Last 24 Hours Made History in Realm of Aeronautics

AIRPLANES ESTABLISH RECORDS

Culver City Airmen Still Going On Long Flight

The last 24 hours have been notable in the realm of aeronautics.

Roger Q. Williams and Lewis Yancey landed the monoplane Pathfinder at Santander, Spain, last night after crossing the Atlantic from Old Orchard, Maine. They started for Rome, their objective until their tank drained of gasoline, this morning.

I. Q. Mendel and R. D. Reinhardt bettered the endurance flight record and were approaching the 200-hour mark at Culver City, Calif. Captain Charles E. Kingsford Smith started a non-stop flight from Rome to London in the Southern Cross after landing in Rome from Australia yesterday.

CONSTRUCTION ON SEWER LINE HAS BEEN STARTED

Construction work on the big sewer line to be put in as part of the extension program of the city began on east Ohio street yesterday when a big ditcher started excavation on the line.

Several contractors were present and conferred with city officials regarding other improvement extensions.

The \$260,000 bond issue voted by the people April 2 will allow for the great sewer extension, lengthening of the white light row, construction of a new city hall and an extensive paving campaign.

The bonds have not been approved as yet by the bond company, due to vacation congestion, but the attorney general has approved them in every detail.

Scrivener Well Tops Lime; Read In City Limits

BIG SPRING, Texas, July 9.—Pure Oil Company's No. 1 Scrivener located 330 feet from the south line and 990 feet from the west line of section 4, block 34, twp. 2 south, T. & P. Survey, offset to the Howard County Oil Corporation's No. 2 Kion-Rumsey and Abrams topped an oil saturated lime Sunday at 2,965 feet and drilled to 2,290 feet. Core test will be taken five additional feet in the pay before casing is set.

PLANE EQUIPPED FOR DESK WORK

ST. LOUIS, July 10.—(UP)—The Mahoney-Ryan Aircraft Corporation here has produced a cabin plane equipped with desk, dictaphone, filing equipment, bookshelves, and all the fittings of an office. The cabin is sound-insulated against the roar of the engine.

A system has been perfected whereby the user of the plane may read his business letters into the dictaphone, and drop the dictaphone records to the ground by small parachutes, to be mailed.

Three of the planes will be built each month.

CRUDE PRODUCTION IN PERMIAN BASIN OF WEST TEXAS SHOWS DECLINE LATELY

Crude production of the West Texas Permian Basin over week ending July 6 showed a decrease of 5,793 barrels, as compared with the previous week according to field records received this morning.

Comparative report for the past week states: new locations, 50 which is a decrease of 20 over the previous week; rigs under construction 54, which is the same number of the preceding week; wells being drilled 150, an increase of 7; wells shut down, 105, an increase of 6; completions 7, which is a decrease

of 10. The total number of wells in the above listed is 346, a decrease of 17.

Of the seven completions reported for the past week there were six producers giving a total of 1,894 barrels of oil. The decrease of the producers number 9. Only one dry hole was reported and two were reported for the preceding week.

Average daily production in the entire Permian basin for the week ending July 6 was 373,687 barrels from 2,264 producers. The decrease in the production was stated as 5,793 barrels.

NOTABLES WILL SPEAK ON WTCC PROGRAM IN N. M.

ROSOWELL, N. M., July 10.—Such notables as R. C. Dillon, Governor of New Mexico, and J. W. Hall, Mayor of Roswell, will be speakers on the program of the Pecos Valley-Intermountain district convention of the West Texas Chamber of Commerce to be held here July 16.

The convention will be held after the arrival from Ruidoso of the members of the fourth annual motorcade sponsored by the regional organization. The motorcade will spend the night in Roswell where entertainment has been planned for them and continue the next day to Clovis, and Carlsbad Caverns, the objective of the trip.

Governor Dillon will address the district delegates during the morning session, as will Mayor Hall who will make the welcome address and Judge J. D. Hamlin, Vice-President of the WTCC who will respond. Music by various bands will feature the entertainment of the morning, following which "America" will be sung by the audience, and invocation said by Rev. J. H. Ketchum.

Hon. A. M. Bourland, President-Manager, will address those present on the "Objectives and Aims of the West Texas Chamber of Commerce," and the talk of Luke Roberts, Secretary of the Lovington Chamber of Commerce on "Relations between East New Mexico and West Texas" will round out the morning session.

The members of the motorcade party will be introduced and short talks made by several before adjournment to the Nickson Hotel where luncheon will be served under the auspices of the Kiwanis Club.

A part of the afternoon will be taken up by A. D. Crider, Land Commissioner of Santa Fe, who will speak on "Some Needs of the Pecos Intermountain district."

After the report of the Resolutions Committee and selection of the next meeting place the delegates and members of the motorcade party will visit the irrigated farm section and attend the reception and other entertainment.

President Gill Pardons Prisoners Who Aided Rebels

Guadalajara, Jalisco, Mexico, July 10.—(AP)—Wireless messages from the island penal colony "Tres Marias" said that the men and women exiled there some time ago on charges of having given aid to the Cristero rebels have been embarked on a special steamer and will reach the port of Manzanillo in a couple of days. They will be brought to Guadalajara, on a special train and then be allowed to proceed to their homes.

The prisoners, who were apprehended in Mexico City, Guadalajara and other parts of the country in the last few months, were pardoned by President Portes Gil immediately after the Church-State agreement was signed June 21, putting an end to a three-year-old religious controversy.

MORE PILOTS THAN PLANES

CHICAGO, July 10. (UP)—California has more licensed pilots than it has airplanes, according to a report just published by the American Air Transport Association, which shows that while native sons own 1076 planes, 1129 have passed the government tests and may pilot aircraft.

Passengers Will Go Aloft With Pilot Sunday

Harvey Sloan and Aubrey S. Legg will be in the cabin of the airport's Curtiss-Robin Challenger powered monoplane Sunday when Field-Manager H. M. Becherer goes for an altitude flight.

The flight is designed for determining the price to be paid by passengers who have spoken to the aviator about similar flights. Becherer says so many Midland people want to take a high ride in the clouds that he will have to go into the cloud alleys each Sunday.

JOHN KING, LEFT QUITS BARBER CHAIR HANDER IN DOUBT

Many are the tales told on Midland's manager, John King, but the best one heard today is that released through the subtle column of Prexy Anderson, writing in the Abilene News:

Here is the latest on John King, the playful manager of the Midland Colts. Or perhaps it isn't the latest. There are so many on that antiquated recruit that one never knows which is the most recent; doesn't know, in fact, but what the yarn has been the rounds for a decade or so.

As is well known, Jawn has an aversion to left handers. Well, it was opening day down in the East Texas Class D circuit, and the usual list of prizes were hung up for the home players hitting the first home run, making the first putout, etc.

