much improved today.

Oil men who are now guests of a Midland hotel include: Neville Penrose of Fort Worth; W. J. Nolte; Chas. Osborne; and J. C. Maxwell of New York and Fort Worth.

KIMBERLING SAYS HE WILL EXTEND EXECUTION DATE

Hoffman and Wilentz Are Called Before Grand Jury

ARREST HINTED One Member of Gang 'Taking' Wendel Is Sought

TRENTON, Apr. 2. (AP)—The belief grew today that Bruno Richard Hauptmann would again escape the electric chair Friday night for the kidnap-murder of the Lindbergh baby.

Governor Harold Hoffman and Attorney-General David Wilentz appeared before the Mercer county grand jury probing the "confession" of the Lindbergh baby kidnap-kill by Paul Wendel.

Wardens Mark Kimberling announced he would extend the execution date limit and sought a ruling to see if the "week of March 31 includes midnight Sunday.

Detective Ellis Parker, who obtained the "confession" from Wendel, is under guard as he waits to go before the grand jury, to prevent his talking to witnesses.

A high state official today said the arrest was expected shortly of a member of the abduction gang which wrung a "confession" to the Lindbergh baby killing from Paul Wendel, disbarred attorney.

It was learned that New York, New Jersey and federal authorities are working in Brooklyn, where the arrest is expected shortly.

Hoffman was before the jury for an hour followed by Wilentz. Neither would comment on their testimony.

Hauptmann refreshed by a night of deep sleep, predicted he would not die tomorrow.

Committee Will Be Named Soon by Howe

Appointment of a committee by John P. Howe to report on the possibility of a site, plans and approximate cost of building a Boy Scout headquarters was voted at a meeting of chairmen of the various Scout committees at the Hotel Scharbauer Wednesday evening. Applicant For A Political Job

BEHIND THE SCENES - IN - WASHINGTON By RODNEY DUTCHER Reporter-Telegram Washington Correspondent

WASHINGTON, April 2.—The Senate Munitions Committee, winding up its spectacular career with a series of reports, will recommend and offer a bill for government ownership of munitions plants.

Existing production facilities for primary munitions could be taken over for about \$65,000,000, the committee's experts estimate. That would cover naval shipbuilding, machine guns and other arms, shell and projectiles, armor plate, and at least one airplane factory.

Proposals for nationalization of the munitions industry will be bitterly fought by munitions makers, the army and navy, and passage of the bill for that purpose which the committee will present is doubtful.

The opposition would claim that nationalization would cripple the country in event of war—although this hardly seems true of battleships. Their building requires long periods and they must be ready before hostilities.

Tests of public sentiment, however, have shown enormous interest in the munitions problem and strong support for government production.

they?"

One on the Chin The committee took one on the chin when Sullivan, for the 10th or 11th time, quizzed Clements on a story in the Townsend Weekly which was based on a congressman's charge on the floor that investigators had adopted "back-alley tactics."

Wild Welcome for German Battalions in Rhineland

News of the coming of German battalions spread like wildfire through the cities of the demilitarized Rhineland. Almost magically the streets were decked in flags and banners. Crowds filled the streets and made the welkin ring with cheers when the contingents in field green arrived. In this picture, just received in America, is portrayed the unbridled welcome given troops entering Freiburg—the first to be stationed there since the World War.

Club Has Centennial Tea

Wednesday Club Entertains Other Study Organizations of the Town at Patriotic Affair Held in the County Museum

With the county museum in the basement of the courthouse as an appropriate setting, the Wednesday club was hostess to other Study Clubs of the town at a Centennial tea Wednesday afternoon at 3:30 o'clock.

The long museum room, its walls hung with pictures and with other mementoes of bygone days and lined by cases of exhibits, made an apt background for the patriotic program, tending to guide the thoughts of those present back to the pioneer days which Texans are this year honoring.

Flowers, arranged in baskets and vases about the room, were all grown in Midland. The six flags of Texas were grouped at the end of the room where program numbers were presented.

A particularly effective touch was added to the occasion through the pioneer costumes worn by members of the Wednesday club who were in the houseparty. Hoopskirts, trains, delicate laces, flowers, and antique jewelry combined to make a picturesque and colorful resume of decades-ago fashions as displayed by Mmes. J. M. Caldwell, M. R. Hill, Frank Elkin, R. L. Miller, J. M. DeArmond, John Perkins, H. C. Barnes, Sam Cummings, W. T. Walsh and John P. Butler.

Mrs. W. T. Walsh, presiding in the absence of Mrs. W. G. Whitehouse, opened the program by reading the following telegram, dated March 31, from Governor Alfred:

"Please convey my best wishes to women's Federated clubs of Midland on the occasion of the Centennial tea tomorrow. I wish every success to the splendid work of your organizations. The purpose of your meeting is indeed worthy of further observance by other similar clubs throughout the State." (Signed) James V. Alfred, Governor of Texas.

