

Flood Waters Endanger San Angelo

FOUR AND ONE-HALF INCHES FALL TODAY

A report from San Angelo at three o'clock this afternoon said that several houses in the low areas of San Angelo had been washed away by the raging flood waters of the North and South Concho rivers. Rains in that area have temporarily let up but the rivers have shown no signs of going down.

(By Associated Press)

Torrential rains aggravated the San Angelo flood situation today, cutting the city off in all directions and threatening the water supply and hampering communications after four and one-half inches of rain fell there last night and today. The south, north Conchos are in the middle of the week's biggest rises.

Other streams in the southern part of the state are swelled where a prolonged drouth is definitely relieved. Nearly every part of the state reported rain which for the most part was beneficial to farm and range lands.

DU PONT COMPANY SAID TO OWN STOCK IN GERMAN FIRMS

Armament Plans Of Nation Backed By Group

WASHINGTON, Sept. 17. (AP)—The senate munitions investigating committee said in a report today that the du Pont, de Nemours company, an American chemical firm, owns over \$800,000 worth of stock in the giant German armament trust.

Heavy rains fell at Gainsville, Denton, Dallas, Fort Worth, Abilene, Sherman, Sterling City, Grape Creek, McKinney and Van Alstyne.

Water Valley had over 20 inches of rain last night and today—and Christoval, at the head of the south Concho river, had an even heavier fall.

Grape Creek and Carlsbad, where the state sanatorium for tuberculosis patients is located, are under water. There is no fear for the safety of the sanatorium inmates, however.

Total precipitation in Midland from a slow drizzling rain that fell most of the night and today was reported as 50 of an inch from the weather bureau of the Southern Ice and Utilities company.

The slow drizzle started last Wednesday afternoon and has never reached the hard rain stage. The heavy winds were whipping it across the city last night, but with the fall it has been almost direct today.

Crops and ranges have been benefited largely by the slow rains but observers state that much more is needed to enforce the maximum benefit.

Continued showers are predicted for this area, but general downpours such as have fallen in the San Angelo sector for the past few days are not predicted.

It was reported today that McCamey, Rankin and Odessa had received showers but not enough to be beneficial to crops and ranges.

NORTH WARD PTA TO MEET FRIDAY

Program For Year Will Be Worked Out In Initial Session

The North Ward Parent Teachers' Association urges all of the mothers who are associated in any way with the children who attend North Ward to attend the meeting at the school building Friday afternoon.

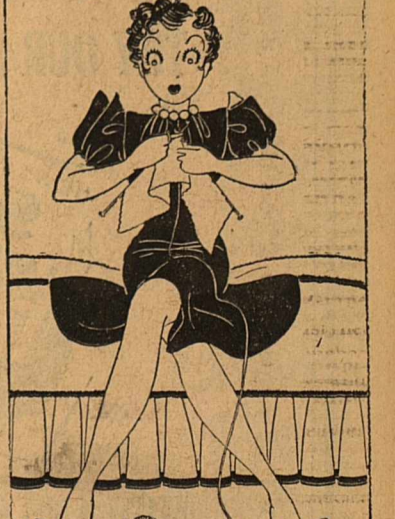

It will be an important social meeting to work out the program for this year, and one that should mean a great deal to one interested in the progress of the school.

Canadian Schools Use British Empire Fuel

MONTREAL (UP)—British Empire fuels will be used exclusively next winter to heat schools under the administration of the Montreal Protestant Board of School Commissioners.

The board will purchase 10,000 tons of coal mined either in Canada or in Scotland and Wales.

FLAPPER FANNY SAYS

Hand knitted dresses are precious because they're made with puris.

ALLOWABLE HIKE ON 4 OIL FIELDS

Goldsmith, North Ward Increases Granted, Dispatches Say

Daily allowable production of four West Texas oil fields was ordered increased yesterday by the state railroad commission, said Austin dispatches.

The special orders provided the following changes:

North Ward, up from 6,360 to 8,360 barrels daily; World pool, Crockett county, 1,023 to 1,323; Iatan, east Howard, 6,936 to 7,590 and Goldsmith field, Ector county 902 to 1,960.

Field rules adopted provided 10-acre well spacing and casing programs for the Estes and south Ward fields in Ward county.

MOLLISON TO TRY ATLANTIC FLIGHT

Will Leave Brookly On London Trip, Hopes 17 Hours Plenty

LONDON, Sept. 17. (AP)—J. A. Mollison, Australian, announced today that he would take off from Brooklyn October 17 on a trans-Atlantic flight to England. He hopes to make the flight in 17 hours.

HEALTH PROGRAM STARTS IN COUNTY

Negro Population Will Benefit By Service Of Organization

A Health Program, under the supervision of the Midland County Public Health Service is beginning in Midland and in the county among the negro population.

The State Department of Health is furnishing an itinerant colored health nurse for the service. An extensive program will be carried on during this month, including Child Health Conferences, Health Surveys, and Health talks.

A colored committee will soon be organized to work with the Health nurse and assist her in this helpful program.

HORSES DIE IN SLEEP

CORVALLIS, Mont. (UP)—Sleeping sickness, but with only horses as victims is spreading here. Several deaths have occurred, while various treatments are being used on the other sleeping animals to keep them alive.

Calling Jewry to New Year Reunion

The shrill blasts of the 'shofar', or ram's horn, resounded through the synagogues and temples of 15,000,000 Jews throughout the world, on today's eve, as they reunite for the beginning of their annual ten-day period of atonement. It is Rosh Hashonah, the Jewish New Year of 5698, culminating on Sept. 26 with Yom Kippur, the Day of Atonement, when the Jews fast and pray for absolution of their sins. A major feature of these holy days will be the annual call for a strong united Jewry, by means of the 'shofar', shown above. Only the pure and sinless, as exemplified by the patriarch above, may put his lips to this symbolic bugle.

FHA LOANS MAY BE MADE THROUGH LOCAL LOAN BODY

Title 2 Plan Voted Favorable After Sikes Visit

The Midland Federal Savings & Loan association, at a meeting of its board of directors, passed a resolution today to make application to the Federal Housing Administration for authority to make loans under title two, or the insured mortgage plan, for purchase, building or remodeling of homes here.

The insured mortgage plan was explained to the board by R. E. Sikes, F. H. A. representative from the Fort Worth office, who will be located at the office of the Midland chamber of commerce for a week, meeting interested home owners and giving full information in the plan.