King inaugurated his season with a home run, and one of the rewards therefor was to be a free job in a tonsorial establishment. Next day our hero presented himself at the said barber shop mounted a chair and prepared to have the thinning thatch and whiskers overhauled.

Then John noticed that the barber was strapping the razor with his left hand. He departed in haste without collecting the reward or without offering explanation.

Managing-Editor of Reporter-Telegram

TAOS WOMEN TOO MODERN FOR STOCKING FAD

Finds Mountains are Cool and Restful

The Indian women of Taos are too modern to wear stockings, T. Paul Barron, editor of The Reporter-Telegram, says in a letter written to "The Force" from that village.

Mr. Barron, now on his vacation, reached Denver this morning, a telegram to E. H. Barron reads, "Mr. Barron writes briefly of the New Mexico village, crowded with colorfully dressed natives, pottery and desert heat.

"Due to the scarcity of typewriters in this Indian country," the letter begins, "I haven't prepared any copy for publication.

"These Pueblo Indians are a settled cliff-dwelling type who live as they have for 300 years—just as their ancestors did. Some of the Indian maids are modern enough not to wear stockings, but most of them have blankets wrapped around their ankles and legs. These cov-

Fly Ship Here And Then Decide To Take A Bus

Something new in abandonment occurred here when two young men flew an OX-5 Travelair into Midland and left the ship at Sloan Field.

The flyers told the field-manager that they had decided to leave the ship and take bus the remainder of the way to the Pacific coast.

Becherer, field-manager, says the craft is in perfect mechanical order, and that the pilots must have made their decision in view of the high altitude between Midland and the coast.

"Flyers who are used to sea-level flying do not always like 'altitude,'" the Sloan Field manager said. "There is nothing hard about the flight, however. Each week brings women through here at the controls of a plane headed into the west."

Cavalry Unit Is Together for the First Instance

MINERAL WELLS, July 10.—(UP)—When the 56th Cavalry brigade of the Texas National Guard passed in review before Major-General William Lasceter today, it was the first time in the history of the entire National Guard regiment that it has been together in the state.

The unit is training at Camp Walters, two miles from here.

SWEDEN DECORATES TEXAN GALVESTON, Tex., July 10.—(AP)—In recognition of his meritorious services to Swedish visitors and residents of Galveston, the Revs. J. F. Sarnar and Eric J. Heurling have been knighted with the Order of Vasa by the king of Sweden, through H. A. Bornefield, Swedish vice-consul here.

Culver City Endurance Flyers Have Been In Midland On Several Visits

When Mendel and Reinhardt began tossing their plane to show that they understood signals from the ground to say that they had passed the record mark for sustained flight, several Midland people felt joy at the news which could come only from being acquainted with the flyers.

For Mendel and Reinhardt have been here repeatedly. Mendel first flew to Midland with the U. S. government prohibition forces, in a Vought-Corsair. Several times thereafter he was here.

The last time the flyer was in Midland he flew a Carrier Pigeon plane. With him in another ship of this type was Paul Reinhardt. Slim Payne, Field-Manager H. M. Becherer, Attorney Moore of the SAT, and a representative of The Reporter-Telegram met them.

The flyers met in a room of the Hotel Scharbauer and spent the night. They were delayed by a fog over the river between here and El Paso.

AIR MAIL CHANGE BENEFITS MIDLAND MRS. RAY SAYS

A direct air mail connection between Midland and points in northern, eastern and western sections of the United States is now available as the result of the addition of a daylight schedule between Dallas, Ft. Worth, Tulsa and Kansas City on Contract Air Mail Route No. 3, operated by National Air Transport.

Air mail posted at Midland in time to be placed aboard the train leaving here at 10:18 p. m. will reach Ft. Worth in time to make connections with the N. A. T. northbound plane leaving there at 9:35 a. m. Postmaster Mrs. Mary S. Ray said today. Air Mail dispatched on this plane arrives at Kansas City at 2:20 p. m. Connection is made at Chicago for the overnight service to New York, thus enabling a letter leaving here one night to be in New York and other eastern cities the second morning. Similar connections are made at Chicago for western and northwestern points.

Huge Fokkers To Probably Land At Sloan Field

Midland people will probably see a fleet of the new 16-place job Fokkers which will come over in a fleet for service on the new Standard lines operating between El Paso and Los Angeles. The ships will probably be here between the 25th and 30th of this month.

The planes will arrive in Dallas about the 25th or 26th of this month and the public will be given a chance to inspect them at Love Field and also at Meacham Field in Fort Worth.

Jack Frye, president of the Standard Lines and Paul Richter, vice president, will accompany the ships.

Each plane will have three Wasp motors with a total of 1,260 horsepower. Each plane is valued at around \$80,000 and will have a top speed of 145 miles per hour.

At present the Standard line is operating single motor passenger planes between El Paso and Los Angeles, but the new tri-motors will be placed in service soon.

This improvement is expected to increase cross-country travel by air over the Safeway line, between Sweetwater and El Paso. The Safeway company, the Standard Air Lines and the Texas-Pacific railway are co-operating in the plane-rail service between the western and eastern coasts.

Endurance Ship Tender Here For Several Days

Bill Ponder's refueling tender to the "Fort Worth" Reg Robbins' and Jim Kelly's famous endurance plane, has been at Midland airport for the past few days.

Stolen Gold May Be Found Through Arrest In Laredo

LAREDO, July 10.—(UP)—With the arrest here of Enrique Gonzales on a warrant charging theft, authorities believe they are approaching a solution of the mysterious disappearance last January of 58,000 pesos of Mexican gold from an automobile.

BELLS WELCOME DIGNITARY

GUANAJUATO, Guanajuato, Mexico, July 10.—(AP)—The return to Guanajuato of Father Nicolas Munoz, to take charge of the Catholic churches here which had been priestless since the outbreak of the Church-State controversy in 1926, was the occasion for an enthusiastic public celebration.

All church-bells in the city were set to ringing upon the arrival of Father Munoz and he was escorted through town by municipal officials while women showered the party with flowers from balconies along the streets.

The mayor delivered the church-overs to the priest's care soon after his arrival.

Extension Worker Says Midland Can Be Easily Made Into Fairyland of Flowers

More size is no measuring stick by which to judge the possibilities for beautiful grounds, the home demonstration agent of the county says in offering her services to farm women of the county in beautifying their yards and outlying grounds.

"The home on a small lot can have just as attractive surroundings as the largest estate in the land," the agent says. "In fact, some of the very prettiest and most tasteful plantings in the country today are to be found surrounding homes of modest size. The city apartment dweller can often find a place for hardy flowers or other plants for his enjoyment. A vine growing on an apartment wall will add considerable beauty to the building.

HOTEL ADDITION IS BEING RUSHED TO COMPLETION

Pouring of columns under the seventh floor of the Scharbauer Hotel addition is going forward today, and beams and slab on that floor will be poured soon. J. O. Everetts, contractor, has returned from Dallas to personally supervise the work.

