AND GAZETTE-EXAMINER

VOLUME XXIX

MIDLAND, TEXAS, FRIDAY, AUGUST 7, 1925

NUMBER 45

CONFEDERATE VETERAN PASSED AWAY FRIDAY

W. J. GLENN DIED AT AGE OF 81 WAS ONE OF EARLY TRAIL DRIVERS

W. J. Glenn, confederate veteran, Indian fighter, and former trail driver of the early days, passed to his reward last Friday after a painful illness that lasted about two weeks.

He has lived a very interesting life replete with experiences that only the pioneers and early citizens of the west have known. The following account of his life gives many of its outstanding points:

W. J. Glenn who departed this life July 31 1925, was born in Cherokee County, Texas, June 11 1844. He moved with his parents to Burnet, then to Gillespie County when the call came for enlisting, he walked from Kerville to San Antonio in one day to enlist. He served through the four years war as a confederate soldier. On his return to Kerville in 1865, he met and married Miss Rhoda Lowrance January 1 1866, of which union ten children were born, all of which are living except Elbert who passed away in 1918. Mr. Glenn was an old trail driver, having driven nine herds up the trail to different points. The first were delivered in Kansas in 1871, for Crawford and Quintan. The last herd he drove up the trail was in 1885, for Srsreiner Light and Lytle. Afterwards he was foreman for a number of years for the S L & L Co. He moved to Midland in 1907, in which place he lived to the time of his death.

Will Install A Radio Shop

S. Dewey Stokes has closed a deal for space in the front part of the Midland Reporter Office, and will install an exclusive radio shop, handling a full line of machines and supplies.

He expects to go to Dallas and Fort Worth at an early date, and will secure the latest in radio for his shop.

He plans to fit up the shop especially for radio concerts and demonstrations, and will tune in on the various broadcasting stations each evening.

Sold Sheep To Henry Currie

V. C. Ray made a sale this week of some very fine sheep to Henry Currie, who will take them to his ranch near Garden City.

With the sheep Mr. Ray sold a valuable dog, and the animal is expected to be a great help in herding the sheep.

INSPECTION TRIP NORTH COMPLETED

DeARMOND AND BAKER FIND MUCH CO-OPERATION ON NORTH PLAINS

The northern terminus of the highway which is seeking destination north and south through Midland will probably be Friona, instead of Muleshoe as previously planned.

J. M. DeArmond and Engineer R. W. Baker returned Tuesday night from their inspection trip on the north end of the proposed highway, and found much enthusiasm and co-operation up there. Citizens of that section are anxious to extend the highway as far as Friona, instead of stopping at Muleshoe, which will connect it with one more east and west highway.

If counties will agree among themselves, so that the designation may be completed through each, it looks highly probable that the State will see fit to give its stamp approval, according to those who are in touch with the situation.

Fisher Pollard and family have been here this week from Andrews.

THE WEATHER—MAYBE!

(By the Four-Castor)

Saturday, Thunderheads, with probable showers.
Sunday, Good shower by night.

PLANTING FEED ALL OVER MIDLAND COUNTY

RECENT RAINS WILL HELP MAKE GRAIN AND FORAGE CROPS

Farmers in Midland County have been planting feed since the rains that fell last week, and many of them have utilized every available acre to start feed forage crops.

It has been demonstrated here many times that late feed crops will grow. According to one old timer, the best feed crop he ever saw produced in this country was planted on August 6. This was a crop of maize.

Sorghum or red top cane will have time to make abundant crops when planted this late in the year, where there is enough moisture to plant, and will prove a great advantage for feeding the farmer's or ranchman's own stock, as well as for a cash crop.

Much feed will be made here this year, from present indications, as well as a good cotton crop.

Chicken Walks On Lawn; 6 Persons Hurt In a Fight

DALLAS, Texas Aug. 6—A chicken walking on the lawn was the primary cause of a fight in Oak Cliff late last night which ended after one man was shot, a woman's arm was broken and four others hurt more or less.

Raymond Hall was shot in the neck. Mrs. Meade Ivey has a broken arm. Mr. and Mrs. S. A. Hall were cut and bruised. Mrs. Jack A. Lindsey has a cut on the back of her head and Jack A. Lindsey has an injured hand.

Lindsey is under arrest. The Halls were placed under bonds. The police who investigated said the trouble started between Raymond Hall and Mrs. Lindsey about a chicken on the Lindsey lawn.

Abilene Eagles Have Disbanded

After winning 25 and losing 8 games since its organization in June the Abilene Eagles, formerly known as the All-Star baseball club, disbanded Tuesday afternoon due to the lack of funds to operate. The attendance at home games has been insufficient to cover running expenses, it was stated by W. A. Farmer, one of the leaders in forming the club.

The more ardent baseball fans of Abilene, who seem to be decidedly in the minority, were speaking highly of the young men who made up the club all of whom had been a college player or is now in the course of his college career, except one. But two series were dropped. Midland won two out of three early in the season and Lubbock took two straight from the Eagles ten days ago. One game was to Amarillo, Slaton, Breckenridge, and two here to Midland.

Tahoka, Lamesa, Roscoe, Snyder, Crosbyton, Breckenridge, Dickens, Lawn, Aspermont, Big Spring and Anson were all defeated from one to four times.—Abilene Reporter.

Dr. and Mrs. E. J. Neathery were here last week end from Sherman. They were enroute to Roswell to visit their daughter. Dr. Neathery owns some valuable land west of Midland, having bought ten sections from B. N. Aycock a little over a year ago.

Mr. and Mrs. Dick Cowden and daughter, and Mrs. Cowden's mother Mrs. Baker, of Clarendon, have just returned from a pleasant trip to the Grand Canyon, and points in Arizona.

Mrs. T. S. Patterson and Miss Lois Patterson have returned from a visit with relatives and friends in Sweetwater and Abilene.

Mrs. A. W. Cato and daughter left Wednesday evening for Weatherford where they will visit Mrs. Cato's parents.

"Cooper, Glass and Myrick" returned last night from their memorable trip to Colorado, Wyoming, New Mexico, and Northern points.

CITY WATER SUPPLY IS PRONOUNCED SAFE BY STATE HEALTH DEPARTMENT

Letter To Dr. W. K. Curtis States That Water Is Free From Contamination. Advice Given To Citizenship.

Following the advice over a week ago that one of the city's wells showed a trace of contamination that made it unsafe for drinking purposes, a general cleaning out of reservoirs was done under the direction of Dr. W. K. Curtis, City and County Health Officer, and with the aid of the waterworks superintendent, B. F. Ward. Well No. 5 was put through a cleaning process also.

Samples were then forwarded to the State Health Department's laboratories for a thorough test, and the following letter has been received by Dr. Curtis, which is self explanatory.

Attached hereto please find copies of laboratory reports showing result of bacteriological examination of two specimens of water submitted by you, and is further indicated on the forms. You will note that the forms indicate both specimens showed to be free from gas producing organisms of the B. Coli group. According to the standard of the American Public Health Association the sources from which they were taken may be recommended as safe for drinking purposes, at the time the specimens were collected. The cleaning which you gave well No. 5 and the reservoir evidently helped the situation, and we would suggest that you continue to forward samples at least once each month in order to keep a check upon the condition of

each well.

Thanking you again for your interest in this phase of sanitation, I am

Very truly yours,
H. O. Sappington, M. D.
State Health Officer.

In commenting on the situation, Dr. Curtis makes the following statement to the citizenship:

"Don't delude yourself with the idea that even when all available places are attached to the sewerage system, the city water system will be free from contamination.

The attempted "general clean-ups" made at certain periods of the year will not render water safe from contamination. Nor will cutting down of clean mesquite bushes for appearance sake do the work.

There should be a constant and daily effort on the part of the citizenship to keep their own premises clean.

Decaying animal matter can be washed down through our "Mexican Lake" with every good rain, and no one knows what underground stream of water will be contaminated thereby.