Mayor M. C. Ulmer gave the greetings for the occasion, stressing the belief that we "should labor for what we can put into the government, not for what we can take out" and that the greatness of the United States is not due to its resources but solely to the social attitude of the people—the interest in helping each other.

As the first musical number, Mrs. Tom Sealey presented a violin solo, "Indian Love Call," accompanied by Mrs. Frank Miller.

Miss Leona McCormick read a poem on the Alamo written by Mrs. Nettie Power Houston Bringham, descendant of General Sam Houston. Read with feeling, the poem carried a definite note of patriotic fervor. Miss McCormick prefaced her poem with a brief account of the fall of the Alamo as it would be written today by a large daily newspaper.

The girls' quartet of the High School, scheduled to sing, was unable to appear because of illness among the members and with other engagements.

able to appear because of illness among the members and with other engagements. The boys' quartet, presented two numbers, the second an encore, under direction of Mrs. De Lo Douglas. Singers were: Dick Hamlin, Stanley Young, Robert Prothro, Jack Carroll.

Mr. Tom Sealey, Midland attorney, presented the Centennial address which was the feature of the afternoon. He described briefly the origin of the Centennial movement at a meeting of advertising clubs in 1923, through the various legal procedures which made it a reality, up to its present status. Going back then to the first discovery of Texas by Cabeza de Vaca who claimed it for Spain on being shipwrecked on its shores in 1528, he gave a concise and interesting review of its history through the days of colonization, its struggle for freedom, its existence as a republic, its troubled years during and after the Civil War up to its present prosperity and power as the largest state in the Union. The greatness of Texas as attested by its rank in the Union as first in the production of oil, cotton, cattle, sheep, mohair, sulphur, and other products in addition to mere geographical dimensions.

Continuing the dominant theme of the day, Mrs. Foy Proctor sang "Going Home to Texas," accompanied by Mrs. Fred Wilcox. As her second number she sang, by request, a cowboy song "I'm a Roving Cowboy."

A social hour followed the program during which Mrs. E. C. Brunton was at the piano. The tea table served during the social period suggested the Texas motif, even the napkins carrying a picture of the famous Texas longhorn steer. Plate favors were tiny Texas flags and a blue and pink note was employed in mints.

Signing the guest register were: Mrs. Richard E. Gile, Jenny Elkin, Ruby Hodges, Mrs. Johnny Ratliff, Mrs. Alf Reese, Mrs. Paul Osborne, Mrs. Bob Hamilton, Mrs. R. C. Tucker, Mrs. Alden Donnelly, Mrs. W. M. Blevins, Mrs. N. W. Bigham, Mrs. J. M. Filson, Mrs. A. O. Thomas, Mrs. S. H. Gwyn, Mrs. G. C. Driver, Mrs. Paul Barron, Mrs. Elliott Barron, Mrs. J. P. McCord, Santa Anna.

SEPARATION

By Helen Welshimer

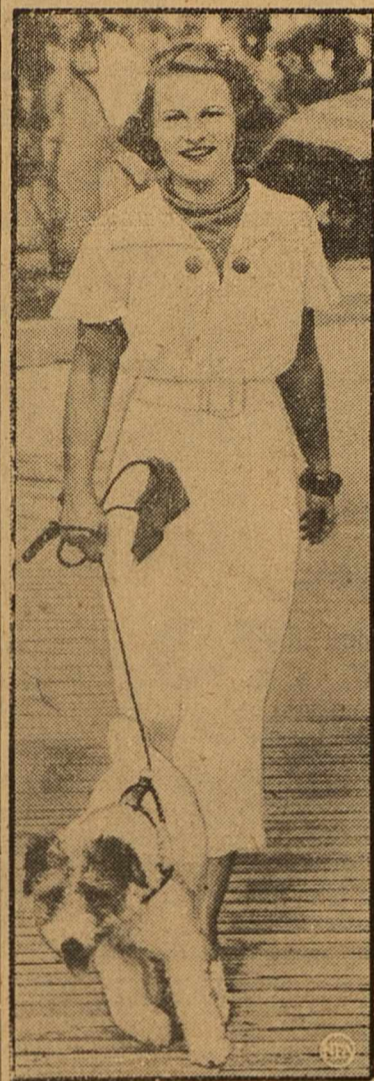

I CAN NOT run to tell you
The dogwood bloomed today,
That I have planned the garden,
Beloved, your favorite way;

AND that last April's robins
Are back again this year,
Or that I've saved a sonnet
I think you'd like to hear....