Sikes said he will answer questions as to monthly payments, costs of loans and will assist in preparing applications to be submitted to the local association when it is authorized to make the loans. Only a few days will be required for the association's authorization to come from Washington, he predicted.

Sikes cited the following advantages of loans under the insured first mortgage plan which eliminates second mortgage uncertainties:

"You have only one mortgage— which may be for as much as 80 percent of the total property value. The expense of periodic refinancing is eliminated. There are no renewal worries. Instead, every month brings you a step nearer to complete ownership. Monthly installments, as convenient as paying rent, reduce the debt until you are the sole owner of a debt-free home. This is the modern, sensible way to finance a home. Own it, and pay yourself the rent!"

"It is not Government money which is loaned on an Insured First Mortgage. The Federal Housing Administration does not make loans to individuals. An Insured First-Mortgage Loan is Private capital, loaned by your own financial institution which has been approved as a mortgage-lender by the Federal Housing Administration."

"If you own a free and clear lot on which you plan to build, it can serve as all or part of the 20 percent cash down payment, depending upon its appraised value. If your lot is worth 20 percent or more of the total value of the property when improved, further down payment usually is not required. In case of refinancing, you may borrow up to 80 percent of the appraised value of house and lot combined."

TO OPTOMETRIST CLINIC

T. J. Inman left today for Abilene to attend the optometrist business clinic by Barstow there. From Abilene he will go to Fort Worth and Dallas on visits. He expects to be gone several days.

PRIVATE RELIEF TO SOON RECEIVE MORE AID FD SAYS

Says Confidence In The Country On Upswing

INCOMES DOUBLE

Compares Checks Of Population To Ones of '31

WASHINGTON, Sept. 17. (AP)—President Roosevelt told the annual meeting of mobilization for human needs today that national incomes would soon be double what was the depression's low point and "confidence returned to a great mass of our people."

He said that because of the "returning prosperity" private relief organizations should expect a large measure of private aid.

Mobilization delegates seek support for social services financed by private funds rather than taxes.

GOLDSMITH POOL EXTENSION WELL MAKES BIG FLOW

Phillips & Pure Test Gauges 306 Bbls. 3 Hours

BY FRANK GARDNER

Phillips and Pure No. 6 Cowden, half-mile east extension to the Goldsmith pool in Ector county, yesterday gauged a natural flow of 306 barrels of oil in three hours. Delayed for several days while fishing at 4,100, the well was drilled to a total depth of 4,160. The first hour of test, it flowed 119 barrels, 100 the second, and 87 the third.

Top of lime was in the No. 6 Cowden was found in a core from 4,075 to 4,091 which showed good saturation. The well was shut in for storage after the three-hour gauge. It is located 440 feet out of the northeast corner of section 23, block 44, township 1 south, T. & P. survey.

Gulf No. 8 Goldsmith, bottomed at 4,135 feet in lime, cemented 7-inch casing with 300 sacks at 4,120. York & Harper No. 1 Slater wildcat five miles west of the Goldsmith pool, is still shut down for engine repairs at 3,600 feet in anhydrite.

New Sand Well

A new sand well east of the Hendrix pool and between the Empress and Brown-Altman pools in Winkler county, Bert Fields No. 1 Pure - Cowden, flowed 35 barrels in eight hours, natural, and is scheduled to shoot today. Total depth is 3,000 feet. The well is in section 26, block B-5, public school land.

Bottomed in lime at 2,990 feet, R. H. Henderson and others No. 1 Lum Daugherty, test west of the Henderson pool in Winkler, set 5-inch casing at 2,988 with 10 sacks. Operations will broadenhead gas from between the 7-inch and 5-inch casing. The test is in section 33, block 74, public school land.

Plugging Back

Plugging back was underway yesterday in the new Glasscock discovery, Floyd C. Dodson & Barney A. Duffey No. 1 Carter in the southwest corner of section 8, block 33, township 3 south, T. & P. survey. On the last balling test it showed accumulation of 8 1-2 ballers of oil and four of water in 8 hours. The water was encountered about 2,650 to 2,669, the total depth. Casing is expected to arrive by Sunday and will be cemented around 2,620. The well will later be treated with acid.

According to today's Fort Worth Star-Telegram, the Yoakum county wildcat of Stogner and Roosevelt No. 1 Roosevelt (Googins) encountered sulphur water at 5,342 and stopped at 5,351 to determine the rate of increase. The test is north of Plains in section 215, block D, John H. Gibson survey.

Reports from the prospective pool opener in northwest Dawson county, Ray Although No. 1 Robinson, were that bailer lost in the hole yesterday had been recovered and that some more hole had been made. No estimates as to the amount of water in the hole were available. The well, formerly of a spirited play in the area, is in the center of the northwest quarter of section 16, block 46, M. E. L. R. survey.

Hurricane Warnings On Atlantic Coast

Jacksonville Fla. Sept. 17

Hurricane warnings were displayed from Wilmington to Beaufort, North Carolina, today as a severe tropical storm approached the Cape Hatteras section along the Atlantic seaboard. The storm was described as being full of hurricane intensity.

VISIT RELATIVES

Mr. and Mrs. Rankin McClarty and son, Jackie, are here from Houston, visiting Mrs. McClarty's sister, Mrs. E. H. Barron.

Devout Gather to Cleanse Shrine

The weathering of long years of rain and blistering sun was scrubbed away when the devout of New Orleans gathered around the city's famous Washing Cross in the Campo de St. Roch, and administered a thorough refurbishing to the old shrine, as shown here. For 60 years the sick and crippled have made pilgrimages to the cross to pray for healing. And, here, too, girls have come to pray for good husbands.

INDICT DUNCAN IN DEATHS OF WIFE; MURDERED MAN

Sweetwater, Abilene Grand Juries File Murder Charges

ABILENE, Sept. 17. (AP)—Murder indictments were returned yesterday against Clarence Duncan, 28-year-old Trent filling station operator, was taken from the waters of Lake Sweetwater Aug. 15.

Jurors of the 32nd court made no report on murder charges pending against Mrs. Billie Duncan and her brother, Wilmer Allen of Stamford, in Jones' death.

The Abilene indictment grew out of the death of Duncan's first wife, Mrs. Mary Duncan, whose charred body was found in the smoldering ruins of their home near Trent the morning of April 10, 1935.