This is especially applicable to the principal central alley of the town, where a huge container without lid is the home and pleasure resort of tens of thousands of flies.

The health authorities are obligated to Mr. B. F. Ward, superintendent of the water works, for his help in cleaning up the wells and reservoirs."

BASEBALL SEASON TO CLOSE SUNDAY

GAMES SCHEDULED SATURDAY AND SUNDAY WITH POST CITY NINE

Saturday and Sunday will be the last opportunities to see the Midland Colts in action this season.

The fast Post City Team will be here for games on those two days, and the biggest crowds of the season are expected to gather to see the home team wind up a successful term.

Inability to get games is the cause of closing this early, according to J. A. Johnson, president of the ball club. Ten games have been cancelled by teams from various parts of the country for various reasons, and it has been practically impossible to get games for the remainder of the month.

The Colts have successfully defeated most of the teams in this part of West Texas, and this has been a factor in the difficulty of getting games, it is believed.

Post City comes to Midland with a record of playing fast baseball, having played successfully with Tahoka, Plainview, Lamesa, Littlefield and other towns that have given Midland hard games. They will make the last two games hot ones for the boys, and local fans are expecting a big time.

Ned Watson left last Sunday for Belton, where he is visiting his brother, C. C. Watson.

Mrs. Richard Waddell is here today from Odessa.

J. V. Birge was here last week end from Lamesa, and was accompanied by Nat Birge and George Birge.

Miss Katy Moxley of Andrews is visiting her aunt, Mrs. Smith Umberston this week.

See the Colts in action while you can. Last two games of season Saturday and Sunday with Post.

Only two more ball games. Post City Saturday and Sunday.

PROMINENT MASONS VISITED MIDLAND

LOCAL LODGE WAS HOST TO GRAND MASTER GUINN WILLIAMS SATURDAY

Midland Masons had the privilege of entertaining Masons of unusual prominence last Saturday night, when Grand Master Guinn Williams Judge Hiram Lively of Dallas, Frank Bolton of Mexia, Berry B. Cobb of El Paso, Wilbur Keith, and James Hooks, who is a Masonic Home graduate stopped here.

The party was entertained in the home of Judge E. R. Bryan on Sunday, Dr. W. K. Curtis also being a guest.

Odessa Masons also attended the meeting in Midland, on account of the meeting there being transferred to Midland. The party had been delayed by bad roads.

Mrs. Guinn Williams came here from Decatur and spent the week end with her husband.

The speakers made very instructive and inspiring talks on better citizenship, dealing with the subject of service as applied to Masonry.

Following the meeting in Midland they went to Seminole.

Potash Showing Reported In Well

According to T. O. Midkiff, a showing of potash was reported in the Zimmerman test on the A. P. Hill ranch southeast, at a depth of about 1600 feet.

The drillers had reached a depth of about 1900 feet on Wednesday and were drilling in salt, according to Mr. Midkiff.

It is expected that the contracted depth of 3,300 feet will be reached in about 30 days or less if no unforeseen accidents occur. Much interest is being maintained in the progress of the test, and many are hoping for big results before reaching the 3,300 foot depth.

J. M. Mathena and family are here this week from Eastland.

Eugene Parks, of Stanton, is visiting relatives here this week.

WRECK NEAR ODESSA CAUSED TRAIN DELAY

CARS WENT IN DITCH ABOUT 3 MILES THIS SIDE OF ODESSA

Three or four freight cars are said to have gone into the ditch and two or three others were derailed about 8:30 yesterday morning, supposedly on account of one of the cars rocking from side to side and breaking down.

No one was injured, and the property loss was not serious. Most of the freight consisted of rails and materials belonging to the Texas and Pacific, and these were merely ditched.

Train No. 5 was held up at Big Spring for about ten hours yesterday, pending the removal of the wreck and the repairs on the tracks.

Found Way To Get Rich Quick

W. M. Schrock was at his ranch last week and discovered an old pair of trousers that had been discarded, but found that they were in fair condition. Accordingly he put them on and went about his work. Reaching in his pocket, he found a slip of paper, pulled it out and found the following scheme for getting rich quick:

Glorious Opportunity to Get Rich Quick

We're starting a cat ranch in California with 100,000 cats. Each cat will average twelve kittens a year. The catskins will sell at 30 cents each. One hundred men can skin 5,000 cats a day. We figure on a net profit of \$10,000 a day.

To feed the cats we shall start a rat ranch next door with 1,000,000 rats. The rats will breed twelve times as fast as the cats. So we'll have four rats to feed each day to each cat and we will feed the rats the carcasses of the cats after they have been skinned. The skins of the cats will cost us nothing.

Shares in this epochal enterprise are now selling at 5 cents each, but the price will soon go up. Invest now while opportunity knocks at your door.

California Ranching Company

According to Webster Baker, advertising manager of the bank, the joke of the whole thing was in the fact that during the four days the sign was in the window more than sixty people inquired where they could buy stock in the C. R. Co.

Yes Barnum was right.

Fine Crops On Van Huss Place

County Agent, J. B. Snider and Secretary Paul T. Vickers visited the ranch and farm of R. E. Van Huss yesterday, and found some very noteworthy results of good farming methods.

Mr. and Mrs. Van Huss are making a success of farming, gardening, and poultry, as well as of the cattle business.

They will furnish seven varieties of products for the exhibit which will be sent to the State Fair at Dallas.

They have a corn field that will make from 50 to 60 bushels of corn to the acre, according to estimates of conservative men. They have cotton that has enough forms to make a bale to the acre, where there is a stand.

They have a flock of ninety hens, and since March, they have marketed about thirty dozen eggs per week.

This just shows what can be done in this country by a little hard work and good management. Mr. and Mrs. Van Huss have lived in the Midland country a good many years, and know how to get the most from it.

Rained Several Places Wednesday

Scattered showers have fallen over this section of the country for several years, and heavier rains were reported Wednesday evening. It began raining about five miles west of Midland and extended to Duoro, reaching a good distance north and south. The C ranch reported a good rain, and another one fell northeast in the Holt country.

John McKissick was here last Sunday from Sweetwater.

H. B. DORSEY JUNIOR PASSED AWAY MONDAY

RETURNED FROM KANSAS IN BAD HEALTH RECENTLY

H. B. Dorsey Jr. succumbed to a serious illness Monday afternoon, and was buried here Tuesday.

He had come home from Kansas a short time ago, and was in bad health but the news of his death came as a shock to the entire community, as many did not know he had returned to Midland.

He was the oldest son of Mr. and Mrs. H. B. Dorsey, being seventeen years of age. Until last year, he attended the local schools, but went to Eastland to work.

Later he secured a position as a traveling salesman, and was in Kansas on this mission when his health failed.

H. B. was an exceedingly friendly young man, and has many friends in Midland who join the bereaved family and relatives in regret at his death.

The funeral services was performed by Rev. Fr. Kistner at the Catholic Church, after which he was buried in the local cemetery.

Had Car Stolen While In Dallas

Roy McKee, with his mother and sister returned Saturday from Dallas, where they have been making a visit.

They were delayed a week on account of the theft of Roy's car on the night before they expected to start back to Midland. They were in a theater, and the car was gone when they came out. Police and detectives were put on the trail, and it was recovered the following afternoon about eighteen miles from Dallas.

The car a Ford touring, was completely stripped of all extras and loose parts, but was identified by the engine numbers. Theft insurance was carried, and it is expected that loss will be paid amounting to about \$175.00.

Mr. and Mrs. George Gray are visiting relatives and friends in Pasadena, California.

Mr. and Mrs. W. C. Dorsey and Paul Brown were here Tuesday from Eastland.

WILLIAMS TO HAVE FIRST CLASS SHOW

LOCATION NEAR POST OFFICE BEING REMODELED FOR THEATER

W. H. Williams, manager of the Riato Theater, is preparing to put in a first class theater in the J. E. Hill building, formerly occupied by the office of the Midland Light Co. The building is the first one north of the Post Office.

