British Cabinet In 'Emergency' Session

Slain in Chicago

Although clues were meager, war between rival labor organizations was said by police to have brought the gang style slaying of Michael J. Galvin, above, 55, business agent of a Chicago chauffeur and truck drivers' union and a Republican ward official. As Galvin walked down a Chicago street, four shotgun blasts were fired at him from a closed sedan. Galvin's union was called an "outlaw" by regular labor leaders.

SEMINOLE WELL IS FLOWING 2 1/2 BARRELS HOURLY

Packer Holds, Gains Discovery To Acidize

BY FRANK GARDNER
Operators finally succeeded in getting a packer to hold in Amerasia Petroleum Corporation No. 1-A Averitt, Seminole discovery well, and were able to acidize today a round noon with 1,000 gallons. The double packer, bottomed at 5,006, was set around 2 1/2-inch tubing run three feet off bottom, with the last 15 feet perforated. That the packer was working successfully was evidenced by the fact that gas volume was less than 100,000 cubic feet. Previously, on open flow, gas had amounted to 11,700,000 cubic feet, most of which was encountered in upper horizons.

U. S. TO SEND FOOD TO ALASKA BY SHIP

Similar Plan Also Will Be Used to Aid The Hawaiian Islands
By Associated Press
The government moved today to send emergency food-laden ships to Alaska, and indicated a similar plan for the relief of Hawaii.

ONE HOPE IS THAT COTTON GROWING IN COUNTRY CAN ALL BE MECHANIZED

Dean W. R. Woolrich, who at the beginning of the current session of the University of Texas became a member of the staff of that institution as head of the College of Engineering, has made a study of the economic situation of the south especially as it relates to cotton, its principal product. In a series of five articles, of which this is the second, Dean Woolrich has analyzed the situation which confronts the people of Texas and other cotton producing states and points out the obstacles to their development and progress.

AGGIE VISIT'S PARENTS

BASIL ZAHAROFF DIES

MONTE CARLO, Nov. 27 (AP)—Sir Basil Zaharoff, 86, so-called mystery armaments salesman, died today.

MADRID PEOPLE BUILD TUNNELS TO PROTECT LIFE

Bomb-Torn City Now A Labyrinth Of Passages

REBELS LOSING

Say Insurgents To Be Expelled By Christmas

MADRID, Nov. 27. (AP)—Besieged people of Madrid today began to turn the bomb-torn city into a labyrinth of underground passages.

Householders were tunneling from cellar to cellar to provide places of refuge in the event their homes are brought down.

The tunnels are also being used as a means of escape from asphyxiation during devastating shelling.

General Kleber, socialist commander, declared the government forces would have insurgent from the gates of Madrid by Christmas.

At Valencia, 73 Americans awaited an evacuation order from the border following a trip from the closed American embassy in Madrid.

Fascists fought forward slowly in efforts to reach the sides of their 2,000 comrades marooned by government lines around the clinic hospital building which an international column of anti-Fascists has attacked for two days.

The foreigners fighting in the defense of Madrid halted their activities for a rest, but the government said the insurgents in the building were blocked off on three sides.

No way instructed its minister at Lisbon, Portugal, to protest reported seizure of two Norwegian steamers by the insurgents.

The Norwegian government charged the ships were stopped and their cargoes of timber and potatoes confiscated while they were en route to Valencia, Spanish government held post.

U. S. TO SEND FOOD TO ALASKA BY SHIP

Similar Plan Also Will Be Used to Aid The Hawaiian Islands
By Associated Press
The government moved today to send emergency food-laden ships to Alaska, and indicated a similar plan for the relief of Hawaii.

International aspects of the widespread maritime strike was intensified with announcement of boycotts of American vessels by French and Mexican works.

Singing Fireman

If singing can be used in filibustering, fireman John T. Bernard, Minnesota Farmer-Laborite, ought to be in first position in the next Congress. Bernard, photographed as he sings an aria from Pagliacci, was successively iron miner, railroader, and fireman. Elected congressman Nov. 3, he will join the Progressive bloc in the House. He is widely known for his singing.

HOLIDAY LEAVES 109 DEATHS OVER THE NATION TODAY

80 of Victims Meet Death in Traffic Accidents
By Associated Press
At least 109 persons were killed yesterday in holiday accidents which brought a tragic note into many homes where Thanksgiving festivities were planned.

Eighty of the victims met death in automobile traffic. Ten others were killed in hunting accidents, while fires, train mishaps and other causes accounted for 19 lives.

Three men and a boy were killed at Waterloo, N. J., when their truck was struck by the Wildwood Express of the Pennsylvania-Reading Seashore Lines. The group started out for firewood to prepare a Thanksgiving dinner.

Barclay W. Warburton, Jr., social prominent sportsman and aviator was fatally wounded while hunting on his farm near Doylestown, Pa. He stumbled while climbing a fence and received the full charge of his shotgun in the abdomen.

Five Texans were killed in traffic accidents and one was burned to death.

ROOSEVELT IN RIO ENROUTE BUENOS AIRES PEACE MEET

President Greeted By Brazilian Executive

DEMANDS PEACE

Tells Delegates An American War Is Impossible

RIO DE JANEIRO, Nov. 27 (AP)—President Roosevelt arrived here today on an Inter-American mission of peace and was greeted by the outstretched arms of President Getulio Vargas of Brazil.

It was the second stop for Roosevelt on his Buenos Aires conference trip. Five thousand school children sang the "Star Spangled Banner" as the president arrived. The United States cruiser Indianapolis, carrying the presidential party, boomed a 21-gun salute in honor of President Vargas.

Roosevelt told a joint session of Brazil's congress that "there can be no American conflict that cannot be settled by an orderly, peaceful man." He said that the Inter-American congress afforded an opportunity to "banish war from the new world."

RANGER CAPTAIN SAYS 2 FARMERS EVIDENTLY DEAD

Reward Offered For Return of The Men Dead or Alive

SAN PERLITA, Nov. 27. (AP)—Search for Luther and John Blanton, missing hunters, on the vast King ranch for nine days, was at a standstill today as Rangers continued to press an investigation of the mystery.

Six mounted men, led by constables Ernest Oakes, failed to find any trace of the missing pair last night.

SAN PERLITA, Nov. 27. (AP)—Rangers scanned the sky for circling buzzards today in their efforts to find the bodies of two hunters who disappeared mysteriously on the King ranch preserve.

Ranger Captain Bill McMurray, after tracing every clue he said he could find, expressed conviction that the missing hunters, Luther and John Blanton, had been killed on the ranch.

"They were either killed and taken off the ranch, or taken off the ranch and killed," the ranger said he believed.