The construction of the hotel addition has been marked by unusual dispatch. All the reinforcing steel is in the building and is riveted. A roof slab will be poured and atop that a bungalow for Mrs. Clarence Scharbauer.

Odessa Plans An Anniversary Day; To Be Largest

Odessa is planning for an intensive celebration in honor of its 42nd birthday.

A general invitation has been extended to the citizenship of Odessa to attend a luncheon given by the Chamber of Commerce of that place in the Elliott hotel for the discussing and perfecting of plans for the Anniversary Celebration to be held in Odessa August 3. The plans for this celebration of Odessa's 42nd birthday, which have been so far merely a matter of discussion, will be drawn up and put into form for immediate action, the Odessa News-Times says, and continues:

"The plans so far discussed are for an old-fashioned Western celebration featuring a ranchers' barbecue in the old style, with such other features of entertainment as a parade of progress, a street dance, and a rodeo. The entertainment program, when completed, will be for the most interesting holidays in the history of Odessa.

The plans so far discussed are for an old-fashioned Western celebration featuring a ranchers' barbecue in the old style, with such other features of entertainment as a parade of progress, a street dance, and a rodeo. The entertainment program, when completed, will be for the most interesting holidays in the history of Odessa.

"Old Rip" Bettered By Fellow Townsman Sleeping in Earth

COLORADO, Tex., July 10.—(AP)—A second Rip Van Winkle toad has been found.

The famous horned toad which allegedly slept 31 years in the courthouse corner at Eastland probably had a short nap compared to a toad found here imbedded in a sandstone nine feet in the ground.

The toad was a common hop-toad, full grown. It was discovered by C. B. Bassham, who was digging a septic tank where he is constructing a tourist camp in the eastern limits of Colorado on the Bankhead highway.

The workmen had dug through sand and clay to a depth of nine feet when they struck sand rock in breaking this rock the toad was found in a solid block. A round cavity about two inches across, enclosed it.

The toad hopped off slowly when the rock was broken. Long claws on its feet indicated it had been inactive for a long period. Its front legs appeared a little deformed and its eyes bulged out when the light struck them. Its skin was pale.

TO "CARRY ON" TO THE VERY LAST

Divers Knock on Hull But No Answer Given

PEMBROKE, Wales, July 10.—(UP)—There is still a possibility that some of the crew of the submarine H-47 may be alive, an official British Admiralty report to the United Press said today.

Heavy seas prevented the deep-sea divers from entering the submarine. "We shall carry on until there is no doubt but that all are dead," the official report said.

Submarine Tries

PEMBROKE, Wales, July 10.—(AP)—A British submarine today dived in the vicinity of the stricken H-47 and tried to communicate with 21 men entrapped in the shell of the mighty undersea boat, but without avail.

The boat tried communication with sound telegraphy, using a bell with the Morse code but no answering signals came.

A diver said to be very experienced in navy equipment has been equipped with what he considers the best of German diving suits, but he professes to believe that he cannot go down to the depth of 330 feet at which the U-boat is submerged.

INTERNATIONALLY KNOWN PAINTER IN ABILENE NOW

Peter Plotkin, internationally known Russian painter, has begun a series of historical paintings, depicting Texas and Southern heroes and early West Texas scenes, he has announced from his studio at Abilene. The work is in connection with his new position as professor of portraiture and historical painting at Simmons University, he stated.

General Sam Houston, General Robert E. Lee, General Stonewall Jackson, and scenery of pioneer West Texas are the subjects to be used by Plotkin. He will also paint again his famous, "Raising of Jarius' Daughter," the painting which, together with the \$60,000 American Legion picture "Never Alone," has done more than any other to make him famous.

Plotkin holds a Doctor of Philosophy degree from the University of Petrograd, where he was a teacher before the Russian Revolution. He came to the United States as the official artist of the Zionist movement, was later converted to Christianity and finally last year came to West Texas.

"We want to make people over the Southwest come to West Texas," he said in speaking of his new position at Simmons "for their art instead of going to Chicago or other cities."

FLAPPER FANNY SAYS

The marriage relation of the newly married couple is mainly a re-counting of woes.

THE QUIRKS OF THE LAW

The ins and outs of criminal law are beyond the comprehension of the average man...

Al Capone, Chicago gunman, was arrested a month or so ago in Philadelphia for carrying concealed weapons.

But the other day his lawyers filed a brief in the Philadelphia courts seeking his release, alleging that his trial was "prejudiced."

This may be all very clear to lawyers. But what layman can help wondering how a man who pleaded guilty to a crime can possibly claim that he did not get a fair trial?

THE RETURN OF THE BISON

The American buffalo, or bison, nearly exterminated a few years ago by the uncontrolled activities of hunters and so-called "sportsmen," is coming back.

To be sure, the great plains of the west are not getting back the big herds they once had. But in Alaska and Canada colonies of bison, established in the open range lands a few years ago by nature lovers, are multiplying and thriving.

Northeast of Fairbanks, Alaska, a large herd is said to be in existence, while northwest Canada counts its bison by the thousand.

These, it must be understood, are buffalo living in the wild-state, as distinct from those maintained on ranches and in parks.

Probably it will never be possible for the western United States to swarm again with bison as it once did; neither possible, nor altogether desirable. But no American who likes his country's colorful past can fail to be glad that in some places, at least, the animal is coming back.

GORGEOUS WEDDING GOWN FOR BELLE BENNETT

Forty-five pounds of glitter is a weighty load to carry in addition to a heavy role, but Belle Bennett, star of "My Lady's Past," the Tiffany-Stahl talking picture showing Sunday at the Grand Theatre, managed both beautifully.

The wedding dress worn by Miss Bennett in the picture weighs exactly forty-five pounds. The dress is trimmed with one million two thousand cut steel and mirror beads. It took three embroiderers five weeks to finish this elaborate creation, which is the most expensive wedding gown ever worn on the screen.

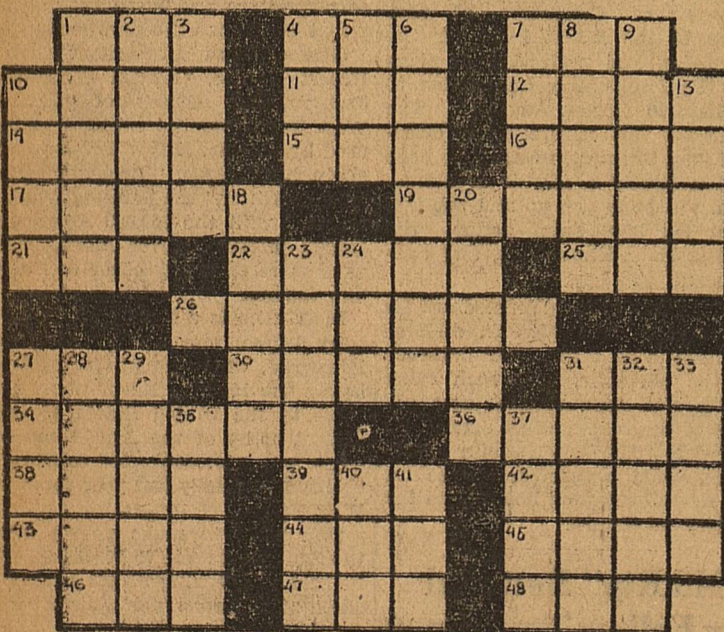

In addition to all the bead embroidery, imported Alencon lace was used as a foundation for the bead design. Miss Bennett said it surpasses any garment she has ever had, either on the stage or screen.