Work started the first of the week on the interior of the building, erecting platforms for elevating the new seats which will be put in.

There will be a good stage built, with ample room for entertainments of almost any nature, according to Mr. Williams. The front of the building is to have three arches, and will be finished in stucco.

It is expected that the building will be ready for occupancy about September 1.

Mr. Williams announces that he will select the picture for the opening night that is wanted by the greatest number of people. Movie fans are asked to turn in the name of the picture they want to see first in the new building, and the greatest number of names for one picture will get their wish. These names should be turned in during the next week.

Mr. Williams will also give a prize for naming the theater, and expects to announce the details of this next week. In the mean time, those who wish to enter are expected to be thinking up the most desirable name possible.

He will book the best pictures he can get, Mr. Williams states, and expects to have one of the most modern picture shows in West Texas.

CITATION BY PUBLICATION

THE STATE OF TEXAS,
And County of Midland.
To: J. E. Hinds
and all persons and record lien holders owning or claiming, or both, any interest in the land of lots hereinafter described, the same being delinquent to the State of Texas and County of Midland for taxes, and the same lying and being situated in the County of Midland, and State of Texas, to-wit:
160 acres, being the S. E. 1/4 Survey 28, Block, 38, Township 2-South, situated in Midland County, Texas, which said property is delinquent to the State of Texas and County of Midland for taxes for the year 1919 aggregating the sum of 22.04 including interest, penalties and costs, said taxes having been legally levied, assessed and rendered against said land and lots, and the same being a lawful charge and constituting a prior lien against the same in favor of the State of Texas and County of Midland to secure the payment thereof;

And you are hereby commanded to be and appear before the Honorable 70th Judicial District Court of Midland County Texas, at the next regular term thereof, to be held at the Courthouse of said County, in the city of Midland on the 1st Monday in September, A. D. 1925, the same being the 7th day of September, A. D. 1925, then and there to show cause why judgment should not be rendered against you and the said land and lots sold under foreclosure of said lien to satisfy said taxes, interests, penalties and costs, and all court costs, all of which, together with other and further relief general and special, being fully set out and prayed for in the plaintiff's original petition filed in said court on the 8th day of July, and appearing on the docket thereof as suit No., wherein the State of Texas is plaintiff, and J. E. Hinds and all record and lien holders owning or claiming, or both any interest in said land or lots, defendants.

Given under my hand and seal of said Court, at the office in the City of Midland, in the County of Midland, this 29th day of July, A. D. 1925.

C. B. Dunagan, Clerk
43-3t

CITATION BY PUBLICATION

THE STATE OF TEXAS,
To the Sheriff or any Constable of Midland County—Greeting:

You are hereby commanded to summon Oscar J. Francis, Trustee and in person; Edward Morris, Trustee and in person, his heirs and the heirs of his heirs; John P. Wilson, Trustee and in person; Augusta Rothchild and her husband, Maurice L. Rothchild, Ira N. Morris, Maud Morris Schwab and her husband, Henry C. Schwab; Oscar W. Kerr; D. Fasken, Donald S. Trumbull, T. C. Kimber and W. Harvey by making publication of this citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your County, and 70th Judicial District to appear at the next regular term of the 70th District Court of Midland County Texas, to be held at the Court House thereof, in Midland, on the first Monday in September A. D. 1925, the same being the 7th day of September A. D. 1925 then and there to answer a petition filed in said court on the 10th day of January A. D. 1925, in a suit numbered on the docket of said Court, No. 1724, wherein W. J. Moran is Plaintiff and Midland Farms Company Oscar J. Francis, Trustee and in person; Edward Morris, Trustee, and in person, his heirs and the heirs of his heirs; John P. Wilson, Trustee and in person, Augusta Rothchild, and her husband Maurice L. Rothchild, Ira N. Morris, Maude Morris Schwab, and her husband, Henry C. Schwab, Oscar W. Kerr and wife Minnie Kerr; D. Fasken, Donald S. Trumbull, T. C. Kimber and W. Harvey, are Defendants and the cause of action being alleged as follows:

Plaintiff sues to establish his right to a commission against the owners of the "C" ranch above named for a sale alleged to have been made by him, July 1st, 1913, to O. W. Kerr, D. Fasken, furnishing the money and alleges that the owners of the ranch in question, a description of which is filed with the papers of the case and marked "Descriptions of Lands in the 'C' Ranch", executed a deed of trust to protect plaintiff in his commission, the said deed of trust being in the sum of \$75,000.00 and securing a note of like amount, and which deed of trust covers all the property of the "C" Ranch; and which deed of trust plaintiff seeks to foreclose as against all defendants and also sues to cancel a certain release of said deed of trust, and seeks personal judgment in addition to said foreclosure against D. Fasken, O. W. Kerr and W. Harvey, T. C. Kimber for interfering with plaintiff in collecting his commission, and prays for a judgment for the sum of \$75,000.00, interest as by law provided and attorney's fees as provided in said note, and for general and special relief.

HEREIN FAIL NOT, But have you before said Court, on said first day of the next term thereof, this writ, with your return thereon, showing how you have executed the same.

WITNESS MY HAND AND OFFICIAL SEAL At my office in Midland, Texas, this 29th day of July A. D. 1925.

C. B. Dunagan,
Clerk District Court, Midland County Texas.

Chevrolet Making Price Reduction

The Chevrolet Motor Company is making price reductions, and is adopting the world's best method of making the fact known to the public through advertising. The Reporter is carrying their ad this month, and the following is an explanation:
Detroit, Mich., Announcement of a price reduction effective August 1 on Chevrolet closed models has been made by R. H. Grant, general sales manager of the Chevrolet Motor Company.
The revised price list is as follows: Coupe reduced \$40 to a new price of \$675; Coach reduced \$40 to a new price of \$695; Sedan reduced \$50 to

a new price of \$775.
"The record production and phenomenal sale of Chevrolets during recent months enables the company to reduce prices at an earlier date than at first had been contemplated," said Mr. Grant. "It is the result of quantity production permitting quality manufacture at lower cost."
Mr. Grant pointed to the fact that the Chevrolet Motor Company will have exceeded by August 20 its total production for the year of 1924 after having established production record for three successive months. The company will make its two millionth early this fall, and will be the first manufacturer of three speed gear shift cars to reach that production mark.
"The largest producers gain an ad-

vantage by effecting substantial savings through enormous purchasing power," continued Mr. Grant. "The Chevrolet Motor Company is passing this advantage on to the car buyer."

Birth Registration

A special "birth registration" week in Brown County, sponsored by Miss Nell Stoltzfus, public health nurse, was held the last month according to the report of the public health nursing service of the state board of health.

Miss Stoltzfus was assisted in this campaign by Katherine Hagquist, state advisory nurse, and the local parent-teacher Association. A birth registration chairman was appointed for each of the 57 school districts, and under their direction, intensive work was done to arouse interest in the communities in the behalf of registration. The campaign was a very successful one, resulting in a big boost upward of the Brown Co. birth registration rate.
ONLY 74 per cent OF BIRTH REGISTERED

At present there is approximately 74 per cent of births in Texas being reported. Of the other 26 per cent of children, the state has no record of their existence. To be in the registration area of the United States each state is required to register 90 per cent of all births and deaths, consequently Texas is not included in this registration area. Some of the reasons why a child's birth should be made a part of the state's records are:

Birth registration proves the child's age, an essential point in admission to and leaving school; in marriage, voting, or qualifying for jury or military service. Proof of age is also necessary in the prosecution of certain statutory offenses and right of jurisdiction of juvenile courts.
Birth registration proves the child's identity, an essential point in administration of property; settlement of inheritance; settlement of insurance and pensions; passport to and residence in foreign countries; and re-admission to the United States after residence abroad.