He said a thorough search of the area in which they were last seen had failed to reveal any sign of what had happened to them.

"It isn't reasonable that they could have just disappeared," he said.

Captain McMurray said searchers from now on would be watching the King ranch buzzards, scavengers of the southwest, circling over some spot where the Blantons might lay dead.

Sheriff Howard Cragg announced he would personally pay a reward of \$250 for the return of the Blantons, "dead or alive."

The sheriff said he would ask the state for an additional and official reward to spur the search for the missing men.

A party of six mounted men, led by Constable Ernest Oakes of Sebastian, returned from their search of the brushlands without finding a trace of the Blantons, Oakes, nearly astride a fagged horse, said the searchers had encountered one locked gate in their hunt and had been unable to enter that pasture.

FOUR BURNED TO DEATH IN WRECK

Unidentified Persons Die When Cars Crash And Burn Near Reno

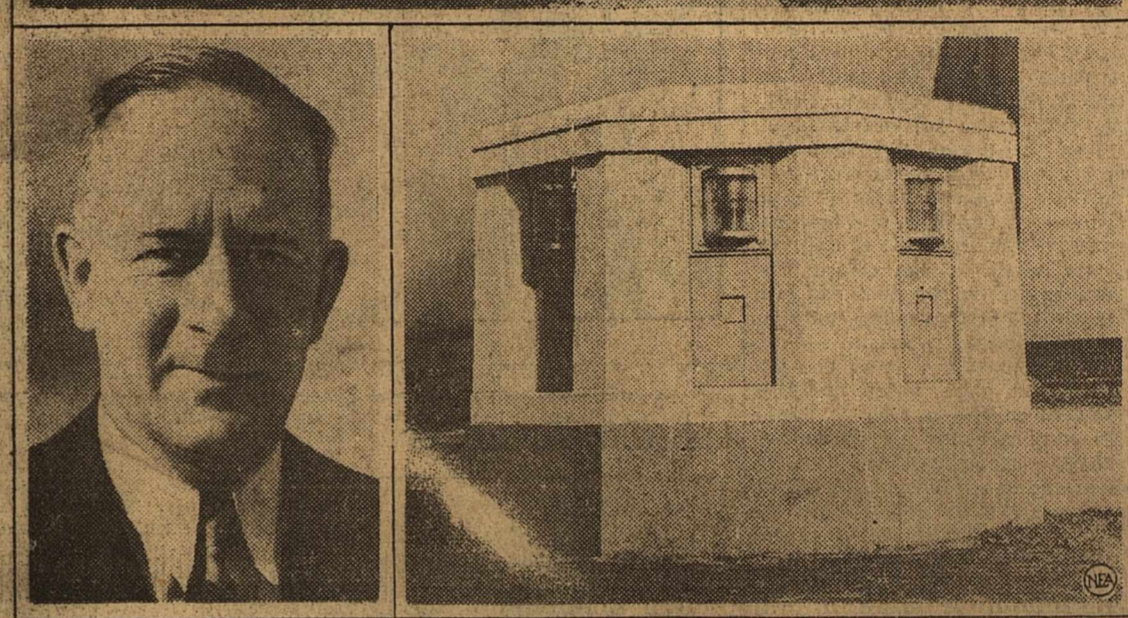

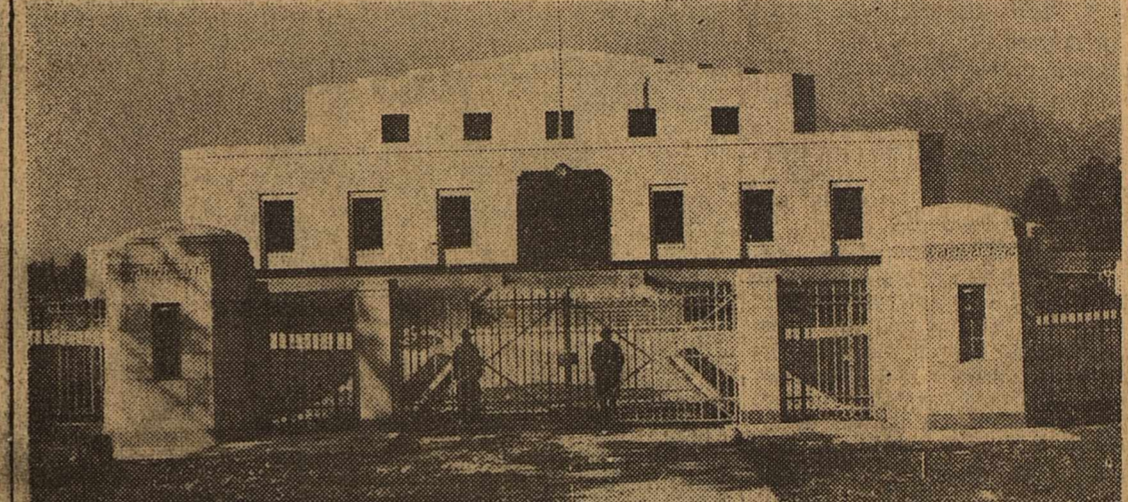

RENO, Nov. 27. (AP)—Four unidentified persons were burned to death and three others were seriously injured in an automobile accident north of here today when two cars collided head-on and burned.

The charred bodies of a man, woman and child were found in one car and another body was found in the second car. The person in the second car was believed to be Lester Loley, Litchfield, California.

FROM SCHOOL

Miss Ann Lloyd, daughter of Mr. E. Russell Lloyd, is here with her father to spend the Thanksgiving holidays from her school in San Antonio, Incarnate Word.

Medieval - Modern Gibraltar For U. S. Gold

Defense measures dating to medieval days are combined with modern scientific ones to make impregnable the \$600,000 depository at Fort Knox, Ky., where the \$10,000,000,000 gold hoard of the U. S. will be stored in 1937 for safekeeping. Top photo shows sentry houses at the only gate into the "strong box." Beyond the steel fence, which may be electrified, lies an open moat. At each of the four corners of the building is a machine gun "pillbox", as shown in lower photo at right. Turret openings are covered with bullet-proof glass and steel armor. The vault within, made of steel which gives off poison gas under a torch, can be flooded. At lower left is R. T. Van Horne chief clerk, who will be in charge of guards.

MRS LUTHER STARK SUCCUMBS TODAY

Texas Philanthropist Dies At Orange Home After Illness

ORANGE, Nov. 27. (AP)—Mrs. Luther Stark, widow of a wealthy pioneer lumberman and banker died today.

She was widely known for her philanthropies, having made the largest gift ever going to the Texas University board of regents.

