No Mormon on Public Relief, Their Goal

Needy members of the Mormon Church of Jesus Christ of Latter Day Saints will not be hungry or cold this winter as long as contents of church storehouses hold out. Through the summer, church workers, operating apart from governmental agencies, crammed depots in Utah and Idaho with food, clothing, and fuel. Above is pictured a scene in a Salt Lake City cannery as the Mormon relief program went forward. Supply centers were opened with the advent of cold weather. Jobless church members also were being given work.

The Town Quack

(Reserves the right to "quack" about everything without taking a stand on anything).

Fish Pollard says the reason he enjoys good health is that he never eats as much as he wants.

Maybe if Fish had allowed himself to eat more, he wouldn't have stunted his growth.

Judge Knowles says that when you are young they tell you that you are too young to know anything, and when you are too old, they tell you that you are too old, so when would anybody be expected to have any sense?

A Springfield, Mo., man named Jesse James drove into a neighboring town, headed for a hunting trip, having with him his guns, dogs and a hitch hiker. He stopped at a filling station, went inside, and when he came out, the hitch hiker, car, guns and dogs were gone.

A Kansas newspaper says: "The losers are taking defeat more graciously than some of the winners are taking victory." That's right, I haven't heard a loser open his head around here. In fact, I haven't run on to anybody yet who admits he was loser.

Lee English, the first time he ever got fired off of a job, charged that his boss was an incendiary.

Peos Enterprise society headline: "Bean-Frye Rites Are Solemnized." Ranch style, probably.

The club members attending were Mmes. Elliott Barron, Alden S. Donnelly, E. H. Ellison, A. N. Hendrickson, J. H. Hodge, Paul Osborne, A. O. Thomas, R. C. Tucker, and Miss Stella Maye Lanham.

172 SCOTS IN FAMILY
PORTLAND, Ore. (U.P.)—Two carloads of policemen sped to an intersection here where the police radio had been told a man was lying with a knife in his side. They found the dead "man's" head was a soft ball, the chest made of wood, the body of old newspapers and a pair of old boots served as feet and legs.

ANTS TAKE OVER JAIL
TURLOCK, Cal. (U.P.)—The local jail bears the sign "No Visitors Allowed." The bastille has been invaded by a rare variety of ants that precluded the possibility of confining even regular occupants.

'GROSSLY UNFAIR, UNJUST, RIDICULOUS' OFFICIALS' OF DISTRICT 7-B CAUSE CROSS, TUCKER MORE MENTAL ANGUISH

From the columns of Bloddy Cross, punch-drunk ex-pug, who is sports editor of the San Angelo Morning Times:

When officials of District 7-B rendered a grossly unfair decision that took a technical football victory away from the Pecos Eagles

and gave the win to the Midland Bulldogs, this dept. discussed the matter at length in this column and explained clearly wherein the district dads had erred and had deprived Pecos of its just rights.

It is noted now that a Pecos fan dropped a line to Jim Tucker, Waco scribe, describing the episode and asking his decision. There was one decision Tucker made, the one that this writer made which is the one the District 7-B officials did NOT make. Tucker's paragraph on the matter:

"Here is a letter from Pecos, regarding the league penetration rule in high school football. On Oct. 2, Midland Pecos played to a 7-to-7 tie. Midland earned two penetrations and Pecos was credited with only two but claimed three. In the first quarter of the game, Pecos carried the ball down to the Midland three-yard line, losing it at that point on downs. They received cred-

it for a penetration on this series of downs. Midland took the ball after Pecos lost it on downs, and on the first play attempted to punt. The punter was rushed, his punt was bad and the ball sailed out on the 19-yard line. From that point, Pecos took possession and drove the ball back to the five-yard line before they again lost it on downs. They were not given credit for a penetration on these plays, the district committee arguing that the ball would have had to go outside the 20-yard line and be brought back to constitute a penetration."

"The district officials were entirely in error. Their ruling was unjust, unfair, and bordered on the ridiculous. They were penalizing Pecos because Midland made a poor punt. If district officials, and all other officials, who have to rule on something they know little about would not try to interpret the rules, but would give their opinions on the fairness of the situation, they would be right 99 per cent of the time, because 99 per cent of the rules are quite fair.