STAR CAR TRAVELS 12000 MILES WITHOUT REPAIR

Mr. H. R. Hobbs of Lodi California makes a signed statement that he has driven the Star Coupe shown here a distance of 12000 miles without repair.

Traveling from California to Wichita Kansas through Portland Oregon, Yellow Stone Park up Pike's Peak and returning to Midland a distance of 12000 miles averaging 30 miles to the gallon of gasoline used.

The bird dog "Duke" shown in picture rode on the fender the entire distance.

Mr. Hobbs carried 1300 pounds of excess baggage and was on the same set of tires purchased with the Star Coupe.

It all goes to show that the Star Car is one of the most economical cars on the market.

TAKE OUT MY AD!

A Midland Merchant said this week, "Take out my classified ad, it paid." He also carries a display ad, but he doesn't order it out, because it also pays.

The classified ad referred to was for a particular purpose, and it brought the desired results. Consequently it was not needed any longer.

Display advertising is either for some particular purpose or it may be used for a general purpose, but there is never an advisable time to order it out, as long as the merchant continues in business.

Keep everlastingly at it, and win!

RAIN DROPS! FINE CROPS!

One has only to drive over the farming sections of Midland County to see the big benefits that have followed the recent good showers. Cotton that was beginning to feel the effects of continued dry weather is now flourishing.

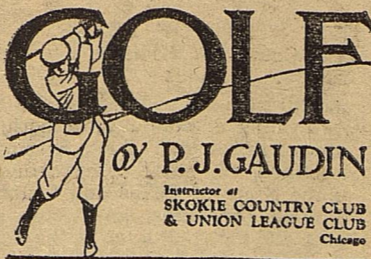

Feed that was beginning to dry up and looked as if it would not make much of a yield, is now coming along in great shape.

Many have said that the rain fell just in time. Anyway it has come and crops are looking great in Midland County.

FEED! FEED! FEED!

When all men everywhere are crying "Plant Feed," there must be a great need for it, and a country that is fortunate enough to have a growing season as long as Midland has should utilize every acre of ground that can be spared to grow a feed crop since the rain has been falling. Feed will command a good price, as the demand is already great, and more feed will be needed than ever before another crop can be made in the drouth stricken areas.

17—Straight Left Arm.

Much unnecessary mystery has been made of the straight left arm in the golf swing. About the only mystery in it is why so many golfers fail to use it. The reason for it is simplicity itself. Take a ruler or lead pencil or golf club. Hold it by one end and touch some object with the other. Hold the end steadily and swing the other end away from the point first touched. Bring it back, and again the other end and the object are in contact. That is exactly what happens when the left arm is kept straight in a golf swing. The club is soled back of the ball, then brought back to the ball in the forward swing. Not much mystery about that.

But, just for experiment, bend the left elbow on the back swing and, as is so often seen, fail to straighten it on the forward swing and see what happens. The chances are you will miss the ball entirely. Try another experiment. Sole the club behind the ball and close the eyes tight. Then be sure the left arm is straight all the time and finish the full swing. The chances are you will hit the ball perfectly. The straight left arm did it. Follow this by sitting down to a table and stretching your left arm straight in front with the fingers closed as much as they would be in grasping a golf club. Don't stiffen the arm, but be sure it is straight. Keeping the arm straight, sweep the arm clear to the right and then to the left. It isn't a hard thing to do on the table and while you are watching the arm. It would be advisable to keep up the practice on the table until you get the feel of it. Then try to do the same thing with a golf club. It will not be as easy but watch the arm instead of the ball and you soon will get the arm working correctly.

The virtue of these experiments is that you will get not only that part of the golf swing but the equally valuable knowledge of what it is for. Right there is the reason why so many lessons go to waste. The pupil may get any part of the swing correctly but may lose it at any time if he does not know the reason for it. (©, 1925, Western Newspaper Union.)

18—The Swing.

Close observations of experts and moving pictures of the same golfers show the fallacy of another dictum of older golfers—that the club goes backward and forward in the same arc. Exactly what happens is that the club goes up and comes to the slightest pause at the top of the back swing. There then is a lifting of the club head by the first action of the wrists and that lifting motion carries the club head around a hair-pin curve outward, making the descending arc longer than the ascending one.

That is exactly as it should be, for it brings about a further flattening of the swing at the bottom, just before it hits the ball. Of course this difference is a slight one or it would have been noticed hundreds of years before moving pictures proved it. The moving pictures also show that, with the one exception of cut shots, the movement of the club head is straight along the ground, barely grazing it, for inches behind the ball. In the case of cut shots, where the imparting of back spin is essential, the movement of the club practically is the same but the club comes down on the ball straighter simply because the ball is more nearly opposite the middle of the feet instead of further forward. In its natural course the arc of the club head would flatten but the ball is hit just before the flattening begins.

What the player should see for himself is that the club head starts straight back from the ball on the line of flight and stays as low as possible until it is lifted by the movement of the arms and wrists. If you have difficulty in keeping the club head low, scuff the club along the turf back of the ball in the start of the backward swing. This idea may be abandoned as soon as one learns to keep the club head low but it will do no harm unless there are bumps in the turf back of the ball. And take this for granted until you prove it in your own swing, the back swing is the crucial part. Get that correctly and many of your troubles are over. The forward swing will nearly take care of itself. And the key of the whole thing is to be certain the club head goes straight back and at right angles and as far as it will go naturally. (©, 1925, Western Newspaper Union.)

No more ball games after Saturday and Sunday, when the Colts play Post City.

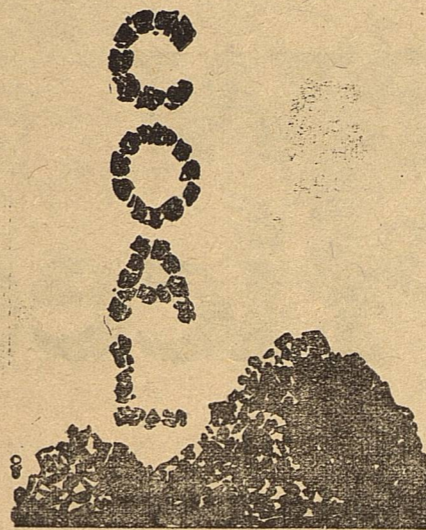

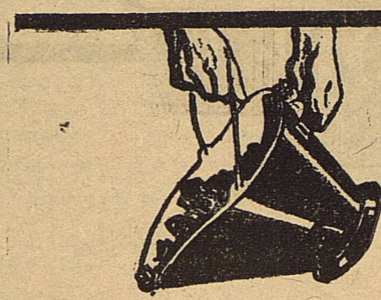

John Terry, of Big Spring, has been in Midland this week.

Jay Floyd and Leslie Floyd were in this week from the ranch.

Miss Florence McKissick, of Sweetwater, has been visiting Mrs. S. Dewey Stokes.

Don Davis was here the first of the week from Lamesa.

W. W. Lackey left for Caldwell last Saturday and will visit his mother for two or three weeks.

Order Your Winter Supply Today and SAVE MONEY

J. E. HILL

Entertained Her Friends Yesterday

Miss Addiese Haag entertained a number of her young friends yesterday afternoon from four to six o'clock.

The party was given for the members of the Sunday school class No. 7, of the Methodist Church, and each member was asked to invite a guest.

Those who came to the party, besides the members of the class, were Misses Mary Elizabeth Randolph, Frankie Fernandes, Helen Margaret Ulmer, Martha Louise Nobles, Ida Beth Cowden, and Lillian Wilson.

Games were played on the lawn, after which ice cream and cake were served.

Mr. Arthur Umberson was visiting in Big Spring last Tuesday.

CITATION BY PUBLICATION

THE STATE OF TEXAS, AND COUNTY OF MIDLAND.