WOULD gaiety of Heaven
Hold deeper charm for you,
If I were there to share it
The way I used to do?

For Daytime Wear

Two Are Hostesses To Methodist Circle At Ranch Wednesday

Mrs. Otis Ligon and Mrs. Jess Prothro were hostesses to the Mary Schaffner circle of the Methodist missionary society at an all-day meeting and buffet luncheon at the ranch home of Mrs. Prothro Wednesday.

Arriving at about 10 o'clock at the ranch, the guests occupied the remainder of the morning knitting and sewing.

At noon a chicken dinner was served in buffet style to 17 members of the circle.

Afternoon hours were passed in social amusements and in a short business session.

Present were Mmes. B. F. Haag, C. C. Thomas, Mary Ray, E. V. Guffey, Lucian Joplin, K. C. Minter, C. C. Watson, Ellis Conner, Kirby Sims, Frank Adams, Joe Capriotti, M. H. Crawford, Holt Jewell, E. D. Richardson, L. L. Payne and the hostess.

Remodeling Starts On Grand Building

Work was started this morning on remodeling the Grand theatre building, owned by J. Howard Hodge, preparatory to its occupancy by the J. C. Penney Co. The contract, held by F. W. Stonehocker, called for completion in sixty days.

Hodge said today the upper story will be removed, the entire front changed and rebuilt in ultra-modern style, with new face brick of lighter color used. A balcony will be constructed at the rear of the 50 by 140 foot structure, to house the ready-to-wear department of the store.

Unoccupied since operation of the old theatre was suspended when Hodge acquired other theatres here, the building is being remodeled throughout to meet terms of a ten year lease granted the Penney concern.

TRANSFERRED HERE

Bert Ross formerly with the Humble Oil & Refining Co. here, is being transferred back to Midland from Breckenridge. He is in charge of the district from Sweetwater west to El Paso. He and Mrs. Ross will make their home here as soon as a house can be secured.

TO MISSISSIPPI

O. W. Ligon will leave Thursday for Tupelo, Miss., to visit for several months in the home of his

Greenwood Church Will Have BTU Rally Sunday

The association BTU rally for the Big Spring association will be held at Greenwood church east of Midland Sunday afternoon, the session opening at 3 o'clock.

Mr. Ira M. Powell of Big Spring will be moderator and the following program will be presented:

3:00 p. m.—Song and praise service, Mr. Powell.

3:20 p. m.—Two-minute response from each church given by BTU director or pastor.

3:40 p. m.—Goals and meetings for the week—Miss Nola Hasty, Dallas.

3:50 p. m.—Building Better BTU's Rev. Elmer Dunham, Santa Anna.

4:15 p. m.—Adjourn.

Miss Hasty, who presents a ten-minute talk, is campaign director. Sunday's meeting will follow a meeting at the First Baptist church at Big Spring Saturday afternoon at 4 o'clock.

Every Baptist church in the association is asked to have a representative present at Greenwood Sunday, whether or not the church is taking part in the district-wide BTU revival and whether or not it now has a BTU organization.

FEMINE FANCIES

BY KATHLEEN EILAND

The pioneer costumes worn by the houseparty at the Wednesday club's Centennial tea in the county museum Wednesday afternoon added a delightful note of brightness and femininity to the occasion.

Varying from trains to hoopskirts in design, each gown had its own individuality of style. The Midland women who wore them could certainly hold their own with any group of pioneer women in attractiveness of appearance, even though they are unaccustomed to the rather hampering garments.

One of the houseparty told us that the heavy tan silk gown she wore was part of the wedding trousseau in the 1860's of a woman who moved to Midland in the 1880's. She was wearing a cameo brooch which had been in the possession of another Midland family for more than a hundred years.

The tea was the largest social event which has been given here in observance of the Centennial. We hope that it will initiate a series of events for such affairs will tend to arouse a realization that this year is Texas' birthday.

Announcements

Friday
The weekly luncheon of the women's GOLF association scheduled for Friday at the Country club will be postponed until Friday of next week when Mrs. D. J. Finley and Mrs. W. R. Bowden will be hostesses.

South Ward PTA will meet at the school building Friday afternoon at 3:15 o'clock for a business session.

Saturday
Chaparral Troop, Girl Scouts, will meet at the home of Mrs. L. G. Lewis, 714 W. Kansas, Saturday morning at 10 o'clock. Each girl is asked to read for some requirement to be passed.

The story hour will be held in the children's library at the courthouse Saturday morning from 10 o'clock until 11, under direction of Mrs. J. R. Ashley.

B. W. FLOYD HOME

B. W. Floyd, who has spent several months in Corpus Christi, San Antonio and Mineral Wells, is back at home here. He reports his health improved.