EASY MEALS

The menus below are for easily prepared summer meals. They will delight the family, too.

- I Chilled Melon, Broiled Ham Au Gratin Potatoes, Combination Salad, Ice Cream Berry Sauce, Iced Coffee. II Radishes Young Onions, Pressed Meat Loaf Potato Chips, Corn on the Cob, Fruit Salad, Coffee Milk. III Fruit Cocktail, Lamp Chops New Potatoes, Green Peas, Cucumber and Watercress Salad, Iced Chocolate Cookies.

Crossword Puzzle

- Horizontal: 1. Offum, 4. Gentle knock, 7. Young goat, 10. Viscid fluid used for uniting substances, 11. Lubricant, 12. Colored portion of eye, 14. Insolent, 15. Eon, 16. To wash, 17. Wrong, 19. A gait similar to a gallop, 22. Pertaining to the North Pole, 26. Chief custodian in a museum, 27. Collection of facts, 30. Fumes, 31. Any flatfish, 34. Ability, 36. Uneven as if eaten away, 38. SOCIETY

APPROACHING MARRIAGE OF MISS COLLINS TO MR. NUTT ANNOUNCED AT PRETTY AFTERNOON BRIDGE

Announcement of the engagement and approaching marriage of Miss Elma Collins, popular Midland girl, to Mr. K. E. Nutt, Jr., of Lovington, New Mexico, was made yesterday afternoon to a group of friends at a bridge party given by the mother of the bride-elect at the Collins home.

The announcement was cleverly made when Miss Jennie Elkin who held high score in the games was presented as her trophy an attractive package and when opened it held a dainty car bearing the inscription "Elma to K. E. - Pretty Soon".

The wedding will be a culmination of a several year romance when the couple met as students in Midland high school. The bride-elect is the daughter of Mr. and Mrs. J. P. Collins and she is a graduate of the spring class of Midland high school. During the summer months she has been a student in the Dallas Academy of Speech and Drama. She is a popular and talented young woman in musical and expression circles here. The groom-elect is the son of Mr. and Mrs. K. E. Nutt, Sr., of Lovington, New Mexico. He has spent most of his life in Midland, having completed high school here and also worked in the First National Bank. He is now assistant cashier in the Lovington bank. The marriage will join two pioneer ranch families of this section.

Pink and White

Pink and white were used in the decorations at the party with table covers, tallies and score books in this motif. Pretty garden flowers were used to add attractiveness to the scene. This same motif will be used in the wedding, which will be a simple, yet impressive ceremony at the Collins home.

At tea time tables were covered in attractive sets and dainty plates bearing ices in pink and white were passed to the guests. Plate favors were pink scrolls tied with sweet peas and ribbons bearing the announcement.

The guest list included: Mesdames Paul T. Vickers, Jno. W. Collins, Carroll Hill, Ora Collins, Dick Knox, Carl W. Covington, Misses Lydia G. Watson, Georgia Kirk Davis, Ruth Norwood, Pearl Wimberly, Dora Wall, Jessie Mae Estes, Virginia Hale, Jennie Elkin, Lucille Thomas, Bernice and Marie Hill, Emily Flanagan, Francis, Dorothy and Bennie Sue Ratliff, Ruth and Jean Wolcott, Eulalie Whitefield, Nancy Rankin, Ida Beth Cowden, Helen Margaret Ulmer, Martha Louise Nobles, Doris Harrison, Annie Laurie Hix, Helen and Ruby Hodges, Imogene Cox, Evelyn Garlington, Margaret Francis, Lois Walker, Janelle Edwards, Marion Wadley, Mary Belle Pratt, and Jewell Midkiff.

The regular club meeting of the Edelweiss Club was held yesterday afternoon with Miss Lois Patterson as hostess at her home.

Bridge games were played by the guests during the afternoon at the close of which Mrs. J. M. Speed received linen for holding high member score; Mrs. A. S. Legg was given a stocking bag for cutting high and Mrs. Harry Tolbert was presented a relish dish for holding high guest score.

Guests were Mesdames J. M. Speed, Hayden Miles, A. S. Legg, Harry Tolbert and Misses Thelma White, Lula Elkin, and Fannie Bess Taylor.

During the tea hour tables were centered with pink and green bud vases of sweet peas. Party plates were passed to Messrs and Mesdames C. B. Goodman, C. D. Hodges, Fred W. Chapman, Ernest McKinney, Charlie George, Lee Jones, Jr., Layton, Dr. and Mrs. D. M. Ellis, Mesdames H. S. Collins, E. H. Braswell, Misses Poole, Willie Little and Messrs. Chambers and J. D. Douglas.

Mrs. J. H. Dean and daughters Helen and Ruby Hodges returned last night from Post where they have been visiting Mrs. Dean's sister Mrs. Hölley and family.

At the social period salads and cakes were passed to Mesdames W. A. Yeager, W. E. Wallace, R. W. Patterson, C. E. McCool, H. H. Meek, J. D. Young, N. W. Bigham, Addison Wadley, J. H. Longabough, Ed Dawson, Geo. Abell, H. M. Bayer, C. L. Jackson, Dave Finley, S. H. Casteel, J. H. Finlayson, Green, Massingale, D. E. Shoemaker, C. E. Patterson, Keasler of Eastland, Alledge Estes, E. I. Head, E. H. Stafford and the honoree.

Abilene Guest Complimented at Evening Bridge

In compliment of Miss Grace Poole of Abilene who is her house guest Mrs. J. D. Chambers entertained with bridge at her home last evening.

Attractiveness was lent to the scene by the use of pink and green in table covers, tallies, and score books. Profusions of garden flowers in all shades added a lovely touch of summertime to the party.

In the games Mrs. Lee Jones was presented high score favor for ladies and Mr. C. D. Hodges was awarded for holding high men's score. The honoree was also favored by the hostess.

During the tea hour tables were centered with pink and green bud vases of sweet peas. Party plates were passed to Messrs and Mesdames C. B. Goodman, C. D. Hodges, Fred W. Chapman, Ernest McKinney, Charlie George, Lee Jones, Jr., Layton, Dr. and Mrs. D. M. Ellis, Mesdames H. S. Collins, E. H. Braswell, Misses Poole, Willie Little and Messrs. Chambers and J. D. Douglas.