To J. C. Morse and W. B. Fletcher, and if living, and if not then all the heirs of the said J. C. Morse and W. B. Fletcher, and each of them, and all persons and record lien holders owning or claiming, or both, any interest in the land or lots hereinafter described, the same being delinquent to the State of Texas and County of Midland for taxes, and the same lying and being situated in the County of Midland, and State of Texas, to-wit:

All of lots Ten and Eleven, Block No. 33 of the Original Town of Midland, Midland County Texas, which said property is delinquent to the State of Texas and County of Midland for taxes for the year 1906, 1907, 1909, 1910, 1911, 1915, 1916, 1917, 1918, 1919, 1920, 1922, 1923, 1924, aggregating the sum of \$112.59 including interest, penalties and costs, said taxes having been legally levied assessed and rendered against said lands and lots, and the same being a lawful charge and constituting a prior lien against the same in favor of the State of Texas and County of Midland to secure the payment thereof;

And you are hereby commanded to be and appear before the Honorable 70th District Court of Midland County Texas, at the next regular term thereof, to be held at the Court House of said County, in the City of Midland on the 1st Monday in September, A. D. 1925, the same being the 7th day of September A. D. 1925, then and there to show cause why judgment should not be rendered against you and the said land and lots sold under foreclosure of said lien to satisfy said taxes, interest, penalties, and costs; all of which, together with other and further relief, general and special, being fully set out and prayed for in the plaintiff's original petition filed in said Court on the 7th day of August, and appearing on the docket thereof as suit No. 1783, wherein the State of Texas is plaintiff, and J. C. Morse and W. B. Fletcher, and the heirs of the said J. C. Morse and W. B. Fletcher, and all persons and record lien holders owning or having or claiming, or both, any interest in said land or lots, defendants.

Given under my hand and seal of said Court, at office in the City of Midland, in the County of Midland, this 7th day of August, A. D. 1925. C. B. Dunagan, Clerk District Court, Midland County, Texas. 45-4t

New Ford Home Being Prepared

Work on the building recently bought by Cowden and Ulmer for the Ford garage is going ahead rapidly. Concrete floor is being laid where the grocery department of the Midland Mercantile was formerly located, and extensive remodeling is being done throughout the building. Steel bins for housing Ford parts have been received, and will be installed as soon as the building is ready, which will be about September 1, according to present indications.

Making The Careful Pay

A national authority on insurance points out that fire and life insurance policy holders pay some fifteen or twenty indirect taxes—taxes assessed against insurance companies for purposes other than maintaining state insurance departments. These figures do not include casualty insurance, which in modern business is becoming as indispensable as fire and life insurance.

In 1923, policyholders in the United States paid more than \$59,000,000 in these hidden—and to the policyholder almost unknown—indirect taxes; and this amount does not include special municipal taxes, licenses or fees, all out of the pockets of the insured. This \$59,000,000 would pay for nearly \$6,000,000 worth of fire insurance for a year.

Year by year these added costs are being increased by the states. The increase in total amount collected in 1923 was 12 per cent over the preceding year.

Originally, these taxes were imposed for the purpose of paying the cost of operation of the various state insurance departments but now an average of only one twentieth of all the money collected by the various states in the form of special taxes is used to maintain these departments.

Here are some of the uses made of the policyholder's premium dollar: Premium tax, license tax, (company) fee for filing annual statement, fire department tax, fire marshal tax, agents' license fees, publication fees, retailatory taxes, pension funds, school taxes and all other taxes paid generally by business.

It is difficult to understand how legislators, in view of the opinion of public officials charged with the responsibility of supervising insurance in the public welfare, advocate the collection of constantly increasing sums of a special class of people who are endeavoring to protect their affairs from unforeseen contingencies, thereby relieving the state from the burden involved in carrying for persons or business left destitute or incapacitated by fire, accident death or disease.

The man who does not provide this protection for himself or his business is the one who should be subject to additional taxes rather than the man who voluntarily pays the cost of protecting himself and society.

Cow Pasture Grows Fine Water Melons

I. F. Lord, who lives on the north half of what has been known for many years as the Hix section, brought in a watermelon last Saturday weighing 44 pounds and 14 ounces.

The land on which this melon grew was a cow pasture on April 1. Mr. Lord has been irrigating without a reservoir, and this melon is just one of a great many.

Entertained Ball Players Monday

Van Austin, head porter of the Llano Hotel, was host to members of the ball team Monday afternoon with a watermelon feast.

Misses Alice and Cora Mae Haley were also invited guests. All who attended report a fine time, and they enjoyed Van's hospitality immensely.

Rube Collins Making Good In Marines

Rube Collins, who has been in the U. S. Marines for about a year, is receiving excellent grades in a civil engineering course.

In fractions, he received a grade of 94 upon completion of the course; in decimals, he received 99; in weights and measures, he was awarded 100; and in ratio and proportion, he got 99.

Reuben enlisted in the Marines primarily to get this through training in civil engineering, having taken a liking to the work when he was connected with the construction of the Bankhead Highway.

W. B. Elkin left last Monday for a business trip over various parts of the state, in business for the Livestock Exchange.

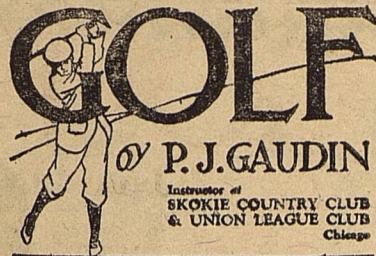

THE STATE OF TEXAS, County of Ector.

Whereas, the State of Texas, Through its District Attorney, did on the 4th day of August A. D. 1925, file in the District Court of Ector County in the State of Texas, its petition in Suit No. 92 on the Civil Docket of said Court, being suit brought by the said THE STATE OF TEXAS, as Plaintiff, against Mrs. B. May Robison C. W. Robison, deceased and others as defendants and the nature of the plaintiff's demand as stated in the said petition being an action to recover of the defendants as the owner of the lands and returned delinquent (or reported sold to the State) for the taxes due thereon for the years 1921, 1922, 1923, 1924, 1925 and whereas, the said owners residence unknown, and upon the affidavit of Birge Holt having been made, setting forth that said owners address is unknown to the affiant, as the Attorney for the State of Texas, and after inquiry, can not be ascertained.

The following notice is, therefore, to cite all interested parties and to make parties Defendant by notice in the name of THE STATE OF TEXAS and the County of Ector, direct to all persons owning or being in any way interested in the lands therein described delinquent to the State and County for taxes, and to be published in a newspaper in said County, one time a week for three consecutive weeks, in the manner and style following:

THE STATE OF TEXAS AND THE COUNTY OF ECTOR, To Mrs. B. May Robison, C. W. Robison heirs, and others and to all persons owning or having or claiming any interest in the following described land delinquent to the State of Texas and County of Ector, for taxes to-wit: 160 acres of land being the W. 1/4 of Section 12 Block B-15 Tsp in Ector County, Texas, which said land is delinquent for taxes for the following amounts: \$7.01 for State taxes, and \$12.48 for County taxes, and you are hereby notified that suit has been brought by the State for the collection of said taxes and you are commanded to appear and defend such suit at the September Term of the District Court of Ector County, and State of Texas, being the next regular term thereof to be held at the Court House thereof at Odessa, Texas, on the 28th day of September A. D. 1925 and show cause why judgment shall not be rendered condemning said land (or lots), and ordering sale and foreclosure thereof for said taxes and costs of suit.

Witness my hand and Official Seal At my Office in Odessa, Texas, this 4th day of August A. D. 1925. Carl Akin, District Clerk Ector County, Texas, 45-31

19—Balance.

Almost the first knowledge gained by the beginner in golf should be regarding the balance of his body during the swing. That balance must be perfect in order that the other parts of the swing may be made correctly. It is exactly as necessary to the timing of the swing as the foundation is for a house.