"Now if that punt had gone to the 21-yard line, and on first down the Pecos team had made a penetration, it would, of course, been one penetration. If on the second down, Pecos had been tossed back

Another Expert Upset

to the 21-yard line, and then on third down made another penetration that one would not have counted. The rules take care of that. Only one penetration can be made in a series of downs, but in the above case, the Pecos team had lost the ball, and it was Pecos that carried it to the five-yard line, not Midland. So when Midland got it, and then was so completely rushed that Pecos got it back on the 19-yard line, it was another penetration for Pecos in the eyes of everybody save the district committee.

coach, and Murv H. Fly, superintendent of the Odessa schools. Wonder if that pair of gentlemen would still be willing to praise the handling of sports on the sheet.

Along with the testimonials of Johnson and Fly was one from Bill Collyns announcing his appreciation for the way the paper had handled Permian Basin League baseball results. But bear this in mind:

Tony Slaughter, not Cross, is the one to be thanked for that.

Cross has "contributed" not one but several items on how Midland stole the game from Pecos. Just what the H— is it to him or to Tucker either—if Midland steals the district championship? In fact, it is none of their business if the district committee is able and does steal the Class-A state championship. It's a cock-eyed cinch that neither San Angelo or Waco will have much say about what school will win.

It won't be long until Amarillo gets hold of San Angelo—that is if the Bobcats finally win out in the Oil Belt—and the results of that game will make the Roosevelt-Landon race seem like a death struggle. For the last year or two the management of the San Angelo paper has been trying to build up their circulation over West Texas. Articles such as the last one printed by Cross should help the circulation department about as much as putting pepper on someone's dish of ice cream.

And now all you "grossly unfair, unjust and ridiculous" officials of district 7-B know just where and how you rate with San Angelo sports scribe Cross.

It is interesting to note that on the same day as the above article appeared in the San Angelo paper that they also carried a page attempting to boost their circulation by giving large display to a bunch of testimonials from West Texas citizens complimenting them on their handling of sports.

Testimonials were given the San Angelo paper by Lee Johnson, Wink

From Class-AAA to B: A view of the Odessa club yesterday failed to reveal what has kept the Ector boys in the flag chase this long. They were far from hot looking as they were defeated 6-0 by the Pecos club.

The Odessa backfield is as slow as molasses on a cold day. Time after time the Odessa forwards opened holes for their backs that should have assured them at least a dozen yards—only to see the stumbling ball-carrier fail to pick up more than a yard or two before he was downed.

In Thomas the Bronchs have a back with a lot of drive but a defense has ample time to get ready for him he is so slow. Their ends are the same way. Time after time they should have sacked passes but

SMU-Arkansas Game On The Air Saturday

Headlining Southwest Conference football broadcasts for this week is the game which holds the spotlight in Southwest Conference competition, the crucial battle at Dallas between Southern Methodist University and the University of Arkansas. The game will be brought to radio followers of the Conference race under the sponsorship of the Humble Oil & Refining Company.

Here is the situation: if Arkansas wins, it moves into undisputed first place in the league; if S. M. U. wins, Texas Christian University, an innocent bystander so far as this week's Conference play is concerned, takes the lead. Both Ark-

ansas and S. M. U. are exponents of exciting, razzle-dazzle football, so the air, actually and figuratively, will be filled with football Saturday afternoon. Kern Tips will bring listeners-in the play-by-play description of the game. Bill High-lower the color. It will be broadcast, under Humble's sponsorship; over stations WFAA-WBAF, Dallas-Ft. Worth; KPRC, Houston; WOAI, San Antonio; KRVG, Waco.

Texas Christian University, while an innocent bystander so far as Conference play is concerned, has by no means an off-day Saturday. In the United States District Court for the Western District of Texas, Waco Division J. M. Hubbert vs. Temple Trust Company. Notice is hereby given that the undersigned has filed his application with the Clerk of the United States District Court in and for the Western District of Texas, Waco Division, for an order authorizing him to sell and convey to W. M. Pyle all of Lot Nine (9) Block Nineteen (13) of West End Addition to the city of Midland, Midland County, Texas, together with all improvements thereon situated, and for a cash consideration of \$1750.00.

Said application will be heard by the Honorable Charles A. Boynton, Judge of said court, after this notice shall have been published for a period of ten days, and any person interested in said Receivership Estate may contest this application. Witness my hand at Temple, Texas, this 2nd day of November, A. D. 1936.

The Christians play Centenary College from Shreveport, defending the league's intersectional honors on their home grounds at Shreveport. Centenary always furnishes interesting competition to Southwest Conference teams, and all too frequently, from the viewpoint of Conference supporters, upsets the dope bucket and splashes defeat on their Conference opposition. The game at Ft. Worth Saturday should be packed jamful of hard-played football. It will be broadcast under Humble's sponsorship over Stations KTAT, Ft. Worth; KRLD, Dallas; KTRH, Houston; and KTSA, San Antonio. Cy Leland, whose accurate football descriptions are winning him an increasingly wide audience among radio football fans, will be at the microphone for the play-by-play; Bill Ware for the color. Arrangements have been made for telegraphic scores by quarters from the Texas-Minnesota, Baylor-Oklahoma A. & M., Texas A. & M.-Utah State, and Rice-Sam Houston games and these will be broadcast as quickly as they are received over both programs sponsored by the Humble Company.