Mrs. J. H. Dean and daughters Helen and Ruby Hodges returned last night from Post where they have been visiting Mrs. Dean's sister Mrs. Hölley and family.

DON'T SLUMP IS WARNING OF GRACEFUL MOVIE STAR

By MABEL DUKE For NEA Service

The principles that apply to correct and beautiful walking also apply to graceful sitting. Many of us sink into comfortable chairs, sitting on our backbones with our toes pointed inward.

"Don't slump! That is the greatest warning to give concerning a graceful sitting position," declares Olive Borden. "Keep the backbone straight and the shoulders back. That doesn't mean to sit on the edge of the chair in a stiff, ungraceful attitude. Stiffness is never beautiful. But neither is slumping execrable."

"The hands are attractive if they rest in the lap, palms up, instead of flitting about nervously. As for the legs, crossing them is no longer considered 'bad taste.'"

Perhaps the most beautiful position is to have the legs on a diagonal line with the chair, one toe on the floor and the other at the ankle of the forward foot, as Miss Borden is sitting in the accompanying illustration. In this manner, the forward foot and leg form a straight line from the knees to the toe, accenting the arched instep.

"This same idea of a straight line from knee to toe should be followed, whatever the position of the legs," Miss Borden said. "If they are crossed, the foot resting on the floor should form the straight line, with the weight resting on the ball of the foot. If one sits with both feet on the floor, one in front of the other and the ankles slightly crossed, the leg in front should be straight, with the line unbroken at the ankle."

"Sitting beside another person to whom one is talking, a graceful position is to have the ankles crossed, as described in the preceding paragraph. The front foot should be the one furthest from your companion. This gives a graceful turn of the body toward the one with whom you are speaking."

as described in the preceding paragraph. The front foot should be the one furthest from your companion. This gives a graceful turn of the body toward the one with whom you are speaking.

NEXT: Doris Hill tells how girls become pretty.

Cisco Guest Honoree At Distinctive Bridge Affair

Mrs. W. L. Brown named as her guests yesterday afternoon members of the Tuesday Bridge club and as honor guest, Miss Ray Holland of Cisco, who is her house guest.

Shades of yellow and rose were stressed in package wrappers, table appointments and floral decorations.

Favors went to the honoree; to the club scorer, Mrs. H. M. Bayer; to the high guest, Mrs. Ed Dawson, and to high cut, Mrs. J. A. Finlayson.

At the social period salads and cakes were passed to Mesdames W. A. Yeager, W. E. Wallace, R. W. Patterson, C. E. McCool, H. H. Meek, J. D. Young, N. W. Bigham, Addison Wadley, J. H. Longabough, Ed Dawson, Geo. Abell, H. M. Bayer, C. L. Jackson, Dave Finley, S. H. Casteel, J. H. Finlayson, Green, Massingale, D. E. Shoemaker, C. E. Patterson, Keasler of Eastland, Alledge Estes, E. I. Head, E. H. Stafford and the honoree.

Mr. and Mrs. Kenneth Farr and her sister Corene Neal left Midland this morning to make their new home in Lockhart. Mr. Farr is district manager of the Trit-olite Company.

Miss Grace Poole of Abilene is the guest of Mr. and Mrs. J. D. Chambers.

Bill Bryan and Roswell Miller of Odessa are visiting Harry McCarty today.

Salads Frozen In the Morning Save Night Rush

By SISTER MARY NEA Service Writer

Whenever it's possible the forehanded housekeeper prepares her salad in the cool of the morning and keeps it in the icebox until wanted.

A frozen salad can be left almost indefinitely in the drawer of an electric refrigerator or can be kept in ice and salt for five or six hours.

The lettuce can be washed and kept in an air-tight container until wanted. If these things are

Stuffed Jellied Salad

Two tablespoons granulated gelatine, 1-2 cup cold water, 1 cup boiling water, 1-2 cup lemon juice, 1-3 cup sugar, 1-2 teaspoon salt, 1 package cream cheese, 4 tablespoons finely chopped nuts, 4 tablespoons minced celery, 4 tablespoons whipping cream, 2 peaches, lettuce, French dressing.

Soften gelatine in cold water. Add boiling water and when dissolved add sugar, lemon juice and salt. Pour into individual molds which have been dipped in cold water. Remove from molds and cut a slice from top of each. Remove centers and fill with cream cheese moistened with cream and combined with nuts and celery. Place each mold in a wreath of sliced peaches arranged on lettuce. Replace slice removed from top very carefully and serve with French dressing.

A thick slice of apple or pineapple could be used in place of sliced peaches. Fine large tomatoes, cut in thick slices also might be used and would supply an attractive touch of color.

done in the morning the actual work at dinner time is merely a matter of serving.

Jellied salads usually require at least two hours to become firm and may be kept on ice for 24 hours without detriment to the salad.

One precaution should be kept in mind. Extra gelatine is necessary during hot weather and when fruit is included among the ingredients if the jellied salad is to be appetizingly firm.

The following salad can be varied in several ways and features the surprise element which is always popular.

Jack Williams arrived in Midland this morning from Oklahoma and is visiting his father J. H. Williams at Hassen Dry Goods Company.

SOCIAL CALENDAR

VITAPHONE TRIUMPHS IN COMING "NOAH'S ARK"

Vitaphone having thrilled the word in a series of sensational talking pictures—finds its most magnificent demonstration in "Noah's Ark"—epic of all humanity. Touching the ends of the rainbow-span of fifty centuries—"Noah's Ark" includes in its cast more than ten thousand characters, and was more than three years in the making. Darryl Francis Zanuck wrote the story. Michael Curtiz, who produced "Moon of Israel," and other spectacular successes abroad, directed. The sets covered more than a square mile and the cast is one of the most impressive ever assembled.

Dolores Costello is starred with George O'Brien. In the supporting company are Noah Beery, Louise Fazenda, Guinn Williams, Paul McAllister, Nigel de Bruhier, Anders Randolph, Armand Kaliz, Myrna Loy, William V. Mong, Malcolm Waite, Noble Johnson, Otto Hoffman and Joe Bonomo.

Vast and thronging are the scenes and situations of "Noah's Ark." The love story that runs through it is glamorous and moving. Characters wrecked on a continental train, find themselves in Paris at the opening of the World War. Passing through the soul-stirring time—they find themselves waffed back fifty centuries to the days preceding the Flood—actors in scenes of heathen worship, debauchery, slavery—and in the idyllic life of the family of the "one just man," Noah.

Miriam, handmaiden in the household of the patriarch, is captured by the heathen soldiers. Her lover, Jepheth, son of Noah, is trying to rescue her, is tortured and sent to exile. Then the Flood!