Perhaps the best way to learn this balance is to make the golf swing with the arms and let the movements of the shoulders, hips and legs be only such as will let the arms go through their movements correctly. All during this movement—one can go through with it as readily without a club as with one—the sole effort should be to keep the balance perfectly. Be sure the heels are down in the beginning and do not do a particle of extra foot work. Simply let the heel come up with the back swing and the right heel on the forward swing as much as they will come naturally. Take your natural stance, swing the arms as in the golf stroke and concentrate on keeping a perfect balance all through the movement.

Beginning this movement slowly and without a club, one can accelerate the speed gradually and still retain a perfect balance. Care must be taken to go through the same procedure with the club in the hands or the same old fault of lack of balance will appear. Keep it in mind that you are not practicing a golf swing solely. Put the swing entirely out of mind if it interferes with concentrating on the balance. Best of all, try out the whole thing before a mirror. Keep your eyes on your reflection and note that the head stays in the same place. It must not bob up or down, or forward or backward. It turns with the swing but that must be the only motion. Least of all must there be a backward and forward movement of the head, following the motions of the arms.

Imagine yourself with your feet flat, feeling the weight on the heels, and the forehead against a spot on a wall. With all the other movement the forehead remains against that spot, with the head twisting as noted. That idea, carried out, will give the sense of balance.

(© 1925, Western Newspaper Union.)

Drilling Report

(Big Lake News)

The Cumberland Oil Company has just spudded their S. E. Couch No. 1, section 18, block Q. R.

Jacobs and Williams in section 5, block 29, are shut down for water. Rigging up has just been completed on the Schaffer well in section 9, block 47, University Lands, about nine miles south of Big Lake.

The H. D. Camp, et al, well in section 34, block 11, University which was recently bought from Stover & Armstrong, and which had reached a depth of about 250 feet, is to resume drilling within a few days, according to reports by the owners.

This well is located right on the structure leading northeast of the famous World well, as defined by the Roxana geologist, according to reports, and is being played as a favorite by the oil men, due to the most favorable location of the well.

The Marland Oil Company has made two locations near the World well, and it is understood that materials are being placed on the ground to drill these wells at an early date.

The Humble's first offset to the Powell or World well, will be in section 12, block 3, Washington County School land.

One of their wells will be in the center of the southeast quarter of section 19, block 2, G. C. & S. F. Ry. Company survey. The other will be in the northwest quarter of section 17, block WX, G. C. & S. F. Ry. Co. survey on the J. S. Todd ranch will be 450 feet from the north line and a like distance from the east line of section 1199, about six and a half miles due north of the discovery Santa Rita well of the Texon Oil & Land Company.

McCamey, et al, in Upton County, will be 330 feet from each line in the northeast quarter of section 8, Mrs. M. L. Baker lands.

Deepening of the O'Reilly well, section 17, block 10, University lands, about six miles north of Big Lake, is going steadily on.

P. L. Hoffman No. 2, southeast corner, section 10, block 11, University land, derrick up.

Ben Simeon, et al, center sections 5, 6, 7, and 8, block 11 University land, rigging up.

Mm. H. Dunning, Sugg No. 1 center section 185 block 2, T. & P. Railway land, drilling at 2800 feet.

J. S. Cook Oil Company No. 1 section 14, block 29, drilling at 756.

Jacobs and Williams (formerly Red Ball) No. 1 University section 5, block 29, shut down for fuel.

Weak In Back and Sides

"Before the birth of my little girl," says Mrs. Lena Stencil, of R. F. D. 2, Matthews, Mo. "I was so weak in my back and sides I could not go about. I was too weak to stand up or do any work. I felt like my back was coming in two. I lost weight. I didn't eat anything much and was so restless I couldn't sleep nights. My mother used to take

CARDUI

For Female Troubles

so I sent to get it. I improved after my first bottle. Cardui is certainly a great help for nervousness and weak back. I took six bottles of Cardui and by then I was well and strong, just did fine from then on. Cardui helped me so much. Thousands of weak, suffering women have taken Cardui, knowing that it had helped their mothers or their friends, and soon gained strength and got rid of their pains. Cardui should do you a lot of good.

CITATION BY PUBLICATION

THE STATE OF TEXAS, To the Sheriff or any Constable of Midland County Greeting:

You are hereby commanded to summon O. C. Miles by making publication of this citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, to appear in the next regular term of the District Court of Midland County, to be holden at the Court House thereof, in Midland, on the first Monday in September A. D. 1925, the same being the 7th day of September A. D. 1925, then and there

to answer a petition filed in said Court on the 30th day of July A. D. 1925 in suit, numbered on the docket of said Court No. 1780, wherein Myrtle Miles is Plaintiff, and O. C. Miles is Defendant, and said petition alleging that on July 20th 1908 plaintiff and defendant were married and that two children to-wit Perry Francis and Alma Rose Miles were born of said marriage and that said children are both minors. That shortly after said marriage defendant began a course of cruel and tyrannical treatment toward plaintiff, repeatedly returning home at night in an intoxicated condition and on which occasions defendant would curse and abuse plaintiff.

That on or about the 15th day of December 1910 and on various other occasions while plaintiff was sick Defendant went away from home and refused to provide medical attention for plaintiff and neglected plaintiff while thus physically disabled and neglected their children thereby augmenting the Distress and sufferings of plaintiff by increasing her anxiety and worry for herself and children and thus endangering her life.

That on Divers occasions defendant has gone upon Drunken sprees culminating in his incarceration in jail and the payment of fines which plaintiff and his children were destitute of food and clothing.

That plaintiff is a woman of fine sensibilities and of keen family pride for herself and her children and the disreputable conduct of Defendant as aforesaid has caused great mental anguish to plaintiff and all but wrecked her nervous system.

That is by neglecting plaintiff while sick and refusing to provide medical aid for her when needed and by failing to provide for her children and by bringing herself and family in Disrepute and by abusing plaintiff while he was intoxicated Defendant has been guilty of such cruel treatment as to render their living together insupportable.

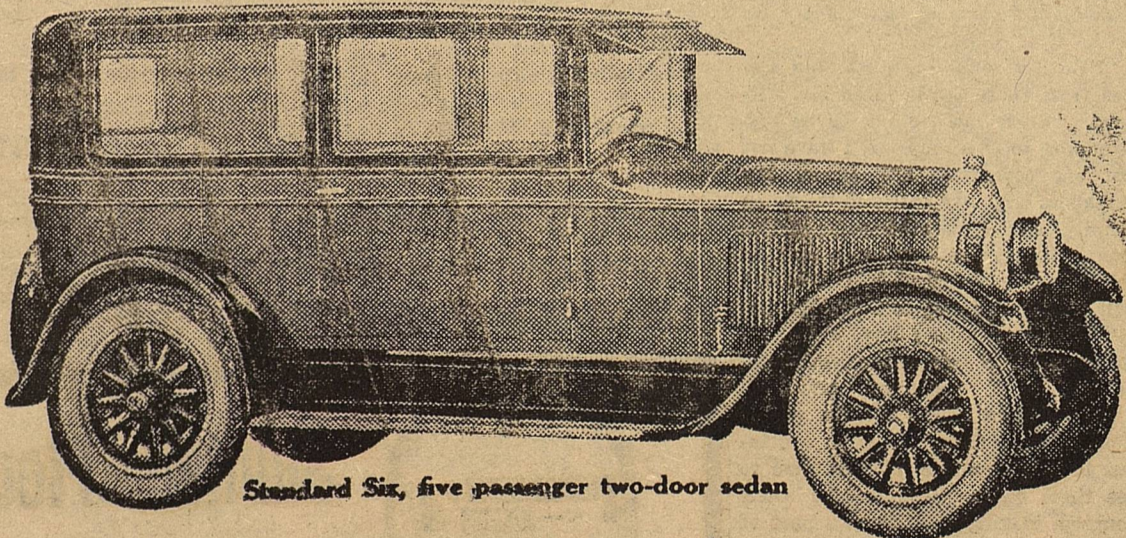

Plaintiff alleges She is a suitable person to have the custody of her children and she prays for a dissolution of the marital vows and the custody of her children.