'Magnificent Brute' Title of Yucca Film

'The Magnificent Brute,' a giant of a man, is torn between two blondes. That is, two at one time. The battle of the blondes for his affection starts tomorrow at the Yucca theater. The story is taken from Owen Francis' 'Big,' which ran in Liberty magazine.

Victor McLaglen, winner of the last academy award for his outstanding screen performance, is the star of this Universal film, in which he is seen as 'Big' Steve Andrews, a swaggering maker of steel.

In the steel mills, Big Steve finds the towering Bill Morgan, his bitterest enemy, already installed as 'top' workman. Their hatred flames anew when he defeats Morgan in a test of strength. The tension is increased when Big Steve takes Morgan's girl away from him, and the revengeful Bill plots to ruin his rival by underhand means.

Then begins the aforementioned struggle between the blondes for the possession of Steve. Benita Barnes, as Della, scores the first victory. Jean Dixon, as Blossom, uses feminine strategy to gain the advantage. The climax pits Steve against Morgan in a string conflict, a battle of Titans.

William Hall portrays Morgan; Henry Armetta has a prominent role; Billy Burrud is seen as an appealing youngster. Edward Norris and Selmar Jackson have important parts. The picture is directed by John G. Blystone.

OCEANOGRAPHY RESEARCH WORK IN TEX. FINDS NO AVAILABLE WORKING SPOT

AUSTIN, Nov. 12.—Not one single place on the whole coast of Texas is now available for scientific research work on the broad phases of the field of oceanography, Dr. E. J. Lund, professor of zoology at the University of Texas and chairman of the biological section of the

Texas Academy of Science, has pointed out. For this reason, the Academy has concerned itself with the problem of working out a program of research, both of pure scientific import and of economic significance to the State as a whole, and a teaching program dealing with the field of oceanography of the Gulf of Mexico.

That the Gulf of Mexico possesses unique attributes among gulf waters lends double importance to the necessity for scientific study and at the same time poses unusual research problems, Dr. Lund said. It is sub-tropical, unusually warm water, its winds, its currents, and its bottom or shelf are physiographical features which are unique in the field of oceanography, he asserted.

For these reasons, the Academy of Science, which will hold its annual meeting in San Antonio November 12, 13, and 14, has adopted as one of its major projects the development of an intelligent and adequate program for scientific and economic research in the Texas gulf.

"The Texas Academy is the only organization in the State that unifies and can unify the scientific interests of the institutions of higher learning and afford a medium for cooperation of all colleges and universities of the State along the lines of scientific research," Dr. Lund explained. "It gives the machinery for unified action with respect to a scientific project which the State as a whole is interested in."

This problem of marine biological research in the Texas gulf is not one of purely scientific concern, but instead has broad economic implications, he went on. It is well understood that the waters of the Texas gulf are capable, if properly developed, of producing from \$5,000,000 to \$10,000,000 annually of oysters, shrimp and fish, he declared. The variance of the oceanography of the Texas gulf from that of other seas waters is so great that the cooperation of all agencies, such as the Texas Academy of

Science, the State Game, Fish and Oyster Commission, the United States Bureau of Fisheries and other similar bureaus and organizations will be necessary to overcome the obstacles in the way of such development.

It is hoped by Dr. Lund and others who have concurred themselves with this matter that a marine biological laboratory can be established on the Texas coast that will afford research facilities and at the same time permit the teaching of various aspects of oceanography and marine biology.

"The Academy represents in a fair and balanced manner the various institutions in the State of Texas which afford facilities and men for scientific research, and is a logical sponsor—and can be a proper and an adequate one—one of such an undertaking," Dr. Lund continued. "To this end the Academy has appointed a committee on marine biology which is attempting to promote in a practical way this project."