CCC Enrollment Will Be Conducted In Jan.

A CCC enrollment will be conducted in January for both white and colored applicants eligible for selection. Further information can be had at Relief Office, 319 E. Texas Avenue, where applications are being taken.

HEARST GIVES JOB TO J. BOETTIGER

Son-in-Law of President Named Publisher By Foe of FDR

NEW YORK, Nov. 27. (AP)—Appointment of John Boettiger, son-in-law of President Roosevelt, as publisher of the Seattle Post-Intelligencer, was announced Thursday by William Randolph Hearst.

The announcement followed the settlement of a strike which had forced the paper to cease publication for three and one-half months, a Hearst statement said.

Boettiger, former New York and Chicago newspaperman, will leave New York soon with his wife, the former Anna Roosevelt Dall, for Seattle.

"Boettiger will have absolute freedom in directing the editorial and business policies of the Post-Intelligencer," Hearst said. "His only direction is to make it the best newspaper in Seattle."

Hearst was a bitter foe of the reelection of Roosevelt in the recent election. His papers all over the country were strictly pro-Landon.

'Wally' Is Guarded Against Writers of Threatening Notes

LONDON, Nov. 27. (AP)—British police guarded Mrs. Wallis Simpson, American friend of King Edward, today as they were apprehensive lest writers of threatening letters attempt to harm her.

Reliable sources report that she has been receiving many antagonistic communications.

DISCUSS RIGHTS OF BOTH SIDES IN THE SPANISH WAR

Franco to Establish Neutral Zones At Barcelona

GUARD BORDER

Study Placing Merit To Halt Arms Shipments

LONDON, Nov. 27. (AP)—The British cabinet met in a sudden "emergency session" today and discussed the question of belligerent rights for both sides in the Spanish war, informed sources said.

The members were called together after the admiralty announced the Spanish insurgent leader, General Franco had acceded to British demands to establish safety zones for neutral shipping in Barcelona which Franco has threatened to bombard.

At the same time the sub-committee on international non-intervention in Spain met at foreign offices and decided to refer to the full committee a plan of sending neutral observers to Spanish borders to guard against foreign arm shipments.

GENEVA, Nov. 27. (AP)—The Spanish government appealed to the League of Nations today against Germany and Italy under the covenant dealing with "any war or threat of war."

Spain asked a special meeting of the league council to consider whether international peace was endangered in view of the Italo-German recognition of the insurgent regime.

DISTRICT 8-B TO NAME CHAMPION THIS AFTERNOON

Midland's Next Foe Will Be Decided By Committee

A group of Midland men left this morning for Fort Stockton where today the district 8-B committee will decide the winner of the football diadem of that district.

The race ended with Iraan-Fort Stockton-McCamey all tied for the championship and the committee through (forced) to pick the club that will represent the district in the bi-district game next week against Midland.

In the league to the south, Iraan defeated McCamey, Fort Stockton defeated Iraan and McCamey came through with a victory over the Fort Stockton team.

Who the committee will pick remains in doubt but it is believed McCamey has the best chance by reason of their two-touchdown win over Fort Stockton Thursday. Their only defeat, when they lost to Iraan, 6-7, came when their regular lineup was badly riddled by injuries.

Their chances, according to several, are bolstered by that fact.

The group from Midland will attempt to decide with officials of the school picked as the winner on where and when next week the game with Midland will be played. Several technical questions are to be smoothed out before a decision is reached.

A Visit From St. Nicholas

By Clement Clarke Moore

When out on the lawn there arose such a clatter, I sprang from the bed to see what was the matter.

BEHIND THE SCENES IN WASHINGTON

By **RODNEY DUTCHER**
Reporter-Telegram Washington Correspondent

WASHINGTON, Nov. 27. — Out of President Roosevelt's thoughts, deliberations during his "vacation" on the high seas may come the first plan for a permanent program which will treat unemployment and relief as a long-time program.

His most intimate advisers have urged such a plan upon him and believe it is in the cards now that the worst of the depression is passed and the president faces four more years in office. Intimations dropped by Roosevelt indicate he is thinking in that direction.

Officials have told Roosevelt they will need around \$750,000,000 to carry the federal works program through the fiscal year ending June 30, 1937. WPA chiefs privately expect to run out of funds in February, which means Congress must act soon after it convenes in January.

For the next fiscal year, estimates run up to \$2,500,000,000, but Roosevelt's budget estimates are likely to be well below that.

It should be realized that although the congressional relief appropriation for 1936-37 was only \$1,425,000,000, the full works program for the fiscal year will cost more than \$3,000,000,000 when you count up of unexpended balances and anticipated deficiency appropriations.

Men close to the president point out that if he can cut that by a billion he will have made a real showing.

Relief Problem Permanent

Convinced that the unemployment and relief problems are constant, however, high New Dealers are even more concerned with formulating an integrated program which will eliminate as much unemployment in as many ways as possible and at the same time get federal relief activity on a permanent co-ordinated, and efficient basis.

The present Social Security Act, subject to certain changes, is considered a cornerstone.

If Roosevelt accepts recommendation of WPA Administrator Harry Hopkins, he will push for legislation to shorten working hours in industry, for an unemployment census, for rigid child labor laws, for minimum wages, for a lower minimum age limit on old age pen-

sions and insurance, and for a permanent WPA to tide over workers who can't find jobs at periods when they're not covered by unemployment insurance.

Hopkins is understood to believe that boys and girls should be kept in school until they are 18 years old. He has said that there are 3,000,000 persons over 65 years of age in industry. An 18-year-old law would take somewhere between two and three millions out of industry.

Burden Still Heavy

Although the relief burden has been decreasing and Hopkins estimates there will be a million fewer cases on WPA and local relief this winter the problems of unemployment and relief remain huge.

Half the unemployed have never received aid. It is from that half that the increased ranks of labor in industry, the WPA, and the local relief rolls receive most of their recruits, which is one reason why business and employment can pick up without corresponding decreases on relief and works rolls.

It is estimated that at one period there were about 16,000,000 unemployed and a peak of 6,500,000 cases receiving aid. Estimating today's unemployed at between eight and eleven million and today's aid cases at about four million, the difference is still between four and seven million.

Hopkins says unemployment has decreased 40 per cent from peak and the relief load has dropped 28 per cent from peak. He points out that industrial production is now about 10 per cent below 1929 and accepts the possibility that it will reach the 1929 peak some time in 1937.

Even the return to 1929 production figures will leave between 6,500,000 and 7,500,000 unemployed. How many of those persons could be properly classified as unemployed, no one knows.