The Sweetwater indictment is the aftermath of the death of G. H. Jones, whose interest in Billie Loren Allen, 19, did not cool when she became the second Mrs. Duncan on June 29, 1936. Body of Jones, 52-year-old Trent filling station operator, was taken from the waters of Lake Sweetwater Aug. 15.

Jurors of the 32nd court made no report on murder charges pending against Mrs. Billie Duncan and her brother, Wilmer Allen of Stamford, in Jones' death.

To Sell Bundle Feed at The Fair

Elmer Bizzell, Midland farmer, has been awarded the concession to sell home grown or bundle feed at the fair grounds, during the fair and race meet October 2-10, he said today.

Bizzzell expressed his thanks to the fair officials and said there would be a man on the grounds at all times to handle the feed for those wanting it and no delay would be encountered. Bizzell said good yields of feed had been made at his farms southeast of Midland.

Traffic Officer Uses "Shaming" Psychology

PORTLAND, Ore. (UP)—Traffic Patrolman Walter C. Bender, "the world's only finger-pointing traffic cop," thinks psychology is more effective on jay walkers than the voice of a bull.

Violators change before Bender, who implies "fie, fie upon you" by simply pointing his left index finger at a fender-dodger and rubs it briskly with the index finger of his right hand. "I quit following at them 20 years ago," he said, "because all I got was a sore throat."

175,000 REBELS START DRIVE ON SPAIN'S CAPITAL

Fiercest Battle Of Entire War Rages Near Toledo

RECRUIT PILOTS

'Daredevil' Flyers Being Signed By Government

MADRID, Sept. 17. (AP)—Spanish Fascists flung 175,000 men at Toledo and Madrid today on three main fronts, the fiercest battle since the outbreak of the revolution raging near Toledo where a last-minute delay gave 1,750 Fascists a final chance to evacuate the besieged Alcazar before being blown to bits from underground mines.

The government had announced that TNT had been placed under the fortress and that everyone in it, women and children included, would be destroyed by a blast.

A fascist drive on the capital began west of Madrid and a third assault from the northeast.

The government announced foreign "daredevil" pilots were being recruited to start an aerial offensive with a fleet of new bombing fighting planes.

French demands for indemnities for the execution of a Frenchman in Spanish Morocco have been unanswered.

The United States ambassador is attempting to obtain the release of three American newspapermen held by insurgents.

A train of regular army soldiers have arrived in Madrid to reinforce the attackers of the Alcazar.

RELATIVE SLAYS WOMAN; TURNS GUN ON SELF AND DIES

Verdict Withheld By Coroner On Crime

HOUSTON, Sept. 17. (AP)—Mrs. Herbert Kitzman, 28, and Fred Kitzman, 41, a distant relative, were shot to death near Cypress in west Harris county Wednesday.

Justice of the Peace J. C. Browder withheld his official verdict but said "it's just as plain as day that Kitzman killed the woman then himself."

Justice Browder said Mrs. Kitzman, found in her farm home, apparently was shot five times with a shotgun. He said he found two exploded 12 gauge shotgun shells in the house and three in the yard.

Relative said Kitzman walked to the home of his mother and shot himself with another shotgun, putting the trigger with a wire. The top of his head was blown off.

Justice Browder said he believed the woman was beaten, probably before she was shot. He said the barrel of the gun was badly out of line. The first report of the shooting came after three small children of Mrs. Kitzman walked about a mile to the home of a neighbor, John Nitsch.

RATE REDUCTION PLEAS DROPPED

T. & P. Had Requested Cheaper Shipping Of Cottonseed

AUSTIN, Sept. 17. (AP)—Three Texas railroads which had requested reductions in rates on cottonseed and products withdrew their applications Wednesday.

The Texas & Pacific, Missouri-Kansas-Texas, and Louisiana, Arkansas & Texas withdrew petitions because experts reported the bulk of the movement had taken place. Reduction had been sought in the hope of regaining tonnage taken by trucks.

The Quannah, Acme & Pacific renewed its request to the railroad commission for 33 1-3 cent per reduction on cotton seed within the local territory of its 300-mile line from Quannah to Floydada.

Loudspeaker Directs All London Station Crowds

LONDON (UP)—A "crow's nest" has been built high above the platforms of Waterloo station to help direct travelers during heavy traffic.

From it, lookout men will see the state of the traffic, receive reports from various inspectors and keep travelers informed about the trains, platforms and times. Inside the lookout is a microphone which is connected with loudspeakers in all parts of the station.

BEHIND THE SCENES IN WASHINGTON

By **RODNEY DUTCHER**
Reporter-Telegram Washington Correspondent

WASHINGTON, Sept. 17.—Unrevealed except in dry government publications, compilations now are available which show the extent to which some industries have stepped ahead of pre-depression employment and the extent to which others still lag behind.

Comparing May, 1936, with May, 1929, it is obvious that most industries are not employing as many persons as they were seven years ago when we were supposed to be enjoying boom prosperity. But quite a few industries have as large or larger payroll than they ever had before.

In some cases you can deduce

changes in American tastes and habits and in other simply the fact that certain industries are lagging behind in the current pickup. And then there's the factor, varying from one industry to another, of technological employment, which sometimes where an industry is producing at a 1929 rate with perhaps 25 or 30 per cent fewer employees.

Figure These Out

The beverage industry, of course is employing far more persons than it did in 1929 because of prohibition repeal. But try and figure some of these out: Other industries where employment is five per cent or more greater than in 1929 include soap, rayon, wire-work, stamped and enameled ware, clocks and watches, chemicals, leather and beet sugar.

There's a much longer list of industries whose employment is 25 per cent or more below 1929 levels. Chief among these are candy, locomotives, tools, pottery, textile machinery, rubber boots ornamental work, furniture, jewelry, cigars and cigarettes, aluminum goods, lighting equipment, electrical machinery, electric railroad repair shops, tires and inner tubes, silver-ware and plated ware, bolts, nuts and washers, iron and steel forgings, hardware, sawmills, millinery, brick and the marble, granite and slate industry.

Some what fewer industries are at just about the same level of employment as in 1929.

These include stoves, shipbuilding, radios and phonographs, shirts and collars, men's clothing, women's

clothing, glass, baking, paper and pulp, knit goods, paints and varnishes, engines and turbines and tractors, cash registers, paper boxes, petroleum refining, rubber goods, except tires and shoes—and, of all things as you might say, corsets!

Interesting Statistics

The automobile industry is in the group employing from 5 to 15 per cent fewer workers than in May, 1929.