This year for the first time one session of the meetings of the biological section of the Academy, of which Dr. Lund is chairman, will be devoted to papers on some scientific matter pertaining to the biology of the gulf. K. H. Mosher, investigator for the Texas Game, Fish and Oyster Commission, will speak on "The Shrimp and Shrimp Fishery of Texas," Albert Collier of the Texas Game, Fish and Oyster Laboratory of Rockport, will speak on "Economic and Scientific Aspects of the Texas Industry," Gordon Gunter, graduate of the University of Texas, who is now connected with the Texas Oyster Development Corporation and was formerly on the staff of the United States Bureau of Fisheries, will

Texas Congress of Parents-Teachers Will Meet Nov. 16-19

AUSTIN, Nov. 12.—"Relation of the Home to Character Formation" is the theme of the annual State Convention of the Texas Congress of Parents and Teachers which will be held in Ft. Worth November 16-19. More than 1,000 delegates are expected to attend this conference which will have its headquarters at the Texas hotel.

Mrs. M. A. Taylor of Bonham, president of the Texas Congress, will preside at the session of the twenty-eighth annual meeting and Mrs. Noyes Darling Smith of Austin, third vice-president of the National Congress, will represent the national organization.

Climax of challenges to parents and teachers during this session will probably be the youth panel Thursday morning. Miss Charley Williams, Washington, D. C., school education chairman of the National Congress and field secretary of the National Education Association will lead this panel. Her questions will be directed to a high school girl and boy, a rural girl and boy and a college girl and boy. The questions which brim with human interest are:

- "What does youth want?"
- "What do we want for youth?"
- "What are communities doing to help youth?"
- "What is the relation of youth to public welfare?"

At the Wednesday morning session Miss Mary England of Montgomery, Alabama, chairman of membership in the National Congress and also on the staff of the Alabama Department of Education, will speak on the subject, "Building for Permanence and Power."

Miss Williams will speak on "Parents and Teachers Face the Future" at the Tuesday evening meeting.

A tribute to Texas women who have been state presidents of the Texas organization will be led one evening by Mrs. H. B. Chamberlain of Henderson, state historian. Under the topic "Out of our Past" the leader will present former presidents and their work. In this group are: Mrs. Ella Caruthers Porter of Dallas, founder and first president; Mrs. Chalmers W. Hutchinson, Fort Worth; Mrs. F. W.

Science, the State Game, Fish and Oyster Commission, the United States Bureau of Fisheries and other similar bureaus and organizations will be necessary to overcome the obstacles in the way of such development.

It is hoped by Dr. Lund and others who have concurred themselves with this matter that a marine biological laboratory can be established on the Texas coast that will afford research facilities and at the same time permit the teaching of various aspects of oceanography and marine biology.

"The Academy represents in a fair and balanced manner the various institutions in the State of Texas which afford facilities and men for scientific research, and is a logical sponsor—and can be a proper and an adequate one—one of such an undertaking," Dr. Lund continued. "To this end the Academy has appointed a committee on marine biology which is attempting to promote in a practical way this project."

This year for the first time one session of the meetings of the biological section of the Academy, of which Dr. Lund is chairman, will be devoted to papers on some scientific matter pertaining to the biology of the gulf. K. H. Mosher, investigator for the Texas Game, Fish and Oyster Commission, will speak on "The Shrimp and Shrimp Fishery of Texas," Albert Collier of the Texas Game, Fish and Oyster Laboratory of Rockport, will speak on "Economic and Scientific Aspects of the Texas Industry," Gordon Gunter, graduate of the University of Texas, who is now connected with the Texas Oyster Development Corporation and was formerly on the staff of the United States Bureau of Fisheries, will

Read the remarkable record of **GULFPRIDE** THE WORLD'S FINEST MOTOR OIL

GULFPRIDE's achievements have never been duplicated by any other motor oil!

The reason? GULFPRIDE alone is made from choice Pennsylvania crude... refined first to equal the best competitive motor oils... and then further refined by Gulf's exclusive Alchlor process. It took 15 years' research to develop this amazing oil. Such scientific effort backs each Gulf product.

Drain and refill with GULFPRIDE now. At all Gulf dealers.

(Left) SEE WHAT HAPPENS when a mixture of 6 of the best-known Pennsylvania motor oils goes through Gulf's Alchlor process. 20% waste is removed from these already highly refined oils. That's why GULFPRIDE tops all other Pennsylvania motor oils.

(Right) EVERY SET of buyers' specifications for quality motor oil, including those of the U. S. Army and Navy is exceeded by GULFPRIDE OIL! No other oil can equal it—because no other oil is 100% pure Pennsylvania and refined by the Alchlor process. Get GULFPRIDE—the world's finest motor oil.

EASTERN AIR LINES' Great Silver Fleet has flown more than 26,000,000 passenger-miles during the past six months, using GULFPRIDE OIL exclusively. Reason: this oil gives the lowest cost per mile—a fact you can confirm in your car.