But it seems certain that the return to 1929 production figures will still leave 3,500,000 heads of families and single persons on the federal works and local relief rolls—which means, according to authoritative estimates, between 12,000,000 and 14,000,000 destitute men, women, and children in need of public aid.

Those cases, plus an approximately equal number of unemploy-

Letter To Editor

To The Editor:

As joint owner of and participant in our All-West Texas Community and Resource exhibit now closing a four-month run in connection with the Fort Worth Frontier Celebration, I am sure you will be pleased with the results secured from our joint cooperative effort. From a report made to me by our vice president, Milburn McCarty and by our manager, D. A. Barden, also from almost daily contact with the exhibit, I report to you the outstanding accomplishments of the exhibit as follows:

First: The exhibit was the only enterprise of its kind in all the Centennial celebrations which advertised our resources, development and communities, and the exhibit was pronounced by experts to be "the best regional advertising ever attempted in Texas."

Second: The attendance was greater by far than the attendance to any other single Centennial exhibit. Over 700,000 persons visited the exhibit. Visitors from 16 different states, delegates from 11 different west Texas cities daily visited the exhibit. Over 12,000 persons left forwarding addresses, seeking additional information about west Texas. Over 700 persons left written testimonials in praise of the exhibit.

Third: Motion pictures of 40 different west Texas cities were continuously shown, each town having its picture shown approximately 90 times or a total of 3,604 pictures.

Fourth: Literature from 55 west Texas cities and 23 additional separate pieces of west Texas literature were distributed; a total of 110,000 pieces of literature being judiciously distributed to inquiring parties.

Fifth: Each West Texas city participating, in addition, on its special day secured an average of 50 inches of publicity in state papers; a 15 minute radio program over WBAP, KPJZ and KTAT, and other advertising facilities at the show.

Sixth: The cost of the exhibit and building totaled close to \$60,000 made up as follows, from Fort Worth Board of Control \$34,035.66, from the Amos G. Carter fund, \$9,496.82, from the West Texas Chamber of Commerce fund \$9,261.66, from West Texas cities spent on their own literature and city panel exhibits \$6,005.00. All bills are paid and no debts confront us.

The entire exhibit and plant now are being used for use in permanently advertising West Texas. The exhibit is permanently built and can be moved from place to place, or we can leave it in Fort Worth to become a part of any future Frontier Celebrations and the Southwestern Exposition and Fair Stock Show.

The motion pictures and the panel exhibits of course belong to each city, but we would like to have your permission to keep these in contact with the exhibit. Right now, we would like to put the motion pictures on a circuit, showing them in the public schools of Texas. Let us hear from you about these plans, and we will keep intact your motion picture and your panel exhibit unless hearing from you to the contrary.

I say it to you in all sincerity that this West Texas activity has made me proud of the West Texas Chamber of Commerce and of our West Texas cities. It shows what tremendous benefit can accrue from a well organized and managed regional chamber of commerce. Our West Texas cities this year surely have directly secured in advertising benefits alone a value far greater than their various membership quotas. So that we may again be able to carry on in beneficial ways, I hope each city this year will again promptly raise its membership quota, which quotas are now being assessed by our district directors, assisted by our Mr. Rix.

Yours very truly,
VAN ZANDT JARVIS,
President.

The Town Quack

(Reserves the right to "quack" about everything without taking a stand on anything.)

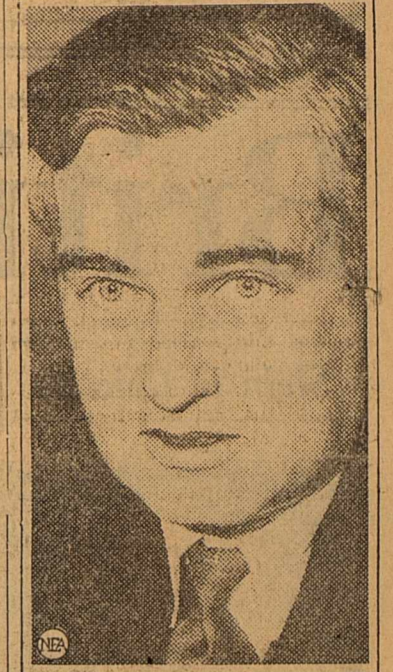

Blondy Cross, ye scribe in Tom Green who has taken it so hard about Midland's being awarded the game against Pecos, has some credit coming and I'm going to give it to him. He went through one whole paragraph this morning before he started alibi-ing about Abilene's 28-0 win over San Angelo. And then he said Angelo lost the game last spring when Box and Weatherly showed up ineligible.

Too bad Angelo didn't have the services of Box and Weatherly. Come to think of it, we might have a better team if we still had Lloyd Burris, Gordon Jones and Renfro Richman. But it's one of the rules of this football that we have to play it with what timber we have on hand, and alibis don't make it much better after a loss.

After this season is over and we have gone as far as we can in this class B, I would like to have the Bulldogs give Mr. Cross satisfaction—not by playing Pecos another game but by taking on Blondy's "medium weight" San Angelo Bobcats. While he is convinced that young Harry Hays is the finest halfback in the state, it might be worth something for Cross to have opportunity for four quarters of study of our "diminutive" 194 pound quarterback, Wafford.

You'll notice that I'm a little football minded today, and who

Greene, Frank Johnson, Don Sivalls, M. C. Ulmer, W. E. Wallace, Fred Wright, J. R. Martin, Robert R. Muldrow, and the hostess.

Vitamin D May Spur Production of Eggs

STATE COLLEGE, Pa. (U.P.)—Six thousand chickens went to school—

Now they have graduated. But they will not go to work. Possibly their children and their children's children may have to do the work. But these birds are the root of new family trees, or the scratchings of a new area in poultry husbandry.

Prof. R. R. Murphy, of the department of poultry husbandry at the college, with several associates, studied these chickens for four years to determine the effect on egg-laying hens. Then the hens are fed twice the amount of vitamin D from cod liver oil, considered necessary for growing chicks.

The professor believes a new scientific principle in feeding has been discovered which will insure extra profits to poultrymen now faced with high feed costs and low egg prices.

'America's Sweetheart' Buddy's Now

With smiles betokening their happiness, Charles "Buddy" Rogers and Mary Pickford are shown together in Los Angeles after their long-rumored romance had at last been climaxed by announcement that they will wed next spring.

At The Library

International Mind Above books placed in the Midland County Library by the Carnegie Endowment for International Peace.

"The books placed in these alcoves are chosen from the most recent publications that bear upon the customs, the art, the culture, the government, or the geography of foreign nations and peoples. The particular purpose of the International Mind Above is to assist readers to gain a wider knowledge of the peoples of the world and thereby a larger interest in them. The International Mind Above are to stimulate the international mind."