Also in this group are typewriters, newspapers and periodicals, boots and shoes, blast furnaces, and rolling mills, flour, tinware, woolen and worsted goods, cotton goods, drug preparations, fertilizer, slaughtering and meat packing, aircraft and cutlery.

The ice cream industry is one of those employing from 15 to 25 per cent fewer workers than in 1929. Others are carpets, sugar refining, electric and steel cars, hats, chewing and smoking tobacco, butter, smelting and refining, explosives, foundries and machine shops, brass and bronze and copper products, book and job printing and farm implements.

There seem to be no figures which would indicate how the numbers of persons on relief from given industries would dovetail with the above figures.

But if you like statistics you will find few more interesting in this field than the tables the old FEERA assembled for its own information last year, showing the previous occupations of the 6,151,000 persons—about 4,445,000 males and 1,696,000 females—then on public relief. Totals for the chief groups follow:

WPA Employment

Professional and technical workers, 82,978; proprietors, managers and officials, 79,770; office workers, 215,427; salesmen and kindred workers, 180,981; skilled workers and foremen in building and construction, 492,255; skilled workers and foremen in manufacturing and other workers in building and construction, 309,990; semi-skilled workers in manufacturing and other industries, 869,704; unskilled laborers, 895,589; domestic and personal service, 616,784; farm operators and laborers, 903,783; inexperienced persons, 955,911; and persons of unknown occupation, 210,716.

Recent official statistics show that WPA had employed, as of last March, 128,610 persons as professional and technical workers, 63,650 as project supervisors and foremen, 146,174 as office workers, 231,228 as skilled workers in building and construction, 7,271 as other skilled workers, 70,491 as semi-skilled workers in business and construction, 48,252 as other semi-skilled workers, and 2,256,545 as unskilled workers.

Women are better snake charmers than men. Three Burmese women have such power over their king cobras that the snakes kiss them.

Society and Clubs

Dinner Bridge At Walter Cowden's For Sans Souci

Mrs. Walter Cowden entertained the Sans Souci club members and their husbands at a dinner bridge in her home, 111 North F, Wednesday evening at 7:30.

The rooms were beautifully decorated in dahlia roses, which made an impressive background for the dinner setting and the six tables of bridge the hostess had arranged for her guests.

Mrs. O. B. Holt and Colonel Perkins won high score for the guests, and Mrs. L. L. Payne and Mr. Russell Conkling won high score for the members. Mrs. Payne also won high out.

The guests who attended were Mmes. and Messrs. O. B. Holt, E. M. Whitaker, Harvey Sloan, John Perkins, F. H. McGuigan, O. H. Hoffer Jr., and the club guests were Mmes. and Messrs. Roy Downey, L. Payne, Irby Watson, Russell Conkling, and Mmes. R. B. Cowden, Jess Cole, Ray Sindorf, J. G. Harper and the host and hostess.

Midweek Club Bridge At Mrs. Armstrong's

Mrs. M. J. Armstrong complimented the Midweek club with three tables of bridge at her home Wednesday afternoon at 2:30.

The rooms were decorated in marigolds, and the prize wrappings, table appointments, and tallies carried out a yellow and white color theme.

Mrs. I. E. Daniel won high score for club members, Mrs. John House, high score for guests, and Mrs. J. W. Jordan won high out.

The members attending were Mmes. Elliott Cowden, I. E. Daniel, George Farley, Frank Johnston, M. D. Self, and W. E. Wallace.

The guests were Mrs. Jimmy Green and Mrs. D. C. Sivals. Mrs. Joe Pyron was tea guest.

Attend American Legion Meeting

Mrs. O. A. Kelley, president of the local American Legion Auxiliary, and Mrs. George L. Wright, secretary-treasurer, went as representatives of this chapter to Odessa Wednesday evening to attend a social and a business meeting of the Odessa American Legion Auxiliary.

They report some interesting reports on the American Legion state convention at Beaumont, and an excellent program at the Odessa meeting.

Modern Study Club Opens Fall Program With Ceremony

The Modern Study Club met at the home of Mrs. Richard E. Gile, 707 North D, Wednesday morning, at 9:30 for their opening meeting of the year.

The meeting was opened with an impressive club ceremony conducted by Mrs. J. W. Skinner and Mrs. S. S. Stinson. After the ceremony, the members went into the dining room where a lovely two course breakfast was served. Mrs. Steele Johnston gave the invocation, and the Club Collect was repeated in unison.

After the breakfast, Mrs. L. C. Link gave a brief talk on the subject, "Be Informed." This was followed by the song, "The Eyes of Texas." Mrs. Steele Johnston then read "Vagabond House" from Don Blanding's theme poem.

Those who attended were Mmes. Steele Johnston, J. M. Haygood, L. C. Link, J. H. Rhoden, S. S. Stinson, Fred Turner Jr., T. M. Crawford, J. W. Skinner, H. N. Stamper, A. H. Riley, Tom Steay, and the hostess.

'Idiot's Delight' Reviewed By Mrs. E. H. Woods

IDIOT'S DELIGHT, the 1936 Pulitzer prize play, by Robert E. Sherwood, is a powerful indictment of war, and particularly of international munition-mongers. Yet it is well balanced with comedy so as to be thoroughly amusing as well as thought-provoking.

The action takes place in a resort hotel in the Italian Alps, where an international group of travelers is detained by the impending war. When planes from nearby Italian air port drop bombs on Paris, each turns to his own colors. They play ends with the hotel tottering under the bombs of the French counter-attack.

Presented by the Theatre Guild, the play opened at the National Theatre, Washington, D. C. March 9, 1936, and in New York March 24, with Lynn Fontanne and Alfred Lunt in the leading roles. At the insistence of the stars, the play was closed in May, but reopened in September to the same capacity crowds in spite of the jinx of a broken engagement.

Mrs. E. Hazen Woods

Play Readers Launch Winter Program

Mrs. R. D. Scruggs was hostess to the Play Readers club at the opening meeting of the fall program, Wednesday afternoon at 3:30 at her home, 605 N. Pecon.

Mrs. E. Hazen Woods read "Idiot's Delight" by Robert Sherwood.

After the play was read, a business meeting was conducted.

Mrs. Fred Wilcox was elected president of the club, succeeding Mrs. Rawlins Clark. Mrs. De Lo Douglas was elected vice-president; Mrs. E. Hazen Woods, corresponding secretary, Mrs. D. C. Hensell, treasurer, Mrs. E. W. Anguish, recording secretary, and Mrs. Wade Heath, reporter.