LUCKY STRIKE CIGARETTES

A LIGHT SMOKE OF RICH, RIPE-BODIED TOBACCO

Although the constituents of cigarette paper are, in themselves, unsurpassed in purity and wholesomeness, it may, if crudely fabricated, contribute a marked degree of irritation to cigarette smoke. Cigarette paper not only envelops the tobacco in forming a cigarette, but through its physical properties may exercise a favorable or detrimental influence upon the products of combustion. Paper for Lucky Strike Cigarettes is made under our own supervision. Samples of each lot of cigarette paper manufactured are subjected to the most rigid analysis before it is used in making Lucky Strike Cigarettes.

Copyright 1936 The American Tobacco Company

Luckies are less acid

Recent chemical tests show that other popular brands have an excess of acidity over Lucky Strike of from 53% to 100%.

FLUSH OUT 15 MILES OF KIDNEY TUBES

Medical authorities agree that your kidneys contain 15 miles of tiny tubes or filters which help to purify the blood and keep you healthy. If you have trouble with too frequent bladder passages with scanty amount causing burning and discomfort, the 15 miles of kidney tubes may need flushing out. This danger signal may be the beginning of nagging backache, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. If kidneys don't empty 3 pints a day and so get rid of more than 3 pounds of waste, poisonous matter may develop, causing serious trouble. Don't wait. Ask your druggist for Doan's Pills, which have been used successfully by millions of people for over 40 years. They give happy relief and will help to flush out the 15 miles of kidney tubes. Get Doan's Pills at your druggist.

28 WELLS PUT ON COMPLETED LIST IN BASIN LAST WEEK; 26 ARE PRODUCERS

BY FRANK GARDNER
Twenty-eight wells were put on the completed list last week, the most for any one week so far this year. Of these, 26 were producers adding a total of 22,108 barrels to the West Texas daily potential, one a gas well and one an abandoned location.

The completions follow:

Crane County
Gulf No. 4 Henderson, 1,650 feet from the south and 330 feet from the east line of section 3, block B-23 public school land. Elevation, 2,773. Treated with 5,000 gallons of acid. Initial production, 80 barrels per hour, flowing. Top of pay, 3,546. Total depth, 3,550.

Humble No. 1 Tubbs, 980 feet from the north and 900 feet from the west line of section 11, block B-27, public school land. Elevation, 2,557. Treated with 2,000 gallons of acid. Initial production, 861 barrels per day, flowing. Top of pay, 4,284. Total depth, 4,375.

ECTOR COUNTY
W. H. Dunning No. 1 Scharbauer, 440 feet from the south and 2,200 feet from the west line of section 33, block 44, township 1 north, T. & P. survey. Elevation, 3,159. Shot with 120 quarts from 4,145 to 4,175. Initial production, 127 1-2 barrels per day, flowing. Top of pay, 4,163. Total depth, 4,175.

Gulf No. 2 Goldsmith, 2,200 feet from the north and 440 feet from the east line of section 15, block 44, township 1 south, T. & P. survey. Elevation, 3,100. Initial production, 1,052 barrels per day, flowing. Top of pay, 4,112. Total depth, 4,170.

Gulf No. 7 University, 990 feet from the south and 440 feet from the west line of section 1, block 35, University survey. Elevation, 2,896. Shot with 320 quarts from 3,462 to 3,695. Initial production, 310 barrels per day, flowing. Top of pay, 3,485. Total depth, 3,700.

HOWARD COUNTY
Continental No. 29 Settles, 1,320 feet from the north and 2,150 feet from the west line of section 133, block 29, W. & N. W. survey. Treated with 5,000 gallons of acid. Initial production, 773 barrels per day, pumping. Top of pay, 2,274. Total depth, 2,400.

SINCLAIR-PRAIRIE No. 3-B Demman, 330 feet from the north and 2,310 feet from the east line of section 10, block 30, township 1 south, T. & P. survey. Shot with 700 quarts from 2,552 to 2,826. Initial production, 713 barrels per day, flowing. Top of pay, 2,532. Total depth, 2,836.

PEECOS COUNTY
California No. 12-S M. A. Smith, 547 feet from the north and 700 feet from the west line of section 23, block 194, G. C. & S. F. survey. Elevation, 2,752. Shot with 100 quarts from 890 to 912. Initial production, 33 barrels per day, pumping. Top of pay, 890. Total depth, 959.

Cardinal No. 1-B Smith, 425 feet from the south and 155 feet from the east line of section 3, block 194, G. C. & S. F. survey. Elevation, 2,404. Treated with 1,000 gallons of acid. Initial production, 10 barrels of oil and 90 barrels of water per day, flowing. Top of pay, 1,247. Total depth, 1,361. Plugged back to 1,347.