Dr. Nicholas Murray Butler

The following titles are now ready for circulation:

"Portuguese Somersault" by Jan and Cora Gordon; is the record of two visits to Europe's strangest and least known country. It is a book rich in adventure, in picturesque characters, and in hilarious experiences. Here are delightful accounts of Portuguese peasant life, of festivals and religious ceremonies, of tiny towns and magnificent churches and castles, of medieval cities and ancient customs still firmly entrenched. Here are not only the more famous cities of Lisbon and Oporto but unforgettable glimpses of obscure but fascinating places such as Alcobasa, Batalha, Leiria and Coimbra.

"Under the Swastika" by John B. Holt; Out of my German experiences from 1931-35, I have tried to portray the war on the old order, the creed of the new, and the rise of the National Socialist totalitarian state. I have attempted to describe the major changes brought about in Germany's political, economic, educational, and religious life as a result of sanctifying the state the national racial group, the Volk instead of the individual. Such a picture as I have drawn can well be said to comprise case material for a study in the ethics of our modern society. (Introduction)

"Autobiography of Andres Carnegie"; The great financier wrote this during several successive summers for immediate friends and relatives. His story of his childhood in Scotland, early years and financial success in America is a revelation of his geniality, indomitable cheerfulness, canny commonsense and idealism. Should be read by every youth and man of ambition.

"An Amiable Adventure"; by Amy Hemingway Jones; All who have visited and all who have longed to go to the exotic countries of the

Far and Near East will thoroughly enjoy this account of the adventures that befall the author and her companion on a recent journey. From San Francisco they sailed to Japan, and after visiting many picturesque places there, journeyed through Korea to Manchuria which they reached two days after the new state, Manchukuo, had been declared. In a rat-ridden boat they voyaged to China, reaching Shanghai shortly after the attack on Chapei. After visits to the various historic cities, on they went to Cochin China and Cambodia; to Siam, Penang, Burman, and then to India, Iraq, and Syria.

Miss Jones has written a lively and informative personal chronicle of what she has seen in her travels around the world.

"The Soul of England"; An illustrated survey of the works of man in the English country; with contributions by Adrian Bell, George A. Birmingham, Edmund Blunden, and others. 114 illustrations from photographs.

"An Atlas of Current Affairs" by J. F. Horrabin; Seventy-four small outline maps showing regions in which current international issues, economic, political, and racial, are centered, are faced by single pages of concise explanatory text. Constitutes a geographical quick-reference guide to such topics as the Polish corridor, Separatist movements in Spain, Oil in Persia, Jewish settlements in Palestine, The Gran Chaco, and the Indian states.

Educational Aids Of CCC Enumerated

FORT SAM HOUSTON, Texas, Nov. 25.—Providing adequate educational facilities whereby enrollees of the Civilian Conservation Corps may complete grammar school work and take high school or college subjects is one of the vital steps in preparing the young man to take his place in business or in the trades when he leaves the CCC.

The success of the education program in the Eighth Corps Area CCC camps has been occasioned by the care exercised in the selection of educational advisers for the 251 camps who are well trained and have previous educational and teaching experience.

With the majority of the 41,000 enrollees in the Eighth Corps Area pursuing educational courses, every effort is made to keep the adviser abreast of the times and well versed in his subject matter and teaching methods.

To accomplish this the educational institutions and associations in Texas, Oklahoma, New Mexico, Colorado, Arizona and Wyoming are cooperating in the study of teaching methods applicable for the CCC.

Educational advisers frequently are invited to participate at the meetings of the educational associations. At two meetings of educators in Colorado recently one section was organized for educational advisers of the Littleton and Grand Junction CCC districts.

Teachers colleges in other states also are cooperating by inviting educational advisers to attend instruction conferences.

Preparing for the addition of new enrollees at each new enrollment period, district advisers in all of the 14 Eighth Corps Area districts conduct conferences for all of their advisers when prominent sectional advisers are invited to speak. The findings of numerous graduate students at institutions

Mrs. L. L. Payne Is Hostess to Bridge Club Wednesday

The San Souci Club was entertained at bridge at the home of Mrs. L. L. Payne Wednesday afternoon at 2:30 o'clock.

Yellow chrysanthemums brought out the bright color in the autumn decorations.

High score for the afternoon went to Mrs. M. E. Cole, high cut to Mrs. Rea Sindorf, and Mrs. Irby Watson won low score.

Mrs. M. L. Weatherall was club guest.

A salad plate was served to Meses. M. E. Cole, Roy Downey, Bates Hoffer, Paul Schlosser, Rea Sindorf, Irby Watson, Claude Cowden, M. L. Weatherall, and the hostess.

George Ann Farley Honored at Dance Thanksgiving Evening

Mrs. George E. Farley honored her laughter, George Ann, who has returned from her school, Incarnate Word at San Antonio to spend the Thanksgiving holidays here, at a dance at the Midland Country club Thursday evening at 8:00 o'clock.

The club was beautifully decorated with yellow chrysanthemums, this motif being carried out in the refreshment plate of cake and ice cream moulded into chrysanthemums.

The youthful dancers enjoyed one of the outstanding gala affairs of the year, intermixing their dances with Paul Jones and other squares. Mrs. Farley was assisted by Mrs. Fred Wright.

The guest list included Wanda Dickson, Freddie Faye Turner, Jean Davis, Jessa Lynn Tuttle, Barbara Jean Harper, Anna Beth Bedford, Jean Lewis, Edie Jean Cole, Margorie Lou Speed, Eleanor Wood, Kathryn Jane Tanner, Mary Beth Scruggs, Velma Johnson, La Moine Sindorf, Geraldine Griffith, Dorothy Lou Speed, Adele Riggs, Fady Sue Whitcomb, Julia New Cowden, Mary Sue Cowden, Dorothy Sue Miles, Ann Lloyd, Russell Wright, James Walker, Remmel Cowan, John Rettig, Paul Drieker, E. C. Cirdley, Joe Beane, Bobby Martin, Bobby Walker, Fred Gordon, Billy Simpson, Jack Nobles, John Journeycake, Jay Francis, Ralph Lamar, Lynn Stevens, Robert Elison, Robert Payne, Robert Tanner, Billy Noble, John Dublin, J. Owen Jeffers, Frank Miles, James Johnson, Wayne Lanham, Clarke Leggett, E. B. Rountree, Woodrow Adams, Bob Reeves, Burton Estes, and David Wafford.

of higher learning working on these for master's degrees often are discussed to determine if there are suggestions which will improve the standards of teaching in the CCC.