Ritz starting Thursday.

VICTORIAN MODESTY BACK; BUT ONLY IN FURNITURE

LONDON, July 10.—(UP)—Victorian modesty is having a rebirth in London with the result that table legs again are being draped and the "bare" sides of upright pianos hung with silk.

Footstools, pin-cushions, and even portieres figure in the renaissance. Victorian jewelry also is being revived, due largely to American girls, who are buying Victorian brooches and stomachers and having them reset as pendant earrings.

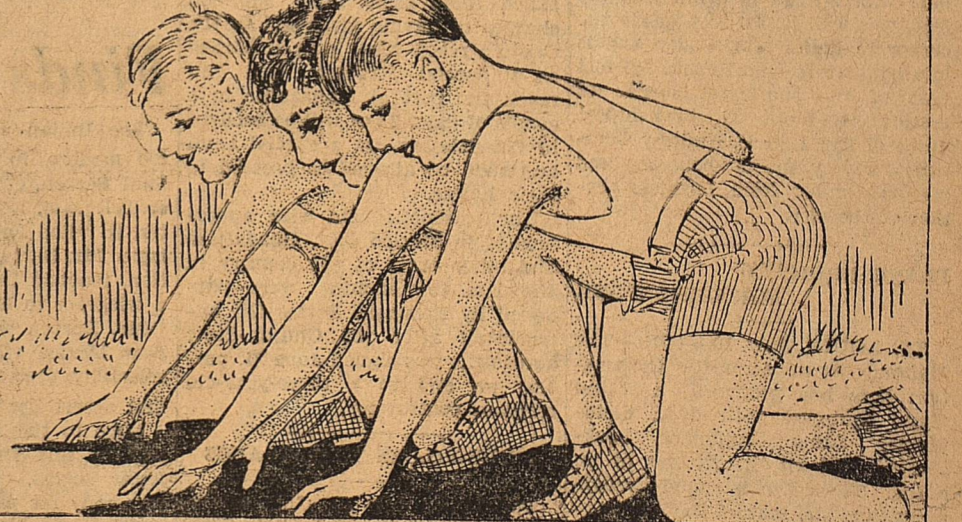

Furniture drapes are chosen to harmonize with the color scheme of each room. Only the smallest stumps of table legs are permitted to show beneath their silk or muslin "trousers."

Geo. Carr of the Roxana Petroleum Company is here from Eastern New Mexico.

For HEALTH Dairyland MILK

Athletes are milk drinkers. In every field of sport, one finds enthusiastic milk drinkers. People who must be fit at crack of the pistol or the sound of a gong rely on milk as one of the prime factors in "keeping fit."

Milk is good for everybody—from infancy to old age. Dairyland Milk is perfectly pasteurized and the best money will buy.

COLTS DROP GAME TO ABILENE AS ORR GETS MERRY WITH BAT

LEFTY MOORE IS BAD WITH HIS BAT AGAIN

The rompin' Colts were paddocked by the slugging Aces in Abilene yesterday and fell before them, 13-7. It was Orr who spelled defeat for the Colts, the big fellow making every hit count for a run and his home runs, two of them, chasing in two runners ahead of time. Moore of Midland hit in three of his times at bat, maintaining his reputation of being a dangerous hitter at any time. One of his blows was a homer, another a triple.

Midland goes into goat and sheep country tomorrow for a series with the Herders of Angelo. The box score:

MIDLAND—	AB	R	H	O	A	E
Boyd, ss	4	0	2	4	4	0
Lewis, 3b	4	0	0	3	2	0

COAST TO COAST WITH GOVERNMENT BOMBING PLANES

(EDITOR'S NOTE: This is the fourth story written expressly for The Reporter-Telegram by Allan Smalstead, staff writer on the Columbus (Ohio) Dispatch, who was here with the government ships recently.)
Apache Pass Ahead
Generally, mountains did not cause the ships to alter their line of travel. Altitude was well over 5000 feet, and ordinary mountain ranges were crossed without any difficulty. Flying conditions were marvelous. A tail wind sent our ships across the mountain wastes at more than 100 miles an hour without the slightest sign of a bump.

But Apache Pass was still ahead, with all these so-called awful air currents. About 6 a. m. I saw it in the distance—a narrow gap between the Chiacahua and the Dos Cabezas mountains, almost 10,000 feet high. Gradually Captain Black took on a little more altitude (to make allowance for the bumps, I thought.) Finally we were in it and I took a firm hold on the framework of the cockpit and braced myself for the first unexpected plunge.

It took about ten minutes to get through the pass and at the end of that time our ship hadn't dropped a foot from its level. When I finally let go of the graces I noticed my fingers were cramped. I must have had an awful hold on that plane—al for nothing. Air cruising was never more beautiful.

"How high in this are we?" I wrote to Captain Gore, reserve officer, who took Lieutenant Kenney's place at Midland. "About 6000 feet above sea level and dang fine air, too," he replied. I guess they were all tickled pink about atmospheric conditions. Next we flew over an alkali flat, topped the Dragon mountains, skirted the Rincon mountains, bleak and barren, and put down on David Montahan field at Tucson (pronounced "Too-sawn") in Arizona, at 7:30 a. m. We had covered 280 miles in two hours and 45 minutes.

Last Hop Is Begun
Other planes landing ahead of us stirred up a dense cloud of dust on the field and landing was precarious. We bought sandwiches, but heaven-stood cold water was the real treat. Having refueled, we took off at 8:30 a. m. for the last lap to San Diego, 390 miles away over the highest mountains of the journey. Little did I know as we passed over Tucson that my cousin, Mrs. Bernice Norman, whom I had not seen for 17 years, was looking up at me from her front yard. Neither did she know I was up there looking down. I saw her later at Peoria, Ariz.

One hundred miles out of Tucson and we began to fly over utter desolation—desert, white sand, alkali—a blinding sun beating down from a cloudless sky. At Gila Bend we picked up the Gila (pronounced "Heela") River. It was dry as a bone and stayed that way for more than 100 miles until it neared the Colorado River, which it joins. The valleys of these streams are barely above sea level. In the Colorado valley, however, there was some vegetation, having been brought about by irrigation. This vegetation stopped abruptly where water was not provided, the desert running right up to the tilled land.

Fifty miles out of Yuma we passed over desert very similar to that of the Sahara. In fact, we crossed the white sand dunes where the famous story, "Beau Geste" was filmed. Approach Coast Range

valley, below sea level, began to stretch out. Twenty miles to the north was the Salton sea, 250 feet lower than the surface of the sea. But ahead loomed the jagged peaks of the California coast range. Up to this point a forced landing could have been executed almost anywhere. But here was a pile of rock 75 miles wide, which, from all appearances, even must give a bearded mountain goat plenty of trouble. Over the Imperial valley we had dropped to about 2000 feet altitude. To clear the Laguna mountains we hit 10,000, well above the snow line, and I nearly froze to death. Heating stoves in a plane are scarce articles. Flying over that stretch of mountains provided one of the greatest thrills, missing peaks by only a few hundred feet. Our motors, which were our only salvation on this stretch, functioned perfectly, the thin atmosphere not having the slightest effect.