Marathon No. 32-B Yates, 1,028 feet from the south line of section 61 and 2,122 feet west of the northeast corner of the west half of section 60, block 1, I. & G. N. survey. Elevation, 2,334. Initial production, 355 barrels per hour, flowing.

Atlantic No. 4-J Hendricks, 1,650 feet from the north and east lines of section 14, block 26, public school land. Elevation, 2,876. Shot with 425 quarts from 2,784 to 3,022. Initial production, 887 barrels per day, flowing through tubing. Top of pay, 2,784. Total depth, 3,022.

R. H. Henderson No. 1 Hill, 330 feet from the south and east lines of section 25, block B-3, public school land. Location abandoned.

Humble No. 2 Howe, 1,650 feet from the north and 2,310 feet from the east line of section 12, block 26, public school land. Elevation, 2,396. Shot with 225 quarts from 2,356 to 2,922. Initial production, 680 barrels per day, flowing. Top of pay, 2,850. Total depth, 2,922.

Humble No. 5-A Walton, 2,310 feet from the south and west lines of section 48, block 26, public school land. Elevation, 2,843. Shot with 390 quarts from 2,837 to 3,100. Initial production, 156 barrels per day, flowing. Top of pay, 2,937. Total depth, 3,115.

Sid Richardson No. 4 Sealey, 1,650 feet from the south and 330 feet from the west line of section 94, block A. G. & M. M. B. & A. survey. Elevation, 2,680. Shot with 150 quarts from 3,070 to 3,110. Initial production, 883 barrels per day, flowing. Top of pay, 3,070. Total depth, 3,130.

Top of pay, 1,096. Total depth, 1,234. Stanolind No. 15-B Tippett, section 61, block 194, G. C. & S. F. survey, 370 feet north and 390 feet east of the northeast corner of the west 160 acres of section 40. Initial production, 356 barrels per day, pumping. Top of pay, 361. Total depth, 395.

UPTON COUNTY
I. T. I. O. and Foster No. 1-A Cordova-Union, 1,650 feet from the north and east lines of section 3, block AB, A. E. Baxley survey. Elevation, 2,579. Treated with 3,000 gallons of acid. Initial production, 25 barrels of oil and 76 barrels of water per day, pumping. Top of pay, 2,045. Total depth, 2,335. Plugged back to 2,075.

LUCAS No. 1 Lane, 990 feet from the south and 2,310 feet from the east line of section 1, G. C. & S. F. survey. Elevation 2,609. Treated with 3,000 gallons of acid. Initial production, 220 barrels per day, pumping. Top of pay, 2,148. Total depth, 2,177. Plugged back to 2,171.

WARD COUNTY
Cecil Cothran No. 1 Kate Green, 990 feet from the southwest line of section 29, block B-29, public school land. Elevation, 2,490. Shot with 155 quarts from 2,255 to 2,360. Initial production, 340 barrels per day, flowing. Top of pay, 2,240. Total depth, 2,360.

EATSLAND No. 2 Johnson, 330 feet from the northeast and 990 feet from the northwest line of section 24, block 34, H. & T. C. survey. Elevation, 2,567. Shot with 120 quarts from 2,400 to 2,498. Initial production, 101 barrels per day, flowing. Top of pay, 2,460. Total depth, 2,498.

ELLIOTT and Hardesty No. 1 Costley, section 2, J. Howe survey, 330 feet southeast and southwest of the south corner of section 19, block 34, H. & T. C. survey. Elevation, 2,486. Initial production, 10,000 cubic feet of gas per day. Total depth, 2,589.

ELLIOTT and Hardesty No. 3 Wallis, 330 feet from the southeast and southwest lines of section 19, block 34, H. & T. C. survey. Elevation, 2,507. Shot with 390 quarts from 2,355 to 2,612. Initial production, 283 barrels per day, flowing. Top of pay, 2,355. Total depth, 2,612.

EPPENBAUER No. 3-A Combs, section 4, J. W. Hollingsworth survey, 1,096 feet northeast of Atlantic No. 2 Miller. Elevation, 2,468. Shot with 415 quarts from 2,351 to 2,476. Initial production, 489 barrels per day, flowing. Top of pay, 2,360. Total depth, 2,477.

Humble No. 6 Richter, 1,650 feet from the northwest and 4,170 feet from the northeast line of section 27, block 34, H. & T. C. survey. Elevation, 2,599. Shot with 190 quarts from 2,481 to 2,575. Initial production, 486 barrels per day, flowing. Top of pay, 2,467. Total depth, 2,575.