Special effort is made by district advisers to coordinate teaching schedules in their camps working on plans drawn by the Corps Area educational adviser to the end that every enrollee is offered an equal opportunity to have and use the ample educational facilities, uniform in districts.

"On the job" instruction, or the imparting of technical information to be applied practically on the individual camp's work project is a major part of the educational program.

To insure that practical instruction is available to enrollees who wish to become proficient in a trade educational advisers periodically are instructed in shop practice or other mechanical lines so that they in turn can provide instruction in the camps.

In the Fort Worth district recently, educational advisers met at a shop in Fort Worth where they worked at lathes and at other machinery under expert supervision to determine if each was "up" on the latest methods.

Health Safeguards Cause for Thanks

AUSTIN, Nov. 24.—"A high standard of community health is the best asset that a state can possess," said Dr. John W. Brown, state health officer, in speaking of the progress made in public health education since the first Thanksgiving Day was observed by our forefathers.

"The state of Texas has much to be thankful for in this Centennial year," he said, "in the steadily increasing interest and cooperation of the people of the state in matters pertaining to sanitation and control of communicable diseases.

"The control of the water and milk supplies, sewage disposal, vaccination against smallpox, immunization against diphtheria, food inspection, housing regulations and many other measures have been spectacularly successful in reducing the killing power of a number of maladies that formerly took a terrific annual toll.

"Responsibility for success and advancement of a public health program lies not with the health department primarily, but with the people who support and encourage the community effort put forth and who apply in their own individual lives the knowledge which they have acquired.

"It follows that the individual citizen, to reap the benefits of public health administration, must be more concerned about his well-being

SIDE GLANCES

"I'm not worrying about what I could have made this week. It's still less than I would have lost last week."

Special Program Is Presented At Fine Arts Meeting

The Fine Arts Club met at the home of Mrs. Harvey Conger Wednesday afternoon changing from the regular course of study to a special program, which was led by Mrs. E. H. Ellison.

Mrs. Charles Brown, a new member, spoke on the subject of "Parliamentary." Mrs. E. H. Ellison read a paper on "Federation." Mrs. A. C. Thomas brought out some new ideas about "Reading" and Mrs. Fern C. Bobo gave an interesting health talk, "Your Daughter's Mother."

The members attending were Meses. Tom C. Bobo, John Cornwall, E. H. Ellison, Fred H. Fuhrman, R. W. Hamilton, J. H. Hodge, Roy Farkis, Paul Osborne, A. O. Thomas, R. C. Tucker, J. M. White, E. Hazen Woods, Harvey Sloan, and the hostess, Mrs. Harvey Conger.

proximating \$27,500, was also first to send in its quota in the post-election drive for funds.

Local leaders, whose counties failed to reach their quotas in the first campaign were seizing upon the opportunity offered by the new drive to put their counties "over the top."

Five counties—Cim Hogg, Sutton, Val Verde, Dallam and Terry—early this week exceeded their pre-election quotas by sending in contributions to the \$50,000 "deficit fund." Sixty-one other Texas counties already had equaled or exceeded their quotas when the first campaign's books were closed November 7.

Although several large donations helped to swell the fund raised by the Texas democratic organization before the election, small contributions, those under \$5—comprised more than half the \$22,280 total received at state headquarters.

Three thousand six hundred eighty-four of the contributions were below \$1 each. Donations from \$1 to \$5 totalled 11,858, those between \$5 and \$25 totalled 5121. One thousand two hundred fifty-six of the donations were between \$25 and \$100 each; 298 contributions were in the

Democrats Making Up Deficit Facing Party's Treasury

AUSTIN, Nov. 25.—Loyal Texas Democrats of modest means, whose money and votes aided so greatly in their president's smashing victory at the polls on November 3, this week are pledging support and co-operation to the state democratic leaders, now in the midst of a post-election campaign to raise \$50,000.

The additional funds are needed to help the democratic national committee remove a party deficit of \$500,000, occasioned by unusually heavy expenditures to meet the practically unlimited campaign funds of the opposition.

Hardly had district and county democratic chairmen of the state been notified of the new campaign than telephone calls, telegrams, and letters pledging support and co-operation began to arrive at the desk of State Campaign Director Roy Miller.

Bosque county, first to reach its quota in the pre-election campaign which resulted in a Texas fund ap-

Brandeis Works on His Birthday

A birthday didn't mean a vacation for Louis Dembitz Brandeis, oldest of the U. S. Supreme Court justices. Here the famed liberal is shown in his car in Washington, on his way to court on his 80th anniversary.

"Such whole-hearted response from Texas democrats of limited means but unlimited loyalty is indeed gratifying," Mr. Miller declared. "Also the same response already evidenced in the new campaign gives every indication that we shall reach our new state quota within a short time, if local party leaders will merely place our national organization's problem before the good democrats in their respective localities."

A birthday didn't mean a vacation for Louis Dembitz Brandeis, oldest of the U. S. Supreme Court justices. Here the famed liberal is shown in his car in Washington, on his way to court on his 80th anniversary.

STORIES IN STAMPS
By I. S. Klein

EUROPE'S PRIVATE POSTMASTER

FOR almost 3 1/2 centuries Europe relied for the delivery of its royal dispatches, its personal mail and even transportation on the daring service developed by the son of a chamberlain to the Holy Roman Emperor Frederick III.

From his headquarters in Brussels, Francois de Tour et Tassis, as he was known, operated the mounted courier and stage service between Brussels, Vienna, Paris, and Spain. At one time, the service reached into Italy, across numerous state boundaries, and netted the family of Tour et Tassis more than a million florins a year.

This service is best known as the Thurn and Taxis Post, the name having been Germanized early in its history. Under support of the great monarchs of Europe the service resembled the private postal express services which crossed the American plains in the fifties.

Belgium honored Europe's premier postmaster by portraying him on a stamp in connection with the Brussels stamp exhibition of 1935.

BULLDOGS BARELY NOSE OUT FIGHTING ODESSA BRONCHS, 6-0

WAFFORD MAKES LONE COUNTER IN THE LAST PERIOD

Losers Threaten To Win Game in The Last Minute

A fighting herd of wild Bronchs came on to Lackey field yesterday from their Odessa remuda and missed only by a hair's breath of knocking the Midland Bulldogs from their undefeated perch at the top of the league.

The final score was 6-0 in favor of Midland and the team was lucky to win by that margin. The game was as close as a pitcher's duel between Dizzy Dean and Carl Hubbell with one home run deciding the game.

The Odessa team was "cocked, aimed and primed" to take the game here and they came so close to it that almost the entire Midland group of supporters resembled a colony of St. Vitus dancers before the last quarter could end.