End In Sight
Very typically, the coast range dropped abruptly into the sea and when the last mountain swept by, the calm bosom of the Pacific ocean opened itself before us. It was a welcome sight and the end of a never-to-be-forgotten journey. Anxious to get home, Captain Black gave his motors more throttle and we sped over San Diego bay at 120 miles and hour. Below us was Coronado bay and Coronado island, where Rockwell field, the home of the bombers, is located. Still shivering from the mountain air, we landed at 12:35, Pacific time, covering the 390 miles from Tucson in four hours and five minutes.

Here we were 2170 miles by air-line from home and accomplished the trip in 23 hours and 45 minutes flying time. It almost seemed impossible. Going home on a crack train took 72 hours and it was bore some. It was a great homecoming for the boys. We were courteously welcomed. We land-lubbers were pouncing ourselves on the back for not having "coughed up the cookies," as one flyer termed it. But our ears seemed ruined forever. These motors still roared in them the next day. Walking on land seemed strange. The land wouldn't behave.

Without further ado we climbed out and made a bee-line for a hotel and a bed. We sawed bed slats for 14 hours without batting an eye. Bid Farewell
The next day we bid farewell to the Eleventh Bombardment outfit, with great reluctance. They are gentlemen, one and all, from the mechanics on up. For lunch Walters, Miles and the author were the guests of Lieutenant and Mrs. Eugene Batten. Batten was second in command of the bombardment squadron. In the afternoon Mrs. Batten drove us over to Tia Juna and Agua Caliente to the Casino, the Monte Carlo of America.

This gambling house is by far the most luxurious and magnificent place I have ever seen. For an hour we watched the gaming at roulette and other "sucker" games, during which more money changed hands than I have handled in all my life. From Los Angeles I traveled by train to Peoria, Ariz., 16 miles from Phoenix, to visit my aunt and uncle, Mr. and Mrs. Robert M. Holmes, who left Ohio 17 years ago. I was the first one in their family back home they had seen since leaving Ohio.

Mistaken for Agent
To have been able to see them was also made possible by this trip. They didn't know I was coming. I was mistaken for a book agent. Mrs. Holmes was so overjoyed that she was almost hysterical. Their experiences as homesteaders in the Salt river valley would make a thrilling narrative and it was told me during my two-day visit. On Wednesday, June 5, I arrived at Ash Fork, Arizona, by train at 1:30 in the morning intending to take a bus back to Columbus, but when it finally arrived six hours later, it was loaded to the doors and I could not get on.

So I took a train. It was here while I waited for that infernal bus that I stood out in the middle of the National highway running through that desert town and also through Columbus, Ohio, and realized that it was a far cry back to Broad and High streets, Ohio. Here's the Secret
The reason—I'll tell you the secret. That distance on this occasion made the heart grow fonder, was that I had enough money in my jeans to take me home on a bus, but not on a train. But the "office" back home responded nobly to an "S. O. S." for

the necessary cash and I surely gave a big sigh of relief when I stepped on the Santa Fe limited, bound for Chicago. This business of being stranded outside of God's country, to my mind, is about the same as drowning and I have experienced the sensations of both. I must wind up this yarn with a story on "the missus." "Naturally you lost sleep while I was going to the coast," I ventured, upon my return. "No, sir!" she replied emphatically. "I wasn't a bit worried about your ride in the plane. But I was worried stiff about that awful trip back by bus."

Can you feature that?
June Doubles May In Passengers On TAT Company Line
FORT WORTH, July 10.—More than twice as many passengers flew over the lines of the T. A. T. Flying Service, Inc., during the past month as during the month of May. This fact is shown by a comparison of the operations reports of the two months.

During May 225 passengers were carried; during June 562 used the passenger lines. More than 81,000 miles were flown over the four Texas passenger lines during June, three of which maintained an efficiency of 100 per cent. The four lines operated are as follows: San Antonio to Brownsville, via Corpus Christi; Dallas to El Paso, via Fort Worth, Abilene, Sweetwater, Big Spring, and Midland; Fort Worth to San Antonio, via Dallas, Waco, and Austin; and Fort Worth to Houston via Waco.

The June total in mileage brings the total miles flown by the subsidiaries of the Southern Air Transport to the million and a half mark, all flown without injury to pilot, passenger or personnel and without the loss of a single piece of mail. About 250,000 miles all told are flown every month by these subsidiaries in carrying passengers, flying mail, and training students.

PERSONALS
A. E. Caldwell of the Agee Screen door Company is here on business from his home in Abilene. Mesdames Stanley McCarty and Tazny McCarty of Lovington, New Mexico, were shoppers in Midland today. Mrs. J. R. Harrison and daughter Doris accompanied by Miss Elizabeth Peters left this morning for Abilene where they will visit several days. Mrs. Harrison and Doris will go from Abilene to Gatesville.

(Continued from Page 1)
for rent, than the same place unplanted or poorly planted." Planting methods have undergone a change during the past decade or so, Miss Derryberry points out.

"Tucked away in the older residential section of some of our towns there are still to be seen charming old places of an age gone by. No doubt, some of the old settlers could tell of the circular flower beds that once adorned the lawn, of the iron deer that stood sentinel near the gate. These are the marks of an age gone by, for styles change in planting as in everything else.

"The new style is to plant your lawn with open center, with mass plantings relegated to the boundary lines. Just as you furnish every portion of your home, just so you should plant every part of the grounds to secure the maximum in beauty and enjoyment. "And best of all, you are not handicapped today by lack of materials. There are hundreds of plants which once were rare and costly but now are available in unlimited quantity at very reasonable costs. There are shrubs and trees, vines and flowers for every use and purpose. There is a type of foliage, a color of flowers for every effect imaginable." The demonstration agent will tell more of ways by which Midland and Midland county may be made into what she terms "a Paradise of flowers" in other issues of The Reporter-Telegram.

where they will visit Mrs. Harrison's mother.

800,000
New CHEVROLET Sixes
on the road since Jan. 1st!
Today's Chevrolet is scoring a huge nationwide success because it represents one of the most sensational achievements in automotive history—a Six in the price range of the four.

Until you actually drive this remarkable car, you cannot appreciate how smooth, quiet and comfortable a low-priced automobile can be. Due to superior inherent balance, the Chevrolet six-cylinder engine delivers its power freely and easily throughout the entire speed range—delightfully free from annoying vibration and rumble. Combined with this remarkable six-cylinder smoothness are equally remarkable speed, power and acceleration—and an economy of better than twenty miles to the gallon.