Wahlenmaler No. 2 Humble-Potts, 1,650 feet from the southeast and 990 feet from the southwest line of section 28, block B-29, public school land. Initial production, 326 barrels per day, flowing. Top of pay, 2,250. Total depth, 2,390.

WINKLER COUNTY
Atlantic No. 4-J Hendricks, 1,650 feet from the north and east lines of section 14, block 26, public school land. Elevation, 2,876. Shot with 425 quarts from 2,784 to 3,022. Initial production, 887 barrels per day, flowing through tubing. Top of pay, 2,784. Total depth, 3,022.

Visions New War on Way

Hand uplung dramatically in the passionate fervor of his oratory, Premier Benito Mussolini of Italy is shown here in characteristic pose. Predicting a new war, Il Duce abolished Italy's chamber of deputies and all large private industries in his realm, substituting for the chamber a council of guilds.

flowing through tubing. Top of pay, 2,784. Total depth, 3,022.

R. H. Henderson No. 1 Hill, 330 feet from the south and east lines of section 25, block B-3, public school land. Location abandoned.

Humble No. 2 Howe, 1,650 feet from the north and 2,310 feet from the east line of section 12, block 26, public school land. Elevation, 2,396. Shot with 225 quarts from 2,356 to 2,922. Initial production, 680 barrels per day, flowing. Top of pay, 2,850. Total depth, 2,922.

Humble No. 5-A Walton, 2,310 feet from the south and west lines of section 48, block 26, public school land. Elevation, 2,843. Shot with 390 quarts from 2,837 to 3,100. Initial production, 156 barrels per day, flowing. Top of pay, 2,937. Total depth, 3,115.

Sid Richardson No. 4 Sealey, 1,650 feet from the south and 330 feet from the west line of section 94, block A. G. & M. M. B. & A. survey. Elevation, 2,680. Shot with 150 quarts from 3,070 to 3,110. Initial production, 883 barrels per day, flowing. Top of pay, 3,070. Total depth, 3,130.

from the south and east lines of section 2, block 74, public school land. Elevation, 2,900. Shot with 90 quarts from 3,040 to 3,220. Initial production, 11 barrels per day, Top of pay, 3,058. Total depth, 3,297. Plugged back to 3,235.

BACK TO SCHOOL
Misses Peggy Jo Howze and May Beth Jenkins left Wednesday for CIA after spending the spring holidays with relatives here.

BRUINS TO MEET MUSTANGS IN TWO GAMES THIS WEEK

WACO, Tex.—Coach Morley Jennings sent his hopeful Baylor Bears baseball candidates through a strenuous practice session Wednesday afternoon in preparation for their first road trip of the season. The Bruins will trek to Dallas this week end where they will meet the Southern Methodist Mustang nine Friday and Saturday on the Methodist's diamond. It will be the second series of the conference for each of the teams.

The hard-hitting Bears are considered the edge over the Ponies in the series as indicated by 'last week's' results. The Mustangs lost their pair of opening matches to the Texas Christian Frogs, while the Grizzlies split their series with the Texas Aggie nine. The first day the Bears came up on the short end of a 13-1 slugfest, but on the following afternoon Jelly SoRelle, ace Bruin hurler, let the Farmers down with only six blows to cop the contest, 7-3.

Baylor's regular nine displayed plenty of power at the plate as they collected 17 hits in the first match and 12 on the second occasion. These safeties gave the Bruin team over .350 batting average for the series. Howard Lee, Bill Marstella, Ross Hightower, Lloyd Russell, and Doc Henslee were the batting aces for the Bruin aggregation. Henslee, receiver on the Bruin outfit, clouded out a timely home-run each day.

Where the hitting power of the Grizzily team has shown marked improvement, the Bears are lagging a bit in fielding and pitching. Miscues on the part of Baylor infielders meant a loss to the Ags in the opening affair. SoRelle seems to be sure-fire on the mound, while Mike Ducey and Malcolm Alston are the second and third pitchers for the Jenningsmen.

RICE AND AGGIES OPEN SEASON FRI.
COLLEGE STATION, Texas.—The Rice Institute Owls will help the Texas Aggies open their home Southwest Conference baseball season on Kyle Field here Friday and Saturday, April 3-4, in a two-game series. It will be the first time that Aggie and Owl diamond clubs have met since 1932.

The Aggies split with the Baylor Bears in their conference opener the past week-end at Waco, winning the first game 13-11 and losing the second 3-7. The University of Texas Longhorns blanked the Rice Owls 5-0 at Houston. Mike Seale, 'Tight' Lodge and Sam Mays are expected to be Owl hurlers for the series here, with Seale and Mays slated to get the starting assignments. Aggie Coach, 'Slim' Sikes will chose between 'Doc' Pinner and Horner Marti-

Twins, 81. See First Talkie

BIRMINGHAM, Ala. (U.P.)—Elisha and Elijah Simmons—believed to be Alabama's oldest twins—spent a feverish few hours sight-seeing here recently. The 81-year-old brothers saw their first talkie, and had their first express elevator ride.