The Midland team did not have the apparent inspiration that characterized the play of the invaders but they showed they were of championship caliber when they marched straight down field for 84 yards after Odessa had penetrated their 20 yard line in the third period. The Bulldog score came in the last period and once more it was Dave Wafford, the mightiest football player ever turned out in Midland high, that was responsible. He carried the ball 17 times in the pay-off drive and accounted for 75 of the yards.

The first half was a game of push and tug with first one club and then the next rolling up yardage while in their own territory but bogging down twice they crossed the middle chalkline. Just before the half ended Wafford passed to Bryant for 15 and he reced 10 more before being downed for the prize play of the first half.

It was in the second half that the fireworks got started. After Wafford those to hit the line on fourth down with two yards needed from the Odessa 26 the ball went over and the Bronchs were off. First off, Midland received a 15 yard penalty. Then with Thomas and Watson alternately driving right, through the center of the Midland line and around the ends the black and red

warriors marched all the way to the Midland 16 before relinquishing it. But it was after the Midland touchdown that the Odessa boys really became mad. Adams kicked off for Midland to Sims who fumbled, recovered and advanced the ball from the Odessa 5 to 18. They were held on their own 20 and forced to kick but it was only a couple of minutes when they took the ball at the same point after Wafford got off a bad kick of 24 yards. And the march was on: Watson started it by skirting his right flank for 21 yards. Middagh then came through for 6. Thomas picked up a dozen yards in a couple of tries. Three passes were completed and Thomas once more started driving into the Midland center. He carried the ball to the Midland 11 yard stripe before the Bulldogs could seem to get together on a defense to halt him. With it first and 10 on the Midland 11 the team finally came to life. Watson completed a short pass to Callon for 4. Thomas hit center for 1. Watson then was tossed far a 2 yard loss and on a fourth down attempted pass the ball went over. Wafford carried it twice for a gain of four yards as the ball game ended.

It would be hard to pick out an individual star of the Odessa club. The entire bunch played like a unit, displaying some of the hardest tackling and blocking in the Bulldogs have faced this year. Thomas was their chief ground gainer but he had a lot of assistance from Watson as Middagh and Sims proved to be better than fair blocking backs.

The middle of the Midland line yesterday was far from being a championship caliber. Wimberly finally being taken out for Whittaker. The latter, despite being rather small showed improvement in stopping up the middle.

Bowers, Odessa center, went out soon after the game started when he received a broken arm while attempting a tackle. His position was more than taken care of by Collins.

The Midland team appeared to be looking forward to the bi-district

THE GAME - PLAY BY PLAY

First Quarter

Odessa won the toss and elected to receive, defending the south goal. Adams kicked off to Sims who returned from the Odessa 1 to 18. Thomas made 4 at left tackle. Watson made 1 at right tackle. Thomas kicked and the ball was down on the Midland 37. Ball was called back and Midland penalized 5 for offside. Thomas made 7 through center Sims made 6 through right tackle. Thomas made 2 at left end. Thomas made 2 at center. Thomas made 5 at right tackle, but Midland was offside and penalized 5. Watson's attempted pass to Acker was knocked down by Wafford. Thomas kicked to Barber who fumbled and recovered on the Midland 15.

Wafford hit right guard for 2. Time out Odessa. Wafford hit center for 7. Wafford made 2 at center. Wafford hit center for 3. Taylor hit center for 5. Wafford hit center for 1. Wafford kicked and the ball went out of bounds on the Odessa 35.

Thomas failed to gain at center. Watson made 2 at right end. Thomas made 7 at center. Thomas kicked and the ball was down on the Midland 44. Midland sub. English for Miles.

Wafford made 4 at right end. Wafford's pass was intercepted by Watson on the Odessa 38. Thomas made 1 at center. Thomas made 5 at left tackle. Thomas made 2 at center. Thomas kicked and Barber was downed on the Midland 12.

Wafford made 3 at left end. Wafford went through center for 4. Odessa was offside and penalized 5. Wafford made 3 a right tackle.

Second Quarter

Midland subs. Klebold and Eidson for Cowan and Mitchell. Wafford drove full speed thru center for 6. Odessa was penalized 5 for offside. Wafford went through right tackle for 9. Time out Midland. Wafford failed to gain at right end. Wafford went through center for 5. Wafford hit center for 4. Wafford drove into center without gain but Odessa was penalized 5 for offside. Barber, on a reverse lost 1. Wafford made 3 at center. Wafford kicked out of bounds on the Odessa 16.

Watson made 2 at left end. Thomas went through center for 8. Watson lost 4 at left end. Thomas made 5 at right guard. Thomas went through center for 4. Thomas kicked to Barber who was downed on the Midland 35. Time out Odessa. Mitchell in for Klebold. Wafford lost 1 at right guard. Wafford passed to Rettig for 7. Wafford made 3 at center. Wafford made 4 at center. Wafford made 2 at left end.

Barber made 1 at center. Barber fumbled lost 10. Wafford kicked to Sims who returned 12 to the Odessa 32. Watson failed to gain at left end.

Thomas made 5 at center. Thomas made 3 at center. Thomas kicked and the ball was down on the Midland 20. Bryant for Barber for Midland.

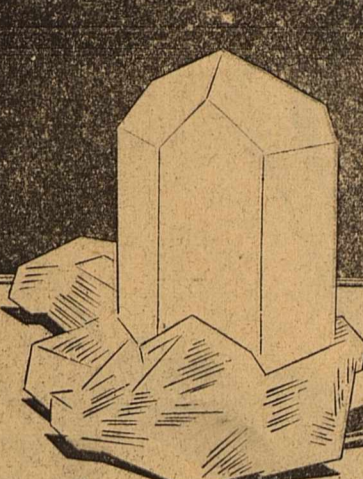

Wafford made 1 at right tackle. Wafford made 8 at right end. Wafford went through center for 5. Wafford passed to Bryant for 15 and he raced to the Odessa 45.

Third Quarter

Callon kicked off to Wafford who returned from the Midland 15 to

The MYSTERIOUS LOVER

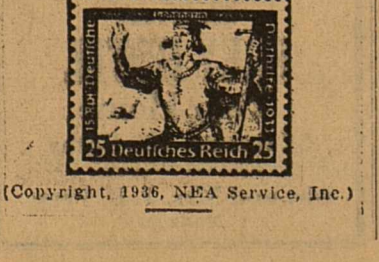

RICHARD WAGNER'S opera, Lohengrin, from which the greatest of wedding marches is taken, relates the story of the guardian of the Holy Grail who came to defend Elsa, who had been charged with having murdered her brother, Godfrey. But only as long as this guardian, Lohengrin, remained unnamed could he stay with Elsa.