In addition to such sensational performance, the Chevrolet Six offers the outstanding advantages of Bodies by Fisher. And no car ever provided a more impressive array of modern convenience features—adjustable driver's seat and VV one-piece windshield in closed models, easy action clutch and gear-shift, ball bearing steering, and instrument panel complete even to theft-proof Electrolock and electric motor temperature indicator! Come in! Learn by comparison and a ride why hundreds of thousands of careful buyers have already chosen the Chevrolet Six.

FARMERS SURRENDER
MONTEREY, Nuevo Leon, Mexico, July 10.—(AP)—Agrarian groups in the vicinity of Iturbide and Galana have taken steps to surrender arms and ammunition issued to them by the government so they could aid in putting down the recent Escobar rebellion.

Retention of this war material by the Agrarians had led to alarm on the part of hacienda owners who felt that with armed groups of peons in the vicinity they were not safe.

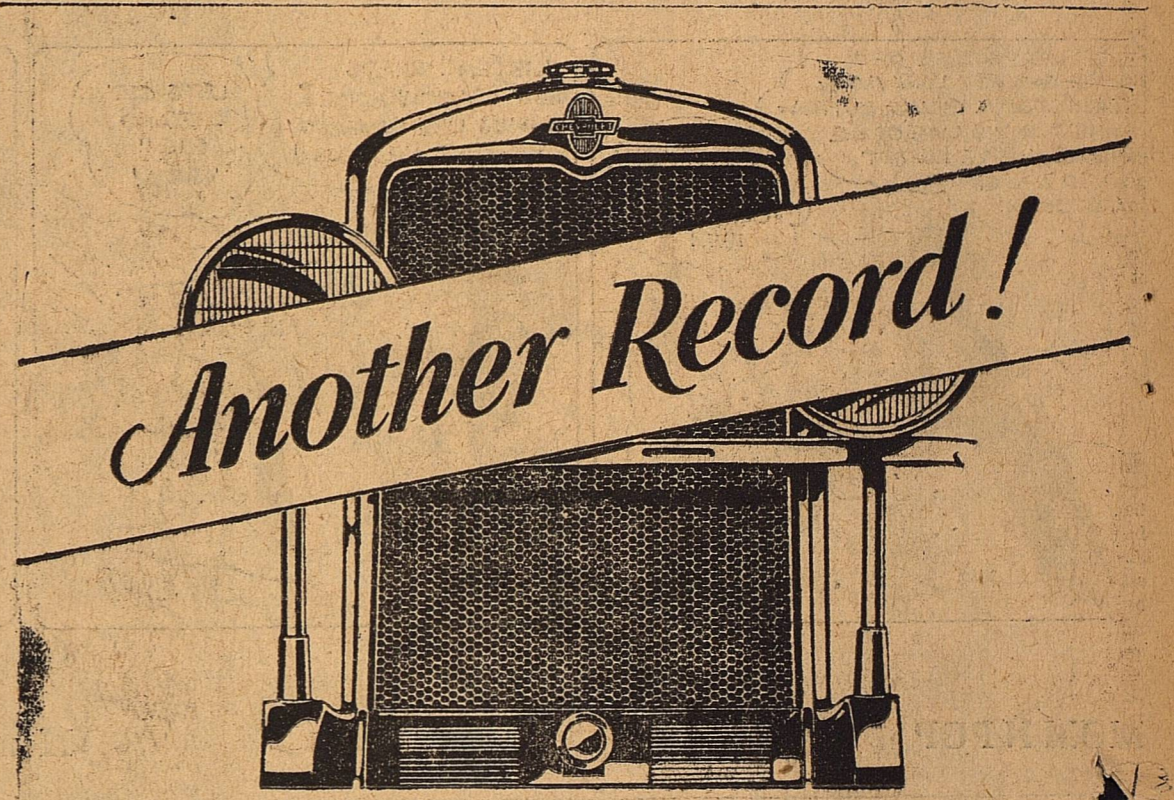

ENDURANCE SHIP STILL ALOFT
CULVER CITY, July 10.—(AP)—The ninth day of the endurance flight of the biplane Angeleno began today with the ship starting its 195th hour in the air. The pilots were cheerful and confident. They had said earlier in the day through signals that they intend to stay in the air as long as their fatigue does not hinder them too much.

"SCIENCE" IS NEW
"SUPERSTITION, SAYS
NOTED LECTURER
Science, blindly accepted by "advanced" people, is leading them into a new superstition just as harmful as the old, warns Dr. Horace J. Bridges, lecturer of the Chicago Ethical Culture Society. Dr. Bridges challenges the moderns to be just as skeptical of science as of old authority, explains Dr. Joseph Fort Newton in McCall's for August.

"Dr. Bridges knows that many of the doctrines now claiming the authority of science are merely baseless dogmas, for which science gives no warrant. He holds that the dogma now in vogue that nature, by some freak or fluke, has in man created or developed a being finer than herself, with needs for which she has no satisfaction, and ideals to which there is no corresponding reality, is sheer superstition; as much so as alchemy or old magic. Nor must we fail to detect it as

such because it is taught by a smart and jaunty cynicism, deriding man as a mere robot, a kind of animated machine, as the behavioristic psychology would have us think. "At present there is as much uncritical credulity among people called 'advanced' as there is among the most belated, and for some of us the new superstition is as unfounded as the old," says Dr. Bridges. "Our universities today are full of students so dazzled by the brilliance and awed by the seeming authority of certain popular writers as to feel that they can trust nothing of the teaching of the past."

ROB IN HOTEL
GALVESTON, July 10.—(UP)—While hundreds of guests throughout two floors below, two unmasked white men entered the room of J. P. Graves, Parkers, Kansas, at the Buccaneer hotel last night, and produced a pistol. They bound Graves and escaped with money and jewelry valued at \$750.

over
800,000
New CHEVROLET Sixes
on the road since Jan. 1st!

Today's Chevrolet is scoring a huge nationwide success because it represents one of the most sensational achievements in automotive history—a Six in the price range of the four.

Until you actually drive this remarkable car, you cannot appreciate how smooth, quiet and comfortable a low-priced automobile can be. Due to superior inherent balance, the Chevrolet six-cylinder engine delivers its power freely and easily throughout the entire speed range—delightfully free from annoying vibration and rumble. Combined with this remarkable six-cylinder smoothness are equally remarkable speed, power and acceleration—and an economy of better than twenty miles to the gallon.

In addition to such sensational performance, the Chevrolet Six offers the outstanding advantages of Bodies by Fisher. And no car ever provided a more impressive array of modern convenience features—adjustable driver's seat and VV one-piece windshield in closed models, easy action clutch and gear-shift, ball bearing steering, and instrument panel complete even to theft-proof Electrolock and electric motor temperature indicator! Come in! Learn by comparison and a ride why hundreds of thousands of careful buyers have already chosen the Chevrolet Six.