The members attending were: Mmes. Elliott H. Barron, Rawlins Clark, De Lo Douglas, T. B. Flood, R. W. Hamilton, Wade Heath, D. C. Hensell, Chas. L. Klaproth, E. Hazen Woods, and the hostess.

Elizabeth Payne Pledges Sorority

Miss Elizabeth Payne, who is attending the University of Arkansas this year, has been pledged to Chi Omega sorority, the mother chapter at Arkansas University.

This chapter was founded at Arkansas University, and many of Miss Payne's sorority sisters are the daughters of her mother's college friends.

Feet Require Exercise, Too

By **ALICIA HART**
NEA Service Staff Writer

Exercises to keep feet flexible and ankles trim and slender are important to the woman who wants to step as lightly and gracefully at 40 as she did at 20. These should be done every night just before going to bed.

First of all sit upright on a hard bed with heels touching. Raise your feet upward as high as they will go, meanwhile holding your knees perfectly straight and your feet close together. Repeat three times, then keeping heels on bed, bend your feet forward toward your body. This stretches and strengthens arch and ankle muscles. Hold the position a few seconds, relax, and stretch toes forward the foot of the bed. Knees must not bend. Keep on stretching until top of the feet and ankles feel the strain. Go through the entire routine ten times each night.

Now stand with feet about ten inches apart and weight on the outer edges of both. Raise your heels. Lower. Raise your toes. Lower. Repeat ten times.

Unless they make you most uncomfortable, wear flat-heeled or better yet, heel-less bedroom slippers. Mules with spike heels may do more to please your vanity, but they don't give your tired feet a chance to spread out and relax. It's a good idea to walk about your room without slippers now and then.

Vigorous massage will tend to reduce fatty tissue about the ankles. Apply a light coat of cream and, using both hands, massage upward and in rotary motions just above the ankles.

Half Millionth

Maedell Tipton, 16, drove 110 miles from Nocona, Texas, to the Texas Centennial Exposition in Dallas and there was the half-millionth visitor to see "Cavalcade," the Exposition's famous historical spectacle which will continue until November 29, the Centennial's closing day.

The UNITED

The Town Quack

(Reserves the right to "quack" about everything without taking a stand on anything).

Someone probably will object to the joke about the communist's daughter and everyone got his share, but I read it. Shall I tell about it?

I read this for a college joke: "It wasn't my fault. I wouldn't have taken the date but Harry's girl liked her and wanted to see her get around. I didn't have any excuse and they bought my ticket to the show. When she came down the stairs I shuddered. I grabbed Harry. She was dressed in lavender or something, her slip showed decidedly, her dress was low in the back and I could see her skinny bare shoulder blades. Her hair was corn color and she wore horn-rimmed glasses. She liked me, of course, and made passionate love all the way down. When I danced I held her away as much as possible but I couldn't prevent her knees from knocking mine. On the way home she said she liked my car better than hers. I asked her what kind of a car she had and she said it was a Packard. I wondered what business her father was in and she said he was president of a big bank in Omaha. In June, we were married.

When asked if his daughters lived at home, a local man said, "Certainly not, they are not even married yet."

GOES TO SCHOOL

Mrs. B. Frank Haag and son, Merwin, left this morning for Austin where Merwin will attend the University of Texas this year. He has been a student there for the past three years.

There are now more than 2,300,000 boy scouts in the world.

ANNOUNCEMENT

Mrs. J. B. Leonard announces that her classes in piano and voice will open about the middle of October or the first of November at her home, 1209 West Indiana. She holds the Masters Degree in Piano, has had 26 years teaching experience, has studied with the leading teachers of Texas and has had special work at the University of Kansas. For farther information phone 367.

MANY NEVER SUSPECT CAUSE OF BACKACHES

This Old Treatment Often Brings Happy Relief

Many sufferers relieve nagging backache quickly, once they discover that the real cause of their trouble may be tired kidneys. The kidneys are Nature's chief way of taking the excess acids and waste out of the blood. Most people pass about 3 pints a day or about 3 pounds of waste.

Frequent or scanty passages with smarting and burning shows there may be something wrong with your kidneys or bladder.

An excess of acids or poisons in your blood, when due to functional kidney disorders, may be the cause of nagging backache, rheumatic pains, lumbago, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headache and dizziness.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

Rapid Improvement Shown By Mustangs

DALLAS, Sept. 17.—As Head Coach Matty Bell whips his squad of forty-three men into shape for the initial game of the 1936 season Sept. 26 with North Texas Teachers, an optimistic gleam that promises little but foretells much, comes to his eyes. After five days of running plays, blocking, passing, tackling and chalk talk it appears that the Mustangs have more material ready for use than sports writers believed possible at this early date.

from Vanderbilt, also handles the ball nicely and shows speed at getting it away when necessity calls for it. With these three men tossing the ball well, it appears that no matter what combination Coach Bell may put in the game, a man with a gifted arm will be on hand to pull a surprise at any time.

The forward wall of the new team averages ten pounds heavier than that of last year but naturally, lacks the experience. Possibly the two tackle spots will be the most difficult to fill.

Coming as a surprise to both coaches and players, the return of Harry Shuford, one of the captains of the 1935 Rose Bowl Mustang, to S. M. U. to complete his law course, was followed by prompt action on the part of Jimmy Stewart, business manager of the athletic department.

Tri-State Fair To See Record Crowds

AMARILLO, Sept. 17.—"People are more amusement-minded than ever and the biggest crowds in the history of the Tri-State Fair will attend the 1936 exposition."

"With ideal weather during next week Amarillo will see the greatest crowds ever attracted by the Tri-State Fair," the mayor added.

Bill Beecher, chairman of the fair's reception committee, has completed arrangements to meet and escort all visiting delegations to the exposition grounds.

"There'll be more people here this year than for any other Tri-State Fair and we've got a job ahead of us," said Beecher, who with Mason King, racing director, made a 2,000-mile tour of the territory to extend special invitations to delegations and bands.

Approximately \$35,000 in cash premiums are offered exhibitors. The fair's amusement zone will be in operation by Friday night of this week. On the midway, occupying a circular front of 1,500 feet will be the United Shows of America, here direct from Detroit and the Michigan State Fair.