FROM CRANE

Mrs. W. W. Boyd, Mrs. T. E. Harris and Mrs. Birch were visitors to Midland from Crane Wednesday.

LATEST FEATS IN THREE INVENTIVE FIELDS ARE HAILED BY SCIENTISTS

NEW ORLEANS, April 2. (U.P.)—Inventors, said Albert G. Burns, eyeing a mouse electrocution trap, are the ones who will pull America out of the dumps.

Burns spoke as president of the National Inventors' Congress. He is conducting the Southern Inventors' Congress opening here today and feels responsible for getting inventors sold and commercialized to the business world. Inventors themselves don't know much about such problems, he admitted.

Big, bespectacled and enthusiastic as a physical culture exponent addressing school children, Burns took up and demonstrated an egg separator gadget. Then he looked admiringly around his office that was littered with a variety of gadgets and models. Apparently everything from a non-heating cooking pan spoon to a steam engine was there.

Praise for Americans

"In the language of the street," said Burns, "persons willing to spend their lifetime developing contributions for the benefit of the human family are just plain nuts." But if this is true, America can be proud of the nuts. This country is great because of creations by that class of people generally referred to as fools.

"When you talk about the world's progress, you really are referring to America, because 80 per cent of inventions find origin here. If America's business organizations had optimism, enthusiasm and tenacity of the average inventor, we would not find ourselves in the doldrums. The inventor may be a nut, but he is an individual who has not lost confidence either in his country or himself."

Lists Major Developments

Latest major developments affecting the welfare and future of

the nation, Burns said, are in order:

Air conditioning—not simply air cooling—a new interpretation of housing and living; television, rather than radio, for a new worldwide communication system; aviation improvements, such as a new all-metal substratosphere dirigible.

Vast social and economic changes are due to follow recent mechanical achievements, Burns said. He referred to the NRA principal of working men rather than machinery, and denounced the governmental policy of "not encouraging anything that would be a labor-saving device."

"No invention—a basic idea—ever threw men out of work," he said. "Real inventions always create work. True enough, some stage coach drivers who couldn't learn to be brakemen lost their jobs, and some blacksmiths who didn't go into tire repair work lost out when the automobile came along. But look how many millions of jobs the railroad and automobile created."

Inventors Estimated at 22,000

There are some 22,000 busy inventors in America, Burns revealed, and a number of the outstanding ones will address the four-day congress here, which includes 14 states.

Among the speakers were to be Clark L. Fry, Macedah, Wis., inventor of the single-poppet valve motor; Dr. Herman A. Fiske, St. Louis, inventor of the auto-motor for aircraft; W. B. Chenoweth, Chicago, who built the first six-cylinder automobile in 1899; Charles R. Miner, San Francisco, with his model of a new all-metal dirigible; Thomas W. Carraway, Dallas, developer of an air-conditioning unit; Mrs. Margaret Hess, Morocco, Ind., home economics expert, will explain new kitchen aids created by women.

STATE INSPECTOR COMMENDS HIGHLY WORK OF SCHOOLS

Miss Sue Mann, Deputy State Superintendent of Public Instruction, on the annual visit of inspection yesterday, was highly pleased with the progress being made in the Midland High School.

At Miss Mann's request a special assembly was called that she might have an opportunity to see the auditorium work and she was highly impressed with the type of program carried on.

"For years," said Miss Mann, "the Midland school system has been recognized as one of the leading schools of Texas. I especially wish to commend the school for its progress in the field of music. It is one of the pioneers of the state in that respect and has furnished a trail for other schools to follow."

Miss Mann thought the quality of the work very excellent. She compared the students' singing with choruses which she had heard sung by well-trained school children in Germany. She stated that this was the first time she had heard a student body in America sing as beautifully as the German students sang.

The Deputy Superintendent also found the other departments of the school functioning well, and commended the well-rounded course of study made possible for the students. She even suggested to the superintendent that the Midland schools be used next year as one of the official laboratory schools in the state curriculum study program.

Deputy State Superintendent Mann attended the dinner given for the school board and their wives, the superintendent, and the principals by the Foods III class of the home economics department Tuesday evening at the high school. She spent Wednesday morning inspecting the other schools of the city, going to the Junior high school where she observed assembly work and heard declamations in the University Interscholastic League contests, and from there to North Elemen-

Farm Debt Financing Reaches Two Billion

Real estate mortgage loans to farmers by the Farm Credit Administration since its organization in May 1933 passed the \$2,000,000,000 mark today according to a statement by W. I. Myers, Farm Credit Administration governor.