Herein fail not but have before said court, at its aforesaid regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and seal of said Court, at office in Midland on this the 30th day of July A. D. 1925, C. B. Dunagan, Clerk

District Court Midland Co. Texas, 44-4t

Many New Ideas in Better Buicks

Standard Six, five passenger two-door sedan

Greater Power, More Protection to Working Parts Included; Prices Lower

Buick again demonstrated the marvelous resources and abilities of the automotive industry when it introduced the present Better Buick. Embodied in this latest Buick offering are additional power and strength, the newest engineering achievements designed to give even longer motor car life, the maximum in comfort and safety, besides new beauty and refinements of design and finish representing the latest skill in body craftsmanship. And in face of these material and costly improvements lower prices are announced throughout the entire line of Standard and Master Sixes.

The announcement and the showing of the better Buicks silenced the rumors that Buick would abandon the valve-in-head for another type engine which would permit of cheaper construction. The same principles that were inaugurated by Buick 21 years ago and which have made it

the leader in the industry have been adhered to throughout.

The mechanical improvements introduced would have been considered impossibilities only a year ago. They represent the work of Buick research and engineering staffs constantly striving for betterments.

The new prices likewise represent achievements of the engineering, production and business departments of the Buick organization, and are in no small measure due to the phenomenal approval of Buicks by the public. This latter factor has resulted in continuously increasing sales with the attendant possibilities of economies in purchasing and production.

The complete line includes 16 models, six in the Standard Six and ten in the Master Six class. In all cases the distinctive Buick lines have been continued, with refinements such as the rounding of radiator lines and the addition of streamline moldings. All are finished in new and beautiful tones of durable Duco. Some of the models have Duo-tone Duco finish in distinctive combina-

tions. All closed bodies are by Fisher and are upholstered in quality plush.

Buick has always been noted for its sealed chassis, which prevents dirt or water entering any of the moving parts. Now it has added an air cleaner, oil filter and gasoline strainer. These, combined with the standard Buick construction, practically eliminate the possibility of any foreign substance entering the engine or moving parts of the chassis and, consequently, minimize service requirements and add to the life of the car.

Because these three new units have no moving parts, there is nothing to get out of adjustment. They require no power—in fact are thoroughly automatic, and require only occasional cleaning to remove the dirt and grime gathered from the air, fuel and oil.

The above illustration shows the Standard Six five-passenger, two-door sedan. The price of this model, \$1,195, is representative of the increased values included in the entire line of Better Buicks.

WONDERFUL POSSIBILITIES FOR CATTLEMEN IN MEXICO

El Paso, Texas.

"I am glad to inform inquiring friends that opportunities for stock growers in Mexico are good," said Curt Hilliard, Magdalena N. M., who

has spent three years in Chihuahua. He was here to rest up for a few days. From 75 miles below Juarez rains have been good, Mr. Hilliard said.

"I was with the war finance corporation herds until April of this year, when the management changed and all the individual owners were

replaced by those who had no particular interest in the herd.

"At San Lorenzo, where I have been ranching since, fine rains have come and green grass is knee high in sharp contrast to most of the grazing sections of the United States.

Labor Reliable

Rental grazing does not cost more than 50c a head a year for cattle and horses, and all taxes cost a little less than 50c a head, making less than \$1 for keeping a cow a year.

"This of course, is exclusive of labor, which is less than in the United States, ranging from \$15 to \$20 a month. In most instances help is reliable and trustworthy, the Mexicans being accustomed for generations to working for others rather than themselves."

"The Mexicans are peaceful," Mr. Hilliard continued, although there are a great many timid people in the United States, or not acquainted with real conditions in Mexico, who feel that their lives and property are unsafe from the time they cross the Rio Grande. To those I would say so far as I am able to judge, life and property are as secure, at least in the immediate section of the country, as in the United States.

"I do not count on sustaining any loss from theft at all," said Mr. Hilliard. "Since moving my cattle and attending to them myself, I have not lost one cow from any cause. My neighbors who own cattle in the same vicinity will make the same statement. How many cattlemen on this side can say as much? Cattle are still reported dying in New Mexico.

"The only reason I have ever seen for carrying a gun is to use it in getting rid of predatory animals."

Mr. Hilliard states all the people especially officials, are very courteous to Americans, and really glad to see them go in business in their country, looking upon it as a part of healthy business relations between the two countries.

"Shut in their own house by ten years or more of revolutions they have been taught as well as us the importance of friendly intercourse and business relations," said Mr. Hilliard.

Welcome Americans

"Mexico is being ruled generally by a different type of men than have heretofore controlled the country. I doubt if there is a state in the world that is freer from graft and maladministration than Chihuahua.

"If one has business with the governor of Chihuahua or other state officials, they receive him courteously and sympathetically, and will extend to any foreigner the aid of their good officers so long as their confi-

dence is not abused.

"They impress upon us all the time that they welcome Americans into their country, but they want good citizens who will help them rebuild their country.

"Northern Mexico probably offers more opportunities to the stock grower than any other section of the tionsworld. There are millions of acres in Chihuahua alone that have been practically untouched for ten years.

"It is an opportunity offered by a friendly, peaceful country to the American cow man who has seen his own ranges dry up. Taking advantage will be mutual service to himself and to Mexico."—Herald.

ST. LOUIS Post Dispatch, New York Times, Star Telegram, El Paso Herald, Midland Reporter, and good magazines at the Elite.

Mr. and Mrs. Leon Bryant and Miss Madeline returned Tuesday from a trip to Dallas and other points. Miss Georgia Bryant, who went down with them, remained at her home in Cedar Hill.

Mrs. W. F. Scarborough and daughters were in from the ranch near Shafter Lake the first of this week.

R. D. Scruggs and Geo. D. McCormick returned last Saturday from El Paso, with a 1926 model Buick Sedan which Mr. Scruggs is demonstrating this week. They encountered a great deal of mud along the road.

J. A. Haley and Miss Annie Julia Aycock returned from San Antonio last Saturday. Mrs. Myrtle Aycock returned Wednesday morning. Mr. Haley's health is considered better.

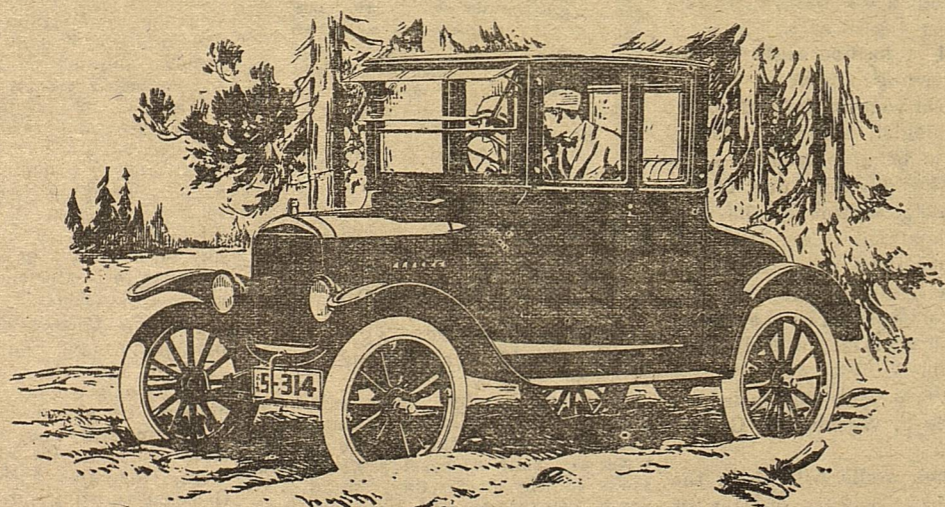

R. J. Biard and family, of Dallas, have been visiting in Midland this week. Mr. Biard is doing fine, being connected with one of the foremost cotton mills of the state.