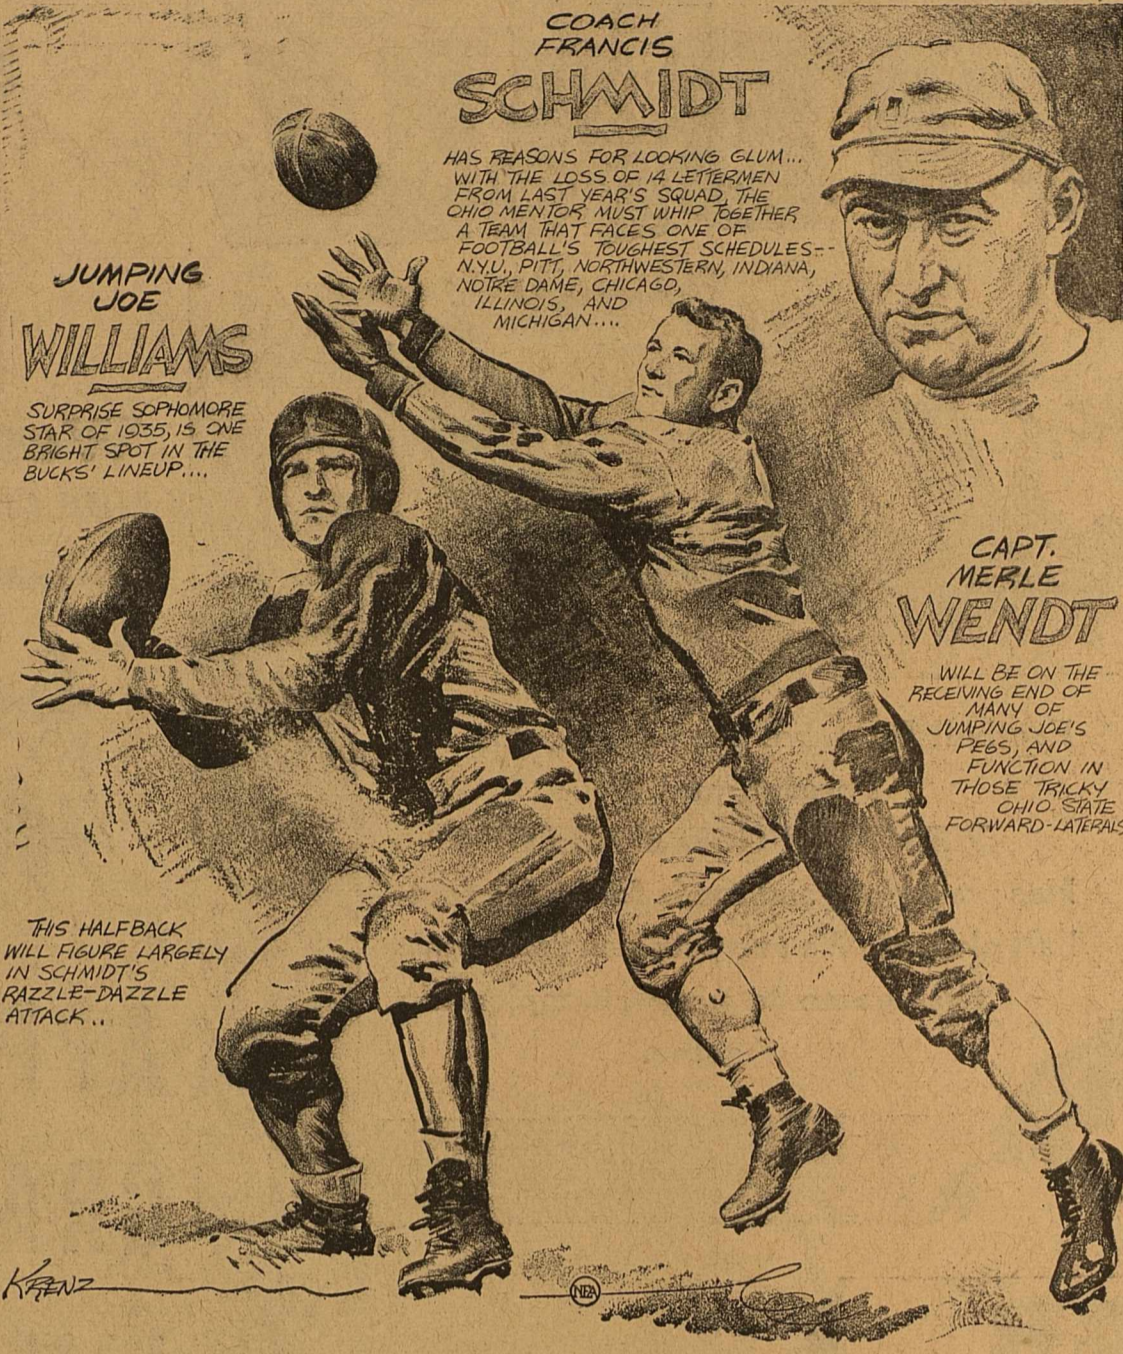

EDMONTON, Alta. (U.P.)—Charles McLeod, Scottish trapper, is planning to resume the search for a fabulously rich gold cache in the wild Nahanni country near the Arctic circle which lured two of his brothers to their deaths.

McLeod's two brothers, William and Frank, learned the location of the rich gold deposits from a tribe of savage Indians who have guarded it for generations in 1905, but were murdered by a companion before they could return to civilization. The murderer later committed suicide, and the secret died with him.

According to legend, the gold field, the location of which is known only to the wild Indians, is so rich that nuggets can be scooped up with a shovel.

Cats cannot see in absolute darkness. Their vision, however, is usually acute in the dusk.

Bank Regards New Coin Detector as Foolproof

SYDNEY (U.P.)—What is said to be an infallible spurious coin detector has been installed at the head office of the Bank of New South Wales.

The machine has detected spurious coins that had previously defied all known means of discovery. It detects a counterfeit coin in one-tenth of a second. In three minutes it can handle 1,000 coins, rejecting every spurious one.

The machine is controlled electrically. The coins are placed in a large bowl on top, and pass into a vertical shifter, in which they are analyzed by electricity.

TOMATO VINE PRODUCES CLUSTERS PARTIAL TO 13 VANCOUVER, B. C. (U.P.)—The name of a new tomato variety developed at the Dominion Experimental Station at Saanichton, B. C., is "Lucky Thirteen."