Farmers borrowed \$1,150,000,000 on first mortgage security from the Federal land banks and \$845,000,000 from the Land Bank Commissioner, who makes loans on second as well as first mortgage security.

"Lending operations for emergency refinancing to alleviate depression conditions passed the peak nearly two years ago," Governor Myers said. "Since then, a gradually increasing percentage of land bank and Commissioner loans have been made for normal refinancing of farm mortgages, for new loans to purchase farms, and for other purposes. Recently, first mortgage loans have constituted a larger percentage of the total than formerly, indicating that the need for second mortgage financing is diminishing with the passing of the emergency."

Farmers borrowed \$1,800,000,000, or about 90 per cent of the total loaned, for the specific purpose of refinancing old debts. The original debt owed to other creditors before refinancing was about two billion dollars, but creditors wrote off approximately \$195,000,000, which offsets the \$200,000,000 which farmers borrowed from the land banks and Commissioners for new financing and other purposes.

"The tremendous refinancing operations of the land banks and the Commissioner have not caused much increase, if any, in the total farm mortgage debt," Governor Myers said. "The carrying charges have been greatly reduced. Interest rates on old debts averaged 6.3 per cent a year. These have been refinanced with long-term mortgage loans carrying interest rates of 4 to 5 per cent a year, resulting in an annual interest saving of \$39,000,000. In addition, Congress has temporarily reduced the interest rates on all outstanding Federal land bank loans.

Historical Data On Midland County for New Book is Desired

Can you cook an unusual dish? One concocted perhaps from a foreign recipe or from an old historical recipe handed down in your family for generations, one that no one else can make? If so, it is possible that you will find yourself in the American Guide, that monumental five volume work being compiled at the present time by WPA workers for the use of tourists, students, research workers and the general public. Although most people seem to have received the erroneous impression that this project is a movement to collect history alone, such interesting and unusual facts are in reality of utmost importance.

A guide book has many phases: points of archaeological interest, literary achievements, homes of famous people, local customs, flora and fauna, weather conditions peculiar to the territory and many others. The time for finding this material is limited, and the workers few; so an appeal is being made to the public spirited people of the various counties to offer their services in the collection of data. We want to know who's who in West Texas and also What's What.

The Department at Washington was so interested in one fact about this section of the country that a fuller treatment was requested. This was the introduction of cotton to the Panhandle by Henry Taylor, whose children planted the "wool" beans that came about some fine eggs sent up from Fort Worth. This indicates that there is nothing that may be considered unimportant in gathering material.

If you will help in the project, please notify Mrs. Hal C. Peck of Midland, Texas, for Midland, Estor and Andrews counties, or write Mrs. H. S. Faw, Local Supervisor Writers' Projects, Big Spring, Texas.

amounting to a reduction of approximately \$20,000,000 for the calendar year 1936. Altogether, 850,000 farmers are saving \$58,000,000 on interest alone this year."

Nearly half million farmers have been reduced since the Farm Credit Administration was organized less than three years ago, he explained. The Federal land bank made first mortgage loans to 295,000 farmers and the Land Bank Commissioner made 455,000 first and second mortgage loans. Many of the largest class of farm mortgage lenders, held slightly less than a billion dollars of farm mortgage loans at the end of 1935, and commercial banks about \$500,000,000. The total outstanding farm mortgage debt to all classes of creditors is estimated at \$1,770,000,000.

Piggly Wiggly Has Anniversary Sale

Observance of the tenth anniversary of the Piggly-Wiggly store is announced today by J. M. Speed and Sons, operators of the grocery department, and L. E. Jones, proprietor of the market.

The store which, during that time, has doubled its floor space, has figured prominently in the marketing of foodstuffs here. J. M. Speed is one of the pioneer merchants of this section.

Special week end prices, to commemorate the anniversary, are announced in a full page advertisement of the grocery and market in this issue of The Reporter-Telegram.

STOMACH SUFFERERS

If you are suffering from indigestion, atonic dyspepsia, sour stomach, gas pains, "raw stomach," inflammation of the intestines (enteritis), gastric acidity and flat headaches, due to excessive acidity, you can't afford to ignore these warning signs. You should try at once the Doctor's Prescription, known as Gasa Tablets. If you allow these conditions to become worse, the acids may eat into the delicate mucous membrane of your stomach and intestine and possibly cause dangerous ulcers. Gasa Tablets soothe the raw, inflamed lining of the "acid stomach" and help convert starchy foods into destruet, which is so essential to energy of the body, and preservation of health. Take just one or two Gasa Tablets, and see how they help your stomach to "handle a hearty meal." The first bottle must produce results or money back. On sale at