Having conquered Elsa's accusers, Lohengrin became betrothed to her, but the guilty pair continued plotting against him. They poisoned Elsa's mind against her bridegroom, until she decided to ask him who he was.

When she did so, it broke the spell and he was forced to leave his bride and return to the Holy Grail. Brought in by a swan, he was taken back by dove, while the swan that had brought Lohengrin returned, to human form, as Elsa's brother, Godfrey.

This masterpiece is portrayed on one of the stamps issued by Germany in 1933, in Wagner's honor.

Madrid Is Inferno in Rebel Drive

Bombs, bursting shells, and blazing buildings lighted this section of Madrid, Spain, as rebel besiegers battled for possession of the city. The photo, taken from a piazza near the Bank of Spain, shows the massive, 14-story, American-owned telephone company building in background. In this area occurred some of the heaviest bombardments. The street at extreme right is the Gran Via, Madrid's Broadway. In left foreground is the Calle Alcalá, another famous street.

FROGS. MUSTANGS HEADLINE CARD IN THE SW SATURDAY

FORT WORTH, Nov. 27.—Grid-iron honors, over the years, are just about even between the Texas Christian Horned Frogs and the Southern Methodist Mustangs.

In 18 games played by the two schools, the Frogs have been victorious eight times, the Mustangs have won seven, and three have been ties.

The competition began back in 1915. T. C. U., with some 18 years of football experience behind her, found the S. M. U. eleven, just starting play, rather easy opponents for the first few years. But in Southwest Conference competition (since 1923) the ponies hold a slight edge, with eight victories to four losses and two ties.

For eight successive years (1926 to 1933, inclusive) the T. C. U. —

S. M. U. contest wound up the grid season for both elevens. But this season is the third straight that both teams have scheduled an additional game after the annual Fort Worth-Dallas clash.

Three times in the past eight years the two schools have met with both teams as candidates for the conference flag. In 1929 the Frogs needed at least a tie to gain the title—and the game ended 7 to 7.

In 1931 the Mustangs had to have at least a tie to beat out the Frogs—and the game ended 0 to 0.

Last year the eyes of the nation were on the two undefeated elevens that met in Fort Worth. S. M. U. won 20 to 14, to go to the Rose Bowl, where they lost to Stanford 7 to 0. T. C. U. went to the Sugar Bowl.

Retired Miner at 75 'Keeps Young' Hiking

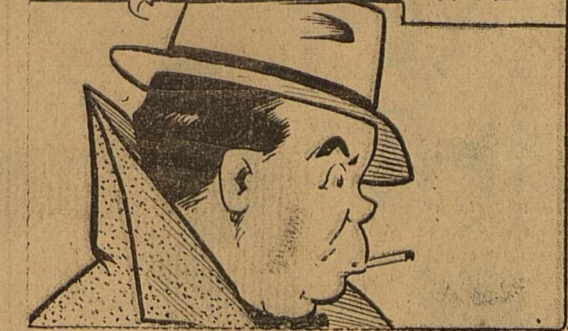

PITTSBURGH, (U.P.)—Joseph Kettering, 75, a retired coal miner, believes he has found the secret of good health and longevity. It's a long walk every day. In the days when he dug coal, Kettering and his brother, Martin, who is 77, walked five miles each way to and from work. It became such a habit with the younger brother that he never gave up his daily walks even after he grew too old to work. "Old Joe," as he is known to his friends, never misses a day's walk to Braddock, five miles distant. About once a week, the old coal miner walks from his home to the downtown section of Pittsburgh, a distance of 28 miles round trip.

One Word in 3 in College Use is Mispronounced

NEW CONCORD, Ohio, Nov. 27 (U.P.)—A revolutionary speech recording machine installed in the speech department of Muskingum college shows that one third of the words in the English language are mispronounced, and 65 per cent of these are a common usage. The machine, according to Prof. W. H. Ewing, records on an aluminum disc. It has its own amplifying system and a soundproof studio is being built. "The most common mistakes, according to Ewing, are: Making long 'a's' out of short 'e's' such as 'may-sure' for 'measure.' Pronouncing long 'u's' as 'oo,' as 'stoo-dent' for 'student.' Making long 'e's' out of short 'i's' as 'feesh' for 'fish.' All incoming students are required to take the test.

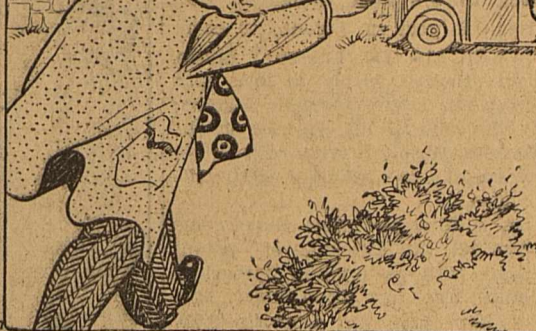

BOOTS AND HER BUDDIES

'Reunion' Brings Quintuplets Back in Another Movie for Their Many Admirers

Surprise follows dramatic surprise, romantic secrets are revealed and tangled lives set straight when the Country Doctor's 3,000 grown-up 'babies' come back to share their joys and tears with the man who brought them into the world in 'Reunion.'

The picture which stars the world famous Dionne Quints and features Jean Hersholt, Rochelle Hudson, Helen Vinson, Slim Summerville, Robert Kent, John Qualen, Dorothy Peterson and many other players, boasts the year's most important cast in the season's most unusual drama.

The Quin's Dr. Luke, played by Jean Hersholt, on the verge of retirement from the burdens he has carried for a generation, decides to call back from all over the globe the three thousand men and women whom he assisted in the world.

Also joining the party is attractive young Dr. Tony Luke, the doctor's nephew, whom he has called back to the little Canadian town from his post in Toronto to carry on with his (Dr. Luke's) duties.

In a climatic scene that combines all the elements of potent drama with pathos and uproarious humor Dr. Luke, Tony, Mary, Mrs. Sheridan, and the Doctor's 3,000 grown-up 'babies'—including the governor of a state, a fading stage star, a crook just out of jail, and many other unforgettable characters—convene for the reunion.

Westport Club bathing girls of Venice, Calif., furnish this good-looking action shot in practice preparatory to defending their aquatic basketball championship against southern California feminine teams.

for the construction of a County Hospital at Clarksville, Texas, at a total cost of \$75,000. This hospital is of brick construction and will furnish accommodations for 40 patients.

Located in the beautiful setting and in the midst of tall, shady trees, the City Hospital being constructed at Tyler, Texas, is a modern Class A hospital 5 stories high.