Prof. E. M. Straight, superintendent of the station, said the name came from the vegetable's habit of producing tomatoes in clusters of 13. The tomatoes are not large, but are firm and fine flavored.

STORIES IN STAMPS By I. S. Klein MICHAEL, THE BRAVE

Vlad, the Impaler, perhaps the cruelest despot in history, was on the throne of Wallachia, in the 15th century, under the suzerainty of the Ottoman Empire.

Then, toward the end of the 16th century, arose a new leader—Michael, who was called "The Brave." Protesting the system Turkey had of farming out his country to outsiders, for the taxes they could get out of his people, he raised an army of patriots, united his forces with those of the Moldavian prince, Aaron, and massacred the Turkish garrisons and settlers in one night.

The Sultan was forced to make terms with Michael, giving the people, who later were to unite as Rumanians, their first taste of liberal government.

Michael, the Brave, is honored on three different stamps of Rumania. One is shown here.

The SPORTS HORN

BY JESS RODGERS

Only one more day to go! Tomorrow night at exactly eight o'clock the first game of the seven that are scheduled to be played here will start.

It will be Bulldog versus Owl—and whoever heard of an Owl that could whip a Bulldog?

Every club is a champion until they are defeated, but we'd rather have our money on the local aggregation this season than in the past several.

And pardon our tossing a bouquet in our direction—but consider this one. Last year we picked district 7-B to end up like this:

Wink. Pecos. Midland. Odessa. Crane. Stanton.

We didn't know Monohans was a member of the district. The clubs ended up like this:

Wink. Pecos. Odessa. Midland. Crane. Monohans. Stanton.

Change In Schedule Here's something that displeases. The Builders were forced to drop the scheduled Lamesa game here October 9 and schedule one with Kermit instead.

Some idiot, or idiots, have already broken the lock off the press box door. Incidentally, no one has volunteered to donate a covering for the floor.

FOR THE LAST TWO YEARS BIERMAN - COACHED CLUBS HAVE BEEN DESIGNATED NATIONAL CHAMPIONS.

Looks like Giants vs. Yankees in the world series. We're still stinging along with the Giants—if the series goes to seven games Carl Hubbell should be good for three—Broadway is offering eight to six that the Yanks win the series in six games—But Broadway also offered much greater odds that Baer would defeat Braddock and that Louis would beat Schmeling—And what's Broadway got that you haven't got?

Season on duck, goose, brant, jack-snipe—Nov. 26 to Dec. 25. Season on dove (north zone) Sept. 1—Oct. 31. In the south zone the season is from Dec. 1—Jan. 16.

There is no open season on canvasback duck this year. Bag limits—ducks 10 in aggregate. Geese, 4 in aggregate. (Brant included).

Shooting hours—ducks, geese, brant, jacksnipe—seven a. m. to 4 p. m. A few don't's. (You had better don't are you are liable to wind up in the cooler.)

Don't attempt to land the birds from cars, motor or sail boats or use either live decoys or an auto-

Buried Ice Defies The Heat of 14 Summers

WALLACE, Idaho. (U.P.)—When workmen removed a dump of waste rock to make room for the Sullivan Mining Company's new mill, they found under it a quantity of ice, 14 years old.

The ice was buried in the spot when rock was first piled on the spot.

DOUBLE HOLIDAYS KEPT TOLEDO, (U.P.)—The Main family never forgets a holiday. Fred Main was born on Thanksgiving Day; Edna Main Devese, Leap Year Day; Gretchen Main, Armistice Day; and Florence Main Chal-fin, Memorial Day.

NEWEST CORN CURE NO PAIN! NO BURN!

Thousands of men and women no longer use the painful, old-fashioned corn remedies. CORN-OFF is the MODERN corn formula—no days of painful waiting with messy pads! Your corn drops right off in 10 MINUTES—PAINLESSLY—or MONEY BACK! Don't suffer another minute. Your druggist has CORN-OFF. It won't hurt at all—and you can dance tonight!

Ayers and Carlisle In New Laugh-Riot

A fast moving, laugh studded farce of gobs and their gals, set aboard ship and in the town of Panama City, moves onto the screen of the Yucca theater, today and tomorrow when Paramount's "Lady Be Careful" has its opening.

Law Ayers, Mary Carlisle, Larry Crabbo, Benny Baker and Grant Withers have the leading roles in the comedy. Ayers is a timid sailor who accidentally gets a reputation as a woman-killer, and Crabbo is a

Marine who spends his hours at sea boasting of his romantic prowess. The plot of the story revolves around a bet, made by snipmate friends of Ayers, that the timid gob can make a date with the most exclusive girl in Panama City, a blonde dancer who hates sailors and has come to be known as "Stonewall" Jackson. To prove that he has succeeded, Ayers is to return to his ship after shore leave with a ribbon, won by the dancer in a beauty contest.

How Ayers gets his date, gets the ribbon, and gets the girl in the bargain, is the story that follows. Dorothy Parker, Alan Campbell and Harry Ruskin wrote the high-powered dialogue for "Lady Be Careful," and J. T. Reed directed.

WILD DUCKS RETURNING
 SALT LAKE CITY (U.P.)—More wild ducks returned to their northern nesting grounds this year than in 1935 but the great flights of migratory fowls are still far from restored, Dr. Ira N. Gabrielson, chief of the U. S. Bureau of Biological Survey says.

Army Staff Officers Have All Details On Nueces County As War Games Open

FORT SAM HOUSTON, Texas, Sept. 17.—How many horses, mules, cattle, sheep and pigs are there in Nueces County Texas?

How many person in Nueces county know the answer to this question?

Its a safe bet that very few persons can give an accurate answer to the query.

But in time of War army staff officers must have complete information concerning everything in the theatre of operations. If the southern part of Texas is to be fought over, the Army wants the resources for its own use and it must take positive measures to prevent the enemy reaping the advantage.

Consequently in the "Black" war army staff officers know at all times how much livestock and produce is in any Texas county, as well as the number of civilians, motor vehicles, railroads, the number and condition of all highways.

In the Third Army Command Post Exercises to be conducted at Fort Sam Houston, Texas late this month under the personal direction of Major General Frank Parker, Commanding the Third Army and the Eighth Corps Area, it is assumed for a paper war game that the southern coast of the United States has been invaded by a foreign power.

It is assumed that the "Black" Army landed in the vicinity of Corpus Christi, Port Isabel and Brownsville, Texas between August 31 and Sept. 11 and it is apparent that an advance on San Antonio is contemplated by the enemy.