Mr. and Mrs. Millard Edison have returned from a pleasant visit with relatives in Sweetwater. They were accompanied home by Mr. and Mrs. Ernest Eidson of South Dakota.

Andrew Fasken returned last week end from a business trip to El Paso.

Away From The Crowds

America is still undiscovered, still waiting to be discovered—by you!

Away from the paved highways, deep in the hidden solitudes—are shady groves fragrant with the scent of flowers—sun-drenched valleys—lazy streams—or hurrying brooks as befit your mood. Waiting to please you with their untouched charms.

Take your Ford and venture forth

into the delights of the unknown. Leave the beaten path to others. Go where you will—whether the road is paved or not.

It is the car of the true adventurer; the car that no going—be it sand, dirt or rocky road—can halt; the car that will take you safely, certainly and happily to where nature hides her true loveliness.

Standardization In Livestock Industry

Use of standard market classes and grades for livestock is urged by the United States Department of Agriculture as one means of reducing distribution cost in the industry and of assisting the producer in learning the kinds of animals the market demands and why some bring more money than others.

More than \$10,000,000 worth of meat animals are sold daily in the United States. Nearly one-third of a million cattle, hogs and sheep bring this total. The production and marketing process is a complicated one, and the animal produced and marketed are of every description, weight, age, and condition of fatness. Some are grown and fattened on the farm or ranch which produces them; others change hands several times from birth to slaughter.

Secretary of Agriculture Jardine has indicated on several occasions since assuming office that standardization is the crux of the agricultural marketing situation. Standardization in any industry is a mark of progress, according to the Secretary's view, and it is especially important in an industry so involved as the livestock industry. For example, if a farmer wishes to purchase a carload of feeder steers, the negotiations which he will need to make to obtain these steers will be greatly simplified if he and the owner have the same kind of cattle in mind when they speak of a certain grade. In other words, no one can tell what "cattle" are worth, but the term "choice, medium weight, feeder steers" may produce essentially the same picture in the minds of livestock men in all parts of the country if such a grade can be clearly defined and generally accepted as a standard.

Standard Grades as a Solution. Standard market classes and grades are used by the Bureau of Agricultural Economics at 13 livestock markets for market reporting purposes, and have been given satisfaction for a number of years. The standards are being offered to stock men, shipping associations, and the trade as desirable standards, with the hope that ultimately a system of dividend into sub classes according to the uses to which they are put. Steers, for example are divided into slaughter steers, feeder steers and stocker steers. Each of these subclasses is divided into age and weight groups and each of these in turn is divided into several grades. When a farmer buys feeder steers he knows that under similar circumstances those which grade near the top will make more economical gains than those which fall into the lower grades. When the packer buys fat cattle he can pay more for the better grades because he knows that the animals will dress out more meat, particularly a higher percentage of the more valuable cuts, and that the quality will be higher.

Basis of Grades

Grades are based on these factors—conformation, finish and quality. The degrees of these characteristics possessed by the animal determines whether it shall be graded near the top as "Choice" or toward the bottom as "Common."

Conformation is the build, outline or contour of the animal. It is due largely to the size and shape of the bones and muscles, and the proportions between its different primal parts such as round, loin, rib, and shoulder. Hence Conformation is chiefly attributable to breeding. Sex condition also exerts a powerful influence except in very young animals. Fat covering is responsible for marked modifications of conformation, hence feeding and care have an important bearing. Standards or ideals of conformation depend on the immediate use to which the animal is to be put. Grade for grade, a smoother and more rounded conformation is demanded in animals intended for immediate slaughter than in those which are to be used for further feeding.

Finish is fat. It includes both the fat on the outside of the animal's body and on the inside of the abdominal and thoracic cavities and between and within the muscles. Naturally in the live animal the interior fats can be judged only by analogy. Finish involves the quantity, firmness, and distribution of fat. Like conformation it is dependent some what on inherited tendencies of breeding, but in the main it depends on the quantity, kind and quality of feed consumed, sex condition of the animal, and on the method of handling.

Quality is strictly speaking, a characteristic of the flesh or lean meat of the animal and of the intermuscular and intercellular fat contained therein. It involves the relative size, shape, and condition of the bones, the ratio of bone to flesh and fat and that between fat and lean meat. In animals intended for fur-

**Father of Twenty-one Children
Hears of New Protection Plan**

For more than forty-six years James N. DeWitt has devoted his time to making good at his job and to being the proud father of one of the largest families south of the Mason-Dixon line.

There have been twenty-one little DeWitts and eighteen of them are still living, the oldest a son of forty-six and the youngest a toddler of just two.

DeWitt is a carpenter employed in the Louisville, Ky., coach yards of the Louisville and Nashville Railroad, and his general foreman, John Marrilla, who is shown in the above photograph with him, will tell you that no more competent artisan is carried on the roster.

But the elderly worker is, above all, a family man, and it is with no little pride that he discusses his large flock. Despite the fact that many of them have grown up and married and live in cities far distant from Louisville, he still finds time to communicate with them and to share their problems, when there are any.

DeWitt is seen here being notified by Marrilla that the Louisville and Nashville Railroad, and two other southern roads had entered into an arrangement with the Prudential Insurance Company of America, whereby all of its more than sixty thousand men and women employees would be enabled for a small sum to carry life and accident insurance to an amount much greater than they could have obtained through individual negotiation.

Just received a shipment of the Gibson Art Company's beautiful Birthday Cards. City Drug Store 45-1t

The Baptist Church

Sunday School at 10:00 A. M. Public worship with sermon by the pastor at 11:00 A. M. and 8:15 P. M. "Christian Ethics VS. Christian Dynamics" will be the morning subject.

The evening service will be evangelistic. The pastor begins a series of meetings at Prairie Lee School House Friday night to continue through next week.

To all who mourn and need comfort; to all who are weary and need rest; to all who are homeless and want a church home; to all who are lost and want a Savior; and to whosoever will come we open wide our doors and bid you welcome.

County Agent Back From College Station

J. B. Snider, county agricultural agent, returned the first of this week from College Station, where he has been attending the annual meeting and most course given for county agents.

Mrs. Snider who has been visiting her mother and sister in Waco, returned also. Mr. Snider states that the scarcity of feed in central Texas is appalling. He has been reading of the drouth stricken areas, but did not visualize the actual need for feed stuffs in that section until he made the trip to College Station.

Enjoyed His Trip Across The Ocean

Dr. W. K. Curtis has received a letter from his son, Wiclif, who states that he landed in France on July 24. The letter was written from LeHarve Wiclif expects to visit Antwerp and Rotterdam while across, and will be back in Galveston about September 5, in time to resume his studies in the State Medical College.

Reiger Buys The Hazelip Property

Dunn Reiger completed a deal this week, whereby he is now owner of the Wiley Hazelip home, on Wall street, about five blocks west of Main.

This is a northeast corner lot, and a very desirable location. The Reigers will move there in the next few days. It is understood that Mr. and Mrs. Hazelip will leave Midland for Florida, and the town will be losing very valuable citizens.

**The Three
MUSKETEERS RETURN**

Another Seiberling Achievement

Clint Myrick, George Glass and Earl Cooper returned last night from a delightful tour extending north and south across the United States.

They traveled over five thousand miles across eight States. Through Colorado and Yellow Stone Park, returning through Montana, Nebraska, Kansas and Oklahoma, with original Midland air in their casings.

Before leaving Midland they put on a set of Seiberling All-Treads with ordinary tubes and covered this vast Territory, over an unspeakable roads, trails and detours with absolutely no Tire trouble.

How well the tires withstood the ordeal and the enthusiasm of Myrick, Glass, and Cooper over their performance can well be understood when one examines the tires which show very little wear.

Their car is on exhibit in front of the First National Bank today—See it.