Therefore becomes necessary for General Parker to order the evacuation of the territory where the enemy probably will first extend its bridgeheads.

Working on this assumption General Parker's staff has made plans to move the civilian population and all movable property from 17 south Texas counties, namely Cameron, Willacy, Hidalgo, Kennedy, Kleburg, Nueces, San Patricio, Refugio, Aransas, Calhoun, Bee, Goliad, Jim Wells, Duval, Brooks, Jim Hogg and Starr.

In this area alone in the event of an actual invasion by a foreign army, the army would be faced with the gigantic task of clearing the probable theater of operations of 343,200 persons and 887,300 head of livestock.

To accomplish his purpose, General Parker in time of actual war would call on hosts of civilians to aid him in evacuating the area.

County Clerks, county sheriffs, constables, county commissioners, courts, state police on duty in each county, mayors and city officials and police and fire departments in cities and towns would be called in to expedite the removal of the civilian population and their movable property. County judges would be charged with the responsibility of initiating and effecting the evacuation of their respective counties.

Supervision would be maintained by the Army Provost Marshal working under orders from the War Department and General Parker.

To be sure that the rich Rio Grande valley crops and livestock would not fall into the hands of the enemy, civilian motor transportation of all kinds, railroads, civilian and other available transport would be called into use.

Army staff officers know that there are 30,034 motor vehicles in the 17 counties affected by the initial evacuation order. This is one motor vehicle for each 4.3 persons, based on the known population figure of 343,200. There are 42,700 horses, 55,500 mules, 710,100 cattle, 30,400 sheep and 48,600 hogs to be moved out of the area.

Having decided on the necessity for evacuation and having issued a public proclamation asking for civilian cooperation in the movement, General Parker then would order certain concentration points set up where evacuees will be transported.

For the purpose of the current Command Post Exercises, San Patricio, Aransas, Refugio and Calhoun counties would be sent to the Houston Area.

Inhabitants of Cameron, Willacy, Kennedy, Jim Wells, Bee and Goliad will be concentrated at Austin and the evacuees from Hidalgo, Starr, Jim Hogg, Brooks and Duval would be sent to the area around Georgetown, Taylor and Temple, Texas.

theater of operations is cleared. Special precautions would be taken to safeguard the property of civilians. Records of all persons evacuated are to be kept by county officials and farmers are presented with claim slips showing how many head of livestock or growing crops was turned over to the government to prevent its falling into the hands of the enemy.

Responsibility for the medical attention, housing, and feeding of evacuees in time of actual war would be placed upon the Army Provost Marshal and the county judges of evacuated counties until such time as they arrived at concentration points outside the theater of operations. Responsibility then would be assumed by the Corps Area Commander in which the evacuees are placed.

New Bus Schedule Benefit to Traffic

A. F. Baldus, general traffic manager of Southwestern Greyhound Lines, Inc., has officially announced the inauguration of a new Greyhound schedule eastbound from Midland to Big Spring, Abilene, Fort Worth and Dallas, and westbound from Midland to Odessa and Monahans.

The new schedule leaves Midland eastbound at 8:13 a. m., arrive in Big Spring at 9:15 a. m. and then continues on the Ft. Worth and Dallas.

Westbound, this schedule leaves Big Spring at 4:25 p. m. and arrives in Midland at 5:27 p. m. This schedule leaves Midland at 5:27 p. m., arrives in Odessa at 6:00 p. m. and in Monahans at 7:00 p. m. Connections are made at Odessa for Seminole and Hobbs, and at Monahans for Wink and Kermit.

This new Greyhound schedule is an addition to the four east and west schedules that are already operating through Midland and has been added to give the people of Midland the very best bus service possible.

Benedict Explains Evetts Haley Case

AUSTIN, Sept. 17.—The following statement has been released by President H. Y. Benedict of the University of Texas:

"Recent newspaper notices and the headlines prefixed thereto dealing with the connection of J. Evetts Haley with the University of Texas contain enough of error to justify this corrective statement.

"For several years past Mr. Haley has been employed to collect for the university library material relating to the history of Texas. In this work he has been successful to a remarkable degree, the value of the material collected, mostly acquired by gift, very greatly exceeding the cost of its collecting. No one, I think, could have done a better job.

"Appointments in the bureau of social science research, the subdivision of the university to which this collecting activity belongs, are usually for a year, September 1 to September 1, and never longer and the budget is usually fixed by the regents later than the rest of the university budget. This year it will be fixed by the regents at their next meeting on September 26.

"When late in August Mr. Haley asked me by letter for a leave of absence without pay for six months beginning immediately, I replied by granting him a leave from August

Two Princes of the Dalmatian Breed

Two blue-bloods of the Dalmatian dog strain, taken in their nursery, dogs before they reached the glamor of the show world and glory. Now they are entered in the Texas Centennial Exposition Kennel Club Shows in Dallas October 31-November 1. Oread Night Flower, left, and Oread Movie Star, they are owned by W. B. Dalton of Lawrence, Kansas. They come from a long line of prize-winning sires.

24 to August 31, the end of the period for which he had actually and officially been appointed. I wrote him as follows concerning his leave:

"Inasmuch as the budget for 1936-37 for the bureau of research in the social sciences has not yet been sent in to me by the director thereof, no appointments to this bureau for 1936-37 have yet been made; and inasmuch as appointments to work on "projects" in the bureau are not made for a period longer than the fiscal year, your appointment as collector in project No. 12 ends September 1, 1936, and you have not yet been reappointed for 1936-37. Hence, in recommending to the board of regents the approval of your request for an immediate leave, I shall recommend it for the period August 24 to 31, 1936, leaving for future action continuance of project 12."

"I might have written him that I would recommend to the regents his appointment for the period March

1 to September 1, 1937, or his re-appointment for the year September 1, 1936, to March 1, 1937, but I had at that time not yet gotten the recommendations of the director of the bureau of social science research for the coming year and I regarded my action as substantially in accord with the request of Mr. Haley. It left him free to indulge in political campaign activity than if he were still connected with the university through a leave of absence.

"So far in this connection the regents have not officially heard of

Mr. Haley and have taken no official action and will not until September 26. Obviously they have not "fired" Mr. Haley or "dropped" him or "gotten rid" of him "by inaction."

Mr. and Mrs. Johnny Foster of Evansville, Ind., are house guests of Miss Charlene Parrot this week.
